SpiceJet shares tank 10 per cent on DGCA action; hit 2-year low

'No reason or cause of concern,' airline reassures employees

OUR BUREAU

Mumbai, July 28
Stocks of SpiceJet hit over a two-year low of ₹34.60 and slipped 10 per cent during early trade on Thursday. This comes after the company was asked by aviation regulator Directorate General of Civil Aviation (DGCA) to curtail its services by July for eight weeks.

On Wednesday, the aviation watch dog said, "in view of the findings of various spot checks, inspections and the reply to the show cause notice submitted by SpiceJet, it is confident of scaling

up its operations with the onset of the festive season and addressing any concern the regulator may have on priority."

Technical malfunction
SpiceJet's planes were involved in at least eight incidents of technical malfunction between June 19 and July 5.

Meanwhile, Indian carriers reported 478 technical snags between July 1, 2021, and July 30, 2022, according to a Lok Sabha response.

The Minister of Civil Aviation, Jyotiraditya Scindia, in a response to the Lok Sabha said the DGCA had carried out a total of 177 surveillance, 497 spot checks, and 169 night surveillance on engineering and maintenance aspects of scheduled operators during the last one year.

Verma, Vice-President - Human Resources, informed SpiceJet employees, "This is to reassure you that there is no reason or cause of concern," and that operations will remain normal.

No impact on operations
When asked if it made an impact on the company's operations, a source explained, "Due to the lean season most airlines have already curtailed schedule; hence, it won't impact the company's operations per se."

SpiceJet was, in fact, flying only 50 per cent of the schedule due to a shortage of aircraft and aircraft spares. So while it will not impact the operation, it is a dent reputationally.

On Thursday, SpiceJet issued a notice to the exchanges. It said: "SpiceJet is confident of scaling

'SAT' order backs NDTV promoters' stance

'At no point our holding in firm changed or diluted'

Prannoy Roy

OUR BUREAU
New Delhi, July 28
News broadcaster NDTV has said that the recent order of the Securities Appellate Tribunal (SAT) has only backed and reiterated the consistent position of its founders and promoters Radhika and Prannoy Roy that there was no change in the control of the company.

The SAT, while setting aside the order of SEBI on the alleged change of control issue, has made a significant ruling that the transaction has to be considered from a commercial rationale and has to be interpreted in a businesslike manner. Nikhil Gullani, head of legal, NDTV Group, told BusinessLine.

The SAT in its order has reaffirmed the consistent position

disclosure... is neither fraudulent nor found to be an unfair trade practice," he said.

This is further established from the fact that these loan agreements were duly disclosed to SEBI in 2011, pursuant to an enquiry and for over seven years, SEBI made no such allegation being fully satisfied with the contents of the loan agreement, Gullani said.

As on June 30, Radhika and Prannoy Roy and RRRP Holding Private Ltd, hold 61.45 per cent stake in NDTV.

The SAT, while setting aside the order of SEBI on the alleged change of control issue, has made a significant ruling that the transaction has to be considered from a commercial rationale and has to be interpreted in a businesslike manner. Nikhil Gullani, head of legal, NDTV Group, told BusinessLine.

The SAT in its order has reaffirmed the consistent position

loan agreement and call option agreements read with the SAT regulations make it clear that there is no direct or indirect control of NDTV by VCLL.

Fines reduced
It also reduced the fine levied on NDTV by SEBI for non-disclosure of the loan agreement to ₹10 lakh from the earlier ₹5 crore, which it noted was "excessive".

Fereshte Sethia, Senior Partner, ADM Advocates, and arguing counsel on behalf of Prannoy and Radhika Roy in the SAT, said, "The Tribunal accepted the contention of NDTV promoters that there was no change of control in NDTV, but rather that a mere loan had been availed from VCLL by the promoters."

"Whether such a loan, absent a pledge of shareholding, falls within the realm of disclosure obligations, is a pure question of interpretation of law," she added.

FUND DIVERSION CASE

SEBI imposes ₹60-cr fine on Singh brothers, 8 others

PRESS TRUST OF INDIA
Mumbai, July 28
SEBI on Thursday imposed a penalty totaling ₹60 crore on 10 entities, including Malvinder Mohan Singh and Shivinder Mohan Singh, in a case involving the diversion of funds of Religare Finvest.

The regulator levied a penalty of ₹5 crore each on RKC Holding, At Risk Company, Religare Corporate Services (Now Finserve Shared Services), Malv Holdings, Shvi Holdings, ANR Securities, Sunil Godhwan and Anil Saxena.

In addition, the Singh brothers have been barred from the securities market for three years, or till the recovery of the diverted money along with interest, while other entities have been prohibited for two years. They have been directed to pay the penalty within 45 days, according to SEBI order.

The case relates to the diversion of funds from operations to Religare Enterprises Ltd (REL), a subsidiary of Religare Enterprises Ltd (REL), during FY 2014-15 till FY 2017-18, in the garb of loans through layers of entities for the ultimate benefits of entities controlled by the erstwhile promoters - Singh brothers. SEBI noted that these diverted funds never came back to REL. The diversion of funds was never disclosed to the shareholders of REL, which misled them to remain invested in the shares of REL or deal in the securities of REL. Thus, the apparent diversion of funds led to indirect manipulation of the price of shares of REL, SEBI said in its 127-page order.

CHINESE EXEC ALLOWED TO APPROACH LOWER COURT AGAINST TRAVEL BAN

Decide Fast on Huawei CEO Plea: Delhi HC to Trial Court

Take call preferably within 4 weeks, HC tells court; exec seeks quashing of I-T's look-out notice

Raghav Oberoi
@timesgroup.com

New Delhi: The Delhi High Court has directed a lower court to decide "as expeditiously as possible" on a plea of Li Xiangwei, chief executive officer of Huawei Technologies (India), seeking quashing of a look-out circular issued against him by the income tax department. A look-out circular, or LOC, prevents a person from travelling abroad. Authorities use it to prevent people accused in criminal cases from fleeing the country.

The trial court "shall consider the application for cancellation of the look-out circular as well as for permission to travel abroad in accordance with law," the High Court said while granting Li the liberty to approach the trial court.

In response, IIT said Li "was a flight risk and did not wish to cooperate" with the department. It also alleged that Li "consistently denied and delayed the proceedings at hand (search), even to the point of non-response."

Li, a Chinese national, was stopped at New Delhi airport earlier this month and fled to Bangkok to attend a meeting on behalf of Huawei Technologies (India). His flight was cancelled and he was held in custody.

Honda to Discontinue 3 Models in India

New Delhi: Japanese carmaker Honda plans to discontinue three models in India, a move that could impact the country's auto industry. The company, which is present in the country through a wholly owned subsidiary, Honda Cars India, will be left with only two models in the top-end City, City Hybrid, fifth generation City and entry-level Amaze. It will also discontinue the three-year-old Avanza. The decision comes as Honda is struggling to meet the demand for its vehicles in India. The company has also announced that it will discontinue the three-year-old Avanza. The decision comes as Honda is struggling to meet the demand for its vehicles in India.

When contacted over the issue, a Honda Cars India spokesperson said, "The company can't comment on the discontinuation of models. Earlier this year, the outsider had announced that it plans to launch an SUV in the country this year. The company is currently in the process of developing the model, it had stated. In December 2021, Honda had announced the closure of manufacturing operations at its Chakan, Mumbai facility as it is producing cars consistently for the collection activities at its second plant at Tarapur in Maharashtra. The Japanese auto major had noted that the steel has been scarce to maintain its manufacturing operations with the goal of increasing its manufacturing - PTI
