## **SUB: GENERAL UPDATE**

Dear Shareholders,

The last two years have been a remarkable phase for the company, and we have surmounted multiple challenges to emerge successful. We as a team have shown immense strength of our character as an organization. Our Journey wouldn't have been possible without the support, patronage of all our valued shareholders. We take this as an opportunity to thank all our shareholders for being a constant pillar of support for our company since the takeover of the company by the new management in the year 2019. We assure you all that we will constantly strive to deliver our best on the trust that you all have shown in us.

The first step we took was to refresh and recreate our company's identity by changing the company's name from VCK CAPITAL MARKET SERVICES LIMITED to **SHRYDUS INDUSTRIES LIMITED**, and we are hereby delighted and pleased to inform you all that we have successfully obtained all the necessary approvals and stepped up the first step towards progress. And as a part of our refreshed identity, we are also in process of unveiling a new vibrant logo which will carry forward and build the legacy of the company for coming future generations.

The second step we took as an organization was entering into the pharmaceutical industry manufacturing market, by looking onto the trend of the industry and the impact that the industry had made during the tough global pandemic times. As mentioned already last year that we had identified a Pharma company with whom we were in deep negotiations, and they possess more than 25 years of experience with them in this industry, with having more than 400 products registered in their name worldwide, alongside having valuation of the Pharmaceutical Plant of more than 100 crores (One hundred crores) as on today and also the plant is strictly a 100% Export Oriented unit (EOU) in the manufacturing of tablets and Capsules located in Gujarat, INDIA. Today we are truly delighted to inform you all that the final negotiations and all due diligence are on the verge of completion and we are ready to move towards the second step of progress.

Please note that while the attached disclosure will not qualify as "Material Information", the company is making this disclosure voluntarily.

This is for your information and records. We hope it is and order and genuine.
