UK says India trade talks discussing biz travel

BRITAIN WILL DISCUSS temporary business visas as part of Free Trade Agreement talks with India but any deal will not contain broader immigration commitments or access to Britain's labour market for Indian workers, trade minister Kemi Badenoch said.

Britain launched trade talks with India in January last year, and Prime Minister Rishi

Sunak has stressed that he won't sacrifice quality for speed in negotiations.

Last year interior minister Suella Braverman sparked a row with comments about the possible impact of Indian migrants in trade talks, citing concern both with any "open borders migration policy with India" and those who overstay visas. —REUTERS

● KHARIF SOWING SLUGGISH

Onion prices inch up, may rise faster by Dec

Retail inflation in veggies has been negative for a year

SANDIP DAS
New Delhi, June 29

CLOSE ON THE heels of the spike in tomato prices, onion, another staple vegetable, has turned dearer.

After a prolonged spell of decline, onion prices have risen in most parts of the country in the last one month and may spike further. Delay in kharif sowing caused by late onset of monsoon and a likely fall in area under cultivation have adversely affected supplies already, and the crunch may escalate by December, trade sources said.

Traders and farmers from Maharashtra say the stocks are currently adequate in the state, and may suffice to meet

demand for the next 3 months. However with the possibility of lower area under the kharif crops, supply could be hit by December and prices are likely to go up, they added.

"Kharif sowing is likely to be hit and could result in spike in prices by beginning of winter months," Balasaheb Misal, former director, Manmad (Maharashtra) mandi board and an onion farmer said. Farmers have not received remunerative prices by growing onions since last one year, he added.

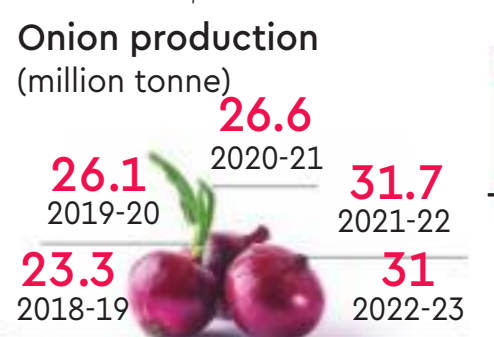

"Kharif sowing so far has been sluggish, the farmers could shift to other crops this season as income from onions have declined because of robust production," Joydutt Holkar, member, APMC mandi, Vashi, Navi Mumbai, said.

Currently the benchmark prices at Lasalgaon, Maharashtra, the hub of the country's onion trade is in the range of ₹800 - 900/quintal which

● SIX YEARS OF GST ₹1.5 trn monthly tax revenue is 'new normal'

PRESS TRUST OF INDIA
New Delhi, June 29

SIX YEARS AFTER the rollout of the biggest indirect tax reform in India, Goods and Services Tax (GST) revenue of ₹1.5 trillion every month has become a new normal and tax officers are focusing on dealing with fraudsters who are adopting newer modus operandi to game the system, causing loss to the exchequer.

To apprehend black sheep, who operate as syndicates and create fake entities on the basis of forged documents to claim input tax credit (ITC), tax officers have started using data analytics, artificial intelligence and machine learning aiming to curb evasion, which was over ₹3 trillion since inception of GST. It was over ₹1 trillion in

2022-23. Thinktank Global Trade Research Initiative (GTRI) said the most critical pending GST reform is upgradation of GST Network to prevent fake supplies and fraudulent claims of Input Tax Credit (ITC).

"Data analysis and physical checks alone cannot completely solve the problem. The GSTN should enable linking of invoice level information filed for claiming ITC by buyer (from GSTR 3B) with the information provided by input suppliers (GSTR 2A and GSTR 2B)," Srivastava said.

Even after six years, the GSTN is unable to connect the supplies in a value chain, resulting in significant revenue loss to the government and causing problems for honest businesses, Srivastava added.

ONGC sells KG gas to Torrent, GAIL at \$11

STATE-OWNED OIL and Natural Gas Corporation (ONGC) has sold initial gas it is producing from its KG basin fields in the Bay of Bengal to three firms, including Torrent Gas, sources said.

In an e-auction, the firm sold 1.4 million standard cubic meters per day - a fraction of the planned output from the block that sits next to Reliance Industries' prolific KG-D6 area in the Bay of Bengal, to Torrent Gas Pune Ltd, GAIL (India) Ltd and Hindustan Petroleum Corporation Ltd (HPCL).

GAIL picked up 0.8 mmscmd while HPCL took 0.42 mmscmd and Torrent 0.12 mmscmd, sources said. The company had sourced bids from users like city gas operators that sell CNG to automobiles and pipe cooking gas to households, companies using gas to produce fertiliser or make electricity.

ONGC asked companies to quote a premium 'P' that they are willing to pay over and above the rate arrived at by calculating 14% prevailing Brent oil price plus \$1 per million British thermal unit, the tender document showed. —PTI

'May take more than a year to bring inflation down to 4%'

AJAY RAMANATHAN
Mumbai, June 29

THE RESERVE BANK of India (RBI) may take more than a year to bring inflation down to the 4% target, says monetary policy committee's external member Jayanth Varma.

However, Varma feels that a faster glidepath will come at the cost of growth.

"The current real repo rate will in my opinion keep inflation within the tolerance band and gradually align it to the 4% target," Varma said in an interaction with *Financial Express*.

"Inflation risk has moderated considerably due to lower crude oil and commodity prices as well as the abating of supply chain disruptions. Inflationary expectations have come down and are now well anchored."

India's retail inflation has fallen to a two-year low of 4.25% in May from 6.4% in February aided by large favourable base effects.

RBI has projected retail inflation at 5.1% for 2023-24 (April-March) with April-June at 4.6%, July-September at 5.2%, October-December at 5.4% and January-March at 5.2%.

In 2021, the government had mandated RBI to maintain retail inflation at 4% with a margin of 2% on either

The rate hikes over the last year or so are working their way through the economy, and this is suppressing domestic demand

side for a five year period ending March 2026.

Going ahead, Varma believes that inflation will decline due to the lagged effect of the rate hikes that were undertaken during the last year or so, supply side

measures by the government, as well as the lagged effect of declining wholesale prices.

However, he has acknowledged that the process of bringing inflation under control is still a work in progress, and that it would be "prematuring to declare victory" over inflation at this point of time.

In its June monetary policy, the central bank's monetary policy committee left the repo rate unchanged at 6.5% and maintained the overall stance at "withdrawal of accommodation"

In the subsequent minutes to the policy, Varma expressed reservations over RBI's persistence on the 'withdrawal of accommodation' stance as he feels that this can have an adverse impact on economic growth.

"There are a lot of things that can go wrong (on growth), and the MPC should in my view keep a careful watch on this. The biggest concern is of course the unfavourable global economic and geopolitical environment," he said.

"The rate hikes over the last year or so are working their way through the economy, and this is suppressing domestic demand," he added.

Varma also believes that an excessively high real interest rate could delay the revival in private capital expenditure.
