## DoT Clears Merger of Tata Tele's Mobile Business with Airtel

Approval follows SC's refusal to stay TDSAT order for clearance of deal

**Our Bureau**

Mumbai: The Department of Telecommunications (DoT) has approved the merger of Tata Teleservices' consumer mobile business with Bharti Airtel, paving the way for the closure of the sector's last major M&A deal more than two years after it was announced.

The DoT has conveyed approval of the merger to the Registrar of Companies, which took the deal on record.

The DoT then moved the SC, challenging the appellate order. The apex court however refused to stay the TDSAT order and directed the government to give its nod to the alliance.

# Coal Industry Seeks Easier Norms for Commercial Blocks

**Delhi:** The Coal Ministry has sought easier norms for commercial blocks, including a 30% production on an average over a three-year period, while yearly minimum production has to be 30%. Potential miners want this changed to 60% average production in a three-year period and a yearly production stipulation. "Since blocks are being offered for commercial sale, miners should have the flexibility to produce according to varying market conditions," said P.K. Datta, Joint Secretary General, Federation of Indian Mineral Industries (FIMI). "For example, in case where a dominant player like Coal India or Singareni Collieries Co Ltd starts predatory pricing due to subdued demand, then small commercial miners might become unviable."

# NO UNETHICAL PROMOTION OF PRODUCTS 'Pharma Cos Must Adhere to Marketing Norms During Conferences'

**New Delhi:** The Department of Pharmaceuticals (DoP) has asked industry bodies and associations to make sure that pharmaceutical companies adhere to marketing norms during their conferences, a directive that comes amid a clear failure on the part of the companies to regulate themselves. In a letter dated February 1, the DoP said it had received complaints that pharmaceutical companies "arrange seminars, conferences, symposia, local sightseeing" in conferences conducted by doctors. Asking the industry to ensure that no unethical promotion of pharmaceutical products is done during conferences, it said companies must adhere to the Universal Code of Pharmaceutical Marketing Practices (UCMPM) during their upcoming annual conferences of Indian Pharmaceutical Society, which are to be held in Kolkata and Visakhapatnam. The UCMPM is being voluntarily adopted by about 300 pharmaceutical companies since 2005. However, concerns over pharmaceutical companies offering gifts to influence medical professionals have erupted from time to time. Council (Professional Conduct, Etiquette and Ethics), which has been struggling its foot on the draft legislation, aimed at increasing transparency in financial relationships between primary providers and pharmaceutical manufacturers as well as ensuring unbiased practices, since 2005.

# MNRE Plans to Remove Ceiling on Tariffs for Wind Energy Tenders

**Bengaluru:** In a move that could revive participation in wind bidding in a big way, the ministry of new and renewable energy (MNRE) plans to stop imposing ceiling tariffs on wind tenders, industry insiders told ET. Recent wind solar auctions conducted by the Solar Energy Corporation of India (SECI), an arm of MNRE, have set a precedent above which bids are not accepted. Removal of the ceiling tariff will be a long standing demand of the industry. Developers maintain that tariffs are too low and it restricts them from participating as well as curtails the process of renewable energy. "This will definitely encourage participation. The ceiling tariffs in tenders have been unviable so far they will at least become viable," a leading developer said, requesting anonymity. Wind tenders issued by central agencies have been met with lukewarm participation over the past year. Only around 10 tenders were issued between April and December last year, according to data collected by the Indian Wind Turbine Manufacturers Association (IWTMA). In 2018, 2,300 MW was added. "There is a plan to stop setting ceiling tariffs starting from SECI's 30th tranche of wind auctions," said a source close to the development.
