#### WORLD SUSTAINABILITY RANKINGS

## DU leads 56 Indian varsities on QS list

**University of** Toronto tops the charts for 2024

**EXPRESS NEWS SERVICE** New Delhi, December 5

THE UNIVERSITY OF Delhi (DU) has been featured as the most sustainable Indian institute in the QS World University Rankings: Sustainability 2024 released on Tuesday. Globally, the university has ranked at 220.

Overall, the University of Toronto has ranked at the top, followed by the University of California, Berkeley (UCB) and The University of Manchester at the second and third spots.

This time, there is no Indian university in the first top 200 ranks. After DU, IIT Bombay has featured at 303 globally, followed by IIT Madras at 344, IIT Kharagpur at 349, IIT Roorkee at 387 and IIT Delhi at 426.

In addition to DU and IITs, Birla Institute of Technology and Science, Pilani (BITS) is ranked 7th in India (444 globally), followed by Vellore Institute of Technology (VIT) at 8th spot (449 globally), Anna University at the ninth spot (496 globally) and the Indian Institute of Science at the 10th spot (505 globally).

While India lacks in global sustainability rankings, it performed better in indicators related to environmental impact — which quantifies an institution's commitment to, and implementation of, its sustainability and climate strategies. In the Environmental Sustainability indicator, four Indian universities found a place among the world's top 100, with Vellore Institute of Technology (VIT) emerging as the national leader (49 globally).

Additionally, the University of Delhi was recognised for offering "world-class education in environmental and climate-related subjects", placing 16th in QS' Environmental Education indicator. In Asia, only The University of Tokyo performed better in this

#### MAKING THE CUT

**Top 5 Indian varsities** Rank 2024 Institution 220 University of Delhi 303 IIT Bombay 344 IIT Madras IIT Kharagpur 387 IIT Roorkee

\*In all, 56 Indian universities made it to the QS World University Sustainability rankings 2024. The list features 1,397 institutions across 95 countries and territories

Rankings on Environmental Sustainabilit	ty	
Institution	Score	Rank
■ Vellore Institute of Technology	72.1	49
■ University of Delhi	66.7	66
■ Indian Institute of Technology Madras	66	70
■ Kalinga Institute of Industrial Technology	63.5	81
G		عنقا

metric. However, a sharp dropoff saw the next highestranked university place outside the top 100.

While India is making strides in environmental education, Indian institutes are lacking in environmental research. The Indian Institutes of Technology (IIT) dominate this indicator domestically, with IIT Delhi taking the highest rank, at 236th.

"India could look to improve factors related to QS'Good Governance indicator, such as ethics, hiring practices, transparency and decision-making. In this metric, two Indian universities were among the world's top 200, with Manipal Academy of Higher Education and the University of Delhi placing 111th and 167th respectively," the QS report stated.

In the QS' Equality indicator, Manipal Academy of Higher Education was the national leader, placing 463rd. It was the only Indian institution in the world's top 500. Additionally, IIT boasts of the country's best graduate opportunities and career prospects, with all five of the country's top performers in Employability and Outcomes being IIT. IITB is the top performer, placing 199th.

"India, as one of the world's

largest emitters of carbon dioxide, faces a formidable challenge and shoulders immense responsibility for meeting its commitment to achieve net zero by 2070. In this context, the role of Indian universities is pivotal as they continue to expand in number and improve in quality," QS senior vice-president Ben Sowter said.

"While there are comcertain areas of the ranking, there are also areas for improvement. The performance of institutions like VIT and the University of Delhi in Environmental Education and Institutional Sustainability is noteworthy and these achievements are crucial for India's climate action plans. However, challenges related to Environmental Research and Equality remain. To align with the nation's environmental commitments, universities need to amplify their research capabilities, foster diversity and inclusivity and invest in high-impact environmental research. Furthermore, as India seeks to enhance its inbound and outbound student mobility, carbon offsetting within the sector will become increasingly necessary," he added.

# No compromise on fielding, fitness, says women's cricket team coach

VINAYAKK **MOHANARANGAN** New Delhi, December 5

THE INDIAN WOMEN'S cricket team doesn't play often at home. In T20Is, they played Australia in December last year. The last ODI home series was back in March 2021. That is despite the fact they have a T20 World Cup in Bangladesh next year and a home World Cup in the 50-over format on the horizon in 2025. And above all this, it's been a year since the team's last official head coach was moved on from the job.

It is against this backdrop that Harmanpreet Kaur and Co get ready for a rare bumper month of international cricket athome, with finally a new head coach in place. Mumbai domestic legend Amol Muzumdar will begin his stint at a place where he piled on mountains of runs as India play England and Australia over the next five weeks in Mumbai and Navi Mumbai.

While there is reason to debate why the Indian women's team is seemingly restricted to playing in and around Mumbai in the recent past, for Muzumdar it is a chance to kick things off in a backdrop that he knows like the back of his hand.

"I am starting in a new role at my home ground," Muzumdar said in his first press conference on Tuesday at the Wankhede Stadium. "I have played most of my cricket since my childhood here, it's great to start here. It's been a long journey. Yeah, familiar with the conditions but at the same time we cannot be complacent."

Muzumdar scored over 11,000 first-class runs in 171 matches including 30 centuries during his domestic career that

lasted more than two decades. One of Muzumdar's predecessors in the role — former India coach WV Raman — says it's time to make the most of the talent that India have in their ranks. "No need to delve too much in the past (on no coach for one year). Time to look forward now," Raman told The *Indian Express.* "Amol takes over at a good time, the team is in a good place after some decent exposure — with a professionalised league like the WPL coming in, the Asian

Captain Harmanpreet Kaur (right) and teammate Smriti Mandhana during a practice session ahead of the first T20I cricket match between India and England, at Wankhede Stadium in Mumbai on Tuesday

"I think the challenge ahead for him is to accurately assess the talent at the team's disposal. He's got two crucial series at home before the T20 World Cup next year. Before that, he needs to get together with the selectors to find the right combination. Lots of strong players to choose from.It's about finding the right combination," Raman added.

#### A solid squad

On that front, it must be said that the selection committee that has often been under the scanner for their calls — have delivered a good mix of fresh faces and experienced hands for the T20Is. Shreyanka Patil and Saika Ishaque have been rewarded for performances in the WPL, domestic circuit as well as the India A set-up. Mannat Kashyap joins Titas Sadhu in being blooded in from the U19 World Cup-winning squad. And

in Renuka Singh Thakur, they have an experienced pacer making her comeback after a period away from international cricket.

"Young generation is com-

ing through as we saw during the India A series," Muzumdar said. "Their performances in that series, and even prior have been rewarded by the selectors. I am sure the young faces that have come in can deliver when they get a chance. They have got a terrific mindset, and the energy and intensity that we need on the ground."

Captain Harmanpreet, one of the best athletes in the game, had once said that one of her dreams would be to see India as the best fielding team in the world. She'd have been happy to hear that Muzumdar has made that one of his priorities along with fitness. "Fielding and fitness will be my top priority," the 49-year-old said. "There is no

compromise on that. The fitness parameters have already been set, and we have had some tests at NCA pre-series. These will be followed rigorously. There will be a lot of camps post this series, and a lot of cricket will be played either at NCA or some other place. All the fringe and new players that are coming through will also get an opportunity."

Sandwiched between the crucial white-ball tests, are two Test matches, one each against England and Australia. Indian women will be playing a home Test for the first time since 2014. During a recent camp, Muzumdar said they had an intra-squad four-day match in November to get the team in the mindset to play Tests. Players picked for the longer format but not for T20Is – the likes of Rajeshwari Gayakwad, Sneh Rana – are in Mumbai already to train for the Tests. Every little bit of preparation would matter, given India's female cricketers don't play days-cricket with the red ball at the domestic level.

#### World Cup in focus

Muzumdar will be assisted by NCA's Troy Cooley and Munish Bali as the bowling and fielding coaches respectively for the series against England and Australia. With the T20 World Cup scheduled to be held in Bangladesh in September next year, and no scheduled assignments on the official Futures Tours Program until then, this month will play a big part in telling Harmanpreet and Muzumdarwhere things stand.

"Definitely every step from here on is moving towards the World Cup. The series against England and Australia will count a lot...(Playing more series) is for the board to decide. More we play, better," Muzumdar said.

## Global South must adopt digital public infra, says Kant

PRESS TRUST OF INDIA New Delhi, December 5

THE GLOBAL SOUTH needs to adopt digital public infrastruc-

ture to technologically leapfrog and achieve sustainable development goals (SDGs), India's G20 Sherpa Amitabh Kant said on Tuesday.

Addressing an event organised by Amitabh Kant, Carnegie India, Kant India's G20 said now the world will Sherpa

grow on the back of digital public infrastructure. He said if the the world has to grow equitably then the global south is important because 4 billion people still do not have digital

133 countries in the world do

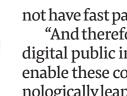

not have fast payments.

"And therefore you need the digital public infrastructure to enable these countries to technologically leapfrog and ensure

> that we are able to sustainable development goals reached to them. And that is really the key, the SDGs must reach the

> global south," Kant said. The term 'global south' is used to refer poor and developing countries.

Aayog CEO noted that during the Covid period, while the world was giving out large packages, which led to then inflation, India was able to put money straight into the bank accounts of the beneficiaries using digital

## WORLD SUSTAINABILITY RANKINGS

## DU leads 56 Indian varsities on QS list

University of Toronto tops the charts for 2024

**EXPRESS NEWS SERVICE** New Delhi, December 5

THE UNIVERSITY OF Delhi (DU) has been featured as the most sustainable Indian institute in the QS World University Rankings: Sustainability 2024 released on Tuesday. Globally, the university has ranked at 220.

Overall, the University of Toronto has ranked at the top, followed by the University of California, Berkeley (UCB) and The University of Manchester at the second and third spots.

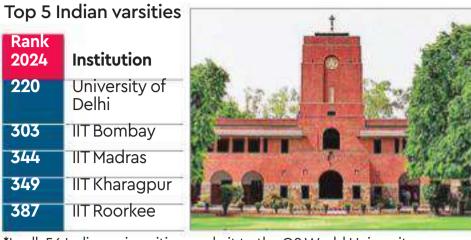

This time, there is no Indian university in the first top 200 ranks. After DU, IIT Bombay has featured at 303 globally, followed by IIT Madras at 344, IIT Kharagpur at 349, IIT Roorkee at 387 and IIT Delhi at 426.

In addition to DU and IITs, Birla Institute of Technology and Science, Pilani (BITS) is ranked 7th in India (444 globally), followed by Vellore Institute of Technology (VIT) at 8th spot (449 globally), Anna University at the ninth spot (496 globally) and the Indian Institute of Science at the 10th spot (505 globally).

While India lacks in global sustainability rankings, it performed better in indicators related to environmental impact — which quantifies an institution's commitment to, and implementation of, its sustainability and climate strategies. In the Environmental Sustainability indicator, four Indian universities found a place among the world's top 100, with Vellore Institute of Technology (VIT) emerging as the national leader (49 globally).

Additionally, the University of Delhi was recognised for offering "world-class education in environmental and climate-related subjects", placing 16th in QS' Environmental Education indicator. In Asia, only The University of Tokyo performed better in this

#### MAKING THE CUT

metric. However, a sharp dropoff saw the next highestranked university place outside the top 100.

While India is making strides in environmental education, Indian institutes are lacking in environmental research.The Indian Institutes of Technology (IIT) dominate this indicator domestically, with IIT Delhi taking the highest rank, at 236th. "India could look to improve

factors related to QS'Good Governance indicator, such as ethics, hiring practices, transparency and decision-making. In this metric, two Indian universities were among the world's top 200, with Manipal Academy of Higher Education and the University of Delhi placing 111th and 167th respectively," the QS report stated. In the QS' Equality indica-

tor, Manipal Academy of Higher Education was the national leader, placing 463rd. It was the only Indian institution in the world's top 500. Additionally, IIT boasts of the country's best graduate opportunities and career prospects, with all five of the country's top performers in Employability and Outcomes being IIT. IITB is the top performer, placing 199th.

"India, as one of the world's

largest emitters of carbon dioxide, faces a formidable challenge and shoulders immense responsibility for meeting its commitment to achieve net zero by 2070. In this context, the role of Indian universities is pivotal as they continue to expand in number and improve in quality," QS senior vice-president Ben Sowter said.

"While there are com-

mendable achievements in certain areas of the ranking, there are also areas for improvement. The performance of institutions like VIT and the University of Delhi in **Environmental Education and** Institutional Sustainability is noteworthy and these achievements are crucial for India's climate action plans. However, challenges related to **Environmental Research and** Equality remain. To align with the nation's environmental commitments, universities need to amplify their research capabilities, foster diversity and inclusivity and invest in high-impact environmental research. Furthermore, as India seeks to enhance its inbound and outbound student mobility, carbon offsetting within the sector will become increasingly necessary," he added.

## No compromise on fielding, fitness, says women's cricket team coach

VINAYAKK **MOHANARANGAN** New Delhi, December 5

THE INDIAN WOMEN'S cricket team doesn't play often at home. In T20Is, they played Australia in December last year. The last ODI home series was back in March 2021. That is despite the fact they have a T20 World Cup in Bangladesh next year and a home World Cup in the 50-over format on the horizon in 2025. And above all this, it's been a year since the team's last official head coach was moved on from the job.

It is against this backdrop that Harmanpreet Kaur and Co get ready for a rare bumper month of international cricket at home, with finally a new head coach in place. Mumbai domestic legend Amol Muzumdar will begin his stint at a place where he piled on mountains of runs as India play England and Australia over the next five weeks in Mumbai and Navi Mumbai.

While there is reason to debate why the Indian women's team is seemingly restricted to playing in and around Mumbai in the recent past, for Muzumdar it is a chance to kick things off in a backdrop that he knows like the back of his hand.

"I am starting in a new role at my home ground," Muzumdar said in his first press conference on Tuesday at the Wankhede Stadium. "I have played most of my cricket since my childhood here, it's great to start here. It's been a long journey. Yeah, familiar with the conditions but at the same time we cannot be complacent."

Muzumdar scored over 11,000 first-class runs in 171 matches including 30 centuries during his domestic career that

lasted more than two decades. One of Muzumdar's predecessors in the role — former India coach WV Raman — says it's time to make the most of the talent that India have in their ranks. "No need to delve too much in the past (on no coach for one year). Time to look forward now," Raman told *The* Indian Express. "Amol takes over at a good time, the team is in a good place after some decent exposure — with a professionalised league like the WPL coming in, the Asian Games medal recently."

match between India and England, at Wankhede Stadium in Mumbai on Tuesday

"I think the challenge ahead for him is to accurately assess the talent at the team's disposal. He's got two crucial series at home before the T20 World Cup next year. Before that, he needs to get together with the selectors to find the right combination. Lots of strong players to choose from.It's about finding the right combination," Raman added.

#### A solid squad

On that front, it must be said that the selection committee that has often been under the scanner for their calls — have delivered a good mix of fresh faces and experienced hands for the T20Is. Shreyanka Patil and Saika Ishaque have been rewarded for performances in the WPL, domestic circuit as well as the India A set-up. Mannat Kashyap joins Titas Sadhu in being blooded in from the U19 World Cup-winning squad. And

in Renuka Singh Thakur, they have an experienced pacer making her comeback after a period away from international cricket. "Young generation is com-

ing through as we saw during the India A series," Muzumdar said. "Their performances in that series, and even prior have been rewarded by the selectors. I am sure the young faces that have come in can deliver when they get a chance. They have got a terrific mindset, and the energy and intensity that we need on the ground."

Captain Harmanpreet, one of the best athletes in the game, had once said that one of her dreams would be to see India as the best fielding team in the world. She'd have been happy to hear that Muzumdar has made that one of his priorities along with fitness. "Fielding and fitness will be my top priority," the 49-year-old said. "There is no

compromise on that. The fitness parameters have already been set, and we have had some tests at NCA pre-series. These will be followed rigorously. There will be a lot of camps post this series, and a lot of cricket will be played either at NCA or some other place. All the fringe and new players that are coming through will also get an opportunity."

Sandwiched between the crucial white-ball tests, are two Test matches, one each against England and Australia. Indian women will be playing a home Test for the first time since 2014. During a recent camp, Muzumdar said they had an intra-squad four-day match in November to get the team in the mindset to play Tests. Players picked for the longer format but not for T20Is – the likes of Rajeshwari Gayakwad, Sneh Rana – are in Mumbai already to train for the Tests. Every little bit of preparation would matter given India's female cricketers don't play days-cricket with the red ball at the domestic level.

#### **World Cup in focus**

Muzumdar will be assisted by NCA's Troy Cooley and Munish Bali as the bowling and fielding coaches respectively for the series against England and Australia. With the T20 World Cup scheduled to be held in Bangladesh in September next year, and no scheduled assignments on the official Futures Tours Program until then, this month will play a big part in telling Harmanpreet and Muzumdarwhere things stand.

"Definitely every step from here on is moving towards the World Cup. The series against England and Australia will count a lot...(Playing more series) is for the board to decide. More we play, better," Muzumdar said.

## Global South must adopt digital public infra, says Kant

PRESS TRUST OF INDIA New Delhi, December 5

THE GLOBAL SOUTH needs to

adopt digital public infrastructure to technologically leapfrog and achieve sustainable development goals (SDGs), India's G20 Sherpa Amitabh Kant said on Tuesday. Addressing

event organised by Amitabh Kant, Carnegie India, Kant India's G20 said now the world will Sherpa grow on the back of

digital public infrastructure. He said if the the world has to grow equitably then the global south is important because 4 billion people still do not have digital identity, 1.3 billion people do not have a bank account, while 133 countries in the world do

work packages on fully turnkey mode.

Schedule to the Invitation of tender:

2. Publishing & Download of Bid :

notification without assigning any reason thereof.

4. Pre-bid Meeting:

Date of opening of Bid :

not have fast payments. "And therefore you need the

digital public infrastructure to enable these countries to technologically leapfrog and ensure that we are able to

> make sustainable development goals reached to them. And that is really the key, the SDGs must reach the global south," Kant said.

The term 'global south' is used to refer poor and developing countries.

The former NITI Aayog CEO noted that during the Covid period, while the worldwas giving out large packages, which led to then inflation, India was able to put money straight into the bank accounts of the beneficiaries using digital public infrastructure.

## WORLD SUSTAINABILITY RANKINGS

## DU leads 56 Indian varsities on QS list

University of Toronto tops the charts for 2024

**EXPRESS NEWS SERVICE** New Delhi, December 5

THE UNIVERSITY OF Delhi (DU) has been featured as the most sustainable Indian institute in the QS World University Rankings: Sustainability 2024 released on Tuesday. Globally, the university has ranked at 220.

Overall, the University of Toronto has ranked at the top, followed by the University of California, Berkeley (UCB) and The University of Manchester at the second and third spots.

This time, there is no Indian university in the first top 200 ranks. After DU, IIT Bombay has featured at 303 globally, followed by IIT Madras at 344, IIT Kharagpur at 349, IIT Roorkee at 387 and IIT Delhi at 426.

In addition to DU and IITs, Birla Institute of Technology and Science, Pilani (BITS) is ranked 7th in India (444 globally), followed by Vellore Institute of Technology (VIT) at 8th spot (449 globally), Anna University at the ninth spot (496 globally) and the Indian Institute of Science at the 10th spot (505 globally).

While India lacks in global sustainability rankings, it performed better in indicators related to environmental impact — which quantifies an institution's commitment to, and implementation of, its sustainability and climate strategies. In the Environmental Sustainability indicator, four Indian universities found a place among the world's top 100, with Vellore Institute of Technology (VIT) emerging as the national

leader (49 globally). Additionally, the University of Delhi was recognised for offering "world-class education in environmental and climate-related subjects", placing 16th in QS' Environmental Education indicator. In Asia, only The University of Tokyo performed better in this

#### MAKING THE CUT

**Top 5 Indian varsities** Institution 220 University of Delhi 303 IIT Bombay 344 IIT Madras IIT Kharagpui 387 IIT Roorkee

\*In all, 56 Indian universities made it to the QS World University Sustainability rankings 2024. The list features 1,397 institutions across 95 countries and territories

Rankings on Environmental Sustainability		
Institution	Score	Rank
■ Vellore Institute of Technology	72.1	49
■ University of Delhi	66.7	66
■ Indian Institute of Technology Madras	66	70
■ Kalinga Institute of Industrial Technology	63.5	81

metric. However, a sharp dropoff saw the next highestranked university place outside the top 100.

While India is making strides in environmental education, Indian institutes are lacking in environmental research.The Indian Institutes of Technology (IIT) dominate this indicator domestically, with IIT Delhi taking the highest rank, at 236th. "India could look to improve

factors related to QS'Good Governance indicator, such as ethics, hiring practices, transparency and decision-making. In this metric, two Indian universities were among the world's top 200, with Manipal Academy of Higher Education and the University of Delhi placing 111th and 167th respectively," the QS report stated. In the QS' Equality indica-

tor, Manipal Academy of Higher Education was the national leader, placing 463rd. It was the only Indian institution in the world's top 500. Additionally, IIT boasts of the country's best graduate opportunities and career prospects, with all five of the country's top performers in Employability and Outcomes being IIT. IITB is the top performer, placing 199th.

"India, as one of the world's

largest emitters of carbon dioxide, faces a formidable challenge and shoulders immense responsibility for meeting its commitment to achieve net zero by 2070. In this context, the role of Indian universities is pivotal as they continue to expand in number

and improve in quality," QS

senior vice-president Ben

Sowter said.

"While there are commendable achievements in certain areas of the ranking, there are also areas for improvement. The performance of institutions like VIT and the University of Delhi in **Environmental Education and** Institutional Sustainability is noteworthy and these achievements are crucial for India's climate action plans. However, challenges related to Environmental Research and Equality remain. To align with the nation's environmental commitments, universities need to amplify their research capabilities, foster diversity and inclusivity and invest in high-impact environmental research. Furthermore, as India seeks to enhance its inbound and outbound student mobility, carbon offsetting within the sector will become increasingly neces-

sary," he added.

## No compromise on fielding, fitness, says women's cricket team coach

VINAYAKK **MOHANARANGAN** New Delhi, December 5

THE INDIAN WOMEN'S cricket team doesn't play often at home. In T20Is, they played Australia in December last year. The last ODI home series was back in March 2021. That is despite the fact they have a T20 World Cup in Bangladesh next year and a home World Cup in the 50-over format on the horizon in 2025. And above all this, it's been a year since the team's last official head coach was moved on from the job.

It is against this backdrop that Harmanpreet Kaur and Co get ready for a rare bumper month of international cricket at home, with finally a new head coach in place. Mumbai domestic legend Amol Muzumdar will begin his stint at a place where he piled on mountains of runs as India play England and Australia over the next five weeks in Mumbai and Navi Mumbai.

While there is reason to debate why the Indian women's team is seemingly restricted to playing in and around Mumbai in the recent past, for Muzumdar it is a chance to kick things off in a backdrop that he knows like the back of his hand.

"I am starting in a new role at my home ground," Muzumdar said in his first press conference on Tuesday at the Wankhede Stadium. "I have played most of my cricket since my childhood here, it's great to start here. It's been a long journey. Yeah, familiar with the conditions but at the same time we cannot be complacent."

Muzumdar scored over 11,000 first-class runs in 171 matches including 30 centuries during his domestic career that lasted more than two decades.

One of Muzumdar's predecessors in the role — former India coach WV Raman — says it's time to make the most of the talent that India have in their ranks. "No need to delve too much in the past (on no coach for one year). Time to look forward now," Raman told *The* Indian Express. "Amol takes over at a good time, the team is in a good place after some decent exposure — with a professionalised league like the WPL coming in, the Asian Games medal recently."

Captain Harmanpreet Kaur (right) and teammate Smriti Mandhana during a practice session ahead of the first T20I cricket match between India and England, at Wankhede Stadium in Mumbai on Tuesday

"I think the challenge ahead for him is to accurately assess the talent at the team's disposal. He's got two crucial series at home before the T20 World Cup next year. Before that, he needs to get together with the selectors to find the right combination. Lots of strong players to choose from.It's about finding the right combination," Raman added.

#### A solid squad

On that front, it must be said that the selection committee that has often been under the scanner for their calls — have delivered a good mix of fresh faces and experienced hands for the T20Is. Shreyanka Patil and Saika Ishaque have been rewarded for performances in the WPL, domestic circuit as well as the India A set-up. Mannat Kashyap joins Titas Sadhu in being blooded in from the U19 World Cup-winning squad. And

have an experienced pacer making her comeback after a period away from international cricket. "Young generation is com-

in Renuka Singh Thakur, they

ing through as we saw during the India A series," Muzumdar said. "Their performances in that series, and even prior have been rewarded by the selectors. I am sure the young faces that have come in can deliver when they get a chance. They have got a terrific mindset, and the energy and intensity that we need on the ground."

Captain Harmanpreet, one of the best athletes in the game, had once said that one of her dreams would be to see India as the best fielding team in the world. She'd have been happy to hear that Muzumdar has made that one of his priorities along with fitness. "Fielding and fitness will be my top priority," the 49-year-old said. "There is no

compromise on that. The fitness parameters have already been set, and we have had some tests at NCA pre-series. These will be followed rigorously. There will be a lot of camps post this series, and a lot of cricket will be played either at NCA or some other place. All the fringe and new players that are coming through

Sandwiched between the crucial white-ball tests, are two Test matches, one each against England and Australia. Indian women will be playing a home Test for the first time since 2014. During a recent camp, Muzumdar said they had an intra-squad four-day match in November to get the team in the mindset to play Tests. Players picked for the longer format but not for T20Is – the likes of Rajeshwari Gayakwad, Sneh Rana – are in Mumbai already to train for the Tests. Every little bit

will also get an opportunity."

of preparation would matter, given India's female cricketers don't play days-cricket with the red ball at the domestic level.

#### World Cup in focus

Muzumdar will be assisted by NCA's Troy Cooley and Munish Bali as the bowling and fielding coaches respectively for the series against England and Australia. With the T20 World Cup scheduled to be held in Bangladesh in September next year, and no scheduled assignments on the official Futures Tours Program until then, this month will play a big part in telling Harmanpreet and Muzumdarwhere things stand.

here on is moving towards the World Cup. The series against **England and Australia will count** a lot...(Playing more series) is for the board to decide. More we play, better," Muzumdar said.

"Definitely every step from

## Global South must adopt digital public infra, says Kant

New Delhi, December 5

PRESS TRUST OF INDIA

THE GLOBAL SOUTH needs to adopt digital public infrastructure to technologically

leapfrog and achieve sustainable development goals (SDGs), India's G20 Sherpa Amitabh Kant said on Tuesday. Addressing

event organised by Amitabh Kant, Carnegie India, Kant India's G20 said now the world will Sherpa grow on the back of

digital public infrastructure. He said if the the world has to grow equitably then the global south is important because 4 billion people still do not have digital identity, 1.3 billion people do not have a bank account, while 133 countries in the world do

not have fast payments.

"And therefore you need the digital public infrastructure to enable these countries to technologically leapfrog and ensure

> that we are able to sustainable development goals reached to them. And that is really the key, the SDGs must reach the global south," Kant said.

The term 'global south' is used to refer poor and developing countries.

The former NITI Aayog CEO noted that during the Covid period, while the worldwas giving out large packages, which led to then inflation, India was able to put money straight into the bank accounts of the beneficiaries using digital public infrastructure.

## WORLD SUSTAINABILITY RANKINGS

## DU leads 56 Indian varsities on QS list

University of Toronto tops the charts for 2024

**EXPRESS NEWS SERVICE** New Delhi, December 5

THE UNIVERSITY OF Delhi (DU) has been featured as the most sustainable Indian institute in the QS World University Rankings: Sustainability 2024 released on Tuesday. Globally, the university has ranked at 220.

Overall, the University of Toronto has ranked at the top, followed by the University of California, Berkeley (UCB) and The University of Manchester at the second and third spots.

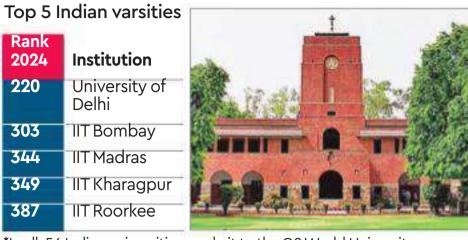

This time, there is no Indian university in the first top 200 ranks. After DU, IIT Bombay has featured at 303 globally, followed by IIT Madras at 344, IIT Kharagpur at 349, IIT Roorkee at 387 and IIT Delhi at 426.

In addition to DU and IITs, Birla Institute of Technology and Science, Pilani (BITS) is ranked 7th in India (444 globally), followed by Vellore Institute of Technology (VIT) at 8th spot (449 globally), Anna University at the ninth spot (496 globally) and the Indian Institute of Science at the 10th spot (505 globally).

While India lacks in global sustainability rankings, it performed better in indicators related to environmental impact — which quantifies an institution's commitment to, and implementation of, its sustainability and climate strategies. In the Environmental Sustainability indicator, four Indian universities found a place among the world's top 100, with Vellore Institute of Technology (VIT) emerging as the national leader (49 globally).

Additionally, the University of Delhi was recognised for offering "world-class education in environmental and climate-related subjects", placing 16th in QS' Environmental Education indicator. In Asia, only The University of Tokyo performed better in this

#### MAKING THE CUT

\*In all, 56 Indian universities made it to the QS World University Sustainability rankings 2024. The list features 1,397 institutions across 95 countries and territories

Rankings on Environmental Sustainability		
Institution	Score	Rank
■ Vellore Institute of Technology	72.1	49
■ University of Delhi	66.7	66
■ Indian Institute of Technology Madras	66	70
■ Kalinga Institute of Industrial Technology	63.5	81

metric. However, a sharp dropoff saw the next highestranked university place outside the top 100.

While India is making strides in environmental education, Indian institutes are lacking in environmental research.The Indian Institutes of Technology (IIT) dominate this indicator domestically, with IIT Delhi taking the highest rank, at 236th. "India could look to improve

factors related to QS'Good Governance indicator, such as ethics, hiring practices, transparency and decision-making. In this metric, two Indian universities were among the world's top 200, with Manipal Academy of Higher Education and the University of Delhi placing 111th and 167th respectively," the QS report stated. In the QS' Equality indica-

tor, Manipal Academy of Higher Education was the national leader, placing 463rd. It was the only Indian institution in the world's top 500. Additionally, IIT boasts of the country's best graduate opportunities and career prospects, with all five of the country's top performers in Employability and Outcomes being IIT. IITB is the top performer, placing 199th.

"India, as one of the world's

largest emitters of carbon dioxide, faces a formidable challenge and shoulders immense responsibility for meeting its commitment to achieve net zero by 2070. In this context, the role of Indian universities is pivotal as they continue to expand in number and improve in quality," QS senior vice-president Ben Sowter said.

"While there are com-

mendable achievements in certain areas of the ranking, there are also areas for improvement. The performance of institutions like VIT and the University of Delhi in **Environmental Education and** Institutional Sustainability is noteworthy and these achievements are crucial for India's climate action plans. However, challenges related to **Environmental Research and** Equality remain. To align with the nation's environmental commitments, universities need to amplify their research capabilities, foster diversity and inclusivity and invest in high-impact environmental research. Furthermore, as India seeks to enhance its inbound and outbound student mobility, carbon offsetting within the sector will become increasingly necessary," he added.

## No compromise on fielding, fitness, says women's cricket team coach

VINAYAKK **MOHANARANGAN** New Delhi, December 5

THE INDIAN WOMEN'S cricket team doesn't play often at home. In T20Is, they played Australia in December last year. The last ODI home series was back in March 2021. That is despite the fact they have a T20 World Cup in Bangladesh next year and a home World Cup in the 50-over format on the horizon in 2025. And above all this, it's been a year since the team's last official head coach was moved on from the job.

It is against this backdrop that Harmanpreet Kaur and Co get ready for a rare bumper month of international cricket at home, with finally a new head coach in place. Mumbai domestic legend Amol Muzumdar will begin his stint at a place where he piled on mountains of runs as India play England and Australia over the next five weeks in Mumbai and Navi Mumbai.

While there is reason to debate why the Indian women's team is seemingly restricted to playing in and around Mumbai in the recent past, for Muzumdar it is a chance to kick things off in a backdrop that he knows like the back of his hand.

"I am starting in a new role at my home ground," Muzumdar said in his first press conference on Tuesday at the Wankhede Stadium. "I have played most of my cricket since my childhood here, it's great to start here. It's been a long journey. Yeah, familiar with the conditions but at the same time we cannot be complacent."

Muzumdar scored over 11,000 first-class runs in 171 matches including 30 centuries during his domestic career that

lasted more than two decades. One of Muzumdar's predecessors in the role — former India coach WV Raman — says it's time to make the most of the talent that India have in their ranks. "No need to delve too much in the past (on no coach for one year). Time to look forward now," Raman told *The* Indian Express. "Amol takes over at a good time, the team is in a good place after some decent exposure — with a professionalised league like the WPL coming in, the Asian Games medal recently."

match between India and England, at Wankhede Stadium in Mumbai on Tuesday

"I think the challenge ahead for him is to accurately assess the talent at the team's disposal. He's got two crucial series at home before the T20 World Cup next year. Before that, he needs to get together with the selectors to find the right combination. Lots of strong players to choose from.It's about finding the right combination," Raman added.

#### A solid squad

On that front, it must be said that the selection committee that has often been under the scanner for their calls — have delivered a good mix of fresh faces and experienced hands for the T20Is. Shreyanka Patil and Saika Ishaque have been rewarded for performances in the WPL, domestic circuit as well as the India A set-up. Mannat Kashyap joins Titas Sadhu in being blooded in from the U19 World Cup-winning squad. And

in Renuka Singh Thakur, they have an experienced pacer making her comeback after a period away from international cricket. "Young generation is com-

ing through as we saw during the India A series," Muzumdar said. "Their performances in that series, and even prior have been rewarded by the selectors. I am sure the young faces that have come in can deliver when they get a chance. They have got a terrific mindset, and the energy and intensity that we need on the ground."

Captain Harmanpreet, one of the best athletes in the game, had once said that one of her dreams would be to see India as the best fielding team in the world. She'd have been happy to hear that Muzumdar has made that one of his priorities along with fitness. "Fielding and fitness will be my top priority," the 49-year-old said. "There is no

parameters have already been set, and we have had some tests at NCA pre-series. These will be followed rigorously. There will be a lot of camps post this series, and a lot of cricket will be played either at NCA or some other place. All the fringe and new players that are coming through will also get an opportunity." Sandwiched between the

compromise on that. The fitness

crucial white-ball tests, are two Test matches, one each against England and Australia. Indian women will be playing a home Test for the first time since 2014. During a recent camp, Muzumdar said they had an intra-squad four-day match in November to get the team in the mindset to play Tests. Players picked for the longer format but not for T20Is – the likes of Rajeshwari Gayakwad, Sneh Rana – are in Mumbai already to train for the Tests. Every little bit of preparation would matter given India's female cricketers don't play days-cricket with the red ball at the domestic level.

#### **World Cup in focus**

Muzumdar will be assisted by

NCA's Troy Cooley and Munish Bali as the bowling and fielding coaches respectively for the series against England and Australia. With the T20 World Cup scheduled to be held in Bangladesh in September next year, and no scheduled assignments on the official Futures Tours Program until then, this month will play a big part in telling Harmanpreet and Muzumdarwhere things stand.

"Definitely every step from here on is moving towards the World Cup. The series against England and Australia will count a lot...(Playing more series) is for the board to decide. More we play, better," Muzumdar said.

## Global South must adopt digital public infra, says Kant

PRESS TRUST OF INDIA New Delhi, December 5

THE GLOBAL SOUTH needs to

adopt digital public infrastructure to technologically

leapfrog and achieve sustainable development goals (SDGs), India's G20 Sherpa Amitabh Kant said on Tuesday. Addressing

event organised by Amitabh Kant, Carnegie India, Kant India's G20 said now the world will Sherpa grow on the back of

digital public infrastructure. He said if the the world has to grow equitably then the global south is important because 4 billion people still do not have digital identity, 1.3 billion people do not have a bank account, while 133 countries in the world do

work packages on fully turnkey mode.

## WORLD SUSTAINABILITY RANKINGS

## DU leads 56 Indian varsities on QS list

University of Toronto tops the charts for 2024

**EXPRESS NEWS SERVICE** New Delhi, December 5

THE UNIVERSITY OF Delhi (DU) has been featured as the most sustainable Indian institute in the QS World University Rankings: Sustainability 2024 released on Tuesday. Globally, the university has ranked at 220.

Overall, the University of Toronto has ranked at the top, followed by the University of California, Berkeley (UCB) and The University of Manchester

university in the first top 200 ranks. After DU, IIT Bombay has featured at 303 globally, followed by IIT Madras at 344, IIT Kharagpur at 349, IIT Roorkee at 387 and IIT Delhi at 426.

Birla Institute of Technology and Science, Pilani (BITS) is ranked 7th in India (444 globally), followed by Vellore Institute of Technology (VIT) at 8th spot (449 globally), Anna University at the ninth spot (496 tute of Science at the 10th spot

sustainability rankings, it performed better in indicators related to environmental impact — which quantifies an institution's commitment to, and implementation of, its sustainability and climate strategies. In the Environmental Sustainability indicator, four Indian universities found a place among the world's top 100, with Vellore Institute of Technology (VIT) emerging as the national leader (49 globally).

for offering "world-class educlimate-related subjects", placing 16th in QS' Environmental Education indicator. In Tokyo performed better in this

### MAKING THE CUT

Top 5 Indian varsities Institution University of 220 Delhi 303 IIT Bombay IIT Madras IIT Kharagpui 387 IIT Roorkee

\*In all, 56 Indian universities made it to the QS World University Sustainability rankings 2024. The list features 1,397 institutions across 95 countries and territories

Rankings on Environmental Sustainability		
Institution	Score	Rank
■ Vellore Institute of Technology	72.1	49
■ University of Delhi	66.7	66
■ Indian Institute of Technology Madras	66	70
■ Kalinga Institute of Industrial Technology	63.5	81
		*

metric. However, a sharp dropoff saw the next highestranked university place outside the top 100.

While India is making strides in environmental education, Indian institutes are lacking in environmental research. The Indian Institutes of Technology (IIT) dominate this indicator domestically, with IIT Delhi taking the highest rank, at 236th. "India could look to improve

factors related to QS'Good Governance indicator, such as ethics, hiring practices, transparency and decision-making. In this metric, two Indian universities were among the world's top 200, with Manipal Academy of Higher Education and the University of Delhi placing 111th and 167th respectively," the QS report stated. In the QS' Equality indica-

tor, Manipal Academy of Higher Education was the national leader, placing 463rd. It was the only Indian institution in the world's top 500. Additionally, IIT boasts of the country's best graduate opportunities and career prospects, with all five of the country's top performers in Employability and Outcomes being IIT. IITB is the top performer, placing 199th.

"India, as one of the world's

largest emitters of carbon dioxide, faces a formidable challenge and shoulders immense responsibility for meeting its commitment to achieve net zero by 2070. In this context, the role of Indian universities is pivotal as they

continue to expand in number

and improve in quality," QS

senior vice-president Ben

"While there are com-

Sowter said.

mendable achievements in certain areas of the ranking, there are also areas for improvement. The performance of institutions like VIT and the University of Delhi in **Environmental Education and** Institutional Sustainability is noteworthy and these achievements are crucial for India's climate action plans. However, challenges related to **Environmental Research and** Equality remain. To align with the nation's environmental commitments, universities need to amplify their research capabilities, foster diversity and inclusivity and invest in high-impact environmental research. Furthermore, as India seeks to enhance its inbound and outbound student mobility, carbon offsetting within the sector will

become increasingly neces-

## says women's cricket team coach VINAYAKK

**MOHANARANGAN** New Delhi, December 5

THE INDIAN WOMEN'S cricket team doesn't play often at home. In T20Is, they played Australia in December last year. The last ODI home series was back in March 2021. That is despite the fact they have a T20 World Cup in Bangladesh next year and a home World Cup in the 50-over format on the horizon in 2025. And above all this, it's been a year since the team's last official head coach was moved on from the job.

It is against this backdrop that Harmanpreet Kaur and Co get ready for a rare bumper month of international cricket at home, with finally a new head coach in place. Mumbai domestic legend Amol Muzumdar will begin his stint at a place where he piled on mountains of runs as India play England and Australia over the next five weeks in Mumbai and Navi Mumbai.

While there is reason to debate why the Indian women's team is seemingly restricted to playing in and around Mumbai in the recent past, for Muzumdar it is a chance to kick things off in a backdrop that he knows like the back of his hand.

"I am starting in a new role at my home ground," Muzumdar said in his first press conference on Tuesday at the Wankhede Stadium. "I have played most of my cricket since my childhood here, it's great to start here. It's been a long journey. Yeah, familiar with the conditions but at the same time we cannot be complacent."

Muzumdar scored over 11,000 first-class runs in 171 matches including 30 centuries during his domestic career that lasted more than two decades.

One of Muzumdar's predecessors in the role — former India coach WV Raman — says it's time to make the most of the talent that India have in their ranks. "No need to delve too much in the past (on no coach for one year). Time to look forward now," Raman told The Indian Express. "Amol takes over at a good time, the team is in a good place after some decent exposure — with a professionalised league like the WPL coming in, the Asian Games medal recently."

Captain Harmanpreet Kaur (right) and teammate Smriti Mandhana during a practice session ahead of the first T201 cricket match between India and England, at Wankhede Stadium in Mumbai on Tuesday

"I think the challenge ahead for him is to accurately assess the talent at the team's disposal. He's got two crucial series at home before the T20 World Cup next year. Before that, he needs to get together with the selectors to find the right combination. Lots of strong players to choose from.It's about finding the right combination." Raman added.

#### A solid squad

On that front, it must be said that the selection committee that has often been under the scanner for their calls — have delivered a good mix of fresh faces and experienced hands for the T20Is. Shreyanka Patil and Saika Ishaque have been rewarded for performances in the WPL, domestic circuit as well as the India A set-up. Mannat Kashyap joins Titas Sadhu in being blooded in from the U19 World Cup-winning squad. And

1 (Company as a Going Concern)

have an experienced pacer making her comeback after a period away from international cricket. "Young generation is com-

in Renuka Singh Thakur, they

No compromise on fielding, fitness,

ing through as we saw during the India A series," Muzumdar said. "Their performances in that series, and even prior have been rewarded by the selectors. I am sure the young faces that have come in can deliver when they get a chance. They have got a terrific mindset, and the energy and intensity that we need on the ground."

Captain Harmanpreet, one of the best athletes in the game, had once said that one of her dreams would be to see India as the best fielding team in the world. She'd have been happy to hear that Muzumdar has made that one of his priorities along with fitness. "Fielding and fitness will be my top priority," the 49-year-old said. "There is no

compromise on that. The fitness parameters have already been set, and we have had some tests at NCA pre-series. These will be followed rigorously. There will be a lot of camps post this series, and a lot of cricket will be played either at NCA or some other place. All the fringe and new players that are coming through

will also get an opportunity." Sandwiched between the crucial white-ball tests, are two Test matches, one each against England and Australia. Indian women will be playing a home Test for the first time since 2014. During a recent camp, Muzumdar said they had an intra-squad four-day match in November to get the team in the mindset to play Tests. Players picked for the longer format but not for T20Is - the likes of Rajeshwari Gayakwad, Sneh Rana – are in Mumbai already to

train for the Tests. Every little bit

of preparation would matter given India's female cricketers don't play days-cricket with the red ball at the domestic level.

#### **World Cup in focus**

Muzumdar will be assisted by NCA's Troy Cooley and Munish Bali as the bowling and fielding coaches respectively for the series against England and Australia. With the T20 World Cup scheduled to be held in Bangladesh in September next vear, and no scheduled assignments on the official Futures Tours Program until then, this month will play a big part in telling Harmanpreet and Muzumdarwhere things stand.

here on is moving towards the World Cup. The series against England and Australia will count a lot...(Playing more series) is for the board to decide. More we play, better," Muzumdar said.

"Definitely every step from

## WORLD SUSTAINABILITY RANKINGS

## DU leads 56 Indian varsities on QS list

University of Toronto tops the charts for 2024

**EXPRESS NEWS SERVICE** New Delhi, December 5

THE UNIVERSITY OF Delhi (DU) has been featured as the most sustainable Indian institute in the QS World University Rankings: Sustainability 2024 released on Tuesday. Globally, the university has ranked at 220.

Overall, the University of Toronto has ranked at the top, followed by the University of California, Berkeley (UCB) and The University of Manchester at the second and third spots.

This time, there is no Indian university in the first top 200 ranks. After DU, IIT Bombay has featured at 303 globally, followed by IIT Madras at 344, IIT Kharagpur at 349, IIT Roorkee at 387 and IIT Delhi at 426.

In addition to DU and IITs, Birla Institute of Technology and Science, Pilani (BITS) is ranked 7th in India (444 globally), followed by Vellore Institute of Technology (VIT) at 8th spot (449 globally), Anna University at the ninth spot (496 globally) and the Indian Institute of Science at the 10th spot (505 globally).

While India lacks in global sustainability rankings, it performed better in indicators related to environmental impact — which quantifies an institution's commitment to, and implementation of, its sustainability and climate strategies. In the Environmental Sustainability indicator, four Indian universities found a place among the world's top 100, with Vellore Institute of Technology (VIT) emerging as the national leader (49 globally).

Additionally, the University of Delhi was recognised for offering "world-class education in environmental and climate-related subjects", placing 16th in QS' Environmental Education indicator. In Asia, only The University of Tokyo performed better in this

#### MAKING THE CUT

Top 5 Indian varsities Rank Institution University of 220 Delhi 303 IIT Bombay IIT Madras 349 IIT Kharaqpur 387 IIT Roorkee

\*In all, 56 Indian universities made it to the QS World University Sustainability rankings 2024. The list features 1,397 institutions across 95 countries and territories

73 Coontries and territories		
Rankings on Environmental Sustainability		
Institution	Score	Rank
■ Vellore Institute of Technology	72.1	49
■ University of Delhi	66.7	66
■ Indian Institute of Technology Madras	66	70
■ Kalinga Institute of Industrial Technology	63.5	81

metric. However, a sharp dropoff saw the next highestranked university place outside the top 100.

While India is making strides in environmental education, Indian institutes are lacking in environmental research.The Indian Institutes of Technology (IIT) dominate this indicator domestically, with IIT Delhi taking the highest rank, at 236th. "India could look to improve

factors related to QS'Good Governance indicator, such as ethics, hiring practices, transparency and decision-making. In this metric, two Indian universities were among the world's top 200, with Manipal Academy of Higher Education and the University of Delhi placing 111th and 167th respectively," the QS report stated. In the QS' Equality indica-

tor, Manipal Academy of Higher Education was the national leader, placing 463rd. It was the only Indian institution in the world's top 500. Additionally, IIT boasts of the country's best graduate opportunities and career prospects, with all five of the country's top performers in Employability and Outcomes being IIT. IITB is the top performer, placing 199th.

"India, as one of the world's

largest emitters of carbon dioxide, faces a formidable challenge and shoulders immense responsibility for meeting its commitment to achieve net zero by 2070. In this context, the role of Indian universities is pivotal as they continue to expand in number and improve in quality," QS senior vice-president Ben Sowter said.

"While there are com-

mendable achievements in certain areas of the ranking, there are also areas for improvement. The performance of institutions like VIT and the University of Delhi in **Environmental Education and** Institutional Sustainability is noteworthy and these achievements are crucial for India's climate action plans. However, challenges related to **Environmental Research and** Equality remain. To align with the nation's environmental commitments, universities need to amplify their research capabilities, foster diversity and inclusivity and invest in high-impact environmental research. Furthermore, as India seeks to enhance its inbound and outbound student mobility, carbon offsetting within the sector will become increasingly necessary," he added.

## No compromise on fielding, fitness, says women's cricket team coach

VINAYAKK **MOHANARANGAN** New Delhi, December 5

THE INDIAN WOMEN'S cricket team doesn't play often at home. In T20Is, they played Australia in December last year. The last ODI home series was back in March 2021. That is despite the fact they have a T20 World Cup in Bangladesh next year and a home World Cup in the 50-over format on the horizon in 2025. And above all this, it's been a year since the team's last official head coach was moved on from the job.

It is against this backdrop that Harmanpreet Kaur and Co get ready for a rare bumper month of international cricket at home, with finally a new head coach in place. Mumbai domestic legend Amol Muzumdar will begin his stint at a place where he piled on mountains of runs as India play England and Australia over the next five weeks in Mumbai and Navi Mumbai.

While there is reason to debate why the Indian women's team is seemingly restricted to playing in and around Mumbai in the recent past, for Muzumdar it is a chance to kick things off in a backdrop that he knows like the back of his hand.

"I am starting in a new role at my home ground," Muzumdar said in his first press conference on Tuesday at the Wankhede Stadium. "I have played most of my cricket since my childhood here, it's great to start here. It's been a long journey. Yeah, familiar with the conditions but at the same time we cannot be complacent."

Muzumdar scored over 11,000 first-class runs in 171 matches including 30 centuries during his domestic career that

lasted more than two decades. One of Muzumdar's predecessors in the role — former India coach WV Raman — says it's time to make the most of the talent that India have in their ranks. "No need to delve too much in the past (on no coach for one year). Time to look forward now," Raman told *The* Indian Express. "Amol takes over at a good time, the team is in a good place after some decent exposure — with a professionalised league like the WPL coming in, the Asian Games medal recently."

Captain Harmanpreet Kaur (right) and teammate Smriti Mandhana during a practice session ahead of the first T20I cricket match between India and England, at Wankhede Stadium in Mumbai on Tuesday

"I think the challenge ahead for him is to accurately assess the talent at the team's disposal. He's got two crucial series at home before the T20 World Cup next year. Before that, he needs to get together with the selectors to find the right combination. Lots of strong players to choose from.It's about finding the right combination," Raman added.

#### A solid squad

On that front, it must be said that the selection committee that has often been under the scanner for their calls — have delivered a good mix of fresh faces and experienced hands for the T20Is. Shreyanka Patil and Saika Ishaque have been rewarded for performances in the WPL, domestic circuit as well as the India A set-up. Mannat Kashyap joins Titas Sadhu in being blooded in from the U19 World Cup-winning squad. And

in Renuka Singh Thakur, they have an experienced pacer making her comeback after a period away from international cricket.

"Young generation is com-

ing through as we saw during the India A series," Muzumdar said. "Their performances in that series, and even prior have been rewarded by the selectors. I am sure the young faces that have come in can deliver when they get a chance. They have got a terrific mindset, and the energy and intensity that we need on the ground."

Captain Harmanpreet, one of the best athletes in the game, had once said that one of her dreams would be to see India as the best fielding team in the world. She'd have been happy to hear that Muzumdar has made that one of his priorities along with fitness. "Fielding and fitness will be my top priority," the 49-year-old said. "There is no

compromise on that. The fitness parameters have already been set, and we have had some tests at NCA pre-series. These will be followed rigorously. There will be a lot of camps post this series, and a lot of cricket will be played either at NCA or some other place. All the fringe and new players that are coming through will also get an opportunity."

Sandwiched between the

crucial white-ball tests, are two Test matches, one each against England and Australia. Indian women will be playing a home Test for the first time since 2014. During a recent camp, Muzumdar said they had an intra-squad four-day match in November to get the team in the mindset to play Tests. Players picked for the longer format but not for T20Is – the likes of Rajeshwari Gayakwad, Sneh Rana – are in Mumbai already to train for the Tests. Every little bit of preparation would matter given India's female cricketers don't play days-cricket with the red ball at the domestic level.

#### **World Cup in focus**

Muzumdar will be assisted by

NCA's Troy Cooley and Munish Bali as the bowling and fielding coaches respectively for the series against England and Australia. With the T20 World Cup scheduled to be held in Bangladesh in September next year, and no scheduled assignments on the official Futures Tours Program until then, this month will play a big part in telling Harmanpreet and Muzumdarwhere things stand.

"Definitely every step from here on is moving towards the World Cup. The series against England and Australia will count a lot...(Playing more series) is for the board to decide. More we play, better," Muzumdar said.

## Global South must adopt digital public infra, says Kant

PRESS TRUST OF INDIA New Delhi, December 5

THE GLOBAL SOUTH needs to

adopt digital public infrastructure to technologically leapfrog and achieve sustainable development goals (SDGs), India's G20 Sherpa Amitabh Kant said on Tuesday. Addressing

event organised by Amitabh Kant, Carnegie India, Kant India's G20 said now the world will Sherpa grow on the back of

digital public infrastructure. He said if the the world has to grow equitably then the global south is important because 4 billion people still do not have digital identity, 1.3 billion people do not have a bank account, while 133 countries in the world do

work packages on fully turnkey mode.

Schedule to the Invitation of tender:

notification without assigning any reason thereof.

4. Pre-bid Meeting:

Date of opening of Bid :

not have fast payments. "And therefore you need the

digital public infrastructure to enable these countries to technologically leapfrog and ensure that we are able to

make sustainable development goals reached to them. And that is really the key, the SDGs must reach the global south," Kant said. The term 'global

south' is used to refer poor and developing countries.

The former NITI Aayog CEO noted that during the Covid period, while the worldwas giving out large packages, which led to then inflation, India was able to put money straight into the bank accounts of the beneficiaries using digital public infrastructure.

## WORLD SUSTAINABILITY RANKINGS

## DU leads 56 Indian varsities on QS list

University of Toronto tops the charts for 2024

**EXPRESS NEWS SERVICE** New Delhi, December 5

THE UNIVERSITY OF Delhi (DU) has been featured as the most sustainable Indian institute in the QS World University Rankings: Sustainability 2024 released on Tuesday. Globally, the university has ranked at 220.

Overall, the University of Toronto has ranked at the top, followed by the University of California, Berkeley (UCB) and The University of Manchester at the second and third spots.

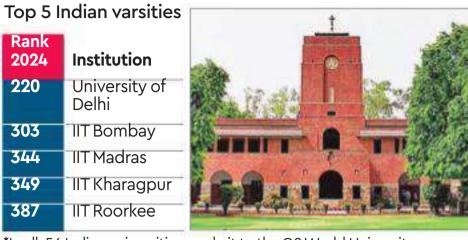

This time, there is no Indian university in the first top 200 ranks. After DU, IIT Bombay has featured at 303 globally, followed by IIT Madras at 344, IIT Kharagpur at 349, IIT Roorkee at 387 and IIT Delhi at 426.

In addition to DU and IITs, Birla Institute of Technology and Science, Pilani (BITS) is ranked 7th in India (444 globally), followed by Vellore Institute of Technology (VIT) at 8th spot (449 globally), Anna University at the ninth spot (496 globally) and the Indian Institute of Science at the 10th spot (505 globally).

While India lacks in global sustainability rankings, it performed better in indicators related to environmental impact — which quantifies an institution's commitment to, and implementation of, its sustainability and climate strategies. In the Environmental Sustainability indicator, four Indian universities found a place among the world's top 100, with Vellore Institute of Technology (VIT) emerging as the national leader (49 globally).

Additionally, the University of Delhi was recognised for offering "world-class education in environmental and climate-related subjects", placing 16th in QS' Environmental Education indicator. In Asia, only The University of Tokyo performed better in this

#### MAKING THE CUT

\*In all, 56 Indian universities made it to the QS World University Sustainability rankings 2024. The list features 1,397 institutions across 95 countries and territories

Rankings on Environmental Sustainabilit	.y	
Institution	Score	Rank
■ Vellore Institute of Technology	72.1	49
■ University of Delhi	66.7	66
■ Indian Institute of Technology Madras	66	70
■ Kalinga Institute of Industrial Technology	63.5	81

metric. However, a sharp dropoff saw the next highestranked university place outside the top 100.

While India is making strides in environmental education, Indian institutes are lacking in environmental research.The Indian Institutes of Technology (IIT) dominate this indicator domestically, with IIT Delhi taking the highest rank, at 236th. "India could look to improve

factors related to QS'Good Governance indicator, such as ethics, hiring practices, transparency and decision-making. In this metric, two Indian universities were among the world's top 200, with Manipal Academy of Higher Education and the University of Delhi placing 111th and 167th respectively," the QS report stated. In the QS' Equality indica-

tor, Manipal Academy of Higher Education was the national leader, placing 463rd. It was the only Indian institution in the world's top 500. Additionally, IIT boasts of the country's best graduate opportunities and career prospects, with all five of the country's top performers in Employability and Outcomes being IIT. IITB is the top performer, placing 199th.

"India, as one of the world's

largest emitters of carbon dioxide, faces a formidable challenge and shoulders immense responsibility for meeting its commitment to achieve net zero by 2070. In this context, the role of Indian universities is pivotal as they continue to expand in number and improve in quality," QS senior vice-president Ben Sowter said.

"While there are com-

mendable achievements in certain areas of the ranking, there are also areas for improvement. The performance of institutions like VIT and the University of Delhi in **Environmental Education and** Institutional Sustainability is noteworthy and these achievements are crucial for India's climate action plans. However, challenges related to **Environmental Research and** Equality remain. To align with the nation's environmental commitments, universities need to amplify their research capabilities, foster diversity and inclusivity and invest in high-impact environmental research. Furthermore, as India seeks to enhance its inbound and outbound student mobility, carbon offsetting within the sector will become increasingly necessary," he added.

## No compromise on fielding, fitness, says women's cricket team coach

VINAYAKK **MOHANARANGAN** New Delhi, December 5

THE INDIAN WOMEN'S cricket team doesn't play often at home. In T20Is, they played Australia in December last year. The last ODI home series was back in March 2021. That is despite the fact they have a T20 World Cup in Bangladesh next year and a home World Cup in the 50-over format on the horizon in 2025. And above all this, it's been a year since the team's last official head coach was moved on from the job.

It is against this backdrop that Harmanpreet Kaur and Co get ready for a rare bumper month of international cricket at home, with finally a new head coach in place. Mumbai domestic legend Amol Muzumdar will begin his stint at a place where he piled on mountains of runs as India play England and Australia over the next five weeks in Mumbai and Navi Mumbai.

While there is reason to debate why the Indian women's team is seemingly restricted to playing in and around Mumbai in the recent past, for Muzumdar it is a chance to kick things off in a backdrop that he knows like the back of his hand.

"I am starting in a new role at my home ground," Muzumdar said in his first press conference on Tuesday at the Wankhede Stadium. "I have played most of my cricket since my childhood here, it's great to start here. It's been a long journey. Yeah, familiar with the conditions but at the same time we cannot be complacent."

Muzumdar scored over 11,000 first-class runs in 171 matches including 30 centuries during his domestic career that

lasted more than two decades. One of Muzumdar's predecessors in the role — former India coach WV Raman — says it's time to make the most of the talent that India have in their ranks. "No need to delve too much in the past (on no coach for one year). Time to look forward now," Raman told *The* Indian Express. "Amol takes over at a good time, the team is in a good place after some decent exposure — with a professionalised league like the WPL coming in, the Asian Games medal recently."

match between India and England, at Wankhede Stadium in Mumbai on Tuesday

"I think the challenge ahead for him is to accurately assess the talent at the team's disposal. He's got two crucial series at home before the T20 World Cup next year. Before that, he needs to get together with the selectors to find the right combination. Lots of strong players to choose from.It's about finding the right combination," Raman added.

#### A solid squad

On that front, it must be said that the selection committee that has often been under the scanner for their calls — have delivered a good mix of fresh faces and experienced hands for the T20Is. Shreyanka Patil and Saika Ishaque have been rewarded for performances in the WPL, domestic circuit as well as the India A set-up. Mannat Kashyap joins Titas Sadhu in being blooded in from the U19 World Cup-winning squad. And

in Renuka Singh Thakur, they have an experienced pacer making her comeback after a period away from international cricket. "Young generation is com-

ing through as we saw during the India A series," Muzumdar said. "Their performances in that series, and even prior have been rewarded by the selectors. I am sure the young faces that have come in can deliver when they get a chance. They have got a terrific mindset, and the energy and intensity that we need on the ground."

Captain Harmanpreet, one of the best athletes in the game, had once said that one of her dreams would be to see India as the best fielding team in the world. She'd have been happy to hear that Muzumdar has made that one of his priorities along with fitness. "Fielding and fitness will be my top priority," the 49-year-old said. "There is no

parameters have already been set, and we have had some tests at NCA pre-series. These will be followed rigorously. There will be a lot of camps post this series, and a lot of cricket will be played either at NCA or some other place. All the fringe and new players that are coming through will also get an opportunity." Sandwiched between the

compromise on that. The fitness

crucial white-ball tests, are two Test matches, one each against England and Australia. Indian women will be playing a home Test for the first time since 2014. During a recent camp, Muzumdar said they had an intra-squad four-day match in November to get the team in the mindset to play Tests. Players picked for the longer format but not for T20Is – the likes of Rajeshwari Gayakwad, Sneh Rana – are in Mumbai already to train for the Tests. Every little bit of preparation would matter given India's female cricketers don't play days-cricket with the red ball at the domestic level.

#### **World Cup in focus**

Muzumdar will be assisted by

NCA's Troy Cooley and Munish Bali as the bowling and fielding coaches respectively for the series against England and Australia. With the T20 World Cup scheduled to be held in Bangladesh in September next year, and no scheduled assignments on the official Futures Tours Program until then, this month will play a big part in telling Harmanpreet and Muzumdarwhere things stand.

"Definitely every step from here on is moving towards the World Cup. The series against England and Australia will count a lot...(Playing more series) is for the board to decide. More we play, better," Muzumdar said.

## Global South must adopt digital public infra, says Kant

PRESS TRUST OF INDIA New Delhi, December 5

THE GLOBAL SOUTH needs to

adopt digital public infrastructure to technologically

leapfrog and achieve sustainable development goals (SDGs), India's G20 Sherpa Amitabh Kant said on Tuesday. Addressing

event organised by Amitabh Kant, Carnegie India, Kant India's G20 said now the world will Sherpa grow on the back of

digital public infrastructure. He said if the the world has to grow equitably then the global south is important because 4 billion people still do not have digital identity, 1.3 billion people do not have a bank account, while 133 countries in the world do

work packages on fully turnkey mode.

Schedule to the Invitation of tender:

2. Publishing & Download of Bid :

notification without assigning any reason thereof.

4. Pre-bid Meeting:

6. Date of opening of Bid :

not have fast payments. "And therefore you need the

digital public infrastructure to enable these countries to technologically leapfrog and ensure that we are able to

make sustainable development goals reached to them. And that is really the key, the SDGs must reach the global south," Kant said.

The term 'global south' is used to refer poor and developing countries.

The former NITI Aayog CEO noted that during the Covid period, while the worldwas giving out large packages, which led to then inflation, India was able to put money straight into the bank accounts of the beneficiaries using digital public infrastructure.

## WORLD SUSTAINABILITY RANKINGS

## DU leads 56 Indian varsities on QS list

**University of** Toronto tops the charts for 2024

**EXPRESS NEWS SERVICE** New Delhi, December 5

THE UNIVERSITY OF Delhi (DU) has been featured as the most sustainable Indian institute in the QS World University Rankings: Sustainability 2024 released on Tuesday. Globally, the university has ranked at 220.

Overall, the University of Toronto has ranked at the top, followed by the University of California, Berkeley (UCB) and The University of Manchester at the second and third spots.

This time, there is no Indian university in the first top 200 ranks. After DU, IIT Bombay has featured at 303 globally, followed by IIT Madras at 344, IIT Kharagpur at 349, IIT Roorkee at 387 and IIT Delhi at 426.

In addition to DU and IITs, Birla Institute of Technology and Science, Pilani (BITS) is ranked 7th in India (444 globally), followed by Vellore Institute of Technology (VIT) at 8th spot (449 globally), Anna University at the ninth spot (496 with IIT Delhi taking the highglobally) and the Indian Institute of Science at the 10th spot (505 globally).

While India lacks in global sustainability rankings, it performed better in indicators related to environmental impact — which quantifies an institution's commitment to, and implementation of, its sustainability and climate strategies. In the Environmental Sustainability indicator, four Indian universities found a place among the world's top 100, with Vellore Institute of Technology (VIT) emerging as the national leader (49 globally).

Additionally, the University of Delhi was recognised for offering "world-class education in environmental and climate-related subjects", placing 16th in QS' Environmental Education indicator. In Asia, only The University of Tokyo performed better in this

#### MAKING THE CUT

IIT Roorkee

**Top 5 Indian varsities** Institution University of 220 Delhi 303 IIT Bombay IIT Madras IIT Kharagpui

\*In all, 56 Indian universities made it to the QS World University Sustainability rankings 2024. The list features 1,397 institutions across 95 countries and territories

Rankings on Environmental Sustainabilit	ЗУ	
Institution	Score	Rank
■ Vellore Institute of Technology	72.1	49
■ University of Delhi	66.7	66
■ Indian Institute of Technology Madras	66	70
■ Kalinga Institute of Industrial Technology	63.5	81

metric. However, a sharp dropoff saw the next highestranked university place outside the top 100.

While India is making strides in environmental education, Indian institutes are lacking in environmental research. The Indian Institutes of Technology (IIT) dominate this indicator domestically, est rank, at 236th. "India could look to improve

factors related to QS'Good Governance indicator, such as ethics, hiring practices, transparency and decision-making. In this metric, two Indian universities were among the world's top 200, with Manipal Academy of Higher Education and the University of Delhi placing 111th and 167th respectively," the QS report stated. In the QS' Equality indica-

tor, Manipal Academy of Higher Education was the national leader, placing 463rd. It was the only Indian institution in the world's top 500. Additionally, IIT boasts of the country's best graduate opportunities and career prospects, with all five of the country's top performers in Employability and Outcomes being IIT. IITB is the top performer, placing 199th.

"India, as one of the world's

largest emitters of carbon dioxide, faces a formidable challenge and shoulders immense responsibility for meeting its commitment to achieve net zero by 2070. In this context, the role of Indian universities is pivotal as they continue to expand in number and improve in quality," QS senior vice-president Ben Sowter said.

"While there are commendable achievements in certain areas of the ranking, there are also areas for improvement. The performance of institutions like VIT and the University of Delhi in Environmental Education and Institutional Sustainability is noteworthy and these achievements are crucial for India's climate action plans. However, challenges related to Environmental Research and Equality remain. To align with the nation's environmental commitments, universities need to amplify their research capabilities, foster diversity and inclusivity and invest in high-impact environmental research. Furthermore, as India seeks to enhance its inbound and outbound student mobility, carbon offsetting within the sector will become increasingly necessary," he added.

## No compromise on fielding, fitness, says women's cricket team coach

**VINAYAKK MOHANARANGAN** New Delhi, December 5

THE INDIAN WOMEN'S cricket team doesn't play often at home. In T20Is, they played Australia in December last year. The last ODI home series was back in March 2021. That is despite the fact they have a T20 World Cup in Bangladesh next year and a home World Cup in the 50-over format on the horizon in 2025. And above all this, it's been a year since the team's last official head coach was moved on from the job.

It is against this backdrop that Harmanpreet Kaur and Co get ready for a rare bumper month of international cricket at home, with finally a new head coach in place. Mumbai domestic legend Amol Muzumdar will begin his stint at a place where he piled on mountains of runs as India play England and Australia over the next five weeks in Mumbai and Navi Mumbai.

While there is reason to debate why the Indian women's team is seemingly restricted to playing in and around Mumbai in the recent past, for Muzumdar it is a chance to kick things off in a backdrop that he knows like the back of his hand.

"I am starting in a new role at my home ground," Muzumdar said in his first press conference on Tuesday at the Wankhede Stadium. "I have played most of my cricket since my childhood here, it's great to start here. It's been a long journey. Yeah, familiar with the conditions but at the same time we cannot be complacent."

Muzumdar scored over 11,000 first-class runs in 171 matches including 30 centuries during his domestic career that lasted more than two decades.

One of Muzumdar's predecessors in the role — former India coach WV Raman — says it's time to make the most of the talent that India have in their ranks. "No need to delve too much in the past (on no coach for one year). Time to look forward now," Raman told *The Indian Express*. "Amol takes over at a good time, the team is in a good place after some decent exposure — with a professionalised league like the WPL coming in, the Asian Games medal recently."

Captain Harmanpreet Kaur (right) and teammate Smriti Mandhana during a practice session ahead of the first T20I cricket match between India and England, at Wankhede Stadium in Mumbai on Tuesday

"I think the challenge ahead for him is to accurately assess the talent at the team's disposal. He's got two crucial series at homebeforetheT20WorldCup next year. Before that, he needs to get together with the selectors to find the right combination. Lots of strong players to choose from.It's about finding the right combination," Raman added.

A solid squad

On that front, it must be said that the selection committee that has often been under the scanner for their calls — have delivered a good mix of fresh  $faces\, and\, experienced\, hands\, for$ the T20Is. Shreyanka Patil and Saika Ishaque have been rewarded for performances in the WPL, domestic circuit as well as the India A set-up. Mannat Kashyap joins Titas Sadhu in being blooded in from the U19 World Cup-winning squad. And

have an experienced pacer making her comeback after a period away from international cricket.

in Renuka Singh Thakur, they

"Young generation is coming through as we saw during the India A series," Muzumdar said. "Their performances in that series, and even prior have been rewarded by the selectors. I am sure the young faces that have come in can deliver when they get a chance. They have got a terrific mindset, and the energy and intensity that we need on the ground."

Captain Harmanpreet, one of the best athletes in the game, had once said that one of her dreams would be to see India as the best fielding team in the world. She'd have been happy to hear that Muzumdar has made that one of his priorities along with fitness. "Fielding and fitness will be my top priority," the 49-year-old said. "There is no

parameters have already been set, and we have had some tests at NCA pre-series. These will be followed rigorously. There will be a lot of camps post this series, and a lot of cricket will be played Muzumdar will be assisted by either at NCA or some other

compromise on that. The fitness

place. All the fringe and new

Rana – are in Mumbai already to

train for the Tests. Every little bit

players that are coming through will also get an opportunity." Sandwiched between the crucial white-ball tests, are two Test matches, one each against England and Australia. Indian women will be playing a home Test for the first time since 2014. During a recent camp, Muzumdar said they had an intra-squad four-day match in November to get the team in the "Definitely every step from mindset to play Tests. Players picked for the longer format but not for T20Is - the likes of Rajeshwari Gayakwad, Sneh

given India's female cricketers don't play days-cricket with the red ball at the domestic level.

of preparation would matter,

#### World Cup in focus

NCA's Troy Cooley and Munish Bali as the bowling and fielding coaches respectively for the series against England and Australia. With the T20 World Cup scheduled to be held in Bangladesh in September next year, and no scheduled assignments on the official Futures Tours Program until then, this month will play a big part in telling Harmanpreet and Muzumdarwhere things stand.

here on is moving towards the World Cup. The series against England and Australia will count a lot...(Playing more series) is for the board to decide. More we play, better," Muzumdar said.

## Global South must adopt digital public infra, says Kant

New Delhi, December 5

PRESS TRUST OF INDIA

THE GLOBAL SOUTH needs to adopt digital public infrastruc-

ture to technologically leapfrog and achieve sustainable development goals (SDGs), India's G20 Sherpa

on Tuesday. Addressing event organised by Amitabh Kant, Carnegie India, Kant India's G20 said now the world will Sherpa

Amitabh Kant said

grow on the back of digital public infrastructure. He said if the the world has to grow equitably then the global south is important because 4 billion people still do not have digital identity, 1.3 billion people do not have a bank account, while 133 countries in the world do

work packages on fully turnkey mode.

Schedule to the Invitation of tender:

2. Publishing & Download of Bid :

4. Pre-bid Meeting:

6. Date of opening of Bid:

not have fast payments.

"And therefore you need the digital public infrastructure to enable these countries to technologically leapfrog and ensure

> that we are able to sustainable development goals reached to them. And that is really the key, the SDGs must reach the global south," Kant said. The term 'global

south' is used to refer poor and developing countries.

The former NITI Aayog CEO noted that during the Covid period, while the world was giving out large packages, which led to then inflation, India was able to put money straight into the bank accounts of the beneficiaries using digital public infrastructure.

## WORLD SUSTAINABILITY RANKINGS

## DU leads 56 Indian varsities on QS list

University of Toronto tops the charts for 2024

**EXPRESS NEWS SERVICE** New Delhi, December 5

THE UNIVERSITY OF Delhi (DU) has been featured as the most sustainable Indian institute in the QS World University Rankings: Sustainability 2024 released on Tuesday. Globally, the university has ranked at 220.

Overall, the University of Toronto has ranked at the top, followed by the University of California, Berkeley (UCB) and The University of Manchester at the second and third spots.

This time, there is no Indian university in the first top 200 ranks. After DU, IIT Bombay has featured at 303 globally, followed by IIT Madras at 344, IIT Kharagpur at 349, IIT Roorkee at 387 and IIT Delhi at 426.

In addition to DU and IITs, Birla Institute of Technology and Science, Pilani (BITS) is ranked 7th in India (444 globally), followed by Vellore Institute of Technology (VIT) at 8th spot (449 globally), Anna University at the ninth spot (496 globally) and the Indian Institute of Science at the 10th spot (505 globally).

While India lacks in global sustainability rankings, it performed better in indicators related to environmental impact — which quantifies an institution's commitment to, and implementation of, its sustainability and climate strategies. In the Environmental Sustainability indicator, four Indian universities found a place among the world's top 100, with Vellore Institute of Technology (VIT) emerging as the national leader (49 globally).

Additionally, the University of Delhi was recognised for offering "world-class education in environmental and climate-related subjects", placing 16th in QS' Environmental Education indicator. In Asia, only The University of Tokyo performed better in this

metric. However, a sharp dropoff saw the next highestranked university place outside the top 100.

While India is making strides in environmental education, Indian institutes are lacking in environmental research.The Indian Institutes of Technology (IIT) dominate this indicator domestically, with IIT Delhi taking the highest rank, at 236th. "India could look to improve

factors related to QS'Good Governance indicator, such as ethics, hiring practices, transparency and decision-making. In this metric, two Indian universities were among the world's top 200, with Manipal Academy of Higher Education and the University of Delhi placing 111th and 167th respectively," the QS report stated. In the QS' Equality indica-

tor, Manipal Academy of Higher Education was the national leader, placing 463rd. It was the only Indian institution in the world's top 500. Additionally, IIT boasts of the country's best graduate opportunities and career prospects, with all five of the country's top performers in Employability and Outcomes being IIT. IITB is the top performer, placing 199th.

"India, as one of the world's

largest emitters of carbon dioxide, faces a formidable challenge and shoulders immense responsibility for meeting its commitment to achieve net zero by 2070. In this context, the role of Indian universities is pivotal as they continue to expand in number

and improve in quality," QS

senior vice-president Ben

Sowter said.

"While there are commendable achievements in certain areas of the ranking, there are also areas for improvement. The performance of institutions like VIT and the University of Delhi in **Environmental Education and** Institutional Sustainability is noteworthy and these achievements are crucial for India's climate action plans. However, challenges related to Environmental Research and Equality remain. To align with the nation's environmental commitments, universities need to amplify their research capabilities, foster diversity and inclusivity and invest in high-impact environmental research. Furthermore, as India seeks to enhance its inbound and outbound student mobility, carbon offset-

ting within the sector will

become increasingly neces-

## No compromise on fielding, fitness, says women's cricket team coach

VINAYAKK **MOHANARANGAN** New Delhi, December 5

THE INDIAN WOMEN'S cricket team doesn't play often at home. In T20Is, they played Australia in December last year. The last ODI home series was back in March 2021. That is despite the fact they have a T20 World Cup in Bangladesh next year and a home World Cup in the 50-over format on the horizon in 2025. And above all this, it's been a year since the team's last official head coach was moved on from the job.

It is against this backdrop that Harmanpreet Kaur and Co get ready for a rare bumper month of international cricket at home, with finally a new head coach in place. Mumbai domestic legend Amol Muzumdar will begin his stint at a place where he piled on mountains of runs as India play England and Australia over the next five weeks in Mumbai and Navi Mumbai.

While there is reason to debate why the Indian women's team is seemingly restricted to playing in and around Mumbai in the recent past, for Muzumdar it is a chance to kick things off in a backdrop that he knows like the back of his hand.

"I am starting in a new role at my home ground," Muzumdar said in his first press conference on Tuesday at the Wankhede Stadium. "I have played most of my cricket since my childhood here, it's great to start here. It's been a long journey. Yeah, familiar with the conditions but at the same time we cannot be complacent."

Muzumdar scored over 11,000 first-class runs in 171 matches including 30 centuries during his domestic career that lasted more than two decades.

One of Muzumdar's predecessors in the role — former India coach WV Raman — says it's time to make the most of the talent that India have in their ranks. "No need to delve too much in the past (on no coach for one year). Time to look forward now," Raman told *The* Indian Express. "Amol takes over at a good time, the team is in a good place after some decent exposure — with a professionalised league like the WPL coming in, the Asian Games medal recently."

Captain Harmanpreet Kaur (right) and teammate Smriti Mandhana during a practice session ahead of the first T20I cricket match between India and England, at Wankhede Stadium in Mumbai on Tuesday

"I think the challenge ahead for him is to accurately assess the talent at the team's disposal. He's got two crucial series at home before the T20 World Cup next year. Before that, he needs to get together with the selectors to find the right combination. Lots of strong players to choose from.It's about finding the right combination," Raman added.

#### A solid squad

On that front, it must be said that the selection committee that has often been under the scanner for their calls — have delivered a good mix of fresh faces and experienced hands for the T20Is. Shreyanka Patil and Saika Ishaque have been rewarded for performances in the WPL, domestic circuit as well as the India A set-up. Mannat Kashyap joins Titas Sadhu in being blooded in from the U19 World Cup-winning squad. And

have an experienced pacer making her comeback after a period away from international cricket. "Young generation is com-

in Renuka Singh Thakur, they

ing through as we saw during the India A series," Muzumdar said. "Their performances in that series, and even prior have been rewarded by the selectors. I am sure the young faces that have come in can deliver when they get a chance. They have got a terrific mindset, and the energy and intensity that we need on the ground."

Captain Harmanpreet, one of the best athletes in the game, had once said that one of her dreams would be to see India as the best fielding team in the world. She'd have been happy to hear that Muzumdar has made that one of his priorities along with fitness. "Fielding and fitness will be my top priority," the 49-year-old said. "There is no

compromise on that. The fitness parameters have already been set, and we have had some tests at NCA pre-series. These will be followed rigorously. There will be a lot of camps post this series, and a lot of cricket will be played either at NCA or some other place. All the fringe and new

crucial white-ball tests, are two Test matches, one each against England and Australia. Indian women will be playing a home Test for the first time since 2014. During a recent camp, Muzumdar said they had an intra-squad four-day match in November to get the team in the mindset to play Tests. Players picked for the longer format but not for T20Is – the likes of Rajeshwari Gayakwad, Sneh Rana – are in Mumbai already to

of preparation would matter, given India's female cricketers don't play days-cricket with the red ball at the domestic level.

#### World Cup in focus

Muzumdar will be assisted by NCA's Troy Cooley and Munish Bali as the bowling and fielding coaches respectively for the series against England and Australia. With the T20 World Cup scheduled to be held in Bangladesh in September next year, and no scheduled assignments on the official Futures Tours Program until then, this month will play a big part in telling Harmanpreet and Muzumdarwhere things stand.

"Definitely every step from here on is moving towards the World Cup. The series against **England and Australia will count** a lot...(Playing more series) is for the board to decide. More we play, better," Muzumdar said.

## Global South must adopt digital public infra, says Kant

New Delhi, December 5

PRESS TRUST OF INDIA

THE GLOBAL SOUTH needs to adopt digital public infrastruc-

ture to technologically leapfrog and achieve sustainable development goals (SDGs), India's G20 Sherpa

on Tuesday. Addressing event organised by Amitabh Kant, Carnegie India, Kant India's G20 said now the world will Sherpa grow on the back of

Amitabh Kant said

digital public infrastructure. He said if the the world has to grow equitably then the global south is important because 4 billion people still do not have digital identity, 1.3 billion people do not have a bank account, while 133 countries in the world do

not have fast payments.

"And therefore you need the digital public infrastructure to enable these countries to technologically leapfrog and ensure

that we are able to sustainable development goals reached to them. And that is really the key, the SDGs must reach the global south," Kant said.

The term 'global south' is used to refer poor and developing countries.

The former NITI Aayog CEO noted that during the Covid period, while the worldwas giving out large packages, which led to then inflation, India was able to put money straight into the bank accounts of the beneficiaries using digital public infrastructure.

## WORLD SUSTAINABILITY RANKINGS

## DU leads 56 Indian varsities on QS list

University of Toronto tops the charts for 2024

**EXPRESS NEWS SERVICE** New Delhi, December 5

THE UNIVERSITY OF Delhi (DU) has been featured as the most sustainable Indian institute in the QS World University Rankings: Sustainability 2024 released on Tuesday. Globally, the university has ranked at 220.

Overall, the University of Toronto has ranked at the top, followed by the University of California, Berkeley (UCB) and The University of Manchester at the second and third spots.

This time, there is no Indian university in the first top 200 ranks. After DU, IIT Bombay has featured at 303 globally, followed by IIT Madras at 344, IIT Kharagpur at 349, IIT Roorkee at 387 and IIT Delhi at 426.

In addition to DU and IITs, Birla Institute of Technology and Science, Pilani (BITS) is ranked 7th in India (444 globally), followed by Vellore Institute of Technology (VIT) at 8th spot (449 globally), Anna University at the ninth spot (496 globally) and the Indian Institute of Science at the 10th spot (505 globally).

While India lacks in global sustainability rankings, it performed better in indicators related to environmental impact — which quantifies an institution's commitment to, and implementation of, its sustainability and climate strategies. In the Environmental Sustainability indicator, four Indian universities found a place among the world's top 100, with Vellore Institute of Technology (VIT) emerging as the national leader (49 globally).

Additionally, the University of Delhi was recognised for offering "world-class education in environmental and climate-related subjects", placing 16th in QS' Environmental Education indicator. In Asia, only The University of Tokyo performed better in this

## MAKING THE CUT

Top 5 I	ndian varsities	1
Rank 2024	Institution	
220	University of Delhi	
303	IIT Bombay	
344	IIT Madras	T 47.49
349	IIT Kharagpur	
387	IIT Roorkee	

\*In all, 56 Indian universities made it to the QS World University Sustainability rankings 2024. The list features 1,397 institutions across 95 countries and territories

Rankings on Environmental Sustainabilit	У	
Institution	Score	Rank
■ Vellore Institute of Technology	72.1	49
■ University of Delhi	66.7	66
■ Indian Institute of Technology Madras	66	70
■ Kalinga Institute of Industrial Technology	63.5	81

metric. However, a sharp dropoff saw the next highestranked university place outside the top 100.

While India is making strides in environmental education, Indian institutes are lacking in environmental research. The Indian Institutes of Technology (IIT) dominate this indicator domestically, with IIT Delhi taking the highest rank, at 236th. "India could look to improve

factors related to QS'Good Governance indicator, such as ethics, hiring practices, transparency and decision-making. In this metric, two Indian universities were among the world's top 200, with Manipal Academy of Higher Education and the University of Delhi placing 111th and 167th respectively," the QS report stated. In the QS' Equality indica-

tor, Manipal Academy of Higher Education was the national leader, placing 463rd. It was the only Indian institution in the world's top 500. Additionally, IIT boasts of the country's best graduate opportunities and career prospects, with all five of the country's top performers in Employability and Outcomes being IIT. IITB is the top performer, placing 199th.

"India, as one of the world's

largest emitters of carbon dioxide, faces a formidable challenge and shoulders immense responsibility for meeting its commitment to achieve net zero by 2070. In this context, the role of Indian universities is pivotal as they

continue to expand in number and improve in quality," QS senior vice-president Ben Sowter said. "While there are commendable achievements in certain areas of the ranking, there are also areas for improvement. The performance of institutions like VIT and the University of Delhi in **Environmental Education and** Institutional Sustainability is

noteworthy and these achievements are crucial for India's climate action plans. However, challenges related to **Environmental Research and** Equality remain. To align with the nation's environmental commitments, universities need to amplify their research capabilities, foster diversity and inclusivity and invest in high-impact environmental research. Furthermore, as India seeks to enhance its inbound and outbound student mobility, carbon offsetting within the sector will become increasingly neces-

sary," he added.

## No compromise on fielding, fitness, says women's cricket team coach

VINAYAKK **MOHANARANGAN** New Delhi, December 5

THE INDIAN WOMEN'S cricket team doesn't play often at home. In T20Is, they played Australia in December last year. The last ODI home series was back in March 2021. That is despite the fact they have a T20 World Cup in Bangladesh next year and a home World Cup in the 50-over format on the horizon in 2025. And above all this. it's been a year since the team's last official head coach was moved on from the job.

It is against this backdrop that Harmanpreet Kaur and Co get ready for a rare bumper month of international cricket at home, with finally a new head coach in place. Mumbai domestic legend Amol Muzumdar will begin his stint at a place where he piled on mountains of runs as India play England and Australia over the next five weeks in Mumbai and Navi Mumbai.

While there is reason to debate why the Indian women's team is seemingly restricted to playing in and around Mumbai in the recent past, for Muzumdar it is a chance to kick things off in a backdrop that he knows like the back of his hand.

"I am starting in a new role at my home ground," Muzumdar said in his first press conference on Tuesday at the Wankhede Stadium. "I have played most of my cricket since my childhood here, it's great to start here. It's been a long journey. Yeah, familiar with the conditions but at the same time we cannot be complacent."

Muzumdar scored over 11,000 first-class runs in 171 matches including 30 centuries during his domestic career that lasted more than two decades.

One of Muzumdar's predecessors in the role — former India coach WV Raman — says it's time to make the most of the talent that India have in their ranks. "No need to delve too much in the past (on no coach for one year). Time to look forward now," Raman told The Indian Express. "Amol takes over at a good time, the team is in a good place after some decent exposure — with a professionalised league like the WPL coming in, the Asian Games medal recently."

Captain Harmanpreet Kaur (right) and teammate Smriti Mandhana during a practice session ahead of the first T201 cricket match between India and England, at Wankhede Stadium in Mumbai on Tuesday

"I think the challenge ahead for him is to accurately assess the talent at the team's disposal. He's got two crucial series at home before the T20 World Cup next year. Before that, he needs to get together with the selectors to find the right combination. Lots of strong players to choose from.It's about finding the right combination." Raman added.

#### A solid squad

On that front, it must be said that the selection committee that has often been under the scanner for their calls — have delivered a good mix of fresh faces and experienced hands for the T20Is. Shreyanka Patil and Saika Ishaque have been rewarded for performances in the WPL, domestic circuit as well as the India A set-up. Mannat Kashyap joins Titas Sadhu in being blooded in from the U19 World Cup-winning squad. And

in Renuka Singh Thakur, they have an experienced pacer making her comeback after a period away from international cricket. "Young generation is com-

ing through as we saw during the India A series," Muzumdar said. "Their performances in that series, and even prior have been rewarded by the selectors. I am sure the young faces that have come in can deliver when they get a chance. They have got a terrific mindset, and the energy and intensity that we need on the ground."

Captain Harmanpreet, one of the best athletes in the game, had once said that one of her dreams would be to see India as the best fielding team in the world. She'd have been happy to hear that Muzumdar has made that one of his priorities along with fitness. "Fielding and fitness will be my top priority," the 49-year-old said. "There is no

compromise on that. The fitness parameters have already been set, and we have had some tests at NCA pre-series. These will be followed rigorously. There will be a lot of camps post this series, and a lot of cricket will be played either at NCA or some other place. All the fringe and new players that are coming through will also get an opportunity."

Sandwiched between the crucial white-ball tests, are two Test matches, one each against England and Australia. Indian women will be playing a home Test for the first time since 2014. During a recent camp, Muzumdar said they had an intra-squad four-day match in November to get the team in the mindset to play Tests. Players picked for the longer format but not for T20Is - the likes of Rajeshwari Gayakwad, Sneh Rana – are in Mumbai already to

train for the Tests. Every little bit

of preparation would matter given India's female cricketers don't play days-cricket with the red ball at the domestic level.

#### **World Cup in focus**

Muzumdar will be assisted by NCA's Troy Cooley and Munish Bali as the bowling and fielding coaches respectively for the series against England and Australia. With the T20 World Cup scheduled to be held in Bangladesh in September next vear, and no scheduled assignments on the official Futures Tours Program until then, this month will play a big part in telling Harmanpreet and Muzumdarwhere things stand.

here on is moving towards the World Cup. The series against England and Australia will count a lot...(Playing more series) is for the board to decide. More we play, better," Muzumdar said.

"Definitely every step from

## Global South must adopt digital public infra, says Kant

New Delhi, December 5

PRESS TRUST OF INDIA

THE GLOBAL SOUTH needs to adopt digital public infrastruc-

ture to technologically leapfrog and achieve sustainable development goals (SDGs), India's G20 Sherpa Amitabh Kant said on Tuesday.

Addressing event organised by Amitabh Kant, Carnegie India, Kant India's G20 said now the world will Sherpa grow on the back of

digital public infrastructure. He said if the the world has to grow equitably then the global south is important because 4 billion people still do not have digital identity, 1.3 billion people do not have a bank account, while 133 countries in the world do

Date of opening of Bid :

not have fast payments.

"And therefore you need the digital public infrastructure to enable these countries to technologically leapfrog and ensure

that we are able to make sustainable development goals reached to them. And that is really the key, the SDGs must reach the global south,"Kant said.

The term 'global south' is used to refer poor and developing countries.

The former NITI Aayog CEO noted that during the Covid period, while the worldwas giving out large packages, which led to then inflation, India was able to put money straight into the bank accounts of the beneficiaries using digital public infrastructure.

REMOTE E-VOTING & BOOK CLOSURE INFORMATION

Phone: +91-11-4107 2935; Email: corpofice@falgroup.in; Website: www.facoralloys.in NOTICE OF 20™ ANNUAL GENERAL MEETING,

## WORLD SUSTAINABILITY RANKINGS

## DU leads 56 Indian varsities on QS list

**University of** Toronto tops the charts for 2024

**EXPRESS NEWS SERVICE** New Delhi, December 5

THE UNIVERSITY OF Delhi (DU) has been featured as the most sustainable Indian institute in the QS World University Rankings: Sustainability 2024 released on Tuesday. Globally, the university has ranked at 220.

Overall, the University of Toronto has ranked at the top, followed by the University of California, Berkeley (UCB) and The University of Manchester at the second and third spots.

This time, there is no Indian university in the first top 200 ranks. After DU, IIT Bombay has featured at 303 globally, followed by IIT Madras at 344, IIT Kharagpur at 349, IIT Roorkee at 387 and IIT Delhi at 426.

In addition to DU and IITs, Birla Institute of Technology and Science, Pilani (BITS) is ranked 7th in India (444 globally), followed by Vellore Institute of Technology (VIT) at 8th spot (449 globally), Anna University at the ninth spot (496 globally) and the Indian Institute of Science at the 10th spot (505 globally).

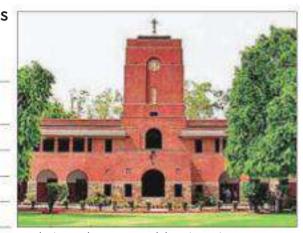

While India lacks in global sustainability rankings, it performed better in indicators related to environmental impact — which quantifies an institution's commitment to, and implementation of, its sustainability and climate strategies. In the Environmental Sustainability indicator, four Indian universities found a place among the world's top 100, with Vellore Institute of Technology (VIT) emerging as the national leader (49 globally).

Additionally, the University of Delhi was recognised for offering "world-class education in environmental and climate-related subjects", placing 16th in QS' Environmental Education indicator. In Asia, only The University of Tokyo performed better in this

#### MAKING THE CUT

Top 5 Indian varsities

Rank Institution 220 University of Delhi 303 IIT Bombay 344 IIT Madras 349 IIT Kharagpur 387 IIT Roorkee

\*In all, 56 Indian universities made it to the QS World University Sustainability rankings 2024. The list features 1,397 institutions across 95 countries and territories

Rankings on Environmental Sustainabilit	.y	
Institution	Score	Rank
■ Vellore Institute of Technology	72.1	49
■ University of Delhi	66.7	66
■ Indian Institute of Technology Madras	66	70
Kalinga Institute of Industrial Technology	63.5	81

metric. However, a sharp dropoff saw the next highestranked university place outside the top 100.

While India is making strides in environmental education, Indian institutes are lacking in environmental research.The Indian Institutes of Technology (IIT) dominate this indicator domestically, with IIT Delhi taking the highest rank, at 236th.

"India could look to improve factors related to QS'Good Governance indicator, such as ethics, hiring practices, transparency and decision-making. In this metric, two Indian universities were among the world's top 200, with Manipal Academy of Higher Education and the University of Delhi placing 111th and 167th respectively," the QS report stated.

In the QS' Equality indicator, Manipal Academy of Higher Education was the national leader, placing 463rd. It was the only Indian institution in the world's top 500. Additionally, IIT boasts of the country's best graduate opportunities and career prospects, with all five of the country's top performers in Employability and Outcomes being IIT. IITB is the top performer, placing 199th.

"India, as one of the world's

largest emitters of carbon dioxide, faces a formidable challenge and shoulders immense responsibility for meeting its commitment to achieve net zero by 2070. In this context, the role of Indian universities is pivotal as they continue to expand in number and improve in quality," QS senior vice-president Ben

"While there are commendable achievements in certain areas of the ranking, there are also areas for improvement. The performance of institutions like VIT and the University of Delhi in **Environmental Education and** Institutional Sustainability is noteworthy and these achievements are crucial for India's climate action plans. However, challenges related to Environmental Research and Equality remain. To align with the nation's environmental commitments, universities need to amplify their research capabilities, foster diversity and inclusivity and invest in high-impact environmental research. Furthermore, as India seeks to enhance its inbound and outbound student mobility, carbon offsetting within the sector will become increasingly necessary," he added.

# No compromise on fielding, fitness, says women's cricket team coach

VINAYAKK **MOHANARANGAN** New Delhi, December 5

THE INDIAN WOMEN'S cricket team doesn't play often at home. In T20Is, they played Australia in December last year. The last ODI home series was back in March 2021. That is despite the fact they have a T20 World Cup in Bangladesh next year and a home World Cup in the 50-over format on the horizon in 2025. And above all this, it's been a year since the team's last official head coach was moved on from the job.

It is against this backdrop that Harmanpreet Kaur and Co get ready for a rare bumper month of international cricket at home, with finally a new head coach in place. Mumbai domestic legend Amol Muzumdar will begin his stint at a place where he piled on mountains of runs as India play England and Australia over the next five weeks in Mumbai and Navi Mumbai.

While there is reason to debate why the Indian women's team is seemingly restricted to playing in and around Mumbai in the recent past, for Muzumdar it is a chance to kick things off in a backdrop that he knows like the back of his hand.

"I am starting in a new role at my home ground," Muzumdar said in his first press conterence on Tuesday at the Wankhede Stadium. "I have played most of my cricket since my childhood here, it's great to start here. It's been a long journey. Yeah, familiar with the conditions but at the same time we cannot be complacent."

Muzumdar scored over 11,000 first-class runs in 171 matches including 30 centuries during his domestic career that

lasted more than two decades. One of Muzumdar's predecessors in the role — former India coach WV Raman — says it's time to make the most of the talent that India have in their ranks. "No need to delve too much in the past (on no coach for one year). Time to look forward now," Raman told The Indian Express. "Amol takes over at a good time, the team is in a good place after some decent exposure — with a professionalised league like the WPL coming in, the Asian Games medal recently."

match between India and England, at Wankhede Stadium in Mumbai on Tuesday

"I think the challenge ahead for him is to accurately assess the talent at the team's disposal. He's got two crucial series at homebeforetheT20WorldCup next year. Before that, he needs to get together with the selectors to find the right combination. Lots of strong players to choose from.It's about finding the right combination," Raman added.

A solid squad

On that front, it must be said that the selection committee that has often been under the scanner for their calls — have delivered a good mix of fresh faces and experienced hands for the T20Is. Shreyanka Patil and Saika Ishaque have been rewarded for performances in the WPL, domestic circuit as well as the India A set-up. Mannat Kashyap joins Titas Sadhu in being blooded in from the U19 World Cup-winning squad. And in Renuka Singh Thakur, they have an experienced pacer making her comeback after a period away from international cricket.

"Young generation is coming through as we saw during the India A series," Muzumdar said. "Their performances in that series, and even prior have been rewarded by the selectors. I am sure the young faces that have come in can deliver when they get a chance. They have got a terrific mindset, and the energy and intensity that we need on the ground."

Captain Harmanpreet, one of the best athletes in the game, had once said that one of her dreams would be to see India as the best fielding team in the world. She'd have been happy to hear that Muzumdar has made that one of his priorities along with fitness. "Fielding and fitness will be my top priority," the 49-year-old said. "There is no

compromise on that. The fitness of preparation would matter, given India's female cricketers parameters have already been set, and we have had some tests don't play days-cricket with the red ball at the domestic level. at NCA pre-series. These will be followed rigorously. There will World Cup in focus be a lot of camps post this series, and a lot of cricket will be played Muzumdar will be assisted by

NCA's Troy Cooley and Munish either at NCA or some other Bali as the bowling and fielding place. All the fringe and new coaches respectively for the players that are coming through series against England and Aus-Sandwiched between the tralia. With the T20 World Cup crucial white-ball tests, are two scheduled to be held in Test matches, one each against Bangladesh in September next England and Australia. Indian year, and no scheduled assignwomen will be playing a home ments on the official Futures Test for the first time since Tours Program until then, this month will play a big part in 2014. During a recent camp, Muzumdar said they had an telling Harmanpreet and

> "Definitely every step from here on is moving towards the World Cup. The series against England and Australia will count a lot...(Playing more series) is for the board to decide. More we play, better," Muzumdar said.

#### कोणत्याही थराला जाणारा नेता

अमेरिकेचे माजी परराष्ट्रमंत्री हेन्री किसिंजर यांचे निधन झाले. त्यांची ओळख एक अत्यंत अभ्यासपूर्ण स्कॉलर नेता परराष्ट्र खात्याचा जाणकार आणि नाझी जर्मनीतून आलेला निर्वासित अशी असली तरीही भारतासाठी मात्र त्याची ओळख भारत-पाकिस्तान युद्धात खलनायकी चाली रचणारा आणि त्यासाठी कोणत्याही थराला जाणारा नेता अशीच आहे. गोष्ट भारत-पाकिस्तान युद्धाची. हे युद्ध होऊ नये म्हणून तत्कालीन अध्यक्ष रिचर्ड निक्सन यांनी जंगजंग पछाडले होते. पण पाकिस्तानी अध्यक्ष याह्या खान यांना चुचकारूनही ते युद्धावर ठाम होते. त्यासाठी अमेरिका आणि रशिया यांना यात मध्ये पडावे लागले. इंदिरा गांधी निक्सन यांना भेटण्यासाठी गेल्या तेव्हा त्यांची संभावना अत्यंत गलिच्छ शब्दांत करणारे हेच निक्सन महाशय होते. भारत-पाकिस्तान युद्ध सुरू झाल्यावर या किसिंजर महाशयांनी अध्यक्ष निक्सन यांना सल्ला दिला की, चीनने सीमेवर सैन्य तैनात करण्यासाठी दबाव आणावा त्यामुळे भारताची एक बाजू कमजोर होऊन भारत युद्ध थांबवेल. किसिंजर हे निक्सन यांचे राष्ट्रीय सुरक्षा सल्लागार होते. त्यानंतर ते जिराल्ड फोर्ड यांच्या काळातही याच पदावर होते. पण त्यांची भूमिका भारत-पाक युद्धात आणि नंतर काही काळ चर्चेत राहिली. वादग्रस्त अशीच त्यांची भूमिका होती आणि ते संपूर्ण भारतविरोधी होते.

निक्सन आणि किसिंजर हे दोघेही भारताला धमकावण्याचा प्रयत्न करत होते. आधुनिक अमेरिकन इतिहासात किसिंजर हे सर्वात महत्त्वाची व्यक्ती होते. त्यांनीच व्हिएतनाम युद्धाला अमेरिकेला उभे केले. त्यातून त्यांना बदनामीचा सामना करावा लागला. पण त्यांचे खरे काळे कारस्थान भारत पाकिस्तान युद्धात समोर आले. भारताच्या कल्याणाची भाषा करणारा हा माणूस आतून किती खलनायकी आहे, हे त्यावेळी जगाने पाहिले. व्हिएतनाम युद्ध थांबवण्यात प्रमुख भूमिका निभावणारा हा खलनायक भारत-पाकिस्तान युद्धाच्या वेळी भारताच्या संपूर्ण विरोधी होता. त्याला हे युद्ध होणे नको होते. त्यासाठी अमेरिकेने वाट्टेल त्या मार्गाने याह्या खानचे लांगूलचालन करावे या मताचा तो होता. किसिंजर आणि निक्सन या दोघांनीही त्यावेळेला भारताला धमकावण्याचा एकत्रित प्रयत्न केला होता. जेव्हा इंदिरा गांधी अमेरिकेला भेटण्यास गेल्या, तेव्हा त्यांना बराच काळ ताटकळत ठेवण्यात आले. पण त्यापेक्षा हे महत्त्वाचे आहे की, किसिंजर यांनी निक्सन यांना सल्ला दिला की, चिनी सैन्य सीमेवर तैनात करण्यासाठी अमेरिकेने दबाव आणावा. हा काळ होता शीतयुद्धाचा. अमेरिका आणि रशिया सारखेच ताकदवान देश होते. पण किसिंजर यांचा हा कुटिल डाव चीननेच उधळला. चीनने सीमेवर सैन्य तैनात करण्यास साफ नकार दिला. परिणामी भारताने पाकिस्तानचे तुकडेच पाडले आणि बांगलादेश नावाचा देश अस्तित्वात आला.

किसिंजर यांनी चीनच्या नकारानंतरही एक डाव रचला होता. त्यांनी चिनी अधिकारी हुआंग हुआ यांच्याशी एक गुप्त बैठक ठरवली होती. किसिंजर यांना भारतद्वेषाने इतके पछाडले होते की, त्यांनी रशियाने जर चिनी सीमेवर सैन्य तैनात केले, तर चिनी उपग्रहांवरून आलेली माहिती ते लगेच रिशयाला देतील. तोही डाव उधळला गेल्यानंतर किसिंजर या खलनायकाने नवा डाव खेळला. त्यांनी निक्सन यांना बोलून एक भयंकर सल्ला दिला. त्यासाठी त्यांना इतिहास कधीही क्षमा करणार नाही. त्यांनी निक्सन यांना सांगितले की, आपल्या युद्धनौका बंगालच्या खाडीत आणून ठेवाव्यात हा सारा आटापिटा पाकिस्तानला भारताने हरवू नये म्हणून चालला होता. निक्सन तर संतप्तच होते. त्यांची भाषा भारतीय

नेत्यांबद्दल अत्यंत गलिच्छ होती. १५ डिसेंबर १९७१ हा तो काळा दिवस होता. त्यादिवशी निक्सन यांच्या आदेशावरून अमेरिकेचे सातवे आरमार बंगालच्या खाडीत दाखल झाले. अमेरिकन आरमार निश्चितच भारताच्या दिशने, पण अत्यंत हळू वेगाने सरकत होते. ते पाहिल्यावर रशियाने आपल्या सैन्याला खाडीत जमा होण्याचा आदश दिला. त्यानंतर अमारकन आरमारान माघार घतला. ह धोका टळला, पण अमेरिकेची मनीषा चांगली दिसत नव्हती. पण यासाठी दुसरेही एक कारण दिले जाते. भारताचे राजनीतीज्ञ अरूंधती घोष यांनी सांगितले की, पाकिस्तानचे जनरल नियाझी यानी भारताला आम्हाला यद्भबंदी हवी आहे. असा संदेश पाठवला. त्यानंतर अमेरिकन आरमार परतले. जग आज सर्वात विद्वान आणि परराष्ट्र धोरणाचा गाढा अभ्यासक म्हणून ओळखते. किसिंजर यांच्या नावाने अनेक फेलोशिप दिल्या जातात. पण त्यांनी भारत-पाकिस्तान युद्धाचा खरा खलनायक इतकीच ओळख भारतासाठी आहे. नाझी जर्मनीतून आलेला हा विद्वान माणूस राष्ट्राध्यक्षाचा राष्ट्रीय सुरक्षा सल्लागार म्हणून पोहोचला. पण त्याने भारतिवरोधी भूमिका का घेतली आणि पाकिस्तानचे लांगूलचालन का केले? हा प्रश्न अद्याप अनुत्तरित आहे. निक्सन यांना जगातील युद्ध थांबवण्यासाठी शांतता दूत म्हणून समोर यावे असे वाटत होते. त्यातून त्यांनी भारतविरोधात जाऊन भारत-पाकिस्तान युद्धात खलनायकाची भूमिका बजावली. पण खरा खलनायक हेन्री किसिंजर हेच होते. असो. आता ते या जगात नाहीत. पण त्यांच्या दुष्कृत्यांची साक्ष देणारा इतिहास, तर पानापानांवर आहे. किसिंजर यांच्या निधनाने त्या काळातील एक दुवा निखळला आहे. किसिजर यांच्या आरमार पाठवण्याच्या भूमिकेनंतर आशियाई सत्ता समतोल बदलून गेला. त्यानंतर आज इतके पाणी पुलाखालून वाहून गेले. मोदी यांच्या सत्तातरांनंतर उपखंडातील स्थिती कमालीची बदलली. भारत महासत्ता म्हणून उदयास येत आहे आणि किसिंजर यांची अपेक्षा कधीही केली नसेल. आज पाकिस्तानला चुचकारण्याची अमेरिकेला गरज राहिली नाही. त्यामुळे अमेरिकेने पाकिस्तानला सर्व प्रकारची मदत बंद केली. पाकिस्तान आज कंगाल झाला आहे. आणि त्यात आता अमेरिका पाकिस्तानकडे ढुंकूनही पाहत नाही. किसिंजर यांच्या पाकिस्तानवादी धोरणाचे कमालीचे हे अपयश आहे किसिंजर आणि निक्सन या जोडीने जितका म्हणून भारताचा अपमान केला, त्या प्रत्येक अपमानाचा बदला त्यांना चुकवावा लागला. हा नियतीने उगवलेला सूड होता. म्हणून किसिंजर शंभराव्या वर्षी गेले असले तरीही त्यांना आपण भारताच्या बाबतीत का अपयशी ठरलो, याची खंत वाटत असली पाहिजे. भारताचा उदय झालेला किसिंजर यांना पहावे लागले. जे भारत बांगलादेश युद्ध टाळण्यासाठी निक्सन आणि किसिंजर जोडीने जंगजंग पछाडले, ते तर त्यांना पाहावेच लागले. पण पाकिस्तानचे तुकडेही झालेले पाहावे लागले. अमेरिकेच्या जगभरातील वर्चस्वाला इथूनच धक्का बसायला सुरुवात झाली. भारत-पाकिस्तान यांच्यात नंतर तीन युद्धे झाली आणि त्या त्या प्रत्येक वेळेस पाकिस्तानचा पराभव झाला

अमेरिकेसारखा बलाढ्य देश पाठीशी असूनही पाकिस्तानला

पराभव सहन करावा लागला. भारतीय लष्कराचे सामर्थ्य

अमेरिकेला आणि त्यांच्या तमाम नेत्यांना पाहावे लागले.

## विद्यार्थ्यांचा दिपस्तंभ : भारतरत्न डॉ.बाबासाहेब आंबेडक

आणि जगभरात 'बाबासाहेब' या लोकप्रिय नावाने ओळखले जाणारे थोर कायदेपंडित अर्थशास्त्रज्ञ, समाजशास्त्रज्ञ, शिक्षणतज्ञ, वक्ते, तत्वज्ञ, लेखक, संपादक, संसदपट् असे बहुआयामी व्यक्तिमत्व डॉ. भीमराव रामजी आंबेडकर यांचा आज (६ डिसेंबर) महापरिनिर्वाण दिन. विश्वरत्न डॉ. बाबासाहेब आंबेडकर हे भारतातीलच नव्हे तर जगातील कोट्यवधी शोषित, पिडीत, क्रांतीकारी व मानवतावादी लोकांचे प्रेरणास्थान आहेत. भारतभूमीमध्ये अनेक महापुरुषांनी जन्म घेऊन देशासाठी आणि समाजासाठी अहोरात्र काम केले आहे. त्यांच्या सेवेचा वारसा आजही संपूर्ण देशासाठी दिशादर्शक आणि आदर्श आहे. अशा थोर महापुरुषांमध्ये बाबासाहेबांचे नाव सर्वात वर आहे. १४ एप्रिल १८९१ रोजी वडील रामजी आणि आई भीमाबाई यांच्या पोटी जन्मलेल्या

बाबासाहेबांना वाचनाची आणि अभ्यासपूर्ण चिंतनाची सवय होती. मात्र ते केवळ पुस्तकी पंडित नव्हते तर त्यांनी आपल्या आयुष्यात आचार आणि विचार यांची सांगड घालून आपल्या तत्वज्ञानाला कृतीची जोड दिली. शिक्षण हे समाजपरिवर्तनाचे प्रभावी शास्त्र असून शिक्षणामुळे माणसाला हक्क आणि कर्तव्यांची जाणीव होते, हे त्यांचे शैक्षणिक विचार होते. 'शिक्षण हे वाघिणीचे दूध आहे आणि जो ते पिल तो गुरगुरल्या शिवाय राहणार नाहीं' असे ते समाज बांधवांना सांगत. प्राथमिक शिक्षण हे सर्व शिक्षणाचा पाया असून ते दर्जेदार आणि गुणवत्तापूर्ण असले पाहिजे, असे त्यांचे मत होते. एकदा मुलाने शाळेत प्रवेश घेतला की ते सुशिक्षित,परिपूर्ण होऊनच बाहेर पडावे यासाठी शासनाने लक्ष दिले पाहिजे. असे त्यांना वाटे. राष्ट्रहित आणि देशहिताचे भान ठेवणारे शिक्षणच, खरे शिक्षण असे ते मानत. डॉ. आंबेडकर

विद्यार्थ्यांसाठी तर दीपस्तंभ ठरतात. त्यांनी इंग्लंड मधील ८ वर्षाचा एक अभ्यासक्रम

#### विजय कोष्टी

अवघ्या सव्वा दोन वर्षात पूर्ण करताना दिवसातले २१ तास भूक आणि झोपेची पर्वा न करता ग्रंथालयात अभ्यासासाठी व्यतीत

निमित्ताने सर्वच क्षेत्रातील विद्यार्थ्यांनी त्यांचे अनुकरण करावे.

डॉ. आंबेडकर सत्याच्या मार्गाने जाणारे, भ्रष्टाचार, अनीती, जातीभेद, अत्याचार यांना विरोध करणारे आणि तळागाळातील लोकांना गुलामगिरीतून मुक्त करणारे पथदर्शक होते. जातीभेद म्हणजे समाजाला लागलेली किड असून ती नष्ट केल्याशिवाय समाज एकसंघ होणार नाही अशी त्यांची धारणा होती. डॉ. बाबासाहेब आंबेडकर स्वत: शिकले आणि खऱ्या अर्थाने देशाला शैक्षणिक क्रांती व युगांतराची चाहुल लागली. पुढे देशाच्या सर्वांगीण विकासासाठी बाबासाहेबांचे योगदान बहुमोल ठरले. डॉ. आंबेडकर ही जगाला मिळालेली महान देणगी आहे. अशा या महामानवाने ६ डिसेंबर १९५६ रोजी अखेरचा श्वास घेतला आणि आपल्या महान कार्याचा ठसा मागे उमटविला.

मांडला. हे विधेयक क्रांतिकारी होते.

हिंदू वैयक्तिक कायद्यात एकाच वेळी

परस्परपूरक पुरोगामी तत्वे समाविष्ट

करण्याचे हे क्रांतिकारक पाऊल होते.

## महिलांचे उद्धारकते डां. बाबासाहब आबंडकर

आज डॉ. बाबासाहेब आंबेडकर यांचा महापरिनिर्वाण दिन. आजच्याच दिवशी सण १९५६ साली डॉ बाबासाहेब आंबेडकर आपल्या लाखो अनुयायांना दुखसागरात लोटून कायमचे निघन गेले. डॉ. बाबासाहेब आंबेडकरांना महापरिनिर्वाणदिनी विनम्र अभिवादन! डॉ बाबासाहेब आंबेडकरांनी उभे आयुष्य दिन दलित, उपेक्षित, वंचित वर्गासाठी घालवले. या वर्गासाठी बाबासाहेबांनी जे कार्य केले ते तर सर्वानाच माहीत आहे पण डॉ. बाबासाहेब आंबेडकरांनी महिला वर्गासाठी जे कार्य केले ते खूप कमी लोकांना माहीत आहे.

डॉ. बाबासाहेब आंबेडकर हे खऱ्या अर्थाने महिलांचे उद्धारकर्ते आहेत पण दुर्दैवाने आजही देशातील अनेक महिलांना हे माहीतही नाही. बाबासाहेबांनी महिलांसाठी जे कार्य केले ते याआधी कोणीही करू शकले नाही. आपल्या पुरुष प्रधान संस्कृतीत स्त्रिया या गुलामच होत्या. स्त्रियांना गुलमाचीच वागणूक मिळत होती. अगदी उच्चवर्णीय स्त्रिया देखील गुलामीचेच जीवन जगत होत्या. डॉ. बाबासाहेब आंबेडकर अस्पृश्यांनंतर स्त्रियांनाच उपेक्षित मानत होते. मातोश्री रमाबाईला लिहिलेल्या पत्रात ते म्हणतात महिलांच्या उन्नती व मुक्तीसाठी लढणारा मी योद्धा आहे. महिलांना या गुलामगिरीतून मुक्त करण्यासाठी मी शेवटच्या क्षणापर्यंत लढेल

बाबासाहेबांनी त्यांचे बोल खरे करून माध्यमातून. दाखवले ते राज्यघटनेच्या राज्यघटनेच्या महिलांना इतके अधिकार दिले की जे त्यांना हजारो वर्ष आणि ३३ कोटी देवताही देऊ शकले

#### श्याम बसप्पा ठाणेदार

शकले नाही. पुरुषप्रधान संस्कृती आणि मनुवादी विचारसरणीमूळे ज्या महिलांना पुरुषांच्या पायाशी स्थान होते त्या महिला आज पुरुषांच्या बरोबरीने उभ्या राहत आहेत. भारतीय महिला आज जो मोकळा श्वास घेत आहेत तो केवळ डॉ. बाबासाहेब आंबेडकरांमुळेच घेत आहेत. यासाठी भारतीय महिलांनी डॉ. बाबासाहेब आंबेडकरांना प्रात: स्मरणीय आणि वंदनीय मानले पाहिजे.

नोव्हेंबर १९३८ मध्ये कुटुंब नियोजना संबंधीचे विधेयक डॉ. बाबासाहेब आंबेडकरांच्या प्रयत्नांमुळेच मुंबई विधिमंडळात आले होते. त्यांनी महिलांच्या हितासाठी व कल्याणासाठी कुटुंब नियोजनाचा मार्ग दाखवला. मुलं केंव्हा पाहिजे याचे स्वातंत्र्य त्यांनी महिलांना दिले. डॉ. बाबासाहेब आंबेडकर हे भारताचे मजुर मंत्री
