SHREEJI TRANSLOGISTICS LTD. ACHIEVES MAJOR MILESTONE BY INSTALLING DIGITAL LOCKS ON ITS TRUCKS FOR ENHANCED SAFETY

Vashi, Navi Mumbai, 17th April 2023: Shreeji Translogistics Limited (STL), an India-based surface logistics and parcel delivery service provider, has successfully installed digital locks on majority of its fleets.

- Shreeji Translogistics Ltd. is proud to announce that it has successfully installed digital locks on majority of its fleets for optimum safety.
- This initiative is aimed at enhancing the safety and security of cargo in- transit, and reducing the risk of theft.
- The new digital locks are highly advanced and cannot be broken into, unlike the old locks that were attached from the outside. These digital locks are installed from the inside of the truck and can only be opened by the driver via an OTP (One Time Password) which he receives from the authorized personnel once he reaches the destination.
- With the new digital locks in place, STL's tech team can now closely monitor the container door status, ensuring that valuable goods, and other cargo are safe and secure at all times.
- This initiative aligns with STL's vision of offering technologically advanced logistics solutions focused at providing reliable and hassle-free experience to its customers.

Commenting on the announcement, the Management team of Shreeji Translogistics Limited, stated:

"We are proud to announce that Shreeji Translogistics Limited has successfully installed digital locks on majority of its fleets. These digital locks will provide an extra layer of protection for our clients' goods and ensure that they reach their destinations safely and securely.

We, at STL, are committed to providing our clients with advanced and efficient logistics solutions and this move is in line with our company's stated commitment. We understand that the safety and security of cargo are of utmost importance, and we are constantly striving to provide innovative solutions that address these concerns.

By implementing these digital locks, we are taking a proactive approach to fleet security and are dedicated to utilizing the latest technology to enhance our service offering and provide the highest level of reliable and hassle-free experience to our customers.

We are confident that initiative will set a new benchmark for safety and security in the logistics industry and will establish STL as the logistics partner of choice for various organizations."

About Shreeji Translogistics Limited.

Shreeji Translogistics Limited (STL) was incorporated in 1984, headquartered in Vashi, Navi Mumbai. The Company is engaged in freight management, logistic solutions, and warehousing services. It caters a range of logistical requirements from import-export container movement to bonded trucking movements. The various types of services provided by the Company include full truck load transport services (FTL), parcel and part truck load services/ less than truck load (LTL), import-export services and bonded trucking services. It operates different types of trucks based on design and size along with varying capacities. Its container trucks are used for transportation of parcels, white goods, and consumer packaged goods (FMCG). The Company's platform trucks are mainly used for import-export containers and also for transportation of heavy-duty goods like automotive parts and machineries. It owns and operates a fleet of more than 300 owned trucks and more than 4,500 outsourced trucks. STL is led by a team of seasoned professionals with robust experience in the logistics sector.
