RECONCILE PRIORITIES FOR ECONOMIC GROWTH: NAGESWARAN Need next-gen reforms to be an upper-income nation: CEA

'Need to move towards principles rather than prescriptive regulations'

FE BUREAU
New Delhi, May 18

TO TRANSITION FROM a lower-middle income to an upper-income country, the Centre, states and other stakeholders need to build consensus for next-generation reforms and reconcile the priorities for economic growth, chief economic growth, chief economic adviser V Amanthika Nageswaran said on Saturday.

India needs to move towards principles rather than prescriptive regulations, more deregulation and a lightening of the compliance load at all levels, particularly for small and medium enterprises, Nageswaran said while speaking at a CII event here.

He said reforms are the most critical part for the country as it moves towards becoming the third-largest economy in the world in the next three years and a development by 2047.

"We need to address factors of pro-

V ANANTHAKA NAGESWARAN,
CHIEF ECONOMIC ADVISER

WE NEED TO ADDRESS FACTORS OF PRODUCTION, LAND, LABOUR MARKETS, AND THE EFFICIENCY OF LAND UTILISATION

MULTIPLE RULES ARE PREVENTING OUR BUSINESSES AT THE SUB-NATIONAL LEVEL LOCAL GOVERNMENTS OR STATE GOVERNMENTS THAT PREVENT OUR LAND RESOURCES FROM BEING PROPERLY UTILISED

duction, land, labour markets, and the efficiency of land utilisation.

"Multiple rules are preventing our business at the sub-national level local governments or state governments that prevent our land resources from being properly utilised," Nageswaran said.

The fragmentation of land also prevents India from reaping the full benefits of agricultural productivity.

"At the state level, we have to ensure if we have to make the energy transition towards more alternative sources of en-

ergy apart from fossil fuels, we first have to get the power generation and distribution economically viable, whether it's in terms of the sanctity of contracts, whatever it is in terms of setting the tariffs right, etc," he said.

India will have to make sure that this sector is viable before it can embark on a successful energy transition, he added.

The senior finance ministry economist talked about the importance of creation of robust small and medium enterprises.

"Today's manufacturing powerhouses in developed countries did not become manufacturing powerhouses without having a vibrant small and medium enterprise sector and they are the ones who bear the brunt of excessive rules and regulations at the sub-national level."

With the increasing presence of artificial intelligence (AI) likely leading to huge dislocations, India needs to prepare its youth to help them profit from this development, he added.

Indices extend winning run in special trading session

FE BUREAU
Mumbai, May 18

EQUITIES EXTENDED THEIR winning streak in the special trading session on Saturday, driven by gains in the shares of financial services and fast-mo-

ving consumer goods companies.

With gains in six of the last seven sessions, the Nifty 50 closed above 22,500 points mark for the first time in over two weeks.

The 50-stock index ended 0.2%, or 35.9 points, higher at

22,505 points, and the Sensex rose 0.1%, or 88.91 points, at 74,045.94 points.

The National Stock Exchange (NSE) and the Bombay Stock Exchange (BSE) conduct special trading session on Saturday with intra-day

switch over from primary site to disaster recovery site to test their preparedness.

Negative global sentiments and political uncertainty over the results of the ongoing Lok Sabha elections have been pushing markets higher

in the last few sessions. While the Nifty 50 had fallen in the last few sessions, it resumed uptrend on Saturday with nearly 4% rise, indicating that some jitteriness is here to stay until the counting of votes on June 4.

Nestle India shareholders vote against rise in royalty to parent

SHAREHOLDERS OF FMCG firm

Nestle India have rejected a proposal by the company to increase royalty payment to its parent firm, according to a regulatory filing by the company.

Nestle India's board had last month approved increasing royalty payment to its parent firm Societe des Produits Nestle (Nestle) by 0.15% per annum for the next five years thereby enhancing it to 5.25% of net sales.

It had proposed to start the 0.15% per annum increase over the current royalty fee of 4.5% per annum from July 1, 2024.

Subsequently, it had sought approval from its shareholders of the same as an ordinary resolution through a postal ballot.

In a regulatory filing, Nestle India said 57.18% of the total votes were against the ordinary resolution and 42.82% of the votes were in favour. The ordinary resolution, has not been passed due to lack of requisite majority of votes in favour of the resolution, said the scrutinizer's report. In 2013, Nestle India's board had approved an increase in royalty payment by 0.20% per year over a period of five years to its parent firm, thereby enhancing it to 4.5% of the sales.

On the other hand, the shareholders of Nestle India approved the special resolution for the appointment of Suneta Reddy, managing director of Apollo Hospitals Enterprise, as an additional independent non-executive director with effect from April 5, 2024, for a term of five consecutive years up to April 4, 2029, with requisite majority. —PTI
