Petrol price moves up further, diesel rate unchanged

New Delhi,

Global cues pushed petrol prices to increase again across the country on Saturday adding further pressure to the stretched budgets of consumers grappling with rising food prices amidst shrinking income.

However, unlike uniform price movement earlier, oil marketing companies on Saturday increased the pump price of petrol only and kept diesel rates unchanged offering some relief to the transport sector.

in the range of 30-40 paise per litre, while diesel prices remained unchanged. Before Saturday, oil marketing companies had kept fuel prices unchanged on Friday but had effected increases for both petrol and diesel on Thursday.

production cut in line with growing demand. In the city of Mumbai, where petrol prices crossed Rs 100 mark for the first time ever on May 29, the fuel price reached new high of Rs 107.85 per litre on Saturday. Diesel prices in the city is also at Rs 97.45, the highest among metros.

metros have now crossed Rs 100 per litre mark and OMC officials said that if international oil prices continue to firm up, rates may rise further.

With Saturday's price hike, fuel prices have now increased on 41 days and remained unchanged on 37 days since May 1. The 41 increases have taken up petrol prices by Rs 11.44 per litre in Delhi. Similarly, diesel has increased by Rs 9.14 per litre in the national capital.

Q1FY22 earnings ignites interest in L-Caps; markets' seen rising

By Rohit Vaid

Mumbai,

Healthy quarterly earnings season along with foreign fund inflows are expected to push India's equity markets higher during the upcoming week.

Accordingly, market observers, opined that healthy earnings announced till now have ignited investors' interest in largecaps and expanded volumes.

Lately, Infosys and Wipro have come out with encouraging quarterly numbers.

In the upcoming week companies such as ACC, HCL Tech, Asian Paints, Bajaj Finance, Bajaj Auto, HUL, JSW Steel, IICI Bank and ITC are expected to come out with their quarterly numbers.

"Indices could continue to edge upwards in the coming week which is a truncated week with a holiday on Wednesday," said Deepak Jasani- Head of Retail Research at HDFC Securities.

"Retail investors could do a bit of reshuffling from the smallcaps into mid and largecaps." Last week, India's equity markets touched new record highs supported by

positive US Fed statement and encouraging macro economic data points.

However, rising Covid cases globally continue to instil caution in investors' sentiments. "Q1FY22 earnings season has started off on a strong note and is providing support to the market. Since restrictions this time around was localised and less stringent versus the lockdown in CY20, the impact in 1QFY22 seems to be contained," said Siddhartha Khemka, Head - Retail Research, Broking & Distribution, Motilal Oswal Financial Services.

"We expect earnings momentum to accelerate in FY22 as the pace of

vaccinations picks up and the economy opens up further."

Besides, sector-specific buying in IT, Pharma, and Realty have accelerated in anticipation of strong quarterly earnings. "We expect this sector-specific momentum to continue through the weeks ahead," said Geojit Financial Services' Head of Research Vinod Nair.

"However, lackluster global market and FIJ net sellers are likely to increase volatility in the market." According to Joseph Thomas, Head of Research, Emkay Wealth Management.
