INTERVIEW OLA KÄLLENIUS
CHAIRMAN, BOARD OF MANAGEMENT, MERCEDES-BENZ

India Fastest Growing Mkt for Mercedes-Benz in '22

Fastest growing mkt for luxury carmaker, with 41% increase in sales YoY in 2022

Sharmistha Mukherjee @timesgroup.com

New Delhi: India was the fastest growing market for Mercedes-Benz in 2022, and the country's economic trajectory makes it key to global sales expansion, said Ola Kallenius, chairman of the board of management at the luxury carmaker.

"The Indian market is important to us and it is a growing market. It has great long-term future potential," Kallenius said ET. "Whatever strategic patience you need to apply, it's going to be worth it. We're on the verge of India becoming the next story."

Mercedes-Benz sold 15,822 units in India last year — posting its highest annual sales for the country, a 41% growth over 2021 volumes. At present, the automotive manufacturer has a 5% market share in the domestic luxury car segment and sells four electric models. The chairman expects its entire fleet to go electric in the "2040s."

Kallenius is "cautiously optimistic" that the Indian market will grow "meaningful long term. This is considering the demographic dividend, along with progressive regulatory policies to promote electrification and a probable positive outcome of trade negotiations, despite also into volatility and market penetration remaining limited."

"We can, at least over the next few years, double the volumes in the Indian market. We have set ourselves up for growth here," he said. "Whether it's engineering and technology, sales, preparing the market, taking care of the customer, progressing the sales model or operations... we have moved forward significantly in all dimensions."

SOURCING & SUPPLY CHAIN
With sales of about 30,000 units in 2022, luxury vehicles currently account for about 1% of the 3.8 million passenger vehicles sold in the country. Mercedes-Benz imports completely knuckled down and completely built units, which, so far set higher export duty than cars manufactured fully in the country. Kallenius said, the company typically only looks at local "joint by joint" production in a market who demand for a model rises to 30,000-40,000 units a year. "That is the next inflexion point," he said. The board chairman said regulation and taxation always played a role in expanding the market, and that reduction of GST on electric vehicles (EVs) to 5% would "immediately see the decarbonisation of mobility" in the country.

PREMIUMIZATION

Luxury-vehicle brands stand out clearly in the overall automotive industry. While the mass market has largely stagnated, with little to no growth expected through 2031, the premium segments are expected to gain significant share during the same period.

Luxury cars are brimming with cutting-edge connectivity capabilities, autonomous driving options, and the newest powertrain electrification technology in addition to the standard comfort, convenience, entertainment, and safety features.

With the rapid premiumization trends we are witnessing in the country, there is a large headroom for growth

- Embarked on a '**Green Initiative**' to plant and nurture trees. we understand the need for Biodiversity and conservation of the rich Flora & Fauna of nature.
- **26,000 tree saplings** were planted in Kheda, Gujarat, in association with grow-trees.com.
- **31,127 tree saplings** planted at Hathijan, Gujarat, which will be a biodiversity park
- **440 tree saplings** planted at Harda, Madhya Pradesh
- We have signed agreements to plant an additional **25,000 trees** in NCR region and **40,000 trees** in Ahmedbad region in the current FY.
- These initiatives have created around **6,176 work-days of jobs** for the rural community and will offset approx. 988,400kg of carbon.
- Our 'Green Initiative' will help prevent soil erosion and flooding and improve water retention in the area while also supplementing the biomass needs of the local community.
- Have monthly plans for employees to engage in our CSR activities, and we proactively involve all our customers/vendors and other partners through tree plantation drives and sapling gifting.
- This project is a part of '**Mission Million Trees**' of Ahmedabad Municipal Corporation.
