Sansera wins over INR 3,066 cr order from a leading North American OEM for connecting rods

Thursday, 28 April 2022, Bengaluru – Sansera has been awarded a contract for development, manufacturing and supply of connecting rods from **a leading North American OEM** for its upcoming project. The start of production would be from July 2025 and is expected to run over seven years. The approximate quantity for the contract is over 35 million connecting rods with an estimated revenue of over **USD 400 Mn (INR 3,066 crores** based on current forex rate).

These parts would be developed for the customer's new technology engine and are likely to be supplied to North America.

Commenting on this achievement, Mr. B R Preetham Group CEO, Sansera Engineering Limited said: *"Over the last three decades, Sansera has established itself amongst top 10 suppliers of connecting rods globally (as per Ricardo report). We are proud to support our customer for this order. Being one of the most integral parts in an engine's design, connecting rod will be a very critical component for our customer's new technology engine. Our team of design experts will be closely working with the customer's team to develop the connecting rods required for this project.*

We have already been supplying components to multiple locations of this customer for several years. This ~INR 3,000 crores order further strengthens our relationship with them.

This order is in-line with the company's strategy to consolidate and strengthen global market share in existing portfolio."

About Sansera Engineering Limited

Sansera Engineering Limited incorporated in 1981, is an engineering-led integrated manufacturer of complex and critical precision engineered components across automotive and non-automotive sectors. Within the automotive sector, we manufacture and supply a wide range of precision forged and machined components and assemblies, such as connecting rod, rocker arm, crankshaft, gear shifter fork, stem comp, and aluminium forged parts, which are critical for engine, transmission, suspension, braking, chassis and other systems for the 2-wheeler, passenger vehicle and commercial vehicle verticals. Within the non-automotive sector, the Company manufactures and supplies a wide range of precision components for the aerospace, off-road, agriculture and other segments, including engineering and capital goods.
