Managing Director's Message

Managing Director's Message

“During the third quarter ended 31st December 2024 we have registered a Revenue of Rs. 56.08 crore, EBITDA of Rs. 10.83 crore and PAT of Rs. 8.89 crore. We were able to achieve higher capacity utilization during this period, while maintaining a healthy and growing order book.

During this period Company has gradually reduced its dependence on outsourcing of engineered components with addition of new machines with upgraded technologies and in house R&D. This has resulted in sequential reduction in raw material cost leading to improvement in gross margins.

I am also happy to share that Rajoo Engineers has made a strategic investment of ₹300 million to upgrade its Antralaya facility, incorporating advanced 5-axis vertical multitasking machinery from Japan. This enhancement has increased the Company's production capacity by 40% while significantly improving precision, efficiency, and Total Quality Management (TQM) standards. The expanded facility positions Rajoo to effectively meet the growing global demand for high-quality extrusion machinery, with minimal human intervention during production and reduced reliance on manual processes.

As we reflect on this quarter, we reaffirm our commitment to innovation and excellence. Our accomplishments in gaining industry recognition, expanding our international client base, and investing in strategic assets have collectively strengthened our competitive edge. We are poised to build on these milestones to drive sustained success in the coming quarters.

I would like to thank each member of the Rajoo family, as well as our Clients, Creditors, Banks, Financial Institutions, and all other Stakeholders. Their faith in us and support extended makes it easier for us to strive and excel. Thank you for your ongoing support and trust in Rajoo Engineers.”
