The Company could overcome the quality issue of Composite Cylinder. The product is now well accepted in international market. The Company is supplying the cylinders to several international markets.

The Demand for the Pipe System remained robust. The Demand in current month in agricultural segment was crippled due to extended rainy season in several states. It is expected that going forward the demand will broaden for all its systems in the country.

Encouraged by the growth outlook The Company has increased its investment plan in Plastics Pipe System in the current year. It is now going to be in excess of Rs. 250 crores which will include putting up a new plant in Odisha and to start Polyolefin pipe fittings and Pex Pipe Systems at Jadcherla.

Expanded capacity of performance packaging film has smoothly gone into production. The Company made a breakthrough in several international markets for this product with newer structures for various applications.

The Capacity to manufacture Furniture items at Jadcherla is now well established. The demand is slow but with launch of new varieties of products, it is expected that demand will absorb the increased capacity by next year.

The demand for industrial components and protective packaging products remained subdued.

The raw material prices remain on bearish path. It is forecasted that the prices have reached close to the bottom. The low polymer prices were partly responsible for lower value growth compare to volume growth.

For the full year, Company expects Volume growth to be between 10 to 12%. The Value growth will be lower than volume in this year.

The Company has stepped up its investment plan to about Rs. 400 crores in the current year. All the investment plans are going smoothly. The Corporate tax reduction has enabled the Company to boost its investment ambition without adding any additional debt.
