Dear Sir,

**Sub: Submission of Newspaper publication of Unaudited Financial Results (Standalone and Consolidated) for third quarter and Nine months ended December 31, 2021- Regulation 30 of the SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015**

Pursuant to Regulation 47 of SEBI (Listing Obligations and Disclosure Requirements) Regulations 2015, please find enclosed herewith the copies of advertisement published on February 3, 2022 in Economic Times (English edition) and Financial Express (English and Gujarati) for Unaudited Financial Results (Standalone and Consolidated) for the third quarter and nine months ended December 31, 2021.

You are requested to take the same on your record and disseminate to the members.

Thanking you.

Yours faithfully,

For, **Meghmani Organics Limited**  
(Formerly known as Meghmani Organochem Limited)

**Jayesh Patel**

**Encl:** As above

In a Nutshell

**Tata Steel to Face Dutch Probe Over Pollutants**

Tata Steel will face a criminal probe in the Netherlands after the Dutch public health agency found higher concentrations of metals and carcinogens around its IJmuiden factory than the company's own figures. The Public Prosecution Service on Wednesday said it is investigating Tata and Kanso Metals Holland over whether they intentionally and unlawfully introduced hazardous substances into the soil, air or surface water. That would pose a risk to public health and executives' roles at the companies will be part of the probe, it said. The case could be closely followed by the wider European steel industry, as it may potentially draw attention to more operations. Traditional steelmaking uses large amounts of coal - the dirtiest fossil fuel - and chemicals, leading to almost unavoidable pollution of surrounding areas.

**Parl Panel Seeks Uniform Air Ticket Cancellation Fees**

**NEW DELHI:** A parliamentary panel on Wednesday pitched for cancelling uniform charges for cancellation of air tickets across airlines and expressed concern that the charges are not regulated by the government. In its report tabled in the Rajya Sabha, the Department of Parliamentary Services Committee on Transport, Tourism and Civil Aviation said the civil aviation ministry's guidelines to all airlines' airports to extend facilities to passengers imposed cancellation or delay of flights. According to the panel, there is a need for rationalising the cancellation charges and prescribing an upper limit of cancellation charges that can be collected from the passengers. It expressed concern over the ministry's reply that cancellation charges are not regulated by the government, which has resulted in non-uniformity in the charges levied by different airlines.

**Homes Can Install Rooftop Solar Panels by Themselves**

**NEW DELHI:** Households are free to install rooftop solar plants by themselves or via any vendor of their choice at pre-simplified procedures (under the Ministry of New and Renewable Energy (MNRE)). Earlier, residential consumers were required to source rooftop solar plant from listed vendors only to avoid subsidies and other benefits under the Rooftop Solar Programme. "The Ministry of New and Renewable Energy has issued a simplified procedure for the residential consumers to get the rooftop solar plant installed by themselves or through any vendor of their choice under the Rooftop Solar Programme," a ministry statement said. According to the new simplified procedure, an online portal for registering applications from the beneficiary, approval of the grid and taking progress will be developed. There will be a portal in the similar format at the level of the states and both the portals will be linked, the

DESIGN-LED 5G INITIATIVES

**PLI Scheme will Make India Manufacturing Hub: Foreign Gear Cos**

Players such as Nokia and Ericsson say it will allow them to deepen their capabilities in the country

Our Bureau

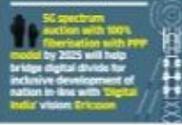

**New Delhi:** Multinational telecom gear makers like Nokia and Ericsson said the production-linked incentive (PLI) scheme for design-led 5G manufacturing will position India as a global manufacturing hub and allow them to deepen their manufacturing capabilities in the country.

Nokia said it is exploring opportunities to manufacture more products in India in a cost-competitive manner to serve both local & global markets. The company's India spokesperson said the company was on track to fulfil its investment and production commitments under the existing PLI scheme for telecom equipment. "Sweden's telecom gear maker Ericsson, in a separate statement, said 5G spectrum auction with 100% fibreisation with public-private partnership (PPP) model by 2023 will help bridge the digital divide for inclusive development of the nation in line with the 'Digital India' vision.

"Design-led initiatives for 5G under the PLI scheme and 5% of USOP for R&D purposes will strengthen the 'Make in India' initiative, and contribute to making India a global manufacturing hub," said Nishu Datta, managing director for India of Ericsson. The finance minister on Tuesday announced the launch of a PLI scheme towards design-led manufacturing of 5G equipment in her Budget speech. IT reported that the government will likely

More Opportunities

Nokia is exploring opportunities to manufacture more products in India in a cost-competitive manner to serve both local & global markets

allocate around ₹1,000 crore for the scheme, the announcement which is expected shortly. A senior official said IT that the funds for the PLI scheme would come from the already existing telecom equipment PLI scheme. The corpus for the telecom equipment PLI is ₹12,350 crore but the government expects to offer incentives worth only ₹1,000 crore, leaving surplus funds. Japanese conglomerate NEC Corporation, in turn, observed that fibreisation will bolster telecom infrastructure to support 5G-generation telecom technology. "The proposed PLI scheme for design-led manufacturing for the 5G ecosystem will also help boost growth," said Aashish Kumar, chief executive at NEC Corporation India. "It also looks at boosting the economy with the skill gap in various industries leading to an inclusive development," said IJL, chief executive, Huawei India.

LIC DIVESTMENT

**DPIT to Soon Approach Cabinet for FDI Changes: Industry Secy**

Our Bureau

**New Delhi:** Industry secretary Anand Jais on Wednesday said that the Department of Industrial Policy and Promotion (DIP) will soon approach the Cabinet to seek the approval of changes in the foreign direct investment policy to facilitate the disinvestment of Life Insurance Corporation and an inter-ministerial consultation on the matter is in its last stage. "Hopefully it should happen very soon. All the comments which will come from different departments will be supported by the proposal," he said after a media interaction. He also expressed hope that the cabinet

As per sources, the final proposal would be moved for Cabinet's consideration soon and that the approval is expected by mid-February.

India allows FDI up to 74% in the insurance sector, but this does not apply to LIC, which is governed by the LIC Act.

The government may allow up to 26% foreign investment in the insurance that plans to list by the end of this fiscal year.

The LIC Act does not mention foreign investment. Also, only the central government is allowed to hold more than 26%.

**Hindustan Zinc to Set up Fertiliser Unit in Two Years\***

Mumbai: Vedanta group company Hindustan Zinc has accelerated its move to set up a fertiliser manufacturing unit and has hired a chief executive to run the business,

reports Bhavya Dilipkumar. Hindustan Zinc CEO Arun Mirra said the company aims to set up the plant to manufacture di-ammonium phosphate (DAP) fertilisers

in the next two years with an investment of around ₹1,000 crore. It would use the by-products from zinc manufacturing and come up in western India, he told ET.

**Melinda Gates Will Pivot \$11.4 b Fortune Away from Foundation**

Melinda French Gates will increasingly give away her fortune through philanthropic efforts rather than the \$50 billion Gates Foundation. French Gates, 57, intends to spread her wealth across philanthropic endeavours, rather than pledging to give the bulk of it to the Gates Foundation, Dow Jones reported, citing people familiar with the matter. She and Bill Gates, 66, described their individual plans for donating their fortunes to charity, produced in November, almost seven months after announcing their divorce. French Gates has been building up her own philanthropic investment firm Pivotal Ventures, which was started in 2015. She is worth \$11.4 billion, as per the Bloomberg Billionaires Index.

**Tweet About Taking Tesla Private Was 'Entirely Truthful', Says Elon Musk**

**San Francisco:** Elon Musk says his 2018 tweet about plans to take Tesla private was "entirely truthful" and that investors who claim the massive was a fraud are wrong. Lawyers for the billionaire chief executive officer of the electric car maker said in a court filing Tuesday that Scott Aronin's sovereign wealth fund had indeed agreed to support his attempt to take the company private. "Elon Musk's August 7, 2018 tweet informing the public that he was considering taking Tesla private was entirely truthful," according to the brief filed Tuesday by attorney Alex Spiro. "Mr. Musk was considering taking Tesla private at \$420 a share. Funding for the deal was in place. There was investor support." The tweet ruled the company's shares and led the US Securities and Exchange Commission to sue Musk for fraud. Musk and Tesla settled with the agency, agreeing to pay \$40 million in fines. Musk stepped down as chairman of the company for three years. Shareholders claim in a class action suit pending in federal court in San Francisco that Musk's tweets were false and caused billions of dollars in losses. The investors are

# Putin Accuses US of Trying to Lure Russia into War

**Kyiv / Moscow:** Russian President Vladimir Putin accused the West on Tuesday of trying to lure Russia into war and ignoring Russia's security concerns over Ukraine.

In his first direct public comments on the crisis for nearly six weeks, a defiant Putin showed no signs of backing down from security demands that the West has called non-negotiable.

Putin described a potential future scenario in which Ukraine was admitted to NATO and then attempted to occupy the Crimean peninsula, territory Russia seized in 2014.

"Let's imagine Ukraine is a NATO member and starts these military operations. Are we supposed to go to war with the NATO bloc? Has anyone given that any thought? Apparently not," he said.

Russia has amassed more than 300,000 troops on the Ukrainian border, Reuters reported to contribute compensation when fraud is conducted using their platforms.

The report also called for changes to the draft Online Safety Bill to make platforms more responsible for combating financial fraud.

# FB, Google Should Refund Scam Victims: UK Lawmakers

**Bloomberg:** A group of UK lawmakers is urging the government to "seriously consider" forcing technology companies including Facebook, Google and Alphabet Inc. to refund victims of fraud on their sites.

"Placing a responsibility on online companies to reimburse consumers who are victims of online fraud could rapidly transform their approach," the Treasury Committee's report said. "The government should seriously consider whether online companies should be required to contribute compensation when fraud is conducted using their platforms."

The report also called for changes to the draft Online Safety Bill to make platforms more responsible for combating financial fraud.

Other recommendations of the report include: A 2022 Bloomberg L.P. creation of a single law enforcement agency with responsibility for fighting economic crime; regulation to protect consumers from fraud and money laundering in the cryptocurrency industry; and the cost of company formation in the UK to 500 pounds (\$130) to drive those who wish to "set up large numbers of companies for dubious purposes."

The boom in cryptocurrencies has bred a new generation of scammers, and analysts carried out last year by UK Finance, a lobby group for the financial industry, found that fraudulent advertising through search engines and social media was steering a growing number of victims.

Social media companies have previously told the committee they are ramping up efforts to block potentially dangerous advertising, but that scammers frequently adapt their methods to evade detection.

For too long, pernicious scammers have acted with impunity, ripping off innocent consumers with fraudulent online adverts, impersonation scams and dodgy crypto investments, committee Chair Mr Strickland said.

Other recommendations of the report include: A 2022 Bloomberg L.P. creation of a single law enforcement agency with responsibility for fighting economic crime; regulation to protect consumers from fraud and money laundering in the cryptocurrency industry; and the cost of company formation in the UK to 500 pounds (\$130) to drive those who wish to "set up large numbers of companies for dubious purposes."

## Alphabet Inches Closer to \$2 Trillion M-cap After Blowout Results

**New York:** Google parent Alphabet Inc. inched closer to joining peers Apple and Microsoft in the elite \$3 trillion market value club as the search giant's shares surged 3% on Thursday after another blowout quarter.

The gains, if they held, could be the biggest single-day gain for the stock since 2015, ending some of the concerns around Big Tech valuations that triggered a sector-wide sell-off in the past few days.

"The technology sector started 2022 with some of the biggest question marks ever at since the deflation crash more than two decades ago," said Ross Mordt, investment director at A.I. Fund.

"However, the largest and highest quality 135 tech names continue to deliver the answers the market wants with big earnings beats."

The stock rose as much as 3.8% to \$3,045.5 in trading before the opening bell.

At least 30 brokers gave raised their price targets on the stock, lifting the overall Wall Street median target to \$3,690, APF.
