Ref: DroneAcharya Aerial Innovations Limited (Scrip Code: 543713; Security ID: DRONACHRYA)

Dear Sir/Madam,

DroneAcharya Aerial Innovations Limited, a pioneering developer of unmanned aerial systems, in collaboration with its associate company **Drone Entry (Thailand) Co. Ltd.**, is pleased to announce the successful **acquisition of a significant export order for the provision of Defense FPV (First Person View) Drones**. This strategic contract underscores the advanced technological capabilities of DroneAcharya and the operational expertise of DroneEntry Thailand in the domain of unmanned aerial systems.

Defense FPV Drones: Enabling Versatile Defense Applications

The Defense FPV Drones developed by DroneAcharya and Drone Entry Thailand represent the epitome of innovation in unmanned aerial technology, offering unparalleled capabilities for a wide range of defense and security operations. From security and surveillance to search and rescue, monitoring, and asymmetric warfare, these drones are engineered to excel in diverse operational environments.

Key Features of Defense FPV Drones:

1. **Security and Surveillance:** Equipped with high-definition cameras and advanced sensor suites, the Defense FPV Drones enable real-time monitoring and surveillance of critical infrastructure, borders, and sensitive areas. With their agile maneuverability and long-range capabilities, these drones provide comprehensive situational awareness for defense and security forces.
2. **Search and Rescue:** Leveraging advanced imaging technologies and real-time video transmission, the Defense FPV Drones facilitate swift and efficient search and rescue operations. Their ability to access remote and hazardous locations, coupled with their precise navigation capabilities, makes them invaluable assets in lifesaving missions.
3. **Monitoring:** From routine patrols to reconnaissance missions, the Defense FPV Drones offer unmatched monitoring capabilities. With customizable payload options and autonomous flight capabilities, these drones enable efficient data collection and analysis, enhancing operational efficiency and decision-making for defense agencies.

 **Registered Address:** 1st & 2nd Floor, Galore Tech IT Park, LMD Square, Bavdhan, Pune - 411021

4. Asymmetric Warfare: In the context of asymmetric threats and unconventional warfare, the Defense FPV Drones provide a tactical advantage with their agility, stealth, and precision. Whether deployed for intelligence gathering or target acquisition, these drones empower defense forces to effectively counter emerging threats and asymmetric challenges.

Commenting on the Export Order, Mr. Prateek Srivastava, Founder and Managing Director of DroneAcharya, stated, "We are delighted to secure this significant export order for our Defense FPV Drones, in collaboration with Drone Entry Thailand. This order underscores our commitment to delivering cutting-edge technology solutions that meet the evolving needs of defense and security agencies worldwide. We are confident that our Defense FPV Drones will play a crucial role in enhancing the operational capabilities of our esteemed client."

This announcement is made in compliance with Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015.

Thanking you,

Yours faithfully,

For DroneAcharya Aerial Innovations Limited
