BUSINESS RESPONSIBILITY AND SUSTAINABILITY REPORT

The Business Responsibility and Sustainability Report (BRSR) plays a crucial role in bridging the gap between a business's financial performance and its Environmental, Social, and Governance (ESG) practices. By encouraging the disclosure of non-financial information, the BRSR enables regulators, investors, and stakeholders to gain a comprehensive understanding of a company's overall business stability, growth, and sustainability. This comprehensive reporting framework goes beyond financial metrics, providing valuable insights into a company's ESG commitments, risk management practices, social impact, and environmental stewardship. By emphasizing the importance of non-financial disclosure, the BRSR promotes transparency, accountability, and the integration of sustainable practices into a company's core operations.
