## MANAGEMENT DISCUSSION AND ANALYSIS REPORT

### 1. Overview:

The objective of this report is to convey the Management's perspective on the external environment and steel industry, as well as strategy, operating and financial performance, material developments in human resources and industrial relations, risks and opportunities and internal control systems and their adequacy in the Company during the financial year 2020-21. This report should be read in conjunction with the Company's financial statements, the schedules and notes thereto and other information included elsewhere in the Integrated Report. The Company's financial statements have been prepared in accordance with Indian Accounting Standards ('Ind AS') complying with the requirements of the Companies Act, 2013, ('Act') and regulations issued by the Securities and Exchange Board of India ('SEBI'), each as amended from time to time.

### 2. Macroeconomic condition and Economic Outlook:

Global Economic condition witnessed sharp downfall of growth during the year 2020-21 as governments in both developed and emerging economies took measures to contain the spread of the COVID-19 virus.

The accelerating rollout of COVID-19 vaccines in many advanced economies has set the stage for rapid recovery. Global economy is expected to recover to its pre-pandemic level of output in 2022-23, the emerging-market and developing economies are expected to take until 2023-24 to recover to the pre-pandemic level.

### 3. Indian Economy:

India witnessed a gradual resumption of economic activity in recent past. The initial recovery was driven by government spending on infrastructure, exports and rural economy. The recovery gained momentum since August 2020. However, the growth projections for FY 2021-22 have been revised to be below 11% due to the acute resurgence of the virus in the country, as many cities and states went into lockdown. While the growth will depend upon the trajectory of the pandemic, the overall impact on the economy is expected to be less severe than last year.

However, emerge of second wave of COVID – 19 pandemic and local lockdowns announced by various state governments from time to time from March 21 will have further adverse impact on the Indian economic in general and on the Company in particular during the FY 22.

India is expected to witness a full economic recovery FY 2022-23 driven by (a) ongoing vaccination supporting the current recovery momentum; (b)

restart of investment cycle with significant spending on infrastructure and (c) continued recovery in consumption supported by urban demand.

### 4. Industry Structure and developments:

India's steel industry has also suffered the production loss due to lockdown last year and recovered gradually since then, initially driven by export followed by gradual recovery in domestic demand. It has been witnessed that Steel & Wire Manufacturing Industry is growing very fast. The demand of wires rope is expected to increase in the years to come. Steel Wire Rope industry in India has prospered owing to growth in infrastructure activities and demand in industrial sector. The primary growth drivers for steel wire ropes in India have been infrastructure development, increased industrial activity, enhanced emphasis on shipping and port sector along with growth in the mining industry. The resurgence in the Oil and Gas industry is expected to increase the number of oil rigs which will further add impetus to the growth of steel wire rope industry.

### 5. Our Business:

Wire ropes are a value-added product, formed from wire rods, which falls in the long steel category of steel products. Over the years, with significant improvement in the strength of steel wire ropes manufactured, the usage of these steel wire ropes has significantly increased in various diverse applications.

Wire rope consists of several strands of metal wire laid (twisted) into a helix. The term "cable" is often used interchangeably with "wire rope". Bharat Wire Ropes Limited ("the Company") is a leading steel wire rope manufacturing company established in the year 1986.

The Company has a diverse product mix which includes General Purpose Ropes, Fishing Ropes, Crane Ropes, Structural Ropes, Elevator Ropes, Mining Ropes, Oil & Gas Ropes & Shipping Ropes. In addition to the above Mechanically Spliced Slings, Hand Spliced Slings, Earth Wires, Stay Wires, Guy Wires and Spiral Strands. The Company caters to a rich mix of clients ranging from Overseas Consumers, Private Players, the entire Indian Defense Segment and Government and Semi – Government Organizations. Providing service to a variety of clients has helped the company develop versatility which makes it better equipped to handle diverse / heterogeneous kinds of enquiries.

Bharat Wire Ropes has a well-diversified customer base from different industries including oil & gas, mining, fishing, ports & marine, elevator, power transmission, railways, construction, infrastructure, defense, crane manufacturers, among others.

## 6. Segment-wise or Product-wise performance:

The Company believes that its ability to cater a wider customer base on account of its diversified product offering has enabled the Company to provide customization options to its valued customers. To further strengthen the Company's product mix, efforts have been made to focus on productivity & right mix of orders to load and occupy the maximum number of machines with large order quantity niche sectors for providing wire ropes such as special ropes, suspension bridge ropes. The Company believes that its ability to provide a mix of products along with being active in the volume segments has helped in balancing the Company's revenues

## 7. Business Strategy:

### A. Expansion of Company's presence in the domestic markets:

The Company is undertaking various marketing activities to expand and enhance its presence in the existing business segments by identifying markets where it can provide cost effective, technically advanced products to its clients. The Company envisages to have close contacts with major buyers and stockists, end-users to provide greater client-interfacing. Further, the Company has successfully been awarded and it has certified product approvals/registrations from BIS for steel wire ropes and strands etc., and with major engineering consultants and equipment suppliers

### B. Focus on development of international markets for the Company's Products:

The Company's products are being supplied to approx 50 countries globally in European and Scandinavian Countries, Newzealand, African and the Middle Eastern markets, South East Asia, West Asia, Latin America and North America. With continued thrust to expand the company is developing Latin American market

### C. Strengthening of product portfolio and developing capabilities to manufacture a wider range of products:

The company has strengthen the product portfolio by developing capabilities to manufacture a wider range of products. To provide quality product at reasonable prices has always been the ultimate aim of the Company. The Company manufacture all wires at its new plant in Chalisgaon, thereby eliminating the dependency on the limited types of wires available in the market and enabling the Company to manufacture and offer an increased range of wire rope products, including but not limited to marketing high performance crane ropes for ports, large diameter spiral strands for structures and bridges, elevator ropes, high performance mining ropes, long-life-cycle

fishing ropes, onshore and offshore ropes, swaged ropes and special ropes for construction sector.

### D. Meeting Quality Standards and developing customer focus:

Providing quality products at reasonable price has always been the ultimate aim of the Company. The Company has in place the strategy which supports Total Quality Management. Company's technically qualified persons are determined to achieve the objective of zero defects and minimal rejection. The Company has testing facilities to ensure that all our products are thoroughly tested prior to dispatch from our factory so that grievances can be minimized.

#### Chalisgaon Plant:

Company has been accredited with ISO 9001, ISO 14001 and ISO 45000 certifications by TUV SUD South Asia Private Limited.

Company has achieved a major milestone by getting the approval of LLOYDS Register for the plant at Chalisgaon and approvals from Bureau of Indian Standards to put ISI mark on the products confirming to IS: 2266, IS:2365, IS: 4521, IS: 1835, IS: 1855, IS: 1856, IS: 10891 Part 1. It has also received approval from Powergrid Corporation of India Limited for manufacturing 7 strand G S Earth-wire." Company also has CE Certification for Chalisgaon Plant. Various approvals for Elevator industries are in place for supplies both in domestic and international markets

#### Atgaon Plant:

Company has been accredited with ISO 9001 certification by TUV SUD South Asia Private Limited for our Atgaon plant. Plant is approved by Central Organization Railway Electrification (CORE) for Stranded Galvanized Steel Anti-creep wire (19/2.50 mm) and also approved by Research Designs & Standards Organization (RDSO) for Stainless Steel Wire Rope for different Regulating Equipment's and Galvanized Stranded Wire for Traction Bond.

Plant has received approvals form Bureau of Indian Standards to put ISI mark on the products confirming to IS: 2266 & IS: 12776. It has also received Approval from Powergrid for manufacturing 7 strands & 19 Strands G S Earth-wire."

Atgaon Plant has received Works Approval Certificate from Indian Register of Shipping for Manufacturer of Steel Wire Ropes for Life Boat Fall used on ships.

## 8. Opportunities and Threats

Government's initiative of expanding infrastructure under various schemes, will increase the demand for wire ropes in future. Increasing urbanization in India and growth of nuclear families has led to increase in

residential development. This has further increased housing requirements, which will drive the demand for wire ropes. Rise in mining and quarrying sector will also augment the steel wire ropes in market in India.

The market for steel wire rope is at a matured stage, with a limited number of players dominating the market. Steel Wire ropes are used dynamically for lifting and hosting in applications, and for transmission of mechanical power. It has been anticipated that steel wire ropes production will meet the domestic market demand owing to year-on-year increase in production capacities of the companies.

The resurgence in the Oil and Gas industry is expected to increase the number of oil rigs which will further add impetus to the growth of steel wire rope industry. International customers have shown inclination to divert focus from China to India for procurement of wire ropes in view of recent political differences.

However, high debt levels of manufacturers and actual implementation of infrastructure projects remain a concern for the industry.

FY 2020-21 has begun with the COVID - 19 pandemic and gradually spreading across most parts of the world. The nationwide lockdowns to break the chain of transmission brought economic activities to a near halt, affecting the demand. Due to ongoing vaccination support and various steps taken by government the situation has started improving from May onwards.

## 9. Risks and Concerns

The Board of Directors regularly overview external and internal risks associated with the operations of the Company and carries out its impact assessment & effective implementation of the mitigation plans and risk reporting is conducted.

Growth of the sector is depended on the enlargement of allied sectors. Forecasted plans and projections are subject to risk. Various kinds of risk associated with the development are Liquidity Risk, Market Risk and Operational Risk. Other dominant threats faced by the Company are in the form of competition it faces in the industry. In particular, the Company competes with other wire rope manufacturing companies, both in India and abroad, on the basis of a number of factors, including but not limited to quality, time of delivery and price. Fluctuations in the price, availability and quality of raw materials used in our manufacturing process could have a material adverse effect on cost of sales or the Company's ability to meet customer demands. There can be no assurance that the Company will always be successful in its efforts to protect the business from the volatility of the market price of raw materials, and the business can be affected by dramatic movements in prices of raw materials.

Risk is the vital factor of every business. The Company has in place a Risk management Committee which outlines the amount of risk involved in the business and various techniques for risk mitigation & Risk minimization. The Company believes that managing risks helps in maximizing returns. The Company's approach for addressing business risks is comprehensive and includes identification of Risks, periodic review of such risks and measures to for mitigating such risks.

The outbreak of Corona virus (COVID-19) pandemic globally and in India is causing a significant disruption and slowdown of economic activity. Measures taken to contain the spread of the virus, including travel bans, quarantines, social distancing and closures of non-essential services and the uncertainty associated with the lifting or re-imposition of these restrictions, have further aggravated the business environment.

## INDEPENDENT AUDITORS' REPORT

**To the Members**  
**Bharat Wire Ropes Limited**

### Report on the Audit of the Financial Statements

#### Opinion

We have audited the accompanying financial statements of Bharat Wire Ropes Limited, (“the Company”) which comprise the Balance Sheet as at March 31, 2021, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as “the financial statements”).

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 (“the Act”) in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, (“Ind AS”) and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2021, the loss and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

#### Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

#### Emphasis of Matter

We draw attention to Note no. 46 of the statement, which states the impact of Coronavirus disease (COVID 19) on the operation and financial position of the Group.

Our opinion is not modified in respect of this matter.

#### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our

audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be the key audit matters to be communicated in our report.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Ind AS financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone Ind AS financial statements.

The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the

financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **Management's Responsibility for the Financial Statements**

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate,

they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Report on Other Legal and Regulatory Requirements.

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.

## Annexure - B to the Auditor's Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Bharat Wire Ropes Limited ("the Company") as of March 31, 2021 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

### Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial

controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

### **Meaning of Internal Financial Controls over Financial Reporting**

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles.

A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted

Accounting principles, and those receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the standalone financial statements.

### **Limitations of Internal Financial Controls over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2021, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

**SIGNIFICANT ACCOUNTING POLICIES AND NOTES FORMING PART OF ACCOUNTS  
FOR THE YEAR ENDED 31ST MARCH, 2021**

**1 GENERAL INFORMATION :**

Bharat Wire Ropes Limited (herein referred to as “BWRL” or “the Company”) is engaged in the business of production of Wire, Wire Ropes, Strands, and Slings.

The Company is Public Limited Company which is listed on National Stock Exchange (NSE) and Bombay Stock Exchange (BSE) and is incorporated and domiciled in India. The Address of the Registered Office is Plot No. 4, MIDC, Chalisgaon Industrial Area, Village –Khadki, Taluka – Chalisgaon, Jalgaon – 424 101, Maharashtra, India.

The financial statements were approved for issue by the Board of Directors on June 25, 2021.

**2 BASIS OF PREPARATION OF FINANCIAL STATEMENTS :**

**a) Basis of preparation and Compliance with Ind AS**

- (i) The financial statements of the Company comply with and have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended) as amended by the Companies (Indian Accounting Standards) (Amendment) Rules, 2016 and the relevant provisions of the Companies Act, 2013 (“the Act”).
- (ii) The financial statements of the Company comply in all material aspects with Indian Accounting Standards ('Ind AS') notified under Section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules, 2015 (as amended).
- (iii) For financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:
  - Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
  - Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
  - Level 3 inputs are unobservable inputs for the asset or liability.

**b) Basis of measurement**

The Ind AS Financial Statements have been prepared on a going concern basis using historical cost convention and on an accrual method of accounting, except for certain financial assets and liabilities, including derivative financial instruments which have been measured at fair value and defined benefit plans which have been measured at actuarial valuation as required by relevant Ind AS.

**c) Functional and presentation currency and rounding off**

These Ind AS Financial Statements are prepared in Indian Rupee which is the Company's functional currency. All financial information presented in Rupees has been rounded to the nearest lakhs.

**2A SIGNIFICANT ACCOUNTING POLICIES :**

The Company has applied the following accounting policies to all periods presented in the Ind AS financial statements.

**a) Revenue recognition**

Revenue is measured based on the consideration specified in a contract with a customer and excludes amounts collected on behalf of third parties including taxes. Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

Effective April 1, 2018, the Company adopted Ind AS 115 “Revenue from Contracts with Customers” using the cumulative catch-up transition method, applied to contracts that were not completed as of April 1, 2018. In accordance with the cumulative catch-up transition method, the comparatives have not been retrospectively adjusted. The effect on adoption of Ind AS 115 was insignificant.

The specific recognition criteria described below must also be met before revenue is recognised:

**Sale of goods**

Revenue from the sale of goods is recognised when all significant risks and rewards of ownership of the goods have passed to the buyer, which generally coincides with delivery. Revenue from the sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. Export Sales are accounted for on the basis of date of bill of lading. Gross Sales include excise duty, adjustments for price variation, quality claims, liquidated damages and exchange rate variations related to export realization. Export Benefits is accounted on accrual basis.

**Rendering of Services**

Revenue from sale of services is recognised upon the rendering of services and is recognised net of GST.

**Interest income**

Interest income is included in other income in the statement of profit and loss. Interest income is recognised on a time proportion basis taking into account the amount outstanding and the applicable interest rate when there is a reasonable certainty as to realisation.

**b) Property, plant and equipment**

The initial cost of property, plant and equipment comprises its purchase price, including import duties and non-refundable purchase taxes, attributable borrowing cost and any other directly attributable costs of bringing an asset to working condition and location for its intended use.

Expenditure incurred after the property, plant and equipment have been put into operation, such as repairs and maintenance, are normally charged to the statements of profit and loss in the period in which the costs are incurred. Major inspection and overhaul expenditure is capitalized if the recognition criteria are met.

When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed and overhaul cost is incurred, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the statement of profit and loss as incurred.

An item of property, plant and equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss, when the asset is derecognised.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

**(i) Capital work in progress**

Assets in the course of construction are capitalized in capital work in progress account. At the point when an asset is capable of operating in the manner intended by management, the cost of construction is transferred to the appropriate category of property, plant and equipment. Costs associated with the commissioning of an asset are capitalised when the asset is available for use but incapable of operating at normal levels until the period of commissioning has been completed. Revenue generated from production during the trial period is credited to capital work in progress.

**(ii) Depreciation**

Assets in the course of development or construction and freehold land are not depreciated.

Other property, plant and equipment are stated at cost less accumulated depreciation and any provision for impairment. Depreciation commences when the assets are ready for their intended use.

Depreciation is calculated on the depreciable amount, which is the cost of an asset less its residual value.

Pursuant to the enactment of the Companies Act, 2013 ("the Act") and its applicability for accounting periods commencing from April 1, 2014 the company has, wherever required reassessed the useful life of its fixed assets and has computed depreciation with reference to the useful life of the assets as recommended in schedule II of the Act. However as per the valuation report dated 20<sup>th</sup> January 2015 in case of Atgaon plant Assets & as per the valuation report dated 5<sup>th</sup> May 2017 & 14<sup>th</sup> May 2018 in case of Chalisgaon Plant Assets, both certified by Chartered Engineer useful life of the some of the assets have been assessed as ranging between 25 and 60 years which is different than the life prescribed under schedule II of the Act and depreciation is computed accordingly.

Depreciation on tangible fixed assets has been provided on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013, except for Tangible Assets for which certificate of the useful life is taken from the competent person in that field.

Individual items of assets costing upto Rs. 5,000 are fully depreciated in the year of acquisition.

Leasehold improvements are depreciated over the unexpired period of respective leases or useful life whichever is shorter.

The management believes that these estimated useful lives are realistic and reflect fair approximation of the period over which the assets are likely to be used.

Major inspection and overhaul costs are depreciated over the estimated life of the economic benefit derived from such cost. The carrying amount of the remaining previous overhaul cost is charged to the statement of profit and loss if the next overhaul is undertaken earlier than the previously estimated life of the economic benefit.

When significant spare parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

**c) Intangible assets**

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses, if any.

The Company has intangible assets with finite useful lives.

Intangible assets (computer software) are amortised on straight-line method at the rates determined based on estimated useful lives of 10 years.

**d) Foreign currencies**

In the financial statements of the Company, transactions in currencies other than the functional currency are translated into the functional currency at the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in other currencies are translated into the functional currency at exchange rates prevailing on the reporting date. Non-monetary assets and liabilities denominated in other currencies and measured at historical cost or fair value are translated at the exchange rates prevailing on the dates on which such values were determined.

The Company has applied paragraph 46A of AS 11 under Indian GAAP. Ind AS 101 gives an option, which has been exercised by the Company, whereby a first time adopter can continue its Indian GAAP policy for accounting for exchange differences arising from translation of long-term foreign currency monetary items recognised in the Indian GAAP financial statements for the period ending immediately before the beginning of the first Ind AS financial reporting period. Hence, foreign exchange gain/loss on long-term foreign currency monetary items recognized upto 31st March, 2017 has been capitalized. Such exchange differences arising on translation/settlement of long-term foreign currency monetary items and pertaining to the acquisition of a depreciable asset are amortised over the remaining useful lives of the assets.

From accounting period commencing on or after April 1, 2017, exchange differences arising on translation/settlement of long-term foreign currency monetary items, acquired post April 1, 2017, pertaining to the acquisition of a depreciable asset are charged to the statement of profit and loss. A long-term foreign currency monetary item is an item having a term of 12 months or more at the date of its origination. –

**e) Government grants**

Government grants are credited to profit & loss account on an accrual basis.

**f) Taxes**

**Current income tax**

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside the statement of profit and loss is recognised either in other comprehensive income or in equity. Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

**Deferred tax**

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date. Deferred tax liabilities are recognised for all taxable temporary differences, except when it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax relating to items recognised outside the statement of profit and loss is recognised either in other comprehensive income or in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

**Minimum Alternate Tax (MAT)**

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is considered as an asset if there is convincing evidence that the Company will pay normal income tax. Accordingly, MAT is recognised as an asset in the Balance Sheet when it is probable that future economic benefit associated with it will flow to the Company.

**g) Borrowing costs**

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

**h) Leases**

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

For arrangements entered into prior to 1 April 2016, the Company has determined whether the arrangement contains lease on the basis of facts and circumstances existing on the date of transition.

**Company as a lessee**

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease.

Finance leases are capitalised at the commencement of the lease at the inception date fair value of the leased property or, if lower, at the present value of the minimum lease payments. Lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in finance costs in the statement of profit and loss, unless they are directly attributable to qualifying assets, in which case they are capitalized in accordance with the Company's general policy on the borrowing costs.

A leased asset is depreciated over the useful life of the asset. However, if there is no reasonable certainty that the Company will obtain ownership by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating lease payments are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term.

**i) Inventories**

Inventories are valued at the lower of cost and net realisable value.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

- Raw materials and packing materials, Stores and spares parts and loose tools: These are valued at lower of cost and net realisable value. However, material and other items held for use in production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.
- Finished goods and work in progress: These are valued at lower of cost and net realisable value. Cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity. Cost is determined on weighted average basis.
- Stock-in-trade: These are valued at lower of cost and net realisable value. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on weighted average basis.
- Scrap: These are valued at net realisable value.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Obsolete inventories are identified and written down to net realisable value. Slow moving and defective inventories are identified and provided to net realisable value.

**j) Impairment of non-financial assets**

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair

value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account

Impairment losses of continuing operations, including impairment on inventories, are recognised in the statement of profit and loss.

An assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company with the help of the valuer estimates the asset's or CGU's recoverable amount.

A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the statement of profit and loss.

#### **k) Provisions, contingent liabilities and contingent assets**

Provisions represent liabilities for which the amount or timing is uncertain. Provisions are recognized when the Company has a present obligation (legal or constructive), as a result of past events, and it is probable that an outflow of resources, that can be reliably estimated, will be required to settle such an obligation.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Unwinding of the discount is recognized in the statement of profit and loss as a finance cost. Provisions are reviewed at each reporting date and are adjusted to reflect the current best estimate.

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

Contingent assets are not recognised but disclosed in the financial statements when an inflow of economic benefits is probable.

#### **l) Employee benefit schemes**

##### **(i) Short-term employee benefits**

Employee benefits payable wholly within twelve months of receiving employee services are classified as short-term employee benefits. These benefits include salaries and wages, performance incentives and compensated absences which are expected to occur in next twelve months. The undiscounted amount of short-term employee benefits to be paid in exchange for employee services is recognised as an expense as the related service is rendered by employees.

##### **(ii) Post-employment benefits**

###### **Defined contribution plan**

Post employment and other long-term benefits are recognized as an expense in the statement of Profit and Loss of the year in which the employees has rendered services. The Expense is recognized at the present value of the amount payable determined using actuarial valuation technique. Actual gain and losses in respect of post employment and other long term benefits are recognized in the statement of Profit and loss.

Payments to defined contribution retirement benefits schemes are charged as expenses as and when they fall due.

**m) Financial instrument**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

**Financial assets****Initial recognition and measurement**

All financial assets are initially measured at fair value. Transaction costs that are attributable to the acquisition of the financial assets (other than financial assets at fair value through profit and loss) are added to or deducted from the fair value measured on initial recognition of financial asset. The transaction costs directly attributable to the acquisition of financial assets at fair value through

profit and loss are immediately recognised in the statement of profit and loss. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sale the asset.

**Subsequent measurement**

For purposes of subsequent measurement, financial assets are classified in four categories as below:

**Debt instruments at amortised cost**

A 'debt instrument' is measured at the amortised cost if both the following conditions are met:

- a) The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- b) Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in finance income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss. This category generally applies to trade and other receivables.

**Debt instrument at Fair Value through Other Comprehensive Income**

A 'debt instrument' is classified as at the FVOCI if both of the following criteria are met:

- a) The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
- b) The asset's contractual cash flows represent SPPI.

Debt instruments included within the FVOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in other comprehensive income (OCI). However, the Company recognizes interest income, impairment losses and reversals and foreign exchange gain or loss in the statement of profit and loss. On derecognition of the asset, cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to the statement of profit and loss. Interest earned whilst holding fair value through other comprehensive income debt instrument is reported as interest income using the EIR method.

**Debt instrument at Fair Value through Profit and Loss**

FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch'). The Company has designated its investments in debt instruments as FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss.

**Derecognition of financial assets**

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily derecognised when the rights to receive cash flows from the asset have expired.

**Impairment of financial assets**

The Company follows 'simplified approach' as per Ind AS 109 where the company provides for losses based on lifetime Expected Credit losses at each reporting date right from initial recognition.

## Financial liabilities

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through statement of profit and loss, loans and borrowings, payables or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of financial liabilities at amortised cost, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

## Subsequent measurement

### Financial Liabilities at Fair Value through Profit and Loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. This category also includes derivative financial instruments entered into by the Company that are not designated as hedging instruments in hedge relationships as defined by Ind AS 109.

Gains or losses on liabilities held for trading are recognised in the profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ loss are not subsequently transferred to profit or loss. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss. The Company has designated forward exchange contracts as at fair value through profit or loss.

### Loans and borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest rate (EIR) method. Gains and losses are recognised in statement of profit and loss when the liabilities are derecognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

### Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

### Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

## n) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and in hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above.

## o) Cash dividend distributions to equity holders

The Company recognises a liability to make cash distributions to equity holders when the distribution is authorised and the distribution is no longer at the discretion of the Company. As per the corporate laws in India, a distribution is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

**p) Earnings per share**

Basic earnings per share is calculated by dividing the net profit or loss before OCI for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit or loss before OCI for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

**q) Share-based payment arrangement**

Equity-settled share-based payments to employees are measured at the fair value of the equity instruments/option at the grant date.

The fair value determined at the grant date of the equity settled share-based payments is expensed on a straight line basis over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in statement of profit and loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the share options outstanding reserve.

**r) Segment Reporting - Identification of Segments**

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, whose operating results are regularly reviewed by the company's chief operating decision maker to make decisions for which discrete financial information is available. Based on the management approach as defined in Ind AS 108, the chief operating decision maker evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by operating segments.

**s) Current/Non current classification**

An asset is considered as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle, or
- Expected to be realized within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is considered as current when it is:

- Expected to be settled in normal operating cycle, or
- Due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

**t) Cash Flow Statement**

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

**u) Use of estimates and critical accounting judgements**

The preparation of the financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, expenses and disclosures of contingent assets and liabilities at the date of these financial statements and the reported amounts of revenues and expenses for the years presented. Actual results may differ from these estimates under different assumptions and conditions.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised and future periods affected.

**Note:**The Company has issued unrated unlisted unsecured Compulsory Convertible Preference Shares (CCPS) having face value Rs. of Rs 10/- each at a premium of Rs 99,990 per shares to the extent of Rs. 382.66 crores to lenders against unsustainable portion of existing loan.

The tenure of said CCPS is 20 years from the date of allotment. Such CCPS shall be convertible any time after a period of 13 years from the date of allotment. However, from 13 to 20 years from allotment date, 1/8th of outstanding at the end of 12th year to be bought by the Promoters from the existing holders or converted into Equity shares each year only after the payment of the outstanding under Restructured Loan only. At the time of conversion, price of CCPS shall be determined as per SEBI ICDR, RBI regulations, Companies Act and/ or any other regulations applicable. The aggregate value of the Equity shares issued at the time of conversion shall not be less than the aggregate amount of face value and the premium for the securities. The number of Equity Shares to be issued at the time of conversion shall be determined accordingly.

Since the no. of shares to be allotted at the time of conversion is not fixed in the agreement, the nature of this instrument is Compound Financial Instrument(CFI). However, in opinion of the management, since there is no contractual obligation for cash outflow under this agreement except the repayment of sustainable debt portion which is disclosed as financial liability in books of the Company, the value of liability component of this CFI would be Nil. Accordingly, the entire amount of fair value of CFI, Rs. 382.66 Crores which is the transaction price, is determined as the value of equity component and has been presented under “Other Equity” in the balance sheet. These assumptions for value determination have been relied upon by the Statutory Auditors.

**34 Employee Benefit Obligation**
**(i) Leave Obligations**

The leave obligations cover the Company's liability for earned leave.

**(ii) Post-Employment Obligations - Gratuity**

The Company has a defined benefit gratuity plan in India, governed by the Payment of Gratuity Act, 1972. The plan entitles an employee, who has rendered at least five years of continuous service, to gratuity at the rate of fifteen day wages for every completed year of service or part thereof in excess of six months, based on the rate of wages last drawn by the employee concerned. This defined benefit plans expose the Company to actuarial risks, such as interest rate risk and market (investment) risk.

**37. Financial Risk Management**

The Company's activities expose it to credit risk, liquidity risk and market risk.

**(I) Credit risk**

Credit risk is the risk that counterparty will not meet its obligation under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities primarily trade receivables.

The Company considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk the Company compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition.

**a) Trade receivables**

Credit risk has been managed by the Company through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business. Outstanding customer receivables are regularly monitored and any shipments to major customers are generally covered by letters of credit. The company uses a simplified approach as per Ind AS 109 and an impairment analysis is performed at each reporting date on an individual basis for significant clients.

**(II) Liquidity risk**

The Company maintain a balance between continuity of funding and flexibility through the use of bank overdrafts and bank loans (comprising the undrawn borrowing facilities below) by continuously monitoring forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities.

**b) Maturities of financial liabilities**

The tables below analyse the Company's financial liabilities into relevant maturity groupings based on their contractual maturities for:

All non derivative financial liabilities and derivative financial instruments for which the contractual maturities are essential for an understanding of the timing of the cash flows.

The amounts disclosed in the table are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not material.

**(III) Market risk - foreign currency risk**

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations arise. Exchange rate exposures are managed utilising forward foreign exchange contracts.

The Company uses foreign currency forward contracts to hedge its risks associated with foreign currency fluctuations relating to certain firm commitments, highly probable forecast transactions and foreign currency required at the settlement date of certain receivables/payables.

**Foreign currency risk exposure**
