### India bans import...

This is a big step towards self-reliance in defence. It also offers a great opportunity to the Indian defence industry to rise to the occasion to manufacture the items in the negative list using their own design and development capabilities or by adopting the technologies designed and developed by the Defence Research and Development Organisation (DRDO) to meet the requirements of the armed forces in the coming years. "The list was prepared by MoD after several rounds of consultations with all stakeholders, including the Army, Air Force, Navy, DRDO, defence public sector undertakings (DP-SUs), Ordnance Factory Board (OFB) and private industry to assess current and future capabilities of the Indian industry for manufacturing various ammunition /weapons /platforms /equipment within India," the MoD said in a statement. The list of 101 embargoed items comprises of not just simple parts but also some high technology weapon systems like artillery guns, assault rifles, corvettes, sonar systems, transport aircraft, light combat helicopters (LCHs), radars and many other items to fulfil the needs of the defence services. The list also includes wheeled armoured fighting vehicles (AFVs) with indicative import embargo date of December 2021, of which the Army is expected to contract almost 200 at an approximate cost of over Rs 5,000 crore. Similarly, the Navy is likely to place demands for submarines with indicative import embargo date of December 2021, of which it expects to contract about six at an approximate cost of almost Rs 42,000 crore. For the Air Force, it was decided to enlist the LCA MK 1A with an indicative embargo date of December 2020. Of these, 123 are anticipated at an approximate cost of over Rs 85,000 crore. The embargo on imports is planned to be progressively implemented between 2020 and 2024.

Asked about growing voices in the Congress that Rahul must come back as party chief and if it was the best possible scenerio that he returns, Tharoor said, "Of course, if Rahul is ready to resume the leadership, all he has to do is to withdraw his resignation. He was elected to serve till December 2022 and can just pick up the reins again." "But if he does not, we have to take action. My own personal view, which as you know I have been advocating for some time now, is that elections to the CWC and for the post of president would certainly have a number of beneficial outcomes for the party," Tharoor said. A participatory democratic process would significantly add to the incoming leader's credibility and legitimacy which, in turn, would be vital assets as they set about the significant organisational challenges associated with re-energising the rank and file of the party, the MP from Thiruvananthapuram said. Tharoor asserted that his larger argument was not about any individual but about advocating a process or a system through which the Congress can address existing leadership issues and then embark immediately on the process of revitalising and energising the party nationally. "Through his activities during this lockdown, whether it has been on the issue of the COVID-19 virus or Chinese transgressions, Rahul Gandhi has without a question and almost single-handedly done a remarkable job in holding the present government accountable for its actions and failures," he said.

KOCHI: Even as Kerala grapples with a bout of heavy rainfall, the death toll in the landpatients slide that took place in Idukki district two days ago rose to 43 after rescue officials retrieved 17 more bodies from the debris on Sunday, according to local media reports. Efforts are underway to trace the missing

others—estimated to be nearly 20 - amid inclement weather conditions.

Authorities have decided to take the help of sniffer dogs to trace the persons buried under the debris, officials told news agency PTI. # THE VILLAGES ALONG LOC CONNECTED TO NATIONAL ELECTRICITY GRID

AGENCIES Srinagar

Negotiating months of heavy snowing and the Covid-19 lockdown, the Kupwara district administration connected three villages located along the Line of Control in Jammu and Kashmir's Keran area to the national electricity grid, ending a wait since Independence for power supply.

The job was not easy, officials said, recalling the acute shortage of manpower for the work after restrictions were imposed following the abrogation of Article 370 last year and the imposition of lockdown due to the Covid-19 pandemic

It is an arduous five hours journey to Keran from here on a fair-weather road that meanders through apple and walnut orchards of the Kashmir Valley and the Pherkian Pass at 10,000 feet in the Shamasbari Ranges. Keran remains cut-off for nearly six months due to heavy snow which can reach heights of nine to 12 feet. For three hours of electricity, the Keran area, with a population of 14,000 in four panchayats, was till recently

The suspicion arose after a postmortem report revealed that the finger and toe nails of the deceased gangster were bluish indicating poisoning, police sources said. Police said they suspect the don was killed as media reports in Sri Lanka indicated that Lokka, wanted by the Interpol and the Lankan police for various crimes, was poisoned to death in India in early July.
