ISSUE OF EQUITY SHARES FOR CONSIDERATION OTHER THAN CASH IN THE LAST ONE YEAR

Our Company has not issued Equity Shares for consideration other than cash during the period of one year preceding the date of this Draft Letter of Offer.

SECTION II: RISK FACTORS

An investment in the Equity Shares involves a high degree of risk. You should carefully consider all the information in this Draft Letter of Offer, including the risks and uncertainties described below, before making an investment in the Equity Shares. In making an investment decision, prospective investors must rely on their own examination and the terms of the Issue including the merits and risks involved. The risks described below are not the only ones relevant to us, our Equity Shares, the industry or the segment in which we operate. Additional risks and uncertainties, not presently known to us or that we currently deem immaterial may arise or may become material in the future and may also impair our business, results of operations and financial condition. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business, results of operations, cash flows and financial condition could be adversely affected, the trading price of our Equity Shares could decline, and as prospective investors, you may lose all or part of your investment. You should consult your tax, financial and legal advisors about particular consequences to you of an investment in this Issue. The financial and other related implications of the risk factors, wherever quantifiable, have been disclosed in the risk factors mentioned below. However, there are certain risk factors where the financial impact is not quantifiable and, therefore, cannot be disclosed in such risk factors.

To obtain a complete understanding, you should read this section in conjunction with the sections “Industry Overview”, “Our Business” and “Management’s Discussion and Analysis of Financial Position and Results of Operations” on pages 52, 58 and 120 respectively. The industry-related information disclosed in this section has been derived from publicly available documents from various sources believed to be reliable, but their accuracy and completeness are not guaranteed and their reliability cannot be assured. Neither our Company, nor any other person connected with the Issue has independently verified the information in the industry report or other publicly available information cited in this section.

This Draft Letter of Offer also contains forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and, in the section titled “Forward-Looking Statements” on page 14.

Unless specified or quantified in the relevant risk factors below, we are not in a position to quantify the financial or other implications of any of the risks described in this section. Unless the context requires otherwise, the financial information of our Company has been derived from the Audited Financial Information, prepared in accordance with Ind AS and the Companies Act.

Materiality:

The Risk Factors have been determined on the basis of their materiality. The following factors have been considered for determining the materiality of Risk Factors:

- *Some events may not be material individually but may be found material collectively;*
- *Some events may have material impact qualitatively instead of quantitatively; and*
- *Some events may not be material at present but may have a material impact in future.*

The financial and other related implications of risks concerned, wherever quantifiable have been disclosed in the risk factors mentioned below. However, there are risk factors where the impact may not be quantifiable and hence, the same has not been disclosed in such risk factors. The numbering of the risk factors has been done to facilitate ease of reading and reference and does not in any manner indicate the importance of one risk over another.

In this Draft Letter of Offer, any discrepancies in any table between total and sums of the amount listed are due to rounding off.

INTERNAL RISK FACTORS

1. ***Our Statutory Auditors have qualified standalone and consolidated financial statements of our Company for the financial years ended March 31, 2022 and March 31, 2023.***

Our Statutory Auditors have included the following audit qualification in the standalone and consolidated financial statements for the year ended March 31, 2023:

“The Company is not accounting for liability for Gratuity as required under Indian Accounting Standard 19 (IndAS-19) relating to Employees Benefits as referred to in Note No 28 to financial results. We are unable to comment upon the resultant effect on assets, liabilities, profit / (loss), other comprehensive income / (loss) and total comprehensive income / (loss) for the year as the amount of such benefit is presently not ascertainable.”

2. ***Our Company requires entering into Development Agreement for land developments rights with the owners of the land, which entails certain risks like specific performance of the terms of the agreement, litigations etc. Further, any disruption in the execution of the said agreements due to any reason whatsoever may have adverse effects on our commercial operations and profitability.***

Our Company requires to entering into development agreements for land developments rights with the owners of the land. Such agreements carry risks like specific performance of the terms and covenants of such agreement, project schedules and timelines to be met with, maintaining cordial relationship with the landowners, litigations/disputes etc.

Certain parties granting development rights to us may not have acquired ownership rights or clear title in respect of land that we have categorized as part of our Saleable Area. In addition, we may face practical difficulties in verifying the title of a prospective seller of property or of the landowner or developer. As each transfer in a chain of title may be subject to defects, our title and agreements we will be entering into with landowners for construction on, and development of, land may be subject to various defects which we may not be aware of. Further, our Company may also be required to make partial payments to the landowner for land development rights which our Company may be unable to recover under certain circumstances. Additionally, under our agreements, our development partners are required to aggregate large parcels of land for us to commence developing the project. If these development partners face any difficulties in obtaining or fail to obtain the requisite amount of land, the schedule of development of that project could be substantially disrupted which could have an adverse effect on our business, financial condition and results of operations. Our Company’s inability to acquire land development rights, or if our Company fails to recover the partial payment made by it with respect to such land developments rights, it may adversely affect our Company’s business, financial condition and results of operation.

3. ***Some or all of our ongoing projects may be delayed or may not be completed by their expected completion dates or at all. Such delays may adversely affect our reputation, business, results of operations and financial condition.***

Our Ongoing Projects may be subject to significant changes and modifications from our currently estimated management plans and timelines as a result of factors outside our control, including, among others:

- defects or challenges to land titles;
- failure or delay in securing necessary statutory or regulatory approvals and permits for us to develop our projects;
- inability to complete our projects in agreed time;
- availability of financing;
- occurrence of force majeure events including natural disasters and weather conditions;
- legal proceedings initiated against us, landowners or development partners by individuals or regulatory authorities seeking to restrain development of our projects;
- reliance on third-party contractors and the ability of third parties to complete their services on schedule and in budget; and
- regulatory changes such as changes in development regulations and challenges in interpreting and complying with them.

Such changes and modifications to our timelines may have a significant impact on our ongoing projects, and consequently, we may not develop these projects as contemplated, or at all, which may have an adverse effect on our reputation, business, results of operations and financial condition.

4. *Our business has been relatively concentrated in the Mumbai Metropolitan Region (MMR). Consequently, we are exposed to risks emanating from economic, regulatory and other changes in these locations which we may not be able to successfully manage may adversely affect our business, financial condition, results of operations, and prospects.*

Our project portfolio has been relatively concentrated in the MMR. We generate our entire revenue from our projects which have been set-up in and around MMR. For the Fiscal 2023, Fiscal 2022 and Fiscal 2021, our projects in and around MMR contributed to 100% of our total revenue from operations. This concentration of business subjects us to various risks, including but not limited to:

- (i) regional slowdown in construction activities or reduction in infrastructure projects;
- (ii) vulnerability to change in laws, policies and regulations of the political and economic environment;
- (iii) perception by our potential customers that we are a regional construction company which hampers us from competing for large and complex projects at the national level; and
- (iv) limitation on our ability to implement the strategy to cluster projects in the states where we intend to conduct business.

The concentration of our operations heightens our exposure to adverse developments related to competition, as well as economic, political, demographic and other changes, which may adversely affect our business prospects, financial conditions and results of operations. While we strive to geographically diversify our project portfolio and reduce our concentration risk, we cannot assure you that adverse developments associated with the region will not impact on our business. If we are unable to mitigate the concentration risk, we may not be able to develop our business as planned and our business, financial condition and results of operation could be adversely affected.

5. *Infrastructure projects are typically awarded to us on satisfaction of prescribed pre-qualification criteria and following a competitive bidding process. Our business and our financial condition may be adversely affected if new infrastructure projects are not awarded to us or if contracts awarded to us are prematurely terminated.*

Infrastructure projects are typically awarded to us following a competitive bidding process and satisfaction of prescribed technical and financial pre-qualification criteria. While track record, experience of project execution, service quality, health and safety records, qualified and experienced personnel, reputation and sufficiency of financial resources are important considerations in awarding contracts, there can be no assurance that we would be able to meet such technical and financial qualification criteria, whether independently or together with other joint venture partners. Further, once prospective bidders satisfy the pre-qualification requirements of the tender, the project is usually awarded on the basis of price competitiveness of the bid. We generally incur costs in the preparation and submission of bids, which are one-time, non-reimbursable costs. We cannot assure you that we would bid where we have been pre-qualified to submit a bid, or that our bids, when submitted or if already submitted, would result in projects being awarded to us.

Another factor which may impact the growth of our business is that our clients may terminate their construction agreements for reasons set forth in these agreements. If the client terminates any of our construction agreements, under the relevant agreement it is generally required to compensate us for the amount, depending on the valuation of the unpaid works and the timing of the termination in relation to the payment milestones associated with the respective projects, unless the agreement is terminated pursuant to applicable law or our breach of the terms of the agreement is material. Such compensation process is likely to be time consuming and the amount paid to us may not be fully compensated to us. We cannot assure you that we would receive such amounts on a timely basis or in an amount equivalent to the value of our investment plus our lost profits. While such instances have not occurred in the past, however an early termination of our contracts by our clients may adversely affect our business, results of operation and financial condition.

6. *We may be exposed to liabilities arising from defects during construction of roads, which may adversely affect our business, financial condition, results of operations and prospects.*

Actual or claimed defects in construction quality during the construction of our projects, could give rise to claims, liabilities, costs and expenses. Further, we may not be able to recover such increased costs from our project clients in part, or at all, for any defects observed in the projects or damage caused to the project on account of the fault of our workers. We may further face slight delays in the estimated project completion schedule in respect of such projects on account of additional works required to be undertaken towards rectifying such construction

faults, and we may have to appoint additional workforce and resources in order to complete the project within the pre-determined time period, which may result in increased expenditure for our Company, which we may not be able to pass on to our project clients. While any of the aforementioned events which could materially impact our projects or business operations, have not occurred in the past, however we cannot assure you that any claims in respect of the quality of our construction will not arise in the future and would not affect our business or financial condition. In the event any material events which bring the quality of our services could impact our eligibility to bid for infrastructure projects and other projects may be affected, or in the event any defects in our construction of the roads trigger the extreme circumstances leading to termination or affect public interest, could lead to termination of our contracts blacklisting of our registration as a civil constructor and therefore could adversely affect our business operations and result of operations.

In addition, if there is a client dispute regarding our performance, the client may delay or withhold payment to us. If we were ultimately unable to collect these payments, our profits would be reduced. While there have not been any such instances in the past, however, these claims, liabilities, costs and expenses, if not fully covered, thus could have an adverse effect on our business, financial condition, results of operations, and prospects.

- 7. *Our business requires significant capital expenditure and if we are unable to obtain the necessary funds on acceptable or commercially viable terms, or at all, we may not be able to fund the development of our projects, and land acquisition in certain cases, which may adversely affect our business and results of operations.***

The real estate business is capital intensive, which includes cost of acquisition of joint development rights, land acquisition, project development and other ancillary expenses. In order to fund our business, we rely on operating and financing cash flows such as loans from various banks and financial institutions. Our business and profitability are dependent on our ability to raise adequate financing on commercially viable terms in timely manner, which we may not be able to undertake on a consistent basis going forward. Further, our ability to finance our business through loans from banks and other financial institutions on acceptable terms, or at all, is subject to a number of risks, contingencies and other factors, some of which are beyond our control. If we fail to raise additional funds in such amounts and at such times as we require, we may be forced to reduce our capital expenditures and construction of real estate projects to a level that can be adequately supported by available funds and resources. This could delay the construction of the projects, which may result in our inability to meet certain obligations under our development agreements and may result in a partial or complete loss of investments in the projects. Additionally, the terms of the agreements governing such loans contain a number of financial, affirmative and other covenants which we may not be able to, fulfil. Failure to comply with all or any of such covenants, i.e., a breach of such agreements, may result in the financial institutions withdrawing or declining to provide us with further financing.

- 8. *Our business and future results of operations may be adversely affected if we incur any time or cost overruns while undertaking project development.***

Our business and expansion plans are subject to risks arising out of time and cost overruns which exposes us to certain risks arising out of events such as increase in the cost of raw materials, salaries and wages, fluctuation in demand of real estate projects in the areas in which our ongoing Projects are located, change in regulatory framework in which we operate, occurrence of any of which may lead to time and cost overruns. In the event that we incur significant time and cost overruns, our financial condition and results of operations may be adversely affected. Additionally, we may fail to achieve our expected economic benefits from such projects which could adversely affect our business, prospects, financial condition and results of operations.

- 9. *There are certain legal proceedings involving our Company, Directors and Promoter, an adverse outcome in which, may have an adverse impact on our reputation, business, financial condition, results of operations and cash flows.***

10. *The Construction industry is intensely competitive and our inability to compete effectively may adversely affect our business, results of operations, financial condition and cash flows.*

We face significant competition from a number of real estate developers that operate in the same geographic regions in which we operate. Important considerations that impact customer decisions include pricing, reputation, location of the project and facilities offered by the developer. Certain of our competitors may be larger than us, better renowned, have more financial resources, expertise or benefit from a more experienced management team. Further, the premium placed in the real estate market on companies with experience may lead some of the new market entrants to accept lower margins in order to establish themselves. There can be no assurance that we will be able to continue to compete effectively with our competitors in the future, which may have an adverse effect on our business, results of operations, financial condition and cash flows.

11. *The construction and development of our projects require the services of third parties, including service providers, suppliers and independent contractors, which entail certain risks.*

For the purposes of construction and development of our projects, we engage third parties such as architects, engineers, contractors and suppliers of labour and materials. We do not have direct control over the day-to-day activities of such contractors and are reliant on such contractors performing these services in accordance with our expectations and the relevant construction contracts. The time of completion and quality of construction of the projects that we develop depends, in part, on the availability and skill of these third parties, as well as other contingencies affecting them, including labour and raw material shortages and industrial action such as strikes and lockouts. Any consequent delay in project execution could materially and adversely affect our business, prospects, financial condition, and results of operations. Additionally, if a contractor or supplier becomes insolvent, it may be impossible for us to recover compensation for any defective work undertaken or materials supplied, as applicable, by such third parties and we may incur losses as a result of funding the repair of the defective work or products or paying damages to persons who have suffered a loss as a result of such defective work products. Further, customarily, we do not enter into formal long term supply contracts with such third parties. However, any unexpected issues in our relationship with any such third party may require us to source services or materials from alternate sources, which we may not be able to do in a timely manner or on commercially viable terms, if at all, which may adversely affect our business and results of operations.

12. *The majority of Issue proceeds will be utilized by our Company for full or part - repayment of unsecured loans availed by our Company.*

The main object of this Issue is to repay either fully or a portion of the unsecured loans availed by our Company from our Promoters amounting to approximately ₹412.29 lakhs. As on June 30, 2023, we have outstanding unsecured loans aggregating to ₹412.29 lakhs. To the extent that the issue proceeds will be used to repay the unsecured loans, no capital assets will be created in the Company. For further details on the repayment of unsecured loans availed from promoters, see “*Objects of the Issue*” beginning on page 46 of this Draft Letter of Offer.

13. *Our registered office is not owned by us and is at leased basis. In the event of termination or non-renewal of the leases, our business may be affected.*

Our Company does not own the premises at which our Registered Office is located i.e. Ground Floor, Avighna Heights, Survey No. 45-4B, Behind Sarvoday Park, Nandivali Road, Dombivali East, Thane – 421201 Maharashtra, India. We have taken premises on lease with a third party and pay rent for the occupation of the premises. We may not be able to renew the lease on favourable terms or at all. In the event that the lessor requires us to vacate the premises, we will have to seek new premises at short notice and for a price that may be higher than the price we are currently paying which could temporarily affect our ability to conduct business and increase our operating costs.

14. *We are required to renew, maintain or obtain statutory and regulatory permits, licenses and approvals for our operations from time to time. Any delay or inability to obtain such approvals may have an adverse impact on our business.*

We require certain statutory and regulatory permits, licenses and approvals to operate our business. We have made renewal applications for certain approvals or licenses that have expired. If we fail to obtain necessary approvals we require to operate, or if there is any delay in obtaining these approvals, our business and financial condition may be adversely affected. Further, these permits, licenses and approvals are subject to several conditions, and there is no assurance that we will be able to continuously meet such conditions or be able to prove compliance with such conditions to the statutory authorities, which may lead to cancellation, revocation or suspension of relevant permits, licenses or approvals. Any interruption of our operations caused by our statutory and regulatory

permits, licenses and approvals could adversely affect our business, prospects, financial condition and results of operations.

- 15. We have incurred losses in Fiscal 2022 and Fiscal 2023. Continuous financial losses incurred by us may be perceived adversely by external parties such as clients and bankers, which could affect our reputation, business, financial condition and results of operation.**

Our Company has incurred losses in Fiscal 2022 and Fiscal 2023. The loss incurred in Fiscal 2022 is attributable largely due to the foray into a new activity post the takeover of the management of the Company by the current promoters, the details of which are provided below:

(₹ in lakhs)

Particulars	
Profit/ (Loss) incurred during the Fiscal 2022	(43.77)
Profit/ (Loss) incurred during the Fiscal 2023	(6.98)

There can be no assurance that we will not incur losses in any future periods, or that there will not be an adverse effect on our reputation or business as a result of such losses. Such losses incurred by us may be perceived adversely by external parties such as customers, bankers, and suppliers, which could affect our reputation.

- 16. Our Company has experienced negative cash flow in the past and may continue to do so in the future, which could have a material adverse effect on our business, prospects, financial condition, cash flows and results of operations.**

Our Company has experienced negative net cash flow in operating, investing and financing activities in the past, the details of which are provided below:

(₹ in lakhs)

Particulars	March 31, 2023	March 31, 2022	March 31, 2021
	Consolidated, Audited		
Net Cash Flow from/ (used in) Operating Activities	(150.81)	(174.15)	193.62
Net Cash Flow used in Investing Activities	(144.96)	(203.76)	(424.57)
Net Cash Flow used in Financing Activities	298.87	378.30	225.50

We may incur negative cash flows in the future which may have a material adverse effect on our business, prospects, results of operations and financial condition.

- 17. We have entered into, and will continue to enter into, related party transactions.**

We may in the course of our business enter into transactions with related parties. While we believe that all such transactions have been conducted on an arms-length basis and in compliance with the provisions of the Companies Act, there can be no assurance that we could not have achieved more favourable terms had such transactions not been entered into with related parties. Furthermore, it is likely that we may enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have adversely affect our business, prospects, financial condition and results of operations.

For details regarding our related party transactions as per Ind AS 24 entered into by our Company in Fiscal 2023, please see “Financial Statements” - Related party transactions” on page 101.

- 18. We have not been paying dividends in the past and our ability to pay dividends in the future may be affected by any material adverse effect on our future earnings, financial condition or cash flows.**

Our ability to pay dividends in future will depend on our earnings, financial condition and capital requirements. We may be unable to pay dividends in the near or medium term, and our future dividend policy will depend on our capital requirements and financing arrangements in respect of our operations, financial condition and results of operations. We have not paid dividends in the past and there can be no assurance that our Company will declare dividends in the future also.

19. *Our business activities are labour intensive and depend on availability of skilled and unskilled labourers in large numbers. In case of unavailability of such labourers and / or inability to retain such personnel or occurrence of any work stoppages, our business operations could be affected.*

We operate in a labour intensive industry and our contractors hire casual labour to work on our projects. In the event of a labour dispute, if our contractors are unable to successfully negotiate with the workmen or sub-contractors, it would result in work stoppages or increased operating costs. It may also be difficult to procure the required skilled workers for existing or future projects. In addition we may also be liable for or exposed to sanctions, penalties or losses arising from accidents or damages caused by our workers or contractors. Though we have not experienced any major disruptions in our business operations due to disputes or other problems with our work force in the past; however there can be no assurance that we will not experience such disruptions in the future. Such disruptions may adversely affect our business and results of operations and may also divert the management's attention and result in increased costs. India has stringent labour legislation that protects the interests of workers, including legislation that sets forth detailed procedures for the establishment of unions, dispute resolution and employee removal and legislation that imposes certain financial obligations on employers upon retrenchment. We are also subject to laws and regulations governing relationships with employees, in such areas as minimum wage and maximum working hours, overtime, working conditions, hiring and terminating of employees and work permits. Although our employees are not currently unionized, there can be no assurance that they will not unionize in the future. If our employees unionize, it may become difficult for us to maintain flexible labour policies, and we may face the threat of labour unrest, work stoppages and diversion of our management's attention due to union intervention, which may have a material adverse impact on our business, results of operations and financial condition.

20. *If we do not comply with certain environmental regulations or if environmental problems are discovered in respect of our projects, it may adversely affect our business, financial condition and results of operations.*

The construction of projects is subject to extensive environmental laws and regulations, which govern the discharge, emission, storage, handling and disposal of a variety of substances that may be used in or result from the operations of our businesses. Such laws and regulations include the Environmental Protection Act 1986, the Air (Prevention and Control of Pollution) Act 1981, the Water (Prevention and Control of Pollution) Act 1974 and other regulations promulgated by the Ministry of Environment and the Pollution Control Boards of the relevant states. Further, in accordance with such laws, we are required to conduct an environmental assessment on most of our projects before we receive a regulatory approval. In case such environmental assessments reveal material environmental risks, we may not receive the required regulatory approvals. Additionally, if environmental problems are discovered during or after completion of project development, we may have to incur substantial liabilities relating to the "clean-up" and other remedial measures, which may affect the value of such properties.

Environmental regulation in India is likely to become more stringent in the future. The scope and extent of new environmental regulations, including their effect on our operations, cannot be predicted with certainty at this point in time. The measures we implement in order to comply with these new laws and regulations may not be deemed sufficient by government entities and our compliance costs may significantly exceed our estimates. If we fail to meet environmental requirements, we may also be subject to administrative, civil or criminal proceedings by government entities that could result in substantial fines and penalties against us as well as revocation of approvals and permits and orders, which could all adversely affect our operations.

21. *Our operations and our workforce are exposed to various hazards, and we are exposed to risks arising from construction related activities that could result in material liabilities, increased expenses and diminished revenues.*

There are certain unanticipated or unforeseen risks that may arise in the course of property development due to adverse weather and geological conditions such as storm, hurricane, lightning, flood, landslide and earthquake. Additionally, our operations are subject to hazards inherent in providing architectural and construction services, such as the risk of equipment failure, impact from falling objects, collision, work accidents, fire or explosion, including hazards that may cause injury and loss of life, severe damage to and destruction of property and equipment, and environmental damage.

22. *The land over which we have development rights may be affected by changes in approved land use policies.*

If there are any changes in approved land use policies, some of the land on which we hold development rights may be re-characterized to their original use by the Government or relevant state or local authorities. It is possible that even in government-approved urban master plan areas, designation and characterization of land as commercial, residential or otherwise, may change. If, after applying for or obtaining approvals to develop such land, we are unable to use the land for the development for which the land was acquired, we may be required to modify, delay or abandon certain elements of that development, or the development in its entirety, which could have an adverse effect on the relevant project, and materially and adversely affect our business, prospects, financial condition and results of operations.

23. *Our promoter will continue to retain significant shareholding in our Company after the issue, which will enable them to exercise significant control over us.*

After the completion of the Issue, our Promoter, will continue to exercise significant control over us, including being able to control the composition of our Board of Directors and affect the outcome of shareholder voting. As a result, our Promoter may take or block actions with respect to our business, which may conflict with our interests or the interests of our minority shareholders.

24. *The management of our Company is dependent upon our senior management, directors and key personnel.*

We operate in an industry where the quality of our people is a critical asset. We benefit significantly from the vision, strategic guidance, experience and skills of several key members of our management team, which includes our Promoter, supported by the skills, efforts, expertise, continued performance and motivation of our Key Management Personnel, and other personnel. If any of our Promoter, Key Management Personnel cease to be associated with our Company and we fail to recruit suitable replacements in a timely manner, our ability to manage our growth and our business, results of operations and prospects may be adversely affected.

25. *Insurance coverage has not taken by our company, as a result of which the loss or destruction of our assets could have a material adverse effect on our financial condition and results of operations.*

In relation to the projects under construction, we have not taken insurance policies which we believe are required, mainly to cover the risk of third party and other unforeseen events and also to cover the various labourers working on site. We may face uninsured risks to the extent of loss or destruction to our assets or to various labourers working at the site. Further, if we may suffer any losses, damages and liabilities in the course of our operations and in our project development. such uninsured losses or liabilities could result in a material adverse effect on our business operations, financial conditions and results of operations.

26. *We may not be able to adequately protect our intellectual property, which could harm the value of our brand and services and adversely affect our business, financial condition, results of operations, cash flows and prospects.*

We consider our brand and intellectual property to be one of our most valuable assets and we believe the strength of our brand gives us a competitive advantage. We use our intellectual property rights to protect the goodwill of our brand, promote our brand name, enhance our competitiveness and otherwise support our business goals and objectives. Our business is dependent upon successfully protecting our intellectual property, including but not limited to our trademarks, copyright and patents. As part of our efforts towards ensuring their protection, we have successfully registered several trademarks including the word mark 'KINU' and its variations and formatives including its various logo marks s. We have also received objections to certain trademarks for which we have made applications for registration. We do not have any control over the registration of a trademark and a pending mark may not be granted registration for various reasons including being descriptive, non-distinctive or similar to a prior trademark.

Furthermore, a pending trademark may also be opposed by third parties that claim to have similar marks, as is the case with two of our applications. Such actions are not within our control and can severely impact business and may result in requirement to undertake rebranding exercises, all of which result in additional costs for our Company and could also impact our reputation. A party could also proceed against a registered trademark and

request for its cancellation on various grounds which include bad faith use and non-use for a period of five years from grant of registration.

27. *We have delayed deposit of statutory dues in the past.*

We have been irregular in depositing statutory dues in the past and have paid interest for the delayed period. For instance, during the financial year ended March 31, 2023, we have paid interest on delay in the deposit of statutory dues to the extent of ₹ 0.30 lakhs.

28. *An amount of ₹. 0.62 Lakhs was outstanding to MSME Companies as at the end of March 31, 2023.*

An amount of ₹ 0.62 Lakhs was outstanding to MSME as at the end of March 31, 2023.

29. *We are a listed company and are required to comply with rules and regulations imposed by the Stock Exchange and SEBI with respect to continuous listing and the Companies Act. Any failure to comply with such rules and regulations or any wrong disclosure made to the Stock Exchange, or any statutory authority could result in penalties being imposed on us, which may adversely affect our business and operations.*

As a listed company, we are required to comply with certain conditions for continuous listing under the SEBI Listing Regulations and other rules and regulations imposed by SEBI, which require us to make certain periodic disclosures, including disclosures about any material events or occurrences with respect to our Company, disclosure of our financial statements and disclosure of our updated shareholding pattern. Any failure to comply with these continuous disclosure requirements or any wrongful disclosure made by us to the Stock Exchange, or any other statutory authority may lead to penalties being imposed on us.

We believe, we are in compliance with rules and regulations imposed by the BSE and SEBI with respect to continuous listing, any failure to comply with such rules and regulations or any wrong disclosure/ Non filing to the BSE or any statutory authority could result in penalties being imposed on us, which may adversely affect our business and operations.

30. *Our funding requirements and the proposed deployment of Net Proceeds have not been appraised by a public financial institution or a scheduled commercial bank and our management will have broad discretion over utilization of the Net Proceeds.*

Our Company proposes to utilize the Net Proceeds for repayment of unsecured loan and general corporate purposes. Our proposed deployment of Net Proceeds has not been appraised by a public financial institution or a scheduled commercial bank and is based on management estimates. Our management will have broad discretion to use the Net Proceeds. Various risks and uncertainties, including those set forth in this section, may limit or delay our efforts to use the Net Proceeds to achieve profitable growth in our business. We cannot assure you that use of the Net Proceeds to meet our future capital requirements, fund our growth and for other purposes identified by our management would result in actual growth of our business, increased profitability or an increase in the value of our business.

31. *The deployment of funds is entirely at our discretion and as per the details mentioned in the chapter titled "Objects of the Issue".*

As the Issue size is not more than ₹10,000 lakhs, under Regulation 82 of the SEBI ICDR Regulations it is not required that a monitoring agency be appointed by our Company, for overseeing the deployment and utilization of funds raised through this Issue. Therefore, the deployment of the funds towards the Objects of this Issue is entirely at the discretion of our Board of Directors and is not subject to monitoring by external independent agency. Our Board of Directors along with the Audit Committee will monitor the utilization of Issue proceeds and shall have the flexibility in applying the proceeds of this Issue. However, the management of our Company shall not have the power to alter the objects of this Issue except with the approval of the Shareholders of the Company given by way of a special resolution in a general meeting, in the manner specified in Section 27 of the Companies Act, 2013. Additionally, the dissenting shareholders being those shareholders who have not agreed to the proposal to vary the objects of this Issue, our Promoters shall provide them with an opportunity to exit at such price, and in such manner and conditions as may be specified by the SEBI, in respect to the same.

32. *We are subject to cyber security risks and security breaches and may incur increasing costs in an effort to minimize those risks and to respond to cyber incidents.*

A number of other companies have disclosed cyber-attacks and security breaches, some of which have involved intentional attacks. Attacks may be targeted at us, our customers, or both. Although we devote significant resources to maintain and regularly upgrade our systems and processes that are designed to protect the security of our computer systems, software, networks and other technology assets and the confidentiality, integrity and availability of information belonging to us and our customers, our security measures may not provide absolute security. Despite our efforts to ensure the integrity of our systems, it is possible that we may not be able to anticipate or to implement effective preventive measures against all security breaches of these types, especially because the techniques used change frequently or are not recognized until launched, and because cyber-attacks can originate from a wide variety of sources, including third parties outside the Company such as persons who are involved with organized crime or associated with external service providers or who may be linked to terrorist organizations or hostile foreign governments. A successful penetration or circumvention of the security of our systems could cause serious negative consequences, including significant disruption of our operations, misappropriation of our confidential information or that of our customers, or damage to our computers or systems or those of our customers and counterparties, and could result in violations of applicable privacy and other laws, financial loss to us or to our customers, loss of confidence in our security measures, customer dissatisfaction, significant litigation exposure, and affect to our reputation, all of which could have a material adverse effect on us.

Our servers are also vulnerable to computer viruses, physical or electronic break-ins, and similar disruptions. We may need to expend significant resources to protect against security breaches or to address problems caused by breaches. Security breaches, including any breach of our systems or by persons with whom we have commercial relationships that result in the unauthorized release of customers' or businesses' personal information, could damage our reputation and expose us to a risk of loss or litigation and possible liability.

33. *Failure to stay up to date with technological changes, as well as the uses and regulation of the internet, might be detrimental to our Company.*

The industry is very dynamic and fresh. We must keep up with changing technical breakthroughs, customer and small company usage habits, internet security threats, system failure or inadequacy hazards, and governmental regulation and taxation, all of which could have a negative influence on our entity.

If we are unable to adequately react to such developments, decreased demand for our products could result in a loss of revenues or a fall in profitability. The demand for our products could fall as a result of a variety of factors, including regulatory restrictions that limit customer access to specific products, the availability of competing or alternative products, or changes in customers' financial circumstances, such as increases in income or savings. Our revenues could be severely reduced if we fail to adjust to a significant change in our clients' desire for, or access to, our products. Customers may refuse or reject products whose changes make them less appealing or less available, even if we make adjustments or launch new products to meet customer demand.

34. *The COVID-19 pandemic has had, and may in the future continue to have, and any similar pandemic situations that may arise in the future, may have a material adverse impact on our business, results of operations, financial condition and cash flows.*

The global spread and unprecedented impact of the ongoing COVID-19 pandemic continues to create significant volatility, uncertainty and economic disruption. The pandemic has led governments and other authorities around the world to implement significant measures intended to control the spread of the virus, including lockdowns, shelter-in-place orders, social distancing measures, business closures or restrictions on operations, quarantines, travel bans and restrictions and multi-step policies with the goal of re-opening these markets. These responsive measures have severely disrupted economic and commercial activity tied to the production and sale of goods, which have impacted supply chains and routes, and, as a result, supply chain companies such as ours have experienced uncertainty and volatility. The scope, duration, and frequency of the measures implemented and the adverse effects of COVID-19 remain uncertain and could be severe. If COVID-19 infection rates resurge and the pandemic intensifies and expands geographically, its negative impacts on our business, operating expenses, gross profit and gross margin could be more prolonged and may become more severe.

35. *We have not commissioned an industry report for the disclosures made in the chapter titled “Industry Overview” and made disclosures on the basis of the data available on the internet and such data has not been independently verified by us.*

We have neither commissioned an industry report, nor sought consent from the quoted website source for the disclosures which need to be made in the chapter titled “Industry Overview” of this Draft Letter of Offer. We have made disclosures in the said chapter on the basis of the relevant industry related data available online for which relevant consents have not been obtained. We have not independently verified such data. We cannot assure you that any assumptions made are correct or will not change and, accordingly, our position in the market may differ from that presented in this Draft Letter of Offer. Further, the industry data mentioned in this Draft Letter of Offer or sources from which the data has been collected are not recommendations to invest in our Company. Accordingly, investors should read the industry related disclosure in this Draft Letter of Offer in this context.

EXTERNAL RISK FACTORS

36. *Significant differences exist between Ind AS, Indian GAAP and other accounting principles, such as US GAAP and IFRS, which investors may be more familiar with and consider material to their assessment of our financial condition.*

Our audited summary statements of assets and liabilities as at March 31, 2023 and audited summary statements of profit and loss (including other comprehensive income), cash flows and changes in equity for the Financial Year 2023 have been prepared in accordance with the Ind AS, read with the Ind AS Rules and in accordance with the SEBI ICDR Regulations, the SEBI Circular and the Prospectus Guidance Note.

We have not attempted to quantify the impact of US GAAP, IFRS or any other system of accounting principles on the financial data included in this Letter of Offer, nor do we provide a reconciliation of our financial statements to those of US GAAP, IFRS or any other accounting principles. US GAAP and IFRS differ in significant respects from Ind AS and Indian GAAP. Accordingly, the degree to which the Audited Financial Information included in this Draft Letter of Offer will provide meaningful information is entirely dependent on the reader’s level of familiarity with Ind AS, Indian GAAP and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting practices on the financial disclosures presented in this Draft Letter of Offer should accordingly be limited.

37. *Political, economic or other factors that are beyond our control may have adversely affect our business and results of operations.*

The Indian economy is influenced by economic developments in other countries. These factors could depress economic activity which could have an adverse effect on our business, financial condition and results of operations. Any financial disruption could have an adverse effect on our business and future financial performance.

We are dependent on domestic, regional and global economic and market conditions. Our performance, growth and market price of our Equity Shares are and will be dependent to a large extent on the health of the economy in which we operate. There have been periods of slowdown in the economic growth of India. Demand for our services may be adversely affected by an economic downturn in domestic, regional and global economies.

Economic growth is affected by various factors including domestic consumption and savings, balance of trade movements, namely export demand and movements in key imports, global economic uncertainty and liquidity crisis, volatility in exchange currency rates, and annual rainfall which affects agricultural production.

Consequently, any future slowdown in the Indian economy could harm our business, results of operations and financial condition. Also, a change in the government or a change in the economic and deregulation policies could adversely affect economic conditions prevalent in the areas in which we operate in general and our business in particular and high rates of inflation in India could increase our costs without proportionately increasing our revenues, and as such decrease our operating margins.

38. *A slowdown in economic growth in India could cause our business to suffer.*

We are incorporated in India, and all of our assets and employees are located in India. As a result, we are highly dependent on prevailing economic conditions in India and our results of operations are significantly affected by

factors influencing the Indian economy. A slowdown in the Indian economy could adversely affect our business, including our ability to grow our assets, the quality of our assets, and our ability to implement our strategy.

Factors that may adversely affect the Indian economy, and hence our results of operations, may include:

- any increase in Indian interest rates or inflation;
- any scarcity of credit or other financing in India;
- prevailing income conditions among Indian consumers and Indian corporations;
- changes in India's tax, trade, fiscal or monetary policies;
- political instability, terrorism or military conflict in India or in countries in the region or globally, including in India's various neighbouring countries;
- prevailing regional or global economic conditions; and
- other significant regulatory or economic developments in or affecting India

Any slowdown in the Indian economy or in the growth of the sectors we participate in or future volatility in global commodity prices could adversely affect our borrowers and contractual counterparties. This in turn could adversely affect our business and financial performance and the price of our Equity Shares.

39. *Financial instability in both Indian and international financial markets could adversely affect our results of operations and financial condition.*

The Indian financial market and the Indian economy are influenced by economic and market conditions in other countries, particularly in emerging market in Asian countries. Financial turmoil in Asia, Europe, the United States and elsewhere in the world in recent years has affected the Indian economy. Although economic conditions are different in each country, investors' reactions to developments in one country can have an adverse effect on the securities of companies in other countries. A loss in investor confidence in the financial systems of other emerging markets may cause increased volatility in the Indian economy in general. Any global financial instability, including further deterioration of credit conditions in the U.S. market, could also have a negative impact on the Indian economy. Financial disruptions may occur again and could harm our results of operations and financial condition.

The Indian economy is also influenced by economic and market conditions in other countries. This includes, but is not limited to, the conditions in the United States, Europe and certain economies in Asia. Financial turmoil in Asia and elsewhere in the world in recent years has affected the Indian economy. Any worldwide financial instability may cause increased volatility in the Indian financial markets and, directly or indirectly, adversely affect the Indian economy and financial sector and its business.

Although economic conditions vary across markets, loss of investor confidence in one emerging economy may cause increased volatility across other economies, including India. Financial instability in other parts of the world could have a global influence and thereby impact the Indian economy. Financial disruptions in the future could adversely affect our business, prospects, financial condition and results of operations. The global credit and equity markets have experienced substantial dislocations, liquidity disruptions and market corrections.

There are concerns that a tightening of monetary policy in emerging markets and some developed markets will lead to a moderation in global growth. In response to such developments, legislators and financial regulators in the United States and other jurisdictions, including India, have implemented a number of policy measures designed to add stability to the financial markets. However, the overall long-term impact of these and other legislative and regulatory efforts on the global financial markets is uncertain, and they may not have had the intended stabilizing effects. Any significant financial disruption in the future could have an adverse effect on our cost of funding, business, future financial performance and the trading price of the Equity Shares.

40. *Inflation in India could have an adverse effect on our profitability and if significant, on our financial condition.*

Inflation rates in India have been volatile in recent years, and such volatility may continue in the future. India has experienced high inflation in the recent past. Increased inflation can contribute to an increase in interest rates and increased costs to our business, including increased costs of salaries, and other expenses relevant to our business.

High fluctuations in inflation rates may make it more difficult for us to accurately estimate or control our costs. Any increase in inflation in India can increase our expenses, which we may not be able to pass on to our customers,

whether entirely or in part, and the same may adversely affect our business and financial condition. In particular, we might not be able to reduce our costs or increase our rates to pass the increase in costs on to our customers. In such case, our business, results of operations, cash flows and financial condition may be adversely affected.

Further, the GoI has previously initiated economic measures to combat high inflation rates, and it is unclear whether these measures will remain in effect. There can be no assurance that Indian inflation levels will not worsen in the future.

41. *Foreign investors are subject to foreign investment restrictions under Indian law that limits our ability to attract foreign investors, which may adversely impact the market price of the Equity Shares.*

As an Indian company, we are subject to exchange controls that regulate borrowing in foreign currencies, including those specified under FEMA. Such regulatory restrictions limit our financing sources for our projects under development and hence could constrain our ability to obtain financing on competitive terms and refinance existing indebtedness. In addition, we cannot assure you that the required approvals will be granted to us without onerous conditions, or at all. Limitations on foreign debt may adversely affect our business growth, results of operations and financial condition.

Further, under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain exceptions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or fall under any of the exceptions referred to above, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/ tax clearance certificate from the income tax authority. There can be no assurance that any approval required from the RBI or any other government agency can be obtained on any particular terms or at all.

42. *Any downgrading of India's debt rating by an independent agency may harm our ability to raise financing.*

Any adverse revisions to India's credit ratings international debt by international rating agencies may adversely affect our ability to raise additional overseas financing and the interest rates and other commercial terms at which such additional financing is available. This could have an adverse effect on our ability to fund our growth on favourable terms or at all, and consequently adversely affect our business and financial performance and the price of our Equity Shares.

43. *The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.*

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions including wars amongst nations like the current Russia Ukraine and Israel Hamas conflict could adversely affect our results of operations, cash flows or financial condition. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business.

Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

ISSUE SPECIFIC RISKS

44. *Our Company will not distribute the Letter of Offer and Application Form to certain overseas Shareholders who have not provided an address in India for service of documents.*

Our Company will dispatch the Letter of Offer, the Abridged Letter of Offer, Rights Entitlement Letter and Application Form (the "**Offering Materials**") to such Shareholders who have provided an address in India for the

service of documents. The Offering Materials will not be distributed to addresses outside India on account of restrictions that apply to the circulation of such materials in various overseas jurisdictions. However, the Companies Act requires companies to serve documents at any address, which may be provided by the members as well as through e-mail. Presently, there is a lack of clarity under the Companies Act and the rules thereunder, with respect to the distribution of Offering Materials to retail individual shareholders in overseas jurisdictions where such distribution may be prohibited under applicable laws of such jurisdictions.

45. SEBI has by way of circulars dated January 22, 2020, May 6, 2020, January 19, 2021, April 22, 2021, October 01, 2021 and May 19, 2022, streamlined the process of rights issues. You should follow the instructions carefully, as stated in such SEBI circulars and in this Letter of Offer.

The concept of crediting Rights Entitlements into the demat accounts of the Eligible Equity Shareholders has recently been introduced by the SEBI. Accordingly, the process for such Rights Entitlements has been recently devised by capital market intermediaries. Eligible Equity Shareholders are encouraged to exercise caution, carefully follow the requirements as stated in the SEBI circulars dated January 22, 2020, May 6, 2020, January 19, 2021, April 22, 2021, October 01, 2021 and May 19, 2022 and ensure completion of all necessary steps in relation to providing/updating their demat account details in a timely manner. For details, see “Terms of the Issue” on page 174 of this Letter of Offer.

In accordance with Regulation 77A of the SEBI ICDR Regulations read with the SEBI Rights Issue Circular, the credit of Rights Entitlements and Allotment of Rights Equity Shares shall be made in dematerialized form only. Prior to the Issue Opening Date, our Company shall credit the Rights Entitlements to (i) the demat accounts of the Eligible Equity Shareholders holding the Equity Shares in dematerialised form; and (ii) a demat suspense escrow account opened by our Company, for the Eligible Equity Shareholders which would comprise Rights Entitlements relating to (a) Equity Shares held in a demat suspense account pursuant to Regulation 39 of the SEBI Listing Regulations; or (b) Equity Shares held in the account of IEPF authority; or (c) the demat accounts of the Eligible Equity Shareholder which are frozen or details of which are unavailable with our Company or with the Registrar on the Record Date; or (d) credit of the Rights Entitlements returned/reversed/failed; or (e) the ownership of the Equity Shares currently under dispute, including any court proceedings.

46. Failure to exercise or sell the Rights Entitlements will cause the Rights Entitlements to lapse without compensation and result in a dilution of shareholding.

The Rights Entitlements that are not exercised prior to the end of the Issue Closing Date will expire and become null and void, and Eligible Equity Shareholders will not receive any consideration for them. The proportionate ownership and voting interest in our Company of Eligible Equity Shareholders who fail (or are not able) to exercise their Rights Entitlements will be diluted. Even if you elect to sell your unexercised Rights Entitlements, the consideration you receive for them may not be sufficient to fully compensate you for the dilution of your percentage ownership of the equity share capital of our Company that may be caused as a result of the Issue. Renouncee(s) may not be able to apply in case of failure in completion of renunciation through off-market transfer in such a manner that the Rights Entitlements are credited to the demat account of the Renouncee(s) prior to the Issue Closing Date. Further, in case, the Rights Entitlements do not get credited in time, in case of On Market Renunciation, such Renouncee will not be able to apply in this Issue with respect to such Rights Entitlements.

47. You may be subject to Indian taxes arising out of capital gains on the sale of the Equity Shares.

Under current Indian tax laws, unless specifically exempted, capital gains arising from the sale of equity shares in an Indian company are generally taxable in India. However, any gain realized on the sale of listed equity shares on or before March 31, 2018 on a stock exchange held for more than 12 months was not subject to long term capital gains tax in India if STT was paid on the sale transaction and, additionally, as stipulated by the Finance Act, 2017, STT had been paid at the time of acquisition of such equity shares on or after October 1, 2004, except in the case of such acquisitions of equity shares which are not subject to STT, as notified by the Central Government under notification no. 43/2017/F. No. 370142/09/2017-TPL on June 5, 2017. However, the Finance Act, 2018, has now levied taxes on long-term capital gains arising from sale of equity shares. However, where specified conditions are met, such long-term capital gains are only taxed to the extent they exceed Rs. 100,000.00 and unrealized capital gains earned up to January 31, 2018, continue to be exempt. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold. Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short-term capital gains tax in India. Capital gains arising from the sale of the

equity shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the equity Shares.

48. *You may not receive the Equity Shares that you subscribe in the Issue until fifteen days after the date on which this Issue closes, which will subject you to market risk.*

The Equity Shares that you subscribe in the Issue may not be credited to your demat account with the depository participants until approximately 15 days from the Issue Closing Date. You can start trading such Equity Shares only after receipt of the listing and trading approval in respect thereof. There can be no assurance that the Equity Shares allocated to you will be credited to your demat account, or that trading in the Equity Shares will commence within the specified time period, subjecting you to market risk for such period.

49. *There is no guarantee that our Equity Shares will be listed in a timely manner or at all which may adversely affect the trading price of our Equity Shares.*

In accordance with Indian law and practice, final approval for listing and trading of the Equity Shares will not be granted by the Stock Exchange until after those Equity Shares have been issued and allotted. Approval will require all relevant documents authorizing the issuing of Equity Shares to be submitted. There could be a failure or delay in listing the Equity Shares on Stock Exchange. Any failure or delay in obtaining the approval would restrict your ability to dispose of your Equity Shares. Further, historical trading prices, therefore, may not be indicative of the prices at which the Equity Shares will trade in the future which may adversely impact the ability of our shareholders to sell the Equity Shares or the price at which shareholders may be able to sell their Equity Shares at that point of time.

50. *Holder of Equity Shares could be restricted in their ability to exercise pre-emptive rights under Indian law and could thereby suffer future dilution of their ownership position.*

Under the Companies Act, 2013, any company incorporated in India must offer its holders of equity shares pre-emptive rights to subscribe and pay for a proportionate number of shares to maintain their existing ownership percentages prior to the issuance of any new equity shares, unless the pre-emptive rights have been waived by the adoption of a special resolution by holders of three-fourths of the shares voted on such resolution, unless our Company has obtained government approval to issue without such rights. However, if the law of the jurisdiction that you are in does not permit the exercise of such pre-emptive rights without us filing an offering document or registration statement with the applicable authority in such jurisdiction, you will be unable to exercise such pre-emptive rights unless we make such a filing. We may elect not to file a registration statement in relation to pre-emptive rights otherwise available by Indian law to you. To the extent that you are unable to exercise pre-emptive rights granted in respect of the Equity Shares, your proportional interests in us would be reduced.

51. *Fluctuation in the exchange rate between the Indian Rupee and foreign currencies may adversely affect the value of our Equity Shares, independent of our operating results.*

On listing, our Equity Shares will be quoted in Indian Rupees on the Stock Exchange. Any dividends in respect of our Equity Shares will also be paid in Indian Rupees and subsequently converted into the relevant foreign currency for repatriation, if required. Any adverse movement in currency exchange rates during the time that it takes to undertake such conversion may reduce the net dividend to foreign investors. In addition, any adverse movement in currency exchange rates during a delay in repatriating outside India the proceeds from a sale of Equity Shares, for example, because of a delay in regulatory approvals that may be required for the sale of Equity Shares may reduce the proceeds received by equity shareholders. For example, the exchange rate between the Rupee and the U.S. dollar has fluctuated substantially in recent years and may continue to fluctuate substantially in the future, which may adversely affect the trading price of our Equity Shares and returns on our Equity Shares, independent of our operating results.

52. *Sale of Equity Shares by our Promoter or other significant shareholder(s) may adversely affect the trading price of the Equity Shares.*

Any instance of disinvestments of equity shares by our Promoter or by other significant shareholder(s) may significantly affect the trading price of our Equity Shares. Further, our market price may also be adversely affected even if there is a perception or belief that such sales of Equity Shares might occur.

53. *Rights of shareholders under Indian laws may be more limited than under the laws of other jurisdictions.*

Indian legal principles related to corporate procedures, directors' fiduciary duties and liabilities, and shareholders' rights may differ from those that would apply to a company in another jurisdiction. Shareholders' rights including in relation to class actions, under Indian law may not be as extensive as shareholders' rights under the laws of other countries or jurisdictions. Investors may have more difficulty in asserting their rights as shareholder in an Indian company than as shareholder of a corporation in another jurisdiction.

Schedule of Implementation and Deployment of Funds

Our Company proposes to deploy the entire Net Proceeds towards the Objects as described herein during Fiscal 2024.

The funds deployment described herein is based on management estimates and current circumstances of our business and operations. Given the dynamic nature of our business, we may have to revise our funding requirements and deployment on account of variety of factors such as our financial condition, business strategy, including external factors which may not be within the control of our management. This may entail rescheduling and revising the planned funding requirements and deployment and increasing or decreasing the funding requirements from the planned funding requirements at the discretion of our management. Subject to applicable law, if the actual utilisation towards issue expense is lower than the stated above, the balance will be used towards general corporate purposes to the extent that the total amount to be utilized towards general corporate purposes will not exceed 25% of the gross proceeds. To the extent our Company is unable to utilise any portion of the Net Proceeds towards the aforementioned objects, per the estimated scheduled of deployment specified above, our Company shall deploy

the Net Proceeds in subsequent financial years towards the aforementioned objects.

The above fund requirements are based on our current business plan, internal management estimates and have not been appraised by any bank or financial institution. Indian Economy

Strong economic growth in the first quarter of FY 2022-23 helped India overcome the UK to become the fifth-largest economy after it recovered from repeated waves of COVID-19 pandemic shock. Real GDP in the first quarter of 2022–23 is currently about 4% higher than its corresponding 2019-20, indicating a strong start for India's recovery from the pandemic. Given the release of pent-up demand and the widespread vaccination coverage, the contact-intensive services sector will probably be the main driver of development in 2022–2023. Rising employment and substantially increasing private consumption, supported by rising consumer sentiment, will support GDP growth in the coming months.

Future capital spending of the government in the economy is expected to be supported by factors such as tax buoyancy, the streamlined tax system with low rates, a thorough assessment and rationalisation of the tariff structure, and the digitization of tax filing. In the medium run, increased capital spending on infrastructure and asset-building projects is set to increase growth multipliers, and with the revival in monsoon and the Kharif sowing, agriculture is also picking up momentum. The contact-based services sector has largely demonstrated promise to boost growth by unleashing the pent-up demand over the period of April-September 2022. The sector's success is being captured by a number of HFIs (High-Frequency Indicators) that are performing well, indicating the beginnings of a comeback.

India has emerged as the fastest-growing major economy in the world and is expected to be one of the top three economic powers in the world over the next 10-15 years, backed by its robust democracy and strong partnerships.

Introduction to the Real Estate Industry

The real estate sector is one of the most globally recognized sectors. It comprises of four sub-sectors - housing, retail, hospitality, and commercial. The growth of this sector is well complemented by the growth in the corporate

environment and the demand for office space as well as urban and semi-urban accommodation. The construction industry ranks third among the 14 major sectors in terms of direct, indirect and induced effects in all sectors of the economy.

In India, the real estate sector is the second-highest employment generator, after the agriculture sector. It is also expected that this sector will incur more non-resident Indian (NRI) investment, both in the short term and the long term. Bengaluru is expected to be the most favoured property investment destination for NRIs, followed by Ahmedabad, Pune, Chennai, Goa, Delhi and Dehradun.

Roads and Infrastructure Industry

India has the second-largest road network in the world, spanning a total of 5.89 million kilometres (kms).

Private sector has emerged as a key player in the development of road infrastructure in India. Increased industrial activities, along with increasing number of two and four wheelers have supported the growth in road transport infrastructure projects. The Government's policy to increase private sector participation has proved to be a boon for the infrastructure industry with many private players entering the business through the public-private partnership (PPP) model. In FY21, there were 125 PPP projects worth US\$ 23.25 billion in India.

With the Government permitting 100% Foreign Direct Investment (FDI) in the road sector, several foreign companies have formed partnerships with Indian players to capitalise on the sector's growth. Cumulative FDI inflows in construction development stood at US\$ 26.23 billion between April 2000-September 2022. The Government's move to cut GST rates on construction equipment from 28% to 18% is expected to give boost to the industry.

The Government of India has allocated Rs. 111 lakh crore (US\$ 1.4 trillion) under the National Infrastructure Pipeline for FY 2019-25. The roads sector is likely to account for 18% capital expenditure over FY 2019-25.

NHAI plans to construct 25,000 kilometres of national highways in 2022-23 at a pace of 50 km per day.

In the Union Budget 2022-23, government has planned for an increase in allocation for the central road fund by 19%, the total fund was Rs. 2,95,150 crores (US\$ 38.86 million).

As of March 2022, the government plans to spend Rs. 10,565 crore (US\$ 1.38 billion) on the Trans-Arunachal Highway and Kaladan Multi-Modal Transport Project, as well as other roads development projects such as capital connectivity, district connectivity, connectivity to the international border, and improvement and strengthening of roads in the region of Sikkim.

In August 2021, the Union Minister of Road Transport and Highways, Mr. Nitin Gadkari announced to launch 1,080-km (road construction) projects worth Rs. 25,370 crore (US\$ 3.4 billion) in Gujarat under the Bharatmala Pariyojana—the ambitious road and highways project that aims to build highways from Maharashtra, Gujarat, Rajasthan, Punjab, Haryana and then cover the entire string of Himalayan territories. In FY22 (until December 2021) the Ministry of Road Transport and Highways constructed national highways extending 5,835 kms.

In September 2021, to transform road infrastructure in Punjab, Haryana and Rajasthan, the Indian government has planned to construct roads extending 313 kms for Rs. 11,000 crore (US\$ 1.48 billion). The Indian government announced road projects worth Rs. 1 lakh crore (US\$ 13.48 billion) to develop road infrastructure in Jammu and Kashmir. The region has also witnessed growth in national highways, from 7 in 2014 to 11 in 2021.

In September 2021, the Government of Maharashtra approved a 173.7-kilometre long outer-ring road project in Pune, worth Rs. 26,831 crore (US\$ 3.61 billion).

In October 2021, the government issued a notice related to concessions under the Vehicle Scrapping Policy (effective from April 2022) to encourage vehicle owners towards discarding old vehicles which have higher fuel consumption costs.

In October 2021, the government launched a conversion project for 15 major roads in the Agartala smart city, the project will convert these roads to weather-resilient ones, and further strengthen development of the region.

In October 2021, the government announced rules to improve road safety, such as fixed driving hours for commercial truck drivers and a mandate to install sleep detection sensors in commercial vehicles.

In October 2021, the government announced a plan to install charging stations every 40 to 60 kilometres on national highways to strengthen wayside amenities; in line with this, ~700 e-vehicle charging stations are expected to be installed by 2023, covering 35,000 to 40,000 kms of national highways.

In September 2021, the Ministry of Road Transport and Highways constructed national highways extending 3,824 kms compared with 3,335 kms in August 2021.

In July 2021, the Ministry of Road Transport and Highways granted 162 kms road highway (New NH-365BG), as part of the economic corridor under the Bharatmala Pariyojana, with an aim to connect Andhra Pradesh and Telangana via a robust road infrastructure that supports speed of 100kms/hour. The total project cost is Rs. 2,600 crore (US\$ 350 million).

The Minister for Road Transport & Highways and Micro, Small and Medium Enterprises, Mr. Nitin Gadkari, is targeting to construct 40 kms per day in FY22.

As per the Ministry of Road Transport and Highways, national highway construction hit an all-time high of 37 km per day in FY 2020-21.

Under Pradhan Mantri Gram Sadak Yojana (PMGSY), in the UT of Jammu & Kashmir, 3,261 roads of length of 19,277 kms and 243 bridges have been sanctioned, out of which 1858 roads of length 11,517 kms and 84 bridges have been completed. Similarly, in the UT of Ladakh, 142 roads of length of 1207 kms and 3 bridges have been sanctioned, out of which 96 roads of length 699 kms and 2 bridges have been completed until July 2020.

The Indian government launched Gati Shakti-National Master Plan, which will help lead a holistic and integrated development of infrastructure generating immense employment opportunities in the country.

India's Gati Shakti program has consolidated a list of 81 high impact projects, out of which road infrastructure projects were the top priority. The major highway projects include the Delhi-Mumbai expressway (1,350 kilometres), Amritsar-Jamnagar expressway (1,257 kilometres) and Saharanpur-Dehradun expressway (210 kilometres). The main aim of this program is a faster approval process which can be done through the Gati shakti portal and digitized the approval process completely.

Under the Union Budget 2022-23, the Government of India has allocated Rs. 199,107.71 crore (US\$ 26.04 billion) to the Ministry of Road Transport and Highways.

THE ROAD AHEAD

Real Estate

The Securities and Exchange Board of India (SEBI) has given its approval for the Real Estate Investment Trust (REIT) platform, which will allow all kind of investors to invest in the Indian real estate market. It would create an opportunity worth Rs. 1.25 trillion (US\$ 19.65 billion) in the Indian market in the coming years. Responding to an increasingly well-informed consumer base and bearing in mind the aspect of globalisation, Indian real estate developers have shifted gears and accepted fresh challenges. The most marked change has been the shift from family-owned businesses to that of professionally managed ones. Real estate developers, in meeting the growing need for managing multiple projects across cities, are also investing in centralised processes to source material and organise manpower and hiring qualified professionals in areas like project management, architecture and engineering.

The residential sector is expected to grow significantly, with the central government aiming to build 20 million affordable houses in urban areas across the country by 2022, under the ambitious Pradhan Mantri Awas Yojana (PMAY) scheme of the Union Ministry of Housing and Urban Affairs. Expected growth in the number of housing units in urban areas will increase the demand for commercial and retail office space.

The current shortage of housing in urban areas is estimated to be ~10 million units. An additional 25 million units of affordable housing are required by 2030 to meet the growth in the country's urban population.

The growing flow of FDI in Indian real estate is encouraging increased transparency. Developers, in order to attract funding, have revamped their accounting and management systems to meet due diligence standards. Indian real estate is expected to attract a substantial amount of FDI in the next two years with US\$ 8 billion capital infusion by FY22.

Infrastructure

The government has also suggested an investment of \$750 billion to strengthen railway infrastructure and envisioned the Maritime India Vision 2030 which estimates massive investments in world-class infrastructure development at Indian ports.

Global investment and partnerships in infrastructure, such as the India-Japan forum for development in the Northeast are also indicative of more investments. These initiatives come at a momentous juncture as the country aims for self-reliance in future-ready and sustainable critical infrastructure.

India, it is estimated, needs to invest \$840 billion over the next 15 years into urban infrastructure to meet the needs of its fast-growing population. This investment will only be rational as well as sustainable, if we additionally focus on long-term maintenance and strength of our buildings, bridges, ports and airports.

As a result of digitalisation and opportunities that tier II and III cities present for economic growth, the divide between metro and non-metros is blurring, moving to the new era of infrastructure growth. Commercial real estate properties have witnessed exponential growth in demand across Tier II & III cities as Information technology and Information technology enabled services and banking financial services and insurance focused organizations are increasingly decentralizing their operations to adapt to the new normal.

The residential sector has witnessed good sales, and launches have also shown signs of an uptick during 2022, total sales in the top-7 cities was projected to exceed 360,000 units in 2022.

Civil Aviation Ministry's "Vision 2040" report states that there will be 190-200 functioning airports in India by 2040. Delhi and Mumbai will have three international airports each, while top 31 Indian cities will have two operational airports each.

220 destinations (airports/heliports/water aerodromes) under UDAN are targeted to be completed by 2026 with 1000 routes to provide air connectivity to unconnected destinations in India.

102 critical projects under the Gati Shakti masterplan worth \$7.67 billion are to be completed by 2024, making 2023 a critical year for effective execution and celerity of completion.

India's Infrastructure forms an integral part of the country's economic ecosystem. There has been a significant shift in the industry that is leading to the development of world-class facilities across the country in the areas of roads, waterways, railways, airports, and ports, among others. The country-wide smart cities programmes have proven to be industry game-changers. Given its critical role in the growth of the nation, the infrastructure sector has experienced a tremendous boom because of India's necessity and desire for rapid development. The expansion has been aided by urbanisation and an increase in foreign investment in the sector.

The infrastructure sector has become the biggest focus area for the Government of India. India plans to spend US\$ 1.4 trillion on infrastructure during 2019-23 to have a sustainable development of the country. The Government has suggested investment of Rs. 5,000,000 crore (US\$ 750 billion) for railways infrastructure from 2018-30. India's GDP is expected to grow by 8% over the next three fiscal years, one of the quickest rates among major, developing economies, according to S&P Global Ratings. India and Japan have joined hands for infrastructure development in India's Northeast states and are also setting up an India-Japan Coordination Forum for development of Northeast to undertake strategic infrastructure projects for the region.

India being a developing nation is set to take full advantage of the opportunity for the expansion of the infrastructure sector, and it is reasonable to conclude that India's infrastructure has a bright future ahead of it.

Our Strengths

We believe that we have following business strengths:

Focus on Direct Contracts

Though we have undertaken a few projects as a contractor for construction of the building our main focus will be on direct contract from the real estate developer. However, these contracting projects which we successfully completed have enabled us to develop both, our financial and technical capabilities. Direct projects do not involve fees sharing and hence our Company has been working towards a strategy to focus on direct contracting. We believe that our focus in direct contracting will also increase our ability to undertake more projects pertaining to construction of roads, bridges and flyovers, which provide better earning potential.

Actively Evaluate and participating in bidding for new projects

We have been growing consistently over last few years owing to our undertaking of projects of mid-size contract value. We have been increasing bidding activities for higher project as well. We continue to focus bidding on a greater number of projects from Direct contractor. With more project being evaluated and more bid being tendered, we intend to seize opportunities to undertake larger projects that can match our corporate profile, execution capabilities and anticipated profit margins and forge stronger relationship with our clients.

Augment our Fund Based Capacities in Order to Scale-up Business Operation

Our business operations are working capital intensive. In order to effectively expand our Business arenas and also increase our focus towards direct bidding of tenders, we need to have access to a larger amount of liquid funds and sufficient working capital. Our raw materials purchase mainly includes construction materials which require timely payments to our suppliers, firstly to ensure sufficient availability of the raw materials and secondly to maintain relationship with our suppliers for smooth inflow of such raw materials. However, our customers include small and large infrastructure and real estate developers, to whom we need to give a certain credit period, thus affecting our working capital requirement. We believe that companies with high liquidity on their balance sheet would be able to better exploit market opportunities in the form of costing, planning and execution of tenders.

Building and Strengthening Execution Capabilities for Timely Project Delivery

Currently, we are a contractor in specific construction and execution work related to projects to third parties. We are working continuously to strengthen our infrastructure, enhance our presence and building the capabilities to execute end to end projects on our own. We constantly endeavour to undertake quality projects and timely project execution there by maximizing customer satisfaction in all our business segments. We intend to focus on building our-in house design capabilities and execution capabilities, including, building our on-the-job expertise through participation in design projects, recruiting qualified personnel and building a strong technical knowledge-based organisation for undertaking varied projects.

Business Strategies

Continue to focus on the low-income affordable housing segment.

The increase in share can be attributed to the government's efforts towards affordable and low-income housing coupled with consistent demand in the segment, especially from the end-users. We believe in constructing Township / Affordable Housing Projects in order to derive multiple benefits. We therefore intend to further strengthen our presence in the low-income affordable housing segment in our micro market. We proposed to continue our focus on developing theme-based residential projects for the low-income affordable housing segment in the nearby locations.

Improve operational efficiencies and timelines

We intend to further improve our operational efficiencies by designing our projects in a cost-efficient manner to ensure faster execution. We intend to bring in efficiencies in construction by simplifying construction structures and maintaining standardized layouts in the construction activities.

Continue to maintain a low debt balance sheet

We are maintaining a low debt balance sheet model. Though, we may need to raise bank funding for our on-going or future projects, we intend to re-pay the same at the earliest and continue to operate under the low-debt balance sheet model. Further, a low debt balance sheet increases our fund-raising capability in case of any future project on a much larger scale and accordingly enables us to expand our project portfolio.

Expand our projects to other geographies

We intend to bid for projects in other parts of the Country which will aid us to strengthen our position in India. We will develop and operate our projects, which are designed and developed specifically for and cater to the housing requirements of lower income families in the area. However, in near future, we wish to keep our focus in the adjoining areas of another state.

Bid Contracts in road and construction segment

With growing opportunities and operational capabilities, we now intend into penetrate into road construction segment and office & building segment. For roads & building segment we intend to continue our focus initially with lower and mid contracts which will gradually help us to strengthen our position in these segments.

Manpower

We believe that our ability to maintain our growth depends to a large extent on our strength in attracting, training, motivating and retaining employees. As on June 30, 2023 we have 27 employees. For the construction, we employ contractual labour, which saves us the hassle of dealing with the labour on day-to-day basis and helps us to get labour as per our requirement. We hire contract labourers depending on various factors like the location, size, duration, etc. and have several contractors providing good labour at competitive prices.

Project Management Team

The project management team is a mix of all departments that are involved in the planning and execution of a project, namely design and engineering, procurement department, construction team, quality control, etc. Since most of the projects undertaken are on a fixed schedule, our Company endeavors to ensure proper co-ordination

among the various teams and departments. The project management team is usually headed by our Managing Director i.e., Mitesh Thakkar.

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by ICAI together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Act and the rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with the provisions of the Companies Act, 2013. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. The other information comprises the information included in the management discussion and analysis, Board's Report, Report on Corporate governance and Business Responsibility report but does not include the Consolidated Financial Statements, Standalone Financial Statements and our auditor's report thereon.

Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of management and those charged with governance for the consolidated financial statements:

The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements in term of the requirements of the Companies Act, 2013 that give a true and fair view of the consolidated state of affairs (consolidated financial position) , consolidated profit or loss (Consolidated financial performance including other comprehensive income), consolidated changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements:

1. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement

when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

2. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:
 - Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
 - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Group has adequate internal financial controls system in place and the operating effectiveness of such controls.
 - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
 - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
 - Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
 - Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.
3. We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

4. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.
5. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters:

We did not audit the financial statements of **Vishvprabha Foods Private Limited and Vishvprabha and VS Buildcon Private Limited** included in the consolidated annual financial statements, whose financial statements / financial information reflect Group's share of total assets of Rs.89,700 thousands as at 31 March 2023, Group's share of total revenue for of Rs.Nil, total net loss of Rs.552 thousands, total comprehensive loss of Rs.552 thousands for the year ended on that date and Group's share of net cash inflows of Rs.366 thousands for the year ended on that date, as considered in the consolidated Ind AS financial statements. Annexure "A" to the Independent Auditor's Report of even date on the Consolidated Ind AS financial statements of Vishvprabha Ventures Limited for the year ended 31st March 2023.

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2023, we have audited the internal financial controls over financial reporting of **Vishvprabha Ventures Limited** (hereinafter referred to as the "Company") and its subsidiary companies, which are companies incorporated in India, as of that date.

Management's Responsibility for Internal Financial Controls:

The Boards of Directors of the Company and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility:

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company and its subsidiary companies, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI") and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company and its subsidiary companies, which are companies incorporated in India.

Meaning of Internal Financial Controls over Financial Reporting:

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting:

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion:

In our opinion and to the best of our information and according to the explanations given to us, the Company and its subsidiary companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal financial control over financial reporting criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

Other Matters:

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to 2 subsidiary companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India.

Note 1 Corporate Information

Vishvprabha ventures Limited (the Company) is a listed public company domiciled in India and incorporated under the provisions of the Companies Act, 1956. The Company is engaged in construction of housing project in metro city and other infrastructure contract works and projects.

The Company along with its subsidiaries its associates and its joint venture has been collectively hereinafter referred to as "the Group".

Note 2.1 Significant Accounting Policies

i Basis of Preparation of Consolidated Financial Statements

The financial statements of the Group have been prepared to comply in all material respects with the Indian Accounting Standards ("Ind AS") notified under the Companies (Accounting Standards) Rules, 2015 read together with the company (Indian Accounting standards) rules, 2015 (as amended).

The financial statements have been prepared under the historical cost convention with the exception of certain financial assets and liabilities which have been measured at fair value, on an accrual basis of accounting.

All the assets and liabilities have been classified as current and non-current as per normal operating cycle of the Company and other criteria set out in as per the guidance set out in Schedule III to the Act. Based on nature of services, the Company ascertained its operating cycle as 12 months for the purpose of current and non-current classification of asset and liabilities.

The Company's financial statements are reported in Indian Rupees, which is also the Company's functional currency, and all values are rounded to the nearest Rupees, except when otherwise indicated.

ii Principles of Consolidation

The financial statements have been prepared on the following basis:

- a) The financial statements of the Company and its subsidiary companies have been consolidated on a line by line basis by adding together the book values of like items of assets, liabilities, income and expenses, after eliminating intra-group balances / transactions and elimination of resulting unrealized profits / losses in accordance with Indian Accounting Standard ('Ind AS') - 110 'Consolidated Financial Statements' notified by the Companies (Accounting Standards) Rules, 2006 read with Rule 7 to the Companies (Accounts) Rules 2014 in respect of Section 133 of the Companies Act, 2013.
- b) Goodwill on consolidation represents the excess of cost of acquisition at each point of time of making the investment in the subsidiary Group's share in the net worth of a subsidiary, as per Indian Accounting Standard (Ind AS) 110 "Consolidated Financial Statements". For this purpose, the Group's share of net worth is determined on the basis of the latest financial statements, prior to the acquisition, after making necessary adjustments for material events between the date of such financial statements and the date of respective acquisition. Capital reserve on consolidation represents negative goodwill arising on consolidation. In the event of cessation of operations of a subsidiary, the unimpaired goodwill is written off fully.
- c) Minority interest in net profits or losses of consolidated subsidiaries for the year is identified and adjusted against the income or loss in order to arrive at the net income or loss attributable to the shareholders of the Company. Minority interest in the net assets of consolidated subsidiaries consists of the amount of equity attributable to the minority shareholders at the dates on which investments are made by the Company in the subsidiary companies and further movements in their share in the equity, subsequent to the dates of initial investments as stated above. Their share of net assets is identified and presented in the Consolidated Balance Sheet separately. Where accumulated losses attributable to the minorities are in excess of their equity, in the absence of the contractual / legal obligation on the minorities, the same is accounted for by the Holding Company.
- d) Financial statements are prepared using uniform policies for like transaction and other events in similar circumstances and are presented, to the extent possible, in the same manner as the Company's separate financial statements.
- e) Notes to the financial statements represent notes involving items which are considered material and are accordingly disclosed. Materiality for the purpose is assessed in relation to the information contained in the financial statements. Further, additional statutory information disclosed in separate financial statements of the subsidiary and / or a parent having no bearing on the true and fair view of the financial statements has not been disclosed in these financial statements.
- f) The gains / losses in respect of part dilution of stake in subsidiary companies pursuant to issue of additional shares to minority shareholders are recognized directly in capital reserve under Reserves and surplus in the Balance Sheet. The gains / losses in respect of part divestment of stake in subsidiary companies pursuant to sale of shares by the Holding Company are recognized in the Statement of Profit and Loss.

iii Accounting Estimates

The preparation of the financial statements, in conformity with the Ind AS, requires the management to make estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities and disclosure of contingent liabilities as at the date of financial statements and the results of operation during the reported period. Although these estimates are based upon management's best knowledge of current events and actions, actual results could differ from these estimates which are recognised in the period in which they are determined.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Deferred tax assets

In assessing the realisability of deferred income tax assets, management considers whether some portion or all of the deferred income tax assets will not be realized. The ultimate realization of deferred income tax assets is dependent upon the generation of future taxable income during the periods in which the temporary differences become deductible. Management considers the scheduled reversals of deferred income tax liabilities, projected future taxable income, and tax planning strategies in making this assessment. Based on the level of historical taxable income and projections for future taxable income over the periods in which the deferred income tax assets are deductible, management believes that the Company will realize the benefits of those deductible differences. The amount of the deferred income tax assets considered realizable, however, could be reduced in the near term if estimates of future taxable income during the carry forward period are reduced.

Defined benefit plans

The cost and present value of the gratuity obligation and compensated absences are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, attrition rate and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

Impairment of Receivables

The impairment provisions of financial receivables based on the assumptions about risk of default and expected loss rates.

iii Property, Plant and Equipment

Property, Plant and Equipment are stated at cost of acquisition including attributable interest and finance costs, if any, till the date of acquisition/ installation of the assets less accumulated depreciation and accumulated impairment losses, if any. Subsequent expenditure relating to Property, Plant and Equipment is capitalised only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance costs are charged to the Statement of Profit and Loss as incurred. The cost and related accumulated depreciation are eliminated from the financial statements, either on disposal or when retired from active use and the resultant gain or loss are recognised in the Statement of Profit and Loss.

Capital work-in-progress, representing expenditure incurred in respect of assets under development and not ready for their intended use, are carried at cost.

On transition to Ind AS, the Company has opted to continue with the carrying values measured under the previous GAAP as at 1 April 2016 of its Property, Plant and Equipment and use that carrying value as the deemed cost.

iv Intangible Assets

Costs relating to acquisition of trademarks are capitalised as "Intangible Assets"

On transition to Ind AS, the Company has opted to continue with the carrying values measured under the previous GAAP as at 1st April 2016 of its Intangible Assets and used that carrying value as the deemed cost.

v Depreciation/ Amortisation

Depreciation/ amortisation is provided:

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation on Property, Plant & Equipment of the company has been provided as per the Written Down value method as per the useful lives of the respective Property, Plant & Equipment in the manner as prescribed by Schedule II of the Act. Leasehold improvements are written off over the noncancellable period of lease. Leasehold land have not been amortised being a perpetual in nature. Goodwill & Trade marks has been amortized over a period of five years.

vi Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a) Financial Assets

Initial Recognition

In the case of financial assets, not recorded at fair value through profit or loss (FVPL), financial assets are recognised initially at fair value plus transaction costs that are directly attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the asset.

Subsequent Measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

Financial Assets at Amortised Cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business model with an objective to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Interest income from these financial assets is included in finance income using the effective interest rate ("EIR") method. Impairment gains or losses arising on these assets are recognised in the Statement of Profit and Loss.

Financial Assets Measured at Fair Value

Financial assets are measured at fair value through OCI if these financial assets are held within a business model with an objective to hold these assets in order to collect contractual cash flows or to sell these financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in the Statement of Profit and Loss.

Financial asset not measured at amortised cost or at fair value through OCI is carried at FVPL.

On transition to Ind AS, the Company has opted to continue with the carrying values measured under the previous GAAP as at 1st April 2016 of its equity investments in subsidiaries and used that carrying value as the deemed cost of these investments on the date of transition i.e. 1st April 2016.

Impairment of Financial Assets

In accordance with Ind AS 109, the Company applies the expected credit loss ("ECL") model for measurement and recognition of impairment loss on financial assets and credit risk exposures.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. Simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECL at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognising impairment loss allowance based on 12-month ECL.

ECL is the difference between all contractual cash flows that are due to the group in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL impairment loss allowance (or reversal) recognised during the period is recognised as income/ expense in the Statement of Profit and Loss.

De-recognition of Financial Assets

The Company de-recognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all risks and rewards of ownership of the asset to another entity.

If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognizes its retained interest in the assets and an associated liability for amounts it may have to pay.

If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

b) Equity Instruments and Financial Liabilities

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments which are issued for cash are recorded at the proceeds received, net of direct issue costs. Equity instruments which are issued for consideration other than cash are recorded at fair value of the equity instrument.

Financial Liabilities**1) Initial Recognition**

Financial liabilities are classified, at initial recognition, as financial liabilities at FVPL, loans and borrowings and payables as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

2) Subsequent Measurement

The measurement of financial liabilities depends on their classification, as described below

Financial liabilities at FVPL

Financial liabilities at FVPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as at FVPL. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Gains or losses on liabilities held for trading are recognised in the Statement of Profit and Loss.

Financial liabilities at amortised cost

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in the Statement of Profit and Loss.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

3) De-recognition of Financial Liabilities

Financial liabilities are de-recognised when the obligation specified in the contract is discharged, cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as de-recognition of the original liability and recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

c) Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the net amount is reported in the Balance Sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis to realise the assets and settle the liabilities simultaneously.

vii Inventories

Inventories are valued as follows:

- a Inventories are stated at lower of cost and net realizable value.
- b The cost of raw materials, stores and spare parts and construction materials includes cost of purchases and other cost incurred in bringing the inventories to the present location and condition. Cost is determined using the weighted average method.
- c Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and the estimated costs necessary to complete the contract.

viii Employee Benefits

a Defined Contribution Plan

Contributions to defined contribution schemes such as provident fund, employees' state insurance, labour welfare are charged as an expense based on the amount of contribution required to be made as and when services are rendered by the employees. The above benefits are classified as Defined Contribution Schemes as the Company has no further obligations beyond the monthly contributions.

b Defined Benefit Plan

The Company also provides for gratuity which is a defined benefit plan, the liabilities of which is determined based on valuations, as at the balance sheet date, made by an independent actuary using the projected unit credit method. Re-measurement, comprising of actuarial gains and losses, in respect of gratuity are recognised in the OCI, in the period in which they occur. Re-measurement recognised in OCI are not reclassified to the Statement of Profit and Loss in subsequent periods. Past service cost is recognised in the Statement of Profit and Loss in the year of plan amendment or curtailment. The classification of the Company's obligation into current and non-current is as per the actuarial valuation report.

c Leave entitlement and compensated absences

Accumulated leave which is expected to be utilised within next twelve months, is treated as short-term employee benefit. Leave entitlement, other than short term compensated absences, are provided based on a actuarial valuation, similar to that of gratuity benefit. Re-measurement, comprising of actuarial gains and losses, in respect of leave entitlement are recognised in the Statement of Profit and Loss in the period in which they occur.

d Short-term Benefits

Short-term employee benefits such as salaries, wages, performance incentives etc. are recognised as expenses at the undiscounted amounts in the Statement of Profit and Loss of the period in which the related service is rendered. Expenses on non-accumulating compensated absences is recognised in the period in which the absences occur.

ix Share - Based Compensation

The company recognizes compensation expense relating to employees stock option plan in statement of profit and loss account in accordance with IND AS 102, Share - Based Payment. Accordingly, compensation expense as determined on the date of the grant is amortised over the vesting period. The Company follows fair value method to calculate the value of the stock options.

x Cash and Cash Equivalents

Cash and cash equivalents in the Balance Sheet comprises of cash at banks and on hand, which are subject to an insignificant risk of changes in value.

xi Borrowing Costs

Borrowing costs consist of interest and other costs that the Company incurs in connection with the borrowing of funds. Also, the EIR amortisation is included in finance costs.

Borrowing costs relating to acquisition, construction or production of a qualifying asset which takes substantial period of time to get ready for its intended use are added to the cost of such asset to the extent they relate to the period till such assets are ready to be put to use. All other borrowing costs are expensed in the Statement of Profit and Loss in the period in which they occur.

xii Foreign Exchange Translation and Accounting of Foreign Exchange Transaction

a Initial Recognition

Foreign currency transactions are initially recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction. However, for practical reasons, the Company uses a monthly average rate if the average rate approximate the actual rate at the date of the transactions.

b Conversion

Monetary assets and liabilities denominated in foreign currencies are reported using the closing rate at the reporting date. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction.

c Treatment of Exchange Difference

Exchange differences arising on settlement/ restatement of short-term foreign currency monetary assets and liabilities of the Company are recognised as income or expense in the Statement of Profit and Loss except those arising from investment in Non Integral operations.

xiii Revenue Recognition

The Company derives revenue principally from the following streams:

- > Construction contracts.
- > Sale of services (Work contract services).
- > Other income.

1. Construction contracts.

The Company recognises revenue from construction contracts over the period of time, as performance obligations are satisfied over time due to continuous transfer of control to the customer. Construction contracts are generally accounted for as a single performance obligation, as it involves a complex integration of goods and services.

The performance obligations are satisfied over time as the work progresses. The Company recognises revenue using the input method (i.e. percentage-of-completion method), based primarily on contract costs incurred to date compared to total estimated contract costs. Changes to total estimated contract costs, if any, are recognised in the period in which they are determined as assessed at the contract level. If the consideration in the contract includes a price variation clause or there are amendments in contracts, the Company estimates the amount of consideration to which it will be entitled in exchange for work performed.

Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by management.

2. Sale of services (Work contract services).

Revenue from providing work contract services is recognised in the accounting period in which the services are rendered. Invoices are issued according to contractual terms and are usually payable as per the credit period agreed with the customer.

3 Interest income:

Interest income from financial assets at fair value through profit or loss is disclosed as interest income within other income. Interest income on financial assets at amortised cost using the effective interest method is recognised in the statement of profit and loss as part of other income.

4. Other Income

- a. All other income is accounted for on an accrual basis when no significant uncertainty exists regarding the amount that will be received.
- b. Dividend income is recognized when the company's right to receive dividend is established.
- c. Claims for insurance are accounted on receipts/ on acceptance of claim by insurer.

xiv Income Tax

Income tax comprises of current and deferred income tax. Income tax is recognised as an expense or income in the Statement of Profit and Loss, except to the extent it relates to items directly recognised in equity or in OCI.

a Current Income Tax

Current income tax is recognised based on the estimated tax liability computed after taking credit for allowances and exemptions in accordance with the Income Tax Act, 1961. Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

b Deferred Income Tax

Deferred tax is determined by applying the Balance Sheet approach. Deferred tax assets and liabilities are recognised for all deductible temporary differences between the financial statements' carrying amount of existing assets and liabilities and their respective tax base. Deferred tax assets and liabilities are measured using the enacted tax rates or tax rates that are substantively enacted at the Balance Sheet date. The effect on deferred tax assets and liabilities of a change in tax rates is recognised in the period that includes the enactment date. Deferred tax assets are only recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Such assets are reviewed at each Balance Sheet date to reassess realisation.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Minimum Alternative Tax ("MAT") credit is recognised as an asset only when and to the extent it is probable that the Company will pay normal income tax during the specified period.

xv Impairment of Non-Financial Assets

As at each Balance Sheet date, the Company assesses whether there is an indication that a non-financial asset may be impaired and also whether there is an indication of reversal of impairment loss recognised in the previous periods. If any indication exists, or when annual impairment testing for an asset is required, the Company determines the recoverable amount and impairment loss is recognised when the carrying amount of an asset exceeds its recoverable amount.

Recoverable amount is determined:

- In case of an individual asset, at the higher of the assets' fair value less cost to sell and value in use; and
- In case of cash generating unit (a group of assets that generates identified, independent cash flows), at the higher of cash generating unit's fair value less cost to sell and value in use.

In assessing value in use, the estimated future cash flows are discounted to their present value using pre-tax discount rate that reflects current market assessments of the time value of money and risk specified to the asset. In determining fair value less cost to sell, recent market transaction are taken into account. If no such transaction can be identified, an appropriate valuation model is used.

Impairment losses of continuing operations, including impairment on inventories, are recognised in the Statement of Profit and Loss, except for properties previously revalued with the revaluation taken to OCI. For such properties, the impairment is recognised in OCI up to the amount of any previous revaluation.

When the Company considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through the Statement of Profit and Loss.

xvi Trade receivables

A receivable is classified as a 'trade receivable' if it is in respect of the amount due on account of goods sold or services rendered in the normal course of business. Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the EIR method, less provision for impairment.

xvii Trade payables

A payable is classified as a 'trade payable' if it is in respect of the amount due on account of goods purchased or services received in the normal course of business. These amounts represent liabilities for goods and services provided to the Company prior to the end of the financial year which are unpaid. These amounts are unsecured and are usually settled as per the payment terms stated in the contract. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost using the EIR method.

xviii Earnings Per Share

Basic earnings per share is computed by dividing the net profit or loss for the period attributable to the equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period and for all periods presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources.

Diluted earnings per share is computed by dividing the net profit or loss for the period attributable to the equity shareholders of the Company and weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e. the average market value of the outstanding equity shares).

xix Provisions, Contingent Liabilities and Contingent Assets

A provision is recognised when the Company has a present obligation (legal or constructive) as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, in respect of which a reliable estimate can be made of the amount of obligation. Provisions (excluding gratuity and compensated absences) are determined based on management's estimate required to settle the obligation at the Balance Sheet date. In case the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. These are reviewed at each Balance Sheet date and adjusted to reflect the current management estimates.

Contingent liabilities are disclosed in respect of possible obligations that arise from past events, whose existence would be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. A contingent liability also arises, in rare cases, where a liability cannot be recognised because it cannot be measured reliably.

Contingent assets are disclosed in the financial statements.

xx Operating Segment

Operating segments are reported in a manner consistent with the internal reporting provided to Chief Operating Decision Maker (CODM). The Company has identified its Managing Director as CODM which assesses the operational performance and position of the Company and makes strategic decisions.

xxi Leases

Company as a lessee

The Company's lease asset classes primarily consist of leases for land and buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment of whether it will exercise an extension or a termination option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

Company as a lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When the Company is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. The sublease is classified as a finance or operating lease by reference to the right-of-use asset arising from the head lease.

For operating leases, rental income is recognized on a straight line basis over the term of the relevant lease.

Transition

Effective April 1st, 2019, the Company adopted IND AS 116 "Leases" and applied the standard to all lease contracts existing on April 1st, 2019 using the modified retrospective method and has taken the cumulative adjustment to retained earnings, on the date of initial application. Consequently, the Company recorded the lease liability at the present value of the lease payments discounted at the incremental borrowing rate and the right of use asset at its carrying amount as if the standard had been applied since the commencement date of the lease, but discounted at the Company's incremental borrowing rate at the date of initial application. Comparatives as at and for the year ended March 31st, 2019 have not been retrospectively adjusted and therefore will continue to be reported under the accounting policies included as part of our Annual Report for year ended March 31st, 2019.

xvxxx Recent accounting pronouncements

- A** Appendix B to Ind AS 21, Foreign currency transactions and advance consideration : On March 28th, 2018, the ministry of Corporate Affairs (the MCA) notified the Companies (Indian Accounting Standards Amendment Rules 2018 containing Appendix B to Ind AS 21 Foreign currency transactions and advance consideration which clarifies the date of transaction for the purpose of determining the exchange rate to use on initial recognition of the related asset, expense or income, when an entity has received or paid advance consideration in foreign currency.

The amendment will come into force from April 1st, 2018. The company has evaluated the effect of this on the financial statements and the impact is not material.

Ind As 115, Revenue from Contract with Customers : On March 28, 2018, the MCA notified the Ind AS 115. The core principle of the new standard is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Further, the new standard requires enhanced disclosures about the nature, amount, timing and uncertainty of revenue and cashflows arising from the entity's contract with customers.

The effective date for adoption of Ind AS 115 is financial period beginning on or after April 1st, 2018.

B Recent pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standard or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 31st, 2023, MCA amended the Companies (Indian Accounting Standards) Rules, 2015 by issuing the Companies (Indian Accounting Standards) Amendment Rules, 2023, applicable from April 1st, 2023, as below

Ind AS 1 – Presentation of Financial Statements

The amendments require companies to disclose their material accounting policies rather than their significant accounting policies. Accounting policy information, together with other information, is material when it can reasonably be expected to influence decisions of primary users of general purpose financial statements. The Company does not expect this amendment to have any significant impact in its financial statements.

Ind AS 12 – Income Taxes

The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations. The amendments narrowed the scope of the recognition exemption in paragraphs 15 and 24 of Ind AS 12 (recognition exemption) so that it no longer applies to transactions that, on initial recognition, give rise to equal taxable and deductible temporary differences. The Company is evaluating the impact, if any, in its financial statements.

Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors

The amendments will help entities to distinguish between accounting policies and accounting estimates. The definition of a change in accounting estimates has been replaced with a definition of accounting estimates. Under the new definition, accounting estimates are "monetary amounts in financial statements that are subject to measurement uncertainty". Entities develop accounting estimates if accounting policies require items in financial statements to be measured in a way that involves measurement uncertainty. The Company does not expect this amendment to have any significant impact in its financial statements.

34 Fair Value Measurement

A. Accounting classification and fair values

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3: techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

Assets and Liabilities that are disclosed at Amortised Cost for which Fair values are disclosed are classified as Level 3.

If one or more of the significant inputs is not based on observable market data, the respective assets and liabilities are considered under Level 3.

2. We conducted our review in accordance with the Standard on Review Engagement (SRE) 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity" issued by the Institute of Chartered Accountants of India. This Standard requires that we plan and perform the review to obtain moderate assurance as to whether the financial statements are free of material misstatement.
3. A review is limited primarily to inquiries of company personnel and analytical procedure applied to financial data and thus provides less assurance than an audit. We have not performed an audit and, accordingly, we do not express an audit opinion.
4. *As described in Note 4 of the result, The Company is not accounting for Liability for Gratuity as required under Indian Accounting standard 19 (Ind AS-19) relating to Employees Benefits as referred to in Note no.4 to Financials Results. 5. Based on our review conducted as above, *except for the observations as stated in para (4) above*, nothing has come to our attention that causes us to believe that the Statement has not been prepared in all material respects in accordance with Ind AS and other recognized accounting practices and policies, and has not disclosed the information required to be disclosed in terms of Regulation 33 of the SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015 including the manner in which it is to be disclosed, or that it contains any material misstatement.

To,
The Board of Directors of
Vishvprabha Ventures Limited

1. We have reviewed the accompanying Statement of Unaudited Consolidated Financial Results of **Vishvprabha Ventures Limited** (“the Parent”) and its subsidiaries (the Parent and its subsidiaries together referred to as “the Group”) for the quarter ended on June 30, 2023 (“the Statement”), being submitted by the Parent pursuant to the requirement of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended.

2. This Statement, which is the responsibility of the Parent’s Management and approved by the Parent’s the Board of Directors, has been prepared in accordance with the recognition and measurement principles laid down in Indian Accounting Standard 34 “Interim Financial Reporting” (“Ind AS 34”), prescribed under Section 133 of the Companies Act, 2013, and other accounting principles generally accepted in India. 3. We conducted our review of the Statement in accordance with the Standard on Review Engagements (SRE) 2410 “Review of Interim Financial Information Performed by the Independent Auditor of the Entity”, issued by the Institute of Chartered Accountants of India. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

We also performed procedures in accordance with the circular issued by the SEBI under Regulation 33 (8) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, to the extent applicable.

4. The Statement includes the results of the following entities:
- i. Vishvprabha Ventures Limited (Parent Company)
 - ii. List of Subsidiaries:
 - a. Vishvprabha & VS Buildcom Private Limited
 - b. Vishvprabha Foods Private Limited

5. As described in Note 4 of the result, The Group is not accounting for Liability for Gratuity as required under Indian Accounting standard 19 (Ind AS-19) relating to Employees Benefits as referred to in Note no.4 to Financials Results. We are unable to comment upon resultant effect on profit / (Loss), other comprehensive income / (Loss) and Total comprehensive income / (Loss) for the period as the amount of such benefit is presently not ascertainable.

6. Based on our review conducted and procedures performed as stated in paragraph 3 above and based on the consideration of the review reports of the other auditors referred to in paragraph 7 below, nothing has come to our attention that causes us to believe that the accompanying Statement, prepared in accordance with the recognition and measurement principles laid down in the aforesaid Indian Accounting Standard and other accounting principles generally accepted in India, has not disclosed the information required to be disclosed in terms of Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, as amended, including the manner in which it is to be disclosed, or that it contains any material misstatement.

7. We did not review the financial results of two subsidiaries vis Vishvprabha & VS Buildcom Private Limited, Vishvprabha Foods Private Limited included in the consolidated unaudited financial results, whose financial results reflect total revenues of Rs. Nil, total net profit / (loss) after tax of Rs. (70) thousands and total comprehensive income / (loss) of Rs. (70) thousands for the quarter ended 30th June, 2023, as considered in the consolidated unaudited financial results. These financial results have been reviewed by other auditors whose reports have been furnished to us by the Management and our conclusion on the Statement, in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, is based solely on the reports of the other auditors and the procedures performed by us as stated in paragraph 3 above.

Business Strategies

Continue to focus on the low-income affordable housing segment.

The increase in share can be attributed to the government's efforts towards affordable and low-income housing coupled with consistent demand in the segment, especially from the end-users. We believe in constructing Township / Affordable Housing Projects in order to derive multiple benefits. We therefore intend to further strengthen our presence in the low-income affordable housing segment in our micro market. We proposed to continue our focus on developing theme-based residential projects for the low-income affordable housing segment in the nearby locations.

Improve operational efficiencies and timelines

We intend to further improve our operational efficiencies by designing our projects in a cost-efficient manner to ensure faster execution. We intend to bring in efficiencies in construction by simplifying construction structures and maintaining standardized layouts in the construction activities.

Continue to maintain a low debt balance sheet

We are maintaining a low debt balance sheet model. Though, we may need to raise bank funding for our on-going or future projects, we intend to re-pay the same at the earliest and continue to operate under the low-debt balance sheet model. Further, a low debt balance sheet increases our fund-raising capability in case of any future project on a much larger scale and accordingly enables us to expand our project portfolio.

Expand our projects to other geographies

We intend to bid for projects in other parts of the Country which will aid us to strengthen our position in India. We will develop and operate our projects, which are designed and developed specifically for and cater to the housing requirements of lower income families in the area. However, in near future, we wish to keep our focus in the adjoining areas of another state.

Bid Contracts in road and construction segment

With growing opportunities and operational capabilities, we now intend to penetrate into road construction segment and office & building segment. For roads & building segment we intend to continue our focus initially with lower and mid contracts which will gradually help us to strengthen our position in these segments.

Manpower

We believe that our ability to maintain our growth depends to a large extent on our strength in attracting, training, motivating and retaining employees. As on June 30, 2023 we have 27 employees. For the construction, we employ contractual labour, which saves us the hassle of dealing with the labour on day-to-day basis and helps us to get labour as per our requirement. We hire contract labourers depending on various factors like the location, size, duration, etc. and have several contractors providing good labour at competitive prices.

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991, prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, 1991, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. Accordingly, the process for foreign direct investment (“FDI”) and approval from the Government of India will not be handled by the concerned ministries or departments, in consultation with the Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (formerly known as the Department of Industrial Policy and Promotion) (“DPIIT”), Ministry of Finance, Department of Economic Affairs through the FDI Circular 2020 (defined below).

The DPIIT issued the Consolidated FDI Policy Circular of 2020 (“**FDI Circular 2020**”), which, with effect from October 15, 2020, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as at October 15, 2020. The Government proposes to update the consolidated circular on FDI policy once every year and therefore, FDI Circular 2020 will be valid until the DPIIT issues an updated circular. The Government of India has from time to time made policy pronouncements on FDI through press notes and press releases which are notified by RBI as amendments to FEMA. In case of any conflict, the relevant notification under the FEMA Rules will prevail. The payment of inward remittance and reporting requirements are stipulated under the Foreign Exchange Management (Mode of Payment and Reporting of Non-Debt Instruments) Regulations, 2019 issued by RBI.

On October 17, 2019, Ministry of Finance, Department of Economic Affairs, had notified the FEMA Rules, which had replaced the Foreign Exchange Management (Transfer and Issue of Security by a Person Resident Outside India) Regulations 2017. Foreign investment in this Offer shall be on the basis of the FEMA Rules. Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020 issued by the DPIIT and the Foreign Exchange Management (Non-debt Instruments) Amendment Rules, 2020 which came into effect from April 22, 2020, any investment, subscription, purchase or sale of equity instruments by entities of a country which shares land border with India or where the beneficial owner of an investment into India is situated in or is a citizen of any such country, will require prior approval of the Government, as prescribed in the Consolidated FDI Policy and the FEMA Rules. Further, in the event of transfer of ownership of any existing or future foreign direct investment in an entity in India, directly or indirectly, resulting in the beneficial ownership falling within the aforesaid restriction/ purview, such subsequent change in the beneficial ownership will also require approval of the Government. Pursuant to the Foreign Exchange Management (Non-debt Instruments) (Fourth Amendment) Rules, 2020 issued on December 8, 2020, a multilateral bank or fund, of which India is a member, shall not be treated as an entity of a particular country nor shall any country be treated as the beneficial owner of the investments of such bank of fund in India.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of RBI, provided that (i) the activities of the investee company falls under the automatic route as provided in the FDI Policy and FEMA and transfer does not attract the provisions of the SEBI Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI Policy; and (iii) the pricing is in accordance with the guidelines prescribed by SEBI and RBI.

Please also note that pursuant to Circular no. 14 dated September 16, 2003 issued by RBI, Overseas Corporate Bodies (“OCBs”) have been derecognised as an eligible class of investors and RBI has subsequently issued the Foreign Exchange Management (Withdrawal of General Permission to Overseas Corporate Bodies (OCBs)) Regulations, 2003. Any Investor being an OCB is required not to be under the adverse notice of RBI and in order to apply for this issue as an incorporated non-resident must do so in accordance with the FDI Circular 2020 and FEMA Rules. Further, while investing in the Issue, the Investors are deemed to have obtained the necessary approvals, as required, under applicable laws and the obligation to obtain such approvals shall be upon the Investors.
