MANAGEMENT DISCUSSION AND ANALYSIS

OVERVIEW OF INDIAN ECONOMY

India is primarily a domestic demand-driven economy, with consumption and investments contributing 70% to the country's economic activity. With the economic scenario improving on recovering from the COVID-19 pandemic shock, several investments and developments have been made across various sectors of the economy. According to World Bank, India must continue to prioritise lowering inequality while also launching growth-oriented policies to boost the economy.

The Indian economy has fully recovered to the pre-pandemic real GDP level of 2019-20, according to the provisional estimates of GDP released on May 31, 2022. Real GDP growth in FY 2021-22 stands at 8.7%, which is 1.5% higher than the real GDP in FY 2019-20. These figures are associated with stronger growth momentum, indicating increased economic demand. The investment rate in the fourth quarter increased to its highest level in the previous nine quarters. Moreover, capacity utilisation in the manufacturing sector rose in the fourth quarter, as against the third quarter, implying a build-up in demand, which is consistent with the growth objectives of the Indian economy.

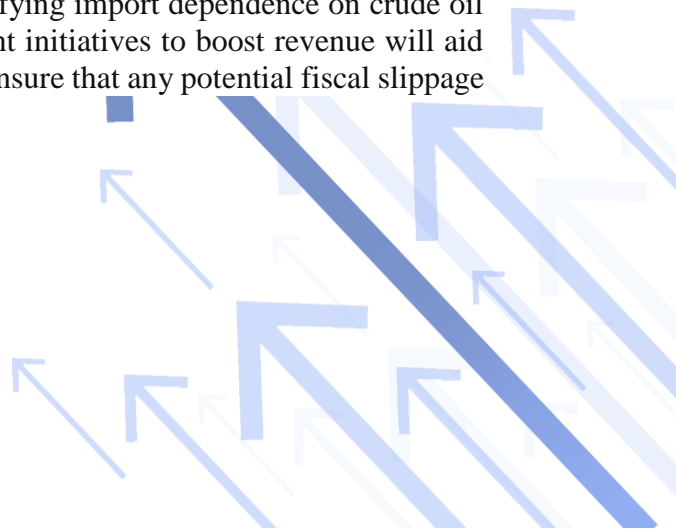

Future capital spending of the government in the Indian economy is expected to be supported by factors such as tax buoyancy, streamlined tax system, thorough assessment and rationalisation of the tariff structure and digitisation of tax filing. In the medium term, an increase in capital spending on infrastructure and asset-building projects is set to increase growth multipliers. Furthermore, revival in monsoon and Kharif sowing helped the agriculture sector gain momentum. As of July 11, 2022, the South-West monsoon has covered the entire country, resulting in 7% higher rainfall than the normal level.

India has emerged as the fastest-growing major economy in the world, and is expected to be one of the top three economic powers globally over the next 10-15 years, backed by its robust democracy and strong partnerships.

OUTLOOK

Despite continuing geopolitical concerns, rising interest rates in the US and India and high prices of crude oil and few other commodities, economic activity in India is holding up better than anticipated. Electricity consumption, manufacturing PMI, exports, power supply and other high-frequency indicators indicate that the pace of economic activity has fully recovered from the COVID-19 pandemic shock.

Economic growth is anticipated to be fueled by the effective implementation of PLI schemes, development of renewable energy sources while diversifying import dependence on crude oil and bolstering of the banking sector. Recent government initiatives to boost revenue will aid in containing the rise in the current account deficit and ensure that any potential fiscal slippage is adequately contained.

Overall, the first ten days of July and June were better than the first two months of FY 2022–23, which is a cause for comfort and even cautious optimism in these testing times. India is expected to be the third-largest consumer economy as its consumption may quadruple to US\$ 4 trillion by 2025 due to changes in consumer behaviour and spending patterns. By 2040, India is anticipated to overtake the US to become the second-largest economy in terms of purchasing power parity (PPP).

1. INDUSTRY STRUCTURE AND DEVELOPMENT

India has a diversified financial sector undergoing rapid expansion, both in terms of strong growth of existing financial services firms and new entities entering the market. The sector comprises commercial banks, insurance companies, non-banking financial companies, co-operatives, pension funds, mutual funds and other smaller financial entities. The banking regulator has allowed new entities such as payment banks to be created recently, thereby adding to the type of entities operating in the sector. However, financial sector in India is predominantly a banking sector with commercial banks accounting for more than 64% of the total assets held by the financial system.

The Government of India has introduced several reforms to liberalise, regulate and enhance this industry. The Government and Reserve Bank of India (RBI) have taken various measures to facilitate easy access to finance for Micro, Small and Medium Enterprises (MSMEs). These measures include launching Credit Guarantee Fund Scheme for MSMEs, issuing guideline to banks regarding collateral requirements and setting up a Micro Units Development and Refinance Agency (MUDRA). With a combined push by Government and private sector, India is undoubtedly one of the world's most vibrant capital markets. bined push by Government and private sector, India is undoubtedly one of the world's most vibrant capital markets.

Road Ahead

India's financial services industry has experienced huge growth in the past few years. This momentum is expected to continue. India's private wealth management Industry shows huge potential. India is expected to have 6.11 lakh HNWIs by 2025. This will indeed lead India to be the fourth largest private wealth market globally by 2028. India's insurance market is also expected to reach US\$ 250 billion by 2025.

India is today one of the most vibrant global economies on the back of robust banking and insurance sectors. The relaxation of foreign investment rules has received a positive response from the insurance sector, with many companies announcing plans to increase their stakes in joint ventures with Indian companies. Over the coming quarters, there could be a series of joint venture deals between global insurance giants and local players.

2. OPPORTUNITIES AND THREATS

OPPORTUNITIES:

With continuous support by the Government towards entrepreneurship (e.g. ease of doing business), India sees an increasing number of startups and small businesses. With the advent of SME exchange, it has become easier for SMEs to get listed. Furthermore, the rising penetration of private equity and venture capital in Indian startups is expected to result in increased M&As and IPOs.

- Revival from Indian Equity market post lock down will revive the IPO deals and thereby push demand of merchant bankers.
- Growth in foreign direct investment and also funding by promoters in to companies will push demand of merchant bankers for valuation assignments.
- Various funding transactions push demand of merchant bankers for valuation certifications.

THREATS:

Despite opportunities, there are significant factors presenting threats to our business viz:

- Uncertainty and low business confidence due to pandemic Covid-19 will adversely impact the business.
- Capital Market gets affected by events such as interest rate hikes, monsoon performance, tax concerns, other global events & domestic political events such as interim & state elections.
- Continuous downward pressure on the fees and commissions caused by heightened competition and willingness of most players to deliver services at very low fees.
- The effect of any of the adverse events on the capital market would pose a threat for the process of capital formation and resource raising.

3. SEGMENT-WISE / PRODUCT-WISE PERFORMANCE:

The Company has delivered a satisfactory financial and operating performance for 2021-22. The total revenue is ₹ 177.24 lakhs in FY 2021-22 as compared to ₹ 104.09 lakhs in FY 2020-21. The Profit before interest and taxes stands ₹ 120.73 lakhs for the FY 2021-22 as against ₹ 65.44 lakhs in 2020-21.

4. OUTLOOK FOR FY 22-23

- To become top Merchant Banker in India for Services like IPO, Valuation and Business Advisory.
- To provide solutions to our clients with a vision to maximize their growth by placing the highest importance on quality, professionalism, integrity and confidentiality.

5. RISK AND CONCERN

The Company's ability to foresee and manage business risks is crucial in achieving favourable results. Risk management at Interactive Financial Services Limited is an integral part of the business, focusing to mitigate the adverse impact of risks on business objectives. The Company has laid down a well-defined risk management procedure covering the risk identification, risk exposure, potential impact and risk mitigation process. The Board periodically reviews the risks and suggests steps to be taken to control and mitigate the same through a properly defined framework.

6. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has an adequate internal control system adopted for operating procedures, policies and process guidelines. The guidelines are well-documented with clearly defined authority limits corresponding with the level of responsibility for each functional area. Further, the Company has budgetary control system to monitor expenditure against approved budgets on an ongoing basis. The Company's robust internal audit programme which works to conduct a risk-based audit not only tests the adherence to laid down policies and procedures but also suggests improvements in the current processes and systems.

7. DISCUSSION ON FINANCIAL PERFORMANCE WITH RESPECT TO OPERATIONAL PERFORMANCE

The Financial performance of the company during the FY 2021-22 as compared to FY 2020-2021 is as under:

Particulars	2021-2022	2020-2021	(Rs. In Lakhs)
			% of Increase/Decrease
Gross Revenue from operations	177.24	104.09	70.28%
Profit Before Tax	120.68	65.42	84.47%
Profit after Tax	100.10	46.62	122.18%

Operational Performance

The Company continued to focus on improving operational efficiency leading to better returns for the shareholders. Further, the company has significantly enhanced its operational performance by establishing prudent risk management framework.

8. MATERIAL DEVELOPMENT IN HUMAN RESOURCES/INDUSTRIAL RELATIONSHIP FRONT, INCLUDING NUMBER OF PEOPLE EMPLOYED

INDEPENDENT AUDITORS' REPORT

**To The Members,
Interactive Financial Services Limited**

Report on the Financial Statements

Opinion

We have audited the accompanying financial statements of Interactive Financial Services Limited (“the Company”), which comprise the Balance sheet as at March 31, 2022, the Statement of Profit and Loss (including other comprehensive income), the Statement of changes in equity, the Cashflow Statement for the year then ended, and notes to the financial statements, including a summary of Significant Accounting policies and other explanatory information. (hereinafter referred to as the financial statements).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act 2013 (“Act”) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended (“Ind AS”) and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, and its profit, total comprehensive income, the changes in equity and cash flows for the year ended on that date.

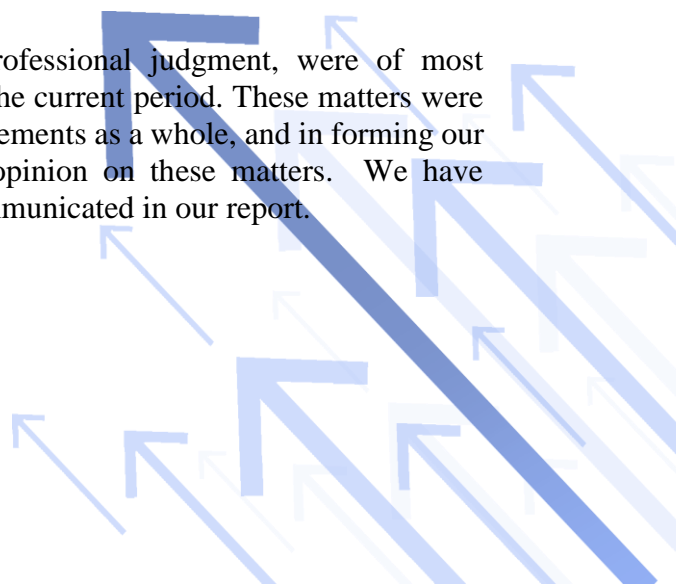

Basis for opinion

We conducted our audit in accordance with the standards on auditing specified under section 143 (10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the auditor’s responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with the code of ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the code of ethics.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined that there are no key audit matters to be communicated in our report.

Information other than the financial statements and auditors' report thereon

The Company's board of directors is responsible for the preparation of the other information. The other information comprises the information included in the Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance report and shareholder's information but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's board of directors is responsible for the matters stated in section 134 (5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the Indian Accounting Standards (Ind AS) prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended from time to time, and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statement that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The board of directors are also responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1 As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in Annexure "A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
- 2 As required by section 143(3) of the Act, we report that:
 - a. we have sought and obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purpose of our audit.
 - b. in our opinion, the Company has kept proper books of account as required by law, so far as appears from our examination of the books.

Annexure - B to the Independent Auditor's Report of even date on the financial statements of interactive financial services limited.

(Referred to in paragraph 2 (f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

Opinion

We have audited the internal financial controls over financial reporting of Interactive Financial Services Limited ("the Company") as of 31st March 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2022, based on , "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an

understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

STATEMENT ON SIGNIFICANT ACCOUNTING POLICIES

BACKGROUND

Interactive Financial Services Limited ('the Company') is a Public Limited Company engaged primarily in providing high end of software implementation and revenue cycle enhancement consulting services within the healthcare domain globally. During the year company has started business of merchant banking services and got registered with SEBI. The Company is listed on the Bombay Stock Exchange Limited (BSE). The Company's registered office is at A-1006, Premium House, Behind Handloom House, Ashram Road Ahmedabad GJ 380009.

1 BASIS OF PREPARATION AND SIGNIFICANT ACCOUNTING POLICIES

1.1 BASIS OF PREPARATION OF ACCOUNTS

a) Statement of compliance with Ind AS

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ('Act') read with of the Companies (Indian Accounting Standards) Rules, 2015 as amended and other relevant provisions of the Act. The accounting policies are applied consistently to all the periods presented in the financials.

b) Functional and presentation currency

These financial statements are presented in Indian rupees in Lakhs, which is the Company's functional currency. All amounts have been rounded to the nearest Lakh rupee, unless otherwise indicated.

c) Basis of Measurement

These financial statements have been prepared on a historical cost convention basis, except for the following:

(i) Certain financial assets and liabilities that are measured at fair value.

(ii) Assets held for sale- Measured at the lower of (a) carrying amount and (b) Fair Value less cost to sell.

(iii) Net defined benefit plans- Plan assets measured at Fair Value less present value of defined benefit obligation.

(iv) Determining the Fair Value

While measuring the Fair Value of an asset or a liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a Fair Value hierarchy based on the inputs used in the valuation techniques as follows.

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the Fair Value of an asset or a liability fall into different levels of the

Fair Value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the Fair Value hierarchy as the lowest level input that is significant to the entire measurement.

d) Use of Estimates and Judgement

The preparation of financial statements in accordance with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to the accounting estimates are recognized in the period in which the estimates are known or materialised. The most significant estimates and assumptions are described below:

(i) Judgements

Information about judgments made in applying accounting policies that have the significant effect on amounts recognised in the financial statement are as below:

- Leases identification- Whether an agreement contains a lease.
- Classification of lease - Whether Operating or Finance

(ii) Assumptions and Estimations

Information about assumption and estimation uncertainties that have significant risk of resulting in a material adjustment are as below:

1. Impairment test of non-financial assets

For the purpose of assessing recoverability of non-financial assets, assets are grouped at the lower levels for which there are individually identifiable cash flows (Cash Generating Units).

2. Allowance for bad debts

The Management makes estimates related to the recoverability of receivables, whose book values are adjusted through an allowance for Expected losses. Management specifically analyzes accounts receivable, customers' creditworthiness, current economic trends and changes in customer's collection terms when assessing the adequate allowance for expected losses, which are estimated over the lifetime of the debts.

3. Recognition and measurement of Provisions and Contingencies

The Company's Management estimates key assumptions about the likelihood and magnitude of an outflow of resources based on available information and the assumptions and methods deemed appropriate. Wherever required, these estimates are prepared with the assistance of legal counsel. As and when additional information becomes available to the Company, estimates are revised and adjusted periodically.

4. Recognition of Deferred Tax Assets

The Management makes estimates as regards to availability of future taxable profits against which unabsorbed depreciation/ tax losses carried forward can be used.

5. Measurements of Defined benefit obligations

The measurements are based on key actuarial assumptions.

e) Recent accounting pronouncements

The Ministry of Corporate Affairs (MCA) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, as below.

1. Ind AS 16, Property Plant and equipment – The amendment clarifies that excess of net sale proceeds of items produced over the cost of testing, if any, shall not be recognized in the profit or loss but deducted from the directly attributable costs considered as part of cost of an item of property, plant, and equipment. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022. The Company has evaluated the amendment and there is no impact on its Standalone financial statements.
2. Ind AS 37, Provisions, Contingent Liabilities and Contingent Assets – The amendment specifies that the ‘cost of fulfilling’ a contract comprises the ‘costs that relate directly to the contract’. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labor, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract). The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022, although early adoption is permitted. The Company has evaluated the amendment and the impact is not expected to be material.

f) Current and non-current classification

All assets and liabilities have been classified as current or non-current as per the Company’s normal operating cycle (not exceeding twelve months) and other criteria set out in the Schedule III

g) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest rupee in Lakhs as per the requirement of Schedule III, unless otherwise stated.

1.2 SIGNIFICANT ACCOUNTING POLICIES

a) Property, Plant and Equipmrent

(i) Recognition and measurement

The Company had applied for the one time transition exemption of considering the carrying cost on the transition date i.e. 1st April, 2016 as the deemed cost under Ind AS. Hence regarded thereafter as historical cost.

Property, Plant and Equipment are measured at cost (which includes capitalised borrowing costs) less accumulated depreciation and accumulated impairment losses, if any. The cost of an item of Property, Plant and Equipment comprises:

- a) its purchase price, including import duties and nonrefundable purchase taxes, after deducting trade discounts and rebates.
- b) any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by the management.

c) the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of Property, Plant and Equipment have different useful lives, then they are accounted for as separate items (major components) of Property, Plant and Equipment and depreciated accordingly. Any gain or loss on disposal of an item of Property, Plant and Equipment is recognised in Statement of profit or loss.

(ii) Subsequent expenditure

Subsequent expenditure is capitalised only if it is probable that the future economic benefits associated with the expenditure will flow to the Company.

(iii) Depreciation, Estimated useful life and estimated residual value

Depreciation is calculated using the Straight Line Method, pro rata to the period of use, taking into account useful lives and residual value of the assets. The Company depreciates its property, plant and equipment over the useful life in the manner prescribed in Schedule II to the Act and management believe that useful life of assets are same as those prescribed in Schedule II to the Act. Depreciation is computed with reference to cost or revalued value as per previous GAPP as the case may be. The assets residual value and useful life are reviewed and adjusted, if appropriate, at the end of each reporting period. Gains and losses on disposal are determined by comparing proceeds with carrying amounts. These are included in the statement of Profit and Loss.

b) Intangible Assets

(i) Recognition and measurement

Computer softwares have finite useful lives and are measured at cost less accumulated amortisation and any accumulated impairment losses. The same are tested for impairment, if any, at the end of each accounting period.

(ii) Subsequent expenditure

Subsequent expenditure is capitalised only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, when incurred is recognised in statement of profit or loss.

(iii) Amortisation

Amortisation is calculated to write off the cost of intangible assets less their estimated residual values using the straight-line method over their estimated useful lives and is generally recognised in statement of profit or loss. Computer software are amortised over their estimated useful life or 5 years, whichever is lower. Amortisation methods, useful lives and residual values are reviewed at each reporting date and adjusted, if required.

b) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign currency foreign exchange forward contracts, interest rate swaps and currency options.

(i) Financial Assets

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign currency foreign exchange forward contracts, interest rate swaps and currency options.

a) Classification

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at Fair Value Through Other Comprehensive Income-[FVTOCI], or Fair Value Through Profit and Loss-[FVTPL] and - those measured at Amortised Cost.[AC]. The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

b) Measurement

At initial recognition, the Company measures a financial asset at its fair value. Transaction costs of financial assets carried at fair value through the Profit and Loss are expensed in the Statement of Profit and Loss.

In case of investments

i) In Equity instruments

- For subsidiaries, associates and Joint ventures - Investments are measured at cost and tested for impairment periodically. Impairment (if any) is charged to the Statement of Profit and Loss.

- For Other than subsidiaries, associates and Joint venture - Investments are measured at FVTOCI.

ii) In Mutual fund

Measured at FVTPL.

iii) In Debt instruments

The Company measures the debts instruments at Amortised Cost. Assets that are held for collection of contractual cash flows where those cash flows represent solely payment of principal and interest [SPPI] are measured at amortised cost. Gain or loss on a debt instrument that is subsequently measured at amortised cost and is not part of the hedging relationship, is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in finance income using the Effective interest rate method.

c) Derecognition of financial assets

A financial asset is derecognised only when:

- The Company has transferred the rights to receive cash flows from financial asset, or
- Retains the contractual rights to receive the cash flows of the financial assets, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the Company has transferred an asset and has transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised.

Where the Company has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the Company has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the

Company has not retained the control of the financial asset. Where the Company retains the control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

d) Impairment of financial assets

In accordance with Ind-AS 109, the Company applies Expected Credit Loss (ECL) Model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments and are measured at amortised cost e.g., loans, debt securities, deposits, and bank balance.
- b) Trade receivables

The Company follows 'simplified approach' for recognition of impairment loss allowance on:

- Trade receivables which do not contain a significant financing component.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

- For recognition of impairment loss on other financial assets and risk exposure, the Company determines whether there has been a significant increase in the credit risk since initial recognition. ECL is used to provide for impairment loss.

(ii) Financial Liabilities

a) Classification

The Company classifies its financial liabilities in the following measurement categories:

- those to be measured subsequently at FVTPL and
- those measured at Amortised Cost (AC)

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

b) Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at FVTPL or AC.

All financial liabilities are recognised initially at Fair Value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

c) Financial liabilities at FVTPL

Financial liabilities at FVTPL include financial liabilities designated upon initial recognition as at Fair Value Through Profit or Loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind-AS 109. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at FVTPL are designated at the initial

date of recognition, only if the criteria in Ind-AS 109 are satisfied. For liabilities designated as FVTPL, Fair Value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/loss are not subsequently transferred to statement of profit or loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit or loss.

d) Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate (EIR) method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. AC is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss. This category generally applies to interest-bearing loans and borrowings.

e) Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

f) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

g) Derivative financial instruments

The Company uses derivative financial instruments, such as forward currency contracts, interest rate swaps and forward commodity contracts to hedge its foreign currency risks, interest rate risks and commodity price risks respectively. Such derivative financial instruments are initially recognised at Fair Value on the date on which a derivative contract is entered into and are subsequently re-measured at Fair Value. Derivatives are carried as financial assets when the Fair Value is positive and as financial liabilities when the Fair Value is negative.

c) Trade Receivable

Trade receivable are recognised initially at Fair Value and subsequently measured at AC using the effective interest method less provision for impairment. As per Ind AS 109 the Company has applied ECL for recognising the allowance for doubtful debts. Where Company has offered extended credit period [ECP] to the debtors, the said amount is recorded at present value, with corresponding credit in the statement of profit and loss over the tenure of the extended credit period

d) Cash and Cash Equivalent

For the purpose of presentation in the statement of the cash flows, cash and cash equivalent includes the cash on hand, deposits held at call with financial institutions other short term, highly liquid investments with original maturity of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

e) Contributed Equity

Equity shares are classified as equity. Incidental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

I) Dividends

Provision is made for the amount of any dividend declared, in the year in which it is approved by shareholders.

II) Earnings per share

(i) Basic earnings per share

Basic earnings per shares is calculated by dividing Profit/(Loss) attributable to equity holders (adjusted for amounts directly charged to Reserves) before/after Exceptional Items (net of tax) by Weighted average number of Equity shares, (excluding treasury shares).

(ii) Diluted earnings per share

Diluted earnings per shares is calculated by dividing Profit/(Loss) attributable to equity holders (adjusted for amounts directly charged to Reserves) before/after Exceptional Items (net of tax) by Weighted average number of Equity shares (excluding treasury shares) considered for basic earning per shares including dilutive potential Equity shares.

f) Borrowing

Borrowings are initially recognised at Fair Value, net of transaction costs incurred. Borrowings are subsequently measured at AC. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of borrowings using the effective interest method. Processing/Upfront fee are treated as prepaid asset and netted off from borrowings. The same is amortised over the period of the facility to which it relates. Preference shares are classified as liabilities. The dividends on these preference shares, if approved, by shareholders in the forthcoming Annual General Meeting, are recognised in profit or loss as finance costs, in the year when approved. Borrowings are derecognised from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of the financial liability that has been extinguished or transferred to another party and the consideration paid including any non-cash assets transferred or liability assumed, is recognised in Statement of profit or loss as other gains or (losses). Borrowings are classified as current liabilities unless the Company has an unconditional right to defer the settlement of liabilities for at least twelve months after the reporting period. Where there is a breach of a material provision of a long term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the same is classified as current unless the lender agreed, after the reporting period and before the approval of financial statements for issue, not to demand payment as a consequence of the breach.

g) Trade and Other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid at the period end. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their Fair Value and subsequently measured at amortised cost using the effective interest method.

h) Foreign Currency Transactions

Transactions in foreign currencies are translated into the functional currencies of the Company at the exchange rate prevailing at the date of the transactions. Monetary assets (other than investments in companies registered outside India) and liabilities denominated in foreign currencies are translated into the functional currency at the exchange rate at the reporting date. Investments in companies registered outside India are converted at rate prevailing at the date of acquisition. Non-monetary assets and liabilities that are measured at Fair Value in a foreign currency are translated into the functional currency at the exchange rate when the Fair Value was determined. Non-monetary items that are measured based on historical cost in a foreign currency are not translated. Difference on account of changes in foreign currency are generally charged to the statement of profit & loss.

i) Revenue Recognition

The Company derives revenues primarily from I T Services comprising of high end of software implementation and revenue cycle enhancement consulting services within the healthcare domain.

Revenue is recognized upon transfer of control of promised products or services to the customer in an amount that reflects the consideration we expect to receive in exchange for those products or services.

Revenue from contracts priced on time and material basis is recognised when services are rendered and the related costs are incurred.

Revenue related to fixed price maintenance and support services contracts where the Company is standing ready to provide services is recognised based on time elapsed mode and revenue is straight lined over the period of performance. Revenue from services performed on fixed-price basis is recognized using the input method as defined in Ind AS-115. The Company uses efforts or cost expended to measure progress towards completion as there is a direct relationship between input and productivity. If the company does not have a sufficient basis to measure the progress of completion or to estimate total contract revenues and costs, revenue is recognised only to the extent of contract cost incurred for which recoverability is probable.

When total cost estimates exceed revenue in arrangement, the estimated losses are recognised in the statement of profit and loss in the period in which such losses become probable based on the current contract estimates.

Contract modifications are accounted for when additions, deletions or changes are approved either to the contract scope or contract price. Contract modifications involving services added that are not distinct are accounted for on a cumulative catch up basis, while those that are distinct are accounted for prospectively as a separate contract.

‘Unbilled revenues’ (contract asset) represent revenue earned in excess of billings as at the end of the reporting period. Where right to consideration is unconditional upon passage of time is classified as a financial asset however, for fixed price development contracts, where milestone is not due as per contract terms as on date of reporting, the same is classified as non-financial asset.

The Company uses the percentage-of-completion method in accounting for its fixed-price contracts. Use of the percentage-of-completion method requires the Company to estimate efforts or costs expended to date as a proportion of the total efforts or costs to be expended. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity.

Other Income

a) Dividend income is recognised when right to receive dividend is established.

b) Interest and other income are recognised on accrual basis on time proportion basis and measured at effective interest rate.

j) Government Grants

(i) Grants from the Government are recognised at their Fair Value where there is a reasonable assurance that the grant will be received and the Company will comply with all the attached conditions.

(ii) Government grant relating to purchase of Property, Plant and Equipment are included in "Other current/ non-current liabilities" as Government Grant - Deferred Income and are credited to Profit or loss on a straight line basis over the expected life of the related asset and presented within "Other Operating revenue".

k) Employee Benefits

(i) During Employment benefits

(a) Short term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(ii) Post-Employment benefits

(a) Defined contribution plans

A defined contribution plan is a post-employment benefit plan under which Company pays fixed contribution into a separate entity and will have no legal or constructive obligation to pay future amounts. The Company makes specified monthly contributions towards government administered Provident Fund scheme. Obligations for contributions to defined contribution plans are expensed as the related service is provided. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

(b) Defined benefit plans

The Company pays gratuity to the employees who have completed five years of service with the company at the time when employee leaves the Company. The gratuity is paid as per the provisions of Payment of Gratuity Act, 1972. The gratuity liability amount is contributed to the approved gratuity fund formed exclusively for gratuity payment to the employees. The liability in respect of gratuity and other post-employment benefits is calculated using the Projected Unit Credit Method and spread over the periods during which the benefit is expected to be derived from employees' services. Re-measurement of defined benefit plans in respect of post-employment are charged to Other Comprehensive Income.

(c) Termination Benefits

Termination benefits are payable when employment is terminated by the Company before the normal retirement date or when an employee accepts voluntary redundancy in exchange for these benefits. In case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than twelve months after the end of reporting period are discounted to the present value.

l) Income Tax

Income tax expense comprises current and deferred tax. Tax is recognised in statement of profit and loss, except to the extent that it relates to items recognised in the other comprehensive income or in equity. In such cases, the tax is also recognised in the other comprehensive income or in equity.

(a) Current Tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates and laws that are enacted or subsequently enacted at the Balance sheet date.

Current tax assets and liabilities are offset only if, the Company:

- a) has a legally enforceable right to set off the recognised amounts; and
- b) intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

(b) Deferred Tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and

liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have enacted or subsequently enacted by the end of the reporting period. The carrying amount of deferred tax liabilities and assets are reviewed at the end of each reporting period. Deferred tax is recognised to the extent that it is probable that future taxable profit will be available against which they can be used.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset only if:

- a) the Company has a legally enforceable right to set off current tax assets against current tax liabilities; and
- b) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable Company.

m) Borrowing Costs

General and specific Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of that asset till the date it is ready for its intended use or sale. Other borrowing costs are recognised as an expense in the period in which they are incurred. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing cost eligible for capitalisation. All other borrowing costs are charged to the statement of profit and loss for the period for which they are incurred.

n) Leases

As a Lessee:

Company recognizes a right-of-use asset and a lease liability at the lease commencement date.

Right-of-use asset (ROU):

The right-of-use asset is initially measured at cost. Cost comprises of the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, any initial direct costs incurred by the lessee, an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located less any lease incentives received.

After the commencement date, a lessee shall measure the right-of-use asset applying cost model, which is Cost less any accumulated depreciation and any accumulated impairment losses and also adjusted for certain re-measurements of the lease liability.

Right-of-use asset is depreciated using straight-line method from the commencement date to the end of the lease term. If the lease transfers the ownership of the underlying asset to the company at the end of the lease term or the cost of the right-of-use asset reflects company will exercise the purchase option, ROU will be depreciated over the useful life of the underlying asset, which is determined based on the same basis as property, plant and equipment.

Lease liability:

Lease liability is initially measured at the present value of lease payments that are not paid at the

commencement date. Discounting is done using the implicit interest rate in the lease, if that rate cannot be readily determined, then using company's incremental borrowing rate. Incremental borrowing rate is determined based on entity's borrowing rate adjusted for terms of the lease and type of the asset leased.

Lease payments included in the measurement of the lease liability comprises of fixed payments (including in substance fixed payments), variable lease payments that depends on an index or a rate, initially measured using the index or rate at the commencement date, amount expected to be payable under a residual value guarantee, the exercise price under a purchase option that the company is reasonably certain to exercise, lease payments in an optional renewal period if the company is reasonably certain to exercise an extension option, and penalties for early termination of a lease unless the company is reasonably certain not to terminate early.

Lease liability is measured at amortised cost using the effective interest method. Lease liability is re-measured when there is a change in the lease term, a change in its assessment of whether it will exercise a purchase, extension or termination option or a revised in-substance fixed lease payment, a change in the amounts expected to be payable under a residual value guarantee and a change in future lease payments arising from change in an index or rate.

When the lease liability is re-measured corresponding adjustment is made to the carrying amount of the right-of-use asset. If the carrying amount of the right-of-use asset has been reduced to zero it will be recorded in statement of profit and loss.

Right-of-use asset is presented as a separate category under "Non-current assets" and lease liabilities are presented under "Financial liabilities" in the balance sheet.

Company has elected not to recognise right-of-use assets and lease liabilities for short term leases. The lease payments associated with these leases are recognised as an expense on a straight-line basis over the lease term.

Lessor

At the commencement or modification of a contract, that contains a lease component, company allocates the consideration in the contract, to each lease component, on the basis of its relative standalone prices.

At the inception of the lease, it is determined whether it is a finance lease or an operating lease. If the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset, then it is a financial lease, otherwise it is an operating lease.

If the lease arrangement contains lease and non-lease components, then the consideration in the contract is allocated using the principles of IND AS 115. The company tests for the impairment losses at the year end. Payment received under operating lease is recognised as income on straight line basis, over the lease term.

The accounting policies applicable to the company as a lessor, in the comparative period, were not different from IND AS 116.

o) Non- Current assets held for sale

Non-Current assets are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and sale is considered highly probable. They are measured at lower of their (a.) carrying amount and (b.) Fair Value less

cost to sell. Non-current assets are not depreciated or amortised when they are classified as held for sale.

p) Provisions and contingent liabilities

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pretax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expenses. Contingent liabilities are disclosed in respect of possible obligations that arise from past events but their existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of Company or where any present obligation cannot be measured in terms of future outflow of resources or where a reliable estimate of the obligation cannot be made.

- Credit Risk ;
- Liquidity Risk ; and
- Market Risk
 - Currency Risk
 - Interest Rate Risk
 - Equity Risk

Risk Management framework

The Company's Board of Directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company manages market risk through a treasury department, which evaluates and exercises independent control over the entire process of market risk management. The treasury department recommends risk management objectives and policies, which are approved by Board of Directors. The activities of this department include management of cash resources, borrowing strategies, and ensuring compliance with market risk limits and policies.

The Company's Risk Management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk Management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Audit Committee oversees how management monitors compliance with the Company's Risk Management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Audit Committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit Committee.

i Credit Risk

Credit Risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers, investments in debt securities and loans.

Credit Risk also arises from cash held with banks, credit exposure to clients, loans and advances given. The maximum exposure to credit risk is equal to the carrying value of the financial assets. The company assesses the credit quality of counter parties taking into account their financial position, past experience and other factors.

Other Financial Assets

The Company maintains its Cash and Cash equivalents and Bank deposits with banks having good reputation, good past track record and high quality credit rating and also reviews their credit-worthiness on an on-going basis.

Trade Receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. The demographics of the customer, including the default risk of the industry has an influence on credit risk assessment. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the credit worthiness of customers to which the Company grants credit terms in the normal course of business.

The maximum exposure to Credit Risk for Trade Receivables by geographic region was as follows:

Particulars	31st March, 2022	31st March, 2021
Domestic	0.40	1.50
Outside India - USA	-	16.91
Total	0.40	18.41

Summary of the Company's exposure to credit risk by age of the outstanding from various customers is as follows:

Particulars	31st March, 2022	31st March, 2021
Neither Due nor impaired	0.40	18.41
Past Due 1 - 90 Days	-	-
Past Due 91 - 180 Days	-	-
More than 180 Days	-	-
Total	0.40	18.41

The Company measures the expected credit loss of trade receivables and loan from individual customers based on historical trend, industry practices and the business environment in which the entity operates. Loss rates are based on actual credit loss experience and past trends. Based on the historical data, as per management perceptions, there is no loss on collection of receivable on reporting date and hence no provision considered.

ii Liquidity Risk

Liquidity Risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its Financial Liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Exposure to Liquidity Risk

The following are the remaining contractual maturities of financial liabilities at the reporting date. The amounts are gross and undiscounted, and include estimated interest payments and exclude the impact of netting agreements.

Non-Derivative Financial Liabilities	Contractual Cash Flows	
	Carring Amount 31st March, 2022	Carring Amount 31st March, 2021
Unsecured Loans	-	-
Trade and Other Payables	2.67	1.17

iii Market Risk

Market Risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the Company's income or the value of its holdings of financial instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables, Investments and short term debt. We are exposed to market risk primarily related to foreign exchange rate risk, interest rate risk and the value of our investments. Thus, our exposure to market risk is a function of investing and borrowing activities and revenue generating and operating activities in foreign currency. The objective of market risk management is to avoid excessive exposure in our foreign currency revenues and costs.

a) Currency Risk

The Company's exchange risk arises from its foreign operations, foreign currency revenues in U.S. dollars. A significant portion of the Company's revenues is in this foreign currency, while a significant portion of its costs are in Indian rupees. As a result, if the value of the Indian rupee appreciates relative to this foreign currency, the Company's revenues measured in rupees may decrease. The exchange rate between the Indian rupee and U.S. Dollars has changed substantially in recent periods and may continue to fluctuate substantially in the future. The Management keeps watch on the currency markets on a periodic basis to foresee foreign currency risk. Consequently, the Company would use derivative financial instruments such as foreign exchange forward contracts, to mitigate the risk of changes in foreign currency exchange rates in respect of its forecasted cash flows and trade receivables. As on reporting date company did not had outstanding foreign exchange forward contracts nor any outstanding receivable in foreign currency.

b) Interest Rate Risk

Interest Rate Risk is the risk that the fair value or future Cash Flows of a financial instrument will fluctuate because of changes in market interest rates.

Exposure to Interest Rate Risk

The Company has no exposure to the risk of changes in market interest rates as Company does not have any interest bearing debt obligations. The loans granted by the company is with fixed interest rate.

c) Equity Risk

Equity Price Risk is related to the change in market reference price of the investments in equity securities. The fair value of some of the Company's investments in Fair value through Other Comprehensive Income & FVTPL securities exposes the Company to equity price risks. In general, these securities are not held for trading purposes. These investments are subject to changes in the market price of securities. The fair value of equity securities as of March 31, 2022, was Rs. 507.13 Lakhs/- [FY 2020-2021 Rs.307.51 Lakhs]. A Sensex standard deviation of 5% [FY 2020-2021 5%] would result in change in equity prices of securities held as of March 31, 2022 by Rs. 25.36 Lakhs [FY 2020-2021 Rs.15.38 Lakhs].

33 Capital Management

The Company's policy is to maintain a strong capital base so as to maintain investor, creditor and market confidence and to sustain future development of the business. Management monitors the return on capital as well as the level of dividends to ordinary shareholders.

The Company monitors capital using a ratio of 'adjusted net debt' to 'adjusted equity'. For this purpose, adjusted net debt is defined as total liabilities, comprising interest-bearing loans and borrowings and obligations under finance leases, less cash and cash equivalents. Adjusted equity comprises all components of equity.

Particulars	31st March, 2022	31st March, 2021
Total Interest bearing liabilities	-	-
Less: Cash and Cash equivalents	37.31	41.84
Adjusted Net Debt	-	-
Total Equity	787.86	486.61
Adjusted equity	787.86	486.61
