# Centre to review spending pattern of rural job scheme

**SAMJEEB MUKHERJEE**  
New Delhi, 25 November

The Centre has formed a high-level panel headed by a former bureaucrat to undertake a comprehensive review of the flagship rural job guarantee scheme's expenditure pattern, governance structure, and administrative issues with an aim to plug loopholes and leakages.

The move comes ahead of the Budget, with questions over the hefty allocation for the scheme despite resumption of normal economic activity. Sources said the panel, formed in October, is slated to submit its report by January, just before the 2023-24 Union Budget is placed in Parliament in February.

"The review is a pan-Indian exercise that will also look at areas and districts where Mahatma Gandhi National Rural Employment Guarantee Scheme (MGNREGS) expenditure has been highest in the past few years, and the reasons thereof. According to some reports, the spending on MGNREGS in poorer states such as Bihar and Odisha has been lower than the relatively economically affluent ones such as Tamil Nadu, which has a higher per-capita income. "One

big focus area of the panel would be to understand whether MGNREGS has been fulfilling its role of poverty alleviation and whether there needs to be any change in focus for that," a senior official directly involved in the process told Business Standard.

He said a fundamental alteration of the MGNREGS structure looked very unlikely because it was a legislation unlike any other government schemes, and would need Parliament approval.

"MGNREGS was started in 2006 and 16 years have passed since then. The scheme's performance and progress has been reviewed several times in the past and the current

## HOUSEHOLDS DEMANDING WORK (in mn)

one is also being done with the same objective to make it more in sync with changing times and requirements," another official said.

Work demand for MGNREGS has shown signs of slackening in the past few months. In October, around 15.5 million households sought work under the scheme, which is higher than the corresponding previous month of October 2019, but much less than the demand for the same month in the next two years.

The October work demand under the scheme, according to the MGNREGS website, is the lowest in a month so far in this financial year. However, the fact that a sig-

nificant number of people are still seeking work under this scheme means that the trend continues in the months ahead, there is a chance that once again close to 70 million households could seek work, said experts.

Before the pandemic, 50-55 million households regularly used to seek work in a year. This has jumped to over 70 million per year since the pandemic. If this year, too, over 70 million households demand work, then it will mean that the scheme characteristics have fundamentally undergone a change and overall economic growth is still not percolating down to the rural and unorganised segments of the society.

# Wheat planting area rises 10%

**SAMJEEB MUKHERJEE**  
New Delhi, 25 November

With almost 50 per cent of the normal area covered, wheat acreage could see a good jump this year, which is good news for a strong harvest if the weather remains benign in the coming months, according to traders and market players.

Till Friday, November 25, wheat was sown in around 15.28 million hectares, which is almost 10.48 per cent more than the area covered during the same period last year. As regards other crops, mustard has been sown in around 7.08 million hectares, which is 14.38 per cent more than in the same period in 2021.

Gram (chana) has been sown in around 6.71 million hectares, which is marginally more than the area covered during the same period a year ago.

In total, rabi crops were sown in around 35.85 million hectares till Friday — 7.2 per cent more than the area covered during the same period last year.

Usually, the main rabi crops are sown in around 64 million hectares. This means that so far sowing is over in nearly 56.25 per cent of the normal area, which is the average area covered in the last five years. During the week, wheat prices in the domestic markets scaled new highs, almost ₹2900 per quintal, in North Indian markets. The Centre has said it is monitoring the situation and will take a call on resuming open market sales for wheat, lowering import duty, or extending the

Pradhan Mantri Gareeb Kalyan Ann Yojana (PMKAY) beyond December at an "appropriate" time. It said it would have enough grains in its inventories even if the scheme is extended beyond December.

Under the PMKAY, the central government has been distributing 5 kg of wheat and rice over and above the usual monthly allocation to almost 800 million beneficiaries under the National Food

Security Act. Meanwhile, private commodities player Origo has upped the kharif production numbers. In its September estimate, Origo had projected kharif production to fall to around 640.4 million tonnes. Origo now has projected India's kharif production for the crop year 2022-23 at 642.67 million tonnes, which is, however, 1.7 per cent lower than in the same period last year.

## CRISIL SME TRACKER

### Non-Covid-19 services may boost hospital SMEs in FY23

CRISIL M&A RESEARCH expects the revenues of hospitals and nursing homes to grow by a healthy 13-18 per cent year on year in the current fiscal year (FY23) too, after a high optical growth of 25-27 per cent in FY22 owing to the low base of 2020-21 (FY21).

Growth will ride on revival in demand for non-Covid-19 treatments — or regular services such as elective surgeries, outpatient department and other treatments — along with price hikes by health care providers, which will increase average revenue per operational bed.

Small and medium enterprises (SMEs), which account for 60-65 per cent of the health care delivery market, stand to benefit from the improvement. SMEs in this segment are mainly involved in primary and secondary care, and only a few provide tertiary care.

For the record, the first quarter of FY23 saw the pandemic's second wave and related mobility restrictions. Even though the focus was on Covid-19, regular treatments were hit less severely compared with the first wave. As a result, smaller hospitals mandated by the government to reserve a portion of their beds for Covid-19 patients witnessed a rise in occupancy. These hospitals also benefited from pent-up demand as the second wave abated and recovery in regular treatments kicked in.

## ALL IN A DAY

### SC seeks govt reply on pleas for recognition of gay marriages

Over four years after decriminalising consensual gay sex between adults, the Supreme Court on Friday sought response from the central government to separate pleas by two gay couples seeking enforcement of their right to marry and a direction to the authorities to register their marriage under the Special Marriage Act. A Bench, headed by Chief Justice D.Y. Chandrachud, who was also part of the Constitution Bench which in 2018 decriminalised consensual gay sex, issued notice to the Centre besides seeking the assistance of Attorney General for India R Venkataramani in dealing with the pleas.

Senior advocate Mukul Rohatgi, appearing for the gay couples, said the issue was a sequel to the Navtej Singh Johar and the Puttaswamy judgments (gay sex and right to privacy verdicts respectively). The pleas seek a direction that the right to marry a person of one's choice be extended to LGBTIQ (lesbian, gay, bisexual, and transgender and queer) people as part of their fundamental right. One of the petitions has sought interpretation of the Special Marriage Act, 1954 in a gender-neutral manner where a person is not discriminated due to their sexual orientation. PTI

### Demonetisation: Can't put the clock back, govt tells SC

Resisting the Supreme Court's attempt to revisit the 2016 demonetisation exercise, the government said on Friday the court cannot decide a matter when no tangible relief can be granted by way of "putting the clock back" and "unscrambling a scrambled egg".

The remarks by Attorney General R Venkataramani came after he asked the Centre to explain whether it consulted the central board of Reserve Bank of India (RBI) before undertaking demonetisation of ₹500 and ₹1,000 denomination notes in 2016. A five-judge Constitution bench headed by Justice S.A. Nazeer is hearing a batch of 58 petitions challenging the demonetisation exercise. "The only submission you have made is that these are all economic issues done by experts, (so) don't touch it. What is your opposition to the plea of the other side? Tell us what is your submission to counter their submissions. They said it is not in conformity with section 26 (2) of the RBI Act." PTI
