Tata Steel stock is red hot at bourses amid many triggers

The company's m-cap is up 27% in April so far, and has trebled since Sept 2020

KRISHNA KANT
Mumbai, 29 April

After being a market laggard for more than a decade, Tata Steel has suddenly become one of the hottest stocks on the bourses. The company's market capitalisation is up 27 per cent in April, so far, and has trebled in value since the end of September 2020, against a 28 per cent rally in the benchmark BSE Sensex during the period.

The stock was one of the top performers among the index stocks on Thursday. It ended the day with gains of 6.1 per cent, to close at a fresh lifetime high of ₹1,031.6. This was also the first time that the Tata Steel stock price broke into the four-digit territory.

Tata Steel investors have waited for nearly a decade to make money on their investment in the stock. The stock took nearly 13 years to go past its 2007 high ₹924.

The immediate reason for the rally in steel stocks is the latest policy of the Chinese government to discourage polluting industries in the country, including steel. The Chinese government has withdrawn export subsidies on over 100 products, including hot-rolled steel. The government also cut import duty on steel imports into the country.

Analysts say the latest move by China will raise steel prices globally, and reduce steel exports from China, benefitting Indian metal producers, such as Tata Steel which has a global footprint.

"China is signalling that it now wants to limit domestic steel production as it aims to cut its carbon emissions and reduce air pollution. This improves the export opportunity for Indian steelmakers and compensates for any potential decline in domestic sales volume due to the second wave of Covid-19," says Shailendra Kumar, CIO Narmolia Securities.

Analysts also see steel as a play in the global economic recovery after the Covid-19-triggered decline in economic activities in 2020. "The manufacturing purchasing manager's index (PMI) is up in all G20 countries except for India. This signals a

OUTPERFORMER

ON THE RISE

STEEL STOCKS GOING STRONG

Steel stocks were top gainers at the bourses on Thursday. The top four integrated steel makers ended the day with gains of 7.6 per cent on average against nearly a flat broader market. In fact, if not for the gains posted by steelmakers and non-ferrous metal producers such as Hindalco, the index would have ended in the red.

The gains in steel stocks were led by JSW Steel that was up nearly 10 per cent; it was

followed by Steel Authority of India that ended the day with gains of 8.6 per cent.

With the latest rally, steel companies' combined market capitalisation is up 41 per cent during April and 178 per cent since the end of September 20 when the rally in metals began in full earnest. Most analysts expect the rally in steel to continue for at least a few more months given strong demand globally and higher prices.

KRISHNA KANT

THE LEAGUE TABLE

(As on Apr 29)	Close	Chge 1D(%)	Chge YTD (%)
S&P BSE METAL	17,809.6	5.2	53.5
S&P BSE SENSEX	49,765.9	0.1	4.2
(As on Apr 29)	Price (₹)	Chge 1D(%)	Chge YTD (%)
JSW Steel	726.9	9.8	87.7
Jindal Steel & Power	454.1	2.3	70.7
Tata Steel	1,031.6	6.2	60.3
Vedanta	255.0	4.5	57.9
Hindalco Industries	372.2	2.7	54.8
Steel Authority of India	112.4	8.6	51.7
National Aluminium Co	64.8	6.1	50.2
NMDC	154.0	4.3	34.6
Hindustan Zinc	307.1	-0.3	28.5
Coal India	128.0	-0.4	-5.5

Source: Bloomberg; Compiled by BS Research Bureau

strong demand for metals, especially steel. The demand growth has come at a time when steelmakers are sitting on little or no inventory, leading to higher price realisations and profits going forward," says Dhananjay Sinha, head institutional equity Systematix Group.

According to him, steelmakers are also benefiting from a weakness in the dollar due to a recent decline in bond yields in the United States. The depreciation in dollars translates into a higher price for metals, including steel.

Analysts see Tata Steel among the top beneficiaries of the global recovery in steel demand and prices. The company's European operations account for nearly half its revenues, unlike its other Indian

peers which are largely domestic market-focused companies.

Tata Steel is also likely to gain from its relatively low valuation compared to industry peers. The stock is currently trading at the EV-to-price-to-book value ratio of 3.4x, against JSW Steel's 5.8x. Tata Steel is also cheaper on the market capitalisation-to-book value ratio and EV-to-Ebitda or operating profit ratio.

EV or enterprise value is the sum of a company's market capitalisation, its gross debt minus cash & equivalents on its books. EV is a better gauge of steelmakers' overall valuation compared to market capitalisation, given large debt on their books.

Tata Steel current EV is ₹2.21 trillion against JSW Steel EV of ₹2.18 trillion.

However, JSW Steel market capitalisation is nearly 50 per cent higher than Tata Steel's m-cap.

Analysts expect Tata Steel stock price to gain from a potential decline in its debt level over the next two years. "We expect Tata Steel to use the cash generated from higher profits in the current cycle to reduce debt, which will boost its market cap even if EV rises only slightly," says Shailendra Kumar.

Analysts at Systematix Group have a price target of ₹1,200 on Tata Steel, nearly 20 per cent higher than the current level. The only risk for the company is a potential decline in production and sales volume in India due to the second Covid wave.

Combine SIP with long investment horizon

SARBAJEET K SEN

With the growing popularity of systematic investment plans (SIPs), most investors nowadays take this route when investing in equity MFs.

However, the use of SIPs has still not become as common in debt funds, where it can be advantageous as well.

"We think of SIPs mostly in the context of equities, since the equity market is more volatile and the concept of rupee-cost-averaging is more relevant there. But an SIP is a good idea in the case of debt funds too," says Joydeep Sen, corporate trainer (debt market) and author.

A cycle. An SIP can capture both the upside and the downside in NAVs, and thereby average out the cost of purchase of units over the long term. Hence, an investor can start a debt fund SIP irrespective of where we are positioned in the interest-rate cycle," says Sridharan, founder, Wealth Ladder Direct. An SIP removes the need to time the market. "The debt fund investor, doing an SIP, will be able to benefit from the lower NAVs during those phases of the cycle when rates are moving up," says Sen.

Benefit from changing credit spreads

Bonds with varying levels of credit risk have different yields. The difference in yields (called spread) between, say, AAA bonds and AA bonds, also keeps changing. Sometimes, the spread could be 200 basis points, and sometimes (when the fear of default is higher), it can rise to 400 basis points. Such movements, too, affect bond prices. By investing in a staggered manner through SIPs, investors can benefit from such fluctuations.

YOUR MONEY

Introduces discipline

For people who earn a monthly salary, SIPs in debt funds can help them build their debt allocation steadily. "Salaried people can have a defined amount going into SIPs. Otherwise, it could get spent elsewhere. It is a good way to gradually build up your corpus for achieving large financial goals. The investment required may not be available at one go but can be built over time through SIPs," says Sen.

Beat interest-rate volatility

Not just equity funds, even debt funds can be volatile. When interest rates move up, bond prices, especially longer-duration bonds, fall. This affects the net asset values (NAVs) of bond funds adversely. In February 2021, for instance, corporate bond funds lost 0.56 per cent on an average, according to data from Value Research.

By taking the SIP route in debt funds, investors can handle such volatility better. "Currently, we appear to be at the bottom of the interest-rate

SIP with a long-term view

Even when you are investing for the very long term, say, for your retirement or for children's education, you cannot build a pure equity portfolio, as it would be too volatile. So, you need to have exposure to debt. This can range from 20-50 per cent, depending on the investor's risk appetite.

Most investors are likely to use a mix of low- and medium-duration debt funds in such portfolios (some who have the risk appetite, or have an advisor to guide them, can also invest in longer-duration debt funds).

BENEFIT FROM RUPEE-COST AVERAGING

Category average SIP return (%)

Fund category	3-year	5-year	7-year
Medium duration	5.26	5.19	6.63
Medium to long duration	7.24	6.60	6.89

TENDER CARE

BUSINESSMAN HAS WON RS. 5 CRORES IN DEAR BSAISKHI BUMPER LOTTERY

Amid the Corona Pandemic, in times of despair, a ray of hope strikes into a middle class home at Thane district's Diva area in Maharashtra. Mr. Rajkant Patil, a small businessman has won Rs. 5 Crores as first prize in Punjab Government's Dear Baisakhi Bumper Lottery in the draw held on 19.4.2021. Winning ticket number which brought him Rs. 5 Crores is 212083. Mr. Rajkant Patil, who lives in Diva, Thane near Mumbai, Maharashtra with his wife, his mother and two children was thrilled when he received the good news. "I had contracted the virus and was actually admitted at a hospital for treatment. After recovering, when I returned home, I received a message from Dear Lotteries asking me to get in touch with them. For some reason, I was nervous and confused because I had been sick this whole time and I had no idea about what to expect. But when I called, they said 'Hi Mr. Patil, you are on conference with 25 people from the Dear Lotteries team and we want to congratulate you for winning 5 crores'. Wow, those words still ring in my ears and gives me goosebumps" said Mr. Patil. It is a huge money that I would not have seen in my life. The winner reiterated that he will spend all the prize money for social cause. Dear Lotteries are available in states where sale of lotteries are permitted and are making Crorepati regularly. In continuation of this bumper lottery, Punjab Government has introduced their next Bumper Lottery in the name of "Dear Summer Special 2021". Draw of this bumper lottery will be held on 2.7.2021. Each ticket is priced at Rs. 500. The uniqueness of this ticket is, first prize amount of Rs. 5 Crores (Rs. 2.50 Crores x 2 Prizes) will be drawn & selected out of sold tickets only. Therefore, first prize will be won definitely by someone. Apart from this there will be several prizes worth crores of rupees.

GNFC RAMPS UP PRODUCTION OF MEDICAL GRADE LIQUID OXYGEN

GNFC ramps up production of medical grade Liquid Oxygen and supply free of cost for serving social cause in current pandemic. While oxygen demand has suddenly increased with rapid spread of current pandemic, GNFC has started producing and supplying medical grade oxygen immediately after resuming from its planned Annual Shutdown during first two weeks of April. Shri Pankaj Joshi, IAS, Managing Director, GNFC mentioned that it initially started with daily production of 10,000 litres per day on 19.04.2021 which has now been increased to around 30,000 litres which will be equivalent to 3000 cylinders a day after ramping up the production capacity. He further elaborated that it is proud moment for him and team GNFC that it has risen to the occasion by meeting clarion call given by State and Country's leadership. GNFC modified it's operations related to Air Separation Unit to address the issue of medical oxygen demand. Shri Joshi expressed that with oxygen support from GNFC, it hopes to contribute towards saving precious human capital of country.

RAILWAY MOBILISES 22 ADDITIONAL COVID CARE COACHES FOR USE IN STATES OF MADHYA PRADESH AND MAHARASHTRA

Strengthening the capabilities of the nation in the united fight against Covid, the Ministry of Railways has, amongst its multi-pronged initiatives, deployed nearly 4000 Isolation Coaches with almost 64000 beds. To work concurrently with the States and in a bid to reach out as swiftly as possible, the Railway has drawn a de-centralised plan of action empowering Zones and Divisions to work out their Memorandum of Agreement for cohesive action. These Isolation Coaches can be easily moved and positioned at places of demand on the Indian Railways network. Accordingly, as per States' demand, at present 191 coaches have been handed over to various states for Covid care with a bed-capacity of 2990 beds. Isolation Coaches are presently utilised at Delhi, Maharashtra (Ajni ICD, Nandrubar), Madhya Pradesh (Tihri near Indore). The Railways has also positioned 50 coaches at major cities of Uttar Pradesh like Faizabad, Bhadohi, Varanasi, Bareilly and Nazibabad. The updated position of the utility of these coaches positioned in the States of Delhi, UP, MP and Maharashtra are as follows - At Nandrubar (Maharashtra), 58 patients are currently utilising the facility. Cumulatively, upto now, 85 admissions were registered with subsequent discharge of patients by State Health Authorities. 330 beds are still available.

DELHI RECEIVES ITS FIRST OXYGEN EXPRESS

Indian Railways is continuing its journey of delivering liquid medical oxygen to various parts of the country. So far, 450 metric tonnes have been delivered to Maharashtra, Uttar Pradesh & Delhi in 6 Oxygen express through 26 tankers covering more than 10,000 km (in empty and loaded conditions). Currently, another oxygen express is on the run from Bokaro to Bhopal via Jabalpur. This train is carrying 90 metric tonnes of liquid medical oxygen in six tankers, which will replenish oxygen demand in Madhya Pradesh through the city of Bhopal and Jabalpur. Another empty rake from Lucknow has reached Bokaro, which will bring another set of oxygen tankers replenishing oxygen supply to Uttar Pradesh.

TOTAL 510 MT OF OXYGEN DELIVERED BY INDIAN RAILWAYS TO UTTAR PRADESH, MAHARASHTRA, DELHI AND MADHYA PRADESH

Indian Railways is continuing its journey of delivering liquid medical oxygen to various parts of the country. So far, more than 510 metric tonnes liquid medical oxygen (LMO) have been delivered to Maharashtra, Uttar Pradesh, Madhya Pradesh & Delhi. Haryana govt. has also requested railways for Oxygen express. Currently, tankers are being loaded in Faridabad, which will be sent for filling to Rourkela. As of now, it is planned that 2 Oxygen express with a capacity of 5 tankers each will be run specifically for Haryana. Madhya Pradesh has received its first Oxygen express carrying more than 64 metric tonnes of liquid medical oxygen today early morning. These tankers were unloaded at various locations in Madhya Pradesh in cities like Jabalpur (1 Tanker), Bhopal (2 Tankers) & Sagar (3 Tankers). 4th Oxygen express destined for Lucknow will be reaching Lucknow today carrying three tankers of LMO. Another empty rake is on its way (6th) from Lucknow to Bokaro, which will bring another set of oxygen tanker replenishing oxygen supply to Uttar Pradesh. Continuous Oxygen express to Uttar Pradesh is ensuring uninterrupted oxygen replenishment to the residents of UP. So far, Indian Railways has delivered 202 metric tonnes to Uttar Pradesh, 174 metric tonnes to Maharashtra, 70 metric tonnes to Delhi and Madhya Pradesh 64 metric tonnes.
