Chairman's Message

Amitabh Chaturvedi
Founder & Executive Chairman

Dear Shareholders,

I am pleased to present our Annual Report for the year 2023-2024, marking another year of resilience and growth for Purple Finance. In the face of evolving market dynamics and regulatory changes, we have navigated with prudence and determination, delivering robust results and reinforcing our commitment to excellence.

This year has been pivotal as we focused on laying a robust foundation through strategic investments in both our people and cutting-edge technology. Like the unseen portion of an iceberg, much of our progress remains below the surface, yet poised for significant impact. As Ralph Waldo Emerson once said, 'The creation of a thousand forests is in one acorn.' Our efforts today, hidden from view but steadily growing, will soon manifest into achievements that redefine our future. We are committed to transparency, growth, and innovation, and look forward to unveiling the fruits of our labor in the coming year.

In 2023, we started our journey with 3 branches, strategically positioned to cater to local businesses' financial needs. By March 2024, we have expanded our footprint significantly, operating 20 branches spanning across 3 states. Looking ahead, our vision is to achieve a pan-India presence, ensuring every MSME has access to the resources they need to thrive. We understand the diverse challenges and opportunities across different regions, and our expansion strategy is designed to bridge the gap between financial services and underserved communities. By expanding our reach, we aim to strengthen local economies, drive innovation, and create sustainable impact that extends beyond financial transactions, empowering MSMEs to achieve their fullest potential. We have been at it since October 2022, and while we are happy to see how far we have come, we are excited about the possibilities of the future.

The Reverse Merger and subsequent listing of the Company on BSE Limited and Calcutta Stock Exchange Limited was a coming-of-age moment for the Company. In F.Y. 2024, continuing our growth trajectory, our AUM grew by 134%. We extended our reach by 17 branches and are now present in 3 states. It was a year we invested behind people and technology platform, for it forms the base on which scale can be built with profitability and governance. We look at the coming year with anticipation. We are committed to nurturing controlled aggression to fuel our Company's growth and confront inevitable challenges head-on. At this early stage of infancy, we recognize the extensive journey ahead of us and the significant work yet to be done. While the future remains uncertain, our pledge is unwavering: to approach it with our utmost dedication and determination. Building a good Company is difficult enough; building an Institution is the summit of perseverance and vision. As the saying goes, 'Great things are not done by impulse, but by a series of small things brought together.' - Vincent Van Gogh" Yet, it's this challenge that fuels our passion and determination to create lasting impact and prosperity. Embracing each obstacle as an opportunity, we remain steadfast in our commitment to forge a path of sustainable growth and meaningful change. On behalf of all Purplites, I thank our shareholders, employees, bankers, investors, vendors, regulators, customers and all the stakeholders for their trust. Trust is the North Star of Financial Services, we will do our best never to slip on your trust. We are on an infinite journey with no finish line. Together, let us continue to shape a future where MSMEs thrive, grow, and contribute to the prosperity of our great nation.

Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process

1) MACRO ECONOMIC OVERVIEW

a) Global Economy

Global growth is projected at 3.1 percent in 2024 and 3.2 percent in 2025, on account of greater-than-expected resilience in the United States and several large emerging market and developing economies, as well as fiscal support in China. The forecast for 2024–25 is, however, below the historical (2000–19) average of 3.8 percent, with elevated central bank policy rates to fight inflation, a withdrawal of fiscal support amid high debt weighing on economic activity, and low underlying productivity growth. Inflation is falling faster than expected in most regions, in the midst of unwinding supply-side issues and restrictive monetary policy. Global headline inflation is expected to fall to 5.8 percent in 2024 and to 4.4 percent in 2025, with the 2025 forecast revised down.

With disinflation and steady growth, the likelihood of a hard landing has receded, and risks to global growth are broadly balanced. On the upside, faster disinflation could lead to further easing of financial conditions. Looser fiscal policy than necessary could imply temporarily higher growth, but at the risk of a more costly adjustment later on. Stronger structural reform momentum could bolster productivity with positive cross-border spillovers. On the downside, new commodity price spikes from geopolitical shocks—including continued attacks in the Red Sea—and supply disruptions or more persistent underlying inflation could prolong tight monetary conditions. Deepening property sector woes in China or, elsewhere, a disruptive turn to tax hikes and spending cuts could also cause growth disappointments.

The uncertainty on the pace and timing of policy pivots by central banks is keeping financial markets volatile. Equity markets have touched new highs in both advanced and emerging market economies. Non-energy commodity prices have firmed up, while the US dollar and bond yields are exhibiting two-way movement with spillovers to emerging market currencies. Gold prices have surged to record highs on safe haven demand.

While the risk of tight and volatile global financial conditions persists, India's vulnerability to these external shocks likely to be lower in Fiscal 2025. This, coupled with the adequate forex reserves and the Country's good growth prospects, should cushion the impact of a global spill over on Indian macroeconomic conditions. IMF has projected Indian economy to grow at 6.8% in FY 2024-2025.

b) Indian Economy

According to the provisional estimates released by the National Statistical Office (NSO) on May 31, 2024, real gross domestic product (GDP) growth in Q4:2023-24 stood at 7.8 percent as against 8.6 percent in Q3. Real GDP growth for 2023-24 was placed at 8.2 percent. On the supply side, real gross value added (GVA) rose by 6.3 percent in Q4:2023-24. Real GVA recorded a growth of 7.2 percent in 2023-24.

Headline inflation has seen sequential moderation since February 2024, albeit in a narrow range from 5.1 percent in February to 4.8 percent in April 2024. Food inflation, however, remains elevated due to persistence of inflation pressures in vegetables, pulses, cereals, and spices. Deflation in fuel prices deepened during March-April, reflecting the cut in liquefied petroleum gas (LPG) prices. Core (CPI excluding food and fuel) inflation eased further to 3.2 percent in April, the lowest in the current CPI series, with core services inflation also falling to historic lows.

Going forward, high frequency indicators of domestic activity are showing resilience in 2024-25. The south-west monsoon is expected to be above normal, which augurs well for agriculture and rural demand. Coupled with sustained momentum in manufacturing and services activity, this should enable a revival in private consumption. Investment activity is likely to remain on track, with high-capacity utilisation, healthy balance sheets of banks and corporates, Government's continued thrust on infrastructure spending, and optimism in business sentiments. Improving world trade prospects could support external demand. Headwinds from geopolitical tensions, volatility in international commodity prices, and geoeconomic fragmentation, however, pose risks to the outlook. Taking all these factors into consideration, real GDP growth for 2024-25 is projected at 7.2 percent with Q1 at 7.3 percent; Q2 at 7.2 percent; Q3 at 7.3 percent; and Q4 at 7.2 percent (Chart 1). The risks are evenly balanced.

2) NBFC SECTOR OVERVIEW

As per CRISIL projection NBFC credit to grow at 12%-14% between Fiscal 2023 and Fiscal 2025. The credit growth will be driven by the retail vertical, including housing, auto, MSME and microfinance segments. Rapid revival in the economy is expected to drive consumer demand in Fiscal 2024, leading to healthy growth for NBFCs. Moreover, organic consolidation is underway with larger NBFCs gaining share with some of the merger and acquisition in the NBFC space.

The retail credit market in India stood at Rs 60 trillion as of fiscal 2023 and is rapidly growing at a CAGR of 14.3% during Fiscals 2018 and 2023. Retail credit growth in Fiscal 2020 was around approximately 16.3% which came down to approximately 9.5% in Fiscal 2021. However, post-pandemic, retail credit growth revived back to reach approximately 11.3% in Fiscal 2022. In Fiscal 2023, retail credit has grown at approximately 19-20% year on year basis. The Indian retail credit market is expected to further grow at a CAGR of 13-15% between fiscal 2023 to fiscal 2025 and reach a size of Rs 77 trillion by FY 2025. Moreover, the increasing demand and positive sentiments in the Indian retail credit market, presents an opportunity for both banks and NBFCs to broaden their investor base. Share of NBFC credit in the overall systemic credit remained @ 18% in Fiscal 2023.

In terms of the credit to GDP ratio, India has a low credit penetration compared with other developing countries, such as, China, indicating a significant untapped potential. Similarly, in terms of credit to households as a proportion of GDP as well, India lags other markets.

Rural India accounts for about half of GDP, but only about 8% of total credit and 9% of total deposits. Rural India under penetration and untapped market presents a huge opportunity for growth. Credit to metropolitan areas has decreased over the past few years with its share decreasing from 66% as at March 31, 2018 to 62% as at June 30, 2023. Between the same period, credit share has witnessed a marginal rise in rural and urban areas.

Asset quality for NBFCs is influenced by various factors such as economic cycle, target customer segment, geographical exposure, and local events. Within the NBFC universe itself, it is observed that various asset classes tend to exhibit heterogeneous behaviour. For example, the asset quality in small business loans and personal loans tends to be highly correlated with the macroeconomic environment. On the other hand, microfinance loans have shown lower historic correlation with macroeconomic cycles. This is because asset quality is more influenced by local factors, events that have wide ranging repercussions such as demonetisation and COVID-19 and relative leverage levels amongst borrowers.

It is estimated that the GNPA's for NBFCs to have reduced significantly at the end of Fiscal 2023. The gross NPA's for NBFCs have reduced to 5.8% in FY 22 and expected to be around 4.8% in FY 23. It is expected the same will further reduce by at least 50 bps in FY 24.

The share of disbursements for NBFCs in unsecured loans and MSME finance, the non-traditional segments, has increased over the past 1.5 years. In the first half of this fiscal, ~35% of incremental disbursements were for unsecured loans. Small business loans grew at a fast pace, registering a CAGR of 15% over Fiscal 2018 and 2023. It is estimated that outstanding small business loans given out by banks and NBFCs to be around Rs 11.7 trillion as of March 2023.

The LAP portfolio NPA's have reduced from 4.7% in March 21 to 4.3% in March 22. With increasing branch network, customer acquisition and credit penetration, share of MSME loans is also expected to increase. Number of branches have grown at 16% CAGR over Fiscals 2017 and 2023 and is around 6638 branches.

4) OUTLOOK AND OPPORTUNITIES

Purple Finance Limited is into MSME lending which is a very large and untapped market to tap into. Micro, Small and Medium Enterprise sector has been recognized as the backbone of the Indian economy for the past several decades expected to drive the Country's growth and employment generation. The Government envisages MSMEs to contribute USD 2 trillion to the target of becoming USD 5 trillion economy by 2024. In August 2021, MSME Ministry announced a target to boost MSME contribution to the GDP to 50% by 2025. India has approximately 6.3 crore MSMEs and the number of registered MSMEs stood at 80.16 lakh units as on March 31, 2022, indicating that 88% of enterprises still exist in the informal sector. Micro sector accounts for more than 99% of total estimated number of MSMEs and around 97% of total employment in the sector. Out of the estimated 633.88 million MSMEs, 324.88 lakh (51.25%) are in rural areas, while 309 lakh (48.75%) are in urban areas.

The credit gap to MSMEs have increased from Rs 69.3 trillion to estimated Rs 92 trillion in FY 2023 as per government estimate. The new MSME units continue to be set up across India. Between Fiscals 2016 and 2022, 18.3 million units were set up, according to the Government of India registration data of MSMEs. Thus, though a myriad of small businesses is set up every day in India, access to credit remains a challenge.

However, the industry has witnessed an increase in access to formal credit to MSME, which could be attributed to the increase in the number of registered MSMEs to 13,093,698 in Fiscal 2023 from 495,013 in Fiscal 2016.

Hence this is a huge opportunity for Purple Finance Limited to address this untapped MSME lending market through secured product offering.

5) CHALLENGES

NBFCs also have their share of challenges. One of the biggest challenges facing NBFCs in India is access to funding. Unlike banks, which have access to low-cost deposits, NBFCs must rely on borrowing from banks or issuing bonds to raise funds. This can make it difficult for NBFCs to compete with banks on interest rates. The dependence on banks have increased cost of funds for NBFCs. In Fiscal 2023, NBFCs borrowings from banks witnessed high growth resulting in an increase in share to 36% of total funding up from 29% at the end of Fiscal 2022. Share of bank's lending to NBFCs have almost doubled during last 10 years. As per a CRISIL report there is a need of around Rs 10 trillion funding by NBFCs to cater to their growth in Fiscal 2024 to 2026. There must be alternate avenues like NCDs, Bonds, Securitisation etc. which will augment this funding requirement of NBFCs apart from bank funding. New NBFCs especially unrated one will continue facing challenge in raising funding.

The second challenge is competition from banks. Looking at the attractive segment of MSME lending many banks, Fintech companies and several large and small NBFCs have become active lately in MSME segment. Purple Finance Limited. must stay competitive through superior customer service, quick disbursal, and technology enhancement to stay relevant. Also as mentioned above this challenge is partially mitigated because of large untapped MSME market.

6) INTERNAL CONTROL SYSTEMS

The Company has adequate systems of internal control in place which are commensurate with its size and the nature of operations. The Company maintains a system of internal controls designed to provide a high degree of assurance regarding the effectiveness and efficiency of operations, the adequacy of safeguards for assets, the reliability of financial controls and compliance with applicable laws and regulations. The Company also monitors various activities through defined policies, process, and SOPs. The Company has strong corporate governance framework and the same is continuously reviewed through various committees like Board of Directors, Management Committee, Risk Management Committee, IT Committee, HR Committee etc.

7) RISKS & CONCERNS

In today's challenging and competitive environment, strategies for mitigating inherent risks in accomplishing the growth plans of the Company are imperative. The Company recognizes that risk is an integral part of business and is committed to managing the risk in proactive and efficient manner. The Company had adopted risk management system through framework of different policies and creating a robust internal monitoring process to ensure sustainable business growth with stability and to promote a proactive approach in reporting, evaluating and resolving risks associated with the business. In order to achieve the key objective, the system establishes a structured and disciplined approach to Risk Management.

The Company is exposed to specific risks that are particular to its business and the environment within which it operates. This includes market risk, credit risk, liquidity and interest rate risk, regulatory risk, macro-economic risk, etc.

- **Market Risk:** The Company does not invest in market instruments therefore has limited exposure to market risk.

- **Credit Risk:** Credit risk is the risk arising out of default or failure on the part of borrowers in meeting their financial obligations towards repayment of loans. Thus, credit risk is a loss as a result of non-recovery of funds lent both on principal and interest counts. There is robust credit process with the risk oversight. The client selection is clearly defined, capability of repayment is rigorously assessed to reduce the defaults and since most of the loans are secured against assets which are valued by independent agencies and the loan to value ratio is restricted, chances of non-recoverability in case of default are minimized. The Company proposes to use various tools like portfolio analytics, bounce analysis, month on board analysis, early vintage analysis and net flow forward analysis to monitor early stress in the portfolio. These will be reported to senior management through Risk Management Committee periodically and if required course correction is undertaken.
- **Liquidity and Interest Rate Risk:** The Company is exposed to liquidity risk principally, as a result of lending and investment for maturity period which may differ from those of its funding sources. The Company will manage this risk by prudent management of resources including long term loans.
- **Regulatory Risk:** As an entity in the financial services sector, the Company is subject to regulations by Indian governmental authorities, including the Reserve Bank of India. Their laws and regulations impose numerous requirements on the Company, including asset classification and prescribed levels of capital adequacy, solvency requirements and liquid assets. There may be future changes in the regulatory system or in the enforcement of the laws and regulations that could adversely affect the Company's performance. All the players are sensitive to this risk and any adverse effect is not isolated to the Company.
- **Macro-economic Risk:** Any unfavourable economic conditions, unstable political environment and changes in Government policies could impact the growth of the Company. Any slowdown in the Indian economy and in particular the financing business could adversely affect the Company's business. The rural economy is resilient and market is also very large, therefore any slowdown will have only temporary effect.
- **Operational Risk:** The Company is exposed towards various operational risks in the course of its business relating to people, internal controls, processes, technology, infrastructure and other external factors. Towards minimizing operational risks, the Company has created 'maker-checker' rule in all processes. The Risk Management Committee monitors the operation processes. The Company believes its efforts to continuously strengthen its risk framework and portfolio quality will help it build a stable business franchise.

Access to capital and funds, both short term and long term, managing asset-liability mismatches and managing growth without compromising asset quality are some of the challenges faced by all the players, big and small, in the NBFC sector. Your Company is no exception to this. However, we constantly invest in people, processes, technology and systems to manage and mitigate these challenges. Strong credit underwriting processes, early warning checks, strong portfolio analytics to minimise portfolio delinquency are on-going efforts.

7. HUMAN CAPITAL

Your Company recognizes that Human Capital is one of the most critical assets of any business enterprise. Guided by this very philosophy the Company ensures recruitment of the most suitable manpower, trains them to handle their respective roles, empowers them to discharge their duties well and provide an enabling environment for their professional growth. The Company has a well-defined on-boarding process and well-structured post joining induction process. The Company also has deployed a digitally advanced Human Resource Management System (HRMS) to automate most of the HR processes and controls. Currently the Company employs around 180 people.

Basis of Opinion

We conducted our audit of the financial statement in accordance with the Standards on Auditing ("SA"s) specified under Section 143 (10) of the Act. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Emphasis of Matter

We draw attention to notes 47 and 51.10 of the Standalone Financial Statements which state that the Scheme of Merger by Absorption ("Scheme"), has been given effect to, based on the Appointed date 01st October 2022 as approved by National Company Law Tribunal which is deemed to be the acquisition date for the purpose of accounting under Ind AS 103 'Business Combinations'.

Our opinion on the Standalone financial statements is not modified in respect of this matter.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Standalone Financial Statements of the current year. These matters were addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the Standalone Financial Statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Standalone Financial Statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying Standalone Financial statements.

Transition to Indian Accounting Standards (“Ind AS”)

The Company has adopted Ind AS notified under section 133 of the Companies Act 2013 (“the Act”) read with the Companies (Indian Accounting Standards) Rules, 2015 from April 01, 2023 and the effective date of such transition is April 01, 2022. For periods up to and including the year ended March 31, 2023, the Company had prepared and presented its financial statements in accordance with the erstwhile generally accepted accounting principles in India (Indian GAAP). In order to give effect of the transition to Ind AS these financial statements for the year ended March 31, 2024, together with the comparative financial information for the previous year ended March 31, 2023 and the transition date balance sheet as at April 1, 2022 have been prepared under Ind AS.

The transition to Ind AS, has involved changes in the Company’s policies and processes relating to financial reporting. Further, the management has also exercised judgement (wherever applicable) in giving effect to various principles of Ind AS in its first-time adoption.

In view of the complexity and the resultant risk of a material misstatement arising from an error or omission in correctly implementing the principles of Ind AS at the transition date, which could result in a misstatement of one or more periods presented in these Standalone Ind AS Financials Statements, this has been an area of key focus in our audit.

Our audit procedures included the following:

- Assessed the Company’s process to identify the impact of adoption and transition to the new accounting standards.
- Understanding the financial statement closure process and the controls established by the Company for transition to Ind AS.
- Reading and assessing the changes made to the accounting policies due to the requirements of the new financial reporting framework.
- Reviewed the exemptions availed by the Company from certain requirements under Ind AS
- Assessing the judgements exercised by the management in applying the first-time adoption principles of Ind AS 101 especially in respect of fair valuation of assets as at transition date
- Testing accounting adjustments posted as at the transition date, and in respect of the previous year to convert the financial information reported under erstwhile Indian GAAP to Ind AS.
- Assessing the disclosures included in the Standalone Ind AS Financial Statements in accordance with the requirements of Ind AS.

Information Other than the Financial Statement and Auditor’s Report thereon

The Company’s Board of Directors is responsible for preparation of the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor’s report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance along with other comprehensive income/loss, statement of changes in equity and cash flows of the company in accordance with the accounting principles generally accepted in India, including the Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, board of directors is responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013 we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidences obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

The comparative financial information of the Company for the year ended 31st March, 2023, prepared in accordance with Ind GAAP which have been restated as per IND AS, were audited by the predecessor auditor. The report of the predecessor auditor on the same expressed an unmodified opinion. Our opinion on the Statement is not modified in respect of this matter.

**Annexure 'B' to the Independent Auditors Report of the company for year ended 31st March, 2024
(Referred to in paragraph 1 under "Report on Other Legal and Regulatory Requirements" of our
report of even date)**

Report on the Internal Financial Controls

We have audited the internal financial controls over financial reporting of Purple Finance Limited ("the Company") as of March 31st, 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence, we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

The company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company;

and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanation given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31st, 2024, based on the internal control over financial reporting criteria established by the company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the ICAI.

The Company categorizes assets and liabilities measured at fair value into one of three levels depending on the ability to observe inputs employed in their measurement which are described as follows:

i) Level 1

Quoted (unadjusted) prices in active markets for identical assets or liabilities.

i) Level 2

Other techniques for which all inputs which have a significant effect on the recorded fair values are observable, either directly or indirectly.

i) Level 3

Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

(in '000)

1. Risk management framework:

The Company's overall objective is to manage its businesses, and the associated risks, in a manner that balances serving the interests of all its stakeholders and at the same time minimise potential adverse effects on its financial performance. The Company places emphasis on risk management practices to ensure an appropriate balance between risks and returns.

The Company is exposed to credit risk, market risk and liquidity risk. The Company's board of directors have overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors have established the Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

A Credit risk

Credit risk is the risk of loss resulting from the failure of a borrower or counter party to honour its financial or contractual obligations. Credit risk arises in the company's direct lending operations, and in its funding and investment activities where counterparties have repayment or other obligations. The Company's exposure to credit risk is influenced mainly by cash and cash equivalents, other bank balances, investments, loan assets, trade receivables and other financial assets.

The company lays down various monitoring process for Macro Economic factor analysis, industry analysis, portfolio analysis and account level analysis to control delinquencies. The company implements robust portfolio monitoring approach and various tools to have a close monitoring of the portfolio.

ECL Methodology

The Company records allowance for expected credit losses for all financial assets other than FVTPL, together with loan commitments. Equity instruments are not subject to impairment.

The ECL allowance is based on the credit losses expected to arise over the life of the asset (the lifetime expected credit loss), unless there has been no significant increase in credit risk since origination, in which case, the allowance is based on the 12 months' expected credit loss.

The Company has established a policy to perform an assessment, at the end of each reporting period, of whether a financial instrument's credit risk has increased significantly since initial recognition. Based on the above process, the Company categorises its loans into Stage 1, Stage 2 and Stage 3, as described below:

Stage 1

All exposures where there has not been a significant increase in credit risk since initial recognition or that has low credit risk at the reporting date and that are not credit impaired upon origination are classified under this stage. The company records allowance based on twelve months ECL.

Stage 2

All exposures where there has been a significant increase in credit risk since initial recognition but are not credit impaired are classified under this stage. The company records allowance for Lifetime ECL.

Stage 3

All exposures assessed as credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of that asset have occurred are classified in this stage. The company records allowance for Lifetime ECL.

ECL Calculations

The Company calculates ECLs based on a probability-weighted scenarios and historical data to measure the expected cash shortfalls. A cash shortfall is the difference between the cash flows that are due to an entity in accordance with the contract and the cash flows that the entity expects to receive. ECL consists of three key components:

Probability of default (PD) :

The probability of default ("PD") is the likelihood that an obligor will default on its obligations in the future. A default may only happen at a certain time over the assessed period, if the facility has not been previously derecognised and is still in the portfolio.

Exposure At Default ("EAD"):

The amount which the obligor will owe to the Company at the time of default is defined as the exposure at default (EAD). Exposure at default (EAD) is the sum of outstanding principal and the interest amount accrued but not received on each loan as at reporting date.

Loss Given Default ("LGD"):

Loss given default estimates the normalised loss which company incurs post customer default. It is computed through recovery observed in delinquent accounts over a period of time. It is based on the difference between contractual cash flows that are due and expected to be received including from the collateral if any.

Since the company's loan portfolio in the past was limited and small, at present the company does not have sufficient internal data for computation of PD for different stages and LGD. Hence, the company has relied on data used by certain other NBFC's and industry data as reference for the calculations. Based on the above data, RBI norms and requirements and internal assessment, the company has at present determined blanket ECL provisioning at 0.275% across all different stages of loans.

Reconciliation of loss allowance provision - For loans

Refer note 4 for detailed reconciliation of loan movements and loss allowance provision

In addition to the ECL for loans as prescribed above, the Company also holds other financial assets such as balances with Bank, trade receivables and other financial assets. The Company recognizes ECL on such assets based on the historical loss experience measures (e.g. write off rates / provision rates) adjusted for expected losses in the future keeping in mind the nature of industry and credit ratings of such counter-parties. The amount is currently not expected to have a significant impact and the company will periodically assess the same

III. Liquidity risk

Liquidity risk involves the inability of an entity to fund growth in assets, manage unplanned changes in funding sources and to meet obligations when required. Liquidity risk also arises due to the maturity mismatch associated with assets and liabilities. Cost of such liquidity risk would be in terms of either raising fresh liabilities at higher cost or liquidating its assets at a higher discount rate.

The Company manages its liquidity requirement by analysing the maturity pattern of the Company's cash flow of financial assets and financial liabilities. The Company's policy on liquidity risk is to ensure availability of adequate liquid resources with a view to keep maturity mismatches in the Balance Sheet of the Entity within desired levels. The Company also has lines of credit that it can access to meet liquidity needs.

Notes:

1) Lease Accounting

Under the previous accounting GAAP, lease rent was debited to statement of Profit and Loss on a straight line basis. Under IND AS Right of use assets and lease liabilities are recognized for all leases except short term lease and Depreciation and Finance charges are recorded on such assets and liabilities respectively. Under exemption available under IND AS 101 Right of Use Assets are recognized at amount equal to Lease liabilities on the date of transition.

2) Financial Assets at Fair value

Under the previous accounting GAAP, interest free lease security deposits (that are refundable in cash on completion of lease term) are recorded at transaction cost. Under Ind AS such financial assets are required to be recognized at fair value. Accordingly, the Company has measured such security deposit at fair value and the difference between the fair value and transaction value of the security deposit has been recognized as prepaid rent (Right of use Assets). Impact of such changes on date of transition is recognized in opening reserves and changes thereafter are recorded in statement of Profit and Loss accounts.

3) Investments at fair value

Under the previous accounting GAAP, the investments were carried at cost whereas under Ind AS, investments are measured at fair value through profit and loss or fair value through Other Comprehensive Income and the changes are recorded in the statement of profit or loss or Other Comprehensive income respectively.

4) Effective interest rate

Under previous accounting GAAP, transaction costs charged to customers was recognised upfront while under Ind AS, such costs are included in the initial recognition amount of financial asset and recognised as interest income using the effective interest method.

5) Expected credit loss

The company has defined policy for expected credit loss required under IND AS 109 which was not there under the previous accounting GAAP and accordingly, the company has restated the provisions for expected credit loss as on the transition date and in subsequent accounting periods which were earlier done based on RBI guidelines.

6) Deferred Tax

Deferred tax under Ind AS has been recognised for temporary differences between tax base and the book base of the relevant assets and liabilities. Under the Previous GAAP, the deferred tax was accounted based on timing differences impacting the Statement of Profit and Loss for the period.
