CONQUERING NEW ORBITS

**India's First 8 Lane Extra
Dosed Cable Stayed Bridge
across River Narmada, Gujarat**

Ashoka Buildcon is constructing a section of the Vadodara - Mumbai Expressway which includes a cable stayed bridge across the River Narmada. It is **India's first 8 lane extra dosed cable stayed bridge. The bridge is a massive structure with total length of 4,450 m with carriageway width of 24 m.**

The extra dosed portion consists of 4 modules with a

length of 510 m each. The span arrangement of each module portion is (1x75 + 3x120 + 1x75).

It is supported by 16 pylons of height 13 m above deck and 33 m above foundation.

The bridge is nearing completion in an impressive time frame of less than 30 months.

CONQUERING PRODUCTIVITY

Record non stop laying of 12,700 tons DBM, resulting in construction of 6.57 lane km of road in just 61 hours

3037 tons of DBM generated from a single plant in one calendar day

Bundelkhand Expressway is a 1,184 lane km, access controlled expressway in the state of Uttar Pradesh. Ashoka Buildcon Limited is constructing Package III of this Expressway at an estimated cost of INR 1079 Cr. This package stretches 49 km from Kaohari (Dist. Mahoba) to Baroli Kharka (Dist. Hamirpur).

Continuing its tradition of setting new benchmarks in the construction industry, **Ashoka has once again demonstrated its production capabilities by successfully laying 12,700 tons of DBM non-stop, in just 61 hours, resulting in the**

construction of 6.57 lane km of road.

The power packed effort placed men and machines in a race against time. About 20 engineers and managers, 32 surveyors and supervisors, 20 quality control personnel, 200 operators and drivers and more than 70 labours were deployed across the three days to accomplish the task. The mechanical assets deployed for the purpose included two hot mix plants (200 TPH) backed by a fleet of Sensor Pavers (~11.50 m width), Tandem Rollers, Pneumatic Tyred Rollers, Dumpers etc.

CONQUERING THE PANDEMIC

CAGR 13.97%

CAGR 18.35%

CAGR 17.73%

It was a year that tested the Nation's mettle against the Covid-19. The lockdown became a painful yet only solution to curb the spread.

Ashoka was quick to react to the threat by initiating its emergency management protocol which involved protecting its team members from infectious diseases.

The company was quick to implement measures such as social distancing, regular health examinations by self and experts, sanitization of camp areas, office etc.

Isolation wards were created to provide special care for Covid-19 to restrict the spread significantly.

The team members were determined to brave the situation and they observed Covid-19 appropriate behavior while keeping the work in progress.

The combined efforts of each and every individual of the team paid off and the company was able to secure fairly strong results despite the pandemic.

Message by the Chairman

Dear Shareholders,

The past year continued to be challenging to the whole world and specifically for all the people trying to adjust to the new way of life. It has disrupted all economic activities. The second wave of Covid-19, led to widespread distress and tragic loss of life. We witnessed a precipitous slowdown in economic activity in the first half of FY 2021, followed by an impressive sequential rebound in the second half.

In this dark hour, we need to be strong, physically and psychologically. Hats off to the frontline workers in the fields of health care, local infrastructure upkeep, law and order. The roll out of the vaccination drive will give comfort of getting out of the fear of Covid-19. One good fallout of the pandemic has been the rapid adoption of digital technologies at all levels of the society.

We will continue to undertake social initiatives in the areas of Education, Healthcare and Infrastructure, and create value.

The company, in spite of having lost business activity in April and May 2020 due to pandemic, could still get back on track and achieve a turnover of INR 4010 Crores in FY20-21, almost similar to FY19-20. We could also maintain the order book to the level of 2x FY21.

Despite the pandemic led disruptions, the pace of road construction touched a record of 36.4 km/day in fiscal 2021, with an increase of 30% in construction activity. This was possible due to the slew of industry-friendly measures taken by the government, as well as continuation of liquidity-boosting measures and relaxation of bidders'

norms. Furthermore, the Government set a target of INR.15 lakh Crores in road construction in the next two years, underlining government thrust on infrastructure development to spur economic growth. With a steady stream of funds from budgetary outlays, borrowings and funds through Toll-Operate-Transfer (TOT) route and setting up a Development Financial Institution (DFI), the order pipeline for FY 2022 remains buoyant.

This year, the company achieved Partial Commercial Operations Date for its Ranastalam Anandpuram HAM Project. The Company has now two fully constructed HAM Projects and 8 HAM Projects under development .

The company stands at an order book of INR 8,167 Crore at the end of fiscal 2021, which includes Roads, Bridges, Railways, Power, CGD etc.

The company recorded a turnover of INR 4,010 Crores during the year and earned a robust profit after tax of INR 408 Crores with an increase in PAT by 5.4% Y-o-Y.

The company is committed to face squarely the challenges brought by nature and perform outstandingly, with the support from its shareholders and other stakeholders like lenders and vendors.

I would like to place on record my sincere appreciation to the Board of Directors for their continued guidance. I express my sincere gratitude to all our stakeholders, including the Shareholders, Private Equity Partners, Banks and Financial Institutions, Ministry of Surface Road

Transport and Highways, National Highways Authority of India and other State Road Development Corporations / Boards, State Power Generation and Distribution Authorities and Vendors for their faith, commitment and support in pursuing our growth path.

I also thank Team Ashoka for all the support and efforts taken by them during the fiscal especially in challenging time of Covid 19.

Last but not the least, I thank all the frontline workers who have waged the battle against Covid-19 and kept the society ticking. I am sure we will win this battle to eradicate this pandemic.

With best wishes

The Members of the Company had, at the Annual General Meeting held on September 30, 2017, approved the appointment of Mr. Milap Raj Bhansali (DIN: 00181897) as a Whole-time Director of the Company for a period of 5 years from April 1, 2017 and approved his remuneration on re-appointment under the relevant provisions of the Companies Act, 2013. The term of his present tenure will come to an end on March 31, 2022. The Board of Directors has re-appointed him at its meeting held on June 18, 2021 subject to approval of the Members for a further period of Five (05) years from April 01, 2022 to March 31, 2027.

It is also proposed to seek the approval of the Members to re-appoint Mr. Milap Raj Bhansali as a Whole-time Director on attaining age of seventy (70) years. Mr. Milap Raj Bhansali having attained the age of 70 years, his appointment requires approval of the shareholders by Special Resolution in terms of Section 196 (3) of Companies Act, 2013 and Rules made thereunder. Further as required under provisions of Section 196 of the Companies Act, 2013, the following are the justifications for re-appointment, notwithstanding his having attained the age of 70 years.

- ✓ Mr. Milap Raj Bhansali is a Chartered Accountant by qualification. He has extensive experience in the fields of accounts, finance and tax having worked in large business enterprises.
- ✓ He also has a wide exposure in procurement of materials and the General Management of the Company. He has been affiliated with the Company as a member of the Board of Directors since February, 07, 2014 and from then the Company has gained from his vast experience;
- ✓ He has an experience of about 36+ years and wide exposure in all aspects of business of the Company and is engaged in the supervision and general management of the Company;
- ✓ Apart from being a Director on the Board, he is also a Member of Audit Committee and Risk Management Committee.

The Board is of the opinion that Mr. Bhansali's rich and diverse experience is a valuable asset to the Company. Considering

his vast working experience and credentials, it would be in the interest of the Company to continue the employment of Mr. Milap Raj Bhansali as a Whole-time Director also after attaining age of 70 years.

The material terms of his proposed re-appointment and remuneration are given below:

- i. Mr. Milap Raj shall act as a Whole-time Director of the Company. The remuneration i.e. Annual Gross Compensation, Commission, Minimum Remuneration etc., are as set out under S. No.9 in the Explanatory Statement forming part of this Notice;
- ii. The terms and conditions of the said re-appointment and agreement may be altered and varied from time to time by the Board, as it may, in its discretion, deem fit within the maximum amount payable to the Whole-time Director as per the amount approved by the shareholders and subject to the provisions of Sections 196, 197 and other applicable provisions, if any, of the Act for the time being in force, read with Schedule V thereto as amended from time to time;
- iii. He would be paid remuneration with a provision for increase in remuneration of not more than 20% per annum over the previous year which will be decided and recommended by Nomination & Remuneration Committee and Audit Committee, subject to Board approval on an annual basis.

The Brief profile of Mr. Milap Raj Bhansali and the details of shareholding as per requirements of the Companies Act, 2013, the rules made there under and the Secretarial Standard (SS-2) are given in **Annexure “B” and Annexure “C” respectively.**

None of the Directors / Key Managerial Personnel of the Company and their relatives except Mr. Milap Raj Bhansali and his relatives, are in any way, concerned or interested, financially or otherwise, in the Resolution except to the extent of their shareholding, if any, in the Company. Further, Mr. Milap Raj Bhansali and his relatives shall not be entitled to vote on the resolution as set out at Item No. 11 of the Notice.

All the documents referred to in the Explanatory Statement are available for inspection at the Registered Office of the Company between 11 a.m. and 1 p.m. on all working days up to the date of AGM and any shareholder who wants the same will be provided a soft copy.

The Board recommends the resolution as set out at Item No.11 for approval by the Members as a Special Resolution.

She is instrumental in ensuring that the IA function partners with business proactively, identifying and dealing with business, IT and system implementation risks. She also manages the Compliance program ensuring statutory compliances are met on a timely manner.

In the opinion of the Board, Ms. Shilpa Hiran fulfils the conditions specified in the Companies Act, 2013 and rules made thereunder and the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 for her appointment as an Independent Director of the Company and is independent of the management. A copy of the letter for appointment of Ms. Shilpa Hiran as an Independent Director setting out the terms and conditions would be available for inspection in the manner specified in the Notice up to the date of the Annual General Meeting.

In terms of Section 161(1) of the Companies Act, 2013, Ms. Shilpa Hiran holds office as additional director up to the date of this Annual General Meeting. The Company has received a notice in writing from a Shareholder under Section 160 of the Companies Act, 2013, proposing her candidature for the office of Director of the Company.

The approval of the Members is sought by way of an Ordinary Resolution for the appointment of Ms. Shilpa Hiran as a Non-Executive and Independent Director for the first term of 5 consecutive years from February 01, 2021 as set out in the Resolution No. 12 of this Notice.

The Brief profile of Ms. Shilpa Hiran and the details of shareholding as per requirements of the Companies Act, 2013, the rules made there under and the Secretarial Standard (SS-2) are given in **Annexures A and B.**

None of the Directors / Key Managerial Personnel of the Company and their relatives except Ms. Shilpa Hiran and her

relatives, are in any way, concerned or interested, financially or otherwise, in the Resolution except to the extent of their shareholding, if any, in the Company. Further, Ms. Shilpa Hiran and her relatives shall not be entitled to vote on the resolution as set out at Item No. 12 of the Notice.

All the documents referred to in the Explanatory Statement are available for inspection at the Registered Office of the Company between 11 a.m. and 1 p.m. on all working days up to the date of AGM and any shareholder who wants the same will be provided a soft copy.

The Board recommends the resolution as set out at Item No.12 for approval by the Members as an Ordinary Resolution.

- 7) He shall also be entitled to followings as per company's policy:
 - a) Leave Encashment at the end of the tenure.
 - b) Contributions to Provident Fund, Superannuation Fund, National Pension Scheme or Annuity Fund, to the extent these, either singly or put together, are not taxable under the Income-Tax Act, 1961;
 - c) Gratuity payable at a rate not exceeding half a month's salary for each completed year of service as per the provisions of the Payment of Gratuity Act, 1972.

The Board shall have the authority from time to time (a) to make applicable to Mr. Aditya Parakh such revisions in the aforesaid salary scale or grade together with revisions in such allowances, benefits, amenities, facilities and other perquisites including contribution to provident fund, gratuity fund, superannuation fund, etc. as are introduced from time to time in respect of employees of the Company in equivalent salary scale or grade, however in any case not exceeding overall amount approved by the Members of the Company; and (b) to promote him to any higher position/designation or salary scale or grade in due course together with such allowances as per HR Policy of the Company.

All the documents referred to in the Explanatory Statement are available for inspection at the Registered Office of the Company between 11 a.m. and 1 p.m. on all working days up to the date of AGM and any shareholder who wants the same will be provided a soft copy.

None of the Directors / Key Managerial Personnel of the Company and their relatives except Mr. Satish Parakh and his relatives, are in any way, concerned or interested, financially or otherwise, in the Special Resolution set out at Item No. 13 of the Notice except to the extent of shareholding in the Company, if any. Further, Mr. Satish Parakh and his relatives shall not be

entitled to vote on the resolution as set out at Item No. 13 of the Notice.

The Board recommends the resolution as set out at Item No. 13 for approval by the Members as an Ordinary Resolution.

Item No. 14: To alter Main Object Clause of the Memorandum of Association

Your Company is one the major infrastructure developers in the Country and mainly engaged Roads and Highways infrastructure. However now various opportunities are available in the fields like digitization, smart infrastructure, e-Education, e-Governance and information technology enabled services. The Company is also exploring these new avenues in technology related infrastructure services and activities. For the purpose, your company intends to equip itself to enter into and to venture in such sectors subject to availability of opportunities to be offered from time to time, your Directors propose to amend main objects clause by inserting relevant sub-clause 2c in the main object clause of Memorandum of Association.

All the documents referred to in the Explanatory Statement are available for inspection at the Registered Office of the Company between 11 a.m. and 1 p.m. on all working days up to the date of AGM and any shareholder who wants the same will be provided a soft copy.

None of the Directors / Key Managerial Personnel of the Company and their relatives are in any way, concerned or interested, financially or otherwise, in the Special Resolution set out at Item No. 14 of the Notice except to the extent of shareholding in the Company, if any.

The Board recommends the resolution as set out at Item No. 14 for approval by the Members as a Special Resolution.

Item No. 15: To give guarantees for facilities by subsidiaries / joint venture or associate companies

The Board has considered that in the ordinary course of business, the Company is required to give loans and provide guarantee and security including creation of mortgage, pledging of shares, etc. on behalf of the Subsidiary Companies, and/or Associate Companies (JVs whether Public or Private Company)/LLP/Body Corporate) to the Banks, Financial Institutions, NBFC and other bodies corporate while providing financial support/Loans as per the requirement of the lenders/government authorities and business necessity from time to time. The Board considered that by the Companies Amendment Act, 2017 the Central Government has substituted the section 185 and according to that, now the Company is eligible to give loans and provide guarantee or security on behalf of the other Companies to the Bank and Financial Institutions, etc. where any or all the directors are interested, subject to the requirement for approval of the members by way of special resolution and that the amount

of loans, guarantee and securities should be utilised by such Companies for their principal business activities.

None of the Directors of the Company and / or their relatives, are concerned or interested in these transactions either directly or indirectly, except to the extent of their shareholdings in the Holding Company like any other shareholders, as they do not hold share or directorship in these Subsidiary Companies, and/or Associate Companies (JVs) except on a nomination by the Holding Company. Hence, in order to conduct the smooth operations of the business and align with the various legislations, policies, guidelines laid down by various statutory authorities/ lenders and other operational business requirements of the Subsidiary Companies/Associates Companies (including all kinds of entities whether Public or Private Company)LLP/Body Corporate), it is proposed to obtain an approval of shareholders by way of special resolution as contained in the notice of the Annual General Meeting for an amount not exceeding ₹ 12,000 Crore (Indian Rupees Twelve Thousand Crore) in one or more tranches at any time and the said loan/ guarantee/any security given by the Company shall be utilised for the principal business activities of the recipient Company(ies).

All the documents referred to in the Explanatory Statement are available for inspection at the Registered Office of the Company between 11 a.m. and 1 p.m. on all working days and any shareholder who wants to avail the same be provided with a soft copy.

None of the Directors, Key Managerial Personnel of the Company or their relatives is, in any way, concerned or interested, financially or otherwise, in the aforementioned Special Resolution except to the extent of shares/securities as may be held / to be subscribed by them or by companies/ firms/ institutions in which they are interested as director or member or otherwise on the basis of their nomination by the Holding Company.

The Board recommends the resolution as set out at Item No.15 for approval by the members as a Special Resolution.

Item No. 16:

To enhance the limit for creation of Mortgage/Charge on all or any of the movable or immovable properties of the Company

The Members of the Company at its Annual General Meeting held on November 04, 2016, have authorised the Board, to create such mortgage and/or charges and/or hypothecation by way of first charge and/or second charge/subservient charge and/or pari passu charge, in addition to the mortgage/charges/ hypothecation created/ to be created by the Company in such form and manner and with such ranking in consultation with the lender(s) and on such terms and conditions as the Board

may deem fit, on all or any of the movable and/or immovable (both tangible and intangible) properties of the company, wherever situated, whether present and future or to sell, lease or otherwise dispose-off the whole or substantially the whole of the undertaking of the Company or where the Company owns more than one undertaking, of the whole or substantially the whole of any such undertaking(s) and to create a mortgage and/or charge, on such terms and conditions at such time(s) and in such form and manner, and with such ranking as to priority as the Board in its absolute discretion thinks fit on the whole or substantially the whole of the Company's any one or more of the undertakings or all of the undertakings of the Company in favour of any bank(s) or body(ies) corporate or person(s), together with interest, cost, charges and expenses thereon for amount not exceeding ₹ 12,000 Crore (Rupees Twelve Thousand Crore only) at any point of time. However, considering the Company's future growth, business expansion plans and to support the financial requirements, of the company and its SPVs, the Company would require additional credit facilities from various Banks and/or Financial Institutions and/or any other lending institutions and/or Bodies Corporate. Hence, the consent of the members is sought in accordance with the provisions of Section 180(1)(a) of the Companies Act, 2013, to secure the borrowings made by the Company, and its SPVs, it would be necessary to enhance the limit to ₹ 15,000 Crore (Rupees Fifteen Thousand Crore only) to create pledge, charge on the assets (movable or immovable), hypothecation or mortgage on the assets of the Company or whole of the undertaking of the Company in favour of the lenders.

The Board recommends the resolution as set out at Item No. 16 for approval by the members as a Special Resolution.

None of the Directors / Key Managerial Personnel of the Company and their relatives are in any way, concerned or interested, financially or otherwise, in the Special Resolution set out at Item No. 16 of the Notice except to the extent of shares/securities as may be held / to be subscribed by them or by companies/ firms/ institutions in which they are interested as director or member or otherwise.

All the documents referred to in the Explanatory Statement are available for inspection at the Registered Office of the Company between 11 a.m. and 1 p.m. on all working days and any shareholder who wants to avail the same be provided with a soft copy.

INDUSTRY OVERVIEW

The fiscal ended March 2021 was challenging as the economies over the world were combating the unprecedented covid-19 pandemic. India faced the gashes of the pandemic because of sudden halt in economic activities amid nationwide lockdown; the Indian economy experienced a sharp recovery during the second half of the fiscal. The infrastructure sector faced interruptions in the execution primarily on account of labor shortage, supply chain disruption, restriction in movement, amidst the lockdown during the first half that witnessed strong revival during the second half of the fiscal. According to the International Monetary Fund (IMF), the Indian economy is expected to grow by 12.5 percent in FY2022 and 6.9 percent in FY2023; with the core focus on infrastructure growth. The Government of India's timely policy support and the continuing focus on tendering and awarding activity has been a major backbone that ensures persistent growth of the infrastructure sector.

The Government of India launched the National Infrastructure Pipeline (NIP) for FY 2020-2025 to facilitate world-class infrastructure projects to be implemented. This initiative will boost the economy, generate better employment opportunities and drive the competitiveness of the Indian economy. Jointly funded by the Central Government, State Government, and the private sector; the NIP was launched with the projected infrastructure investment of ₹111 lakh Crore during the period FY2020-2025. The sectors like energy, roads, urban infrastructure, railways have a major share in the NIP. In India, private investment in infrastructure has come mainly in the form of Public Private Partnerships (PPPs). PPPs help in addressing the infrastructure gap as well as improve efficiency in infrastructure service delivery.

India's transport system is largely dependent on the road network; it is very well integrated with the multi-modal transportation system providing crucial links with airports, railways, ports and other logistical hubs. Road network enables ~64.5% of goods transportation in the country and ~90% of India's total passenger traffic uses the road network to commute. India has the second-largest road network in the world, with over 6.39 million kms of rural-urban roads and national-state highways. With proactive government policy initiatives in the sector, the road network has continuously been expanding in the country.

Further, to thrust the growth in the sector, under the National Infrastructure Pipeline FY2019-25, the roads sector is likely to account for 18% of capital expenditure over FY2019-25. The Government, through a series of initiatives, is working on policies to attract significant foreign portfolio investors to boost investment in the sector. In the six years period from FY15 to FY20, total investment in the Roads and Highway sector has gone up more than three times.

MoRTH

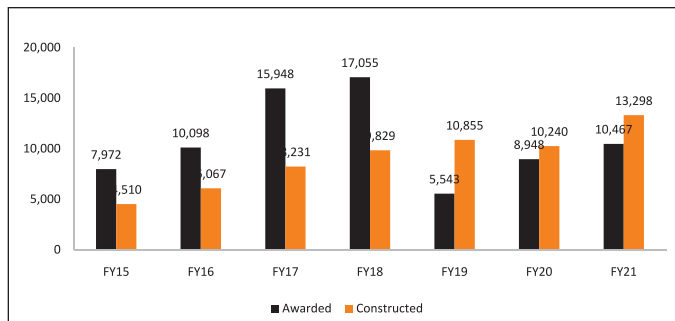

The road sector being key priority sector to thrust the economic growth, the MoRTH proposed to develop additional 60,000 kms of national highways in next five years of which 2,500 kms are expressways/access controlled highways, 9,000 kms are economic corridors, 2,000 kms are coastal and port connectivity highways and 2,000 kms are border road/strategic highways. The ministry also intends to improve connectivity for 100 tourist destinations and construct bypasses for 45 towns/cities.

Additionally, NHAI has started the planning of Bharatmala Pariyojana Phase-II. Under the Bharatmala project, around 65,000 kms of national highways are to be constructed in two phases. In Phase I, national highways projects of 34,800 kms were to be awarded by 2022, of which over half has been awarded; NHAI expects to complete the phase-I project awarding by FY2023. This indicates the strong order pipeline in coming years. To boost the funding in the sector, in recent years the government has formulated various policies. In next five years, National Highway Authority of India (NHAI) will be able to generate ₹ 1 lakh Crore annually from toll and other sources, this to further aid the ordering activity. (source: IBEF)

Highway-Construction & Project awarding picked-up pace in FY2021

Despite the pandemic led disruption, the Ministry of Road Transport and Highways touches a record of 36.4 kilometer per day highway construction in financial year 2020-21. During the year, the highway construction stood at 13,298 kilometers as against around 10,240 kilometers in FY20; recording a stellar growth of ~30% y-o-y; surpassing the target set by the government at the beginning of the year. The government initiated a slew of relief measures like a shift from milestone-based billing to monthly billing, release of retention money or performance guarantee in proportion to the work already executed, amongst others, aided in reduction of cash conversion cycle leading to sharp improvement in execution in the latter half of the fiscal. The rate of construction of national highways has more than doubled since FY 2015 and the length of national highways has gone up by 50% from 91,287 kilometers as on April 2014 to 1,37,625 kilometers as on 20 March 2021.

Projects Trend – Total Awarded and Constructed (in Kms)

Source: Industry

On the project award front, with government's thrust on economic revival, the project awarding remained buoyant in financial year 2020-21, the project awarded was up by ~17% y-o-y to 10,237 kilometers as against 8,948 kilometers in the preceding fiscal. In FY2020-21, National Highway Authority of India (NHAI) awarded 4,788 kilometers of projects, which is ~50% higher than the last financial year. The share of engineering procurement and construction (EPC) projects was 50% followed by hybrid annuity model (HAM) at 49%. In the current fiscal, the awarding activity is expected to remain strong; the NHAI has targeted to award projects worth around ₹ 2.25 lakh Crore in FY2021-22.

Union BUDGET 2021-22

Over the years, infrastructure has been a priority sector for the government to fuel economic growth, development and employment generation. In Union Budget 2021-22, infrastructure sector continued to receive strong budgetary support from the government; Infrastructure sector received a

sharp increase in capital expenditure of ₹ 5.5 lakh Crore for FY2021-22, an unprecedented increase of 35.4% y-o-y, to push growth via infrastructure creation. Further, the government has expanded the National Infrastructure Pipeline (NIP) to 7,400 projects from 6,835 projects.

To aid the long-term sustainable financing in the sector, government proposed to set-up a new Development Finance Institution (DFI) with budgetary allocation of INR 20,000 Crore for funding infrastructure projects. The DFI to extend funding support of ₹ 5 lakh Crore to the infrastructure sector within a time frame of 3 years. Additionally, government provided thrust on asset monetization to support financing for new project awarding activities; proposed to launch a 'National Monetization Pipeline' of potential Brownfield infrastructure assets. The Government has announced to make required changes in the legislation to enhance debt financing in InvITs and REITs from foreign portfolio investors. The NHAI is working on INvIT infrastructure with 5 projects valuing up to ₹ 5000 Crore. With government stepping up towards project financing, the industry continues to see positive trends towards project awarding.

Road Infrastructure continues to be the key priority with the sector receiving strong budgetary support. In Union Budget 2021-22, the government have enhanced capital outlay for Ministry of Road Transport and Highways (MoRTH) to ₹ 1.18 lakh Crore, including ₹ 1.08 lakh Crore of capital expenditure; the highest ever allocation to MoRTH. The government has announced the project awarding of 8,500 km and completion of an additional 12,000 kms of national highway corridors by the end of FY2022, signaling the high ordering activity in FY2022.

COMPANY OVERVIEW

The financial year 2020-21 began amidst global pandemic, containment of which led to countries adopting unprecedented measures like nation-wide lockdown that brought economy to grinding halt; significantly impacting the execution during the first half of the fiscal. In FY2020-21, your Company has reported annual standalone revenue of ₹ 4009.60 Crore as against ₹ 4,082.36 Crore in financial year 2019-20; primarily due to Covid-19 induced disruptions. Further, during the first half of the year the toll revenues were also significantly impacted due to the restriction in the movement; with easing-up of travel restrictions and gradual recovery in the economic activities, the toll collection reached pre-covid levels during the second half of the fiscal.

During the year, your Company successfully received an Appointment Date for Kandi Ramsanpalle Road HAM project. Further, the Company is in the process of Debt tie-ups for Bettadahalli Shivamogga Road and Banwara Bettadahalli Road HAM Projects in Karnataka and expects to do Financial Closure in near term.

SUCCESSFUL PROJECT EXECUTION

The Covid-19 pandemic had an impact on the execution of projects amid implementation of countrywide lockdown to contain the widespread of the virus. The shortage of labor, erratic availability of raw materials, and restriction in movement majorly impacted the Company's execution during the first half of fiscal. The second half witnessed a strong ramp-up in the execution leading to partially off-setting the losses incurred in the first half and enabling your Company to deliver performance in-line with the last year. Despite challenges, during the year, your Company has successfully received the provisional completion certificate for Kharar Ludhiana and Ranastalam Anadapuram Road HAM projects and commenced the commercial operation.

We have successfully handed over the Ahamadnagar – Aurangabad Road Project to the Authority as per contract. There is no toll collection during the year under review.

KEY PROJECTS WON AND OTHER DEVELOPMENTS

During the year, the Company was successful in winning two Road EPC projects worth ₹ 1,390 Crore under Bharatmala Pariyojana Phase-1 from National Highway Authority of India (NHAI) in Bihar:

- Four laning of Arrah to Pararia section of NH-319(old NH-30) from Km 0+000 to Km 54+530 (Design Chainage) under Bharatmala Pariyojana Phase-I on EPC Mode (Package-I), with the bid value of ₹ 700 Crore; and
- Four laning of Pararia to Mohania section of NH-319 (Old NH-30) from Km 54+530 to Km 115+330 (Design Chainage) under Bharatmala Pariyojana Phase-I on EPC Mode (Package II); the contract value of the project is ₹ 690 Crore.

In Financial Year 2020-21, in Power T&D space, your Company successfully bagged a solar project on EPC basis worth ₹ 502 Crore from NTPC Renewable Energy Limited. The project includes Operation and Maintenance of a complete '150 MW Solar PV Plant' for a period of three years from the date of successful completion of the trial run. Your Company also bagged other few Projects in Power Sector worth ₹ 542.69 Crore aggregating ₹ 1,087.13 Crore.

In other major developments:

In FY 2020-21, your Company has entered into a share purchase agreement (SPA) with India Infrastructure Fund (IIF) for purchasing directly or through its subsidiary, 49% stake held by IIF in Ashoka Highways (Bhandara) Limited along with Zero Interest Shareholders Loan for an aggregate consideration of ₹ 35.98 Crore. Ashoka Concession Limited, a subsidiary of the Company, already holds 51% of the stake in Ashoka Highways (Bhandara) Limited (AHBL). With the completion of

the transaction, the Company along with the subsidiary would hold 100% stake in AHBL. The completion of the transaction is subject to receipt of the approvals from National Highways Authority of India (NHAI) and if required, from Lenders.

ORDER BOOK

The balance Order Book of the Company stood at ₹ 8166.90 Crore. In terms of break-up of balance order book, Road Projects are ₹ 6182.50 Crore which constitute 75.70% of order book; ₹ 1375.90 Crore is from power T & D & Others forming 16.84% of order book and Railway Projects contribute ₹ 537.40 Crore, comprising of 6.58% of order book, while CGD contributes ₹ 71.10 Crore, which is 0.87% of the Order book. Among Road order book, EPC Projects are of ₹ 2711.80 Crore and the balance is of HAM Projects worth ₹ 3470.70 Crore.

On the background of the government's focus on the infrastructure development aided by strong budgetary support in FY2021-22, the Company believes the ordering activity to remain strong in the financial year 2021-22. Your Company being one of the prominent players in the sector, will be able to capitalize the opportunity.

INNOVATION, QUALITY, SAFETY AND ENVIRONMENT

The Company continues its focus on newer, innovative construction practices as well as ensuring high quality in its entire works. Your Company is also conscious of the threat posed by global warming to our planet and therefore takes its responsibility towards the environment seriously. Your Company is very much sensitive and concerned about the health and safety of all its employees. QHSE Policy has been framed and is implemented at all sites and offices.

RESOURCES AND LIQUIDITY

During the year, your company focused on maintaining the liquidity of the Company; your Company did not claim for loan moratorium at standalone levels. At SPV levels, the Company

has opted for the loan moratorium for the principal amount except for Jaora Naygaon toll project.

The Company is comfortably placed in its working Capital financing. The Long Term rating of the Company is 'AA/Stable' by Acuite and 'AA- / Stable' by CRISIL.

Interest cost has also been kept low due to treasury instruments like Supply Chain Finance, Working Capital Demand Loans, Commercial Papers and Corporate Credit Cards.

The Company is well placed with the funds and resourcing for the funding of the ongoing projects and upcoming projects.

The Company is fully compliant to the terms of the engagement with the various banks / financial institutions or agencies.

CHALLENGES RISKS & CONCERNS

➤ **Industry/ policy risk:**

➤ The Company's business is highly dependent on road and bridge projects in India undertaken or awarded by Government Authorities and other entities funded by the Government. Any change in Government policies resulting in a decrease in the amount of road and bridge projects undertaken or a decrease in private sector participation in road and bridge projects adversely affects our business and results of operations. Our business may be affected by changes in interest rates, changes in Government policy, taxation, exchange rates and controls, social and civil unrest and political, economic or other developments in or affecting India.

➤ **Project risk:**

➤ Infrastructure projects involve agreements that are long-term in nature (as much as three years in EPC contracts and around 30 years in Design, Build, Finance, Operate and Transfer (DBFOT) 17 years in Hybrid Annuity Project (HAM) road projects. All long term projects have inherent risks associated with them and involve variables that may not necessarily be within our control. These include project planning, designing, change of scope, inflation, interest rates movements, liquidity, commodity and oil prices, governance, construction delays, material shortages, government guidelines and controls, public unrest, labour shortage, unanticipated cost increases, cost overruns, inability to negotiate satisfactory arrangements with joint venture partners and disagreements with our joint venture partners/associates/investors.

➤ We are increasingly bidding for large-scale infrastructure projects. There are various risks associated with the execution of large-scale projects. Managing large-scale integrated projects may also increase the potential relative size of cost overruns and negatively affect our operating

margins. In addition, we may need to execute large-scale projects through joint ventures with other companies, which expose us to the risk of default by our Joint Venture Partners/ Associates.

➤ We are increasingly bidding and bagging large-scale infrastructure projects. There is huge requirement of funds for the execution of the same and the funding can be a concern for the same on both the fronts of Equity Debt and customer receipts. There may be delay in the arrangement of the same which may expose to increase in financial cost and financial leverage.

➤ **Traffic risk:** The Company's business depends substantially on accuracy of traffic estimates. Any material decrease in actual traffic volume and our forecast could have material adverse effect on cash flows, results of operations and financial condition.

➤ **Input and labour cost risk:** Cost of Input materials such as Petroleum Products (Bitumen, Diesel, Furnace Oil) depends upon the International Market for Oil. As Petroleum Products are a major raw material, any change in the oil prices affects the overall cost of the projects. The availability of labour, government policy for working (like in times of COVID-19) for execution of projects is also a major risk factor.

➤ **Inflationary impacts:** Our toll revenues are a function of Toll rates and Traffic Growth and the Toll rates are impacted by Wholesale Price Index (WPI). Also, our HAM revenues are impacted by Wholesale Price Index (WPI) and Consumer Price Index (CPI) in that region / area. In view of the lower inflationary trends, WPI & CPI have been quite low leading to low toll rate / Price Index Multiple (PIM) increases. Also any changes in the WPI, CPI components and method of calculation of the same may have impact on toll rates / PIM of the project.

HUMAN RESOURCES DEVELOPMENT

As on 31st March 2021, the number of permanent employees in the Company is 2,517 at various levels. Talent management has always been the crucial factor for the Company, as your Company believes that its continued success will depend on its ability to attract and retain key personnel with relevant skills and experience. The attrition rate among the Top Management of the Company has been negligible in last many years. The Company has robust process of human resource development.

The Company has a HR Policy in place and encouraging working environment. The Company has continued to focus on various aspects like employee training, welfare and safety thereby maintaining a constructive relationship with employees.

The Management had taken all required efforts for implementation of terms and conditions laid down by Ministry of Home Affairs of Central Government of India for prevention of outbreak at work places through detailed Standard Operating Procedure and Human Resource Department had taken effort in its implementation at all the sites. Moreover, all the required insurance policies were obtained for employees of the Company and its subcontractors, manpower suppliers for providing treatment cover for COVID-19 infection.

The necessary arrangement were made through site HR officials for groceries, vegetables during lockdown phases and the required home isolation facilities were allocated to the workers of subcontractors too during the entire period.

The drives taken by Human Resource Department in '3Ts' such as Track, Test and Treat' was proven formula to keep all work sites in operation throughout the week and supporting speedy progress in execution of work by following all guidelines of the Ministry of Home Affairs.

OVERVIEW OF THE STANDALONE FINANCIAL STATEMENTS

1. The standalone total income for FY21 is ₹ 4009.60 Crore as against ₹ 4082.36 Crore in FY20. FY21 faced challenge for unprecedented covid-19 pandemic and nationwide lockdown. Interruptions were faced primarily on account of labor shortage, unavailability of material, restriction in movement mainly during the first half FY21.

The Break-up of total income is as follows.

- a) Contract revenue marginally increased during FY21 to ₹ 3,763.13 Crore from ₹ 3,702.89 Crore in FY20 mainly on account of contract revenue of annuity EPC and third party EPC projects.
- b) Further, the Company has handed over Nagar – Aurangabad toll road Project to the authority as per contract during FY21 and hence the toll collection is ₹ Nil as compared to ₹ 30.04 Crore in FY20.
- c) Income from sales was decreased from ₹ 103.50 Crore in FY2020 to ₹ 66.79 Crore in FY2021. The decrease in sales was mainly due to COVID 19 lockdown restrictions and business activities in real estate were also lowered. Considering challenging business scenario, the company has reduced its scale of business.
- d) Other operating revenue has increased to ₹ 47.84 Crore from ₹ 40.76 Crore mainly on account of scrap sale, sale of other construction material; and receipt of insurance claims, etc.
- e) Further, other income has increased from ₹ 144.93 Crore to ₹ 192.08 Crore mainly on account of interest

income on loans given to SPVs fixed deposits with bank and other interest income.

2. EBITDA has decreased marginally to ₹ 711.60 Crore in FY21 from ₹ 730.56 Crore in FY20, but same is in line with standalone income of the Company.
3. Depreciation and Finance Expenses:
 - a. Depreciation & amortisation cost has decreased by ₹ 23.93 Crore to ₹ 87.20 Crore in FY21 from ₹ 111.13 Crore in FY20. There was no major addition to construction and other assets during the year; and
 - b. Financial Expenses have decreased by 9.69% to ₹ 77.17 Crore in FY21 from ₹ 85.45 Crore in FY20, mainly on lower utilisation of bank limits and timely recovery of receivables from customers.
4. Reduction in Effective Tax Rate to 25.42% from 27.50% due to fact that, in FY20, the Company shifted to new tax regime and DTA was calculated at new rates, so there was one time hit of tax amount. Henceforth, tax rate should be approx. 25%.
5. As at 31st March 2021, the Net Worth stood at ₹ 3,006.74 Crore as against ₹ 2,598.94 Crore in previous year.
6. The Gross Debt as at 31st March 2021 stood at ₹ 439.64 Crore resulting in Debt/Equity Ratio as 0.15, which is well within acceptable standards of the industry.

7. Internal control systems and their adequacy

The Companies Act, 2013 re-emphasizes the need for an effective Internal Financial Control System (IFC) in the Company which should be adequate and shall operate effectively. The Company has an Internal Control System including Internal Financial Controls, commensurate with the size, scale and complexity of its operations. The same is approved by Audit Committee. The Joint Internal Auditors evaluate the efficacy and adequacy of internal control system, accounting procedures and policies adopted by the Company for efficient conduct of its business, adherence to Company's policies, safeguarding of Company's assets, prevention and detection of frauds & errors and timely preparation of reliable financial information etc.

The Internal Financial Controls are adequate and working effectively. The scope and authority of the Internal Audit is laid down by the Audit Committee and accordingly the Internal Audit Plan is approved.

The Board is of the opinion that the Company has a process in place to continuously monitor the existing controls and identify gaps, if any, and implement new and /or improved controls wherever the effect of such gaps would have a material effect on the Company's operations.

8. There have been no significant changes as compared to the immediately previous financial year in key financial ratios. Key Financial Ratios are as under.

Current Ratio	1.12
Debt Equity Ratio	0.15
Debt Service Coverage Ratio	5.00
Interest Service Coverage Ratio	12.97
Inventory Holding	52 days

OVERVIEW OF THE CONSOLIDATED FINANCIAL STATEMENTS

Key highlights for year ended March 31, 2021.

- **Turnover for FY2021** was marginally decreased to ₹ 5,121.87 Crore against ₹ 5152.21 Crore in FY 2020, mainly due to lockdown on account of Covid 19;
- **Revenue** from toll collection during FY21 was ₹ 821.43 Crore, as compared to ₹ 883.57 Crore in FY20, reduction in toll revenue is mainly restriction in movement due to COVID 19 and nationwide lock down.
- **PBT** increased to ₹ 437.65 Crore in FY2021 against ₹ 326.24 Crore in FY2020 showing 34% increase Y-o-Y;

- **Debt Equity ratio** is improved to 8.08 as at 31st March 2021 against 11.53 on 31st March 2020;
- **Total comprehensive profit attributable to owners** (after adjustment of minority interest) is ₹ 276.07 Crore as against ₹ 163.37 Crore during the year FY20. Increase in profit during FY20-21 is mainly due to reduction in finance cost, depreciation & amortisation cost and reduction in average rate of income tax for the year.

Disclosure of Accounting Treatment:

The Company has consistently followed a treatment that has been prescribed in Indian Accounting Standards in the preparation of financial statements and the same shows true and fair view of the financial statements.

Future Outlook

The global economy is witnessing challenges arising due to Covid-19 Pandemic and the Road Infrastructure sector is not isolated. The Pandemic, and the ensuing lockdown has adversely impacted the sector primarily attributable to the

halting of construction activities across the country, lack of availability of labour, disruption in supply chain, stoppage of toll collection, amongst others. However the government has announced various relief measures to help contractor recover from the setbacks faced due to the pandemic under Atmanirbhar Bharat scheme.

We are encouraged by the government's continued efforts to calibrate our health infrastructure and ongoing progress on the vaccination front. Initiatives like Atmanirbhar Bharat and National Infrastructure Pipeline will boost economic growth and generate employment to a large extent. Favourable developments on account of policy reforms, normal monsoons, easing of liquidity position, reduction of interest rates strengthen the case for India becoming a \$5 trillion economy. These structural developments offer tremendous growth potential, and we intend to work relentlessly, leverage our core competencies to stay ahead.

The Union Minister for Road Transport & Highways and MSMEs, in his communication dated April 07, 2020, has set a target of constructing roads worth ₹ 15 lakh Crore by FY2025. We expect many opportunities in the near and long term for the infrastructure sector in India. The government's ambitious infrastructure development programmes provide significant opportunities to boost economic development in the sector in coming years.

Our order book – which is ₹ 8,166.90 Crore, ensuring strong visibility for the EPC segment for foreseeable future. We are well confident and also geared up to win BOT / HAM projects in the upcoming bids, which will ensure a steady growth in execution as well as our revenues in the long term.

We will continue to strive and remain focused on creating more value for all by venturing into new areas of infrastructure.

Capital Expenditure

As at March 31, 2021, the Gross Fixed Assets & Intangible Assets stood at ₹ 788.92 Crore which include CWIP and Right of use of assets and net fixed assets and net intangible assets at ₹ 358.57 Crore. Additions during year amounted to ₹ 62.71 Crore.

Auditors and Auditors' Reports

a. Statutory Auditors

The Shareholders of the Company, pursuant to the provisions of Section 139 of the Act and the Companies (Audit and Auditors) Rules, 2014, have appointed M/s. S R B C & CO LLP, Chartered Accountants, Mumbai, (Firm Registration No. 324982E/E300003), as the Statutory Auditors to hold office till the conclusion of the 29th Annual General Meeting ('AGM') of the Company to be held for FY 2021-22. They have confirmed that they are not disqualified from continuing as Auditors of the Company.

The Auditors' Reports on Standalone Financial Statements (SFS) and Consolidated Financial Statements (CFS) for the financial year 2020-21 do not contain any qualification, reservation or adverse remark except the following:

Clause No. i (c) of ANNEXURE 1 - STATEMENT ON MATTERS SPECIFIED IN PARAGRAPHS 3 AND 4 OF THE COMPANIES (AUDITOR'S REPORT) ORDER, 2016 – Standalone financials

Remark: According to the information and explanations given by the management and audit procedures performed by us, the title deeds of immovable properties, included in property, plant and equipment are held in the name of the Company except for title deed in case of one building (Gross Block of ₹ 140.06 Lakhs, Net Block ₹ 108.45 Lakhs), for which transfer deed is yet to be executed in the name of the Company.

Reply: The transfer of title deeds of the said building to the Company is pending. During the year, the Completion

Certificate has been issued by the Pune Municipal Corporation. However, the registration formalities could not be completed, due to COVID-19 situation, as the adjudication of stamp duty etc. was not possible despite the tireless follow-up with the concerned stamp duty authorities. However, the Company fully possesses the said Building. All the documents for registration in the name of the Company have already been prepared and submitted to the concerned authorities subject to stamp duty adjudication. A regular follow-up is being made to get the title deeds transferred in the name of the Company. We hope to complete the registration formalities and to get complete and clear title in the name of the Company.

Clause No. vii (a) of ANNEXURE 1 - STATEMENT ON MATTERS SPECIFIED IN PARAGRAPHS 3 AND 4 OF THE COMPANIES (AUDITOR'S REPORT) ORDER, 2016

Remark: Undisputed statutory dues including provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of custom, duty of excise, value added tax, goods and service tax, cess and other material statutory dues have been regularly deposited with the appropriate authorities though there has been a slight delay in a few cases.

Reply: There was slight delay in payment of statutory dues due to unavoidable circumstances. However the same had been regularized and the dues have been paid during the year. The necessary precautions have been taken to ensure that no such delays happen in future.

There have been no instances of fraud reported by the Statutory Auditors under Section 143 (12) of the Companies Act, 2013 and the Rules framed thereunder either to the Company or to the Central Government.

b. Cost Auditors

Your Company is maintaining the cost records as specified by the Central Government under sub-section (1) of Section 148 of the Companies Act, 2013 and have appointed M/s. CY & Associates, Cost Accountants, (Firm Registration No. 000334) as the Cost Auditors for FY2020-21 to conduct the audit of cost records of the Company and to issue Cost Audit Report for FY2020-21.

COVID-19 response

With initiation of Pandemic last year, we started prioritising safety and well-being of our employees, partners, and other stakeholders. We proactively supported communities across India, either directly or by partnering with government, local administrations, or NGO partners with monetary aid or through distribution drives, which included ration kits, essentials such as masks, sanitizers and medicines. On the operations front, all our project sites and offices have been operational in compliance with local guidelines and following best practices. We continue to stand with the community in its fight against the pandemic.

Cautionary Statement:

Statements in the Annual Report, describing the Company's objectives, projections, estimates and expectations, may constitute 'forward looking statements' within the meaning of applicable laws and regulations. Although the expectations are based on reasonable assumptions, the actual results might differ.

Acknowledgement

The Directors regret the loss of life due to COVID-19 pandemic and are deeply grateful and have immense respect for every person who risked their life and safety to fight this pandemic.

Your Directors would like to acknowledge and place on record their sincere appreciation to all stakeholders, banks, credit rating agencies and financial institutions, clients, vendors, for their co-operation and continued support in future for the growth of the Company.

The Directors also wish to acknowledge the support and guidance received from various regulatory bodies, NHAI, MPRDC, Power Distribution Corporations of various States, Ministry of Corporate Affairs, BSE Limited, National Stock Exchange of India Limited, Securities and Exchange Board of India and other Central and State Government agencies and thank them for the same and look forward to their continued support. Independent Directors were paid only sitting fees during the financial year under review. Hence, their ratio to Median Remuneration has been shown as **Not Applicable**. The change / increase in remuneration of Independent Directors is based on their memberships and attendance in the Board and Committee Meetings held during the financial year.

ii. Percentage increase in remuneration of each director, Chief Financial Officer, Chief Executive Officer, Company Secretary or Manager, if any, in the Financial Year:

Details provided in the table given above.

iii. The percentage increase in the median remuneration of employees in the financial year 2020-21

The median remuneration of employees of the Company during the Financial Year was ₹3,29,640/- per annum. As compared to previous year, the percentage increase in the median remuneration of employees in the Financial Year 20-21 is 4.77%. This increase in median remuneration is attributable to the movement of employees resulting in change in no. of employees and remuneration paid to those employees especially new employees. In fact, during FY2020-21 there was no increment given to the Directors and employees of the Company.

iv. The number of permanent employees on the rolls of the Company.

The Company had 2,517 permanent employees on the roll as on March 31, 2021.

iii. Average percentile increase already made in the salaries of employees other than the managerial personnel in the last Financial Year and its comparison with the percentile increase in the managerial remuneration and justification thereof and point out if there are any exceptional circumstances for increase in the managerial remuneration.

The Company has not given any increment / upward revision in remuneration payable to any directors or employees during FY2020-21 owing to Pandemic Conditions and its impact on business of the Company. Hence no such details are mentioned here for financial year 20-21.

There is no exceptional increase in the remuneration of the Managerial Personnel in FY 2020-21 as compared to FY 2019-20.

v. The remuneration paid is as per remuneration policy of the Company.

The terms of reference of the Nomination and Remuneration Committee were revised in view of amendments in LODR effective April 01, 2019. The terms of reference of the Nomination and Remuneration Committee are available on the website of the Company www.ashokabuildcon.com

The relevant extract of the terms of reference of Nomination and Remuneration Committee are as follows:

- (i) Recommend to the Board the setup and composition of the Board and its Committees;
- (ii) Recommend to the Board the appointment/re-appointment of Directors and Key Managerial Personnel; and
- (iii) Recommend to the Board the Remuneration Policy for Directors, executive team and Key Managerial Personnel.

The Company has framed a Nomination and Remuneration policy in accordance with the provisions of the Companies Act, 2013 and the SEBI Listing Regulations and consistent with the goals of the Company which inter alia includes Company's Policy on Board Diversity, selection, appointment and remuneration of Directors, criteria for determining qualifications, positive attributes, independence of a Director and also framed an Evaluation policy in terms of the requirement of Section 178 of the Act.

Framework for Performance Evaluation of Independent Directors and the Board

As per the provisions of Companies Act, 2013 and LODR, the Nomination and Remuneration Committee (the "Committee") shall lay down the evaluation criteria for

performance evaluation of Independent Directors and the Board. Further, the Board is required to monitor and review Board Evaluation Framework. This Framework shall contain the details of Board's self-evaluation framework (including all Committees of the Board and individual Directors).

The Board is committed to assess its own performance as a Board in order to identify its strengths and areas in which it may improve its functioning. To that end, the Committee shall establish the following processes for evaluation of performance of Independent Director and the Board:

1. Once a year, the Board will conduct a self-evaluation. It is the responsibility of the Chairman of the Board, supported by the Company Secretary of the Company, to organize the evaluation process and act on its outcome;
2. The Committee shall formulate evaluation criteria for the Board and the Independent Directors which shall be broadly based on:
 - 2.1 Knowledge to perform the role;
 - 2.2 Time and level of participation;
 - 2.3 Performance of duties and level of oversight; and
 - 2.4 Professional conduct and independence.
3. The Board / Independent Directors shall be asked to complete the evaluation forms and submit the same to the Chairman.
4. In terms of Section 134 of the Act, the Board's Report should include a statement indicating a manner in which the Board has done formal annual evaluation of its own performance, performance of Committees and individual Directors of the Company.
5. The evaluation of independent directors shall be done by the entire board of directors which shall include:
 - (a) Performance of the directors; and
 - (b) Fulfillment of the independence criteria as specified in LODR regulations and their independence from the management.

Pursuant to the provisions of the Companies Act, 2013 and SEBI (LODR) Regulations, 2015 and as per Company's Policy on Evaluation of performances of Board of Directors, Committees or Individual Directors, the Company Secretary had circulated the questionnaire to all the Directors of the Company for carrying out the evaluation of performance of Board, its committees and Individual Directors for FY2020-21. On the basis of feedback received on the said questionnaires, the Chairman

had briefed the Board of Directors at the Board Meeting held on March 23, 2021 about the performance evaluation of the Board, its committees and Individual Directors for FY2020-21; provided that in the above evaluation, the directors who are subject to evaluation did not participate.

Remuneration Policy

The Board has, on the recommendation of the Nomination and Remuneration Committee framed a policy for selection, appointment and remuneration of Directors and KMPs. The Nomination and Remuneration Committee has laid down the criteria for determining qualifications, positive attributes and independence of a person proposed to be appointed as a Director and recommend to the Board a policy, relating to the remuneration for the directors, key managerial personnel and other employees. The Policy has been reviewed and revised by the Board at its meeting held on November 11, 2020. The Remuneration Policy has been hosted on the website of the Company www.ashokabuildcon.com.

This policy ensures that :

- ✦ The level and composition of remuneration is reasonable and sufficient to attract, retain and motivate directors and key managerial persons of the quality required to run the company successfully;
- ✦ Relationship of remuneration to performance is clear and meets appropriate performance benchmarks; and
- ✦ Remuneration to directors, key managerial personnel and senior management involves a balance between fixed and incentive pay reflecting short and long-term performance objectives appropriate to the working of the Company and its goals.
- ✦ Remuneration paid to Non-executive Directors :

Independent Auditor's Report to The Members of Ashoka Buildcon Limited

To the Members of Ashoka Buildcon Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of Ashoka Buildcon Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2021, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements for the financial year ended March 31, 2021. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the standalone financial statements section of

our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the standalone financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone financial statements.

Key audit matters	How our audit addressed the key audit matter
Revenue recognition for long term construction contracts <i>(as described in note 31(a) of the standalone financial statements)</i>	
<p>The Company's significant portion of business is undertaken through long term construction contracts. Revenue from these contracts is recognized over the period of time in accordance with the requirements of Ind AS 115, Revenue from Contracts with Customers. Due to the nature of the contracts, revenue is recognised over a period of time using percentage of completion method (input method) which is determined based on proportion of contract costs incurred to date compared to estimated total contract costs, which involves significant judgments, identification of contractual obligations and the Company's rights to receive payments for performance completed till date, changes in scope and consequential revised contract price and recognition of the liability for loss making contracts.</p>	<p>Our audit procedures included, amongst others, the following:</p> <ul style="list-style-type: none"> We read the Company's revenue recognition accounting policies and assessed compliance with the policies in terms of Ind AS 115; We obtained an understanding of the process, evaluated the design, and tested the operating effectiveness of the controls over revenue recognition with specific focus on determination of progress of completion, recording of costs incurred and estimation of costs to complete the remaining contract obligations through inspection of evidence of performance of these controls; We performed tests of details, on a sample basis, and read the underlying customer contracts for terms and conditions, performed review of costs incurred with estimated costs to identify significant variations and assess whether those variations have been considered in estimating the remaining costs to complete and consequential determination of stage of completion, which formed the basis of revenue recognition under the input method;

Key audit matters	How our audit addressed the key audit matter
<p>Furthermore, during the year ended March 31, 2021 the effects of the pandemic on revenue from long term construction contracts, such as delays in project execution, short-term interruptions to supply chains, invocation of force majeure or change in law clauses and their accounting treatment were of key significance for our audit.</p>	<ul style="list-style-type: none"> We assessed the management's evaluation process to recognize revenue over a period of time, status of completion for projects and total cost estimates; On sample basis, we evaluated contracts including contracts with low or negative margins, contracts with significant changes in planned cost estimates, contracts with significant contract assets and contract liabilities, and significant overdue net receivable positions for contracts and assessed the exceptions with its correlation to with the underlying contracts and relevant documents for the year indicating these exceptions including those on account of arising out of effects of the pandemic on project execution and project margins; We assessed that the contractual positions and revenue for the year are presented and disclosed in compliance with Ind AS 115 in the standalone financial statements.
<p><u>Impairment of Company's Interest in subsidiaries and joint ventures (as described in note 04 of the Ind AS financial statements)</u></p>	
<p>As per requirement of Ind AS 36 "Impairment of assets", the management reviews at each reporting period whether there are any indicators of impairment of the investments in subsidiaries and where impairment indicators exist, the management estimates the recoverable amounts of the investments,</p>	<p>Our audit procedures included, amongst others, the following:</p> <ul style="list-style-type: none"> We assessed the Company's accounting policies with respect to impairment in accordance with Ind AS 36 "Impairment of assets"; We obtained an understanding of the process, evaluated the design, and tested the operating effectiveness of the controls over the management assessment

Key audit matters	How our audit addressed the key audit matter
<p>being higher of fair value less costs of disposal and value in use. The value in use of the underlying businesses is determined based on the discounted cash flow projections. Significant judgements are required to determine the key assumptions used in the discounted cash flow models, such as revenue growth, major maintenance expenditure, discount rate, traffic growth and toll rates based on management's view of future business prospects including any possible impact arising out of the pandemic on these estimates. Accordingly, the impairment of the Company's interest in subsidiaries, was determined to be a key audit matter in our audit of the standalone Ind AS financial statements.</p>	<p>of impairment indicators of interest in subsidiaries and joint ventures and where impairment indicators exist, the control over the management estimate for the recoverability of these investments.</p> <ul style="list-style-type: none"> We performed following test of details; <ul style="list-style-type: none"> We obtained management's impairment assessment; We assessed the assumptions around the key drivers of the cash flow forecasts including major maintenance expenditure, traffic growth, toll rates, discount rates and expected revenue growth rates based on management's view of future business prospects including any possible impact arising out of the pandemic on these estimates; We discussed potential changes in key drivers as compared to previous year / actual performance with management in order to evaluate whether the inputs and assumptions used in the cash flow forecasts were suitable ; We obtained and analysed sensitivity analysis on the assumptions used by the management including scenarios built into these models for varied potential impact on account of pandemic. We have read and assessed that the disclosures in the standalone financial statements are in accordance with Ind AS 36 "Impairment of assets"

We have determined that there are no other key audit matters to communicate in our report.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended vide Companies (Indian Accounting Standards) Amendment Rules, 2020. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.

Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements for the financial year ended March 31, 2021 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF ASHOKA BUILDCON LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to standalone financial statements of Ashoka Buildcon Limited ("the Company") as of March 31, 2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls

with reference to these standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to these standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these standalone financial statements.

Meaning of Internal Financial Controls With Reference to these Standalone Financial Statements

A company's internal financial controls with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls With Reference to Standalone Financial Statements

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in

conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

NOTE 01 : SIGNIFICANT ACCOUNTING POLICIES**A. General Information**

Ashoka Buildcon Limited (“the Company”) is a public limited company domiciled in India and incorporated on May 13, 1993 under the provision of Companies Act, 1956. The registered office of Company is located at S.No. 861, Ashoka House, Ashoka Marg, Vadala, Nashik, Maharashtra 422011. Shares of the Company are listed on Bombay Stock Exchange (BSE) and National Stock Exchange (NSE).

The Company is presently engaged in the business of construction of infrastructure facilities on Engineering, Procurement and Construction Basis (EPC) and Built, Operate and Transfer (BOT) Basis and Sale of Ready Mix Concrete. The Company has promoted Special Purpose Vehicles (SPVs) for some of its projects, wherein ‘Toll Collection Rights’ are received in exchange of the Construction Cost. For this, the SPVs significantly engage the services of the Company for contract related activities due to inherent execution capabilities / expertise and experience of the Company.

The financial statements were approved for issue by the Board of Directors on June 18, 2021.

B. Summary of Significant Accounting Policies**1. Basis of preparation**

The Company’s standalone financial statements (‘financial statements’) have been prepared in accordance with the provisions of the Companies Act, 2013 and the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 read with Section 133 of the Companies Act, 2013 (as amended from time to time).

These financial statements include Balance sheet, Statement of Profit and Loss, Statement of Changes in Equity and Statement of Cash Flows and notes, comprising a summary of significant accounting policies and other explanatory information and comparative information in respect of the preceding period.

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value or revalued amount:

- Derivative financial instruments,
- Certain other financial assets and liabilities which have been measured at fair value

(refer accounting policy regarding financial instruments).

2. Presentation of financial statements

The financial statements (except for Statement of Cash Flow) are prepared and presented in the format prescribed in Division II – Ind AS Schedule III (“Schedule III”) to the Companies Act, 2013.

The Statement of Cash Flow has been prepared and presented as per the requirements of Ind AS 7 “Statement of Cash flows”.

Amounts in the financial statements are presented in Indian Rupees in Lakhs as per the requirements of Schedule III. “Per share” data is presented in Indian Rupees upto two decimals places.

Current versus Non-current classification

The Company presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

3. Fair Value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

Fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices in active markets for identical assets or liabilities that entity can access at measurement date;
- Level 2 inputs are inputs, other than quoted prices included in Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the

lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

4. Foreign Currency

a. Functional and presentation currency

The financial statements of the Company are presented using Indian Rupee (₹), which is also our functional currency i.e. currency of the primary economic environment in which the company operates.

b. Transactions and balances

Foreign currency transactions are translated into the respective functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in profit or loss.

5. Property, Plant and Equipment (PPE)

PPE is recognized when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All items of PPE are stated at cost net of tax/duty credits availed, if any, less accumulated depreciation and cumulative impairment. Cost includes expenditure that is directly attributable to the acquisition and installation of such assets, if any. Subsequent expenditure relating to Property, Plant and Equipment is capitalised only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repairs and maintenance costs are charged to the Statement of Profit and Loss as incurred.

Items such as spare parts and servicing equipment are recognised as PPE if they meet the definition of property,

plant and equipment and are expected to be used for more than one year. All other items of spares and servicing equipments are classified as item of Inventories.

PPE not ready for the intended use on the date of the Balance Sheet is disclosed as “Capital Work-In-Progress” and carried at cost, comprising of directly attributable costs and related incidental expenses.

Decommissioning cost, if any, on Property Plant and Equipment are estimated at their present value and capitalized as part of such assets.

An item of Property, plant and equipments is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipments is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in the statement of profit and loss.

Depreciation methods, estimated useful lives and residual value

Depreciation has been provided on the written down value method, as per the useful lives specified in Schedule II to the Companies Act, 2013, or in the case of assets where the useful life was determined by technical evaluation carried out by the management’s expert, in order to reflect the actual usage of the assets. The asset’s useful lives are reviewed and adjusted, if appropriate, at the end of each reporting period. The useful lives of PPE are as under:

		Temporary/Portable structure	3	3
7	General Laboratory Equipment		10	3
8	Plant & Equipment	Centering materials are depreciated on a Straight Line Basis over Useful life which has been defined as Four Years		

The Company, based on assessment made by technical expert and management estimate, depreciates certain items of building, plant and equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

6. Intangible assets

- a. Intangible Assets Under Service Concession Arrangements (Appendix C to Ind AS 115 – Revenue from Contracts with Customers)

In respect of Public to Private Arrangements (PPA), on a Built-Operate-Transfer (BOT) basis, Intangible Assets i.e. Right to collect toll/tariff are recognised when the Company has been granted rights to charge a toll/tariff from the users of such public services and such rights do not confer an unconditional right on the Company to receive cash or another Financial Asset and when it is probable that future economic benefits associated with the rights will flow to the

Company and the cost of the asset can be measured reliably.

The Company constructs or upgrades infrastructure (construction or upgrade services) used to provide a public service and operates and maintains that infrastructure (operation services) for a specified period of time. These arrangements may include infrastructure used in a public-to-private service concession arrangement for its entire useful life.

Under the Concession Agreements, where the Company has received the right to charge users of the public service, such rights are recognised and classified as “Intangible Assets” in accordance with Appendix C to Ind AS 115 – Service Concession Arrangements. Such right is not an unconditional right to receive consideration because the amounts are contingent to the extent that the public uses the service and thus are recognised and classified as intangible assets. Such an intangible asset is recognised by the Company at cost (which is the fair value of the consideration received or receivable for the construction services delivered) and is capitalized when the project is complete in all respects and when the subsidiary companies receives the completion certificate from the authority as specified in the Concession Agreement.

An asset carried under concession arrangements is derecognised on disposal or when no future economic benefits are expected from its future use or disposal.

Service Concession Arrangements that meet the definition of an Intangible Asset are recognised at cumulative construction cost, including related margins. Till completion of construction of the project, such arrangements are recognised as “Intangible Assets Under Development” and are recognised at cumulative construction cost, including related margins.

b. Other Intangible assets

Intangible assets are recognized when it is probable that future economic benefits attributable to the assets will flow to the Company and the cost of the asset can be measured reliably. Such Intangible Assets acquired by the Company are measured at cost less accumulated amortisation and any accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition and installation of such assets.

Amortisation

The intangible rights which are recognised in the form of right to charge users of the infrastructure asset are amortised by taking proportionate of actual revenue received for the year over Total Projected Revenue from project to Cost of Intangible assets i.e. proportionate of actual revenue earned for the year over Total Projected Revenue from the Intangible assets expected to be earned over the balance concession period as estimated by the management.

As required, total Projected Revenue reviewed by the management at the end of each financial year and accordingly, the total projected revenue is adjusted to reflect any changes in the estimates which lead to the actual collection at the end of the concession period.

Right to collect tariff on Hydro project is amortised on a Straight Line basis over the concession period.

Amortisation on Software has been provided on the written down value method, as per the useful lives specified in Schedule II to the Companies Act, 2013.

Sr. No.	Category of assets	Sub-category of assets	Useful life as per Schedule II	Useful life adopted by the company
1.	Softwares	Server and Network - SAP	6	6
2.	Right to collect Toll / Tariff	Right to collect Toll / Tariff	As per concession period	

7. Impairment of Non-Financial Assets

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount and the impairment loss is recognized in the Statement of Profit and Loss. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assumptions of the time value of money and the risks specified to the asset. In determining net selling price, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used.

8. Non-current assets held for sale

The Company classifies non-current assets and disposal groups as 'Held For Sale' if their carrying amounts will be recovered principally through a sale rather than through continuing use and sale is highly probable i.e. actions required to complete the sale indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn.

Non-current assets held for sale and disposal groups are measured at the lower of their carrying amount and the fair value less costs to sell. Assets and liabilities classified as held for sale are presented separately in the balance sheet.

Property, plant and equipment and intangible assets once classified as held for sale are not depreciated or amortised.

9. Financial instruments

Initial Recognition

Financial instruments i.e. Financial Assets and Financial Liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments. Financial instruments are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial instruments (other than financial instruments at fair value through profit or loss) are added to or deducted from the fair value of the financial instruments, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial instruments assets or financial liabilities at fair value through profit or loss are recognised in profit or loss.

Financial Assets

Subsequent Measurement

All recognised financial assets are subsequently measured at amortized cost using effective interest method except for financial assets carried at fair value through Profit and Loss (FVTPL) or fair value through Other Comprehensive Income (FVOCI).

- a. Equity investments in Subsidiaries, Associates and Joint Venture

The Company accounts for its investment in subsidiaries, joint ventures and associates and other equity investments in subsidiary companies at cost in accordance with Ind AS 27 - 'Separate Financial Statements'.

Investment in Compulsory Convertible Debentures of subsidiary company is treated as equity investments, since they are convertible into fixed number of equity shares of subsidiary.

Investment made by way of Financial Guarantee contracts in subsidiary, associate and joint venture companies are initially recognised at fair value of the Guarantee.

- b. Equity investments (other than investments in subsidiaries, associates and joint venture)

All equity investments falling within the scope of Ind-AS 109 are mandatorily measured at Fair Value through Profit and Loss (FVTPL) with all fair value changes recognized in the Statement of Profit and Loss.

The Company has an irrevocable option of designating certain equity instruments as FVOCI. Option of designating instruments as FVOCI is done on an instrument-by-instrument basis. The classification made on initial recognition is irrevocable.

If the Company decides to classify an equity instrument as FVOCI, then all fair value changes on the instrument are recognized in Statement of Other Comprehensive Income (SOI). Amounts from SOI are not subsequently transferred to profit and loss, even on sale of investment.

- c. Investment in preference shares

Investment in preference shares are classified as debt instruments and carried at amortised cost if they are not convertible into equity instruments and are not held to collect contractual cash flows. Other Investment in preference shares which are classified as debt instruments are carried at FVTPL.

Investment in convertible preference shares of subsidiary, associate and joint venture companies are treated as equity instruments and carried at cost. Other Investment in convertible preference shares which are classified as equity instruments are mandatorily carried at FVTPL.

- d. De-recognition

A financial asset is primarily derecognized when the rights to receive cash flows from the asset have expired, or the Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement; and with that a) the Company has transferred substantially all the risks and rewards of the asset, or b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

e. Impairment of financial assets

The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all trade receivables and/or contract assets that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

Financial Liabilities

Classification

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Subsequent measurement

Loans and borrowings are subsequently measured at amortised cost using Effective Interest Rate (EIR), except for financial liabilities at fair value through profit or loss. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. Amortisation arising on unwinding of the financial liabilities as per EIR is included as a part of Finance Costs in the Statement of Profit and Loss.

Financial liabilities recognised at FVTPL, including derivatives, are subsequently measured at fair value.

a. Compound financial instruments

Compound financial instruments issued by the company is an instrument which creates a financial liability on the issuer and which can be converted into fixed number of equity shares at the option of the holders.

Such instruments are initially recognised by separately accounting the liability and the equity components. The liability component is initially recognised at the fair value of a comparable liability that does not have an equity conversion option. The equity component is initially recognised as the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. The directly attributable transaction costs are allocated to the liability and

the equity components in proportion to their initial carrying amounts.

Subsequent to initial recognition, the liability component of the compound financial instrument is measured at amortised cost using the effective interest method. The equity component of a compound financial instrument is not re-measured subsequently.

b. Financial guarantee contracts

Financial guarantee contracts are initially recognised as a liability at fair value. The liability is subsequently measured at carrying amount less amortization or amount of loss allowance determined as per impairment requirements of Ind AS 109, whichever is higher. Amortisation is recognised as finance income in the Statement of Profit and Loss.

c. De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

Re-classification of financial instruments

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets, such as equity instruments designated at FVTPL or FVOCI and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets.

10. Cash dividend and non-cash distribution to equity holders

The Company recognises a liability to make cash or non-cash distributions to its equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

Non-cash distributions are measured at the fair value of the assets to be distributed with fair value re-measurement

recognised directly in equity.

Upon distribution of non-cash assets, any difference between the carrying amount of the liability and the carrying amount of the assets distributed is recognised in the statement of profit and loss.

Dividends paid/payable are recognised in the year in which the related dividends are approved by the Shareholders or Board of Directors as appropriate.

11. Earnings per share

The Company's Earnings per Share ('EPS') is determined based on the net profit attributable to the shareholders' of the Company.

Basic earnings per share is calculated by dividing the profit from continuing operations and total profit, both attributable to equity shareholders of the company by the weighted average number of equity shares outstanding during the period.

Diluted earnings per share is computed using the weighted average number of common and dilutive shares outstanding during the year including share based payments, except where the result would be anti-dilutive.

12. Revenue recognition

A) Revenue

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements, because it typically controls the goods or services before transferring them to the customer.

Revenue from construction contracts

Performance obligation in case of long - term construction contracts is satisfied over a period of time, since the Company creates an asset that the customer controls as the asset is created and the Company has an enforceable right to payment for performance completed to date if it meets the agreed specifications.

Revenue from long term construction contracts, where the outcome can be estimated reliably and 5% of the project cost is incurred, is recognized under the percentage of completion method by reference to the stage of completion of the contract activity.

The stage of completion is measured by input method i.e. the proportion that costs incurred to date bear to the estimated total costs of a contract. The percentage-of-completion method (an input method) is the most faithful depiction of the company's performance because it directly measures the value of the services transferred to the customer.

The total costs of contracts are estimated based on technical and other estimates. In the event that a loss is anticipated on a particular contract, provision is made for the estimated loss. Contract revenue earned in excess of billing is reflected under as "contract asset" and billing in excess of contract revenue is reflected under "contract liabilities".

Retention money receivable from project customers does not contain any significant financing element, these are retained for satisfactory performance of contract.

In case of long - term construction contracts payment is generally due upon completion of milestone as per terms of contract. In certain contracts, short-term advances are received before the performance obligation is satisfied.

The major component of contract estimate is "budgeted cost to complete the contract" and on assumption that contract price will not reduce vis-à-vis agreement values. While estimating the various assumptions are considered by management such as:

- Work will be executed in the manner expected so that the project is completed timely;
- Consumption norms will remain same;
- Cost escalation comprising of increase in cost to complete the project are considered as a part of budgeted cost to complete the project etc.

Due to technical complexities involved in the budgeting process, contract estimates are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Service Contracts

For service contracts (including maintenance contracts) in which the company has the right to consideration from the customer in an amount that corresponds directly with the value to the customer of the company's performance completed to date, revenue is recognized when services are performed and contractually billable.

Revenue recognition under Service Concession Arrangements

In case of entities involved in construction and maintenance of roads, revenue are recognised in line with the Appendix C to Ind AS 115 – Service Concession Arrangements. The revenue is recognized in the period of collection which generally coincide as and when the traffic passes through toll plazas.

Sale of goods

Revenue from sale of goods is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the goods. The normal credit term is 30 to 90 days upon delivery.

Warranty Obligation

The Company provides for contractual obligations to periodically service, repair or rectify any defective work during the defect liability period as well as towards contractual obligations to restore the infrastructure at periodic intervals. Provisions are measured based on management's estimate required to settle the obligation at the balance sheet date and are discounted using a rate that reflects the time value of money. When discounting is used, the increase in the provision due to the passage of time is recognized as finance cost. The same is reviewed at each balance sheet date and adjustments if any to the carrying amount is provided for accordingly.

In case of service concession arrangement classified as financial assets, expenses recognized in the period in which such costs are actually incurred.

Variable Consideration

The nature of the Company's contracts gives rise to several types of variable consideration, including claims, unpriced change orders, award and incentive fees, change in law, liquidated damages and penalties. The company recognizes revenue for variable consideration when it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur. The company estimates the amount of revenue to be recognized on variable consideration using the expected value (i.e., the sum of a probability-weighted amount) or the most likely amount method, whichever is expected to better predict the amount.

The Company's claim for extra work, incentives and escalation in rates relating to execution of contracts are recognized as revenue in the year in which said

claims are finally accepted by the clients. Claims under arbitration/disputes are accounted as income based on final award. Expenses on arbitration are accounted as incurred.

Before including any amount of variable consideration in the transaction price, the Company considers whether the amount of variable consideration is constrained. The Company determined that the estimates of variable consideration are not constrained based on its historical experience, business forecast and the current economic conditions. In addition, the uncertainty on the variable consideration will be resolved within a short time frame.

B) Contract Balances

Contract Assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Contract assets represent revenue recognized in excess of amounts billed and include unbilled receivables. Unbilled receivables, which represent an unconditional right to payment subject only to the passage of time, are reclassified to accounts receivable when they are billed under the terms of the contract.

Trade Receivables

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in point 9 of Accounting Policies – Financial Instruments.

Contract Liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made, or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

Contract liabilities include unearned revenue which represent amounts billed to clients in excess of revenue recognized to date and advances received from customers. For contracts where progress billing exceeds, the aggregate

of contract costs incurred to date plus recognised profits (or minus recognised losses, as the case may be), the surplus is shown as contract liability and termed as unearned revenue. Amounts received before the related work is performed are disclosed in the balance sheet as contract liability and termed as advances received from customers

13. Other Income

Dividend and Interest Income

Dividend income is recognised when the right to receive payment is established. Interest income is recognised using the effective interest method.

Income from profit from partnership firms and AOPs

The share in profit in LLP shall be recognised as income in the statement of profit and loss as and when the right to receive its profit share is established.

14. Inventories

Inventory of Raw Materials, Stores and spares and land are valued at cost or net realizable value whichever is lower. Cost includes all non-refundable taxes and expenses incurred to bring the inventory to present location. Cost is determined using weighted average method of valuation.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

15. Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

a. Borrowing cost under Service Concession Arrangements

Borrowing costs attributable to the construction of qualifying assets under service concession arrangement classified as intangible asset, are capitalised to the date of its intended use.

Borrowing costs attributable to concession arrangement classified as financial assets are charged to Statement of Profit and Loss in the period in which such costs are incurred.

b. Other borrowing costs are charged to Statement

of Profit and Loss in the period in which they are incurred.

16. Provisions & Contingencies

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events for which it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated as at the balance sheet date. Provisions are measured based on management's estimate required to settle the obligation at the balance sheet date and are discounted using a rate that reflects the time value of money. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Other Litigation claims

Provision for litigation related obligation represents liabilities that are expected to materialise in respect of matters in appeal.

Onerous contracts

A provision for onerous contracts is measured at the present value of the lower expected costs of terminating the contract and the expected cost of continuing with the contract. Before a provision is established, the Company recognises impairment on the assets with the contract.

Contingencies

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but will probably not, require an outflow of resources. Information on contingent liabilities is disclosed in the notes to financial statements unless the possibility of an outflow of resources embodying economic benefit is remote.

A contingent asset is not recognised but disclosed in the financial statements where an inflow of economic benefit is probable.

17. Provision for Defect liability period/Resurfacing obligations

The Company provides for contractual obligations to periodically service, repair or rectify any defective work during the defect liability period as well as towards contractual obligations to restore the infrastructure at periodic intervals. Provisions are measured based on management's estimate required to settle the obligation at the balance sheet date and are discounted using a rate that reflects the time value of money. When discounting is used, the increase in the provision due to the passage of

time is recognised as a finance cost. The same is reviewed at each balance sheet date and adjustments if any to the carrying amount is provided for accordingly.

In case of service concession arrangements classified as financial assets, expenses recognised in the period in which such costs are actually incurred.

18. Leases

Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i. **Right-of-use assets**

The Company recognises right-of-use assets at the commencement date of the lease. Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis from the commencement date to the end of lease term.

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment. Refer to the accounting policies of Impairment of non-financial assets.

ii. **Lease liabilities**

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that

do not depend on an index or a rate are recognised as expenses in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable.

After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments or a change in the assessment of an option to purchase the underlying asset.

iii. **Short term leases and leases of low value of assets**

The Company applies the short-term lease recognition exemption to its short-term leases of machinery and equipment. It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

19. Taxes

Income tax expense for the period is the tax payable on the current period's taxable income based on the applicable income tax rate and changes in deferred tax assets and liabilities attributable to temporary differences. The current income tax charge is calculated in accordance with the provisions of the Income Tax Act 1961.

Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted at the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are recognised for all deductible temporary differences and brought forward losses only if it is probable that future taxable profit will be available to realise the temporary differences.

Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

20. Employee benefits

a. Short-term obligations

All employee benefits falling due wholly within twelve months of rendering the service are classified as short term employee benefits. These are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

b. Post-employment obligations i.e.

- Defined benefit plans and
- Defined contribution plans.

Defined benefit plans:

The employees' gratuity fund scheme, managed by Life Insurance Corporation (LIC) is a defined benefit plan. The present value of obligation is determined based on actuarial valuation carried out as at the end of each financial year using the Projected Unit Credit Method.

The obligation is measured at the present value of the estimated future cash flows. The discount rate used for determining the present value of the obligation under defined benefit plans, is based on the market yield on government securities, of a maturity period equivalent to the weighted average maturity profile of the related obligations at the Balance Sheet date.

Re-measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Re-measurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in the statement of profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset.

Defined contribution plans:

The Company's contribution to provident fund, employee state insurance scheme, superannuation fund and National Pension Scheme (NPS) are considered as defined contribution plans and are charged as an expense as they fall due based on the amount of contribution required to be made and when services are rendered by the employee.

21. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

22. Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker, who regularly monitors and reviews the operating result for following operating segments of the Company:

- i. "Construction & Contract Related Activity", includes Engineering, Procurement and Construction activity of infra projects;
- ii. "Built, Operate and Transfer (BOT)" includes Annuity to develop infra developer under BOT & Annuity
- iii. "Sale of Goods" consist mainly Sale of construction material which includes RMC and Real estate

23. Significant accounting judgments, estimates & assumptions

The preparation of the Company's financial statements requires management to make estimates and assumptions that affect the reported values of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Estimates and assumptions.

The key assumptions concerning future and other key sources of estimating uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Significant Estimates in Application of Ind AS 115

The Company applied the following estimates that significantly affect the determination of the amount and timing of revenue from contracts with customers:

Project revenue and costs

The percentage-of-completion method places considerable importance on accurate estimates of the extent of progress towards completion and may involve estimates on the scope of deliveries and services required for fulfilling the contractually defined obligations. These significant estimates include total contract costs, total contract revenue, contract risks, including technical, political and regulatory risks, and other judgement. The Company re-assesses these estimates on periodic basis and makes appropriate revisions accordingly.

Determining method to estimate variable consideration and assessing the constraint

Before including any amount of variable consideration in the transaction price, the Company considers whether the amount of variable consideration is constrained. The Company determined that the estimates of variable consideration are not constrained based on its historical experience, business forecast and the current economic conditions. In addition, the uncertainty on the variable consideration will be resolved within a short time frame.

Other Significant Accounting judgements, estimates and assumptions

Taxes

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Company establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective domicile of the companies.

Significant management judgment is required to determine the amount of deferred tax assets (including MAT credit) that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Employee benefit plans

The cost of defined benefit gratuity plan and other post-employment benefits are determined using actuarial valuations.

An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries.

Further details about gratuity obligations are given in Note 46.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flows (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Impairment of financial assets

The impairment provision for financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

Impairment of subsidiaries and associates

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget generally covering a period of the concession agreements using long terms growth rates and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. Further, the Company considers favourable arbitration awards towards its claim from various authorities in the impairment assessment of subsidiaries and associates on the basis of probability assessment.

Allowance for uncollectible trade receivables

Trade receivables do not carry interest and are stated at their nominal values as reduced by appropriate allowances for estimated irrecoverable amounts. Estimated irrecoverable amounts are based on the aging of the receivable balances and historical experiences. Individual trade receivables are written off when management deems them not be collectible.

24. Amendment to Schedule III

Recent pronouncements:

On March 24, 2021, the Ministry of Corporate Affairs ("MCA") through a notification, amended Schedule III of the Companies Act, 2013. The amendments revise Division I, II and III of Schedule III and are applicable from April 1, 2021. Key amendments relating to Division II which relate to companies whose financial statements are required to comply with Companies (Indian Accounting Standards) Rules 2015 are:

Balance Sheet

- a. Lease liabilities should be separately disclosed under the head 'financial liabilities', duly distinguished as current or non-current.
- b. Certain additional disclosures in the statement of changes in equity such as changes in equity share capital due to prior period errors and restated balances at the beginning of the current reporting period.
- c. Specified format for disclosure of shareholding of promoters.
- d. Specified format for ageing schedule of trade receivables, trade payables, capital work-in-progress and intangible asset under development.
- e. If a company has not used funds for the specific purpose for which it was borrowed from banks and financial institutions, then disclosure of details of where it has been used.
- f. Specific disclosure under 'additional regulatory requirement' such as compliance with approved schemes of arrangements, compliance with number of layers of companies, title deeds of immovable property not held in name of company, loans and advances to promoters, directors, key managerial personnel (KMP) and related parties, details of benami property held etc.

Statement of profit and loss

- a. Additional disclosures relating to Corporate Social Responsibility (CSR), undisclosed income and crypto or virtual currency specified under the head 'additional information' in the notes forming part of the standalone financial statements.

The amendments are extensive and the Company will evaluate the same to give effect to them as required by law.

- 1) Trade receivables are non interest bearing and are generally on terms of 30 to 90 days in case if sale of products and in case of long term construction contracts, payment is generally due upon completion of milestone as per terms on contract. In certain contracts, advances are received before the performance obligation is satisfied

- 2) The Company applies the expected credit loss (ECL) model for measurement and recognition of impairment losses on trade receivables and contract assets. The Company follows the simplified approach for recognition of impairment allowance on trade receivables and contract assets. The application of the simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment allowance based on lifetime ECLs at each reporting date. ECL impairment loss allowance (or reversal) recognized during the period is recognized in the Statement of Profit and Loss. The amount is reflected under the head "Other expenses" in the Statement of Profit and Loss.

Nature and purpose of Reserves**Securities Premium :**

Securities Premium is used to record the premium on issue of shares and utilised in accordance with the provisions of the Companies Act, 2013.

General Reserve :

General Reserve is used from time to time to transfer profits from Retained Earnings for appropriation purposes. As the General Reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, items included in General Reserve will not be reclassified subsequently to Statement of Profit and Loss.

Debenture Redemption Reserve :

The Company had created a Debenture Redemption Reserve at the time of issue of Non Convertible Debentures out of the profits which are available for payment of dividend to be utilised for Redemption of these Debentures. During the year ended March 31, 2020, the Company had redeemed all the outstanding Non Convertible Debentures, and transferred the balance of Debenture Redemption Reserve to the General Reserve.

Retained Earning :

Retained Earnings are the profits of the Company earned till date net of appropriation

Note 40 : Capital management

The primary objective of the Company's capital management is to maximise the shareholder value. For the purpose of the Company's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Company.

Debt is defined as long-term borrowings, current maturities of long-term borrowings, short-term borrowings and interest accrued thereon (excluding financial guarantee contracts).

Capital includes equity attributable to the equity holders to ensure that it maintains an efficient capital structure and healthy capital ratios in order to support its business and maximise shareholder value. The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions or its business requirements. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the year ended March 31, 2021 and March 31, 2020.

Interest Rate Risk

As infrastructure development and construction business is capital intensive, the Company is exposed to interest rate risks. The Company's infrastructure development and construction projects are funded to a large extent by debt and any increase in interest expense may have an adverse effect on our results of operations and financial condition. The Company current debt facilities carry interest at variable rates with the provision for periodic reset of interest rates. As of March 31, 2021, majority of the Company's indebtedness was subject to variable/fixed interest rates.

The interest rate risk exposure is mainly from changes in floating interest rates. The interest rate are disclosed in the respective notes to the financial statement of the Company. The following table analysis the breakdown of the financial assets and liabilities by type of interest rate:

Note 45 : Leases

Disclosures pursuant to Ind AS 116 "Leases"

The Company also applied the available practical expedients wherein it:

- Used a single discount rate to a portfolio of leases with reasonably similar characteristics
- Relied on its assessment of whether leases are onerous immediately before the date of initial application
- Applied the short-term leases exemptions to leases with lease term that ends within 12 months of the date of initial application
- Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application
- Used hindsight in determining the lease term where the contract contained options to extend or terminate the lease
- Applied the standard only to contracts that were previously identified as leases applying Ind AS 17 at the date of initial application.

The Company has lease contracts for various items of plant, machinery, land, building, vehicles and other equipment used in its operations. Leases of land generally have lease terms between 1 to 80 years, while Building, Plant and machinery, motor vehicles and other equipment generally have lease terms between 1 and 5 years. Generally, the Company is restricted from assigning and subleasing the leased assets.

The Company has elected not to apply the requirements of Ind AS 116 to short term leases of all the assets that have a lease term of twelve months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight line basis over the lease term.

The Company had total cash outflows for leases of ₹ 678.19 Lakhs for the year ended March 31, 2021 (March 31, 2020 : ₹ 1,135.69 Lakhs)

Refer Note 2A for additions to right-of-use assets and the carrying amount of right-of-use assets as at March 31, 2021.

The effective interest rate for lease liabilities is 10%,

The maturity analysis of lease liabilities are disclosed in Note 43(b).

	Total	78,130.17	92,411.86

- A) The Company does not expect any outflow of economic resources in respect of the above and therefore no provision is made in respect thereof.
- B) During the year ended March 31, 2018, pursuant to the search proceedings carried out in April 2016, the Company had received income tax assessment orders under section 153A for the financial year 2010-11 to 2016-17. Income tax authorities had disallowed certain sub-contractors payments by treating them as not genuine. The Company had the underlying documents to substantiate the genuineness of the work performed by these sub-contractors and no incriminating documents were found during the search proceedings. Accordingly, the Company had filed appeals against these assessment orders before the first appellate authority. Accordingly, as the outcome of the appeal is pending, additional tax payable for these years amounting to ₹ 5,385 Lakhs (including interest) is treated as contingent liability.

- C) **Provident Fund (PF) Matter :-** During the year 2010-11, the Regional Provident Fund Commissioner, Nashik (RPFC) initiated an enquiry against the Company for determination of provident fund dues from August 2003 to September 2005 basis the report of enquiry officer which assessed the dues to be ₹ 3,573.64 lakhs. The Company had submitted its responses along with necessary supporting documents to RPFC. Subsequently, the Company was instructed to submit documents related to the matter to another enquiry officer appointed by RPFC. After submission of necessary documents by the Company, no demand has been assessed and raised by RPFC till date.

Basis on the responses filed, correspondences with RPFC and legal opinion obtained during the year, the Company is of the view that the likelihood of ascertainment of any liability is remote and accordingly, the same has not been considered as contingent liability as at March 31, 2021.

- D) **Provident Fund (PF) Supreme Court Matter:-** There are many interpretative issues relating to the Supreme Court (SC) judgement dated February 28, 2019 on PF as regards definition of PF wages and inclusion of certain allowances for the purpose of PF contribution, as well as effective date of its applicability. Having consulted and evaluated impact on its financial statements, the Company has implemented the changes as per clarifications vide the SC judgement dated February 28, 2019, with effect from March 1, 2019 i.e. immediate after pronouncement of the judgement, as part of statutory compliance. The Company will evaluate its position and act, in case there is any other interpretation of the same issues in future.

Note 52 : Other Disputes

Service tax Matter :- During the year, the Company has received a show cause cum demand notice of ₹ 49,986.56 lakhs for service tax on difference between the turnover of services as per Value Added Tax returns and Service tax returns for financial year 2015-16 filed by the Company. The management based on legal evaluation believes there is no demand payable and also the likelihood of the liability is remote and accordingly this has not been considered as contingent liability as at March 31, 2021.

Note 53 : Financial Guarantees and Other Commitments

- a) Financial guarantee contracts issued by the Company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument and it is based on the maximum amount that can be called for under the financial guarantee contract.

Note 56: Ashoka Concessions Limited (ACL), a subsidiary company, had issued Compulsorily Convertible Debentures (CCD) to its investors and to the Company (Parent) which has been classified as equity instrument in the separate financial statements of ACL. The Company has agreed additional terms with the investors and assumed obligations towards investors which would be settled through the some portion of equity shares to be received from ACL on conversion of CCDs held by parent Company. Accordingly the said obligations has been recognised at its fair value as at March 31, 2021 amounting to ₹ 20,740 Lakhs (March 31, 2020 – ₹ 20,740 Lakhs).

Note 57: GVR Infra Projects Limited (GVR), one of the customers and joint venture partner for certain road annuity project, had been admitted for insolvency petition by National Company Law Tribunal (NCLT) under Insolvency and Bankruptcy Code, 2016 (IBC). The Company's receivable from GVR included Trade debtors (net) – ₹ 3,448.33 Lakhs and Loans Receivable – ₹ 2,502.96 Lakhs. The insolvency proceedings are ongoing and the outcome would be determined on completion of the proceedings. Considering the uncertainties involved in the outcome of IBC proceedings, the Company had charged to the Statement of Profit & Loss an amount of ₹ 4,702.34 lakhs in earlier years and the balance amount of receivable of ₹ 1,248.95 Lakhs had been charged to Statement of Profit & Loss in the previous year ended March 31, 2020.

Note 58: COVID Impact

The Company has assessed the possible effects that may result from COVID-19 in the preparation of these financial statements including recoverability of carrying amounts of financial and non-financial assets. The Company has also considered the possible impact on the cost to come for the construction projects on account of likely delays. Further, in certain projects, National Highways Authority of India (NHAI) has clarified that the escalation on account of change in Price Index Multiple would be basis of respective

state's index as compared to central index applicable earlier. Accordingly, the Company has re-estimated the same for respective projects and resulting impact has been accounted during the year including the likely increase in the cost to come on account after factoring delays, if any.

In developing assumptions relating to the possible future uncertainties in the economic conditions because of COVID-19, the Company has used internal and external sources of information up to the date of approval of these financial statements and expects that the carrying amount of the Company's assets will be recovered. The Company continues to monitor any material changes to the future economic conditions.

Independent Auditor's Report to The Members of Ashoka Buildcon Limited

To the Members of Ashoka Buildcon Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of Ashoka Buildcon Limited (hereinafter referred to as "the Holding Company"), its subsidiaries (the Holding Company and its subsidiaries together referred to as "the Group") its associate and joint ventures comprising of the consolidated Balance sheet as at March 31, 2021, the consolidated Statement of Profit and Loss, including other comprehensive income, the consolidated Cash Flow Statement and the consolidated Statement of Changes in Equity for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us and based on the consideration of reports of other auditors on separate financial statements and on the other financial information of the subsidiaries, associate and joint ventures, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, its associate and joint ventures as at March 31, 2021, their consolidated profit including other comprehensive income, their consolidated cash flows and the consolidated statement of changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Consolidated Financial Statements' section of our report. We are independent of the Group, associate, joint ventures in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the financial year ended March 31, 2021. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of audit procedures performed by us and by other auditors of components not audited by us, as reported by them in their audit reports furnished to us by the management, including those procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

Key audit matters	How our audit addressed the key audit matter
Revenue recognition for long term construction contracts (as described in note 40 (A) of the Ind AS financial statements)	
<p>The Group’s significant portion of business is undertaken through long term construction contracts. Revenue from these contracts is recognized over a period of time in accordance with the requirements of Ind AS 115, Revenue from Contracts with Customers. Due to the nature of the contracts, revenue is recognised over a period of time using percentage of completion method (input method) which is determined based on proportion of contract costs incurred to date compared to estimated total contract costs, which involves significant judgments, identification of contractual obligations and the Group’s rights to receive payments for performance completed till date, changes in scope and consequential revised contract price and recognition of the liability for loss making contracts. Furthermore, during the year ended March 31, 2021 the effects of the pandemic on revenue from long term construction contracts, such as delays in project execution, short-term interruptions to supply chains, invocation of force majeure or change in law clauses and their accounting treatment were of key significance for our audit.</p>	<p>Our audit procedures included, amongst others, the following:</p> <ul style="list-style-type: none"> • We read the Group's revenue recognition accounting policies and assessed compliance with the policies in terms of Ind AS 115; • We obtained an understanding of the process, evaluated the design, and performed the tested of control the operating effectiveness of the controls over revenue recognition with specific focus on determination of progress of completion, recording of costs incurred and estimation of costs to complete the remaining contract obligations through inspection of evidence of performance of these controls; • We performed tests of details, on a sample basis, and read the underlying customer contracts for terms and conditions, performed review of costs incurred with estimated costs to identify significant variations and assess whether those variations have been considered in estimating the remaining costs to complete and consequential determination of stage of completion, which formed the basis of revenue recognition under the input method; • We assessed the management’s evaluation process to recognize revenue over a period of time, status of completion for projects and total cost estimates; • On sample basis, we evaluated contracts with low or negative margins, contracts with significant changes in planned cost estimates, contracts with significant contract assets and contract liabilities, and significant overdue net receivable positions for contracts and assessed its correlation with the underlying documents for the year including those on account of the pandemic; • We assessed that the contractual positions and revenue for the year are presented and disclosed in compliance of Ind AS 115 in the Consolidated Ind AS financial statements.
Revenue from Toll Collection (refer note no 40 (C) of the Ind AS financial statements)	
<p>The Group’s Licenses to collect toll under the concession agreement with relevant Government authorities falls within the Concession Arrangements. Each toll road records and recognises revenue through the use of technology, specifically, road-side equipment supported by tolling and billing systems. Tolling equipment and systems are highly customized complex system installed at the toll plaza for correctly identifying vehicle type, calculating fare and for appropriate billing and collection. This is a key audit matter considering the nature and the large volume of transaction; and reliance on information technology systems for the related automated and IT dependent controls.</p>	<p>Our audit procedures included, amongst others, the following:</p> <ul style="list-style-type: none"> • We obtained an understanding of the processes and tested the operating effectiveness of the controls in place for toll collection; • With the support of Information Technology (‘IT’) specialists, we tested controls relating to the tolling systems’ operation; • We obtained and tested reconciliation of toll collected as per transaction report (generated from toll system) with cash deposited in bank and revenue recorded in the books; • We tested on sample basis the rationalisation done by management by multiplying that toll rate charged for each category of vehicle as per relevant government authority’s notification with the number of vehicles (as per transaction report) and its reconciliation with the revenue recorded in accounts;

Key audit matters	How our audit addressed the key audit matter
	<ul style="list-style-type: none"> • On sample check basis, we traced the daily collection from bank statement to daily cash toll collected and the revenue recorded; • We performed analytics procedures including data analytics on toll collection data including month-wise, vehicle-wise, mode of collection, etc. and compared it with the previous year to identify any unusual trends/transactions for further examination; • On sample check basis, we traced the classification of vehicle independently from stored images recorded by the Group.
Impairment of Licenses to collect toll (intangible assets) <i>(as described in note 04 and 65 of the Ind AS financial statements)</i>	
<p>As of March 31, 2021, the Group had recognized INR 7,06,269.93 lakhs of Licenses to Collect toll of road infrastructure projects, relating to those made by infrastructure concession operators within the scope of Appendix C of Ind AS 115, Service Concession Arrangements.</p> <p>As per requirement of Ind AS 36 “Impairment of assets”, the management regularly reviews whether there are any indicators of impairment of Licenses to Collect toll of road infrastructure projects and where impairment indicators exist, the management estimates the recoverable amounts of the assets, being higher of fair value less costs of disposal and value in use.</p> <p>The value in use of the underlying businesses is determined based on the discounted cash flow projections. Significant judgements are required to determine the key assumptions used in the discounted cash flow models, such as toll revenue, major maintenance expenditure and discount rates based on management’s view of future business prospects including any possible impact arising out of the pandemic on these estimates.</p> <p>Accordingly, the impairment of the “Licenses to Collect Toll” was determined to be a key audit matter in our audit of the Consolidated Ind AS financial statements.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> • We assessed the Group’s accounting policies with respect to impairment in accordance with Ind AS 36 “Impairment of assets”; • We obtained an understanding of the process, evaluated the design, and tested the operating effectiveness of the controls over the management assessment of impairment indicators of Licenses to Collect toll of road infrastructure projects and where impairment indicators exists, the control over the management estimate for the recoverability of these assets; • We performed following test of Details <ul style="list-style-type: none"> ◊ We have obtained management’s impairment assessment ◊ We assessed the assumptions around the key drivers of the cash flow forecasts including toll revenue, major maintenance expenditure and discount rates; ◊ We discussed potential changes in key drivers as compared to previous year / actual performance with management in order to evaluate whether the inputs and assumptions used in the cash flow forecasts were suitable; ◊ We involved valuation specialist to assess the valuation methodology including the key assumptions used in the cash flow forecasts for assets; ◊ We obtained and analysed sensitivity analysis on the assumptions used by the management including scenarios built into these models for varied potential impact on account of pandemic. ◊ We assessed the disclosures in accordance with Ind AS 36 “Impairment of assets” made in the consolidated financial statements

Those respective Board of Directors of the companies included in the Group and of its associate and joint ventures are also responsible for overseeing the financial reporting process of the Group and of its associate and joint ventures.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associate and joint ventures to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associate and joint ventures to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associate and joint ventures of which we are the independent auditors and whose financial information we have audited, to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most

significance in the audit of the consolidated financial statements for the financial year ended March 31, 2021 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

- (a) We did not audit the financial statements and other financial information, in respect of 30 subsidiaries, whose financial statements include total assets of Rs 4,28,441.52 lakhs as at March 31, 2021, and total revenues of Rs 1,60,853.47 lakhs and net cash inflows of Rs 5,774.41 lakhs for the year ended on that date. These financial statement and other financial information have been audited by other auditors, which financial statements, other financial information and auditor's reports have been furnished to us by the management. The consolidated financial statements also include the Group's share of net profit of Rs. 286.45 lakhs for the year ended March 31, 2021, as considered in the consolidated financial statements, in respect of 1 associate and 4 joint ventures, whose financial statements, other financial information have been audited by other auditors and whose reports have been furnished to us by the Management. Our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, joint ventures and associate, and our report in terms of sub-sections (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiaries, joint ventures and associate, is based solely on the reports of such other auditors.
- (b) The consolidated financial statements also include the Group's share of net profit of ₹ 1,458.11 lakhs for the year ended March 31, 2021, as considered in the consolidated financial statements, in respect of 1 joint venture, whose financial statements, other financial information have not been audited and whose unaudited financial statements, other unaudited financial information have been furnished to us by the Management. Our opinion, in so far as it relates amounts and disclosures included in respect of this joint ventures, and our report in terms of sub-sections (3) of Section 143 of the Act in so far as it relates to the aforesaid joint venture, is based solely on such unaudited financial statements and other unaudited financial information. In our opinion and according to the information and explanations given to us by the Management, this financial statements and other financial information are not material to the Group.

Our opinion above on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors and the financial statements and other financial information certified by the Management.

Report on Other Legal and Regulatory Requirements

As required by Section 143(3) of the Act, based on our audit and on the consideration of report of the other auditors on separate financial statements and the other financial information of subsidiaries, associate and joint ventures, as noted in the 'other matter' paragraph we report, to the extent applicable, that:

- (a) The other auditors whose report we have relied upon have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements;
- (b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidation of the financial statements have been kept so far as it appears from our examination of those books and reports of the other auditors;
- (c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Consolidated Cash Flow Statement and Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the books of account maintained for the purpose of preparation of the consolidated financial statements;
- (d) In our opinion, the aforesaid consolidated financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
- (e) On the basis of the written representations received from the directors of the Holding Company as on March 31, 2021 taken on record by the Board of Directors of the Holding Company and the reports of the statutory auditors who are appointed under Section 139 of the Act, of its subsidiary companies, associate company and joint ventures, none of the directors of the Group's companies, its associate and joint ventures, incorporated in India, is disqualified as on March 31, 2021 from being appointed as a director in terms of Section 164 (2) of the Act;
- (f) With respect to the adequacy and the operating effectiveness of the internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiary companies, associate company and joint ventures, incorporated in India, refer to our separate Report in "Annexure 1" to this report;
- (g) In our opinion and based on the consideration of reports of other statutory auditors of the subsidiaries, associate and joint ventures incorporated in India, the managerial remuneration for the year ended March 31, 2021 has been paid / provided by the Holding Company, its subsidiaries, associate and joint ventures incorporated in India to their directors in accordance with the provisions of section 197 read with Schedule V to the Act;
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the report of the other auditors on separate financial statements as also the other financial information of the subsidiaries, associate and joint ventures, as noted in the 'Other matter' paragraph:
 - i. The consolidated financial statements disclose the impact of pending litigations on its consolidated financial position of the Group, its associate and joint ventures in its consolidated financial statements – Refer Note 04, 29, 57 and 58 to the consolidated financial statements;
 - ii. Provision has been made in the consolidated financial statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts – Refer (a) Note 56 to the consolidated financial statements in respect of such items as it relates to the Group, its associate and joint ventures and (b) the Group's share of net profit/loss in respect of its associate and joint ventures;
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company, its subsidiaries, associate and joint ventures, incorporated in India during the year ended March 31, 2021.

ANNEXURE 1 TO THE INDEPENDENT AUDITORS' REPORT

ANNEXURE I TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE CONSOLIDATED FINANCIAL STATEMENTS OF ASHOKA BUILDCON LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of Ashoka Buildcon Limited as of and for the year ended March 31, 2021, we have audited the internal financial controls over financial reporting of Ashoka Buildcon Limited (hereinafter referred to as the "Holding Company") and its subsidiary companies, its associate company and joint ventures, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls

The respective Board of Directors of the Holding Company, its subsidiary companies, its associate companies and joint ventures, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on, "the internal financial control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the company's internal financial controls with reference to these consolidated financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, both, issued by Institute of Chartered Accountants of India, and deemed to be prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to these consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to these consolidated financial statements.

Meaning of Internal Financial Controls With Reference to these Consolidated Financial Statements

A company's internal financial control with reference to these consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to these consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls With Reference to these Consolidated Financial Statements

Because of the inherent limitations of internal financial controls with reference to these consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to these consolidated financial statements to future periods

are subject to the risk that the internal financial control with reference to these consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company, its subsidiary companies, its associate company and joint ventures, which are companies incorporated in India, have, maintained in all material respects, adequate internal financial controls with reference to these consolidated financial statements and such internal financial controls with reference to these consolidated financial statements were operating effectively as at March 31, 2021, based on “the internal control over financial reporting criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Other Matters

Our report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to these consolidated financial statements insofar as it relates to these 30 subsidiary companies, 1 associate company and 5 joint ventures, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

We also have audited, in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India as specified under section 143(10) of the Act, the consolidated financial statements of the Holding Company, which comprise the Consolidated Balance Sheet as at March 31, 2021, and the Consolidated Statement of Profit and Loss and Consolidated Cash Flow Statement for the year then ended, and a summary of significant accounting policies and other explanatory information, and our report dated June 18, 2021 expressed an unqualified opinion on those financial statements.

01 SIGNIFICANT ACCOUNTING POLICIES

A. Corporate Information

The consolidated financial statements comprise financial statements of Ashoka Buildcon Limited (the company) and its subsidiaries (collectively, the Group) for the year ended March 31, 2021.

The list of subsidiaries considered for the preparation of the consolidated financial statements are mentioned in Note 61 to the Consolidated Financial Statements.

Ashoka Buildcon Limited (“the Company”) is a public limited company domiciled in India and incorporated on May 13, 1993 under the provision of Companies Act, 1956. The registered office of Company is located at Ashoka House, Ashoka Marg, Wadala road, Nashik, Maharashtra 422011. Shares of the Company are listed on Bombay Stock Exchange (BSE) and National Stock Exchange (NSE).

The Company is presently engaged in the business of construction of infrastructure facilities on Engineering, Procurement and Construction Basis (EPC) and Built, Operate and Transfer (BOT) Basis and Sale of Ready Mix Concrete. The Company has promoted Special Purpose Vehicles (SPVs) for some of its projects, wherein ‘Toll Collection Rights’ are received in exchange of the Construction Cost. For this, the SPVs significantly engage the services of the Company for contract related activities due to inherent execution capabilities / expertise and experience of the Company.

The financial statements were approved for issue by The Board of Directors on June 18, 2021.

B. Significant Accounting Policies

a) Basis of preparation

The consolidated financial statements of the group have been prepared in accordance with the provisions of the Companies Act, 2013 and the Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 read with Section 133 of the Companies Act, 2013 (as amended from time to time).

These financial statements include Balance sheet, Statement of Profit and Loss, Statement of Changes in Equity and Statement of Cash flows and notes, comprising a summary of significant accounting policies and other explanatory information and comparative information in respect of the preceding period.

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value or revalued amount:

- Derivative financial instruments,
- Certain other financial assets and liabilities which have been measured at fair value (refer accounting policy regarding financial instruments).

b) Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at March 31, 2021. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)
- Exposure, or rights, to variable returns from its involvement with the investee, and
- The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Group’s voting rights and potential voting rights
- The size of the group’s holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three

elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances. If a member of the group uses accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that group member's financial statements in preparing the consolidated financial statements to ensure conformity with the group's accounting policies.

In certain subsidiaries, the company shareholders have entered into an agreement to subscribe to the equity shares of those subsidiaries in a predetermined ratio. As a result, the Company's share of Net Worth in these subsidiaries which was in excess of its investment is added to "NCI Reserve" under Reserves and Surplus.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on March 31, 2021.

Consolidation Procedure:

- Combine like items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognised in the consolidated financial statements at the acquisition date.
- Offset (eliminate) the carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary. Business combinations policy explains how to account for any related goodwill.
- Eliminate in full intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the group (profits or losses resulting from

intragroup transactions that are recognised in assets, such as inventory and fixed assets, are eliminated in full). Intragroup losses may indicate an impairment that requires recognition in the consolidated financial statements. Ind AS 12 Income Taxes applies to temporary differences that arise from the elimination of profits and losses resulting from intragroup transactions.

- The Build, Operate and Transfer (BOT) contracts are governed by service concession agreements with government authorities (grantors). These contracts are executed through special purpose vehicles (SPV) incorporated for this purpose. Under these agreements, the SPV's (operator) does not own the road, but gets "Toll Collection Rights" or "Receivable under service concession arrangements" against Construction Services rendered. As per the principals of Appendix C – "Service Concession Arrangements" to Ind AS 115, such rights have been recognized as either intangible assets or financial assets in the financial statements of the SPV basis type of rights gets. Since the construction revenue earned by the operator is considered as exchanged with the grantor against toll collection rights, profit from such contracts is considered as realised. Accordingly, where work are sub-contracted to the Parent and/or fellow subsidiaries/ associates the intra group transactions pertaining to the BOT contracts and the profits thereon are taken as realized and not eliminated.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognises the assets (including goodwill) and liabilities of the subsidiary
- Derecognises the carrying amount of any non-controlling interests
- Derecognises the cumulative translation differences recorded in equity
- Recognises the fair value of the consideration received
- Recognises the fair value of any investment retained
- Recognises any surplus or deficit in profit or loss
- Reclassifies the parent's share of components previously recognised in OCI to profit or loss or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

c) Summary of Significant Accounting Policies

1. Business Combinations and Goodwill

In accordance with Ind AS 101 provisions related to first time adoption, the Group has elected to apply Ind AS accounting for business combinations prospectively from April 01, 2015. As such, previous GAAP balances relating to business combinations entered into before that date, including goodwill, have been carried forward.

The same first time adoption exemption is also used for associates and joint ventures.

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their acquisition date fair values. For this purpose, the liabilities assumed

include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable. However, the following assets and liabilities acquired in a business combination are measured at the basis indicated below:

- Deferred tax assets or liabilities, and the assets or liabilities related to employee benefit arrangements are recognised and measured in accordance with Ind AS 12 Income Tax and Ind AS 19 Employee Benefits respectively.
- Liabilities or equity instruments related to share based payment arrangements of the acquiree or share – based payments arrangements of the Group entered into to replace share-based payment arrangements of the acquiree are measured in accordance with Ind AS 102 Share-based Payments at the acquisition date.
- Assets (or disposal groups) that are classified as held for sale in accordance with Ind AS 105 Non-current Assets Held for Sale and Discontinued Operations are measured in accordance with that standard.

- Reacquired rights are measured at a value determined on the basis of the remaining contractual term of the related contract. Such valuation does not consider potential renewal of the reacquired right.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

Business combinations arising from transfers of interests in entities that are under the common control are accounted at pooling of interest method. The difference between any consideration given and the aggregate historical

carrying amounts of assets and liabilities of the acquired entity are recorded in shareholders' equity.

Goodwill on consolidation as on the date of transition represents the excess of cost of acquisition at each point of time of making the investment in the subsidiary over the Group's share in the net worth of a subsidiary. For this purpose, the Group's share of net worth is determined on the basis of the latest financial statements, prior to the acquisition, after making necessary adjustments for material events between the date of such financial statements and the date of respective acquisition. Capital reserve on consolidation represents excess of the Group's share in the net worth of a subsidiary over the cost of acquisition at each point of time of making the investment in the subsidiary. Goodwill arising on consolidation is not amortised, however, it is tested for impairment annually. In the event of cessation of operations of a subsidiary, the unimpaired goodwill is written off fully.

2. Investment in Joint Ventures

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The considerations made in determining whether significant influence or joint control are similar to those necessary to determine control over the subsidiaries. The Group's investments in its joint venture is accounted for using the equity method. Under the equity method, the investment in a joint venture is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the joint venture since the acquisition date. Goodwill relating to the joint venture is included in the carrying amount of the investment and is not tested for impairment individually. The statement of profit and loss reflects the Group's share of the results of operations of the joint venture. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of the joint venture, the Group

recognises its share of any changes, when applicable, in the statement of changes in equity. If an entity's share of losses of the joint venture equals or exceeds its interest in the joint venture, the entity discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the joint venture. If the joint venture subsequently reports profits, the entity resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised. The aggregate of the Group's share of profit or loss of a joint venture is shown on the face of the statement of profit and loss. The financial statements of the joint venture are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group. After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in the joint venture. At each reporting date, the Group determines whether there is objective evidence that the investment in the joint venture is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the joint venture and its carrying value, and then recognises the loss as 'Share of profit of joint venture' in the statement of profit or loss.

3. Presentation of consolidated financial statements

The consolidated financial statements of the Group (except for Statement of Cash Flow) are prepared and presented in the format prescribed in Division II – Ind AS Schedule III ("Schedule III") to the Companies Act, 2013.

The Statement of Cash Flow has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash flows".

Amounts in the financial statements are presented in INR (Indian National Rupees) in Lakhs in as per the requirements of Schedule III. "Per share" data is presented in INR upto two decimals places.

4. Current versus Non-current classification

The Group presents assets and liabilities in the balance sheet based on current/non-current classification.

An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or

- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current.

Deferred Tax

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Operating Cycle

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Group has identified twelve months as its operating cycle.

5. Fair Value measurement

The Group measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and

best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Fair value measurements are categorized into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements

are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices in active markets for identical assets or liabilities that entity can access at measurement date;
- Level 2 inputs are inputs, other than quoted prices included in Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

6. Foreign Currency

- Functional and presentation currency

The financial statements of the Group are presented using Indian National Rupee (₹), which is also our functional currency i.e. currency of the primary economic environment in which the Group operates.

- Transactions and balances

Foreign currency transactions are translated into the respective functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from

the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in profit or loss.

7. Property, Plant and Equipment (PPE)

PPE is recognized when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All items of PPE are stated at cost net of tax/duty credits availed, if any, less accumulated depreciation and cumulative impairment. Cost includes expenditure that is directly attributable to the acquisition and installation of such assets if any. Subsequent expenditure relating to Property, Plant and Equipment is capitalised only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. When significant parts of plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repairs and maintenance costs are charged to the Statement of Profit and Loss as incurred.

Items such as spare parts and servicing equipment are recognised as PPE if they meet the definition of property, plant and equipment and are expected to be used for more than one year. All other items of spares and servicing equipments are classified as item of Inventories.

PPE not ready for the intended use on the date of the Balance Sheet is disclosed as “Capital Work-In-Progress” and carried at cost, comprising of directly attributable costs and related incidental expenses.

Decommissioning cost, if any, on Property Plant and Equipment are estimated at their present value and capitalized as part of such assets.

Depreciation methods, estimated useful lives and residual value

Depreciation has been provided on the written down value method, as per the useful lives specified in schedule II to the Companies Act, 2013, or in the case of assets where the useful life was determined by technical evaluation carried out by the management’s expert, in order to reflect the actual usage of the assets. The asset’s useful lives are reviewed and adjusted, if appropriate, at the end of each reporting period. The useful lives of PPE are as under:

Type of Asset with Useful Life

Sr. No.	Category of assets	Sub-category of assets	Useful life as per schedule II	Useful life adopted by the Group
1	Plant and equipment	Concreting, Crushing, Pilling Equipment & Road Making Equipment	12	10
		Cranes with capacity of More than 100 Tonne	20	20
		Cranes with capacity of Less than 100 Tonne	15	15
		Material Handling/Pipeline/Welding	12	9
		Earth Moving equipment	9	9
		Mother Compressor, Online & booster compressor	—	10
		Plant & Machinery other than Compressors and Pipeline (CGS, Dispensers, Skids, Firefighting equipment)		15
		Cascades		20
				Pipeline (MDPE and Steel)
2	Office and equipment	Office and equipment	5	5
3	Computers and data processing equipment	End user devices	3	3
		Server	6	3
4	Furniture and Fixture / Signages	Furniture and Fixture / Signages	10	10
5	Vehicle	Motor buses, motor lorries and motor cars other than those used in a business of running them on hire	8	8
		Motor cycles, scooter and other mopeds	10	10
6	Buildings	Buildings other than factory building	60	60
		Temporary/Portable structure	3	3
7	General Laboratory Equipment		10	3
8	Plant & Equipment	Centering materials are depreciated on a Straight Line Basis over Useful life which has been defined as Four Years		

The Group, based on assessment made by technical expert and management estimate, depreciates certain items of building, plant and equipment over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

8. Intangible assets

- Intangible Assets Under Service concession Arrangements (Appendix A of “Ind AS 115 – Revenue from Contracts with Customers)

In respect of Public to Private Arrangements (PPA), on a Built-Operate-Transfer (BOT) basis, Intangible Assets i.e. Right to collect toll/tariff are recognised when the Company has been granted rights to charge a toll/tariff from the users of such public services and such rights do not confer an unconditional right on the Company to receive cash or another Financial Asset and when it is probable that future economic benefits associated with the rights will flow to the Company and the cost of the asset can be measured reliably.

The Group constructs or upgrades infrastructure (construction or upgrade services) used to provide a public service and operates and maintains that infrastructure (operation services) for a specified period of time. These arrangements may include infrastructure used in a public-to-private service concession arrangement for its entire useful life.

Under the Concession Agreements, where the Group has received the right to charge users of the public service, such rights are recognised and classified as “Intangible Assets” in accordance with Appendix C- ‘Service Concession Arrangements’ of Ind AS 115- ‘Revenue from Contracts with Customers’. Such right is not an unconditional right to receive consideration because the amounts are contingent to the extent that the public uses the service. The asset is recognised by the Group at cost (which is the fair value of the consideration received or receivable for the construction services delivered) and is capitalized when the project is complete in all respects and when the subsidiary companies receives the completion certificate from the authority as specified in the Concession Agreement.

An asset carried under concession arrangements is derecognised on disposal or when no future economic benefits are expected from its future use or disposal.

Service Concession Arrangements that meet the

definition of an Intangible Asset are recognised at cumulative construction cost, including related margins. Till completion of construction of the project, such arrangements are recognised as “Intangible Assets Under Development” and are recognised at cumulative construction cost, including related margins.

- Premium Capitalization

Under some of the concession agreements, the Group has contractual obligation to pay premium (concession fees) to National Highway Authority of India (“NHAI”), Grantor, over the concession period. Such obligation has been recognised on a discounted basis as ‘Intangible assets – License to Toll Collection’ and corresponding obligation for committed premium is recognised as liabilities.

- Other Intangible assets

Intangible assets are recognized when it is probable that future economic benefits attributable to the assets will flow to the Group and the cost of the asset can be measured reliably. Such Intangible Assets acquired by the Group are measured at cost less accumulated amortisation and any accumulated impairment losses. Cost includes expenditure that is directly attributable to the acquisition and installation of such assets.

Amortisation

The intangible rights which are recognised in the form of right to charge users of the infrastructure asset are amortized by taking proportionate of actual revenue received for the year over Total Projected Revenue from project to Cost of Intangible assets i.e. proportionate of actual revenue earned for the year over Total Projected Revenue from the Intangible assets expected to be earned over the balance concession period as estimated by the management.

As required, total Projected Revenue reviewed by the management at the end of the each financial year and accordingly, the total projected revenue is adjusted to reflect any changes in the estimates which lead to the actual collection at the end of the concession period.

Right to collect tariff on Hydro project is amortised on a Straight Line basis over the concession period.

Amortisation on Software has been provided on the written down value method, as per the useful lives specified in Schedule II to the Companies Act, 2013.

9. Investment Properties

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are stated at cost less accumulated depreciation and impairment losses, if any.

The cost includes the cost of replacing parts and borrowing costs for long-term construction projects if the recognition criteria are met. When significant parts of the investment property are required to be replaced at intervals, the company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognised in profit or loss as incurred.

The group, based on technical assessment made by management, depreciates the building over estimated useful lives of 60 years. The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

Investment properties are derecognised either when they have been disposed of or when they are permanently withdrawn from use and no future economic benefit is expected from their disposal. The difference between the net disposal proceeds and the carrying amount of the asset is recognised in profit or loss in the period of derecognition.

10. Impairment of Non-Financial Assets

Assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use.

11. Non-current assets held for sale

The Group classifies non-current assets and disposal groups as 'Held For Sale' if their carrying amounts will be recovered principally through a sale rather than through continuing use and sale is highly probable i.e. actions required to complete the sale indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn.

Non-current assets held for sale and disposal groups are measured at the lower of their carrying amount and the fair value less costs to sell. Assets and liabilities classified as held for sale are presented separately in the balance sheet.

Property, plant and equipment and intangible assets once classified as held for sale are not depreciated or amortised.

12. Financial instruments

Initial Recognition

Financial instruments i.e. Financial Assets and Financial Liabilities are recognised when the Group becomes a party to the contractual provisions of the instruments. Financial instruments are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial instruments (other than financial instruments at fair value through profit or loss) are added to or deducted from the fair value of the financial instruments, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial instruments assets or financial liabilities at fair value through profit or loss are recognised in profit or loss.

Financial Assets

Subsequent Measurement

All recognised financial assets are subsequently measured at amortized cost using effective interest method except for financial assets carried at fair value through Profit and Loss (FVTPL) or fair value through other comprehensive income (FVOCI).

- Equity investments in Subsidiaries and Joint Venture

The Group accounts for the investment in subsidiaries and joint ventures and other equity investments in subsidiary companies at cost in accordance with Ind AS 27 - 'Separate Financial Statements'.

Investment in Compulsory Convertible Debentures of subsidiary company is treated as equity investments, since they are convertible into equity shares of subsidiary.

Investments in debt instruments issued by subsidiary company are classified as "Other Equity Investments" if they meet the definition of equity.

Investment made by way of Financial Guarantee contracts in subsidiary, associate and joint venture companies are initially recognised at fair value of the Guarantee. They are not re-measured subsequently.

- Equity investments (other than investments in subsidiaries and joint venture)

All equity investments falling within the scope of Ind-AS 109 are mandatorily measured at Fair Value through Profit and Loss (FVTPL) with all fair value changes recognized in the Statement of Profit and

Loss.

The Group has an irrevocable option of designating certain equity instruments as FVOCI. Option of designating instruments as FVOCI is done on an instrument-by-instrument basis. The classification made on initial recognition is irrevocable.

If the Group decides to classify an equity instrument as FVOCI, then all fair value changes on the instrument are recognized in Statement of Other Comprehensive Income (SOI). Amounts from SOI are not subsequently transferred to profit and loss, even on sale of investment.

- Investment in preference shares

Investment in preference shares are classified as debt instruments and carried at Amortised cost if they are not convertible into equity instruments and are not held to collect contractual cash flows. Other Investment in preference shares which are classified as Debt instruments are carried at FVTPL.

Investment in convertible preference shares of subsidiaries and Joint Venture companies are treated as equity instruments and carried at cost. Other Investment in convertible preference shares which are classified as equity instruments are mandatorily carried at FVTPL.

- Financial Assets Under Service concession Arrangements (Appendix C of “Ind AS 115 – Revenue from Contracts with Customers)

The Group constructs or upgrades infrastructure (construction or upgrade services) used to provide a public service and operates and maintains that infrastructure (operation services) for a specified period of time. These arrangements may include infrastructure used in a public-to-private service concession arrangement for its entire useful life.

The Group recognises the considerations given by the grantor i.e. National Highway Authority of India (‘NHAI’) in accordance with Appendix C-‘Service Concession Arrangements’ of Ind AS 115- ‘Revenue from Contracts with Customers’. The Group recognises a financial asset to the extent that it has an unconditional contractual right to receive cash or another financial asset from or at the direction of the grantor of the contract for the construction services; the grantor has little, if any, discretion to avoid payment, usually because the agreement is enforceable by law.

- De-recognition

A financial asset is primarily derecognized when the rights to receive cash flows from the asset have expired, or the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a pass-through arrangement; and with that a) the Group has transferred substantially all the risks and rewards of the asset, or b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

- Impairment of financial assets

The Group assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Group recognises lifetime expected losses for all trade receivables and/or contract assets that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

Financial Liabilities

Classification

Financial liabilities and equity instruments issued by the Group are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Subsequent measurement

Loans and borrowings are subsequently measured at amortised cost using Effective Interest Rate (EIR), except for financial liabilities at fair value through profit or loss. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. Amortisation arising on unwinding of the financial liabilities as per EIR is included as a part of Finance Costs in the Statement of Profit and Loss.

Financial liabilities recognised at FVTPL, including derivatives, are subsequently measured at fair value.

- Compound financial instruments

Compound financial instruments issued by the Group is an instrument which creates a financial

liability on the issuer and which can be converted into fixed number of equity shares at the option of the holders.

Such instruments are initially recognised by separately accounting the liability and the equity components. The liability component is initially recognised at the fair value of a comparable liability that does not have an equity conversion option. The equity component is initially recognised as the difference between the fair value of the compound financial instrument as a whole and the fair value of the liability component. The directly attributable transaction costs are allocated to the liability and the equity components in proportion to their initial carrying amounts.

Subsequent to initial recognition, the liability component of the compound financial instrument is measured at amortised cost using the effective interest method. The equity component of a compound financial instrument is not re-measured subsequently.

- Financial guarantee contracts

Financial guarantee contracts are initially recognised as a liability at fair value. The liability is subsequently measured at carrying amount less amortization or amount of loss allowance determined as per impairment requirements of Ind AS 109, whichever is higher. Amortisation is recognised as finance income in the Statement of Profit and Loss.

- De-recognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously.

Re-classification of financial instruments

The Group determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets, such as equity instruments designated at FVTPL or FVOCI and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets.

13. Cash dividend and non-cash distribution to equity holders

The Group recognises a liability to make cash or non-cash distributions to its equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Group. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

Non-cash distributions are measured at the fair value of the assets to be distributed with fair value re-measurement recognised directly in equity.

Upon distribution of non-cash assets, any difference between the carrying amount of the liability and the carrying amount of the assets distributed is recognised in the statement of profit and loss.

Dividends paid/payable are recognised in the year in which the related dividends are approved by the Shareholders or Board of Directors as appropriate.

14. Earnings per share

The Group's Earnings per Share ('EPS') is determined based on the net profit attributable to the shareholders' of the Group.

Basic earnings per share is calculated by dividing the profit from continuing operations and total profit, both attributable to equity shareholders of the Group by the weighted average number of equity shares outstanding during the period.

Diluted earnings per share is computed using the weighted average number of common and dilutive shares outstanding during the year including share based payments, except where the result would be anti-dilutive.

15. Revenue recognition

A) Revenue

Revenue from contracts with customers is recognised when control of the goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services. The Company has generally concluded that it is the principal in its revenue arrangements, except for the agency services below, because it typically controls the goods or services before transferring them to the customer.

- **Revenue Recognition under Service Concession Arrangements**

In case of entities involved in construction and maintenance of Roads, revenue are recognised in line with the Appendix C to Ind AS 115 – Revenue from Contracts with Customers. The revenue is recognized in the period of collection which generally coincide as and when the traffic passes through toll plazas.

- **Revenue from construction contracts.**

Performance obligation in case of long - term construction contracts satisfied over a period of time, since the Group creates an asset that the customer controls as the asset is created and the Group has an enforceable right to payment for performance completed to date if it meets the agreed specifications.

Revenue from long term construction contracts, where the outcome can be estimated reliably and 5% of the project cost is incurred, is recognized under the percentage of completion method by reference to the stage of completion of the contract activity.

The stage of completion is measured by input method i.e. the proportion that costs incurred to date bear to the estimated total costs of a contract. The percentage-of-completion method (an input method) is the most faithful depiction of the Group's performance because it directly measures the value of the services transferred to the customer.

The total costs of contracts are estimated based on technical and other estimates. In the event that a loss is anticipated on a particular contract, provision is made for the estimated loss. Contract revenue earned in excess of billing is reflected under as "contract asset" and billing in excess of contract revenue is reflected under "contract liabilities".

Retention money receivable from project customers does not contain any significant financing element, these are retained for satisfactory performance of contract.

In case of long - term construction contracts payment is generally due upon completion of milestone as per terms of contract. In certain contracts, short-term advances are received before the performance obligation is satisfied.

The major component of contract estimate is "budgeted cost to complete the contract" and on assumption that contract price will not reduce vis-à-vis agreement values. While estimating the various assumptions are considered by management such as:

- Work will be executed in the manner expected so that the project is completed timely;
- Consumption norms will remain same;
- Cost escalation comprising of increase in cost to complete the project are considered as a part of budgeted cost to complete the project etc.

Due to technical complexities involved in the budgeting process, contract estimates are highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

- **Service contracts.**

For service contracts (including maintenance contracts) in which the Group has the right to consideration from the customer in an amount that corresponds directly with the value to the customer of the Group's performance completed to date, revenue is recognized when services are performed and contractually billable. For all other service contracts, the Group recognizes revenue over time using the cost-to-cost percentage-of-completion method. Service contracts that include multiple performance obligations are segmented between types of services. For contracts with multiple performance obligations, the Group allocates the transaction price to each performance obligation using an estimate of the stand-alone selling price of each distinct service in the contract.

When it is probable that total contract costs will exceed total contract revenue, expected loss, if any, on a contract is recognised as expense in the period in which it is foreseen, irrespective of the stage of completion of the contract.

- **Variable consideration.**

The nature of the Group's contracts gives rise to several types of variable consideration, including claims and unpriced change orders; award and incentive fees; change in law; and liquidated damages and penalties. The Group

recognizes revenue for variable consideration when it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur. The Group estimates the amount of revenue to be recognized on variable consideration using the expected value (i.e., the sum of a probability-weighted amount) or the most likely amount method, whichever is expected to better predict the amount.

The Group's claim for extra work, incentives and escalation in rates relating to execution of contracts are recognized as revenue in the year in which said claims are finally accepted by the clients. Claims under arbitration/disputes are accounted as income based on final award. Expenses on arbitration are accounted as incurred.

Before including any amount of variable consideration in the transaction price, the Group considers whether the amount of variable consideration is constrained. The Group determined that the estimates of variable consideration are not constrained based on its historical experience, business forecast and the current economic conditions. In addition, the uncertainty on the variable consideration will be resolved within a short time frame.

- **Warranties Obligation.**

The Company provides for contractual obligations to periodically service, repair or rectify any defective work during the defect liability period as well as towards contractual obligations to restore the infrastructure at periodic intervals. Provisions are measured based on management's estimate required to settle the obligation at the balance sheet date and are discounted using a rate that reflects the time value of money. When discounting is used, the increase in the provision due to the passage of time is recognized as finance cost. The same is reviewed at each balance sheet date and adjustments if any to the carrying amount is provided for accordingly.

In case of service concession arrangement classified as financial assets, expenses recognized in the period in which such costs are actually incurred.

- **Annuity Income under Service Concession Arrangements**

Revenue from annuity based projects is recognised in the Statement of Profit and Loss over the concession period of the

respective projects based on the implicit rate of return embedded in the projected cash flows. Such income is duly adjusted for any variation in the amount and timing of the cash flows in the period in which such variation occurs.

- **Sale of Goods**

Revenue from sale of goods is recognised at the point in time when control of the asset is transferred to the customer, generally on delivery of the goods.

Sale of Natural Gas is recognized on supply of gas to customers by metered/assessed measurements as no significant uncertainty exists regarding the measurability or collectability of the sale consideration. Revenue on sale of Compressed Natural Gas (CNG) is recognized on sale of gas to consumers from retail outlets.

- Income from share of profit/loss in partnership firm / Limited liability partnerships is recognised only when the profit/income is ascertained and there is certainty as to amount of income.

- Interest income is recognized on a time proportion basis, by reference to the principal outstanding and the applicable EIR.

- Dividend is recognised when the Group's right to receive the payment is established.

- **Sale of real estate units**

Revenue is recognised when the company satisfies the performance obligation of transferring a promised good or service to its customers. A good or service is considered to be transferred when or as the customer obtains control over it. Revenue is recognised for an amount that reflects the consideration which the Company expects to receive in exchange for those products or services, except in case of variable consideration which reassess at each reporting date.

In case of sale of development rights, sale of land etc. performance obligation is considered to be satisfied at the time of transfer of property and execution of necessary deeds. Accordingly, sale is recognised at a point in time.

Revenue is measured based on the transaction price, which is the consideration, adjusted for price variation, if any, as specified in the contract with the customer. Further, in case the amount of consideration is highly susceptible to factors outside the Companies' influence & if the amount of consideration is uncertain for a longer time period, being variable consideration, the revenue is considered to be the carrying amount of asset transferred & balance consideration is reassess at each reporting date on the basis of which revenue is measured.

In accordance with Ind AS 37, the group recognises an onerous contract provision when the unavoidable costs of meeting the obligations under a contract exceed the economic benefits to be received.

In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

The Company enters into a transaction with a joint operation in which it is a joint operator, such as a sale or contribution of assets, it is conducting the transaction with the other parties to the joint operation and, as such, the Company recognise gains and losses resulting from such a transaction only to the extent of the Companies' interests in the joint operation when the good or service is considered to be transferred or as the customer obtains control over it.

Revenue for such arrangements is measured based on the transaction price, which is the consideration of share in the joint operation as specified in the contract with the customer.

B) Contract Balances

Contract Assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Group performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract

asset is recognised for the earned consideration that is conditional.

Contract assets represent revenue recognized in excess of amounts billed and include unbilled receivables. Unbilled receivables, which represent an unconditional right to payment subject only to the passage of time, are reclassified to accounts receivable when they are billed under the terms of the contract.

Trade Receivables

A receivable represents the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due). Refer to accounting policies of financial assets in point 11 of Accounting Policies – Financial Instruments.

Receivable under Service Concession Arrangements

The group constructs or upgrades infrastructure (construction or upgrade services) used to provide a public service and operates and maintains that infrastructure (operation services) for a specified period of time. These arrangements may include infrastructure used in a public-to-private service concession arrangement for its entire useful life.

The group recognises the considerations given by the grantor or other government bodies in accordance with Appendix C- 'Service Concession Arrangements' of Ind AS 115- 'Revenue from Contracts with Customers'. The Group classifies the Contract Asset as financial asset to the extent that it has an unconditional contractual right to receive cash. As per Service Concession Arrangement the financial assets needs to be recognised in accordance with Ind AS 109. Ind AS 109 requires a financial asset to be measured at its fair value and any difference between the initial measurement of the financial asset in accordance with Ind AS 109 and the contract asset recognised under Ind AS 115 to be presented as an expense.

Contract Liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognised when the payment is made, or

the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Group performs under the contract.

Contract liabilities includes unearned revenue which represent amounts billed to clients in excess of revenue recognized to date and advances received from customers. For contracts where progress billing exceeds, the aggregate of contract costs incurred to date plus recognised profits (or minus recognised losses, as the case may be), the surplus is shown as contract liability and termed as unearned revenue. Amounts received before the related work is performed are disclosed in the balance sheet as contract liability and termed as advances received from customers.

16. Inventories

Inventory of Raw Materials, Stores and spares and land are valued at cost or net realizable value whichever is lower. Cost includes all non-refundable taxes and expenses incurred to bring the inventory to present location. Cost is determined using weighted average method of valuation.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

17. Borrowing costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale.

- **Borrowing cost under Service Concession Arrangements**

Borrowing costs attributable to the construction of qualifying assets under service concession arrangement classified as intangible asset, are capitalised to the date of its intended use.

Borrowing costs attributable to concession arrangement classified as financial assets are charged to Statement of Profit and Loss in the period in which such costs are incurred.

- Other borrowing costs are charged to Statement of Profit and Loss in the period in which they are incurred.

18. Provisions & Contingencies

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events for which it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated as at the balance sheet date. Provisions are measured based on management's estimate required to settle the obligation at the balance sheet date and are discounted using a rate that reflects the time value of money. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Other Litigation claims

Provision for litigation related obligation represents liabilities that are expected to materialise in respect of matters in appeal.

Onerous contracts

A provision for onerous contracts is measured at the present value of the lower expected costs of terminating the contract and the expected cost of continuing with the contract. Before a provision is established, the Group recognises impairment on the assets with the contract.

Contingencies

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but will probably not, require an outflow of resources. Information on contingent liabilities is disclosed in the notes to financial statements unless the possibility of an outflow of resources embodying economic benefit is remote.

A contingent asset is not recognised but disclosed in the financial statements where an inflow of economic benefit is probable.

19. Provision for Defect Liability Period (DLP) / Resurfacing obligations

The Group provides for contractual obligations to periodically service, repair or rectify any defective work during the defect liability period as well as towards contractual obligations to restore the infrastructure at periodic intervals. Provisions are measured based on management's estimate required to settle the obligation at the balance sheet date and are discounted using a rate that reflects the time value of money. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. The same is reviewed at each balance sheet date and adjustments if any to the carrying amount is provided for accordingly.

In case of service concession arrangements classified as financial assets, expenses recognised in the period in which such costs are actually incurred.

20. Leases

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i. Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease. Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis from the commencement date to the end of lease term.

If ownership of the leased asset transfers to the Company at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment. Refer to the accounting policies of Impairment of non-financial assets.

ii. Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable.

After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments or a change in the assessment of an option to purchase the underlying asset.

iii. Short term leases and leases of low value of assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment. It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Group as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

21. Taxes

Income tax expense for the period is the tax payable on the current period's taxable income based on the applicable income tax rate and changes in deferred tax assets and liabilities attributable to temporary differences. The current income tax charge is calculated in accordance with the provisions of the Income Tax Act 1961.

Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted at the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax liabilities are recognised for all taxable temporary differences and deferred tax assets are

recognised for all deductible temporary differences and brought forward losses only if it is probable that future taxable profit will be available to realise the temporary differences.

Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Minimum alternate tax (MAT) paid in a year is charged to the statement of profit and loss as current tax for the year. The deferred tax asset is recognised for MAT credit available only to the extent that it is probable that the Group will pay normal income tax during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Group recognizes MAT credit as an asset, it is created by way of credit to the statement of profit and loss and shown as part of deferred tax asset. The Group reviews the “MAT credit entitlement” asset at each reporting date and writes down the asset to the extent that it is no longer probable that it will pay normal tax during the specified period.

22. Employee benefits

Short-term obligations

All employee benefits falling due wholly within twelve months of rendering the service are classified as short term employee benefits. These are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

Post-employment obligations i.e.

- Defined benefit plans and
- Defined contribution plans.

Defined benefit plans:

The employees’ gratuity fund scheme, managed by Life Insurance Corporation (LIC) is a defined benefit plan. The present value of obligation is determined based on actuarial valuation carried out as at the end of each financial year using the Projected Unit Credit Method.

The obligation is measured at the present value of the estimated future cash flows. The discount rate used for determining the present value of the obligation under defined benefit plans, is based on the market yield on government securities, of a maturity period equivalent to the weighted average maturity profile of the related obligations at the Balance Sheet date.

Re-measurement, comprising actuarial gains and losses, the effect of the changes to the asset ceiling (if applicable) and the return on plan assets (excluding net interest), is reflected immediately in the balance sheet with a charge or credit recognised in other comprehensive income in the period in which they occur. Re-measurement recognised in other comprehensive income is reflected immediately in retained earnings and is not reclassified to profit or loss. Past service cost is recognised in the statement of profit or loss in the period of a plan amendment. Net interest is calculated by applying the discount rate at the beginning of the period to the net defined benefit liability or asset.

Defined contribution plans:

The Group’s contribution to provident fund, employee state insurance scheme, superannuation fund and National Pension Scheme (NPS) are considered as defined contribution plans and are charged as an expense as they fall due based on the amount of contribution required to be made and when services are rendered by the employee.

23. Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group’s cash management.

24. Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Chief Operating Decision Maker, who regularly monitors and reviews the operating result for following operating segments of the Group:

- i. Construction & Contract Related Activity
- ii. BOT
- iii. Sale of Goods

25. Amendment to Schedule III

Recent pronouncements:

On March 24, 2021, the Ministry of Corporate Affairs (“MCA”) through a notification, amended Schedule III of the Companies Act, 2013. The amendments revise Division I, II and III of Schedule III and are applicable from April 1, 2021. Key amendments relating to Division II which relate to companies whose financial statements are required to comply with Companies (Indian Accounting Standards) Rules 2015 are:

Balance Sheet

- a. Lease liabilities should be separately disclosed under the head ‘financial liabilities’, duly distinguished as current or non-current.
- b. Certain additional disclosures in the statement of changes in equity such as changes in equity share capital due to prior period errors and restated balances at the beginning of the current reporting period.
- c. Specified format for disclosure of shareholding of promoters.
- d. Specified format for ageing schedule of trade receivables, trade payables, capital work-in-progress and intangible asset under development.
- e. If a company has not used funds for the specific purpose for which it was borrowed from banks and financial institutions, then disclosure of details of where it has been used.
- f. Specific disclosure under ‘additional regulatory requirement’ such as compliance with approved schemes of arrangements, compliance with number of layers of companies, title deeds of immovable property not held in name of company, loans and advances to promoters, directors, key managerial personnel (KMP) and related parties, details of benami property held etc.

Statement of profit and loss

- a. Additional disclosures relating to Corporate Social Responsibility (CSR), undisclosed income and crypto or virtual currency specified under the head ‘additional information’ in the notes forming part of the standalone financial statements.

The amendments are extensive and the Company will evaluate the same to give effect to them as required by law.

A. Arbitration related to intangible asset under development

As per the Service Concession Agreement entered by one of the Subsidiary Company, it has assumed an obligation to construct the road amidst 7.944 km of Forest Area.

The Subsidiary has incurred costs amounting to ₹ 1,626.66 Lakhs towards the same. However, statutory clearance for the same is still awaited and construction is not completed as at the reporting date. The amount spent till date has been recognised under Intangible Assets under Development.

The Subsidiary has received favourable arbitration award against claims from NHAI, the arbitration award has been further challenged by NHAI in the High court, the management believes that, in view of the claims receivable by the subsidiary and the probability of claims being crystallized, the value of the intangible assets, including those included in the Intangible assets Under Development would be realised and no impairment provision is required.

B. On account of various restriction imposed by State, Central Government & District administrations due to Covid-19 since 22nd March 2020, NHAI vide Policy No. 8.3.33/2020 dated 26th May, 2020, has provided relief measures to BOT concessionaires by granting wavier from payment of premium liability and provided extension of toll collection period by number of days of which toll collection were suspended and additional number of days determined in proportion to the loss of toll collection during the period of partial toll collection i.e. daily collection is less than 90% of the average daily collection as defined in the said NHAI circular.

During the current year, in accordance with the said NHAI circular, the subsidiaries has determined the eligible period of extension in toll collection and filed the necessary claims with the NHAI including the waiver of the premium. Accordingly, the difference between the amount of premium waived and present value of premium payable during extension period has been adjusted against the value of License to collect toll (Intangible asset), which resulted in lower amortisation charge by ₹ 139.48 lakhs for the year.

- A. *Trade receivable includes dues from NHAI for utility shifting & ancillary work.
- B. As March 31, 2021, trade receivables has decreased on account of improved collection as compared to March 31, 2020, even though the operations of the Group has increased.
- C. Trade receivables are non interest bearing and are generally on terms of 30 to 90 days in case of sale of products and in case of long term construction contracts, payment is generally due upon completion of milestone as per terms on contract. In certain contracts, advances are received before the performance obligation is satisfied.
- D. The Group applies the expected credit loss (ECL) model for measurement and recognition of impairment losses on trade receivables and contract assets. The Group follows the simplified approach for recognition of impairment allowance on trade receivables and contract assets. The application of the simplified approach does not require the Group to track changes in credit risk. Rather, it recognizes impairment allowance based on lifetime ECLs at each reporting date. ECL

impairment loss allowance (or reversal) recognised during the period is recognised in the Statement of Profit and Loss. The amount is reflected under the head "Other expenses" in the Statement of Profit and Loss.

- E. Movement in expected credit loss allowances on trade receivables (non current and current) and contract assets.

Nature and purpose of Reserves

Securities Premium:

Securities Premium Reserve is used to record the premium on issue of shares and utilised in accordance with the provisions of the Companies Act, 2013.

General Reserve :

General Reserve is used from time to time to transfer profits from Retained Earnings for appropriation purposes. As the General Reserve is created by a transfer from one component of equity to another and is not an item of other comprehensive income, Items included in General Reserve will not be reclassified subsequently to statement of profit and loss.

Debenture Redemption Reserve :

The Company had created a Debenture Redemption Reserve at the time of issue of Non Convertible Debentures out of the profits which are available for payment of dividend to be utilised for Redemption of these Debentures. During the year ended 31st March 2020, the Company has redeemed all outstanding Non Convertible Debentures, and transferred the balance of Debenture Redemption Reserve to the General Reserve.

Retained Earning :

Retained Earning are the profit of the Group earned till date net of appropriation.

Other Reserve - NCI Reserves :

The Group recognizes gain / loss on changes in the proportion held / attributable by / to non controlling interests in equity and classifies the same in other reserves as NCI Reserves.

** In case of one of the subsidiary company i.e. Ashoka-DSC Katni Bypass Road Limited., the toll collection rights in pursuance to the Concession Agreement entered into with the Ministry of Road Transport & Highways (MORTH), Company was allowed to collect toll up to 16.09.2014, by issue of Notification dt. 22.02.2008. However, on account of various claims against MORTH, in relation to the project of Katni Bypass Road Project, decided in favour of Company by the Arbitral Tribunal, the Delhi High Court passed an interim Order on 12.09.2014, with respect to one of the claim amounts, being against Claim No. 3, permitting assessee to collect toll up to 22.02.2020, subject to certain terms & conditions (including the requirement relating to keeping of 50% of toll collection in FDR with the Bank, remaining in force till the Delhi High Court Order dt. 22.12.2017) & also subject to the decision of the Delhi High Court, on application by the MORTH u/s 34 of the Arbitration & Reconciliation Act. This toll collection period was further extended up to 18.03.2020, by the Order dt.19.02.2020 of the Director General (Road Development) & SS, MORTH, to reimburse the loss arising on account of demonetization, subject to the decision on the said application u/s 34 of the Arbitration & Reconciliation Act. Thereafter, by the Order dt. 12.03.2020 r.w. the Order dt. 04.03.2020 of the Delhi High Court, Company is now permitted to continue toll collection after 18.03.2020, with respect to another claim amount, being against Claim No. 1(c), subject to certain terms & conditions & subject to the decision on the said application u/ 34.

In Other similar case, i.e. Dewas Bypass Project, which is another subsidiary company of the Group, the subsidiary company has won arbitration award for various claims which has been disputed by the Public Works Department, Dewas before the District court of Dewas. Since the award is disputed, it is not recognised in books of accounts.

Further, in this matter, prior to the finalization of aforesaid award, the High Court of Madhya Pradesh had allowed the extension of 182 days to collect the toll to the subsidiary company. The said extension was expired in previous years, and is now merged with the aforesaid appeal of the Public Works Department, against the arbitration award before the District Court of Dewas. Since, the outcome of the said matter is still awaited, the amount comprising of Toll Revenue and interest on investment as at the balance sheet date is shown as liability and not recognised as an income and corresponding assets are reduced.

In another similar case i.e. Ashoka Infrastructure limited, which is another subsidiary of the group, the Toll collection has been discontinued at the directive of the Authority in AIL. AIL has initiated arbitration proceeding towards such discontinuance against which AIL has received favourable arbitration awards towards its claims from Government of Maharashtra amounting to ₹ 24,980.85 lakhs in earlier years which has been challenged by State Government and it is currently pending at court level.

47 Capital Management

The primary objective of the Group's capital management is to maximise the shareholder value. For the purpose of the Group's capital management, capital includes issued equity capital, share premium and all other equity reserves attributable to the equity holders of the Parent.

Debt is defined as long-term borrowings, current maturities of long-term borrowings, short-term borrowings and interest accrued thereon (excluding financial guarantee contracts).

Capital includes equity attributable to the equity holders to ensure that it maintains an efficient capital structure and healthy capital ratios in order to support its business and maximise shareholder value. The Group manages its capital structure and makes adjustments to it, in light of changes in economic conditions or its business requirements. To maintain or adjust the capital structure, the Parent may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the period ended March 31, 2021 and March 31, 2020.

- Investments included in Level 2 of Fair Value Hierarchy have been valued based on inputs from banks and other recognised institutions such as FIMMDA/FEDAI.
- Investments included in Level 3 of Fair Value Hierarchy have been valued using acceptable valuation techniques such as Net Asset Value and/or Discounted Cash Flow Method.

Note: All financial instruments for which fair value is recognised or disclosed are categorised within the fair value hierarchy described as above, based on the lowest level input that is significant to the fair value measurement as a whole.

50 Financial risk management objectives and policies

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities.

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework.

The Group has exposure to the following risks arising from financial instruments:

- (A) Credit risk:
- (B) Liquidity risk: and
- (C) Market risk:

Abhijeet Ashoka Infrastructure Private Limited.

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and loans and advances.

The Group's customer profile include public sector enterprises, state owned companies, group entities, individual and corporates customer. General payment terms include mobilisation advance, monthly progress payments with a credit period ranging from 45 to 90 days and certain retention money to be released at the end of the project. In some cases retentions are substituted with bank/corporate guarantees. The Group has a detailed review mechanism of overdue customer receivables at various levels within organisation to ensure proper attention and focus for realisation.

Credit risk on trade receivables and unbilled work-in-progress is limited as the customers of the Group mainly consists of the government promoted entities having a strong credit worthiness. The provision matrix takes into account available external and internal credit risk factors such as companies historical experience for customers.

The exposure to credit risk for trade and other receivables by type of counterparty was as follows :

Investments & Loan

Investments (other than investment in mutual funds) & Loan are with only group companies in relation to the project execution, hence the group believes exposure to credit risk to be minimal.

(B) Liquidity Risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities. The Group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

The Group manages liquidity risk by maintaining sufficient cash and marketable securities and by having access to funding through an adequate amount of committed credit lines. Management regularly monitors the position of cash and cash equivalents vis-à-vis projections. Assessment of maturity profiles of financial assets and financial liabilities including debt financing plans and maintenance of Balance Sheet liquidity ratios are considered while reviewing the liquidity position.

The Group's maximum exposure relating to financial guarantees and financial instruments is noted in note no. 26, 27, 28, 29, 34, 35, 36 and the liquidity table below:

(C) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk:

1. Currency risk
2. Interest rate risk
3. Other price risk such as Commodity risk and Equity price risk.

1. Currency risk

The Group has several balances in foreign currency and consequently the group is exposed to foreign exchange risk. The exchange rate between the rupee and foreign currencies has changed substantially in recent years, which has affected the results of the Group, and may fluctuate substantially in the future. The Group evaluates exchange rate exposure arising from foreign currency transactions and follows established risk management policies.

2. Interest Rate Risk

As infrastructure development and construction business is capital intensive, the group is exposed to interest rate risks. The Group's infrastructure development and construction projects are funded to a large extent by debt and any increase in interest expense may have an adverse effect on our results of operations and financial condition. The group current debt facilities carry interest at variable rates with the provision for periodic reset of interest rates. As of March 31, 2021, the majority of the group indebtedness was subject to variable/fixed interest rates.

The interest rate risk exposure is mainly from changes in floating interest rates. The interest rate are disclosed in the respective notes to the financial statement of the group. The following table analyses the breakdown of the financial assets and liabilities by type of interest rate:

52 Leases**Disclosures pursuant to Ind AS 116 "Leases"**

The Group also applied the available practical expedients wherein it:

- Used a single discount rate to a portfolio of leases with reasonably similar characteristics
- Relied on its assessment of whether leases are onerous immediately before the date of initial application
- Applied the short-term leases exemptions to leases with lease term that ends within 12 months of the date of initial application
- Excluded the initial direct costs from the measurement of the right-of-use asset at the date of initial application
- Used hindsight in determining the lease term where the contract contained options to extend or terminate the lease

The Group has lease contracts for various items of plant, machinery, land, building, vehicles and other equipment used in its operations. Leases of land generally have lease terms between 1 to 80 years, while Building, Plant and machinery, motor vehicles and other equipment generally have lease terms between 1 and 5 years. Generally, the Group is restricted from assigning and subleasing the leased assets.

The Group has elected not to apply the requirements of Ind AS 116 to short term leases of all the assets that have a lease term of twelve months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight line basis over the lease term.

The Group had total cash outflows for leases of ₹ 581 Lakhs in 31 March 2021, (Previous year ₹ 1,020.14 Lakhs)

Refer Note 2A for additions to right-of-use assets and the carrying amount of right-of-use assets as at March 31, 2021

The effective interest rate for lease liabilities is 9% to 13%

The maturity analysis of lease liabilities are disclosed in Note 52 (B).

d	Unconditional Bank Gurantee to Madhya Pradesh Road Development Corporation Limited	425.71	425.71
	Total	19,077.21	23,258.63

- A) The Group does not expect any outflow of economic resources in respect of the above and therefore no provision is made in respect thereof.
- B) **Provident Fund (PF) Matter :-** During the year 2010-11, the Regional Provident Fund Commissioner, Nashik (RPFC) initiated an enquiry against the Company for determination of provident fund dues from August 2003 to September 2005 basis the report of enquiry officer which assessed the dues to be ₹ 3,573.64 lakhs. The Company had submitted its responses along with necessary supporting documents to RPFC. Subsequently, the Company was instructed to submit documents related to the matter to another enquiry officer appointed by RPFC. After submission of necessary documents by the Company, no demand has been assessed and raised by RPFC till date.
- Basis on the responses filed, correspondences with RPFC and legal opinion obtained during the year, the Company is of the view that the likelihood of ascertainment of any liability is remote and accordingly, the same has not been considered as contingent liability as at March 31, 2021."
- C) **Provident Fund (PF) Supreme Court Matter:-** There are many interpretative issues relating to the Supreme Court (SC) judgement dated February 28, 2019 on PF as regards definition of PF wages and inclusion of certain allowances for the purpose of PF contribution, as well as effective date of its applicability. Having consulted and evaluated impact on its financial statements, the Company has implemented the changes as per clarifications vide the SC judgement dated February 28, 2019, with effect from March 1, 2019 i.e. immediate after pronouncement of the judgement, as part of statutory compliance. The Company will evaluate its position and act, in case there is any other interpretation of the same issues in future.
- D) During the year ended March 31, 2018, pursuant to the search proceedings carried out in April 2016, the Company had received income tax assessment orders under section 153A for the financial year 2010-11 to 2016-17. Income tax authorities had disallowed certain sub-contractors payments by treating them as not genuine. The Company had the underlying documents to substantiate the genuineness of the work performed by these sub-contractors and no incriminating documents were found during the search proceedings. Accordingly, the Company had filed appeals against these assessment orders before the first appellate authority. Accordingly, as the outcome of the appeal is pending, additional tax payable for these years amounting to ₹ 5,385 Lakhs (including interest) is treated as contingent liability.

- E) In the case of Ashoka Infrastructure Limited., a subsidiary company, for AY 2011-12 & 2012-13, the income declared in the returns submitted is accepted in the completed assessments. However, for AY 2013-14 to AY 2017-18, income declared in the returns submitted is accepted except with reference to the legal issue of allowing depreciation on Intangible Asset i.e 'Right to collect toll'. For AY 2013-14 to AY 2016-17, amortisation allowed by the AO is in excess of depreciation claimed by the company. Since the said adjustment to the returned income does not have any adverse effect on the tax liability of company & as the subsidiary company cannot be said as aggrieved by such assessment orders, the subsidiary company has not preferred appeals against the assessment orders for AY 2013-14 to 2016-17. However, for AY 2017-18, the subsidiary company had filed appeal against the assessment order of the AO, disputing the disallowance of depreciation on intangible asset, before the CIT(A). The same is pending.
- F) In case of one of the Subsidiary company of the Group, Unison Enviro Private Limited, As per authorisation terms and conditions of the Petroleum and Natural Gas Regulatory Board ('PNGRB'), the subsidiary is required to meet Minimum Work Programme (MWP) targets specified in authorization granted. If those targets are not achieved, PNGRB can levy penalty from the Company.

The subsidiary is yet to achieve the MWP targets in the authorised geographical areas. Basis internal assessment, the management is of the view that it will be able to achieve the MWP targets as per updated catch up plan and is of the view that there will be no penalty levied by the PNGRB. Accordingly, no provision is deemed necessary as at March 31, 2021.

58 Other Disputes

- A) Service tax Matter :- During the year, the Company has received a show cause cum demand notice of ₹ 52,408.81 lakhs for service tax on difference between the turnover of services as per Value Added Tax returns and Service tax returns for financial year 2015-16 filed by the Company. The management based on legal evaluation believes there is no demand payable and also the likelihood of the liability is remote and accordingly this has not been considered as contingent liability as at March 31, 2021.
- B) During the year one of the subsidiary Ashoka Dhakuni Kharagpur Tollway Limited, has received demand notice from National Highway Authority of India (NHAI) of ₹15,634 lakhs against Change of Scope work as per Service Concession Agreement. Subsidiary has submitted its response to the NHAI and the matter is now pending with conciliation committee. Based on the internal assessment and documentation submitted the management believes that outflow against the NHAI demand is not probable and accordingly no liability has been deemed necessary.
59. The Non-convertible Debentures (NCDs) issued by Ashoka Concessions Limited (Subsidiary of the Company), of ₹ 15,000 lakhs was due for redemption on April 24, 2022 as per Debenture Trust Deed (DTD). Pursuant to addendum to DTD dated September 17, 2019, the original interest reset was revised from February 25, 2021 to June 25, 2021. Subsequent to year-end, in accordance with the DTD, revised interest rate offered by the debenture holders was not accepted by the Group and accordingly the Group has intimated to redeem the debentures along with the accrued interest on the revised interest reset date. The Group is currently in process of evaluating options to redeem the existing debentures. Considering this is a non-adjusting subsequent event, the Group has continued to treat this as noncurrent liability as at March 31, 2021.

65 Significant accounting judgement, estimates and assumptions

The preparation of the Group's financial statements requires management to make judgements, estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimating uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Significant estimates in Application of Ind AS 115

The Group applied the following estimates that significantly affect the determination of the amount and timing of revenue from contracts with customers:

Project Revenue and Costs

The percentage-of-completion method places considerable importance on accurate estimates of the extent of progress towards completion and may involve estimates on the scope of deliveries and services required for fulfilling the contractually defined obligations. These significant estimates include total contract costs, total contract revenues, contract risks, including technical, political and regulatory risks, and other judgments. The Group re-assesses these estimates on periodic basis and makes appropriate revisions accordingly.

Determining method to estimate variable consideration and assessing the constraint

Before including any amount of variable consideration in the transaction price, the Group considers whether the amount of variable consideration is constrained. The Group determined that the estimates of variable consideration are not constrained based on its historical experience, business forecast and the current economic conditions. In addition, the uncertainty on the variable consideration will be resolved within a short time frame.

Other Significant Accounting judgements, estimates and assumptions

Taxes

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Group establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective domicile of the companies.

Significant management judgement is required to determine the amount of deferred tax assets (including MAT credit) that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Service Concession Arrangement

The Cash flow model indicates the cash flow to be generated over the project lifecycle. The key inputs of the model comprise of revenue inflows (Toll / annuity), expenses to incurred to earn the revenue, estimations on cost to build and maintain the asset, interest obligations based on financing pattern and other operational efficiencies. These inputs are based on circumstances existing and management judgement / assumption on the future expectations based on current situations. Judgements include management view on expected earnings in future years, changes in interest rates, cost inflation, government policy changes, etc. These input assumptions could affect the reported cash flow from the related assets and accordingly these assumptions are reviewed periodically.

Property, plant and equipment and Intangible Assets

Refer Note 1.B.c.7 for the estimated useful life of Property, plant and equipment. The carrying value of Property, plant and equipment and Intangible Assets has been disclosed in Note 2 and 4.

Amortisation of Intangible assets

The intangible assets which are recognized in the form of Right to collect toll are amortized by taking proportionate of actual revenue received for the year over Total Projected Revenue from project to Cost of Intangible assets. The estimation of total projection revenue requires significant assumption about expected growth rate and traffic projection for future. All assumptions are reviewed at each reporting date.

Fair value measurement of financial instruments

When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the DCF model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments.

Impairment of financial assets

The impairment provision for financial assets are based on assumptions about risk of default and expected loss rates. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the Group's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

Employee Benefit Plans

The cost of the defined benefit gratuity plan and other post-employment benefits are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The parameter most subject to change is the discount rate. In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation.

The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates for the respective countries.

Further details about gratuity obligations are given in Note 53

Impairment of Toll assets

Impairment exists when the carrying value of an asset or cash generating unit exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a DCF model. The cash flows are derived from the budget generally covering a period of the concession agreements using long terms growth rates and do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset's performance being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes. Further, the Group considers favourable arbitration awards towards its claim from various authorities in the impairment assessment of subsidiaries and associates on the basis of probability assessment.

Allowance for uncollectible trade receivables

Trade receivables do not carry interest and are stated at their nominal values as reduced by appropriate allowances for estimated irrecoverable amounts. Estimated irrecoverable amounts are based on the aging of the receivable balances and historical experiences. Individual trade receivables are written off when management deems them not be collectible.

68 Investment towards obligation in Subsidiary

Ashoka Concessions Limited (ACL), a subsidiary Group, had issued Compulsorily Convertible Debentures (CCD) to its investors and parent Group which has been classified as equity instrument in the separate financial statements of ACL. Simultaneously, the parent Group had agreed additional terms with the investors and assumed obligations towards investors which would be settled through the some portion of equity shares to be received from ACL on conversion of CCDs held by parent Group. This has been considered as a financial liability and measured at its fair value. The Fair Value as at March 31, 2021 and March 31, 2020 amounts to ₹ 1,52,600.00 Lakhs and ₹ 1,52,600.00 Lakhs respectively. The changes in the Fair Values year on year, have been classified under Finance Cost.

69 Management is considering divesting some of the investments in Road and HAM projects held by the Group. It is still under preliminary discussion and has not reached at a definitive stage about the identification of assets to be sold and terms and conditions for the same. The management does not have a reliable estimate on the time period in which the divestment could occur. Based on above factors, management has evaluated the criteria as per Ind AS 105, Non-current Assets held for Sale and Discontinued Operations, and is of the view that no assets should be considered as 'held-for-sale' at this stage.

70 PNG Tollways Limited ('PNG'), an associate of the Group, had terminated its service concession agreement with National Highways Authority of India ('NHAI') and claimed the terminated payment in 2016. Further, the majority partner had claimed shortfall funding from the Group for which arbitration proceeding were going on. During the previous year the said arbitration proceedings was completed and the Group was directed to make payment to majority partner amounting to ₹ 5,733 lakhs along with the interest. NHAI had settled the termination payment which was apportioned between the Group and majority partner after discharging the lender's obligation. Accordingly, the Group had recognised net amount payable to ₹ 1,649.03 lakhs in current year and ₹ 1,497.34 lakhs in previous year.

71 COVID Impact

The Group has assessed the possible effects that may result from COVID-19 in the preparation of these financial statements including recoverability of carrying amounts of financial and non-financial assets. The Group has also considered the possible impact on the cost to come for the construction projects on account of likely delays. Further, in certain projects, National Highway Authority of India (NHAI) has clarified that the escalation on account of change in Price Index Multiple would be basis of respective states' index as compared to central index applicable earlier. Accordingly, the Group has re-estimated the same for respective projects and resulting impact has been accounted in the current quarter including the likely increase in the cost to come on account after factoring delays, if any.

In developing assumptions relating to the possible future uncertainties in the economic conditions because of COVID-19, the Group has used internal and external sources of information up to the date of approval of these financial statements and expects that the carrying amount of the Group's assets will be recovered. The Group continues to monitor any material changes to the future economic conditions.

72 The Code on Social Security, 2020

The Code on Social Security 2020 ('Code') has been notified in the Official Gazette on 29th September, 2020. The Code is not yet effective and related rules are yet to be notified. Impact if any of the change will be assessed and recognized in the period in which said Code becomes effective and the rules framed thereunder are notified.

73 Events after reporting period

There were no significant adjusting events that occurred subsequent to the reporting period other than the events disclosed in the relevant notes.

74 Previous Year Comparatives
