PRESS RELEASE

STL reports 20% YoY Revenue Growth; prepares for the future with INR 11,200 + cr Order Book

- 62% of revenues from focus markets - Europe and US
- Records INR 1,575 cr revenue in Q1 FY23
- Maintains a healthy OB of INR 11,200+ cr

Mumbai, 25 July 2022: [STL \[NSE: STLTECH\]](#), one of the industry's leading integrators of digital networks, today announced its financial results for the quarter ending June 30, 2022. The company reported a promising start to the year with revenues of INR 1,575 cr in Q1 FY23 owing to its widespread strength across all of its business operations. Nearly 62% of the total revenue came from its focus markets of US and Europe. Large orders from these markets enabled STL to build a healthy order book of INR 11,200 + cr, further establishing its leadership in these markets.

Increased focus on efficiency and prudent capital management will sustain positive momentum

Network creators, enterprises and Governments across the globe are investing significantly to power 5G, FTTx and data centre deployments. This is leading to an increase in global demand for optical fibre which is predicted to surpass 541 mn fkm in FY22. By enhancing its optical fibre production capacity and building global service capabilities, STL is preparing for this technological revolution.

Growth focused on Optical and Services Businesses:

As STL plans for growth in the coming years, it is sharpening its focus on key areas:

- **Increased focus on Optical Business** - STL has fibre capacity of 50 mn fkm and will increase the cable capacity to 42 mn fkm in FY23. It made great strides in the Optical Interconnect business providing fibre cable plus interconnect accessories as a solution to key customers in the US and Europe. It is also starting its world class manufacturing facility for optical fibre cables in the US, which is expected to go live in Q3 FY23.

- **Expanded Global Services** - STL is working with leading telcos across India and the UK for their 5G and FTTH deployments. In the UK, STL has partnered with leading telcos and alternate network providers and plans to ramp up execution and scale to enable service providers' plans to connect over 60 mn homes by 2030. To meet this massive demand, STL is also building a talent pool by training engineers at STL Academy.

Beyond optical and network services, STL has made advances in programmable Access and Software solutions. It recently introduced new radio, cloud-based billing and next-gen programmable FTTx solutions.

Other significant highlights

1. **Industry-leading technology innovation** - Continuing its focus on technology innovation, STL increased its tally of patents to 742. It continues to invest heavily in new product development with R&D investments amounting to INR 53 cr in Q1 FY23. STL recently established a new 5G innovation research centre in Gurgaon, India, equipped with test and measurement tools for development of open-source radios in line with ITU, 3GPP and O-RAN standards.
2. **Net zero emissions by 2030** - With its continued focus on ESG, STL impacted 700,000+ lives through its social impact initiatives in Q1. The company has reduced emissions of 15,000 tonnes of CO2 equivalent through various initiatives in the plants from FY21 to Q1FY23 and recycled 500,000 cubic meters of water from FY19 to Q1 FY23. With these ESG initiatives, STL is committed to achieve net zero emissions by 2030.
3. **Best People Practices** - Given STL's best-in-class people practices, it was recognized by Economic Times as a '**Future Ready Organisation**' for adapting its organisational structure in a more flexible, integrated, and resilient manner. Gender diversity being at the heart of STL's culture, the company was recognized by Economic Times as '**One of the Best Companies to Work for Women in Tech**'.

Commenting on the results, Ankit Agarwal, Managing Director, STL, said "Our global footprint, technology-led solutions, and effective supply chain management continue to be major contributors to our growth. With increased focus on efficiency and prudent capital management, we expect to sustain this positive momentum. As ubiquitous networks are built in this decade, we are fortunate to play a significant role in transforming billions of lives through digital networks."

About STL - Sterlite Technologies Ltd:

STL is one of the industry's leading integrators of digital networks. Our capabilities across optical networking, services, software, and wireless connectivity place us amongst the top optical players in the world. These capabilities are built on converged architectures helping telcos, cloud companies, citizen networks, and large enterprises deliver next-gen experiences to their customers. STL partners with service providers globally in achieving a green and sustainable digital future in alignment with UN SDG goals.

STL has a strong global presence in India, Italy, the UK, the US, China, and Brazil.

Demand

- China Carriers combined loose tube tender volumes in 2021-22 reached 235 mn.fkm, which is 17% increase than 2020-21
- 5G continues to drive fibre demand. China expects 5G users to reach 900 mn. by 2025
- FTTH build and connecting last 5% of population can be very fibre intensive due to rural localities

Supply

- As per CRU, most major fibre and cable suppliers are running at high utilizations for operational capacity in both fibre and cables
- Trade barriers including anti dumping duties posed by EU and US is leading Chinese players to focus away from these markets.
- Growing Protectionism leading to local manufacturing. E.g. IJJA in US requires 55% domestic sourced material

Q1 FY23 saw inflation headwinds continue in major raw materials, However logistics cost has started to ease;

- Raw material prices particularly polymer prices linked to crude oil have strengthened in Q1 FY23
- Gas (LNG and Helium) prices have also exhibited increases. Helium gas prices have increased sharply in recent quarters due to production problems at major US and Russian suppliers.
- Logistics cost have started to come down towards the end of Q1 FY23

Revenue grows 20 % y-o-y in Q1 FY23; Operating margins improve QoQ

1. The above results have been reviewed by the Audit Committee. The Board of Directors at its meeting held on July 25, 2022 have approved the above results.
2. The above statement has been prepared in accordance with the Companies (Indian Accounting Standards) Rules, 2015 (Ind-AS) prescribed under section 133 of the Companies Act, 2013 and other recognised accounting practices and policies to the extent applicable.
3. The Group has only one operating segment which is Connectivity and Network Solutions. Accordingly, separate segment information is not required to be disclosed.
4. For the year ended March 31, 2022, the amount of ₹ 16 crores reported under exceptional items in the financial results includes profit of ₹ 67 crores recognised on account of transfer of land situated at Hyderabad, provision of ₹ 14 crores with respect to an order against the Group for claim filed by a vendor for non-fulfilment of certain contractually agreed off take obligations, a charge of ₹ 8 crores towards cancellation of a lease agreement by STI US (wholly owned subsidiary) and an impairment charge of ₹ 29 crores for the assets of JSTFCL (a subsidiary) basis the assessment of recoverable value of assets performed by management.

Also, during the year ended March 31, 2022, the Group recorded an additional provision of ₹ 64 crores based on final settlement with the customer for supplies made in the previous years by an adjustment to revenue from operations. The Group has also recorded additional provision of ₹ 116 crores relating to ongoing projects based on discussions and negotiations with the customer and vendors.

5. The Group is developing cutting edge 5G ready, open and programmable wireless solutions. These include 5G small cells, 5G multi band macro radios, RAN intelligent controller, programmable fiber to the solution and wifi-6 access solution. During the quarter ended June 30, 2022, the Group has made a net investment of ₹ 77 crores on the wireless solutions (quarter ended June 30, 2021 - ₹ 48 crores), of which ₹ 57 crores (quarter ended June 30, 2021 - ₹ 28 crores) has been spent on product development which is charged to the statement of profit and loss and ₹ 20 crores (quarter ended June 30, 2021 - ₹ 20 crores) is spent on developing 5G testing lab, which has been capitalised.
6. Profit from discontinued operations pertains to Maharashtra Transmission Communication Infrastructure Limited (MTCIL), erstwhile subsidiary of the Group. During the quarter and year ended March 31, 2022, the Group sold investment in MTCIL and recognised a gain of ₹ 26 crores as other income.

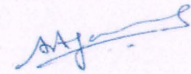

7. The Group, on July 27, 2021 (the "Acquisition date") entered into a share purchase agreement to acquire 100% stake in Clearcomm Group Limited (UK). The Group acquired 80% of the shares of Clearcomm Group Limited for a purchase consideration of GBP 11 million. The Group recognised a provisional goodwill of GBP 9 million during the year ended March 31, 2022 pending completion of purchase price allocation. During the quarter ended June 30, 2022, the Group has completed the allocation of purchase price to identified assets and liabilities as at acquisition date fair value as per Ind AS 103 – Business Combinations. Accordingly, amount of goodwill has been reduced to GBP 6 million on account of increase in the value of identified intangible assets in consolidated balance sheet. Accordingly, previous period numbers have been restated to reflect the measurement period adjustments.

Further, the Group has an obligation to acquire the balance 20% by FY 2022-23 for a consideration based on an earn out model (multiple of EBITDA). Accordingly, the Group has recognised the liability with respect to the redemption amount.

The Group acquired 100% of the shares of Optotec S.p.A. (Optotec) including its wholly owned subsidiary, Optotec International S.A for a purchase consideration of EUR 32 million as per share purchase agreement dated November 02, 2020 as amended on January 08, 2021. During the year ended March 31, 2022, the Group completed the allocation of purchase price to identified assets and liabilities as at acquisition date fair value as per Ind AS 103 – Business Combinations and identified intangible assets and recognised a goodwill of EUR 11 million in consolidated balance sheet. Consequential impact on profit for the previous quarters was recognised in the year ended March 31, 2022.

Due to these acquisitions, the performance of the current period is not comparable to the previous periods disclosed.

8. The Group, on June 28, 2022, has signed a definitive agreement to acquire balance 25% stake in Jiangsu Sterlite Tongguang Fiber Co. Ltd. (JSTFCL). Currently, the Group is holding 75% equity shares of JSTFCL. Post-acquisition of balance 25% equity shares, JSTFCL will become a wholly owned subsidiary of STL. The conditions precedent to the closing of the agreement are in process as on June 30, 2022.

1. We have reviewed the unaudited financial results of Sterlite Technologies Limited (the "Company") for the quarter ended June 30, 2022, which are included in the accompanying Standalone Financial Results for the quarter ended June 30, 2022, together with the notes thereon (the "Statement"). The Statement has been prepared by the Company pursuant to Regulation 33 and Regulation 52 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended (the "Listing Regulations, 2015"), which has been initialled by us for identification purposes. The Statement is the responsibility of the Company's management and has been approved by the Board of Directors. Our responsibility is to issue a report on the Statement based on our review.
2. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity", issued by the Institute of Chartered Accountants of India. This Standard requires that we plan and perform the review to obtain moderate assurance as to whether the Statement is free of material misstatement. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.
3. Based on our review conducted as above, nothing has come to our attention that causes us to believe that the Statement has not been prepared in all material respects in accordance with the applicable Accounting Standards prescribed under Section 133 of the Companies Act, 2013 and other recognised accounting practices and policies and has not disclosed the information required to be disclosed in terms of Regulation 33 and Regulation 52 of the Listing Regulations, 2015 including the manner in which it is to be disclosed, or that it contains any material misstatement.
