# Our Approach to Sustainability

# Our **Environment Conservation** initiatives

## Water Conservation

- Installed a flow meter to monitor consumption, replaced damaged pipelines, and installed auto cut-off valves on overhead water tanks.
- Developed condensate collection system in addition to the existing recovery system, to recover condensate from 11 low-pressure traps and 4 hot water systems, leading to savings in natural gas, electricity and water consumption

## Energy Conservation

- Enhanced natural gas consumption by optimizing flue gas recycling into the water pre-heater system and implemented waste heat recovery in the new MEE system to reduce steam and power requirements.
- Replaced LCD (CFL) lighting with LED lighting, combined different capacity air compressors for load management, and installed auto cut-off systems in cooling tower fans for power savings.
- Initiated and completed third-party Power Purchase Agreements to expand renewable electricity utilization, converting 1.38 crores kWh/year to solar and wind energy.

## Environment

- The Surat facility won first prize in the Gujarat Pollution Control Board's Swachta Pakhwada Award.
- Developed landscaping at the ETP area by planting nearly 100 new saplings.
- Improved ETP efficiency by replacing disc-type diffusers in the bioreactor tank and upgrading the TOC meter at the effluent discharge line with the latest technology model.
