After one week's pause, OTP messages resume

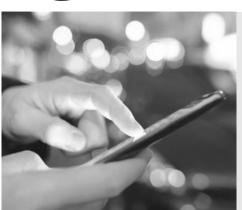

Communication running smoothly and no major issues faced, say banks

ABHIJIT LELE, MEGHA MANCHANDA ANEESH PHADNIS & SUBRATA PANDA Mumbai\New Delhi, 17 March

fter a week's pause, communication of One Time Passwords (OTP) through short messaging for payment transactions resumed smoothly.

Last week, the Telecom Regulatory Authority of India (Trai) had put on hold the implementation of its regulations to curb unsolicited commercial communication. The regulator gave banks and other service providers one week to adhere to the regulations after customers across the country failed to receive text messages and OTPs. A senior Indian Banks' Association executive said things began smoothly after a one-week standstill. Members have not given negative feedback.

On Wednesday, none of the banks faced any major issue, said a person aware of the matter, belonging to a payment gateway firm. Major private sector lenders also said they are not experiencing any outages with respect to payments and the

STORY SO FAR

- Last week, the Telecom Regulatory Authority of India had put on hold the implementation of its regulations to curb unsolicited commercial communication
- The regulator gave banks and other service providers one week to adhere to the regulations after customers across the country failed to receive text messages and OTPs

operations are running smoothly.

Meanwhile, the Delhi High Court has refused to stay the implementation of unsolicited commercial communication messages. Noida-based telemarketing firm Shivtel Communications had filed a writ petition seeking a stay on scrubbing of commercial text messages by telecom companies.

The court took cognizance of TRAI's latest instructions to telecom firms and declined to stay the implementation. The matter will now be heard on May 11.

The regulations require companies to register templates of their commercial text messages and the process was put on hold

for a week till Tuesday, following customer complaints. Scrubbing refers to the verification process followed by telecom companies for sending commercial text messages to the customers.

On Tuesday, the telecom regulator allowed telecom companies to resume scrubbing of messages and record details in case of anomalies such as mismatch of content ID, template etc.

However, messages will not be blocked and telecom companies are allowed to deliver them to recipients. Details of all such anomalies will be shared bi-weekly with TRAI, which will review the scrubbing process on March 23.

India, UAE vow to strengthen energy cooperation: Pradhan

NIDHI VERMA

New Delhi, 17 March

India and the UAE on Wednesday discussed ways to strengthen energy cooperation, Oil Minister Dharmendra Pradhan said, despite the nation asking its refiners to reduce their reliance on Middle Eastern oil.

"(We) discussed about new areas of cooperation in the hydrocarbon sector and beyond, and agreed to remain committed despite the challenges presented by Covid pandemic," Pradhan said on Twitter after a virtual meeting with Sultan Al Jaber, the chief executive of Abu Dhabi National Oil Co (ADNOC).

UAE is a key oil supplier to India and a partner in an Indian joint venture that plans to build a 1.2 million barrels per day (bpd) refinery and petrochemical complex on the country's west coast.

Last month, the UAE was the fifth

Indian Oil forges JV with Israel's Phinergy

 $In dian\ Oil\ and\ Is rael's\ Phinergy\ announced\ the\ formation\ of\ a\ joint\ venture\ for$ commercialising the aluminium-air (Al-Air) battery technology on Wednesday. The joint venture, IOC Phinergy (IOP), will be manufacturing Al-Air systems in India and recycle the used aluminium. Phinergy is an Israeli start-up company specialising in hybrid lithium-ion and aluminium-air/zinc-air battery systems. The new Indo-Israeli JV also intends to develop fuel cells and indigenous hydrogen storage solutions for promoting green mobility, a statement from IndianOil said. A letter of intent (LOI) for using this technology was signed between IOP and Maruti Suzuki India. Another LOI for the same was signed between IOP and Ashok Leyland. TWESH MISHRA

biggest oil supplier to India, which itself is the world's third biggest oil importer and consumer.

Pradhan said he also discussed with Jaber ways of strengthening and "providing momentum to (the) bilateral strategic energy partnership" between the coun-

India imports more than 80 per cent of its oil needs, a significant amount of which comes from West Asia, New Delhi has, however, asked refiners to gradually reduce oil imports from West Asia and diversify supplies, after the Organization of the Petroleum Exporting Countries and

PM tells states...

"So far we have managed to keep the villages out (of the pandemic). We need to pay special attention to the referral system and strengthen our ambulance network in smaller

Daily new Covid cases in India reached a three-month according to the health ministry data. In the last two weeks alone, 70 districts across 16 states saw an increase of more than 150 per cent in new Covid cases. Another 55 districts concentrated in 17 states have recorded an increase of 100 -150 per cent in the daily case count. While more than 96 per cent of the cases in India have recovered, the government is concerned over the high test positivity rate in Maharashtra and Madhva Pradesh.

Modi asked states to scale up RT-PCR testing to detect cases in a timely manner and create micro containment zones to stop transmission of the virus. "The RT-PCR testing rate has to be over 70 per cent....Why is it that some states are seeing a reduction in testing?...This is a test of good governance," Modi said.

The PM also pulled up local administrations for getting lax about enforcing Covid appropriate behaviour such as wearing masks. "Any gaps in planning and governance have to

With travel across the country and from abroad now open, Modi said there was a need to improve inter-state coordination for proper tracing and tracking of contacts. "If required a new mechanism can be created for this."

He also asked the states to reorient the pandemic response staff SOPs for containment and contact tracing "We have to strategize by incorporating our past experiences, in our efforts." Reiterating his mantra

"Dawai bhi, kadai bhi" (medicine as well as precaution), the PM said this was true for all illnesses including Covid. "You don't go out without woolens in chilly weather even if you have taken medicine for a cold...It is a simple thing that people should be explained." The virtual meeting was

attended by home minister Amit Shah. Health minister Harsh Vardhan and chief ministers of states including Gujarat, Maharashtra, Punjab and Nagaland, among others. West Bengal was one of the states absent in the meeting.

Direct tax...

It is, however, 4 per cent lower than the last year's collection of ₹9.56 trillion in the comparable period. Bengaluru, Mumbai, and Jaipur are the only jurisdictions that have posted the overall direct tax growth at 10 per cent, 3.5 per

cent, and 2.2 per cent, respectively. With another fortnight left for the fiscal year closing, additional tax collection may

provide the government with

additional spending power. Direct tax collection in FY17, at ₹8.49 trillion, had surpassed the revised estimate, which was the same as the Budget estimate at ₹8.47 tril-

"The revised target for the current fiscal is fairly conservative. There is a pick-up in economic activity. Advance tax mop-up has been excellent. We may even match the last year's collection, if not more," said a senior government official.

In the Budget presented last month, the direct tax collection target for FY21 saw a significant fall from the ₹13.19 trillion estimated earlier, in the wake of the Covid-19 pandem-

The contraction in net direct tax collection has narrowed to 4 per cent year-onyear compared to a 9 per cent decline seen in January. In 2019-20. the income-tax department fell short of the revised estimate by nearly ₹70.000 crore.

Advance tax collection in 2020-21 stands at around ₹4.7 trillion, the provisional numbers shared by a government official indicated. Seven of the top 11 jurisdictions posted growth in advance tax collection, with Mumbai leading with a 17 per cent expansion. Among the other top four cities, Delhi, Bengaluru, and Chennai reported a (-) 1 per cent, 6 per cent, and (-) 7 per cent change, respectively, over

the last financial year. Gross collection is down by just 1 per cent on account of 13 per cent growth in refunds over the last year. Gross collection stood at ₹11.20 trillion on Tuesday, as against ₹11.35 trillion in FY20. Refunds are up at ₹2.02 trillion against ₹1.78 trillion last year.

"Besides, payments under the Vivad se Vishwas scheme are expected, providing additional cushion," said an offi-

Advance tax means paying tax as and when the money is earned rather than waiting for the end of the fiscal year. It gives an indication of economic sentiment.

The first instalment is to be paid by June 15 (15 per cent), the second by September 15 (30 per cent), the third by December 15 (30 per cent), and the remaining 25 per cent by

About 45 per cent of direct tax revenue collection comes from advance tax, 35 per cent and the remaining 20 per cent from self-assessment and

More banks...

While SBI and HDFC Bank continue to occupy the top two slots in terms of asset size, Bank of Baroda (BoB), Punjab National Bank (PNB), and Canara Bank have pushed ICI-CI Bank to the sixth position. The indicator weight for size under the RBI's 'Framework for dealing with D-SIBs' (released on July 22, 2014) is 40 per cent. A widening to include BoB, PNB, and Canara Bank as D-SIBs will have an impact on their capital structures as they will have to bring in additional common equity tier 1 (CET1) capital ranging between 0.20 per cent and 0.80 per cent of their riskweighted assets, depending upon the buckets they are slotted into.

SBI (in bucket 3) maintains an additional CET-1 of 0.60 per cent, while HDFC Bank and ICICI Bank (in bucket 1) are at 0.20 per cent.

While the RBI's press release of January 21 mentioned only SBI, ICICI Bank, and HDFC Bank as being classified D-SIBs, the 2014 framework had stated that "the methodology for assessing the systemic importance of banks and identifying them will be reviewed on a regular basis... this review will be at least once in three years".

There is also nothing in the D-SIBs framework that suggests that the number of banks will always be restricted to the top three. Rather it had stated in 2014 when it was introduced that "...it is expected that about four to six banks may be designated as D-SIBs under various buckets". Said a source: "That time for a review to widen this list may well be upon us.'
