Management Commentary & **Business Outlook**

“Gravita has commenced FY25 on an optimistic note. It is firmly advancing towards its objective of boosting capacity to over 5 Lacs+ MTPA with a capex of Rs. 600 Crore+ by FY27. Vision 2028 outlines Gravita’s strategic focus on expanding into new recycling verticals such as lithium-ion, steel, and paper recycling. The company aims for a volume and profitability growth of over 25% and 35%, respectively on CAGR basis, ROCE of over 25%, and an increase in value-added products and non-lead business to over 50% and 30%, respectively. Gravita is committed to meeting its short-term, mid-term, and long-term targets outlined in the company's ESG Roadmap by FY27, FY34, and FY50, respectively showing its focus on sustainable growth and creating a positive impact.

Q1FY25 performance shows a great start to FY25. Gravita witnessed remarkable growth in volumes, revenues, EBITDA, and PAT by 29%, 29%, 33%, and 29% respectively. Proportion of Value-added products and availability of domestic scrap continues to increase. Gravita is well-positioned for growth with its ambitious expansion plans, strong balance sheet, stringent Government Regulations, and support from all the stakeholders”

Risk Mitigation by **BACK-TO-BACK HEDGING** mechanism

- To mitigate the risk of commodity prices fluctuation from June. 2016
 - Metal equivalent of the scrap bought, is sold on the same day
 - Pricing against Customer contracts – Natural Hedging
 - Forward Contracts on LME Exchange for balance quantity - till final sale to customer
 - Core inventory was not part of back-to-back hedging
- Gravita started **hedging of core inventory** also in June 2019 by taking a forward contact on LME Exchange.
- June 2019 onwards Gravita is enjoys stable margins and is not affected by the commodity price fluctuations

Improving **MARKET DYNAMICS IN RECYCLING** - Paradigm Shift

Shift from **INFORMAL TO FORMAL**

With redefining of Battery Waste Management Rules (BWMR) , Extended producers responsibility (EPR) and stricter implementation of GST, the scrap availability for formal recycling sector has increased and is further expected to grow.

Informal Lead recycling trend in India

*Source - Management estimate

Gravita having Pan India presence and association with OEM's will benefit the most from this shift
