[#]Long-term and short-term fund-based limits include an interchangeable limit of Rs. 8,760 crore; total rated bank facilities stand at Rs. 21,515 crore (including Rs. 5,040.0-crore term loans)

^{##}Long-term and short-term fund-based limits include an interchangeable limit of Rs. 11,760 crore; total rated bank facilities stand at Rs. 26,515 crore (including Rs. 5,990.0-crore term loans)

Rationale

The rating upgrade factors in the sustained healthy financial performance of Muthoot Finance Limited (MFL) along with the scale-up in the overall portfolio, which was largely led by the gold loan business. MFL's gold loan book has more than doubled over the last 5 years to Rs. 49,622 crore as of December 2020 and accounted for about 90% of its overall consolidated portfolio. The credit costs in the gold loan business have been under control, uplifting the consolidated earnings performance (PAT/AMA¹ in the range of 5.5-6.5% during FY2018 to 9M FY2021). ICRA expects the consolidated earnings performance to remain healthy as gold loans would account for about 85-90% of the overall lending portfolio. MFL's capitalisation profile, characterised by a consolidated managed gearing of 3.5 times as of December 2020 (range of 3.0-3.5 times over the last 3-4 years), is also expected to remain comfortable over the medium term supported by its expected healthy accruals.

The ratings continue to factor in MFL's long track record and its leadership position in the gold loan segment, its established franchise with a pan-India branch network, and its efficient internal controls and monitoring systems. MFL's ability to raise

¹ Net profit on average managed assets

funds from diverse sources, its current on-balance sheet liquidity and the short-term nature of the loans result in a strong liquidity profile. ICRA, however, takes note of the performance of the non-gold segments in the consolidated portfolio, which are of a relatively lower vintage; the sustained good quality growth and earnings performance of these segments would remain a monitorable. Some of the asset segments, namely microfinance (5% of the consolidated AUM² as of December 2020), vehicle finance (0.8%) and affordable housing (3%) faced higher 90+ days past due (dpd) of 5.5%, 9.2% and 6.8%, respectively, vis-à-vis 1.3% in the gold loan segment. Also, in view of the expected portfolio risks post the Covid-19 pandemic, these segments faced portfolio contraction (vehicle finance and affordable housing) or growth moderation (microfinance) in 9M FY2021 vis-à-vis gold loans, which grew at 29% (annualised) during this period. ICRA also takes note of the geographical concentration of the branches and the loan book in South India. South India accounts for 60% of MFL's gold loan branches, contributing about 49% to the gold loan book. A demonstrated performance track record in the non-gold segments and a steady improvement in geographical diversity would be key, going forward, from a rating perspective.

The Stable outlook factors in ICRA's expectation that MFL will continue to benefit from its established operational track record in the gold loan business, which is expected to account for about 85-90% of the consolidated AUM over the medium term, and its comfortable overall financial risk profile.

ICRA has also upgraded and withdrawn the long-term rating on the Rs. 1,898.73-crore non-convertible debenture (NCD) programme and the Rs. 55.79-crore subordinated debt programme in accordance with ICRA's policy on the withdrawal of credit ratings as the instruments have matured and are fully repaid.

Key rating drivers and their description

Credit strengths

Established franchise and leadership position in gold loan segment – MFL has a track record of around two decades in the gold loan business and is India's largest gold loan focussed non-banking financial company (NBFC) with a total portfolio of Rs. 50,391 crore (of which 98% is gold loan) as on December 31, 2020; the portfolio grew by about 31% on a YoY basis. The consolidated portfolio stood at Rs. 55,800 crore in December 2020 compared to Rs. 46,871 crore in March 2020, of which gold, microfinance and housing accounted for 90%, 5% and 3%, respectively. The company operates through an extensive pan-India branch network of 4,632 as on December 31, 2020; 60% of its branches are in South India, where it has an established franchise. The strong brand value of Muthoot, its experienced promoters and senior management team, and its efficient internal controls and audit systems are expected to support its overall business growth going forward. ICRA takes note of the sudden demise of MFL's Chairman & Whole-Time Director, Mr. M G George Muthoot. While this is unlikely to affect MFL's risk profile, significant changes in the management structure, if any, would be observable over the near term.

Track record of healthy earnings performance – The company's consolidated net profitability remained healthy with the annualised PAT/AMA at 6.1% in 9M FY2021 (provisional) and 6.6% in FY2020. The consolidated net profitability has been in the range of 5.5-6.5% during FY2018 to 9M FY2021, supported by low credit costs in the gold loan business, which accounts for the bulk of the consolidated portfolio. The earnings performance is supported by healthy yields, low credit costs (less than 1% over the last 10 years and average of 0.4%) in the gold loan business and a range-bound operating cost ratio (operating cost/AMA of 4.3-4.6% during FY2017-FY2020). The annualised net interest margin was lower in 9M FY2021 at about 11% vis-à-vis about 13% in FY2020 and FY2019, largely because of the higher on-balance sheet liquidity. The operating profitability, however, was supported by a decline in the cost ratio to 3.2% in 9M FY2021 from 4.3% in FY2020. Going forward, ICRA expects the margins and operating costs to inch up from the current levels, though the consolidated net profitability is expected to be maintained at around 5.0% in the medium term.

MFL's (standalone) net profitability stood at 6.4% in 9M FY2021 (provisional) and 6.8% in FY2020. The annualised return on average net worth (standalone) was about 28% in FY2020 and 9M FY2021.

² Assets under management

Capitalisation to remain comfortable over the medium term – MFL has a comfortable capitalisation profile with a standalone gearing of 3.3 times as on December 31, 2020 (3.2 times as on March 31, 2020), aided by good internal capital generation. The consolidated gearing stood at 3.5 times in 9M FY2021. MFL's standalone net worth was Rs. 14,178.0 crore as on December 31, 2020 (Rs. 11,571.8 crore as on March 31, 2020). The company is expected to be comfortably placed to meet the medium-term capital requirements of its subsidiaries without affecting its own capital structure. ICRA expects MFL's consolidated gearing to remain in the range of 3.5-4.0 times over the medium term.

Credit challenges

Performance of non-gold segments to remain a monitorable; sizeable share of gold loans would support overall portfolio quality – MFL's standalone portfolio almost entirely consists of gold loans and it diversified its exposure via its subsidiaries, namely Belstar Microfinance Limited (Belstar; microfinance), Muthoot Homefin Limited (MHL; affordable housing) and Muthoot Money Limited (MML; vehicle finance). Its consolidated portfolio is currently concentrated towards gold loans comprising 90% of the loan book while microfinance, affordable housing and vehicle finance contributed 5%, 3% and 0.8%, respectively, as on December 31, 2020. The loan books of MHL and MML declined by 5% and 17%, respectively, in 9M FY2021 due to the pandemic, while Belstar's growth moderated to 10% (growth of 43% in FY2020). The subsidiaries faced an increase in their overdues with the gross stage 3³ (GS3) of Belstar, MHL and MML standing at 5.5%, 6.8% and 9.2%, respectively, in December 2020 vis-à-vis 0.9%, 1.7% and 4.9%, respectively, in March 2020. The performance of the non-gold segments was impacted by the Covid-19-related disruptions because of the unsecured nature of the microfinance business and the average credit profile of the borrowers in the housing and vehicle segments.

MFL's GS3, however, was comfortable at 1.3% in December 2020 (2.2% in March 2020). ICRA notes the company's track record in containing credit costs in the gold segment and recoveries in auctions where it typically recovers the principal and a sizeable share of the accrued interest on those loans. The weighted average loan-to-value (LTV) for gold loans was comfortable at 65% as on December 31, 2020 (61% as on September 30, 2020). While access to collateral (in case of gold loans) provides comfort, the ability to undertake timely recoveries in case the gold price movements turn adverse would be crucial. ICRA expects MFL's asset quality in the gold loan segment, which accounts for the bulk of the consolidated AUM, to remain under control with low credit costs. Going forward, the overall asset quality and credit costs would remain under control as the subsidiaries are expected to account for about 10-15% of the consolidated portfolio over the medium term. MFL's ability to profitably grow its non-gold businesses while maintaining good asset quality would be crucial over the medium to long term, considering the unsecured nature of some of these businesses and the higher inherent risks in these segments compared to gold loans.

Operations concentrated in South India – MFL's operations are largely concentrated in South India, which constituted 60% of its total branch network and 49% of its total loan portfolio as on December 31, 2020. ICRA, however, notes that the share of the portfolio in South India has reduced from 57% in March 2015. Geographical diversification is expected to improve steadily over the medium to long term with an improvement in the scale of the gold loan portfolio and the stabilisation of the performance of the non-gold asset segments.

Liquidity position: Strong

MFL had cash and liquid investments of Rs. 7,350 crore as on January 31, 2021, with a payment obligation of Rs. 13,175 crore during February 2021 – May 2021. A sizeable portion of the repayments (Rs. 9,225 crore) comprise cash credit/short-term loans from banks, which are expected to be rolled over, while the commercial paper (CP) and NCD repayments are Rs. 3,198 crore and Rs. 256 crore, respectively, during the above-mentioned period. Undrawn working capital limits from banks (about Rs. 520 crore as of January 2021) provide further support to the company's liquidity profile.

ICRA takes note of the significant increase in overall collections and disbursements in 9M FY2021 as borrowers rolled over (after paying their accrued interest and renewing the loan basis the prevailing LTV) their existing loans in view of the high gold

³ Not adjusted for the Supreme Court order

prices. While the share of rolled-over loans in the overall collections and disbursements increased considerably during April 2020 to August 2020 vis-à-vis the past, MFL's cash collections remained healthy.

The funding mix remains diversified with bank/financial institution (FI) loans constituting 42% of its total borrowings as on December 31, 2020, followed by listed NCDs (29%), external commercial borrowings (ECBs; 16%), CP (11%), debentures - private placement (1%) and subordinated debt (1%). Diverse funding sources help the company in maintaining a strong liquidity position.

Rating sensitivities

Positive factors - ICRA could change the outlook or upgrade the rating if MFL sustains a comfortable overall asset quality and capital profile over the medium to long term. A long track record of good performance in the non-gold segments and improvement in geographical diversity would also positively impact the rating.

Negative factors - ICRA could change the outlook or downgrade MFL's ratings if the share of the unsecured asset segment goes beyond 15% or the asset quality weakens significantly, thereby impacting its earnings. The increase in the consolidated gearing beyond 4.5 times on a sustained basis would also negatively impact the ratings.

Consolidation/Standalone	To arrive at the ratings, ICRA has considered the consolidated financials of the Muthoot Finance Group. The consolidated financials of the Group include seven subsidiaries as listed in Annexure-2

About the company

Muthoot Finance Limited (MFL) is the flagship company of the Kerala-based business house, The Muthoot Group, which has diversified operations in financial services, healthcare, real estate, education, hospitality, power generation and entertainment. MFL was incorporated in 1997 and is India's largest gold loan focussed NBFC with total loan assets (standalone) of Rs. 50,391 crore and 4,632 branches as on December 31, 2020. The company derives a major proportion of its business from South India (49% of the total portfolio as on December 31, 2020), where gold loans have traditionally been accepted as a means of availing short-term credit, although MFL has increased its presence beyond South India over the past few years.

MFL reported a standalone net profit of Rs. 3,018 crore on an asset base of Rs. 50,460 crore in FY2020 against a net profit of Rs. 1,972 crore on an asset base of Rs. 38,069 crore in FY2019. In 9M FY2021, the company reported a standalone net profit of Rs. 2,727 crore.

The consolidated portfolio stood at Rs. 55,800 crore as on December 31, 2020 compared to Rs. 46,871 crore as on March 31, 2020 (Rs. 38,304 crore as on March 31, 2019), of which gold, housing and microfinance accounted for 90%, 3% and 5%, respectively.

About ICRA Limited:

ICRA Limited was set up in 1991 by leading financial/investment institutions, commercial banks and financial services companies as an independent and professional investment Information and Credit Rating Agency.

Today, ICRA and its subsidiaries together form the ICRA Group of Companies (Group ICRA). ICRA is a Public Limited Company, with its shares listed on the Bombay Stock Exchange and the National Stock Exchange. The international Credit Rating Agency Moody's Investors Service is ICRA's largest shareholder.

ICRA ratings should not be treated as recommendation to buy, sell or hold the rated debt instruments. ICRA ratings are subject to a process of surveillance, which may lead to revision in ratings. An ICRA rating is a symbolic indicator of ICRA's current opinion on the relative capability of the issuer concerned to timely service debts and obligations, with reference to the instrument rated. Please visit our website www.icra.in or contact any ICRA office for the latest information on ICRA ratings outstanding. All information contained herein has been obtained by ICRA from sources believed by it to be accurate and reliable, including the rated issuer. ICRA however has not conducted any audit of the rated issuer or of the information provided by it. While reasonable care has been taken to ensure that the information herein is true, such information is provided 'as is' without any warranty of any kind, and ICRA in particular, makes no representation or warranty, express or implied, as to the accuracy, timeliness or completeness of any such information. Also, ICRA or any of its group companies may have provided services other than rating to the issuer rated. All information contained herein must be construed solely as statements of opinion, and ICRA shall not be liable for any losses incurred by users from any use of this publication or its contents.
