With this major order we are very sure to end the year on robust order book.”

### **Industry Overview:**

Railways are the lifeline for Indian Passenger and Freight movement. Indian Railway boasts of 3<sup>rd</sup> largest railway network in the World, which is one of the main pillars for driving our economy. Government has laid major thrust in strengthening the railway infrastructure of our country by way of upgradation, modernizations and new mega greenfield projects like Dedicated Freight Corridors, Bullet Trains, etc.

With an aim to improve the efficiency of the rail performance and move save cost and also a step towards greener energy, Railways has taken substantial measures of electrification of the rail network in the country. Railways has substantially increased its electrification program, which has registered an increase of ~16% CAGR over the past few years. Indian Railways has aimed for 100% Electrification, which would result in savings of around INR 810 billion in fuel costs till FY2027 to the Railways.
