For this purpose, the Company has entered into an agreement with CDSL for facilitating voting through electronic means, as the authorized agency. The facility of casting votes by a member using remote e-voting system will be provided by NSDL. Details of the process and manner of Remote e-voting are being sent to all the Members along with the Notice. If any person who is not a member/ceased to be a member as on the cut-off date should treat this notice for information purpose only.

23. The Members, who will be present in the AGM through VC / OAVM facility and have not cast their vote on the Resolutions through remote e-voting and are otherwise not barred from doing so, shall be eligible to vote through e-voting system during the AGM.
24. The Results on above resolutions shall be declared not later than 48 hours from the conclusion of the AGM of the Company and the resolutions will be deemed to be passed on the AGM date subject to receipt of the requisite number of votes in favour of the Resolutions.
25. Since the AGM will be held through VC / OAVM, the Route Map is not annexed in this Notice
26. Pursuant to the MCA Circulars and SEBI Circular, in view of the prevailing situation, owing to the difficulties involved in dispatching of physical copies of the Notice of the 30th AGM and the Annual Report for the year ended 31st March, 2023 including therein the Audited Financial Statements for the Financial Year 2022- 23, which are being sent only by email to the Members. Therefore, those Members, whose email address is not registered with the Company or with their respective Depository Participant/s, and who wish to receive the Notice of the 30th AGM and the Annual Report for the Financial Year 2022-23 and all other communication sent by the Company, from time to time, can get their email address registered by following the steps as given below: -
 - a. For Members holding shares in physical form, please send scan copy of a signed request letter mentioning your Folio No., Name of shareholder, scanned copy of the share certificate (front and back), self-attested scanned copy of PAN card, self-attested scanned copy of Aadhaar Card by email to Company email id rubfila@gmail.com.
 - b. For the Members holding shares in demat form, please update your email address through your respective Depository Participant/s.
27. Process for those shareholders whose email addresses are not registered with the depositories for obtaining login credentials for e-voting for the resolutions proposed in this notice:

Members whose email addresses are not registered with the depositories can register the same for obtaining login credentials for e-voting for the resolutions proposed in this Notice in the following manner:

 - a) For Physical Shareholders- Please provide necessary details like Folio No., Name of Member, scanned copy of the share certificate (front and back), self-attested scanned copy of PAN card, self-attested scanned copy of Aadhaar Card by email to Company email ID: rubfila@gmail.com.
 - b) For Demat Shareholders- Please provide Demat account details (CDSL-16 digit beneficiary ID or NSDL-16 digit DPID + CLID), Name, client master or copy of Consolidated Account Statement, self-attested scanned copy of PAN card, self-attested scanned copy of Aadhaar Card to the Company email ID: rubfila@gmail.com. It is clarified that for permanent registration of email address, the Members are however requested to register their email address, in respect of electronic holdings with the Depository through the concerned Depository Participants.
 - c) The Company/RTA shall co-ordinate with CDSL and provide the login credentials to the above-mentioned shareholders.
28. The instructions of shareholders for remote e-voting and e-voting during AGM and joining meeting through VC / OAVM are as under:
 - (i) The voting period begins on 18-09-2023 at 9.00 a.m. and ends on 20-09-2023 at 5.00 p.m. During this period shareholders of the Company, holding shares either in physical form or in dematerialized

form, as on the cut-off date 14-09-2023 may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.

- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders / retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

- (iv) In terms of SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020 on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Performance Review

Rubfila International Ltd

In a year when the world economy faced headwinds and challenges, Indian economy remained resilient showing its inherent strengths. This was the year when USA and Europe went into a recession which had its consequential impact on the economies of many countries. India was one of the rare spots where everything did not go for a downward spin though it faced challenges on various fronts due to geopolitical tensions, supply chain constraints, trade imbalances, rising energy prices etc.

After two years of severe turbulence due to Covid, the world entered into a period of steadiness during the year 2022-23. While the inflationary trends in the prices of raw materials and other inputs softened, the prices still remained at higher levels compared to the pre-pandemic days. Exporters were relieved that international shipping costs declined to the pre-Covid levels by the third quarter of the year. But these factors did not convert into overall positive environment since demand slumping across the board. To tide over the headwinds, many large companies resorted to mass layoffs furthering dip in consumer sentiments and consumptions.

Rubber thread is an intermediary material used by the garment industry fortunes of which suffered badly during the year. Tiruppur, the hosiery capital of India, usually sees huge inflow of orders during the June-July months for the Christmas shopping season in USA and Europe, but struggled this year with lack of orders. Factories were either closed or operations down sized for a major part of the year and thousands of people lost their jobs due to this. With such negative sentiments running high in the market, demand for rubber threads suffered and Rubfila had to scale down production during the second and third quarters of the year.

Despite these adverse scenario, the company navigated the tough environment through prudent management practices and ended the year with a turnover of ₹ 37548.59 lakhs, a drop of 11% over ₹ 42062.93 lakhs posted last year. In line with the sales, profits also dipped from ₹ 4304.15 lakhs to ₹ 2339.29 lakhs this year. This was a result of the demand slump in the garment market. At the same time, exports showed positive trends with the company targeting more countries and succeeding in wooing more customers to its fold. The company is confident of on boarding more customers for exports helping it scale up the top line.

During the year 2022-23, Rubfila passed another milestone in the form of commissioning one more production line enhancing the capacity by another 2500 MT per annum at the Tamil Nadu plant. With this, the total installed annual capacity stands at 27500 MT. The company also ventured into manufacturing carton boxes to meet the captive demand and commissioned the plant in May, 2023. The carton unit will have spare capacity after meeting the captive demand and plans are afoot to sell cartons to external customers adding another revenue stream for the company.

The Company has been striving hard in its efforts to preserve the environment, and as a part of the green

initiatives, has set up a 1 MW solar power generating facility at the Tamil Nadu plant which is expected to help save on the power charges.

Premier Tissues India Ltd:

Premier Tissues India Ltd (PT), the wholly owned subsidiary of Rubfila, had a brisk growth in sales during the year and cemented its position further in the Indian tissue industry. The sector saw some correction in the prices of raw materials, though it remained at higher levels compared to the pre-pandemic period. Availability of waste paper, the major raw material also softened a bit leading to price corrections. At the customer end, institutional sales contribute a major segment of the industry and with so many companies continuing with the 'Work from Home (WFH)' mode, there was severe dip in the consumption of tissue paper. Indian tissue industry is dominated by a large number of players in the unorganized sector, who used to cater to the needs of institutional customers. But with WFH, affecting consumption in this segment these fringe players were forced to look elsewhere like general retail for business. While entering the retail segment without a popular brand name remained a tough proposition for these players, this led to retailers demanding higher margins or lower prices pressuring the established players like Premier. This was a major reason why the industry could not pass on the higher costs to the consumers. The entry barriers in this segment are so low that every year many new players enter the industry hoping to make it big. At the same time, the industry also sees many units closing down after incurring huge losses. The presence of a such large number of unorganized players competing on price affects the ability of the industry to command healthy margins in the market.

Premier in the past one year had expanded its sales infrastructure reaching out to more unrepresented regions. With addition of new members in the sales force and added focus, they achieved a revenue of ₹8627.69 lakhs, a growth of 43.5% over past year's sale of ₹ 6010.25 lakhs. Profits during the period also was higher at ₹ 256.98 lakhs against ₹161.19 lakhs in the previous year.

Various cost saving and efficiency improvement initiatives undertaken at the factory is expected give positive results in the long term. These steps will help the company to compete better garnering a bigger share in the market.

Consolidated Figures:

The consolidated revenue from operations of Rubfila and Premier Tissues for the year was ₹.46370.13 lakhs with the profit before tax (PBT) at ₹ 3524.63 lakhs. The consolidated profits after tax (PAT) during the year was ₹ 2595.30 lakhs compared to ₹ 4,464.35 lakhs in the past year.

The financial statements of the company have been prepared in accordance with Ind AS, as notified under the Companies (Indian Accounting Standards) Rules, 2015 read with Section 133 of the Act.

Dividend

Your Directors have recommended a dividend of 24% (₹1.20 per share of face value ₹5/-) for the year subject to the approval of shareholders at the ensuing Annual General Meeting. This will result in a total payout of ₹651.21 lakhs for the year as compared to ₹949.68 lakhs in 2021-22.

Pursuant to the provisions of Section 124(5) of the Act, the dividend which remained unclaimed/unpaid for a period of seven years from the date of transfer to unpaid dividend account is required to be transferred to the Investor Education and Protection Fund (IEPF) established by the Central Government.

Your company has uploaded the details of unclaimed/ unpaid dividend for the financial year 2012-13 onwards at its website www.rubfila.com and at the website of the Ministry of Corporate Affairs www.iepf.gov.in and the same gets revised/updated from time to time pursuant to the provisions of IEPF (Uploading of Information Regarding Unpaid and Unclaimed Amount Lying with Companies) Rules, 2012.

Further, the unpaid dividend amount pertaining to the financial year 2015-16 will be transferred to IEPF during the Financial Year 2023-24.

As on March 31, 2023, the unclaimed amounts with respect to the dividend are as under:

Transfer of Equity Shares

Pursuant to the provisions of Section 124(6) of the Act and the Investor Education and Protection Fund (IEPF) Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 notified by the Ministry of Corporate Affairs on September 7, 2016 and subsequently amended vide notification dated February 28, 2017, all the equity shares of the company in respect of which dividend amounts have not been paid or claimed by the shareholders for seven consecutive years or more are required to be transferred to demat account of IEPF Authority. Upon transfer of such shares, all benefits (like dividend, bonus, split, consolidation etc.), if any, accruing on such shares shall also be credited to the Account of IEPF and the voting rights on such shares shall remain frozen till the rightful owner claims the shares. Shares which are transferred to the demat account of IEPF Authority can be claimed back by the shareholder by following the procedure prescribed under the aforesaid rules.

Your company has sent individual notice to all the members who have not been paid or who have not claimed dividend for seven consecutive years and has also published the notice in the leading English and Malayalam newspapers.

The details of the nodal officer appointed by the company under the provisions of IEPF are disseminated in the website of the company viz., www.rubfila.com.

Capital Expenditure

As on 31st March 2023, the gross fixed assets of the company stand at ₹22,301.69 lakhs and net fixed assets at ₹ 14,746.11 lakhs. Capital additions during the year amounted to ₹ 2,776.19 lakhs, which include addition to Building ₹421.66 lakhs, Plant & Machinery and other assets amounting to ₹ 2,354.53 lakhs and Capital Work in Progress of ₹137.63 lakhs.

Future Prospects

Rubfila International Ltd

Rubber threads industry has been growing over the past many years, but faced hurdles in the past year due to recession in Europe and America and in other countries in general. China also faced low demand due to stringent Covid related lock down issues cutting down on consumption. Inner wear industry, which ultimately consumes rubber threads in the form of elastic tapes was on a consistent growth path in India over the past decade. Though the Indian inner wear industry continues to grow, this was at a slower pace than the previous years.

Rubfila has currently eleven lines of production in the two units based in Kerala and Tamil Nadu and has an annual installed capacity to manufacture 27500 MT of threads. This is the largest capacity in the country and is one of the large capacities in the world too.

The industry faces a few challenges due to factors like latex prices, increase in manufacturing capacity world-wide growth in the usage of alternate materials etc. China also has become active in the industry with twenty production lines being operated now. This has dampened the Chinese sales of the Malaysian/Thailand companies and they have been forced to dump the product at lower prices in other markets to shore up the sales.

The single biggest challenge Indian rubber thread industry faces is the difference in the prices of natural latex in India and South East Asia where the world leaders of this industry are based. Historically, except for a few occasions, the Indian latex prices have always been ruling at higher levels compared to the international prices. Companies in South East Asia have access to this lower priced latex helping them have a competitive advantage in the market. This poses a severe challenge for the Indian rubber thread companies in the Indian and international markets. India has Free Trade Agreements (FTA) with Malaysia and Thailand and rubber threads, among other products from these countries can be imported at concessional duties. Indian rubber thread companies are forced to benchmark their selling prices against the imports restricting their ability to pass on the higher costs to the customers.

The Indian rubber thread industry has witnessed growth in output with most of the players investing in additional capacities. Currently, the total installed capacity available is higher than the Indian market size and this is bound to lead to price war in the short to medium term till consolidation happens. In the current circumstances, margins are expected to be under pressures in the medium term.

Irrespective of these challenges, Rubfila has grown in the domestic market and has remained as the market leader. Exports also has seen an uptick and the company has succeeded in acquiring new customers overseas. 'Rubfil', the brand of the company has been in the market for about 40 years, first through the original Malaysian promoter and then through Rubfila and enjoys a strong equity in the international market. With more capacities added in the last year, expanding the customer base in the overseas market is a major objective which the company is confident of achieving.

Premier Tissues (India) Ltd

India has one of the lowest per capita consumptions of tissue paper in the world at around 250 gm compared to the world average of 5.2 kg. The larger share of the Indian market comes from 'Away From Home (AFH)' consumption happening at institutions like hotels, restaurants, offices, airports, hospitals etc. Tissue papers were not considered as an essential item till recently in India, but that appears to be changing with tissues becoming a part of the monthly grocery purchases. With the income level rising and the changes in lifestyle, the industry is poised to grow at a very healthy rate in the long term.

Premier as a brand commands utmost respect in the tissue market and the company has been successful in leveraging the same to its advantage. Sales grew by a healthy 44% in the past year and this momentum is expected to continue in the current year too. South India continues to be a stronghold for the company with major share of sales coming from the region. While the sales in the Western India is also healthy, the region offers more potential which needs to be tapped further. Sales in the North and Eastern regions remain weak due to constraints in getting the right sales team and issues related to logistical costs. These are being addressed and moving forward the company is confident of growing the sales at a healthy rate.

A good sales infrastructure is mandatory for a consumer product company to succeed. This consists of an agile sales team, a wide network of distributors, stockists etc. The wider the distributor network, the wider the company can reach out to a large number of retailers and in turn customers. Premier is in the process of expanding its sales network in areas where its presence is not to the desired level, particularly in the northern and eastern regions.

Tissues are low margin products and with the plant located at Mysore, logistical costs to regions beyond South India makes the product not competitive in these markets. To address this issue, Premier is planning to set up exclusive satellite conversion centers closer to the regional markets. These will be asset light models with investments coming from third parties and operations handled by them based on the standards specified by Premier. One such center is at the final stages of commissioning in the Eastern region which will cater to the east and north markets. Another conversion center is in the pipeline near to Mumbai so that low margin products like

napkins can be produced for the western market. With these arrangements, the company expects to wider the points of availability at competitive prices acceptable to the markets.

India is currently the fifth largest economy in the world and the government has initiated steps to convert India into a \$ 5 trillion economy in the next few years. As per the current trends, the per capita income is estimated to jump by 70% to touch \$4000 by 2030. This is bound to result in more employment opportunities and growth in consumption across all the spectrums. Naturally, tissue sector is bound to be benefited in line with the projections and even a modest growth of another 250 gm in the per capita consumption will double the size of the industry. Premier, as the leading brand, is well equipped to tap into any growth happening in the industry elevating the company to improve its performance metrics.

Management Discussion and Analysis of Operations

Even as the world was slowly limping back to normalcy after the Covid pandemic, Russia – Ukraine war happened acting as the biggest recent geopolitical event disrupting the economic recovery. America and Europe fell into recession, the effects of which reflected in many other countries too. Additionally, China's strict protocols for Covid control and the resultant shutdowns of factories there led to severe strains in the supply chain systems playing havoc all over the world. A large number of countries were left trying to tackle high inflations with not much success. To add to the misery, big corporations across the world laid off thousands of employees as a means for them to smoothen the pain of slowdown. Together, all these led to slowing of international trade, piling up of inventory everywhere and slowing the economic recovery after the catastrophic pandemic period. Global growth slowed down during the year and is projected to remain subdued in the next couple of years.

India, as cited by International agencies, was one of the few exceptions in this gloomy scenario and the country staged a full recovery from the pandemic inflicted damages and set itself on a pre-pandemic growth path. Data shows that there was an increase in private consumption leading to escalation in production related activities. Government, in a bid to crank growth, initiated more spending on capital expenditure directly impacting economic activities across a host of domains. Various agencies as well as the economic survey of 2022-23 projects a growth of 6.5% for the year 2024. Despite this, it is a fact that recovery remained muted in a few areas, particularly where performance was linked to exports to Europe and America.

Rubfila caters to the needs of garment industry and demand fluctuations in the sector had directly affected the fortunes of the company during the year under review. Tiruppur, the hosiery capital of India as well as other hosiery clusters of the country were badly affected with America and Europe falling into recession. Data shows that demand for the Christmas shopping season in the western countries plummeted compared to the previous years. Demand for rubber threads also suffered due to this affecting the growth prospects of the industry. The second and third quarters of the year saw huge drop in orders and the company was forced to downsize capacity utilization to the level of 50% in a few months.

With this as the background, Rubfila posted a sales of ₹ 37548.59 lakhs with a net profit of ₹ 2339.29 lakhs, a drop from the respective figures of the previous year. The consolidated sales combining the figures of the subsidiary M/s. Premier Tissues India Ltd, was ₹.46370.13 lakhs with the net profit at ₹.2595.30 lakhs.

A) INDUSTRY STRUCTURE AND DEVELOPMENT:

Market Scenario :

The year had started on a good note with the domestic market doing well, but towards the end of the first quarter, demand had become sluggish. Shortage in the availability of yarn and its exponential rise in prices crippled the hosiery industry. Adding to the woes, the prolonged Ukraine – Russia war dampened the fortunes of the market, especially in Tiruppur, which is more dependent on hosiery exports. But with a large capacity helping to spread the costs, the company managed to sustain the profitable operations, though on a lower margin level.

With a larger production capacity, the company had been on its way to expand the overseas customer base

and succeeding too. The brand 'Rubfil', had built a strong equity with the customers over the past forty years, first through the Malaysian company Rubfil.Sdn,Bhd and then by Rubfila since the 1995. Rubfila has established itself as a major force in the international market and exports sales has been on an upswing which is expected to continue in the future.

At the same time, challenges remain due to factors like increased competition from the domestic market, disparity in the Indian and international latex prices, lower import duties in India due to Free Trade Agreements (FTA), increase in consumption of spandex as an alternate material etc. Margins pressures are expected to continue in the medium term till stability occurs on a few areas.

OPPORTUNITIES AND THREATS:

Opportunities for the Company are:

1. Brand 'Rubfil' is well known in the international market and the company had limited its presence to a few markets due to capacity constraints till recently. With added manufacturing capacity, exports sales is on an upswing and the company plans to tap into markets remaining untapped so far.
2. Growth of innerwear market is an opportunity to be tapped

Threats:

1. Imports from Malaysia and Thailand which enjoy lower duty regime under FTA with those countries is a continuing threat.
2. Stress in Chinese economy affects the rubber thread market since this forces the major players to dump the excess stock in other markets like India at much lower prices.
3. Indian latex prices continue to be higher than international prices and this disparity is a major threat for the Indian companies to remain competitive.
4. Government continues to restrain free imports of latex into the country making it difficult to be at par with the leading international players who have access to latex at lower prices.
5. Climate changes are affecting the tapping cycles of rubber leading to drop in production and availability and hence prices too.
6. Addition in manufacturing capacity in India could lead to price war in the near to medium term.
7. Market for spandex, an alternate material to rubber thread, is also growing in consumption and the growth in the elastic tape market is shared with this material.

Premier Tissues India Ltd (Wholly-owned Subsidiary):

Tissue paper market in India is on a growth path with the product becoming an essential material for the common man on the street. Consumption of tissue paper happens at various points of daily life and it is estimated that the market is growing at around 12% p.a. Per capita tissue consumption in India remains one of the lowest in the world even behind nations like Bangladesh and Sri Lanka. With rise in income and change in life styles, consumption is growing and this could catch up with the levels of other countries soon. The fact that major consumption is happening at 'away from home (AFH)' spaces like restaurants, offices, airports etc is a major boost since the growth will secular and independent of the income levels of individual persons.

Premier Tissues India Ltd, enjoys premium status for its brand "PREMIER" in the Indian tissue market. Premier has posted a quantum jump in sales during the year and further consolidated its position in the market. While the raw materials prices started softening, the market continued to face headwinds in the form of price cutting from unorganised players. But with renewed focus on creation of a better sales infrastructure, the company managed to cloak a healthy growth. The brand which was strong in the South Indian states consolidated its position further in the region. Sales from western and eastern regions are also showing growth while the northern

region has trailed in sales. The company is progressively padding up the sales infrastructure in these areas so as to make the presence of the brand wider and achieve further sales.

OUTLOOK:

Rubfila International Ltd

The rubber thread industry is facing headwinds in view of the macro economic factors which exists in India as well as internationally. Russia-Ukraine war which is going on for the past eighteen months has been a major dampener on demand creation. The after-effects of war have been visible on a host of sectors driving up prices of items like food, oil etc. Large sections of supply chain systems were affected leading to high inflationary trends everywhere. It was assessed that people chose to cut down on expenses leading to contraction in demand which led to crisis for many industries.

Rubber thread industry is expected to face challenges in the near to medium term on account of these macro factors. Demand slump, capacity additions in India, higher latex prices, China becoming active in rubber thread industry are some of the factors which can impact on pricing as well as demand for the product.

Indian latex price, as is the norm in the past, have mostly been at higher levels compared to international prices. Kerala, which is the largest producer of rubber in India, faced extended summer this year affecting output leading to much higher prices for latex. Malaysia and Thailand have FTAs with India helping their products to be imported here at concessional duties of 5% or less. Indian players are compelled to use the landed cost of imported rubber thread as the benchmark for pricing in the domestic market pressuring the margins. Climate change and its effect on latex prices due to disruptions in output may act as a critical factor in the coming years for the industry to remain competitive in the Indian and international markets.

Irrespective of this, Rubfila has the strengths to weather these adverse situations through a combination of factors like cost management , scale, market standing in the domestic and international market, agility to respond to customer needs etc. The company has been extending the customer base internationally, a strength which is expected to help it overcome the temporary setbacks in the market.

Premier Tissues India Ltd

Premier is highly optimistic about the prospects of the tissue industry in India. The per capita consumption of the item remaining at very low levels at just 250gm, lower than even low income countries like Bangladesh, Sri Lanka etc. With the economy and the per capita income projected to grow in the coming years, tissue industry is set to reap handsome benefits. Till a few years back, tissue was considered to be a luxury item in the country with the consumption limited to the high income groups, but the products are seen as essential items by the general public, In addition to this, indirect consumption which happens at points like restaurants, hotels, airports, offices etc drive the consumption to a much higher level.

Premier has been the pioneer in introducing the tissue culture in the country and it has seen the business growing in the past two years. The company has retained its strong position in the South Indian market in the past year also and is building on its strength to further its business in the region. North and East India have been weak markets for the company since the sales infrastructure had been weak from the beginning. Efforts are on to build a sound network of sales team and distributors in these regions which will help to shore up the sales and the presence of the brand there.

Tissue is a low margin product which faces stiff competition from a large number of unorganised players all over the country. Premier with its plant at Mysore has the disadvantage of high freight charges when it transports the product to the north and eastern markets making it not competitive. To address this issue, the company has set up an exclusive conversion centre in West Bengal for catering to the North and East markets. This is expected to help spread the presence of the brand widely in this region and increase the sale. Another conversion centre is being planned near to Mumbai to cater to the Western region which also will make the products competitive when pitted against the local brands from the area.

With the addition of sales force and distributors in unrepresented areas and with the satellite conversion centres, Premier expects the sales to move up with increased profitability.

B) INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY:

The Company has proper and adequate internal control systems to ensure that all assets are safeguarded and protected against loss from unauthorized use or disposition and those transactions are authorized, recorded and reported correctly.

C) FINANCIAL AND OPERATIONAL PERFORMANCE:

Please refer Board Report on performance review.

D) MATERIAL DEVELOPMENTS IN HUMAN RESOURCES / INDUSTRIAL RELATIONS FRONT:

Rubfila considers its employees as its prime assets and a vital key to success. It believes that the quality or lack of quality of the people can make or kill a company. It is committed to maintain a professional environment to nurture and enable people to grow in their careers along with the company.

The employee – employer relationship at Rubfila continues to be cordial. The company constantly strives to strengthen its human resources in alignment with the business needs and continues to engage them through various initiatives to learn and develop. Development of human resources is one among the key objectives of the company and it is keen on identifying talent, train and nurture it to manage higher responsibilities.

E) RISK MANAGEMENT

The company has set up a robust risk management framework to identify, monitor and minimize risk and also to identify business opportunities. The Audit Committee functions as the Risk Management Committee too. The Committee assists the Board in its oversight of various risks, analyse risk exposure related to specific issues and review the risk profile..

Independent Auditors' Report

To the members of Rubfila International Limited Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of Rubfila International Limited (the 'Company'), which comprise the Standalone Balance Sheet as at 31 March 2023, the Standalone Statement of Profit and Loss (including Other Comprehensive Income), the standalone statement of changes in equity and the standalone statement of cash flows for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements ("the financial statements") give the information required by the Companies Act, 2013 ('the Act') in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2023, and total comprehensive income (comprising of profit and other comprehensive income), changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143 (10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the Standalone financial statements.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors Report, Management Discussion and Analysis, and Report on Corporate Governance and Business Responsibility and Sustainability Report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express

any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

We have nothing to report in this regard.

Responsibilities of Management and those charged with governance for the standalone financial statements.

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's responsibilities for the audit of the standalone financial statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with Standards on Auditing, specified under Section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system with reference to financial statements in place and the operating effectiveness of such controls;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of Board of Directors' use of the going concern basis of accounting and,

based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation;

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

The standalone financial statements of the Company for the year ended March 31, 2023, were audited by another firm of chartered accountants under the Act who, vide their report dated May 19, 2022, expressed an unmodified opinion on those standalone financial statements.

Annexure A referred to in Paragraph 18 of the Independent Auditor's Report of even date to the members of Rubfila International Limited on the standalone financial statements for the year ended 31 March 20232

In terms of the information and explanations sought by us and given by the Company and the books of account and records examined by us in the normal course of audit, and to the best of our knowledge and belief, we report that:

- i a A The Company is maintaining proper records showing full particulars, including quantitative details and situation of its property, plant and equipment and investment property.
- B The Company has maintained proper records showing full particulars of intangible assets
- b The Company has a regular program of physical verification of its property, plant and equipment (PPE) and investment property under which the assets are physically verified in a phased manner over a period of three years by the management, which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. In accordance with this program, certain property, plant and equipment, and investment property were verified during the year and no material discrepancies were noticed on such verification
- c The title deeds of all the immovable properties classified as PPE including investment properties held by the Company (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) are held in the name of the Company except for the one mentioned in note no 2.1

Description of property	Gross carrying value	Held in name of	Whether promoter, director or their relative or employee	Period held – indicate range, where appropriate	Reason for not being held in name of company*
Property in Udumelpet	₹8.47 Lakhs	M/s.Sri Amaravati Venkatesa Paper and Boards Ltd	No	2018-2019	Title deed not issued due to unsettled liabilities of the previous owner.

- d The Company has chosen cost model for its Property, Plant and Equipment and intangible assets. Consequently, the question of our commenting on whether the revaluation is based on the valuation by a Registered Valuer, or specifying the amount of change, if the change is 10% or more in the aggregate of the net carrying value of each class of Property, Plant and Equipment or intangible assets does not arise. The Company has not revalued its property, plant and equipment or intangible assets during the year.
- e Based on the information and explanations furnished to us no proceedings have been initiated or are pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder. Accordingly, reporting under clause 3(i)(e) of the Order is not applicable to the Company.
- ii a The management has conducted physical verification of inventory at reasonable intervals during the year. In our opinion, the coverage and procedure of such verification by the management is appropriate and no discrepancies of 10% or more in the aggregate for each class of inventory were noticed.
- b The Company has no working capital loans sanctioned by banks hence the requirement of quarterly statements, are not applicable.

iii a The Company has provided inter corporate loans to the following companies during the year.

Nature of the company	Loans Granted ₹	Balance outstanding ₹
Unrelated company	Nil Lakhs	Nil
Related company not being a subsidiary. Associate or a joint venture	1,200 lakhs	2,575 Lakhs
Interest accrued on above		19.68 Lakhs

Other than this the company has not made any investments nor provide any guarantee or security during the year.

- b In our opinion, and according to the information and explanations given to us the loans given and terms and conditions of the grant of loans (including in earlier years) are, prima facie, not prejudicial to the interest of the Company.
 - c In respect of loans granted by the Company, the schedule of repayment of principal and the payment of the interest has been stipulated and the repayment/ receipt of principal and interest are regular.
 - d There is no overdue amount in respect of loan granted to such companies.
 - e No loans granted by the company has fallen due during the year.
 - f The Company has not granted any loans or advances in the nature of loans, which are repayable on demand or without specifying any terms or period of repayment.
- iv In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of Sections 185 and 186 of the Act in respect of loans, investments, guarantees and security, as applicable.
- v In our opinion, and according to the information and explanations given to us, the Company has not accepted any deposits or there is no amount which has been considered as deemed deposit within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, reporting under clause 3(v) of the Order is not applicable to the Company
- vi The Central Government has specified maintenance of cost records under sub-section (1) of Section 148 of the Act in respect of the products of the Company. We have broadly reviewed the books of account maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records and are of the opinion that, prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the cost records with a view to determine whether they are accurate or complete
- vii a In our opinion, and according to the information and explanations given to us, undisputed statutory dues including goods and services tax, provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues, as applicable, have generally been regularly deposited with the appropriate authorities by the Company, though there have been slight delays in a few cases. Further, no undisputed amounts payable in respect thereof were outstanding at the year-end for a period of more than six months from the date they became payable.
 - b According to the information and explanations given to us, there are no statutory dues referred in sub-clause (a) which have not been deposited with the appropriate authorities on account of any dispute except disputed duty drawback of Rs. 391.73 Lakhs as mentioned in note no 40.
- viii According to the information and explanations given to us, no transactions were surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961) which have not been recorded in the books of account.

- ix a The company is a zero-debt company and hence there has no defaults in repayment of loans or borrowings or in the payment of interest thereon to any lender.
- b According to the information and explanations given to us including representations received from the management of the Company, and on the basis of our audit procedures, we report that the Company has not been declared a wilful defaulter by any bank or financial institution or other lender.
- c The company has not raised any money by way of term loans during the year and hence the clause regarding utilisation of loans is not applicable.
- x a The Company has not raised any money by way of initial public offer or further public offer (including debt instruments), during the year. Accordingly, reporting under clause 3(x)(a) of the Order is not applicable to the Company.
- b According to the information and explanations given to us, the Company has not made any preferential allotment or private placement of shares or (fully, partially, or optionally) convertible debentures during the year. Accordingly, reporting under clause 3(x)(b) of the Order is not applicable to the Company.
- xi a To the best of our knowledge and according to the information and explanations given to us, no fraud by the Company or on the Company has been noticed or reported during the period covered by our audit.
- b No report under Section 143(12) of the Act has been filed with the Central Government for the period covered by our audit.
- c According to the information and explanations given to us including the representation made to us by the management of the Company, there are no whistle-blower complaints received by the Company during the year.
- xii The Company is not a Nidhi Company and the Nidhi Rules, 2014 are not applicable to it. Accordingly, reporting under clause 3(xii) of the Order is not applicable to the Company..
- xiii In our opinion and according to the information and explanations given to us, all transactions entered by the Company with the related parties are in compliance with Sections 177 and 188 of the Act, where applicable. Further, the details of such related party transactions have been disclosed in the standalone financial statements, as required under Indian Accounting Standard (Ind AS) 24, Related Party Disclosures specified in Companies (Indian Accounting Standards) Rules 2015 as prescribed under Section 133 of the Act.
- xiv a In our opinion and according to the information and explanations given to us, the Company has an internal audit system as required under Section 138 of the Act which is commensurate with the size and nature of its business.
- b We have considered the reports issued by the Internal Auditors of the Company till date for the period under audit.
- xv According to the information and explanation given to us, the Company has not entered into any non-cash transactions with its directors or persons connected with them and accordingly, provisions of Section 192 of the Act are not applicable to the Company.
- xvi The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, reporting under clause 3(xvi) of the Order is not applicable to the Company
- xvii The Company has not incurred cash losses in the current financial year or in the preceding financial years.
- xviii There has been no resignation of the statutory auditors during the year however the previous auditors have retired by rotation and in preparation of this report we have considered the report of the previous auditor.
- xix According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information

accompanying the standalone financial statements, our knowledge of the plans of the Board of Directors and management and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

- xx According to the information and explanations given to us, although the Company fulfilled the criteria as specified under Section 135(1) of the Act read with the Companies (Corporate Social Responsibility Policy) Rules, 2014.
- xxi The reporting under clause (xxi) is not applicable in respect of audit of standalone financial statements of the Company. Accordingly, no comment has been included in respect of said clause under this report.

Annexure B to The Independent Auditor's Report – 31 March 2023

Report on the Internal Financial Controls with reference to the aforesaid standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

(Referred to in paragraph (A)(f) under 'Report on Other Legal and Regulatory Requirements' section of our report of even date)

Opinion

We have audited the internal financial controls with reference to standalone financial statements of Rubfila International Limited (RIL) ("the Company") as of 31 March 2023 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to standalone financial statements and such internal financial controls were operating effectively as at 31 March 2023, based on the internal financial controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note").

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Directors are responsible for establishing and maintaining internal financial controls based on the internal controls with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013..

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with respect to standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements were established and maintained and whether such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with respect to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with respect to standalone financial statements included obtaining an understanding of internal financial controls with respect to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditors' judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to standalone financial statements.

Meaning of Internal Financial Controls with reference to Standalone Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls

with reference to Standalone Financial Statements Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Notes to Standalone Financial Statement

for the year ended 31 March 2023

1

A) General Information

Rubfila International Limited (RIL) is a public limited company domiciled in India and is incorporated under the provisions of the Companies Act applicable in India.

The company is the largest manufacturer of both Talcum Coated and Silicon Coated Heat Latex Resistant Rubber threads in India. It has adopted internationally accepted quality standards and its products are well received among customers both in India as well as around the world.

The standalone financial statements for the year ended 31 March 2023 were approved by the Board of Directors and authorized for issue on 29 May 2023.

The Company is a public limited company and is listed on the Bombay Stock Exchange (BSE). The Company has its registered office at New Industrial Development Area, Kanjikode Palakkad-678621.

B) Basis of preparation of financial statements

(i) Statement of Compliance

“These standalone financial statements (‘financial statements’) have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the ‘Ind AS’) as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 (‘Act’) read with of the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other relevant provisions of the Act and guidelines issued by the Securities and Exchange Board of India (SEBI).

The accounting policies are applied consistently to all the periods presented in the financial statements.

(ii) Basis of preparation and presentation

The principal accounting policies applied in the preparation of these financial statements are set out in Para C below. These policies have been consistently applied to all the years presented.

The financial statements have been prepared on historical cost basis considering the applicable provisions of Companies Act 2013, except for the following material item that has been measured at fair value as required by relevant IND AS. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

- a) Certain financial assets / liabilities measured at fair value and
- b) defined benefit plans - plan assets measured at fair value;

c) Any other item as specifically stated in the accounting policy.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle (not exceeding twelve months) and other criteria set out in the Schedule III to the Act.

The Financial Statement are presented in INR and all values are rounded off to Rupees Lakhs except share data and per share data unless otherwise stated.

On initial recognition, all foreign currency transactions are translated into the functional currency using the exchange rates prevailing on the date of the transaction. As at the reporting date, foreign currency monetary assets and liabilities are translated at the exchange rate prevailing on the Balance Sheet date and the exchange gains or losses are recognised in the Standalone Statement of Profit and Loss.

The company reclassifies comparative amounts, unless impracticable and whenever the company changes the presentation or classification of items in its financial statements materially. No such material reclassification has been made during the year.

(iii) Use of Estimate and judgment

In the application of accounting policy which are described in note (C) below, the management is required to make judgment, estimates and assumptions about the carrying amount of assets and liabilities, income and expenses, contingent liabilities and the accompanying disclosures that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant are prudent and reasonable. Actual results may differ from those estimates. The estimates and underlying assumptions are reviewed on ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised if the revision affects only that period or in the period of revision and future periods if the revision affects both current and future period.

The few critical estimations and judgments made in applying accounting policies are:

Property, plant and equipment:

Useful life of Property plant and equipment and intangible assets are as specified in Schedule II to the Companies Act, 2013 and on certain assets based on technical advice which considered the nature of the asset, the usage of the asset, expected physical wear and tear, the operating conditions of the asset, anticipated technological changes, manufacturers warranties and maintenance support.

Impairment of non-financial Assets:

For calculating the recoverable amount of non-financial assets, the company is required to estimate the value-in-use of the asset or the Cash Generating Unit and the fair value less costs to disposal. For calculating value in use the company is required to estimate the cash flows to be generated from using the asset..

Impairment of financial assets:

The Company measures the expected credit loss associated with its assets based on historical trend, industry practices and the business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

Defined benefit plans:

The cost of the defined benefit plan and other postemployment benefits and the present value of such obligations are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. (refer Note 35)

Recognition and measurement of provisions and contingencies

The company has estimated the timings of cash outflows, if any, in respect of the contingent liabilities pending resolution of the respective proceedings, as it is determinable only on receipt of judgements/decisions pending with various forums/authorities. (refer Note 39)

C) Summary of Significant Accounting Policies

1 Property, Plant and Equipment (PPE)

For transition to IND AS, the Company has elected to continue with the carrying value of Property, Plant and Equipment ('PPE') recognised as of the transition date(1 April 2016), measured as per the Previous GAAP and use that carrying value as its deemed cost of the PPE as on the transition date.

"Freehold land is carried at cost. All other items of property, plant and equipment are stated at cost less depreciation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Capital Work-in-progress includes expenditure incurred till the assets are put into intended use. Capital Work-in-Progress are measured at cost less accumulated impairment losses, if any."

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses except for freehold land which is not depreciated Cost includes purchase price after deducting trade discount / rebate, import duties, non-refundable taxes, cost of replacing the component parts, borrowing costs (if any) and other directly attributable cost of bringing the asset to its working condition in the manner intended by the management, and the initial estimates of the cost of dismantling /removing the item and restoring the site on which it is located.

Spare parts procured along with the Plant and Equipment or subsequently which has a useful life of more than 1 year and considering the concept of materiality evaluated by management are capitalised and added to the carrying amount of such items. The carrying amount of items of PPE and spare parts that are replaced is derecognised when no future economic benefits are expected from their use or upon disposal. Other machinery spares are treated as 'stores and spares' forming part of the inventory.

An item of PPE is derecognised on disposal or when no future economic benefits are expected from use or disposal. Any gain or loss arising on derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in Statement of Profit and Loss when asset is derecognised.

The depreciable amount of an asset is determined after deducting its residual value. Where the residual value of an asset increases to an amount equal to or greater than the asset's carrying amount, no depreciation charge is recognised till the asset's residual value decreases below the asset's carrying amount. Depreciation of an asset begins when it is available for use, i.e., when it is in the location and condition necessary for it to be capable of operating in the intended manner.

Depreciation on fixed assets is calculated on a straight-line basis using the rates arrived at based on the useful lives prescribed under the schedule II to the Companies Act, 2013 except for the list of assets mentioned in the following table, where useful life is estimated by the management, which is different as compared to those prescribed under the Schedule II to the Companies Act, 2013.

Block of Assets	Estimated life considered for depreciation in years	
	Holding Company	Subsidiary Company
Building		
- Office	58	60
- Factory	28	30
Plant and Machinery		
- Production Line	18	8
- Factory Equipment	9	8
- Lab Equipments	10	8

Depreciation on fixed assets added/disposed off during the year is provided on pro rata basis with reference to the date of addition/disposal.

Impairment:

The carrying amounts of the Company's tangible assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amounts are estimated in order to determine the extent of impairment loss. An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount. The impairment loss, if any, is recognized in the Statement of Profit and Loss in the period in which impairment takes place.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, however subject to the increased carrying amount not exceeding the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognized for the asset in prior accounting periods.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate

2 Intangible Assets

On transition to Ind AS, the company has elected to continue with the carrying value of all of intangible assets recognized as at 1st April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of intangible assets.

Cost of software is capitalized as intangible asset and amortized on a straight-line basis over the economic useful life of three years.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognized.

The residual values, useful lives and methods of amortization of intangible assets are reviewed by the management at each financial year and adjusted prospectively, if appropriate.

3 Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied

by the company, is classified as investment property. Investment property is measured at its cost, including related transaction costs and where applicable borrowing costs less depreciation and impairment if any.

The residual value and the useful life of an asset is reviewed at least at each financial year-end based on a tangible valuation and, if expectations differ from previous estimates, the change(s) is accounted for as a change in an accounting estimate in accordance with Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors.

4 Investments in subsidiaries

A subsidiary is an entity that is controlled by the Company. The Company accounts for the investments in equity shares of subsidiaries at cost in accordance with Ind AS 27- Separate Financial Statements.

5 Impairment

Impairment of non – Financial Asset

The carrying amounts of assets are reviewed at each balance sheet date for if there is any indication of impairment based on internal/external factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount the recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset. In determining net selling price, recent market transactions are considered, if available. If no such transactions can be identified, an appropriate valuation model is used. After impairment, depreciation /amortization is provided on the revised carrying amount of the asset over its remaining useful life.

Impairment of Financial Assets:

The company impairs financial assets other than those measured at fair value through profit or loss or designated at fair value through other comprehensive income on expected credit losses. The estimation of expected credit loss includes the estimation of probability of default (PD), loss given default (LGD) and the exposure at default (EAD). Estimation of probability of default apart from involving trend analysis of past delinquency rates include an estimation on forward looking information relating to not only the counterparty but also relating to the industry and the economy as a whole. The probability of default is estimated for the entire life of the contract by estimating the cash flows that are likely to be received in default scenario. The lifetime PD is reduced to 12 month PD based on an assessment of past history of default cases in 12 months. Further, the loss given default is calculated based on an estimate of the value of the security recoverable as on the reporting date. The exposure at default is the amount outstanding at the balance sheet date.

6 Inventories

Inventories are valued at the lower of cost and net realisable value item wise. Cost includes indirect cost also. Costs incurred in bringing the inventory to its present location and condition are accounted for as follows:

(i) Raw materials: Cost includes cost of purchase net of duties, taxes that are recoverable from the Government and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on FIFO basis.

(ii) Finished goods and work in progress: Cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity but excluding borrowing costs if any. Work in progress are valued considering the cost of direct materials only.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Inventory obsolescence is based on assessment of the future uses. Obsolete and slow moving items are

subjected to continuous technical monitoring and are valued at lower of cost and estimated net realizable value. When Inventories are sold, the carrying amount of those items are recognized as expenses in the period in which the related revenue is recognized.

7 Government Grants, Subsidies and Export incentives

Government Grants and subsidies are recognized when there is reasonable assurance that the company will comply with the conditions attached to them and the grants / subsidy will be received. Export benefits are accounted on receipt basis only.

Advance License

The Company had obtained 7 advance licenses (Previous year 3 Licenses) for duty free import of Raw Materials. Company has met the export obligation in full against the 3 Licences (Previous year 2 Licenses).

8 Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognised when the company has a present obligation (legal or constructive) as a result of a past event, for which it is probable that a cash outflow will be required, and a reliable estimate can be made of the amount of the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of time value of money is material). These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Contingent Liabilities are disclosed when the company has a possible obligation, or a present obligation and it is probable that an outflow of resources will not be required to settle the obligation or the amount of obligation cannot be measured with sufficient reliability. Contingent assets are not recognized in the books of account. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognised in the financial statements of the period in which the change occurs. If an inflow of economic benefits has become probable, an entity discloses the contingent asset.

9 Foreign Currency Transactions and Translations

Foreign currency transactions are recorded in the reporting currency by applying the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction; non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when such values were determined.

Exchange differences: Exchange differences arising on the settlement of monetary items or on reporting the Company's monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or as expenses in the year in which they occur. The exchange differences arising on restatement / settlement of long-term foreign currency monetary items are capitalized as part of the depreciable fixed assets to which the monetary item relates and depreciated over the remaining useful life of such assets.

10 Share Capital and Share Premium:

Ordinary shares are classified as equity, par value of the equity share is recorded as share capital and the amount received in excess of the par value is classified as share premium.

11 Dividend Distribution to equity shareholders:

The Company recognises a liability to make cash distributions to equity holders when the distribution is au-

thorized and the distribution is no longer at the discretion of the Company. A distribution is authorized when it is approved by the shareholders. A corresponding amount is recognised directly in other equity along with any tax thereon.

12 Cash Flows and Cash and Cash Equivalents

Statement of cash flows is prepared in accordance with the indirect method prescribed in the Ind AS 7. For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, cheques and drafts on hand, deposits held with Banks, other short term highly liquid investments with original maturities of 3 months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

13 Revenue Recognition

The company derives revenues primarily from sale of manufactured goods, traded goods and related services. Effective 01 April 2018, the Group has adopted Indian Accounting Standard 115 (Ind AS 115) -'Revenue from contracts with customers' using the cumulative catch-up transition method, applied to contracts that were not completed as on the transition date i.e. 01 April 2018. The effect on adoption of Ind-AS 115 was insignificant.

Revenue is recognized on satisfaction of performance obligation upon transfer of control of promised products to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

The company has a very low sales return ratio to sales and hence no provision for sales return or refund liability is recognized in the accounts for the products expected to be returned. The company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

a. Sale of Goods:

Revenue from sale of goods is recognised when is recognized at the moment when control has been transferred to the customer and is measured net of trade discounts, rebates and pricing allowances to customers.

b. Export benefits/incentives:

Export incentives under various schemes notified by the Government are recognized when confirmation of the right to receive the income is established. Receipts from government by way of Duty Draw Back is recognized only on receipt basis.

c. Other incomes:

Other incomes are recognised on accrual basis except when there are significant uncertainties. Interest income is recognised on accrual basis using effective interest rate method.

14 Employee benefits

a. Short term employee benefits

All employee benefits payable wholly within twelve months of rendering services are classified as short term employee benefits. Benefits such as salaries, wages, short-term compensated absences, performance

incentives etc., are recognised during the period in which the employee renders related services and are measured at undiscounted amount expected to be paid when the liabilities are settled.

b. Long term employee benefits:

The cost of providing long term employee benefit such as earned leave is measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period. The expected costs of the benefit are accrued over the period of employment using the same methodology as used for defined benefits post-employment plans. Actuarial gains and losses arising from the experience adjustments and changes in actuarial assumptions are charged or credited to the Statement of Profit or Loss in which they arise except those included in cost of assets as permitted. The benefit is valued annually by independent actuary.

c. Defined contribution plans.

Payments to defined contribution retirement benefit plans, viz., Provident Fund for certain eligible employees, Pension Fund and Superannuation benefits are recognised as an expense when employees have rendered the service entitling them to the contribution.

d. Defined benefit plans: gratuity.

The net present value of the obligation for gratuity benefits are determined by actuarial valuation, conducted annually using the projected unit credit method. The retirement benefit obligations recognised in the Balance Sheet represents the present value of the defined benefit obligations reduced by the fair value of plan assets.

All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefits are recognised immediately in Statement of Profit and Loss as past service cost, if any, and net interest on the defined benefit liability/(asset) are recognised in the Statement of Profit and Loss.

Remeasurements of the net defined benefit liability/ (asset) comprising actuarial gains and losses and the return on the plan assets (excluding amounts included in net interest), are recognised in Other Comprehensive Income. Such remeasurements are not reclassified to the Statement of Profit and Loss in the subsequent periods.

15 Taxation

Income tax expense represents the sum of tax currently payable and deferred tax. Tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised directly in equity or in other comprehensive income.

Current tax

Current tax includes provision for Income Tax computed under Special provision (i.e., Minimum alternate tax) or normal provision of Income Tax Act. Tax on Income for the current year is determined on the basis on estimated taxable income and tax credits computed in accordance with the provisions of the relevant tax laws and based on the expected outcome of assessments / appeals.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to

the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profit will be available.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Current and deferred tax are recognised in the Statement of Profit and Loss, except when they relate to items that are recognised in other comprehensive income or items related to equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

16 Earnings per Share

The Company presents basic and diluted earnings per share ("EPS") data for its equity shares. Basic EPS is calculated by dividing the profit and loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. Diluted EPS is determined by adjusting the profit and loss attributable to equity shareholders and the weighted average number of equity shares outstanding for the effects of all dilutive potential equity shares.

17 Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is classified as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realized within twelve months after the reporting period, or

Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

- A liability is classified as current when:
- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or

There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the company has ascertained its operating cycle as 12 months for the purpose of current – noncurrent classification of assets and liabilities.

Deferred tax assets and liabilities are classified as noncurrent assets and liabilities.

18 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly

observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the Company takes into account the characteristics of asset and liability if market participants would take those into consideration.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

19 Financial assets

A financial asset inter-alia includes any asset that is cash, equity instrument of another entity or contractual obligation to receive cash or another financial asset or to exchange financial asset or financial liability under condition that are potentially favourable to the Company.

Investments in subsidiaries

Investments in equity shares of subsidiaries are carried at cost less impairment. Impairment is provided for on the basis explained in Paragraph (5) of Note C above.

Financial assets other than above

Financial assets of the Company comprise trade receivable, cash and cash equivalents, Bank balances, loans/ advances to employee / others, security deposit, claims recoverable etc.

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in Statement of Profit and Loss.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in three categories:

- Financial assets measured at amortized cost
- Financial assets at fair value through OCI
- Financial assets at fair value through profit or loss

Financial assets measured at amortized cost

Financial assets are measured at amortized cost if the financials asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. These financial assets are amortized using the effective interest rate (EIR) method, less impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR.

Financial assets at fair value through OCI (FVTOCI)

Financial assets are measured at fair value through other comprehensive income if the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

At initial recognition, an irrevocable election is made to designate investments in equity instruments other than held for trading purpose at FVTOCI. Fair value changes are recognised in the other comprehensive

income (OCI).

Financial assets at fair value through profit or loss (FVTPL)

Any financial asset that does not meet the criteria for classification as at amortized cost or as financial assets at fair value through other comprehensive income, is classified as financial assets at fair value through profit or loss.

Derecognition

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

20 Financial liabilities

The Company's financial liabilities include trade payable, accrued expenses and other payables.

Initial recognition and measurement

All financial liabilities at initial recognition are classified as financial liabilities at amortized cost or financial liabilities at fair value through profit or loss, as appropriate. All financial liabilities are recognised initially at fair value. Any difference between the proceeds (net of transaction costs) and the fair value at initial recognition is recognised in the Statement of Profit and Loss.

Subsequent measurement

The subsequent measurement of financial liabilities depends upon the classification as described below:-

Financial Liabilities at Fair value through profit and loss (FVTPL)

FVTPL includes financial liabilities held for trading and financial liabilities designated upon initial recognition as FVTPL. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Financial liabilities have not been designated upon initial recognition at FVTPL.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged / cancelled / expired..

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

21 Inter corporate deposits.

Company had advanced Inter Corporate loans to companies on short term basis at a specific rate of interest against security. The inter corporate deposit are advanced to the unrelated companies after considering factors such as track record, size of organization, market reputation and value of the security.

22 Employee stock option scheme

Rubfila International Limited – Employee Stock Option Scheme 2017 (RUBFILA ESOS 2017) was approved by the members in their meeting held on 15th September, 2017 for granting 1500000 options to the eligible employees of the Company in one or more tranches. The company has received in-principle approval from BSE for the allotment of 1500000 equity shares of Rs.5/- under the above scheme vide its letter dt.03-07-

2018. The list of eligible employees has been approved by the company and the total options to be granted as per the list is 670000 Nos. The date of grant of options is August 1, 2018 which needs to be exercised within one year. Option granted under this RUBFILA ESOS 2017 would vest after One Year but not later than Four Years from the date of grant of such Options

23 Recent Accounting Pronouncements

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, as below.

"IndAS16–Property Plant and equipment- The amendment clarifies that excess of net sale proceeds of items produced over the cost of testing, if any, shall not be recognised in the profit or loss but deducted from the directly attributable costs considered as part of cost of an item of property, plant and equipment. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022. The Company has evaluated the amendment and there is no impact on its consolidated financial statements.

IndAS 37–Provisions, Contingent Liabilities and Contingent Assets– The amendment specifies that the 'cost of fulfilling' a contract comprises the 'costs that related directly to the contract'. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract). The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022, although early adoption is permitted. The Company has evaluated the amendment and the impact is not expected to be material.

Amendments to Ind AS 109 – Financial Instruments The amendment clarifies which fees an entity includes when it applies the '10 percent' test of Ind AS 109 in assessing whether to derecognise a financial liability. The adoption of amendments to Ind AS 109 did not have any material impact on the standalone financial statements.

24 Standards notified but not yet effective

The Ministry of Corporate Affairs has vide notification dated 31 March 2023 notified Companies (Indian Accounting Standards) Amendment Rules, 2023 (the 'Rules') which amends certain accounting standards, and are effective 1 April 2023. The Rules predominantly amend Ind AS 12, Income taxes, and Ind AS 1, Presentation of financial statements. The other amendments to Ind AS notified by these rules are primarily in the nature of clarifications.

These amendments are not expected to have a material impact on the Company in the current or future reporting periods and on foreseeable future transactions. Specifically, no changes would be necessary as a consequence of amendments made to Ind AS 12 as the Company's accounting policy already complies with the now mandatory treatment.

19.2 Provision for Tripura VAT Receivable: The amount receivable as Tripura VAT is towards the VAT refund on operations in Agartala during the financial years 2014-2017 which is still pending for assessment and release of refund. The company has provided for the entire amount receivable due to the uncertainties involved in connection with the assessment of the amount.

19.3 Provision for Contingencies: Due to the numerous uncertainties and variables associated with certain

assumptions and judgments, and the effects of changes in the regulatory and legal environment, both the precision and reliability of the resulting estimates of the related contingencies are subject to substantial uncertainties. The Company regularly monitors its estimated exposure to such loss contingencies and, as additional information becomes known, may change its estimates significantly. However, no estimate of the range of any such change can be made at this time. The company has prudently set aside an amount irrespective of the possible outcome

19.4 Provision for sales tax differential payable: Sale Tax Differential payable of Rs.0.54 Lacs represents the amounts paid by the customers in lieu of Form C (differential tax) which will be offset against any liability arising after an assessment for the year 2014-15 (VAT Authorities, Agartala) and for first three months of 2017-18 (VAT authorities, Kerala)

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

47 Capital management

The Company's objective when managing capital is to safeguard continuity, maintain a strong credit rating and healthy capital ratios in order to support its business and provide adequate return to share holders through continuing growth and maximise the share holders' value. The Company's overall strategy remains unchanged from previous year. The Company sets the amounts of capital required on the basis of annual business and long term operating plans.

48 Financial risk management

The Company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The Company's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The Company's exposure to credit risk is influenced mainly by the individual characteristic of each customer. The Company's risk management activity focuses on actively securing the Company's short to medium-term cash flows by minimising the exposure to volatile

financial markets. Long-term financial investments are managed to generate lasting returns. The Company does not actively engage in the trading of financial assets for speculative purpose nor does it write options. The most significant financial risk to which the company is exposed are described below:-

The Company has assessed market risk, credit risk and liquidity risk to its financial instruments.

1 Market Risk

Is the risk of loss of future earnings, fair values or cash flows that may result from a change in the price of a financial instrument, as a result of interest rates, foreign exchange rates and other price risks. Financial instruments affected by market risks, Primarily include loans & borrowings, investments and foreign currency receivables, payables and borrowings.

1a Interest Rate Risk

The company has not availed any loans other than for a short term inter corporate loan, hence the exposure to interest rate risk is minimal. (Previous year- Nil)

1b Currency Risk :

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company's exposure to the risk of changes in foreign exchange rates relates primarily to the purchase of materials from abroad and realization on export sales: The impact on the Companies profit before tax due to change in interest rate is given below:-

Unhedged short term exposures

₹ in Lakhs

Particulars	As at 31st March 2023	As at 31st March 2022
Trade Receivables	783.69	992.17
USD	757.13	992.01
EURO	26.56	0.14
GBP	-	0.02
Trade Payables	68.43	76.52
USD	58.99	65.73
EURO	0	1.77
GBP	9.44	9.02

The sensitivity to a 5% increase or decrease in the exchange rate against INR with all other variables held constant will be ₹35.76 Lakhs (previous year ₹45.78 Lakhs) The Sensitivity analysis is prepared on the net unhedged exposure of the company at the reporting date. The Company has not entered into any forward contracts or foreign currency hedges to mitigate the risk.

1c Price Risk

The Company is affected by the price instability of certain commodities. Due to the significantly increased volatility of certain commodities like latex, acetic acid and other chemicals, the Company closely monitors the price fluctuations to reap the price advantages.

The Company's investments in unquoted securities are susceptible to market price risk arising from uncertainties about future values of investment securities. The company manages the securities price risk through investments in debt funds /intercorporate deposits and by placing limits on individual and total investments.

1d Equity Risk

There is no equity risk relating to the Company's equity investments which are detailed in note 4 "Other investments". The Company's equity investments majorly comprises of strategic investments rather than trading purposes.

2 Credit Risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the company. The company is exposed to credit risk for receivables, cash and cash equivalents and short term loans.

Cash and cash equivalents and short-term Loans (Loans current)

The Company considers factors such as track record, size of institution, market reputation and service standard to select the banks with which deposits are maintained. Generally, the balances are maintained with the institutions with which the Company has been transacting for years. The Company has made several Intercorporate loans on security with unrelated/ related companies considering factors such as track record, size of organisation, market reputation and value of the security. The risk is mitigated by the securities and guarantees provided by the companies. Therefore, the company does not expect any material risk except for the ones mentioned in Note 38.1 on account of non-performance by any of the companies to which the loans are given.

Trade Receivables

The company is exposed to credit risk from its operating activities primarily from trade receivable amounting to ₹.4439.39 Lakhs and ₹.5305.01 Lakhs as of 31 March 2023 and 31 March 2022 respectively. The company has standard operating procedure for obtaining sufficient security where appropriate, as a means of mitigating the risk of financial loss from defaults. No customers accounted for 10% or more of revenue during the reporting periods covered. The credit quality of the company's customers is monitored on an on going basis and assessed for impairment where indicators of such impairment exist. The history of trade receivables shows a negligible provision for bad and doubtful debts. The solvency of customers and their ability to repay the receivable is considered in assessing receivables for impairment. Therefore, the Company does not expect any material risk on account of non performance by any of the Company's counterparties. Where receivables are impaired, the Company actively seeks to recover the amounts in question and enforce the compliance with credit terms.

Particulars	As at 31st March 2023	As at 31st March 2022
Balance at the beginning of the year	-	25.42
Impairment loss recognised	14.84	-
Impairment loss reversed	-	25.42
Balance at the end of the year	14.84	-

3 Liquidity Risk

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-term, medium-term and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

The Company requires funds both for short-term operational needs as well as for long-term growth projects. The Company generates sufficient cash flows from the current operations which together with the available cash and cash equivalents provide liquidity both in the short-term as well as in the long-term. The company has a current ratio of 3.91 as on 31 March 2023 (Previous year 3.65). The capital requirements for the expansion plans in Udumelpet for the year is Rs.401.87.Lakhs (Previous year Rs.2377 Lakhs) and even with that the company expects a minimal liquidity risk.

4 Interest Rate Risk

The Company is a zero-debt company as on 31 March 2023(Previous year Rs. Nil) and is not exposed to any interest rate risk of short-term or long-term borrowings. There are no foreign currency borrowings made by the company during the reporting periods. The impact on the Companies profit before tax due to change in interest rate is Nil at the close of this financial year.

5 Other Risk

Financial assets of ₹393.39 lakhs (previous year ₹1088.73 Lakhs) as at March 31, 2023 carried at amortised cost is in the form of cash and cash equivalents, bank deposits and earmarked balances with banks where the Company has assessed the counterparty credit risk. Trade receivables of ₹4439.39 lakhs as at March 31, 2023 (previous year ₹5305.01 Lakhs) forms a significant part of the financial assets carried at amortised cost which is valued considering provision for allowance using expected credit loss method. In addition to the historical pattern of credit loss, we have considered the likelihood of increased credit risk and consequential default considering situations due to post COVID-19 outbreak.

This assessment is not based on any mathematical model but an assessment considering the financial strength of the customers in respect of whom amounts are receivable. The Company is in the process of evaluating the potential impact with respect to customers in Domestic Formulation segment which could have an immediate impact. The Company closely monitors its customers who are going through financial stress and assesses actions such as change in payment terms, recognition of revenue on collection basis etc., depending on severity of each case. Based on the initial assessment, the company do not expect any abnormal credit loss though supplying to an unorganised sector. The allowance for doubtful trade receivables is Rs, 14.84l Lakhs as at March 31, 2023 (previous year NIL).

49 Events after the Reporting Period

The proposed final dividend for Financial Year 2022-23 amounting to Rs. 651.21 Lakhs (Previous year Rs.949.68 Lakhs) will be recognised as distribution to owners during the financial year 2022-23 on its approval by Shareholders. Independent Auditors' Report

To the members of Rubfila International Limited Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying consolidated financial statements of Rubfila International Limited ('the Holding Company') and its subsidiary (the Holding Company and its subsidiary together referred to as 'the Group'), which comprise the Consolidated Balance Sheet as at 31 March 2023, the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Cash Flows and the Consolidated Statement of Changes in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, as at March 31, 2023, and consolidated total comprehensive income (comprising of profit and other comprehensive income), consolidated changes in equity and its consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Consolidated

Financial Statements" section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in India in terms of the Code of Ethics issued by the Institute

of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters section below, is sufficient and appropriate to provide a basis for our opinion.

Information other than the financial statements and auditor's report thereon

The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors' report, Management Discussion and Analysis, Report on Cor-

porate Governance and Business Responsibility and Sustainability Report but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Responsibilities of Management and those charged with governance for the consolidated financial statements

The Holding Company's Board of Directors is responsible for the preparation and presentation of these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows, and changes in equity of the Group in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments

and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group are responsible for assessing the ability of the Group to continue as a going concern, disclosing, as applicable, matters related

to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are responsible for overseeing the financial reporting process of the Group.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Standards on Auditing, specified under Section 143(10) of the Act we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud

or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system with reference to financial statements in place and the operating effectiveness of such controls;
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management;
- Conclude on the appropriateness of Board of Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern;
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation;
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the Holding Company and subsidiary company included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Emphasis of Matter

The holding company has provided for contingencies to the extent of Rs, 135 Lakhs during the year and total accumulated provision of Rs.989 Lakhs as at 31 March 2023 towards liability for uncertainties in the business, regulatory and legal environment, unascertainable on the date of this report. Our opinion is not modified in respect of this matter.

Other Matter

1. The consolidated financial statements of the Company for the year ended March 31, 2022, were audited by another firm of chartered accountants under the Act who, vide their report dated May 19, 2022, expressed an unmodified opinion on those consolidated financial statements.
2. We did not audit the annual financial statements/ financial information of the subsidiary included in the Statement, whose financial information (prior to consolidation adjustments), reflects total assets of Rs.5,385.94

Annexure A to The Independent Auditor's Report – 31 March 2023

Report on the Internal Financial Controls with reference to the aforesaid consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

In conjunction with our audit of the consolidated financial statements of Rubfila International Limited ('the Holding Company') and its subsidiary (the Holding Company and its subsidiary together referred to as 'the Group'), as at and for the year ended 31 March 2023, we have audited the internal financial controls with reference to financial statements of the Holding Company, its subsidiary company, which are companies covered under the Act, as at that date.

Responsibilities of Management and those charged with governance for Internal Financial Controls

The respective Board of Directors of the Holding Company, its subsidiary company, which are companies covered under the Act, are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') issued by the Institute of Chartered Accountants of India ('the ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility for the Audit of the Internal Financial Controls with Reference to Consolidated Financial Statements

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements of the Holding Company, its subsidiary company, as aforesaid, based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the ICAI prescribed under Section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements, and the Guidance Note issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements includes obtaining an understanding of such internal financial controls, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Consolidated financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matter paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements of the Holding Company, its subsidiary company, as aforesaid.

Meaning of Internal Financial Controls with Reference to Consolidated Financial Statements

A company's internal financial controls with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to consolidated financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial

statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial controls with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and based on the consideration of the reports of the other auditors on internal financial controls with reference to consolidated financial statements of the Holding Company and its subsidiary company which are companies covered under the Act, have in all material respects, adequate internal financial controls with reference to consolidated financial statements and such controls were operating effectively as at 31 March 2023, based on the internal financial control over financial reporting criteria established by the Holding Company, its eleven subsidiary company, as aforesaid, considering the essential components of internal controls stated in the Guidance Note issued by the ICAI.

Other Matter

We did not audit the internal financial controls with reference to financial statements insofar as it relates to the annual financial statements/ financial information of the subsidiary included in the Statement, whose financial information (prior to consolidation adjustments), reflects total assets of Rs.5,385.94 Lakhs as at 31 March 2023, total revenues of Rs.8,822.53 Lakhs, total net profit after tax of Rs. 256.97 Lakhs total comprehensive income of Rs. 251.55 Lakhs, and cash flows (net) Rs. (6.72) Lakhs for the year ended on that date, as considered in the Statement. which are companies covered under the Act, whose internal financial controls with reference to financial statements have not been audited by us. The internal financial controls with reference to financial statements in so far as it relates to such subsidiary company have been audited by other auditors whose report have been furnished to us by the management and our report on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements for the Holding Company, its subsidiary company, as aforesaid, under Section 143(3)(i) of the Act in so far as it relates to the subsidiary company is based solely on the report of the auditors of such company. Our opinion is not modified in respect of this matter with respect to our reliance on the work done by and on the reports of the other auditors.

Notes to Consolidated Financial Statement

for the year ended 31 March 2023

1

A) Group Corporate Information

Rubfila International Limited (RIL) (the "Holding company") is a public limited group domiciled in India and is incorporated under the provisions of the Companies Act applicable in India. M/s Premier Tissues India Limited is the wholly owned subsidiary of the holding company. The holding company and the subsidiary company together referred as the "Group".

The holding company is the largest manufacturer of both Talcum Coated and Silicon Coated Heat Resistant Latex Rubber threads in India. It has adopted internationally accepted quality standards and its products are well received among customers both in India as well as around the world. The subsidiary company is engaged in the business of manufacturing and selling of paper tissues.

The consolidated financial statements for the year ended 31 March 2023 were approved by the Board of Directors and authorized for issue on 29 May 2023.

B) Basis of preparation of consolidated financial statements

(i) Statement of compliance

"These consolidated financial statements ('financial statements') have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ('Act') read with of the Companies (Indian Accounting Standards) Rules, 2015, as amended, and other relevant provisions of the Act and guidelines issued by the Securities and Exchange Board of India (SEBI). The accounting policies are applied consistently to all the periods presented in the financial statements."

(ii) Basis of preparation and presentation

The principal accounting policies applied in the preparation of these financial statements are set out in Para C below. These policies have been consistently applied to all the years presented.

The financial statements have been prepared on historical cost basis considering the applicable provisions of Companies Act 2013, except for the following material item that has been measured at fair value as required by relevant IND AS. Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

a) Certain financial assets / liabilities measured at fair value and

- b) Defined benefit plans - plan assets measured at fair value;
- c) Any other item as specifically stated in the accounting policy.

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle (not exceeding twelve months) and other criteria set out in the Schedule III to the Act.

The Financial Statement are presented in INR and all values are rounded off to Rupees Lakhs except share data and per share data unless otherwise stated.

On initial recognition, all foreign currency transactions are translated into the functional currency using the exchange rates prevailing on the date of the transaction. As at the reporting date, foreign currency monetary assets and liabilities are translated at the exchange rate prevailing on the Balance Sheet date and the exchange gains or losses are recognised in the consolidated Statement of Profit and Loss.

The group reclassifies comparative amounts, unless impracticable and whenever the group changes the presentation or classification of items in its financial statements materially. No such material reclassification has been made during the year.

(iii) Principles of consolidation

Subsidiaries are entities over which the Holding group has control. The Holding company controls an entity when the Holding company is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Holding company. They are deconsolidated from the date that control ceases.

The Group combines the financial statements of the Holding company and its subsidiary line by line adding together like items of assets, liabilities, equity, income and expenses. Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset.

(iv) Use of Estimate and judgment

In the application of accounting policy which are described in note (C) below, the management is required to make judgment, estimates and assumptions about the carrying amount of assets and liabilities, income and expenses, contingent liabilities and the accompanying disclosures that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant are prudent and reasonable. Actual results may differ from those estimates. The estimates and underlying assumptions are reviewed on ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised if the revision affects only that period or in the period of revision and future periods if the revision affects both current and future period.

The few critical estimations and judgments made in applying accounting policies are:

Property, plant and equipment:

Useful life of Property plant and equipment and intangible assets are as specified in Schedule II to the Companies Act, 2013 and on certain assets based on technical advice which considered the nature of the asset, the usage of the asset, expected physical wear and tear, the operating conditions of the asset, anticipated technological changes, manufacturers warranties and maintenance support.

Impairment of non-financial Assets:

For calculating the recoverable amount of non-financial assets, the group is required to estimate the value-

in-use of the asset or the Cash Generating Unit and the fair value less costs to disposal. For calculating value in use the group is required to estimate the cash flows to be generated from using the asset..

Impairment of financial assets:

The group measures the expected credit loss associated with its assets based on historical trend, industry practices and the business environment in which the entity operates or any other appropriate basis. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

Defined benefit plans:

The cost of the defined benefit plan and other postemployment benefits and the present value of such obligations are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, mortality rates and attrition rate. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date. (refer Note 46)

Recognition and measurement of provisions and contingencies

The group has estimated the timings of cash outflows, if any, in respect of the contingent liabilities pending resolution of the respective proceedings, as it is determinable only on receipt of judgements/decisions pending with various forums/authorities. (refer Note 42)

C) Summary of Significant Accounting Policies

1 Property, Plant and Equipment (PPE)

For transition to IND AS, the group has elected to continue with the carrying value of Property, Plant and Equipment ('PPE') recognised as of the transition date(1 April 2016), measured as per the Previous GAAP and use that carrying value as its deemed cost of the PPE as on the transition date.

Freehold land is carried at cost. All other items of property, plant and equipment are stated at cost less depreciation and impairment, if any. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Capital Work-in-progress includes expenditure incurred till the assets are put into intended use. Capital Work-in-Progress are measured at cost less accumulated impairment losses, if any.

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses except for freehold land which is not depreciated Cost includes purchase price after deducting trade discount / rebate, import duties, non-refundable taxes, cost of replacing the component parts, borrowing costs (if any) and other directly attributable cost of bringing the asset to its working condition in the manner intended by the management, and the initial estimates of the cost of dismantling /removing the item and restoring the site on which it is located.

Spare parts procured along with the Plant and Equipment or subsequently which has a useful life of more than 1 year and considering the concept of materiality evaluated by management are capitalised and added to the carrying amount of such items. The carrying amount of items of PPE and spare parts that are replaced is derecognised when no future economic benefits are expected from their use or upon disposal. Other machinery spares are treated as 'stores and spares' forming part of the inventory.

An item of PPE is derecognised on disposal or when no future economic benefits are expected from use or disposal. Any gain or loss arising on derecognition of an item of property, plant and equipment is determined as the difference between the net disposal proceeds and the carrying amount of the asset and is recognised in Statement of Profit and Loss when asset is derecognised.

The depreciable amount of an asset is determined after deducting its residual value. Where the residual value of an asset increases to an amount equal to or greater than the asset's carrying amount, no depreciation charge is recognised till the asset's residual value decreases below the asset's carrying amount. Depreciation of an asset begins when it is available for use, i.e., when it is in the location and condition necessary for it to be capable of operating in the intended manner.

Depreciation on fixed assets is calculated on a straight-line basis using the rates arrived at based on the useful lives prescribed under the schedule II to the Companies Act, 2013 except for the list of assets mentioned in the following table, where useful life is estimated by the management, which is different as compared to those prescribed under the Schedule II to the Companies Act, 2013.

Block of Assets	Estimated life considered for depreciation in years	
	Holding Company	Subsidiary Company
Building		
- Office	58	60
- Factory	28	30
Plant and Machinery		
- Production Line	18	20
- Factory Equipment	9	8
- Lab Equipments	10	8
- Furnitures & Fixtures		10

Depreciation on fixed assets added/disposed off during the year is provided on pro rata basis with reference to the date of addition/disposal.

Impairment:

The carrying amounts of the group's tangible assets are reviewed at each balance sheet date to determine whether there is any indication of impairment. If any such indication exists, the assets' recoverable amounts are estimated in order to determine the extent of impairment loss. An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount. The impairment loss, if any, is recognized in the Statement of Profit and Loss in the period in which impairment takes place.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, however subject to the increased carrying amount not exceeding the carrying amount that would have been determined (net of amortisation or depreciation) had no impairment loss been recognized for the asset in prior accounting periods.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate

2 Intangible Assets

On transition to Ind AS, the group has elected to continue with the carrying value of all of intangible assets

recognized as at 1st April 2016 measured as per the previous GAAP and use that carrying value as the deemed cost of intangible assets.

Cost of software is capitalized as intangible asset and amortized on a straight-line basis over the economic useful life of three years.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the Statement of Profit and Loss when the asset is derecognized.

The residual values, useful lives and methods of amortization of intangible assets are reviewed by the management at each financial year and adjusted prospectively, if appropriate.

3 Investment properties

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the group, is classified as investment property. Investment property is measured at its cost, including related transaction costs and where applicable borrowing costs less depreciation and impairment if any.

The residual value and the useful life of an asset is reviewed at least at each financial year-end based on a tangible valuation and, if expectations differ from previous estimates, the change(s) is accounted for as a change in an accounting estimate in accordance with Ind AS 8 – Accounting Policies, Changes in Accounting Estimates and Errors.

4 Investments in subsidiaries

A subsidiary is an entity that is controlled by the group. The group accounts for the investments in equity shares of subsidiaries at cost in accordance with Ind AS 27- Separate Financial Statements.

5 Impairment

Impairment of non – Financial Asset

The carrying amounts of assets are reviewed at each balance sheet date for if there is any indication of impairment based on internal/external factors. An impairment loss is recognised wherever the carrying amount of an asset exceeds its recoverable amount the recoverable amount is the greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset. In determining net selling price, recent market transactions are considered, if available. If no such transactions can be identified, an appropriate valuation model is used. After impairment, depreciation /amortization is provided on the revised carrying amount of the asset over its remaining useful life.

Impairment of Financial Assets:

The group impairs financial assets other than those measured at fair value through profit or loss or designated at fair value through other comprehensive income on expected credit losses. The estimation of expected credit loss includes the estimation of probability of default (PD), loss given default (LGD) and the exposure at default (EAD).

Estimation of probability of default apart from involving trend analysis of past delinquency rates include an estimation on forward looking information relating to not only the counterparty but also relating to the industry and the economy as a whole. The probability of default is estimated for the entire life of the contract by estimating the cash flows that are likely to be received in default scenario. The lifetime PD is reduced to 12 month PD based on an assessment of past history of default cases in 12 months. Further, the loss given default is calculated based on an estimate of the value of the security recoverable as on the reporting date.

The exposure at default is the amount outstanding at the balance sheet date.

6 Inventories

Inventories are valued at the lower of cost and net realisable value item wise. Cost includes indirect cost also. Costs incurred in bringing the inventory to its present location and condition are accounted for as follows:

(i) Raw materials: Cost includes cost of purchase net of duties, taxes that are recoverable from the Government and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on FIFO basis.

(ii) Finished goods and work in progress: Cost includes cost of direct materials and labour and a proportion of manufacturing overheads based on the normal operating capacity but excluding borrowing costs if any. Work in progress are valued considering the cost of direct materials only.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

Inventory obsolescence is based on assessment of the future uses. Obsolete and slow moving items are subjected to continuous technical monitoring and are valued at lower of cost and estimated net realizable value. When Inventories are sold, the carrying amount of those items are recognized as expenses in the period in which the related revenue is recognized.

7 Government Grants, Subsidies and Export incentives

Government Grants and subsidies are recognized when there is reasonable assurance that the group will comply with the conditions attached to them and the grants / subsidy will be received. Export benefits are accounted on receipt basis only.

Advance License

The Company had obtained 7 advance licenses (Previous year 3 Licenses) for duty free import of Raw Materials. Company has met the export obligation in full against the 3 Licences (Previous year 2 Licenses).

8 Provisions, Contingent Liabilities and Contingent Assets

Provisions are recognised when the group has a present obligation (legal or constructive) as a result of a past event, for which it is probable that a cash outflow will be required, and a reliable estimate can be made of the amount of the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, it's carrying amount is the present value of those cash flows (when the effect of time value of money is material). These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

Contingent Liabilities are disclosed when the group has a possible obligation, or a present obligation and it is probable that an outflow of resources will not be required to settle the obligation or the amount of obligation cannot be measured with sufficient reliability. Contingent assets are not recognized in the books of account. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognised in the financial statements of the period in which the change occurs. If an inflow of economic benefits has become probable, an entity discloses the contingent asset.

9 Foreign Currency Transactions and Translations

Foreign currency transactions are recorded in the reporting currency by applying the exchange rate between the reporting currency and the foreign currency at the date of the transaction. Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction; non-monetary items which are carried at fair value or other similar valuation denominated in a foreign currency are reported using the exchange rates that existed when such values were determined.

Exchange differences: Exchange differences arising on the settlement of monetary items or on reporting the group's monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or as expenses in the year in which they occur. The exchange differences arising on restatement / settlement of long-term foreign currency monetary items are capitalized as part of the depreciable fixed assets to which the monetary item relates and depreciated over the remaining useful life of such assets.

10 Share Capital and Share Premium:

Ordinary shares are classified as equity, par value of the equity share is recorded as share capital and the amount received in excess of the par value is classified as share premium.

11 Dividend Distribution to equity shareholders:

The group recognises a liability to make cash distributions to equity holders when the distribution is authorized and the distribution is no longer at the discretion of the group. A distribution is authorized when it is approved by the shareholders. A corresponding amount is recognised directly in other equity along with any tax thereon.

12 Cash Flows and Cash and Cash Equivalents

Statement of cash flows is prepared in accordance with the indirect method prescribed in the Ind AS 7. For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, cheques and drafts on hand, deposits held with Banks, other short term highly liquid investments with original maturities of 3 months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

13 Revenue Recognition

The group derives revenues primarily from sale of manufactured goods, traded goods and related services. Effective 01 April 2018, the Group has adopted Indian Accounting Standard 115 (Ind AS 115) 'Revenue from contracts with customers' using the cumulative catch-up transition method, applied to contracts that were not completed as on the transition date i.e. 01 April 2018. The effect on adoption of Ind-AS 115 was insignificant.

Revenue is recognized on satisfaction of performance obligation upon transfer of control of promised products to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services.

The group has a very low sales return ratio to sales and hence no provision for sales return or refund liability is recognized in the accounts for the products expected to be returned. The group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

a. Sale of Goods:

Revenue from sale of goods is recognised when is recognized at the moment when control has been transferred to the customer and is measured net of trade discounts, rebates and pricing allowances to customers.

b. Export benefits/incentives:

Export incentives under various schemes notified by the Government are recognized when confirmation of the right to receive the income is established. Receipts from government by way of Duty Draw Back is recognized only on receipt basis.

c. Other incomes:

Other incomes are recognised on accrual basis except when there are significant uncertainties. Interest income is recognised on accrual basis using effective interest rate method.

14 Employee benefits

a. Short term employee benefits

All employee benefits payable wholly within twelve months of rendering services are classified as short term employee benefits. Benefits such as salaries, wages, short-term compensated absences, performance incentives etc., are recognised during the period in which the employee renders related services and are measured at undiscounted amount expected to be paid when the liabilities are settled.

b. Long term employee benefits:

The cost of providing long term employee benefit such as earned leave is measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period. The expected costs of the benefit are accrued over the period of employment using the same methodology as used for defined benefits post-employment plans. Actuarial gains and losses arising from the experience adjustments and changes in actuarial assumptions are charged or credited to the Statement of Profit or Loss in which they arise except those included in cost of assets as permitted. The benefit is valued annually by independent actuary.

c. Defined contribution plans.

Payments to defined contribution retirement benefit plans, viz., Provident Fund for certain eligible employees, Pension Fund and Superannuation benefits are recognised as an expense when employees have rendered the service entitling them to the contribution.

d. Defined benefit plans: gratuity.

The net present value of the obligation for gratuity benefits are determined by actuarial valuation, conducted annually using the projected unit credit method. The retirement benefit obligations recognised in the Balance Sheet represents the present value of the defined benefit obligations reduced by the fair value of plan assets. All expenses represented by current service cost, past service cost, if any, and net interest on the defined benefits are recognised immediately in Statement of Profit and Loss as past service cost, if any, and net interest on the defined benefit liability/(asset) are recognised in the Statement of Profit and Loss.

Remeasurements of the net defined benefit liability/ (asset) comprising actuarial gains and losses and the return on the plan assets (excluding amounts included in net interest), are recognised in Other Comprehensive Income. Such remeasurements are not reclassified to the Statement of Profit and Loss in the subsequent periods.

15 Taxation

Income tax expense represents the sum of tax currently payable and deferred tax. Tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised directly in equity or in other comprehensive income.

Current tax

Current tax includes provision for Income Tax computed under Special provision (i.e., Minimum alternate

tax) or normal provision of Income Tax Act. Tax on Income for the current year is determined on the basis on estimated taxable income and tax credits computed in accordance with the provisions of the relevant tax laws and based on the expected outcome of assessments / appeals.

Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profit will be available.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Current and deferred tax are recognised in the Statement of Profit and Loss, except when they relate to items that are recognised in other comprehensive income or items related to equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

16 Earnings per Share

The group presents basic and diluted earnings per share ("EPS") data for its equity shares. Basic EPS is calculated by dividing the profit and loss attributable to equity shareholders of the group by the weighted average number of equity shares outstanding during the period. Diluted EPS is determined by adjusting the profit and loss attributable to equity shareholders and the weighted average number of equity shares outstanding for the effects of all dilutive potential equity shares.

17 Current versus non-current classification

The group presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is classified as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realized within twelve months after the reporting period, or Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

- A liability is classified as current when:
- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or

There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

All other liabilities are classified as non-current. Deferred tax assets and liabilities are classified as non-current assets and liabilities.

All assets and liabilities have been classified as current or non-current as per the group's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realization in cash and cash equivalents, the group has ascertained its operating cycle as 12 months for the purpose of current – non-current classification of assets and liabilities.

Deferred tax assets and liabilities are classified as noncurrent assets and liabilities.

18 Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the group takes into account the characteristics of asset and liability if market participants would take those into consideration.

The group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

19 Financial assets

A financial asset inter-alia includes any asset that is cash, equity instrument of another entity or contractual obligation to receive cash or another financial asset or to exchange financial asset or financial liability under condition that are potentially favourable to the group.

Investments in subsidiaries & joint ventures

Investments in equity shares of subsidiaries and joint venture are carried at cost less impairment. Impairment is provided for on the basis explained in Paragraph (5) of Note C above.

Financial assets other than above

Financial assets of the group comprise trade receivable, cash and cash equivalents, Bank balances, loans/ advances to employee / others, security deposit, claims recoverable etc.

Initial recognition and measurement

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in Statement of Profit and Loss.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in three categories:

- Financial assets measured at amortized cost
- Financial assets at fair value through OCI
- Financial assets at fair value through profit or loss

Financial assets measured at amortized cost

Financial assets are measured at amortized cost if the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. These financial assets are amortized using the effective interest rate (EIR)

method, less impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR.

Financial assets at fair value through OCI (FVTOCI)

Financial assets are measured at fair value through other comprehensive income if the financial asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. At initial recognition, an irrevocable election is made to designate investments in equity instruments other than held for trading purpose at FVTOCI. Fair value changes are recognised in the other comprehensive income (OCI).

Financial assets at fair value through profit or loss (FVTPL)

Any financial asset that does not meet the criteria for classification as at amortized cost or as financial assets at fair value through other comprehensive income, is classified as financial assets at fair value through profit or loss.

Derecognition

The group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

20 Financial liabilities

The group's financial liabilities include trade payable, accrued expenses and other payables.

Initial recognition and measurement

All financial liabilities at initial recognition are classified as financial liabilities at amortized cost or financial liabilities at fair value through profit or loss, as appropriate. All financial liabilities are recognised initially at fair value. Any difference between the proceeds (net of transaction costs) and the fair value at initial recognition is recognised in the Statement of Profit and Loss.

Subsequent measurement

The subsequent measurement of financial liabilities depends upon the classification as described below:-

Financial Liabilities at Fair value through profit and loss (FVTPL)

FVTPL includes financial liabilities held for trading and financial liabilities designated upon initial recognition as FVTPL. Financial liabilities are classified as held for trading if they are incurred for the purpose of repurchasing in the near term. Financial liabilities have not been designated upon initial recognition at FVTPL.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged / cancelled / expired..

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

21 Inter corporate deposits.

The Holding company had advanced Inter Corporate loans to companies on short term basis at a specific

rate of interest against security. The inter corporate deposit are advanced to the unrelated / unrelated companies after considering factors such as track record, size of organization, market reputation and value of the security.

22 Employee stock option scheme

Rubfila International Limited – Employee Stock Option Scheme 2017 (RUBFILA ESOS 2017) was approved by the members in their meeting held on 15th September, 2017 for granting 1500000 options to the eligible employees of the group in one or more tranches. The group has received in-principle approval from BSE for the allotment of 1500000 equity shares of Rs.5/- under the above scheme vide its letter dt.03-07-2018. The list of eligible employees has been approved by the group and the total options to be granted as per the list is 670000 Nos. The date of grant of options is August 1, 2018 which needs to be exercised within one year. Option granted under this RUBFILA ESOS 2017 would vest after one year but not later than four years from the date of grant of such options

23 Recent Accounting Pronouncements

Ministry of Corporate Affairs (“MCA”) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. On March 23, 2022, MCA amended the Companies (Indian Accounting Standards) Amendment Rules, 2022, as below.

IndAS16–Property Plant and equipment- The amendment clarifies that excess of net sale proceeds of items produced over the cost of testing, if any, shall not be recognised in the profit or loss but deducted from the directly attributable costs considered as part of cost of an item of property, plant and equipment. The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022. The Company has evaluated the amendment and there is no impact on its consolidated financial statements.

IndAS 37–Provisions, Contingent Liabilities and Contingent Assets– The amendment specifies that the ‘cost of fulfilling’ a contract comprises the ‘costs that related directly to the contract’. Costs that relate directly to a contract can either be incremental costs of fulfilling that contract (examples would be direct labour, materials) or an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract). The effective date for adoption of this amendment is annual periods beginning on or after April 1, 2022, although early adoption is permitted. The Company has evaluated the amendment and the impact is not expected to be material.

Amendments to Ind AS 109- Financial Statement

The amendment clarifies which fees an entity includes when it applies the ‘10 percent’ test of Ind AS 109 in assessing whether to derecognise a financial liability. The adoption of amendments to Ind AS 109 did not have any material impact on the standalone financial statements.

24. Standards notified but not yet effective

The Ministry of Corporate Affairs has vide notification dated 31 March, 2023 notified Companies (Indian Accounting Standards) Amendment Rules, 2023 (the Rules) which amends certain accounting standards, and are effective 1 April 2023. The Rules predominantly amend Ind AS 12, Income taxes, and Ind AS1, Presentation of financial statements . The other amendments to Ind AS notified by these rules are primarily in the nature of clarifications.

These amendments are not expected to have a material impact on the Company in the current or future reporting periods and on foreseeable future transactions. Specifically, no changes would be necessary as a consequence of amendments made to Ind AS 12 as the Company’s accounting policy already complies with the now mandatory treatment.

Level 2: The fair value of financial instruments that are not traded in an active market are determined using valuation techniques which maximize the use of observable market data. If all significant inputs required to fair value an instrument are observable, the instrument is included in Level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

52 Capital management

The groups objective when managing capital is to safeguard continuity, maintain a strong credit rating and healthy capital ratios in order to support its business and provide adequate return to share holders through continuing growth and maximise the share holders' value. The group's overall strategy remains unchanged from previous year. The group sets the amounts of capital required on the basis of annual

business and long term operating plans.

53 Financial risk management

The groups's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The group's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance. The groups' exposure to credit risk is influenced mainly by the individual characteristic of each customer. The groups's risk management activity focuses on actively securing the group's short to medium-term cash flows by minimising the exposure to volatile financial markets. Long-term financial investments are managed to generate lasting returns. The group does not actively engage in the trading of financial assets for speculative purpose nor does it write options. The most significant financial risk to which the group is exposed are described below:-

The group has assessed market risk, credit risk and liquidity risk to its financial instruments.

1 Market Risk

Is the risk of loss of future earnings, fair values or cash flows that may result from a change in the price of a financial instrument, as a result of interest rates, foreign exchange rates and other price risks. Financial instruments affected by market risks, Primarily include loans & borrowings, investments and foreign currency receivables, payables and borrowings.

1a Interest Rate Risk

The groups has not availed any loans other than for a short term inter corporate loan, hence the exposure to interest rate risk is minimal. (Previous year-Nil)

1b Currency Risk :

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The group's exposure to the risk of changes in foreign exchange rates relates primarily to the purchase of materials from abroad and realization on export sales: The impact on the group's profit before tax due to change in interest rate is given below:-

Unhedged short term exposures

Trade Payables	68.43	115.77
USD	58.99	104.98
EURO	-	1.77
GBP	9.44	9.02

The sensitivity to a 5% increase or decrease in the exchange rate against INR with all other variables held constant will be ₹35.76 Lakhs (previous year ₹45.78 Lakhs) The Sensitivity analysis is prepared on the net unhedged exposure of the group at the reporting date. The group has not

entered into any forward contracts or foreign currency hedges to mitigate the risk.

1c Price Risk

The group is affected by the price instability of certain commodities. Due to the significantly increased volatility of certain commodities like latex, acetic acid and other chemicals, the group closely monitors the price fluctuations to reap the price advantages.

The groups's investments in unquoted securities are susceptible to market price risk arising from uncertainties about future values of investment securities. The group manages the securities price risk through investments in debt funds /intercorporate deposits and by placing limits on individual and total investments.

2 Credit Risk

Credit risk refers to the risk that counterparty will default on its contractual obligations resulting in financial loss to the group. The group is exposed to credit risk for receivables, cash and cash equivalents and short term loans.

Cash and cash equivalents and short-term loans (loans current)

The group considers factors such as track record, size of institution, market reputation and service standard to select the banks with which deposits are maintained. Generally, the balances are maintained with the institutions with which the group has been transacting for years. The group has made several Intercorporate loans on security with unrelated/ related companies considering factors such as track record, size of organisation, market reputation and value of the security. The risk is mitigated by the securities and guarantees provided by the group. Therefore, the group does not expect any material risk except for the ones mentioned in Note 38.1 on account of non-performance by any of the companies to which the loans are given.

Trade Receivables

The group is exposed to credit risk from its operating activities primarily from trade receivable amounting to ₹ 4838.61 Lakhs and ₹ 5543.91 Lakhs as of 31 March 2023 and 31 March 2022 respectively. The group has standard operating procedure for obtaining sufficient security where appropriate, as a means of mitigating the risk of financial loss from defaults. No customers accounted for 10% or more of revenue during the reporting periods covered. The credit quality of the group's customers is monitored on an on going basis and assessed for impairment where indicators of such impairment exist. The history of trade receivables shows a negligible provision for bad and doubtful debts. The solvency of customers and their ability to repay the receivable is considered in assessing receivables for impairment. Therefore, the group does not expect any material risk on account of non performance by any of the group's counterparties. Where receivables are impaired, the group actively seeks to recover the amounts in question and enforce the compliance with credit terms.

Particulars	As at 31st March 2023	As at 31st March 2022
Balance at the beginning of the year	5.09	27.84
Impairment loss recognised	22.02	7.84
Impairment loss reversed	42.41	30.59
Balance at the end of the year	25.48	5.09

3 Liquidity Risk

Ultimate responsibility for liquidity risk management rests with the Board of Directors, which has established an appropriate liquidity risk management framework for the management of the group's short-term, medium-term and long-term funding and liquidity management requirements. The group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

4 Interest Rate Risk

The Company is a zero-debt company as on 31 March 2023 (Previous year Rs. Nil) and is not exposed to any interest rate risk of short-term or long-term borrowings. There are no foreign currency borrowings made by the company during the reporting periods. The impact on the Companies profit before tax due to change in interest rate is Nil at the close of this financial year.

5 Other Risk

Financial assets of ₹631.25 lakhs (previous year ₹1363.4 Lakhs) as at March 31, 2023 carried at amortised cost is in the form of cash and cash equivalents, bank deposits and earmarked balances with banks where the group has assessed the counterparty credit risk. Trade receivables of ₹4833.53 lakhs as at March 31, 2023 (previous year ₹5541.54 Lakhs) forms a significant part of the financial assets carried at amortised cost which is valued considering provision for allowance using expected credit loss method. In addition to the historical pattern of credit loss, we have considered the likelihood of increased credit risk and consequential default considering situations due to post COVID-19 outbreak.

This assessment is not based on any mathematical model but an assessment considering the financial strength of the customers in respect of whom amounts are receivable. The group is in the process of evaluating the potential impact with respect to customers in Domestic Formulation segment which could have an immediate impact. The group closely monitors its customers who are going through financial stress and assesses actions such as change in payment terms, recognition of revenue on collection basis etc., depending on severity of each case. Based on the initial assessment, the group do not expect any abnormal credit loss though supplying to an unorganised sector. The allowance for doubtful trade receivables is ₹25.48 as at March 31, 2023 (previous year Nil).

54 Events after the reporting period

The proposed final dividend for Financial Year 2022-23 amounting to ₹ 651.21 Lakhs (Previous year ₹949.68 Lakhs) will be recognised as distribution to owners during the financial year 2022-23 on its approval by Shareholders The proposed final dividend per share amounts to ₹1.20/- (Previous year ₹1.75/-)
