5th August, 2024

BSE Limited Floor 25, P.J. Towers, Dalal Street, Mumbai - 400 001 BSE scrip Code: 534742 National Stock Exchange of India Ltd, Exchange Plaza, 5th floor, Bandra-Kurla Complex, Bandra (E). Mumbai - 400 051 <u>NSE Symbol: ZUARI</u>

Sub: Newspaper Advertisement for publication of Unaudited Financial Results for the quarter ended 30th June, 2024

Dear Sirs,

Pursuant to Regulation 47 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, please find enclosed copies of Unaudited Financial Results for the quarter ended 30th June, 2024 published in Business Line all editions (English), Dainik Herald Goa edition (Marathi) and O Heraldo Goa edition (English), regional newspapers on 5th August, 2024.

The copies of the aforesaid newspaper advertisements are enclosed for your records. The same is also being uploaded on the website of the Company at <u>www.zuari.in</u>.

Thanking you,

Yours faithfully, For Zuari Agro Chemicals Limited

Manoj Dere Company Secretary

Encl: As above

FROM THE LABS.

New photocatalysts turn CO₂ into valuable resource

Researchers have found a new way to utilise carbon dioxide

Polyoxometalates (POM), a class of synthesised nanomaterials, consisting three or more transition metals linked together by shared oxygen atoms. Scientists at the Institute of Nano Science and Technology (INST), Mohali, have found out that a POM called 4-aminopyridine is useful for photocatalytic conversion of carbon dioxide (CO₂). POMs can convert CO2 and amines into formamide

derivatives by

molecule and

promoting its

activating the CO2

reaction with the

amine substrate.

POMs exhibiting

photocatalvtic

activity can initiate and accelerate chemical reactions under light irradiation, says a press release. This property is particularly beneficial in the context of CO2 utilisation, it says. Using POMs as photocatalysts aligns with green chemistry principles by reducing the need for stoichiometric reagents and minimising waste while utilising CO2 as a reactant. This contributes to more sustainable chemical processes. Moreover, POMs as photocatalysts are easily available and are cost-effective materials, the release says.

Kindlins, the key to multi-target cancer treatments

A new study has investigated the influence of Kindlins — adapter proteins that exist the inside cells of vertebrates in various cancers. Since this protein is central to many signalling pathways, targeting it could lead to new cancer treatments that address multiple aspects of the disease at once.

Kindlins also transfer extracellular mechanical cues to biochemical signals inside the cells. They do this by physically interacting with structural proteins, receptors and transcription factors, triggering a cascade of chemical signals within the cell. Structural disruptions in these proteins can have a major impact on mechanochemical signalling, leading to disruptions to homeostasis — a state of balance among all

the body systems needed for the body to survive and function correctly Kindlins may undergo mutations when exposed to innumerable chemical and

physical carcinogens like nicotine, ultraviolet rays and many more. Such mutations can also potentially disrupt global mechanical homeostasis within cells.

To understand the role of Kindling in turning normal cells into cancerous ones, a team from SN Bose National Centre for Basic Sciences in Kolkata, an autonomous institute of the Department of Science and Technology (DST), collected data of 10,000 patients with 33 cancer types from The Cancer Genome Atlas. (The Cancer Genome Atlas is a landmark cancer genomics program that molecularly characterised over 20,000 primary cancer and matched normal samples spanning 33 cancer types.) The researchers led by Debojyoti Chowdhury working under the guidance of Prof Shubhasis Haldar found that Kindlin 1 regulates the immune microenvironment in breast cancer cells and that cancer-specific metabolic regulation is governed by Kindlin 2.

M Ramesh

lchemists of yore sought to short-cut their way to richness by finding ways to convert metals into gold. Today, it appears that the job of finding a quick pathway to prosperity has been taken up by data scientists. Alchemists, of course, failed to transmute cheap metals into gold, but data scientists may be sniffing success.

Today, it is possible to take data sets of quarterly results of a company, daily high, low and close prices and traded volumes, as well as economic data, news and sentiment analysis, and use the data to train a machine learning model to make predictions. The model essentially sees patterns that we would miss.

Data scientists first clean up the data (filling in any missing values and removing outliers) and make it usable by a model. Then they select a deep learning technique (like Long Short-Term Memory) or Convolutional Neural Networks, for milking the data for insights. LSTM is particularly appropriate for time series data, such as historical stock prices, because it can remember previous information and use it to make predictions. Then the model is trained. The training process involves making the model adjust its parameters to reduce the gap between its own predictions and actual stock prices. Then comes validation of the model, using a separate set of data to verify the model's accuracy.

In broad terms, AI and deep learning predict stock prices by analysing historical data, identifying patterns and making future price forecasts. This involves collecting and pre-processing data, selecting and training appropriate models, making predictions, and continu-

FORECASTING GROWTH Using deep learning to predict stock prices gains

momentum

THE NEW ALCHEMISTS. Data scientists achieve 95.8% accuracy with LSTM models

ously evaluating and refining the models to improve their accuracy and reliability.

HITTING THE MARK

In the last few years, a lot of work has been done in this area, with each model getting better than the earlier ones. A recent work in this area by three data scientists, Jaydip Sen, Hetvi Waghela and Sneha Rakshit, of the Department of Data Science and Artificial Intelligence at the Praxis Business School, Kolkata, has thrown up a model that boasts of 95.8 per cent accuracy in predicting the next day's stock prices.

Sen, Waghela and Sneha used Long Short-term Memory (LSTM), which is a special kind of artificial neural network used in deep learning, designed to remember information for long periods of time, for "accurate stock price prediction". In a recent paper (which is yet to be peer-reviewed), they note that "des-

pite the efficient market hypothesis suggesting that such predictions are impossible, there are propositions in the literature demonstrating that advanced algorithms and predictive models can effectively forecast future stock prices." They add that in recent times, the use of machine learning and deep learning systems has become popular for market price prediction.

Sen, Waghela and Rakshit believe that an LSTM model could predict stock prices better than other techniques such as convolutional neural networks that has been used by others earlier. "This model automatically retrieves historical stock prices using a Python function, utilising stock ticker names from the NSE within a specified interval determined by a start and end date."

They took historical prices of 180 stocks across 18 sectors, between January 1, 2005 and April 23, 2024. They trained the data on LSTM

model to make predictions. They used three metrics - Huber Loss, Mean Absolute Error and Accuracy Score — which give an idea of how wrong a prediction could be, to assess the performance of their model. For a model to be accurate, it must have low values for Huber loss and MAE, and a high value for the accuracy score.

GOLDEN INSIGHT

Sen Waghela and Rakshit observed that their LSTM model yielded the minimum value of Huber loss for the auto sector, the minimum value of MAE for the banking sector, and the maximum value of accuracy score for the PSU banks sector. "Hence, the model is found to be the most accurate for these three sectors," they note. On the other hand, Huber loss and MAE are the maximum for the media sector and accuracy score is the minimum for the

energy sector. Therefore, the per-

formance of the model has been the worst for media and energy sectors on the three metrics. However, overall, the model's

performance has been highly accurate, since the lowest value of the accuracy score is 0.958315. "In other words, in the worst case, the model correctly predicted the direction of movement of the price (upward or downward) of the stock the next day in 95.83 per cent of cases. Thus, the model can be reliably used in stock trading decisions," they say.

The use of deep learning techniques for making stock predictions will call for radical changes in regulations, so that the market does not get skewed in favour of those who know how to use techniques at the expense of those who don't.

We value your feedback. Do send your comments to quantum@thehindu.co.in

• EXPECTATION VS REALITY The paradox of powerful AI: When bigger isn't always better

N. Nagaraj

- any of us are used to setting alarms with Siri, asking Google for nearby restaurants or telling Alexa to turn up the lights. Even if we don't use these AI-powered assistants ourselves, we often see others using them. However, when it comes to complex tasks, like drafting an email to the boss, the results can be baffling or even a confusing mess. This stark difference in outcomes raises an important question: Do large language models (LLMs) — the brains behind our virtual assistants and chatbots really perform as we expect

stems from their ability to handle a diverse range of tasks using a single model. This versatility offers immense potential - imagine a model helping a doctor summarise patient notes while also assisting a software engineer in debugging code. However, this very di-

versity also presents a significant challenge - How do we evaluate such a multifaceted tool? Traditional models are typically designed for specific tasks and evaluated against benchmarks tailored to those tasks. But with LLMs, it's impractical to create benchmarks for every possible application they might be used for. This raises an essential question for researchers and users alike: How can we gauge where an LLM will perform well and where it might stumble?

forms well on one task, we might assume it will excel at related tasks. This generalisation process — where we infer the capabilities of a model based on limited interactions - is key to understanding and improving the deployment of LLMs.

capabilities and whether these beliefs align with the models' actual performance.

To start with, the researchers collected a substantial dataset of human generalisations. They surveyed participants, presenting them with examples of how an LLM responded to specific questions. The participants were then asked whether these responses influenced their beliefs about how the model would perform on other, related tasks. This data collection spanned 19,000 examples across 79 tasks, sourced from well-known benchmarks like the MMLU and BIG-Bench.

they modelled the human deployment distribution — the On analysing the data using sophisticated natural lanset of tasks humans choose guage processing (NLP)

real-world use depends not just on the model's abilities but also on human perceptions of those abilities.

covered a paradox: larger, The findings of this remore capable models like GPT-4 often performed search are both fascinating and cautionary. It highlights that while larger LLMs have arios, precisely because users impressive capabilities, their misalignment with human ities. In contrast, smaller generalisations can lead to models sometimes aligned significant deployment errors.

On the flip side, by under-standing and modelling human generalisations, we can better align LLMs with user expectations. This could involve developing better interfaces that help users accurately gauge a model's strengths and weaknesses or creating more targeted training data that helps models perform consistently across a broader range of tasks.

them to?

LLMs have become the cornerstone of modern AI applications. Models like ÖpenAI's GPT-4, Google's Gemini, Meta's LLAMA, are capable of generating human-like text, translating languages, writing code and even crafting poetry. The excitement around LLMs

THE LLM DIELEMMA

The crux of the problem lies in understanding human expectations. When deciding where to deploy an LLM, we naturally rely on our interactions with the model. If it per-

In a new paper, MIT researchers Keyon Vafa, Ashesh Rambachan, and Sendhil Mullainathan took a different approach. In their study -'Do large language models perform the way people ex-pect? Measuring the human generalisation function' they have explored how humans form beliefs about LLM

techniques, they found that human generalisations are not random; unsurprisingly, they follow consistent, structured patterns that can be predicted using existing NLP methods.

The researchers also eval-

ISGEC

uated how well different LLMs align with these human generalisations. They

आके-बायश पंचायत ग्रामसभेत ग्रामस्थांचा जनआक्रोश

'ग्रामसभेवर ग्रामस्थाचा बहिष्कार : सरपचाचा राजीनामा तर सरपच, उपसरपचासहीत ५ पच गैरहजर

🗖 टीम दैनिक हेराल्ड

मडगाव, दि. ४ : सासष्टी तालुक्यातील आके–बायश पंचायत समस्यांची आगर बनली असून, रविवारी झालेल्या ग्रामसभेत या समस्यांमुळे त्रस्त झालेल्या ग्रामस्थांचा जनआक्रोश ऐकायला मिळाला. पंचायत क्षेत्रातील समस्या सुटत नाहीत, सरपंच, उपसरपंच, पंच सदस्य ग्रामसभेला उपस्थित राहत नसल्याचा दावा करीत ग्रामस्थांनी ग्रासभेवर बहिष्कार टाकला. रविवारी झालेल्या ग्रामसभेला सरपंच. उपसरपंचांसहीत ५ पंच सदस्य गैरहजर राहिले. त्यामुळे ग्रामस्थांचा पारा जास्त चढला. सरपंचांनी राजीनामा दिला तर उपसरपंच रजेवर गेल्याची माहिती पंचायत सचिवानी दिली.ग्रामसभेला सरपंच, उपसरपंचांसहीत पाच पंच सदस्य गैरहजर असल्याचे पाहन ग्रामस्थ संतापले. ग्रामस्थांनी पंचायत क्षेत्रातील समस्यांचा पाढा ग्रामसभेत वाचला व सरपंच, उपसरपंच, पंच सदस्य ग्रामसभेला उपस्थित राहत नसल्यास समस्या मांडायच्या कुणाकडे असा प्रश्न उपस्थित करीत ग्रामसभेवरच बहिष्कार घातला. ज्यूलीयो फर्नांडिस या ग्रामस्थाने सांगितले की, पंचायत क्षेत्रात अनेक समस्या आहेत.

मडगाव: आके-बायश पंचायतीच्या ग्रामसभेवर बहिष्कार टाकण्यापूर्वी समस्या मांडताना ग्रामस्थ ज्युलीवो फर्नांडिस

पंचायत मंडळ समस्या सोडवण्यास गंभीर नाही. सरपंच, उपसरपंच व पंच सदस्य ही ग्रामसभेला अनुपस्थित राहतात. एकूण पंचायतीचा कारभार सुरू असून, एकूण या प्रकारामुळे ग्रामसभेवर बहिष्कार घालण्याचा निर्णय ग्रामस्थांनी घेतल्याचे ज्यूलीयो फर्नांडिस यांनी सांगितले. *भटक्या कृत्र्यांची समस्या तीव्र -पेंडसेमानसी पेंडसे म्हणाल्या की, पंचायत क्षेत्रात इतर समस्यांबरोबरच भटक्या

कृत्र्यांची समस्या तीव्र आहे. रात्री-अपरात्री भटके कुत्रे वाहनचालकांना जास्त करून द्चाकी चालकांना, पादचाऱ्यांना त्रास देत असतात व नागरिकांवर आक्रमण करीत असतात, चावा घेत असतात. आपल्या भावाला कुत्रा चावल्याने तीन वेळा इंजेक्शन घ्यावे लागले तर आईला ही कुत्रा चावला. पंचायत क्षेत्रातील भटक्या कृत्र्यांचा उपद्रव कमी करण्यासाठी ठोस पावले उचलणे गरजेचे असल्याचे मानसी पेंडसे

म्हणाल्या माजी सरपंच तथा पंच सदस्य अविनाश सरदेसाई यांनी सांगितले की, पंचायत क्षेत्रात समस्या वाढल्या आहेत. सरपंच, उपसरपंच ग्रामसभेला उपस्थित न राहिल्याने ग्रामस्थ संतप्त बनले. आपण सरपंच असताना पंचायतीचा कारभार सुरळीत सुरू होता. समस्या सोडवण्यावर भर दिला जात होता. ग्रामस्थांच्या समस्या सोडवण्यासाठीच लोक आम्हाला निवडन देत असतात. मात्र, याठिकाणी समस्या

सूटत नसल्याने ग्रामस्थ त्रस्त बनले आहेत. काहीजण नाहक आमदारांवर आरोप करीत आहेत व आमदार काम करीत नसल्याचे म्हणत आहेत. मात्र, आमदार खूप क्रियाशील असून, काही झाले की, धावत येत असतात. नावेली विधानसभा मतदारसंघातील समस्या सोडवण्यासाठी तत्पर असतात व रात्रंदिवस कार्यरत असल्याचे अविनाश सरदेसाई म्हणाले. सचिव मोहन गावकर यांनी सांगितले की, सरपंच प्रदीप आचार्य यांनी राजीनामा दिला आहे तर उपसरपंच नताशा आग्नेलो डायस रजेवर आहेत. त्यामुळे ग्रामसभेला उपस्थित राह् शकलेल्या नाहीत.एका ग्रामस्थाने सांगितले की, पंचायत क्षेत्र (भास्कर देसाई) समस्यांचे आगर बनले आहे. पंचायत क्षेत्रात कचरा राशीनी भरलेला आहे. मिळेल तिथे इमारती, बांधकामे उभी राहत आहेत. मटण, चिकन शॉप कूठे थाटावीत व अन्य दकाने, बाजार कुठे थाटावा, याला काहीच ताळतंत्र नाही. पंचायत मंत्र्यांनी या

पंचायतीच्या कारभारावर लक्ष ठेवावे, असे या ग्रामस्थाने सूचवले.*दक्षता विभागाकडे तक्रार करणारपंचायत क्षेत्रातील बेकायदेशीर कामासंदर्भात दक्षता विभागाकडे तक्रार करण्याचा इशारा ही ग्रामस्थांनी दिला आहे.

ADMINISTRATION OFFICE OF THE COMUNIDADES OF NORTH ZONE Communidade Bidg., Opp. Civil Court, Altinho, Mapusa, Goa. NOTICE OF AUCTION OF TIVIM COMUNIDADE PLOT (Under Art 334 of the Code of Comunidades) (Under A1 334 of the Code of Comunidades) It is hereby announced that on 27th Augus 2024 at 3.30 p.m. in this office, the public auction for leasing of plot will be held with respect to the plot belonging to the Comunidade of Tivim of Bardez Taluka situated at Tivim Village (details of plot and applican are given below):

are given below): Name of Applicant: Shri Swapnesh Harichandra Vaigankar, File No. 1-17-2022-ACNZ/2022 Survey No. 281/1, Plot No. 139, Plot Area 334.60 sq. mtrs., Min Amount Lease Bidding 2-60 2090;

Rs. 60,228/. **CNDITIONS FOR THE AUCTION** (1) Every contesting bidder other than applicant should deposit an EMD in the Office of the Administrator of Comunidates of North Zone, Mapusa, Bardez, Goa in cash an amount amount should be deposited in this office on the previous day of auction between 10.00 amto 12 noon and only those persons who have deposited such amounts a list thereof will be displayed in this office notice board by 1.00 p.m. on the same dayalongwith the cost incurred by the applicants during the process of the file till day of auction of the pict. Only those who fulfil the above condition laid down in this notice northing. The contesting Bidders other than applicants during the three othersting Bidders shall be allowed to participate in auction on the appointed date and time subject to the other innior children do not own any house or later minor children do not own any house or later minor children do not own any house or later siders, the contesting Bidder's spouse and their minor children do not own any house or later sidericipating for the auction should obtain NOC from the concerned Commidade 3 (Mthe) days before the auction and submit the same to the office of the Administrator of Communidade Noth Zone, Nagusa, (4) In the event of the applicants winning the bids one years lease rent is to be immediately deposited in the Administrators Office, 6) On the day of the auction if there are no bidders the the plots will stand allotted to the applicant winning bid should deposit one years lease rent and also double the costs incurred by the applicant for processing the file on the spot. The EMD in such a case will be adjusted against the above payments. In case successity bidders, fails to deposit one years CONDITIONS FOR THE AUCTION one years lease rent and also double the cos ncurred by the applicant for processing the fi on the spot. The EMD in such a case will b on the spot. The EMU in such a case will o adjusted against the above payments. In case successful bidders fails to deposit one year lease rent and double the costs incurred by the applicants for processing the file on the spot i such a case the EMD deposited shall be forfieted. In such case the second highest bidden on the spot. The EMD in such a case will be adjusted against the above payments. In cas successful bidders fails to deposit one year lease rent and double the costs incurred by th applicants for processing the file on the spot i such a case the EMD deposited shall be fordiated in such case the second bidbest bidder

adequately lit and only partially covered, leaving passengers exposed to the elements. It is important to consider prioritizing essential facility enhancements over other upgrades. The station remodelling and upgrade plan should emphasize providing proper roofing over the platforms. The Konkan Railway should focus on improving basic amenities such as platforms, roofing, lighting, benches, and fans across all stations, with particular attention to those in Goa. Addressing the challenge of limited halt times for trains, it would be beneficial to consider deploying more vendors to serve all train compartments, particularly the unreserved ones. Moreover, finding assistance from porters,

especially during night time, pose difficulties for passengers, particularly senior citizens. One potential solution could be the development of a user-friendly digital application, re**CITIZEN**

Rumbler strips in Vasco which caused inconvenience removed

the houses along the road.

The loud sound produced

when vehicles, especially

heavy vehicles, passed over

couple of weeks back through the Citizen Herald column I had written about rumbler strips near Goa Shipyard in Vasco causing great incon-

CITIZEN ADELMO FERNANDES Vasco

the strips would disturb venience to the residents of the public in the area. Sev-

Margao bus stand is a disgrace

Margao KTC he stand and the area around it has literally gone to the dogs. Broken pavements, migrants sleeping around, stray dogs and water stagnating at various places has made the place a perfect breeding ground for mosquitoes.

The government seems to have no concern about the upkeep of this public

CITIZEN

infrastructure supported by taxpayer's money.

ed once more. A disgrace !!

VINAY DWIVEDI Benaulim

The last time the Goa

government swung into action to clean up the place was when Modi came visiting during the elections. May be he should be invitthere are pathetic . Choked drains without covers, discarded crates, plastic bags, sewerage overflowing manholes, stagnant water, cattle feasting on rotting produce, etc are indeed un-

pleasant sights. Visiting the market is an exercise fraught with danger which entails dodging

CITIZEN Benaulim from but the conditions

itation staff to maintain hygiene in the area as it regulary collects hefty taxes and other charges from

Stop parking vehicles on service roads

he service lanes/ roads which normally run parallel along the national highways are primarily made for vehicles to make a quick getaway from the main lanes in case of a breakdown so that other fast moving traffic is not blocked and create a jam and secondly for other ve-

CITIZEN LUCAS D'SOUZA

these service roads are used of the NH66. Another area for parking heavy vehicles/ of concern is the Eastern buses making it difficult for bypass going from Nuvem

he SGPDA market in Margao is where half of South Goa buys **REKHA SARIN TREHAN** it's fruits and vegetables

feral dogs, cats, mosquitoes

and bovines. The interiors of the market too are very unhygienic too. The Margao Municipality should deploy san-

eral houses also developed

large cracks on the walls. It

is gratifying to note that the

authorities concerned have

taken note of the same and

removed the rumblers

Festering state of

SGPDA market

the shop keepers there.

Verna hicles to take to the bylanes which leads to the interior villages which otherwise

have to take a long detour to reach there. But most of the time,

other vehicles to pass spe-

These service roads are firstly not very broad and when huge trucks are parked this way, it is asking for trouble specially along

to Arlem junction where cially during the night. numerous outstation heavy duty trucks are parked on both sides of this two lane bypass which is not well illuminated. Will the authorities take cognisance of the Nuvem/Verna stretch these illegalities?

sembling Ola or Uber, which would allow passengers to conveniently book porters at specific stations. We understand that the railway system is a vital lifeline for India, serving thousands

Difficulties faced by **KTC commuters**

am a commuter of KTC bus plying from Margao to Saligao and since July, the Corporation has discontinued with the concessional

pass schemes and hence the amount that I spent on my bus fare surpasses the travelling allowance availed by me, which is again not worthy as the service provided by KTC is below average.

Come rain, and the buses are leaking; the seats are full of dog fur and not to mention about the half empty alcohol bottles found sometimes beneath the seats. There are occasions when the commuters are

thrown off the seat due to bad roads and reckless driving. The buses are rattling due to lack of proper maintenance.

Further, it is quiet depressive to see that in this digital age, passes issued by the KTC are in hard copy and difficult to carry and maintain for the entire month. There's no provision to renew it online and the counters are closed by 6 pm. On every occasion, KTC personnel behind the

counter demand fresh copy of the photo and the presence of the pass holder for signature. This seems to be absurd as there's no concession, it makes hardly any difference so as who approaches to renew the pass; whichever way the money shall be deposited in the Government treasury.

In view of this, I request the concerned authority to intervene into the matter and help the STATE to excel its state.
