- To create a transparent, principled and system-based organisation that empowers employees at all levels to take initiatives, innovate, learn and grow while working with enthusiasm and commitment
- To be a debt-free company offering excellent shareholder returns, employee-friendly environment and pay all fair dues to the Government and society

Key Reporting Principles

Ministry of Corporate Affairs has revised the National Voluntary Guidelines on Social, Environmental and Economic Responsibilities of Business, 2011 (NVGs) and formulated the National Guidelines on Responsible Business Conduct (NGRBC), 2019. These guidelines urge businesses to actualise the principles in letter and spirit. The NGRBC is applicable to all kinds of businesses, irrespective of their size, ownership, size, sector, structure or location.

The Company is reporting the below principles on voluntarily basis to disclose the commitment of the Company to perform against its economic, social and environmental impacts.

Principle 1

Businesses should conduct and govern themselves with integrity in a manner that is Ethical, Transparent and Accountable

The Company recognizes that ethical behaviour in all operations, functions and processes, is the cornerstone of businesses and emphasizes that disclosures on business decisions and actions that impact stakeholders form the fundamental basis of operationalizing responsible business conduct and should be accessible to all relevant stakeholders.

Key Reporting Principles (Contd.)

Principle 2

Businesses should provide goods and services in a manner that is sustainable and safe

The Company recognizes sustainable production and consumption are interrelated, contribute to enhancing the quality of life and towards protecting and preserving earth's natural resources and further emphasizes that businesses should focus on safety and resource-efficiency in the design and manufacture of their products, and use their products in a manner that creates value while minimizing and mitigating its adverse impacts on the environment and society through all stages of its life cycle, from design to final disposal.

Principle 3

Businesses should respect and promote the well-being of all employees, including those in their value chains

The Company encompasses all policies and practices relating to the equity, dignity, well-being and provision of decent work of all employees engaged within a business or in its value chain, without any discrimination and in a way that promotes diversity.

Principle 4

Businesses should respect the interests of and be responsive to all their stakeholders

The Company recognizes that businesses operate in an eco-system comprising a number of stakeholders, beyond shareholders and investors, and that their activities impact natural resources, habitats, communities and the environment and acknowledges that it is the responsibility of businesses to ensure that the interests of all stakeholders, especially those who may be vulnerable and marginalized, are protected.

The Company further recognizes that businesses have a responsibility to maximize the positive impacts and minimize and mitigate the adverse impacts of its products, operations, and practices on all their stakeholders.

Principle 5

Businesses should respect and promote human rights

The Company recognizes that human rights are rights inherent to all human beings, and that everyone, individually or collectively, is entitled to these rights, without discrimination. It further recognizes that human rights are inherent, inalienable, interrelated, interdependent and indivisible.

The Company is responsive to such persons, individually or collectively, who are most vulnerable to, or at risk of, such adverse human rights impacts.

Key Reporting Principles (Contd.)

Principle 6

Businesses should respect and make efforts to protect and restore the environment

The Company recognizes that environmental responsibility is a prerequisite for sustainable economic growth & for the well-being of society and further emphasizes that environmental issues are interconnected at the local, regional and global levels, which makes it imperative for businesses to address issues like pollution, biodiversity conservation, sustainable use of natural resources and climate change (mitigation, adaptation and resilience) in a just, comprehensive and systematic manner.

The Company adopts environmental practices and processes that minimize or eliminate the adverse impacts of its operations and across the value chain.

Principle 7

Businesses, when engaging in influencing public and regulatory policy, should do so in a manner that is responsible and transparent

The Company recognizes that businesses operate within specified national and international legislative and policy frameworks, which guide their growth and also provide for certain desirable restrictions and boundaries. Also recognizes the legitimacy of businesses to engage with governments for redressal of a grievance or for influencing public policy.

The Company emphasizes that public policy advocacy must expand public good.

Principle 8

Businesses should promote inclusive growth and equitable development

The Company recognizes the challenges of social and economic development faced by India, and builds upon the national and local development agenda as articulated in government policies and priorities. This is particularly significant in zones affected by social disharmony and low human development.

The Company believes that business success, inclusive growth and equitable development are interdependent.

Principle 9

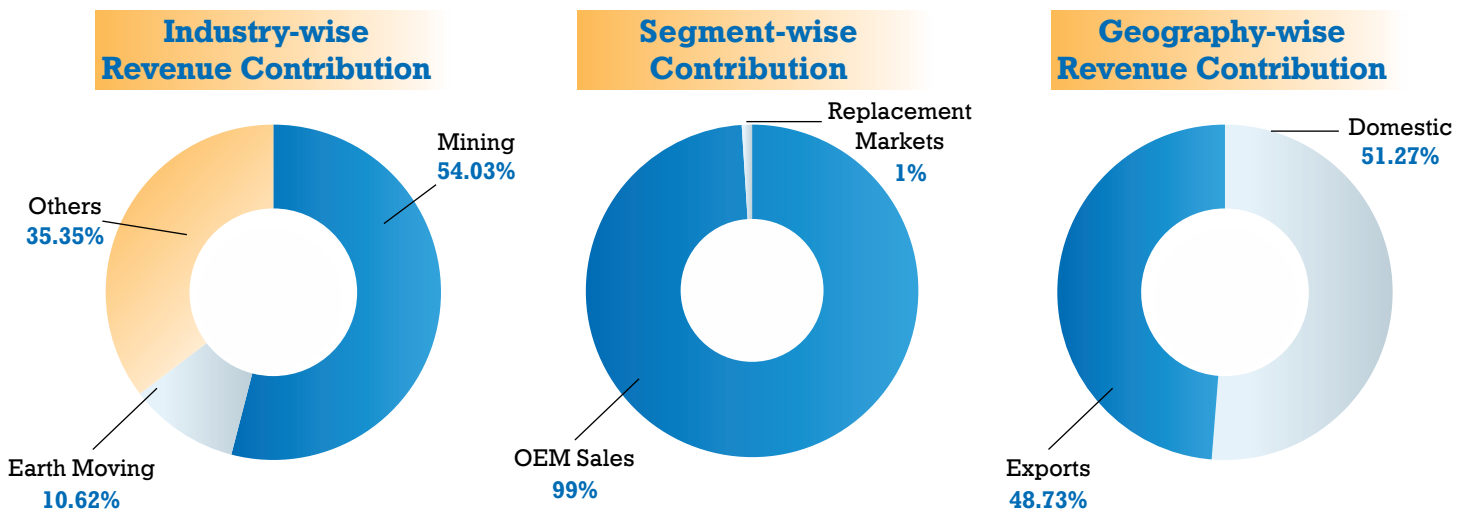

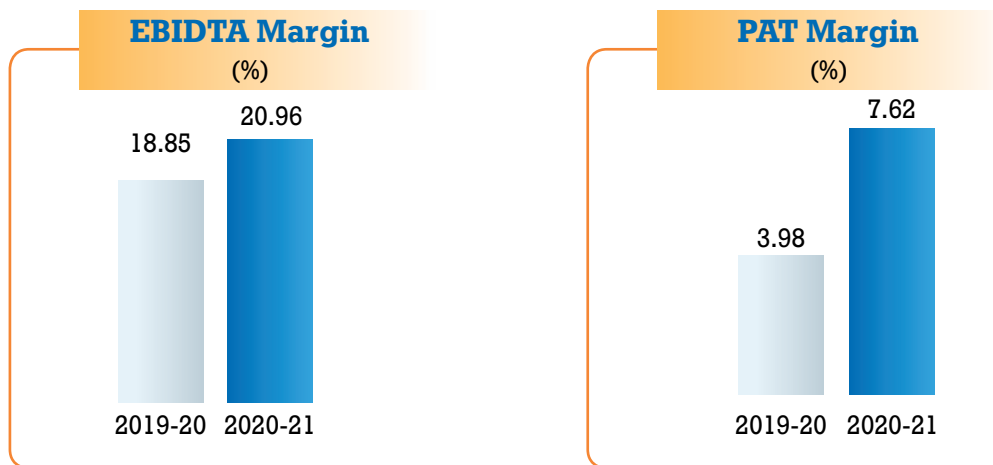

Businesses should engage with and provide value to their consumers in a responsible manner

The basic aim of the Company is to provide goods and services to its consumers that are safe to use, and in a manner that creates value for both.

The Company also recognizes that businesses should play a key role, along with other relevant stakeholders, in mitigating the adverse impacts that excessive consumption of its products may have on the overall well-being of individuals, society and our planet.

ANNEXURE- D to the Board's Report:

PARTICULARS OF EMPLOYEES

The information required under Section 197(12) of the Act read with Rule 5(1) of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014 are given below:

- a. **The ratio of the remuneration of each director to the median remuneration of the employees of the Company for the financial year and the percentage increase in remuneration of each director, chief executive officer, chief financial officer, company secretary in the financial year:**

Name of the Managing Directors, Chief Financial Officer and Company Secretary	Ratio to median remuneration of the employees	% increase in remuneration in the financial year	Comparison of the Remuneration of the KMP against the performance of the Company.
Mr. Chetan M Tamboli (Chairman and Managing Director)	1:10.76	2.97%	% Increase from FY 2019-20 to FY 2020-21: Total Income: (20.81)% Profit After Tax: 54.41 % Remuneration of Employees: 5.19% The remuneration of the KMP is keeping in view the performance of the Company as aforesaid and trend of remuneration in industry.
Mr. Rushil C Tamboli (Whole Time Director)	1:05.42	5.35%	
Ms. Vidhi C Tamboli (Whole Time Director)	1:01.18	-	
Mr. Subhash R Sharma (Chief Financial Officer)	1:5.72	7.03%	
Mr. Mahesh Purohit (Company Secretary)	1:01.31	9.72%	

The Company does not pay any remuneration to the Non-Executive Directors except sitting fees for attending Board and Committee Meetings.

- b. **The percentage increase in the median remuneration of employees in the financial year:** 5.19%.
- c. **The number of permanent employees on the rolls of Company:** 598.
- d. **The explanation on the relationship between average increase in remuneration and Company performance:** On an average, employees received an annual increase of 5.19%. The individual increments varied from 1% to 16.2%, based on individual performance. In order to ensure that remuneration reflects Company performance, the performance pay is also linked to organization performance, apart from an individual's performance.
- e. **Market Capitalisation of the Company & Price Earning Ratio:**

Date	Market Price-Closing (₹)	EPS in ₹	P/E ratio	Market capitalisation (₹ In Lakhs)	% Change
31.03.2021	139.80	6.16	22.69	28,295.52	55.76
31.03.2020	77.95	3.94	19.78	15,777.08	

- f. **Average percentile increase already made in the salaries of employees other than the managerial personnel in the last financial year and its comparison with the percentile increase in the managerial remuneration and justification thereof and point out if there are any exceptional circumstances for increase in the managerial remuneration:** During the year under review, the average annual increase was around 5.19% accounting for promotions and other event based compensation revisions. Increase in the managerial remuneration (excluding Chairman and Managing Director and Whole Time Director) for the year was 1.93%. The difference arises from the different market situations for two categories.

The key parameters for any variable component of remuneration in case of Managing Director of the Company is linked with the Company performance. In case of other key managerial personnel(s), the same is linked with Company performance and individual performance.

- g. **The ratio of the remuneration of the highest paid director to that of the employees who are not directors but receive remuneration in excess of the highest paid director during the year:** Not applicable.
- h. **Affirmation:** The Company affirms that the remuneration of the Managing Director and the employees of the Company are as per the remuneration policy of the Company.

The Statement of particulars of employees under Section 197(12) read with Rule 5(2) and 5(3) of the Companies (Appointment and Remuneration of Managerial Personnel), Rules, 2014 is not provided with as during the financial year under review, no employee of the Company including Managing Director was in receipt of remuneration in excess of the limits set out in the said rules.

The ratings for the following CREDIT facilities sanctioned by banks, carried out by CARE Ratings Limited and intimated vide their letter no. CARE/ARO/RL/2020-21/1572 dated August 5th, 2020:

Sr. No.	Credit Facilities	Rating
1.	Long-Term Bank Facilities	CARE BBB+; Stable (Triple B Plus; Outlook: Negative)
2.	Short-Term Bank Facilities	CARE A2 (A Two)
3.	Long-Term / Short-Term Bank Facilities	CARE BBB+; Negative/ CARE A2 (Triple B ; Outlook: Negative / A Two)

Rating Action: Reasoning by Rating Agency for Outlook revised from Positive to Negative:

The outlook on the long term rating of SCL has been revised from 'Stable' to 'Negative' due to expectation of further moderation in its scale of operations in FY21 on account of likely slowdown in demand from its key end-user industries which may be exacerbated by the outbreak of the COVID-19 pandemic. Slowdown in demand is also expected to have an adverse impact on its profitability margins, debt coverage indicators and working capital cycle in the near to medium term.

Note: Revision of Ratings

Post Balance Sheet date CARE Ratings Ltd. has revised Credit Ratings of the Company vide their letter no. CARE/ARO/RL/2021-22/1405 dated 29th June, 2021 as under:

MANAGEMENT DISCUSSION AND ANALYSIS

Company overview

Steelcast Ltd is a well-known name in the Steel & Alloy-steel castings industry. It manufactures cast products using No-Bake and Shell Molding processes. With the improvement in market conditions during FY 2018-19, the company achieved its record turnover and looked like the company is making a steady progress. FY 2019-20 marked with economic tussle between China and USA tail ended with beginning of COVID-19. FY 2020-21 began with complete lockdown in the country due to COVID-19. The company could dispatch in 1st Quarter the goods which were ready as all business establishments were shut for almost full quarter. Lockdown started lifting slowly world over and business activities began to pick up in 2nd Quarter and during the 3rd quarter it looked like rough phase is over. The 4th Quarter turned out to be an opportunity to recoup the lost sales. The impact of pandemic felt throughout the year and was never off the minds of the people. The company coped with the situation by keeping the cost under control to maintain the margins. Drastic cost control measures were taken and the positive effects can be seen in the financial results of the company.

The company continued catering to its main sectors like earth moving equipment, mining & mineral processing, construction, railways, steel plants, cement, locomotive etc. The company is looking for further opportunities in other industrial segments and products. The company managed to put up a moderate financial performance despite all lockdowns & uncertainties. The global developments play a significant role in performance of the company. The domestic sale for FY 2020-21 were higher compared to export sales due to COVID-19 situation was worse in USA and European countries and business disruption period persisted throughout the year. FY 2020-21 was badly impacted by pandemic and situation further worsened at the close of the year.

The surge in COVID-19 cases in the beginning of the current year FY 2021-22 has raised an alarm and seems the lock down & COVID-19 curfews will stay longer this time. Current times are very uncertain and 2nd wave seems very deadly. Saving of human lives is top priority. However, so far projections for the current year are quite optimistic and will be better than previous two years, provided the 2nd wave impact is limited and controlled at the earliest possible time.

Industry Structure and Developments:

1.0 Mining Industry: Mining Industry is expected to show a good growth in the coming year.

For Domestic sector against we expect a growth of @ 66% in FY 2021-22 as compared to FY 2020-21.

For Export sector against a sales of Rs. 1,495 Lacs in FY 2020-21, FY 2021-22 expected sales is Rs. 3,642 Lacs; meaning an expected growth of @ 143% on YoY basis.

2.0 Earth Moving Equipment: In line with Mining Machinery Industry; Earthmoving Industry is also expected to show similar rise in FY 2021-22.

Against sales of Rs. 3,510 Lacs in FY 2020-21, expected sales in FY 2021-22 is likely to be Rs. 5,107 Lacs, meaning more than 45% YoY growth.

In a similar fashion, in Export Sector against Sales of Rs. 4,756 Lacs in FY 2020-21, FY 2021-22 expected Sales is Rs. 8,346 Lacs which means growth of @ 75% on YoY basis.

3.0 Construction Equipment: This industry is also showing promising trend in FY 2021-22 as compared to FY 2020-21.

Domestic Sector is also showing good growth in FY 2021-22. Against sales of Rs. 3,664 Lacs in FY 2020-21, expected sales in FY 2021-22 is to the tune of Rs. 6,066 Lacs which means YoY growth of more than 65%.

Export Sector is expected to grow @ 80% on YoY basis with Sales of Rs. 743 Lacs in FY 2021-22 as compared to Sales of Rs. 412 Lacs in FY 2020-21.

4.0 Locomotive & Railways: With new customers and parts under development in this fiscal year and also expected Pilot lot orders coming towards end of FY 2021-22, this sector shows good growth.

Against actual sales of Rs. 429 Lacs in FY 2020-21, expected sales in FY 2021-22 is Rs. 2,069 Lacs. This shows significant growth in coming years.

5.0 Cement & Steel Sector: These are expected to more or less remain steady in FY 2021-22 with moderate growth. In FY 2020-21 we did sales of Rs. 717 Lacs and in FY 2021-22, this sector shows expected sales of Rs. 732 Lacs.

6.0 Ground Engaging Tools (GET): We expect a significant improvement in this sector in the coming year with development of new customers and new parts.

ANNEXURE- I to the Board's Report (Contd.)

7.0 Partnering with Indian Defence Units: The Company is making its constant endeavour to contribute to defence of the nation by partnering with the Indian Defence units. This efforts is continuing and we expect improvement in this sector considering the Government push through schemes like Atmanirbhar Bharat, Make in India etc.

Industrial opportunities and outlook:

Scene of Indian Economy

The Economic Survey of India underlined that the year 2020 was dominated by the COVID-19 pandemic and the ensuing global economic downturn, the most severe one since the Global Financial Crisis. The lockdowns and social distancing norms brought the already slowing global economy to a standstill. Global economic output is estimated to fall by 3.5 percent in 2020 (IMF January 2021 estimates).

A palpable V-shaped recovery in industrial production was observed over the year. Manufacturing rebounded and industrial value started to normalize.

The following indicators suggest silver lining in the current situation:

- (a) V-Shaped Economic Recovery due to Mega Vaccination Drive, Robust Recovery in the Services Sector and Robust Growth in Consumption and Investment.
- (b) V-Shaped Recovery is due to Resurgence in High Frequency Indicators Such as Power Demand, Rail Freight, E-Way Bills, GST Collection, Steel Consumption, Etc
- (c) India to become the Fastest Growing Economy in Next Two Years as Per IMF
- (d) India to Have a Current Account Surplus of 2 Per Cent of GDP in FY21, A Historic High After 17 Years
- (e) Net FPI Inflows Recorded an All-Time Monthly High of 9.8 Billion Dollars in November 2020
- (f) India's foreign exchange reserves continuous on rise.
- (g) Chief executives around the world expect a return to strong economic growth over the next two years, as per Gartner's 2021 CEO Survey of the 465 CEOs and other senior business executives polled, around 60 per cent expect an economic boom in 2021 and 2022.

Some of the initiatives and developments undertaken by the Government during the year are listed below:

- (a) The Govt of India announced various economic packages worth of around Rs 20 trillion (US\$ 283.73 billion) and being almost 10% of India's GDP.

- (b) World Bank and Government of India signed a US\$ 750 million agreement for 'Emergency Response Programme' for MSMEs.
- (c) ADB & India signed US\$ 500 million loan for the 'Delhi-Meerut Regional Rapid Transit System (RRTS) Corridor' to improve regional connectivity and mobility in India's national capital region (NCR).
- (d) The Government of India, Government of Himachal Pradesh and World Bank signed a US\$ 82 million loan to implement the Himachal Pradesh State Roads Transformation Project, to improve the condition, safety, resilience, and engineering standards of state road network.
- (e) India is expected to attract investment of around US\$ 100 billion in developing the oil and gas infrastructure during 2019-23.
- (f) The Government of India is going to increase public health spending to 2.5% of the GDP by 2025.
- (g) In the mid-term review of Foreign Trade Policy (FTP) 2015-20, the Ministry of Commerce and Industry enhanced the scope of Merchandise Exports from India Scheme (MEIS) and Service Exports from India Scheme (SEIS), increased MEIS incentive for ready-made garments and made-ups by 2%, SEIS incentive by 2% and increased the validity of Duty Credit Scrips from 18 months to 24 months. In April 2020, Government extended FTP for one more year (up to March 31, 2021).
- (h) India's GDP is expected to reach US\$ 5 trillion by FY25 and achieve upper-middle income status on the back of digitization, globalization, favorable demographics, and reforms.
- (i) India is also focusing on renewable sources to generate energy. It is planning to achieve 40% of its energy from non-fossil sources by 2030, which is currently 30%, and have plans to increase its renewable energy capacity from to 175 gigawatt (GW) by 2022.

Position of the company in Foundry Market

The Foundry industry in India has been growing steadily over the past several years despite economic slowdown dented its demand from the end user industry i.e. engineering and auto component sectors. Generally, moving in tandem with the growth of the country's economy, the Indian foundry industry has surpassed India's GDP growth with a wider margin. Over the last 5 years the Coal Mining activity is showing an upward trend with many private players entering in to this apart from the government controlled "Coal India"

ANNEXURE- I to the Board's Report (Contd.)

Since the company has enjoyed a good track record in the Mining & Earth Moving industry, the market share from the products being sold to these industries have always dominated in the company's sales performance. To insulate against possible drop in sales due to recession in these industries the company has developed many new parts for the existing and new customers from these Industries.

The company's manufacturing capabilities are designed to cater to other sectors too. Hence, the company has developed newer products to enter into other markets. This is likely to expand the company's customer base and to meet with the competition, both domestic as well as international.

The industry is witnessing high level of competition from both India and abroad but there are few competitors when it comes to technologically advanced companies manufacturing highly intricate Steel castings. In India, there are small and unorganized players involved in manufacturing Steel castings and the industry is quite fragmented.

The company enjoys premier position in terms of production capability, product mix, number of parts developed and high quality standards. It is a fact that, in this industry entry barriers are quite high since it is a capacity based and quality based industry. The company is able to leverage all these aspects along with economies of scale to meet the competition.

Impact of Second Covid-19 wave on growth recovery

S&P Global Ratings has cautioned that the second Covid-19 wave is likely to hit India's near-term economic recovery and could push growth for the current fiscal below 10 per cent. S&P Asia Pacific chief economist Shaun Roache further warned that the longer India takes to regain control, the greater will be the permanent damage. The average of the first quarter is likely to carry on through the rest of the year and the impact on the GDP could be around one to three percentage points, he added.

S&P Global Ratings is continuously revising & stating that the second Covid-19 wave may derail the recovery in the economy and credit conditions. The agency further stated that a rebound in economic activity is expected in the September 2021 quarter onward, assuming restrictions can ease somewhat over that timeframe.

UBS India's economic activity index entered a negative terrain in April 2021 with a seven percentage points fall to 95 as the second wave of the Covid-19 pandemic and resultant localized lockdowns pulled down economic activity during

the month. UBS expects the activity levels to sequentially weaken further in May 2021 as most states have extended mobility restrictions to flatten the virus curve, thus adversely impacting real GDP growth in the June 2021 quarter.

Crisil Ratings has warned that the second Covid-19 wave threatens the economic growth of India. Stating that risks to its 11 per cent growth forecast for current fiscal are firmly tilted downwards.

Amid the entire given situation, the following points indicate good opportunities in the coming year(s):

- Various sectors of the Industry like mining, real estate, construction, etc. are on recovery phase, hence, good opportunities to utilize unused capacity
- Diversification into newer sectors
- Global economy is reviving from slowdown and offers huge export potential
- Stable Government in the country
- Government of India has laid emphasize on infrastructure development which would raise demand from Construction & Mining Equipment Industry
- India, a preferred destination after China
- Huge potential for India to enter into Global Supply Chain.

Quality Assurance:

As a company policy, we are committed to total customer satisfaction both in terms of quality and services in a healthy, safe & environmentally responsible manner. The Company is committed to:

- Deliver goods with excellent performance and at reasonable price
- Comply with applicable legal & other requirements
- Adopt programs for prevention of pollution, improving health & safety performance, resource conservation and waste reduction
- Continual improvement in our quality, environmental and occupational health & safety performance through efficient systems and procedures

We encourage teamwork, co-operation, education and training of all our people to fulfill our commitment to quality, environmental and OH&S management system in our operations.

During 2020-21, we undertook following initiatives to further strengthen our quality parameters:

- Design and development of Hot air blower for pre-heating of mold before pouring to minimize moisture related defect in high humid conditions.
- To minimize welding related defect a systematic approach implemented in fettling for repair welding called welding process layer audit to comply with well-defined welding process parameter and technique.
- By accurate defect interpretation through NDT quantum of defect excavation minimized leads to reduce overall weldment and post weld heat treatment.
- Development of appropriate size and location of Cooling Fins/Ribs to avoid solidification crack in complex geometry casting.
- Development of appropriate pouring practice to enhance pouring rate to minimize scabbing, cold laps and wrinkles on cope surface of heavy section castings.
- Development of appropriate gating system for long travel metal stream movement of metal flow to minimize temperature loss.
- Study of Ferro alloy size for complete dissolution during ladle treatment to minimize slag related defects.
- Development of special Welding alloy to enhance mechanical properties like hardness, Ultimate Tensile Strength of weldment in Low Alloy High Strength Steel.

Research and Development:

Since 1976, the Company's in-house R&D is recognized by DSIR (Department of Scientific and Industrial Research). The Company is involved in manufacturing high quality products through R&D activities across product development, technology up-gradations and process improvements. The R&D team has hands-on foundry experience that combine with in-depth knowledge of latest metallurgy & foundry technology. The department is equipped with state-of-the-art equipment with digital calculations to monitor mechanical & chemical testing results having NABL Accreditation. A modern version of software to simulate Solidification behavior of casting and Role of process parameters in Heat treatment is being utilized for New product development. Dedicated sets of equipment are installed to carry out testing of different sands including Resin Coated & No-Bake sands and test critical parameters of quenching media (Water & Polymer). A Strong sub-section in R&D allows us to do conduct complete failure analysis and give latest technical inputs based on Fractography & SEM/EDS report.

Our constant efforts on R&D have allowed us to maintain ever-increasing demand of high-end products by global customers, especially in the high strength materials. Our initiatives have helped us get orders for items requiring import substitution with international specifications through pilot batches mechanism followed by bulk orders.

ANNEXURE- I to the Board's Report (Contd.)

Going ahead, the Company will further undertake the following R&D strengthening initiatives:

- a) Development of Ceramic Whirl gating system to trap exogenous inclusion.
- b) Development of High Alumina Neutral lining material to enhance lining life of the furnace.
- c) Study and Investigation of compatibility of Desert sand with PUNB and shell sand practice.
- d) Development of Suitable Post Weld Heat treatment technology for cosmetic repairing and TIG welding.

Human resources and industrial relations:

The human resource philosophy and strategy of your Company have been designed to attract and retain the best talent to create a workplace environment that keeps employees engaged, motivated to encourage innovation. The risk mitigation plans are regularly monitored and reviewed by the Management and Audit Committee of your Company.

Long-term and medium-term strategy:

The company has been enjoying a leadership position in the steel casting business for many years. During the last one decade the company was mainly focusing mining industry and also had a strong customer base. However, growth was impacted due to sluggish economy and slowdown in mining industry. Such a market environment led to the conservative mind-set of mining customers for capital investment, against

the backdrop of sluggish commodity prices.

Rationalization Measures - Strategy

The management of the company took stock of the situation and have prepared a comprehensive business plan to not only come out of the dependency in mining sector but also to scale up the turnover in next five years. The business plan comprises of

- i) Product development
- ii) Business development

In order to execute the above business plan, the company has already initiated a rationalization plan since last 2 years. The highlights of both these measures are as follows:

- (A) Rationalization Plan
 - a. Reduced manpower by increasing productivity. There will be major long term benefits of it.
 - b. Periodical evaluation of power demand to ensure saving in fixed cost.
 - c. Purchasing of power through open market access.
 - d. Reduced consumption norms of few key materials.
 - e. Reduction in internal rejection..
 - f. Reduction in throughput time for processing of castings.
- (B) Forward Looking Plan
 - a. Introduction of newer products for existing customers
 - b. Entering into newer sectors
 - c. Developing newer products for newer customers

For each of the new segments to be developed, the company has identified the potential customers and potential parts to be sold to them.

CAUTIONARY STATEMENT: Statement in this "Management Discussion and Analysis" describing the Company's objectives, projections, estimates, expectations or predictions may be "forward looking statements" within the meaning of applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations include global and Indian demand and supply conditions, finished goods prices, input materials availability and prices, cyclical demand and pricing in the Company's principal markets, changes in Government regulations, tax regimes, economic developments within India and the countries within which the Company conducts business and other factors such as litigation and labour negotiations. The Company assumes no responsibility to publicly amend, modify or revise any forward-looking statements, on the basis of any subsequent development, information or events or otherwise.

Independent Auditors' Report

To
The Members of
STEELCAST LIMITED

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of STEELCAST LIMITED ("the Company"), which comprise the Balance Sheet as at March 31, 2021, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, the profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These

matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. There is no any key audit matter to be communicated in our report.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Independent Auditors' Report (Contd.)

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that

may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143(3) of the Act, based on our audit we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flow dealt with by this Report are in agreement with the relevant books of account.

Independent Auditors' Report (Contd.)

- (d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
- (e) On the basis of the written representations received from the directors as on March 31, 2021 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164(2) of the Act.
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- (g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended :

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company does not have any pending litigations which would impact its financial position except those stated under note no. 40(c) - Contingent Liabilities.
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.

2. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent possible.

ANNEXURE – A to the Independent Auditors' Report

(Referred to in paragraph 1(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **STEELCAST LIMITED** ("the Company") as of March 31, 2021 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to provide a basis for our audit

opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that –

- Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the company; and
- Provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE – B to the Independent Auditors' Report

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

On the basis of such checks as we considered appropriate and in terms of information and explanations given to us, we state that:

- i. In respect of fixed assets:
 - (a) The Company has maintained proper records showing full particulars including quantitative details and situation of fixed assets.
 - (b) The fixed assets were physically verified by the management at reasonable intervals having regard to the size of the company, in a phased manner in accordance with a programme of physical verification. As informed, no material discrepancies were noticed on such verification.
 - (c) According to the information and explanations given to us and based on the records of the company examined by us, the title deeds of immovable properties are held in the name of the Company.
- ii. The inventories were physically verified by the management at reasonable intervals during the year. As informed to us, no material discrepancies were noticed on such physical verification carried out by the Company.
- iii. The Company has not granted any loans, secured or unsecured, to companies, firms, limited liability partnerships or other parties covered in the register maintained under section 189 of the Act.
- iv. The Company has complied with provisions of Section 185 and 186 of the Act in respect of loans, investments, guarantees and security, to the extent applicable.
- v. The Company has not accepted any deposits within the meaning of the provisions of section 73 to 76 or any other relevant provisions of the Act and the rules framed there under with regard to the deposits accepted from the public. No order has been passed by the Company Law Board or National Company Law Tribunal or Reserve Bank of India or any court or any other tribunal.
- vi. We have broadly reviewed the cost records maintained by the Company pursuant to Section 148(1) of the Companies Act, 2013 and are of the opinion that, prima facie, the prescribed cost records have been maintained. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- vii. In respect of statutory and other dues:
 - (a) The Company has generally been regular in depositing undisputed statutory dues, including Provident Fund, Employees State Insurance, Income Tax, Sales Tax, Service Tax, Custom Duty, Excise Duty, Value Added Tax, Goods and Service Tax, Cess and other statutory dues, to the extent

applicable, with the appropriate authorities during the year. There are no undisputed statutory dues outstanding for a period of more than six months from the date they became payable.

- (b) There are no amounts outstanding, which have not been deposited on account of dispute.
- viii. The Company has not defaulted in repayment of loans or borrowing to banks and financial institution. The Company has not obtained any borrowings from government or by way of debentures.
- ix. Terms loans obtained by the Company have been applied for the purpose for which they were obtained. The Company has not raised any money, during the year, by way of public offer (including debt instruments).
- x. To the best of our knowledge and belief and according to the information and explanations given to us, no fraud on or by the Company or on the Company by its officers or employees was noticed or reported during the year.
- xi. In our opinion and according to the information and explanations given to us, managerial remuneration paid or provided by the Company during the year is in accordance with the requisite approvals mandated by the provisions of Section 197 read with Schedule V to the Act.
- xii. Since the Company is not a Nidhi Company, the provisions of clause 3 (xii) of the Order are not applicable to the Company.
- xiii. In our opinion and according to the information and explanations given to us, all transactions with the related parties are in compliance with Section 177 and 188 of the Act and the details have been disclosed in the financial statements as required by the applicable accounting standards.
- xiv. The Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review.
- xv. In our opinion and according to the information and explanations given to us, during the year the Company has not entered into any non-cash transactions with its Directors or persons connected to its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
- xvi. The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934.

Notes to Financial Statements for the year ended March 31, 2021

NOTE:1 CORPORATE INFORMATION

The financial statements are of Steelcast Limited ('the Company') for the year ended 31 March 2021. The Company was incorporated on 11.02.1972. The Company is a public company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. The Company is engaged in casting manufacturing business.

The registered office of the Company is located at Ruvapari Road, Bhavnagar, Gujarat - 364005.

The financial statements were authorized for issue in accordance with a resolution of the directors on 28 May 2021.

NOTE:2 BASIS OF PREPARATION

The financial statements of the Company have been prepared in accordance with the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time).

The financial statements have been prepared on an accrual basis and under the historical cost convention basis except for the following:

- Derivative financial instruments
- Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments)
- Defined benefit plans - plan assets measured at fair value.

2.1 Summary of significant accounting policies

A. Current versus non-current classification

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- a) it is expected to be realized in, or is intended for sale or consumption in, the Company's normal operating cycle;
- b) it is held primarily for the purpose of being traded;
- c) it is expected to be realized within 12 months after the reporting date; or
- d) it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date.

Current assets include the current portion of non-current financial assets.

All other assets are classified as non-current.

Liabilities

A liability is classified as current when it satisfies any of the following criteria:

- a) it is expected to be settled in the Company's normal operating cycle;
- b) it is held primarily for the purpose of being traded;
- c) it is due to be settled within 12 months after the reporting date; or
- d) the Company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

Current liabilities include current portion of non-current financial liabilities.

All other liabilities are classified as non-current.

Operating cycle

Based on the nature of services and the normal time between the acquisition of assets and their realization into cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current and non-current classification of assets and liabilities.

Deferred tax

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

B. Property, Plant and Equipment

Property, plant and equipment, capital work in progress are stated at cost, less accumulated depreciation and impairment losses if any. Cost comprises the purchase price net of refundable taxes and any attributable cost of bringing the asset to its working condition for its intended use and initial estimate of decommissioning, restoring and similar liabilities. Borrowing costs relating to acquisition of property, plant and equipment which takes substantial period of time to get ready for its intended use are also included to the extent they relate to the period till such assets are ready to be put to use.

Subsequent expenditure is capitalized only when it is probable that the future economic benefits of the expenditure will flow to the Company. When significant parts of plant and equipment are required to be replaced

Notes to the Financial Statements as at and for the year ended March 31, 2021 (Contd.)

at intervals, the Company depreciates them separately based on their specific useful lives. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

Items of stores and spares that meet the definition of property, plant and equipment are capitalized at cost and depreciation over their useful life. Otherwise, such items are classified as inventories.

Gains or losses arising from de-recognition of property, plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

The Company identifies and determines cost of each component/ part of the asset separately, if the component/ part has a cost which is significant to the total cost of the assets and has useful life that is materially different from that of the remaining asset.

C. Depreciation on property, plant and equipment

Depreciation is provided on Straight Line Method in the manner specified in the Schedule II in accordance with the provisions of section 123(2) of the Companies Act, 2013. The identified components are depreciated over their useful lives; the remaining assets are depreciated over the life of the principal assets.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

D. Intangible assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortization and accumulated impairment losses, if any. Software is amortized using the straight-line method over a period of 6 years. The amortization expense is recognized in the statement of profit and loss unless such expenditure forms part of carrying value of another asset. The amortization period and the amortization method are reviewed at least at each financial year end. If the expected useful life of the asset is significantly different from previous estimates, the amortization period is changed accordingly.

E. Impairment of non-financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the

asset's recoverable amount. An asset's recoverable amount is the higher of an asset's fair value less costs of disposal and its value in use. Where the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

Impairment losses, including impairment on inventories, are recognized in the statement of profit and loss.

After impairment, depreciation is provided on the revised carrying amount of the asset over its remaining useful life.

An assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the company estimates the asset's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit and loss.

F. Leases

Company as a lessee

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased item, are classified as operating leases. Operating lease payments are recognized as an expense in the Statement of Profit and Loss on a straight-line basis over the lease term.

G. Inventories

Inventories are valued at cost or net realizable value, whichever is lower. Cost is determined on the following basis:

- Raw materials and stores and spares – on a weighted average method basis;

Notes to the Financial Statements as at and for the year ended March 31, 2021 (Contd.)

- Finished and semi-finished goods – at material cost plus direct expenses and appropriate value of overheads; cost of finished goods.

H. Revenue recognition

Revenue is recognized to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable.

Revenue from sale of goods is recognized when significant risks and rewards of ownership are passed to the buyer, which generally coincides with dispatch of goods. Goods and Service Tax, Sales taxes and value added taxes, wherever applicable, are collected on behalf of the Government and therefore, excluded from the revenue.

Income from export incentives under various schemes notified by government is accounted on accrual basis.

The Company does not accrue interest on long-term advances received from customers towards supply of goods or services.

I. Research & Development

Research costs are expensed as incurred. Development expenditure incurred on an individual project is recognized as an intangible asset when the company can demonstrate all the following:

- The technical feasibility of completing the intangible asset so that it will be available for use or sale
- Its intention to complete the asset
- Its ability to use or sell the asset
- How the asset will generate future economic benefits
- How the assets will generate future economic benefits
- The availability of adequate resources to complete the development and to use or sell the asset
- The liability to measure reliably the expenditure attributable to the intangible asset during development.

Following the initial recognition of the development expenditure as an asset, the cost model is applied requiring the asset to be carried at cost less any accumulated amortization and accumulated impairment losses. Amortization of the asset begins when development is complete and the asset is available for

use. It is amortized on a straight line basis over the period of expected future benefit from the related project. Amortization is recognized in the statement of profit and loss. During the period of development, the asset is tested for impairment annually.

Revenue expenditure on Research & Development is charged to the statement of profit and loss for the year in which it is incurred. Capital expenditure on Research & Development is shown as an addition to property, plant and equipment and depreciated on the same basis as other assets.

J. Foreign currency transactions

Initial Recognition

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount, the exchange rate prescribed fortnightly by the Central Board of Indirect Taxes and Customs (CBIC) for exports between the reporting currency and the foreign currency at the date of the transaction. This practice followed by the company is consistent with Para 22 of the Ind AS 21.

Conversion

Foreign currency monetary items are retranslated using the exchange rate prevailing at the reporting date. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

Exchange differences

Exchange differences arising on the settlement of monetary items or on reporting such monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognized as income or as expenses in the year in which they arise.

K. Employee benefits

Short-term employee benefits

The undiscounted amount of short-term employee benefits expected to be paid in exchange for services rendered by employees is recognized during the period when the employee renders the service.

Post-employment benefit plans

- i. Defined Contribution Plan: Contribution for provident fund are accrued in accordance with applicable statutes and deposited with the Regional Provident Fund Commissioner. Contribution for Superannuation in respect of

Notes to the Financial Statements as at and for the year ended March 31, 2021 (Contd.)

certain employees of the company is made in accordance with the scheme with Life Insurance Corporation of India.

- ii. **Defined Benefit Plan:** The liability in respect of gratuity is determined using Projected Unit Credit Method with actuarial valuation carried out as at balance sheet date. Contributions in respect of gratuity are made to the Group Gratuity Scheme with Life Insurance Corporation of India. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. The Company recognizes the following changes in the net defined benefit obligation as an expense in the statement of profit and loss:
 - a. Service costs comprising current service costs, past-service costs, gains and losses on curtailments and non-routine settlements; and
 - b. Net interest expense or income

Re-measurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through other comprehensive income in the period in which they occur. Re-measurements are not reclassified to profit or loss in subsequent periods.

Other long-term employee benefits

Accumulated compensated absences (Regarding leave) are provided for based on actuarial valuation at the year end. The actuarial valuation is done as per Projected Unit Credit method. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred.

L. Borrowing costs

Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the period they occur.

M. Income taxes

Tax expense comprises current and deferred tax.

Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current income tax relating to items recognized outside profit or loss is recognised in correlation to the underlying transaction either in other comprehensive income or directly in equity.

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised

Notes to the Financial Statements as at and for the year ended March 31, 2021 (Contd.)

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax asset is reviewed as at each balance sheet date and written down or written up to reflect whether taxable profit will be available or not.

Deferred tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity).

N. Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(i) Financial assets

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortised cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
- Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Debt instruments at amortised cost

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the

effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the profit or loss. The losses arising from impairment are recognised in the profit or loss. This category generally applies to trade and other receivables.

Debt instrument at FVTOCI

A 'debt instrument' is classified as at the FVTOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI. Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in the other comprehensive income (OCI). However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the statement of profit and loss. On de-recognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to statement of profit and loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Debt instrument at FVTPL

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Company has not designated any debt instrument as at FVTPL.

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

Equity investments

All equity investments in scope of Ind AS 109 are measured at fair value. The company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value in case of

Notes to the Financial Statements as at and for the year ended March 31, 2021 (Contd.)

equity investments which are not held for trading. The company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

De-recognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on financial assets which are measured at amortised cost or FVOCI.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 18.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/expense in the statement of profit and loss (P&L). This amount is reflected in a separate line in the P&L as an impairment gain or loss.

For financial assets measured as at amortised cost, ECL is presented as an allowance, i.e. as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

Notes to the Financial Statements as at and for the year ended March 31, 2021 (Contd.)

(ii) Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risks are recognized in OCI. These gains/ loss are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss. The Company has not designated any financial liability as at fair value through profit and loss.

Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any

discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

De-recognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

(iii) Reclassification of financial assets

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

(iv) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

0. Derivative financial instruments

The Company uses derivative financial instruments, such as forward currency contracts to hedge its foreign currency risks. Such derivative financial instruments are

Notes to the Financial Statements as at and for the year ended March 31, 2021 (Contd.)

initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

Any gains or losses arising from changes in the fair value of derivatives are taken directly to profit or loss.

P. Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each reporting date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest

level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Q. Earnings per share (EPS)

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

R. Provisions

A provision is recognised when an enterprise has a present obligation as a result of past event; it is probable that an outflow of resources will be required to settle the obligation, in respect of which a reliable estimate can be made. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

S. Contingent liabilities

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

38 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

- **Judgements**

In the process of applying the Company's accounting policies, management has made the following judgements, which have the most significant effect on the amounts recognised in the financial statements.

- **Estimates and Assumptions**

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the standalone financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

- **Employee Benefit Plans**

The cost of defined benefit gratuity plan and other long-term employment benefit plans are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates. Further details about gratuity obligations are given in Note 39.

- **Taxes**

Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies. Details on current taxes are disclosed in Note 21.

- **Impairment of Financial Assets**

The impairment provision for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

Estimated impairment allowance on trade receivables is based on the ageing of the receivable balances and historical experiences. Individual trade receivables are written off when management deems them not to be collectible.

Notes to the Financial Statements as at and for the year ended March 31, 2021 (Contd.)

44 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company's principal financial liabilities, other than derivatives, comprise loans and borrowings, trade and other payables. The main purpose of these financial liabilities is to finance the Company's operations. The Company's principal financial assets include loans, trade and other receivables, and cash and cash equivalents that derive directly from its operations. The Company also holds FVTOCI investments and enters into derivative transactions.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks. The Company's financial risk activities are governed by appropriate policies and procedures and financial risks are identified, measured and managed in accordance with the Company's policies and risk objectives. The Company's financial risk management policies are set by the Board of Directors. All derivative activities for risk management purposes are carried out by teams that have the appropriate skills, experience and supervision. It is the Company's policy that no trading in derivatives for speculative purposes may be undertaken. The Board of Directors reviews and agrees policies for managing each of these risks, which are summarised below.

Market Risk

Previous year figures have been recast/restated wherever necessary.

The sensitivity analyses in the following sections relate to the position as at 31 March 2021 and 31 March 2020.

The sensitivity analyses have been prepared on the basis that the amount of net debt, the ratio of fixed to floating interest rates of the debt and derivatives and the proportion of financial instruments in foreign currencies are all constant.

The sensitivity of the relevant profit or loss item is the effect of the assumed changes in respective market risks. This is based on the financial assets and financial liabilities held at 31 March 2021 and 31 March 2020.

Interest Rate Risk

The Company's exposure to changes in interest rates relates primarily to the Company's outstanding floating rate debt. All the borrowing of the Company are at floating rate of interest.

Interest Rate Sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

(₹ in Lakhs)		
Particulars	Increase/ Decrease in Basis Points	Effect on Profit Before Tax
As at 31 March 2021	+50	(16.16)
	-50	16.16
As at 31 March 2020	+50	(22.27)
	-50	22.27

The assumed movement in basis points for the interest rate sensitivity analysis is based on the currently observable market environment.

Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the Company's operating activities (when revenue or expense is denominated in a foreign currency). To mitigate the foreign currency risk, the Company enters into foreign exchange forward contracts. These foreign exchange forward contracts, carried at fair value, may have varying maturities varying depending upon the primary host contract requirements and risk management strategy of the Company.

The most significant foreign currencies the Company is exposed to is the USD and EURO. The following tables sets forth information relating to foreign currency forward contracts and unhedged foreign currency exposures as at 31 March 2021 and 31 March 2020.

Notes to the Financial Statements as at and for the year ended March 31, 2021 (Contd.)

Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and financial institutions and foreign exchange transactions.

The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and industries and operate in largely independent markets.

The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Company does not hold collateral as security.

Notes to the Financial Statements as at and for the year ended March 31, 2021 (Contd.)

44 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTD.)

i) Trade Receivables

Customer credit risk is managed on the basis of the Company's established policy, procedures and control relating to customer credit risk management. Trade receivables are non-interest bearing and are generally on 30 days to 145 days credit term. Credit limits are established for all customers based on internal rating criteria. Outstanding customer receivables are regularly monitored.

For trade receivables, Expected Credit Loss (ECL) is provided as per simplified approach. The Company has applied the practical expedient as per Ind AS 109 'Financial Instruments' to measure the loss allowance at lifetime ECL. The Company determines the ECL on trade receivables by using a provision matrix, estimated based on historical credit loss experience based on the past due status of the debtors, adjusted as appropriate to reflect current conditions and estimates of future economic conditions. Below table represents the reconciliation of provision made for expected credit loss for trade receivables:

Impairment Allowance based on ECL	(26.67)	4.11
Utilised during the Year	-	-
Closing Balance	0.04	26.71

ii) Financial Instruments and Cash Deposits

Credit risk from balances with banks and financial institutions is managed by the Company's finance department in accordance with the Company's policy. Investments of surplus funds are made only with approved counterparties who meets the minimum threshold requirements under the counterparty risk assessment process. Based on its on-going assessment of counterparty risk, the Company adjusts its exposure to various counterparties.

Liquidity Risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligation on time or at a reasonable price. Processes and policies related to such risks are overseen by senior management. The Company regularly monitors the rolling forecasts and actual cashflows, to ensure it has sufficient funds to meet the operational needs.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the interest-bearing loans and borrowings that define capital structure requirements. Breaches in meeting the financial covenants would permit the bank to immediately call loans and borrowings. There have been no breaches in the financial covenants of any interest-bearing loans and borrowing in the current period.

No changes were made in the objectives, policies or processes for managing capital during the years ended 31 March 2021 and 31 March 2020.
