*Details in annexure

** The rating is provisional and shall be confirmed upon the execution of the loan documents for the above facility by ITNL to the satisfaction of Ind-Ra

#The rating was downgraded to 'IND A4' from 'IND A4+' and was simultaneously withdrawn

KEY RATING DRIVERS

The downgrade reflects ITNL's delays in meeting its term loan obligations due to deterioration in its liquidity profile, resulting from delays in realisation of pending claims from various government authorities and deleveraging initiatives, such as significant equity infusion and divestments, as against the timelines indicated during February 2018. These initiatives were likely to alleviate near-term refinancing requirements. As per management, at end-1QFY19, the company had around INR30 billion of debt, due for repayment in the next 12 months at the standalone level.

RATING SENSITIVITIES

Timely debt servicing for at least three consecutive months could result in a positive rating action.

COMPANY PROFILE

ITNL is a surface transportation infrastructure company and the largest private sector road operator in India under the build-operate-transfer model.

Detailed Rationale & Key Rating Drivers

The revision in the rating of IL&FS Transportation Networks Limited (ITNL) factors in the delay in debt servicing. The liquidity profile of the group continues to be under stress on account of delay in raising funds from the promoters' and impending debt payments. Further, the company's plans to raise funds from promoters are yet to be finalized.

Detailed description of the key rating drivers

Key Rating Weaknesses

Delays in servicing of debt obligations: The company had delayed in its debt servicing obligation. In addition, Infrastructure and Leasing Financial Services (IL&FS) (rated CARE D) and its subsidiaries have filed an application before the National Company Law Tribunal (NCLT) under section 230 of the Companies Act, 2013, seeking to restructure its debts.

Deterioration in the liquidity profile of its parent, IL&FS : As a part of the deleveraging plan, IL&FS group had envisaged monetization of certain identified assets to reduce debt levels, infusion of equity capital (Rs.4,500 crore) by H1FY19 to decrease leverage as well as have a funding line from promoter entities as a liquidity measure. However, the deleveraging has taken longer than expected time, while uncertainty about the timely infusion of funds vis-à-vis impending debt payment obligations in the near term has severely impacted the liquidity profile of the parent and the group entities.

India Ratings Downgrades IL&FS Transportation Networks' NCDs to 'IND D'

25

JAN 2019

By Sudeep Arekar

India Ratings and Research (Ind-Ra) has taken the following rating actions on the instruments of IL&FS Transportation Networks Limited (ITNL):

Instrument Type	Date of Issuance	Coupon Rate (%)	Maturity Date	Size of Issue (billion)	Rating	Rating Action
Non-convertible debentures (NCDs)*	-	-	-	INR8	IND D	Downgraded
Proposed NCDs*,#	-	-	-	INR7	WD	Downgraded and Withdrawn
Proposed term loans,#	-	-	-	INR4.31	WD	Downgraded and Withdrawn

*Details in annexure

#Downgraded to 'IND D' before being withdrawn. The rating has been withdrawn as ITNL is not likely to proceed with the issuance of the proposed instruments as envisaged earlier.

KEY RATING DRIVERS

The downgrade reflects ITNL's communication to the exchanges about the non-payment of interest obligations on the rated NCDs rated on the due date of 21 January 2019. The default was on account of a continued stretched liquidity profile on account of delays in the realisation of pending claims from various government authorities and delays in undertaking deleveraging initiatives. ITNL's credit metrics thus are likely to remain stretched over the medium term.

RATING SENSITIVITIES

Timely debt servicing for at least three consecutive months could result in a positive rating action.

COMPANY PROFILE

ITNL is a surface transportation infrastructure company and the largest private sector road operator in India under the build-operate-transfer model.
