17. **Process and manner for Members opting for Remote e-voting and e-voting during AGM are as under:**

CDSL e-Voting System – For Remote e-voting

THE INTRUCTIONS OF SHAREHOLDERS FOR REMOTE E-VOTING:

Step 1 : Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

Step 2 : Access through CDSL e-Voting system in case of shareholders holding shares in physical mode and non-individual shareholders in demat mode.

- (i) The voting period begins on **Tuesday 24 September, 2024 at 9:00 a.m.** and ends on **Thursday 26 September, 2024 at 5:00 p.m.** During this period shareholders’ of the Company, holding shares either in physical form or in dematerialized form, as on the **cut-off date (record date) of 20 September, 2024** may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- (ii) Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- (iii) Pursuant to SEBI Circular No. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020, read with Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders’ resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

Step 1 : Access through Depositories CDSL/NSDL e-Voting system in case of individual shareholders holding shares in demat mode.

- (iv) In terms of **SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020** on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

Pursuant to abovesaid SEBI Circular, Login method for e-Voting **for Individual shareholders holding securities in Demat mode CDSL/NSDL** is given below:

#### **ITEM NO. 5 & 6**

The members of the Company at its 34th Annual General Meeting held on 28 September, 2022 had appointed M/s. V. Parekh & Associates, Chartered Accountants, (Firm Registration No. 107488W) as the Statutory Auditors of the Company to hold office from the conclusion of 34th Annual General Meeting till the conclusion of 39th Annual General Meeting of the Company.

However, M/s. V. Parekh & Associates due to their preoccupation of other assignments, vide their letter dated 12 August, 2024 have resigned as the Statutory Auditors of the Company with immediate effect which resulted into casual vacancy in the office of Statutory Auditor of the Company.

The Board of Directors at its meeting held on 12 August, 2024, on the recommendation of the Audit Committee, had considered and appointed M/s. Kapoor & Parekh Associates, Chartered Accountants, (Firm Registration No. 104803W) as Statutory Auditor of the Company in the casual vacancy caused by the resignation of M/s. V. Parekh & Associates to hold office until the conclusion of the 36th Annual General Meeting of the Company at such remuneration plus applicable taxes, and out of pocket expenses, as determined and recommended by the Audit Committee and approved by the Board of Directors of the Company. However, this appointment is subject to approval and ratification of the Members in this Annual General Meeting.

The Company has received consent letter and eligibility certificate from M/s. Kapoor & Parekh Associates, Chartered Accountants to act as Statutory Auditor of the Company along with a confirmation that, their appointment, if made, would be within the limits prescribed under the Companies Act, 2013, the Chartered Accountants Act, 1949 and rules and regulations framed thereunder.

The brief profile of the M/s. Kapoor & Parekh Associates is as follows:

Mr. S. S. Kapoor started the firm S. S. Kapoor & Co. in 1961. Thereafter in 1983, S. S. Kapoor with Nilesh Parekh established Partnership Firm Kapoor & Parekh Associates. As the firm grew, Mr. Nikhil Patel and Mr. Ankit Parekh joined the firm as Partners. The Firm is spearheaded by three Partners who all are Chartered Accountants in providing Services to the clients with highest level of quality, integrity & ethics. The firm specializes in providing various professional services in diverse areas such as Audit & Assurance, Direct Taxes and business Advisory Services.

The Audit Committee has proposed Rs. 35,00,000/- per annum to be paid as remuneration to M/s. Kapoor & Parekh Associates. (Rs. 20 Lakhs per annum was paid to M/s V. Parekh & Associates).

There is material change in fee agreed with M/s Kapoor & Parekh as compared to the erstwhile Statutory Auditors due to enhanced size of the operations of the Company, scope of services and experience, profile and caliber of the proposed Auditors. The fees is reasonable and is commensurate with the experience and scope of work.

Accordingly, the consent of the Members is sought for passing the Resolutions as set out in Item No. 5 of the Notice for appointment of M/s. Kapoor & Parekh Associates in the casual vacancy in the office of statutory auditor caused by resignation of M/s V. Parekh & Associates and payment of remuneration.

On the recommendation of the Audit Committee, the Board of Directors at its meeting held on 12 August, 2024, has also considered and recommended the appointment to the members of the Company of M/s. Kapoor & Parekh Associates, Chartered Accountants, (Firm Registration No. 104803W), who were appointed to fill casual vacancy, as Statutory Auditors of the Company to hold the office from the conclusion of the 36th Annual General Meeting till the conclusion of the 41st Annual General Meeting of the Company at such remuneration plus applicable taxes, and out of pocket expenses, as may be determined and recommended by the Audit Committee and approved by the Board of Directors of the Company.

Accordingly, consent of the Members is sought for passing the Resolutions as set out in Item No. 6 of the Notice for appointment of M/s Kapoor & Parekh Associates as Statutory Auditors from the conclusion of the 36th Annual General Meeting till the conclusion of the 41st Annual General Meeting of the Company and payment of remuneration to them.

None of the Directors, Key Managerial Personnel of the Company and/or their relatives are in any way, concerned or interested, financially or otherwise, in the aforesaid Item No.5 & 6. The Board recommends the resolutions set out at Item No. 5 & 6 of the accompanying Notice for approval of the members of the Company.

**A) CONSERVATION OF ENERGY**

**(i) the steps taken or impact on conservation of energy-Tanuku**

- 1) Replaced old damaged charcoalizer reactor with new reactor to reduce steam loss & cooling loss, useful to reduce the time cycle on which downtime reduced by 90% along with cooling & steam loss controlled.
- 2) Replacement of R-39 agitator with new one, which was rotating oblong & damaging the mechanical seal frequently, after agitator replacement 2 Lacs /Year saving accounted.
- 3) New ML storage 5 KL PP/FRP tank replaced with new tank as old tank was leaking heavily. It also consist FRP lining work & solvent loss, net saving 1 Lacs/Year.
- 4) CT-01, 02, 04 & 05 fills replacement & nozzles cleaning done for Better cooling effect, which reduced cooling tower temperature by 03 degree centigrade.
- 5) Re-boiler 14 no's tie rod replaced, 12" SS316 SCH40 methanol column continuous leaking piece changed with new one. Net saving approx 3.6 Lacs/Year.
- 6) Plant utility IR & CP air compressor servicing done for better performance, suitable air pressure & power consumption, Net saving approx-1 Lacs/Year.
- 7) Steam boiler mechanical dust collector 06 no's cone with vanes replaced to trap the ash particles, which saved boiler chimney cleaning frequency along with boiler performance, Net saving 50000 INR/Year.
- 8) Boiler ID fan casing & blower was damaged, which caused lower induced pressure & heat circulation, for that new efficient ID fan 9720 CMH blower installed.
- 9) Boiler smoke tubes replaced with new one as found frequent failures in boiler.
- 10) Various 25 NB, 40 NB existing ball valve (Steam and Steam Trap) replaced with globe valve for proper steam distribution and load stability.
- 11) 500 Kva DG set B check done with replacement of oil filter, Air filter, Diesel filter engine Oil for better performance of generator.
- 12) A block methanol column we arranged sub cooler condenser for vapor loss solvent collected per day 500 liters methanol
- 13) Utilities some lines +5 and -10 main lines damaged areas insulation work completed cooling efficiency increase
- 14) Damaged air lines changed reduce the air compressor running hours 3 hours save 50HP
- 15) Added capacitor banks for power factor improvement.
- 16) Cooling fans arranged to panels to reduce the heating in the panels so that life of equipment increases.
- 17) In chilling plant +5 two old damaged compressors are combined to one compressor and running given to plant.
- 18) At solvent tank yard MMA (mono methyl amine) FRP tank vents are connected to heat exchanger for MMA escaped gas collection purpose.
- 19) At solvent tank yard solvent tank vents are connected to heat exchangers for collection of mixed solvents.
- 20) Damaged Nitrogen lines changed in plant area to reduce the nitrogen compressor running hours 2 hours save 50HP.
- 21) Damaged AHU ductings replaced reduce power consumption.

**the steps taken or impact on conservation of energy-Patalganga**

- 1) Production Volume increased from Avg. 296 MT to 370 MT, i.e. 74 MT, ( API – 54 MT + DC 20 MT
- 2) Over All MIDC Water consumption Avg. 132 KL/day for FY 2022-23 & 145 KL/day for FY 2023-24 against 25% rise in Production.
- 3) In Vacuum Pumps Ejector Area, implemented Mech. Seal with SS316 Shaft & Sleeve in Pumps. Resulted 100% leak proof in water leakages. Area comes in MPCB Compliance mode. Also Resulted Reduction in Avg. 10 KI per day Water Consumption.
- 4) Additional Provision of Chilling Facility implemented in AHU-02, Pcf outside Area & AHU-04, Pin Mill Area to improve Working Temp.r & maintain at 25 degC. Resulted Dx Units Energy Cost Savings.
- 5) Vacuum Pump On and Off provision and cost saving ( wef Apr -23 )  
Saving will be Rs. 23.16 Lacs per Annum.
- 6) Cooling Tower cleaning frequency decreases impacted tentative cost ( wef Aug -23 ) Initially 500 TR CT Fills Cleaning carried out once in 15 days. After replacement of Fills from 12 mm Flute Size to 19 mm, Fills cleaning Frequency has been decreased from 15 days to 2 Months.  
Cost for Fills cleaning - Rs. 10000/- for Every 15 Days.  
Savings will be Rs. 1.8 Lacs per Annum.

## MANAGEMENT DISCUSSION AND ANALYSIS REPORT (MDA)

### GLOBAL INDUSTRY OVERVIEW

Growth in the global pharmaceutical market will continue to be led by the US and pharmerging markets. While new product launches, especially specialty products, will be the key growth catalyst in developed markets, pharmerging market expansion will be driven by multiple factors. The product mix in the developed world will continue to shift towards specialty and orphan products. Emerging technologies are enabling healthcare providers to innovate.

The global pharmaceutical industry is expected to grow to about US \$ 2.3 trillion by 2028 with a CAGR of 3-6% . The growth is expected to be driven by increased spending on pharma in Asia-pacific, India, Latin America and middle east, which are expected to exceed global volume growth. The growth in developed countries is expected to be lower compared to pharmerging markets. US market is expected to grow by 2.5% to 5.5% helped by increased spending on existing as well as new medicines.

#### Industry Outlook:

The industry outlook remains positive given the following:

- Increasing Per Capita Income
- Growing penetration of Health insurance
- Government thrust on improving penetration of modern medicines into rural areas and accelerating access of pharmaceutical products to the poor and low-income sections of the population.
- Increased incidence of chronic ailments.
- Changing lifestyle and consumption patterns.
- Improving healthcare awareness.

#### Company Overview:

##### (A) Active Pharmaceutical Ingredients (API) Business:

The global active pharmaceutical ingredient (API) market size was USD 196.99 billion in 2023. The market is projected to grow from USD 209.80 billion in 2024 to USD 359.12 billion by 2032 at a CAGR of 6.9% over the forecast period.

The API division of Wanbury, in FY 2024 registered growth of 18% with revenue at INR 516 Crore.

The key growth drivers were Sertraline API which witnessed a growth of 33% in Value (39% volume growth) and Metformin 11% value growth. Metformin Direct compression grade saw a growth of 17% in volume and 15% in value. The above increase was facilitated through capacity expansions via process improvement, balancing of equipments and capital investment.

Uninterrupted supply along with stable pricing of raw materials and continuous cost reduction initiatives in manufacturing, resulted in better margins during the year.

Both Sertraline and Metformin continue to do well with strong order book position with existing customers. New business developments across geographies will propel business growth.

The Company is also focusing on development of new products to reduce dependency on Metformin and Sertraline.

##### Some of the key initiatives for the API business would be as follows:

- Long term contracts with material suppliers to ensure continuous availability of raw materials.
- Yield and process improvement to reduce cost & make the business more competitive.
- Exploring opportunities of expanding its existing and new products into newer markets.
- Expanding the product portfolio in order to de-risk the dependency on key molecules. A robust product selection process and effective program management is being implemented to increase the filings of new DMFs and diversify the product basket.

**(B) Domestic Formulations Business:**

Domestic formulation business registered Annual Sales of Rs.62 Crore. The business could maintain its strong hold in cold & cough segment. The company is continuing to work towards building bigger brands by improving our sales force efficiency & building better value proposition.

During the year, management have initiated various measures to turnaround the business as below:

- Restructuring the field force through Project Alliance
- GPS reporting to improve efficiencies
- Improving product portfolio by launching newer SKU's
- Creating improved marketing impacts through better STP & field force training
- Ensuring improved & timely resource allocation

**(C) Human Resource (HR) Initiatives at Wanbury:**

The Wanbury family consists of over 1146 members spread across various geographic locations and functions. We as an HR showed a strategic and coherent approach in recruiting people, managing their talent, developing their capabilities, utilizing their capabilities and keep them engaged and motivated. We define a set of key people who support the overall business strategy. HR policies and practices are regularly compared with industry standards to ensure they are among the best in the industry.

**(D) Threats, Risk and Concern:**

As any other business, your Company is subject to various risks and threats. The key risks/ threats are as follows:

**Competition:**

Your Company operates in a highly competitive environment with pricing being one of the key determining factors of success. In the API business, your Company has been able to overcome this risk by influencing the prices as it is one of the largest manufacturer of Metformin in the world with over 10% market share. Sertraline is seeing high demand and growth especially in international markets. As a long term strategy we are also working on development of new products to reduce dependencies on existing products.

In the Formulations Business, the Company has mitigated this risk to a very large extent by diversifying its product portfolio and launching new value added products.

**Regulatory:**

Manufacturing of pharmaceutical products is highly regulated and controlled by regulatory and government authorities across the world. Failure to fully comply with such regulations, could lead to stringent actions from the authorities/ government. Regulators across the world, including the USFDA, have become stricter with the pharmaceutical industry. Regulatory requirements and consequences for non-compliance are also getting more severe.

The company has laid down policies that ensure strict compliance to all regulatory requirements. Same is being reviewed periodically to ensure that controls put in place are operating effectively.

**Going Concern**

During the year, Company has earned profit and its net-worth turned positive, however, its current liabilities exceeds its current assets. The Company has raised funds from time to time and has initiated various measures, including restructuring and realigning of debts/business. Company has received an in-principle sanction towards long term working capital requirement including capital expenditure. Consequently, in the opinion of the management, operations of the Company will continue without interruption. Hence, financial statements are prepared on a "going concern" basis.

**Foreign Exchange Fluctuations:**

As the share of exports to total sales made by your Company is considerable, same is partly hedge through natural hedging via raw material imports. Further management exercise close monitoring of currency fluctuations.

**(F) Financial Review:**

**In accordance with the SEBI (Listing Obligations and Disclosure Requirements 2018) (Amendment) Regulations, 2018, the Company is required to give details of significant changes (change of 25% or more as compared to the immediately previous financial year) in key financial ratios.**

The detailed financial & operational performance is provided on page no. 73.

**(G) Cautionary Statement:**

Statements in the “Management Discussion and Analysis” describing the Company’s objectives, estimates, expectations or projections may be “forward looking statements” within the meaning of applicable laws and regulations. Actual results may differ materially from those expressed or implied. Important factors that could make a difference to the Company’s operations; include Government regulations, patent laws, tax regimes, economic developments within India and countries in which the Company conducts business, litigation and other allied factors.

**INDEPENDENT AUDITORS' CERTIFICATE ON COMPLIANCE WITH  
THE CORPORATE GOVERNANCE REQUIREMENTS UNDER AS PER  
SEBI (LISTING OBLIGATIONS AND DISCLOSURE REQUIREMENTS) REGULATIONS, 2015**

To the Members of

**Wanbury Limited**

1. We, V. Parekh & Associates, Chartered Accountants, the statutory auditors of Wanbury Limited ("the Company") have examined the compliance of conditions of Corporate governance by the Company, for the year ended 31 March 2024, as stipulated in regulations 17 to 27 and clauses (b) to (i) of regulation 46 (2) and paragraphs C, D and E of Schedule V of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 as amended ('SEBI Listing Regulations').

**Management's Responsibility for compliance with the conditions of Listing Regulations**

2. The compliance with the terms and conditions contained in the corporate governance is the responsibility of the Management of the Company including the preparation and maintenance of all relevant supporting records and documents. This responsibility includes the design, implementation and maintenance of internal control and procedure to ensure the compliance with the conditions of the Corporate Governance stipulated in the Listing Regulations.

**Auditors' Responsibility**

3. Our responsibility is limited to examining the procedures and implementation thereof, adopted by the Company for ensuring the compliance with the conditions of Corporate Governance. It is neither an audit nor an expression of opinion on the financial statements of the Company.
4. We have examined the books of account and other relevant records and documents maintained by the Company for the purpose of providing reasonable assurance on the compliance with Corporate Governance requirements by the Company.
5. We conducted our examination of the Corporate Governance Report in accordance with the Guidance Note on Reports or Certificates for Special Purposes and the Guidance Note on Certification of Corporate Governance, both issued by the Institute of Chartered Accountants of India ("ICAI"). The Guidance Note on Reports or Certificates for Special Purposes requires that we comply with the ethical requirements of the Code of Ethics issued by the Institute of Chartered Accountants of India.
6. We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.

**Opinion**

7. In our opinion, and to the best of our information and according to explanations given to us, we certify that during the year ended 31 March 2024, the Company has complied with the conditions of Corporate Governance as stipulated in the above-mentioned Listing Regulations.
8. We state that such compliance is neither an assurance as to the future viability of the Company nor the efficiency or effectiveness with which the management has conducted the affairs of the Company.

**Independent Auditors' Report****TO THE MEMBERS OF WANBURY LIMITED****Report on Audit of Standalone Financial Statements****Opinion**

We have audited the accompanying standalone financial statements of **Wanbury Limited** ("the Company"), which comprise the Standalone Balance Sheet as at 31 March 2024, the Standalone Statement of Profit and Loss including Other Comprehensive Income, the Standalone Statement of Changes in Equity, the Standalone Cash Flow Statement for the year then ended and the Notes to the standalone financial statements, including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2024, and profit, other comprehensive income/(loss), changes in equity and its cash flows for the year ended on that date.

**Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

**Material Uncertainty Related to Going Concern:**

We draw attention to the Note no. 60 of the standalone financial statements, regarding preparation of financial statements on going concern basis. The Company's net worth turned positive. The Company has defaulted in repayment of principal and interest to some of its lenders and its current liabilities far exceeds its current assets resulting in delayed payments and overdue amounts. These conditions indicate that a material uncertainty exists that may cast significant doubt on the Company's ability to continue as a going concern. The appropriateness of the assumption of the going concern is dependent on the Company's ability to raise finance, negotiate with creditors, generate cash flows in future to meet its obligation, to restructure its borrowings and business. Hence, the standalone financial statements have been prepared on "going concern" basis for the reasons stated in aforesaid note.

Our opinion is not modified in respect of this matter.

**Emphasis of Matters**

We draw attention to the Note No. 48(a) of the standalone financial statements regarding undoing of merger of erstwhile PPIL and the accounting treatment given during the year.

Our opinion is not modified in respect of these matters.

**Key Audit Matters (To modify for any other matter, if required)**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

In addition to the matter described in the Material Uncertainty Related to Going Concern section, we have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matter	How the matter was addressed in our audit
<p><b>Assessment of Provisions and Contingent liabilities</b>            The Company undergoes assessment proceedings from time to time with direct and indirect tax authorities and with certain other parties. There is a high level of judgement required in estimating the level of provisioning and / or the disclosures required. The management's assessment is supported by advice from internal / external tax consultants and legal consultants, where considered necessary by the management. Accordingly, unexpected adverse outcomes could significantly impact the Company's reported loss and Balance Sheet position.            (Refer Note 41, 42, 43 of the standalone financial statements)            We considered the above area as a key audit matter due to associated uncertainty related to the outcome of these matters and application of material judgement in interpretation of law.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> <li>● Understanding and evaluating process and controls designed and implemented by the management including testing of relevant controls;</li> <li>● Obtaining details of the related matters, inspecting the supporting evidences and critically assessing management's evaluation through discussions with management on both the likelihood of outcome and the magnitude of potential loss;</li> <li>● Reading recent orders and / or communication received from the tax authorities and with certain other parties, and management replies to such communication;</li> <li>● Evaluating independence, objectivity and competence of the management's tax / legal consultants (internal / external);</li> <li>● Understanding the current status of the tax assessments / litigations;</li> <li>● Obtaining direct written confirmations from the Company's legal / tax consultants (internal / external) to confirm the facts and circumstances and assessment of the likely outcome.</li> <li>● Assessing the likelihood of the potential financial exposure;</li> <li>● We did not identify any material exceptions as a result of above procedures relating to management's assessment of provisions and contingent liabilities.</li> </ul>
<p><b>Appropriateness of the Expected credit loss ("ECL").</b>            To recognise ECL, the Company applies simplified approach for trade receivable which do not contain a significant financing component and general approach for corporate guarantee contracts and financial assets measured at amortised cost and FVTOCI debt instrument.            In calculating ECL, the Company has also considered credit reports and other related credit information for its customers to estimate the probability of default in future.            ECL is considered as KAM in view of significant estimates and judgements made by the management for measurement and recognition of the same.            (Refer Note 62 of the standalone financial statements)</p>	<p>Our procedures, in relation to testing of ECL, includes the following:</p> <ul style="list-style-type: none"> <li>● We have verified the calculation of ECL as estimated by the management. We have examined the methodology and the judgements/assumptions used by the management while estimating ECL.</li> </ul>

### Information Other than the Financial Statements and Auditor's Report Thereon ("Other information")

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's Annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**Management's and Board of Directors' Responsibility for the Standalone Financial Statements**

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation and presentation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income (loss), cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Ind AS prescribed under Section 133 of the Act read with relevant rules issued thereunder.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting, unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

**Auditor's Responsibilities for Audit of the Standalone Financial Statements**

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management and Board of Directors.
- Conclude on the appropriateness of management and Board of directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Report on Other Legal and Regulatory Requirements**

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of Section 143(11) of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143 (3) of the Act, we report that:
  - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
  - b. In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
  - c. The Balance Sheet, the Statement of Profit and Loss including other comprehensive income (loss), the Cash Flow Statement and the Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
  - d. In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act read with relevant rules issued thereunder;
  - e. On the basis of the written representations received from the directors as on 31 March 2024 taken on record by the Board of Directors, none of the directors are disqualified as on 31 March 2024 from being appointed as a director in terms of Section 164 (2) of the Act;
  - f. With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
  - g. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended:

In our opinion and according to the information and explanation given to us, no managerial remuneration has been paid or provided during the year. Hence, requirement of Section 197(16) of the Act are not applicable to the Company.
  - h. With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
    - i. The Company has disclosed the impact, if any, of pending litigations as at 31 March 2024, on its financial position in its standalone financial statements - Refer Note 41 to the standalone financial statements;
    - ii. The Company has not entered into any long-term contracts including derivative contracts for which there were any material foreseeable losses; and

- iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
- iv. a. The Management has represented that, to the best of it's knowledge and belief, as disclosed in the note 70 of the standalone financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- b. The Management has represented, that, to the best of it's knowledge and belief, as disclosed in the note 70 of the standalone financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
- c. Based on such audit procedures that we have considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material mis-statement.
- v. There were no amounts which were declared or paid during the year as dividend by the Company.
- vi. Based on our examination, which included test checks, the Company has used accounting software for maintaining its books of account for the financial year ended March 31, 2024 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with.

As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from April 1, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended March 31, 2024.

**ANNEXURE A TO THE INDEPENDENT AUDITOR'S REPORT**

(The Annexure referred to in para 1 under the heading "Report on Other Legal and Regulatory Requirements" of our report of even date to the Members of WANBURY LIMITED on the standalone financial statements for the year ended 31 March 2024.

1. a. A. The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment("PPE").  
B. The Company has maintained proper records showing full particulars of intangible assets.
- b. As informed to us by the management, the Company has a policy of physically verifying Property, Plant and Equipment in a phased manner over a period which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. We are informed that there were no material discrepancies noticed on such verification and the same has been properly dealt with in the books of account.
- c. According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deeds of immovable properties (other than immovable properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) disclosed in the standalone financial statements are held in the name of the Company as at the balance sheet date.
- d. During the year, the Company has not revalued its land by registered valuer.

**ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT**

(The Annexure referred to in para 2 (f) under the heading "Report on Other Legal and Regulatory Requirements" of our report of even date to the Members of **WANBURY LIMITED** on the Standalone financial statements for the year ended 31 March 2024.)

**Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls with reference to financial statements of **WANBURY LIMITED** ("the Company") as of 31 March 2024 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

**Management's Responsibility for Internal Financial Controls**

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls with reference to financial statements that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation and presentation of reliable financial information, as required under the Companies Act, 2013.

**Auditors' Responsibility**

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the above mentioned Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

**Meaning of Internal Financial Controls with reference to Financial Statements**

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

**Inherent Limitations of Internal Financial Controls with reference to Financial Statements**

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31 March 2024 based on the internal control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

## **NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**

### **1. CORPORATE INFORMATION:**

Wanbury Limited ("the Company") is a public limited company incorporated and domiciled in India.

Its shares are listed on Bombay Stock Exchange and National Stock Exchange. The Registered office of the Company is located at BSEL Tech Park, B-Wing, 10th Floor, Sector 30-A, Opp. Vashi Railway Station, Vashi, Navi Mumbai – 400 703.

The Company is engaged in the business of pharmaceutical and related activities, including research. The financial statements of the Company for the year ended 31 March 2024 are approved for issue by the Company's Board of Directors on 16 May 2024.

### **2. BASIS OF PREPARATION**

These financial statements are prepared in accordance with Indian Accounting Standard ('Ind AS'), under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values, the provisions of the Companies Act, 2013 ('the Act') (to the extent notified) and guidelines issued by the Securities and Exchange Board of India ('SEBI'). The Ind AS are prescribed under section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The material accounting policy information used in preparation of the audited financial statements have been disclosed.

### **3. FUNCTIONAL AND PRESENTATION CURRENCY**

The financial statements are presented in Indian Rupees ('INR' or 'Rupees' or 'Rs.' or '₹') which is the functional currency for the Company.

### **4. ROUNDING OFF OF AMOUNTS**

All amounts disclosed in the financial statements and notes have been rounded off to the nearest Lakh

### **5. CURRENT VERSUS NON-CURRENT CLASSIFICATION**

The assets and liabilities in the balance sheet are presented based on current/non-current classification.

#### **An asset is a current asset when it is:**

- Expected to be realized or intended to be sold or consumed in normal operating cycle, or
- Held primarily for the purpose of trading, or
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current assets.

#### **A liability is a current liability when it is:**

- Expected to be settled in normal operating cycle, or
- Held primarily for the purpose of trading, or
- Due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are treated as non-current liabilities.

Deferred tax assets and liabilities are classified as non-current assets and liabilities respectively.

#### **Operating Cycle:**

Based on the nature of products / activities of the Company and the normal time between acquisition of the assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

### **6. SIGNIFICANT ACCOUNTING POLICIES:**

#### **a. Property, plant and equipment:**

All items of Property, plant and equipment other than freehold land are carried at cost less accumulated depreciation and accumulated impairment loss, if any. Freehold land is stated at revalued amount.

Revaluation of Land is made with sufficient regularity to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the balance sheet date. When the fair value differs materially from its carrying amount, the carrying amount is adjusted to the revalued amount. The fair value is determined based on appraisal undertaken by a professionally qualified valuer.

## **NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**

Cost includes cost of acquisition, installation or construction, other direct expenses incurred to bring the assets to its working condition and finance costs incurred up to the date the asset is ready for its intended use and excludes GST eligible for credit/setoff, wherever applicable.

When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the statement of profit or loss as incurred.

Capital work-in-progress in respect of assets which are not ready for their intended use are carried at cost, comprising of direct costs, related incidental expenses and attributable interest.

All identifiable Revenue expenses including interest incurred in respect of various projects/expansion, net of income earned during the project development stage prior to its intended use, are considered pre-operative expenses and disclosed under Capital Work-in-Progress.

Capital expenditure on tangible assets for research and development is classified under property, plant and equipment and is depreciated on the same basis as other property, plant and equipment.

Property, plant and equipment are derecognised either on disposal or when retires from active use. Losses arising in the case of the retirement of property, plant and equipment and gains or losses arising from disposal of property, plant and equipment are recognised in the statement of profit and loss in the year of occurrence.

### **Depreciation & Amortisation:**

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation on the property, plant and equipment is provided based on straight line method, over the useful life of the assets as specified in Schedule II to the Companies Act, 2013. Property, plant and equipment which are added / disposed off during the year, depreciation is provided on pro-rata basis. Right-of-use assets are depreciated from the commencement date/Revaluation date on a straight-line basis over the shorter of the lease term and balance useful life of the underlying asset. Buildings constructed on leasehold land are depreciated based on the useful life specified in Schedule II to the Companies Act, 2013, where the lease period of the land is beyond the life of the building. In other cases, building constructed on leasehold lands are amortised over the primary lease period of the lands.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Advances given towards acquisition of Property, plant and equipment outstanding at Balance sheet date are disclosed as Capital Advances under "Non Current Assets - Others".

### **b. Intangible Assets:**

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the assets will flow to the Company and the cost of the assets can be measured reliably.

Intangible assets are stated at cost of acquisition less accumulated amortisation and impairment loss, if any.

Internally generated intangibles, excluding development costs as defined in Ind AS, are not capitalised and the related expenditure is reflected in statement of profit and loss in the period in which the expenditure is incurred.

Software is amortised over their estimated useful life on straight line basis from the date they are available for intended use or the period of the license as applicable, subject to impairment test.

The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates.

Gains or losses arising from derecognition of an intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the assets is derecognised

### **Research and Development:**

Revenue expenditure pertaining to research is charged to the Statement of Profit and Loss. Development costs of products are also charged to the Statement of Profit and Loss in the year it is incurred, unless a product's technological feasibility has been established, in which case such expenditure is capitalized. These costs are charged to the respective heads in the Statement of Profit and Loss in the year it is incurred. The amount capitalized comprises of expenditure that can be directly attributed or allocated on a reasonable and consistent basis for creating, producing and making the asset ready for its intended use. Property, plant and equipment and Other Intangible Assets utilized for research and development are capitalized and depreciated/ amortised in accordance with the policies stated for Property, plant and equipment and Other Intangible Assets.

**NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**
**c. Non-Current assets held for sale:**

The Company classifies non-current assets as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use and a sale is considered highly probable. Non-current assets as held for sale are measured at the lower of their carrying amount and the fair value less costs to sell. These assets are presented separately in balance sheet. Property, plant and equipment are not depreciated once classified as held for sale.

**d. Impairment of Non-Financial Assets:**

The carrying amount of Non-Financial Assets (other than inventories and deferred tax assets) / Cash Generating Units ('CGU') are reviewed at each Balance Sheet date if there is any indication of impairment based on internal / external factors. An impairment loss is recognised in the Statement of Profit and Loss wherever the carrying amount of a Non-Financial Assets /CGU exceeds its recoverable amount. The recoverable amount is greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the assets. A previously recognised impairment loss is increased or reversed depending on the changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation / amortization, if there was no impairment.

**e. Financial Instruments:**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

**Financial Assets:**
**Classification:**

The Company classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income ('FVTOCI') or fair value through profit or loss ('FVTPL'), on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

**Initial recognition and measurement:**

All financial assets (not measured subsequently at fair value through profit or loss) are recognised initially at fair value plus transaction costs that are attributable to the acquisition of the financial asset.

**Subsequent measurement:**

For the purpose of subsequent measurement, financial assets are classified in two broad categories:

- Financial assets at fair value (FVTPL/FVTOCI)
- Financial assets at amortised cost

When assets are measured at fair value, gains and losses are either recognised in the statement of profit and loss (i.e. fair value through profit or loss- FVTPL), or recognised in other comprehensive income (i.e. fair value through other comprehensive income -FVTOCI).

**Financial Assets measured at amortised cost (net of write down for impairment, if any):**

Financial assets are measured at amortised cost when asset is held within a business model, whose objective is to hold assets for collecting contractual cash flows and contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest. Such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method less impairment, if any. The losses arising from impairment are recognised in the statement of profit and loss.

**Financial assets measured at Fair value through other comprehensive income ('FVTOCI'):**

Financial assets under this category are measured initially as well as at each reporting date at fair value, when asset is held within a business model, whose objective is to hold assets for both collecting contractual cash flows and selling financial assets Fair value movements are recognised in the other comprehensive income.

**Financial assets measured at fair value through profit or loss ('FVTPL'):**

Financial assets under this category are measured initially as well as at each reporting date at fair value with all changes recognised in profit or loss. Financial assets that do not meet the amortised cost criteria or FVTOCI criteria are measured at FVTPL.

## **NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**

### **Investment in Subsidiary:**

Investment in equity instruments of subsidiaries are measured at cost as per IndAS 27. In the financial statements, investments in subsidiary companies are carried at cost. The carrying amount is reduced to recognise any impairment in the value of investment.

### **Derecognition of Financial Assets:**

A financial asset is primarily derecognised when the rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset.

### **Impairment of Financial Assets (Other than at Fair Value):**

In accordance with Ind AS 109, The Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on financial assets measured at amortised cost and FVTOCI debt instrument.

The company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables which do not contain a significant financing component.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition

### **Financial Liabilities:**

#### **Classification:**

The Company classifies all financial liabilities as subsequently measured at amortised cost or FVTPL.

#### **Initial recognition and measurement:**

All financial liabilities are recognised initially at fair value and, in the case of loans, borrowings and payables, net of directly attributable transaction costs.

Financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

#### **Subsequent measurement:**

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Interest bearing Loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate ('EIR') method. Gains and Losses are recognised in profit or loss when the liabilities are derecognised as well as through EIR amortization process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Statement of Profit & Loss.

#### **Derecognition of Financial Liabilities:**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

#### **Derivative Financial Instrument:**

Company uses derivative financial instruments, such as forward currency contracts to mitigate its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any changes therein are generally recognised in the statement of profit and loss.

#### **f. Inventories:**

Raw materials and packing materials are valued at lower of cost and net realizable value, cost of which includes duties and taxes - net of set-offable GST/Custom Duty wherever applicable. Finished products including traded goods and work-in-progress are valued at lower of cost and net realizable value. Cost is arrived on moving average basis.

The cost of inventories have been computed to include all cost of purchases, cost of conversion, standard overheads and other related cost incurred in bringing the inventories to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses necessary to make the sale.

**NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**

Slow and non-moving material, products nearing expiry, obsolesces defective inventory are fully provided for and valued at net realizable value.

Goods and materials in transit are valued at actual cost incurred up to the reporting date.

Materials and other items held for use in production of inventories are not written down, if the finished products in which they will be used are expected to be sold at or above cost.

**g. Trade Receivables :**

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognised at fair value. The Company holds the trade receivables with the objective to collect the contractual cash flows and therefore measures them subsequently at amortised cost, less loss allowance.

**h. Cash and Cash Equivalents :**

Cash and Cash Equivalents comprise of cash on hand and cash at bank including fixed deposit/highly liquid investments with original maturity period of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, as they are considered an integral part of the Company's cash management

**i. Cash Flow Statements :**

Cash flows are reported using the indirect method, whereby net profit/(loss) before tax is adjusted for the effects of transactions of a non-cash in nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flow from operating, investing and financing activities of the Company is segregated.

**j. Foreign Currency Transactions:**

Transactions denominated in foreign currencies are normally recorded at the exchange rate prevailing on the date of the transaction.

Monetary items, denominated in foreign currencies at the reporting date are re-measured at the exchange rate prevailing on the reporting date. Non-monetary foreign currency items denominated in foreign currency are carried at cost and not re-measured at the exchange rate prevailing as at reporting date.

Any income or expense on account of exchange difference either on settlement or on re-measurement is recognised in the statement of profit and loss.

**k. Revenue Recognition:**

The Company derives revenue primarily from sale of manufactured goods and traded goods

The Company applied Indian Accounting Standard 115 (Ind AS 115) –'Revenue from contracts with customers' and Revenue from the sale of goods is recognised – net of returns, discounts and rebates and taxes collected from customers – if the following conditions are met:

- The significant risks and rewards of ownership of the goods have been transferred to the buyer.
- The Company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold.
- The amount of revenue can be measured reliably.
- It is probable that the economic benefits associated with the transaction will flow to the Company.
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue is recognised on satisfaction of performance obligation upon transfer of control of promised products to customers in an amount that reflects the consideration the Company expects to receive in exchange for those products.

The transaction price is documented on the sales invoice and payment is generally due as per agreed credit terms with customer.

The Company does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money.

**NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**

A receivable is recognised when the goods are delivered as this is the point of time that the consideration is unconditional because only the passage of time is required before the payment is done.

Dividend income is recognised when right to receive dividend is established. Interest income is recognised on time proportion basis. Insurance and other claims are recognised as revenue on certainty of receipt on prudent basis.

Export benefits available under prevalent schemes are accrued in the year in which the goods are exported and there is no uncertainty in receiving the same. Export benefit receivables are carried at net realisable value.

**I. Employee Benefits :**
**(i) Short term employee benefits**

All employee benefits payable wholly within twelve months from reporting date are classified as short term employee benefits. Benefits such as salaries, wages, short-term compensated absences, performance incentives and the expected cost of bonus ex-gratia etc. are recognised during the period in which the employee renders related service.

**(ii) Defined benefit plans**
**Gratuity plan**

The Company provides for gratuity, a defined benefit retirement plan ('the Gratuity Plan') covering eligible employees. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary and the tenure of employment with the Company.

Liabilities with regard to Gratuity Plan are determined by actuarial valuation, Performed by an independent actuary, at each balance sheet date using the Projected Unit Credit Method.

The Company contributes all ascertained liabilities to the group gratuity scheme with Life Insurance Corporation of India as permitted by laws of India.

The retirement benefit obligations recognised in the balance sheet represents the present value of the defined benefit obligations reduced by the fair value of scheme assets. Any asset resulting from this calculation is limited to the present value of available refunds and reductions in future contributions to the scheme. The Company recognises the net obligation of a defined benefit plan in its balance sheet as an asset or liability. Actuarial gains and losses are recognised in full in the other comprehensive income for the period in which they occur. The effect of any plan amendments are recognised in the statement of profit and loss.

**Compensated absences**

Company has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each balance sheet date using projected unit credit method.

Liability in respect of Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised at the present value of the defined benefit obligation at the balance sheet date.

Expense on non-accumulating compensated absences is recognised in the period in which the absences occur.

**(iii) Defined contribution plans**

Contributions to defined contribution plans are recognised as expense when employees have rendered services entitling them to such benefits. The Company pays provident fund contributions to publicly administered provident funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

**m. Employees Stock Options Plans ("ESOPs") :**

Equity-settled share-based payments to employees are measured at the fair value of the equity instruments at the grant date. The fair value determined at the grant date of the equity-settled share-based payments is expensed over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. The increase in equity recognised in connection with share based payment transaction is presented as a separate component in Equity under "Employee Stock Options Outstanding Reserve". At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in the statement of profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the Employee Stock Options Outstanding Reserve. The Company recognises compensation expense relating to share-based payments in net profit using fair-value in accordance with Ind AS 102, Share-Based Payment.

## **NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**

### **n. Trade and Other Payables**

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid as per the terms agreed. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost.

### **o. Borrowings**

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

Borrowings are classified as current liabilities unless the Company has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lenders agree, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

### **p. Borrowing Costs:**

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

### **q. Lease :**

The Company lease assets primarily consists of office premises which are generally cancellable and leasehold land. The Company assesses whether a contract contains a lease at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short term leases) and leases of low value assets. For these short term and leases of low value assets, the Company recognises the lease payments as an operating expense on a straightline basis over the term of the lease.

The right-of-use assets other than leasehold land are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Leasehold land are stated at revalued amount. Right-of-use assets are depreciated from the commencement date/Revaluation date on a straight-line basis over the shorter of the lease term and balance useful life of the underlying asset. Right-of-use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable.

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.

A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The remeasurement normally also adjusts the leased assets.

Lease liability and ROU asset have been separately presented in the Balance Sheet and the lease payments have been classified as financing cash flows.

## **NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**

### **r. Government Grant**

Grants from the Government are recognised at their fair value where there is reasonable assurance that the grant will be received and the Company will comply with all the attached condition.

Export benefits available under prevalent schemes are accrued in the year in which the goods are exported and there is no uncertainty in receiving the same.

### **s. Earnings Per Share**

Basic earnings per equity share is computed by dividing the net profit/(loss) attributable to the equity holders of the company by the weighted average number of equity shares outstanding during the period [including instruments which are mandatorily convertible into equity shares of the Company (if any)]. Diluted earnings per equity share is computed by dividing the net profit/(loss) attributable to the equity holders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

### **t. Income Taxes :**

Income tax expense comprises current and deferred income tax.

#### **Current Tax**

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable or receivable in respect of prior periods. It is measured using tax rates and tax laws that have been enacted by the balance sheet date.

Current tax assets and liabilities are offset only if, the Company;

- Has a legally enforceable right to set off the recognised amounts; and
- Intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

#### **Deferred Tax**

Deferred tax is recognised in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purpose.

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized; such reductions are reversed when the probability of future taxable profits improves.

Deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Company expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognised amounts and where it intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Minimum Alternate Tax ('MAT') credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the period for which the MAT credit can be carried forward for set-off against the normal tax liability. MAT credit recognised as an asset is reviewed at each Balance Sheet date and written down to the extent the aforesaid convincing evidence no longer exists.

### **u. Provisions, contingent Liabilities, contingent assets and commitments :**

Provision (legal and constructive) are recognised when the Company has a present obligation (legal or constructive) as a result of past event and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. If effect of the time value of money is material, provisions are discounted using an appropriate discount rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Provisions (excluding retirement benefits and compensated absences) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

## **NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**

Contingent liabilities are disclosed in the Notes to the Standalone Financial Statements. Contingent liabilities are disclosed for;

- A present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- A present obligation arising from past events, when no reliable estimates is possible;
- A possible obligation arising from past events, unless the probability of outflow of resources is remote.

Contingent liabilities are not recognised but disclosed in the standalone financial statements. Contingent assets are neither recognised nor disclosed in the financial statements.

Commitments include the amount of purchase order (net of advances) issued to parties for completion of assets and Non-cancellable operating lease.

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date.

### **v. Fair value measurement:**

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date in accordance with Ind AS 113. Financial Statements have been prepared on the historical cost basis except for the following material items in the statement of financial position;

- Derivative financial instruments, if any, are measured at fair value received from Bank.
- Employee Stock Option Plan (ESOP) at fair value as per Actuarial Valuation Report.

Fair value is the price that would be received to sell an asset or settle a liability in an ordinary transaction between market participants at the measurement date.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, Company determines whether transfers have occurred between levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

### **w. Exceptional Items**

Exceptional items are disclosed separately in the financial statements where it is necessary to do so to provide further understanding of the financial performance of the Company. These are material items of income or expense that have to be shown separately due to the significance of their nature or amount.

## **7. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS:**

The preparation of standalone Company's financial statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses and the disclosure of contingent liabilities on the date of the financial statements. Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Any revision to accounting estimates is recognised prospectively in current and future periods.

**NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**
**a. Property, plant and equipment :**

Determination of the estimated useful life of tangible assets and the assessment as to which components of the cost may be capitalized. Useful life of tangible assets is based on the life prescribed in Schedule II of the Companies Act, 2013. Assumptions also need to be made, when Company assesses, whether an asset may be capitalised and which components of the cost of the asset may be capitalised.

**b. Allowance for Inventories :**

Management reviews the inventory age listing on a periodic basis. The review involves comparison of the carrying value of the aged inventory items with the respective net realizable value. The purpose is to ascertain whether an allowance is required to be made in the financial statement for any obsolete and slow-moving items. Management is satisfied that adequate allowance for obsolete and slow-moving inventories has been made in the Company's financial statements.

Management also reviews net realisable value for all its inventory and is satisfied that adequate allowance has been made in the financial statements.

**c. Intangible Assets :**

Internal technical or user team assesses the remaining useful lives of Intangible assets. Management believes that assigned useful lives are reasonable.

**d. Recognition and measurement of defined benefit obligations :**

The obligation arising from the defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation and vested future benefits and life expectancy. The discount rate is determined with reference to market yields at the end of the reporting period on the government bonds. The period to maturity of the underlying bonds correspond to the probable maturity of the post-employment benefit obligations.

**e. Recognition of deferred tax assets and income tax :**

Deferred tax asset is recognised for all the deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised. The management assumes that taxable profits will be available while recognising deferred tax assets.

Management judgment is required for the calculation of provision for income taxes and deferred tax assets and liabilities. The Company reviews at each balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome which could lead to significant adjustment to the amounts reported in the standalone financial statements.

**f. Recognition and measurement of other provisions :**

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may, therefore, vary from the figure included in other provisions.

**g. Contingencies :**

Management judgement is required for estimating the possible outflow of resources, if any, in respect of contingencies/claim/litigations against the Company as it is not possible to predict the outcome of pending matters with accuracy.

**h. Allowance for uncollected accounts receivable and advances :**

Trade receivables do not carry any interest and are stated at values as reduced by appropriate allowances for estimated irrecoverable amounts. Individual trade receivables are written off when management considers them not collectible. Impairment is made on the expected credit losses, which are the present value of the cash shortfall over the expected life of the financial assets.

The impairment provisions for financial assets are based on assumption about risk of default and expected loss rates. Judgement in making these assumptions and selecting the inputs to the impairment calculation are based on past history, existing market condition as well as forward looking estimates at the end of each reporting period.

**i. Insurance Claims :**

Insurance claims are recognised when the Company has reasonable certainty of recovery.

**j. Impairment Reviews :**

Impairment exists when the carrying value of a non-financial asset or cash generating unit ('CGU') exceeds its recoverable amount. Recoverable amount is the higher of its fair value less costs to sell and its value in use. The value in use calculation is based on a discounted cash flow model. In calculating the value in use, certain assumptions are required to be made in respect of highly uncertain matters, including management's expectations of growth in EBITDA, long term growth rates; and the selection of discount rates to reflect the risks involved.

The carrying amounts of the trade receivables include receivables which are subject to factoring arrangement. Under this arrangement, the company has transferred the relevant receivables to the “Factor” in exchange for cash and is prevented from selling or pledging the receivables. However, the Company has retained late payment and credit risk. The Company therefore continues to recognise the transferred assets in their entirety in its balance sheet. The amount repayable under the factoring agreement is presented as secured borrowing. The Company considers the held to collect business model to remain appropriate for these receivables and hence continues measuring them at amortised cost.

**The relevant carrying amount are as follows:**

Total transferred receivables	733.57	782.22

**Sensitivity Analysis**

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation.

Following is the amount of defined benefit obligation that would have been if there is a certain change in assumption as indicated below:

Particulars	(₹ in Lakhs)			
	31 March 2024		31 March 2023	
	Increase	Decrease	Increase	Decrease
Discount rate (1% movement)	1,214.96	1,415.27	964.04	1,133.58
Salary growth rate (1% movement)	1,395.18	1,228.50	1,117.90	972.54
Withdrawal rate (10% movement)	1,309.50	1,307.47	1,044.24	1,041.90

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Although the analysis does not take into account full distribution of cash flows expected under the plan, it does provide an approximation of sensitivity of assumptions. The estimate of future increase in compensation levels, considered in the actuarial valuation, have been taken on account of inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market.

The expected contribution for Defined Benefit Plan for the next financial year will be in line with current financial year.

The Average outstanding terms of obligations (years) as at valuation date is 7.96 years (Pr.Yr. 8.86 years) .

**Death Benefit:**

The Company provides for death benefit, a defined benefit plan, (the death benefit plan) to certain categories of employees. The death benefit plan provides a lump sum payment to vested employees on death, being compensation received from the insurance company and restricted to limits set forth in the said plan. The death benefit plan is non – funded.

**Leave Encashment:**

The Company's employees are entitled for compensated absences which are allowed to be accumulated and encashed as per the Company's rule. The liability of compensated absences, which is non-funded, has been provided based on report of independent actuary using the "Projected Unit Credit Method".

Accordingly aggregate of ₹ 489.78 Lakhs (Pr. Yr. ₹ 516.52 Lakhs) being liability as at the year end for compensated absences as per actuarial valuation has been provided in the accounts.

## **NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**

The Actuary has outlined the following risks associated with the plans:

### **A. Actuarial Risk:**

It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons:

**Adverse Salary Growth Experience:** Salary hikes that are higher than the assumed salary escalation will result into an increase in Obligation at a rate that is higher than expected.

#### **Variability in mortality rates:**

If actual mortality rates are higher than assumed mortality rate assumption than the Gratuity Benefits will be paid earlier than expected. Since there is no condition of vesting on the death benefit, the acceleration of cashflow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate.

If actual mortality rates are higher than assumed mortality rate assumption than the leave benefit will be paid earlier than expected. The acceleration of cashflow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate.

#### **Variability in withdrawal rates:**

If actual withdrawal rates are higher than assumed withdrawal rate assumption than the Gratuity Benefits will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.

If actual withdrawal rates are higher than assumed withdrawal rate assumption than the leave benefit will be paid earlier than expected. The impact of this will depend on the relative values of the assumed salary growth and discount rate.

#### **Variability in availment rates:**

If actual availment rates are higher than assumed availment rate assumption then leave balances will be utilised earlier than expected. This will result in reduction in leave balances and Obligation.

### **B. Investment Risk:**

For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter-valuation period.

### **C. Liquidity Risk:**

Employees with high salaries and long durations or those higher in hierarchy, accumulate significant level of benefits. If some of such employees resign/retire from the Company there can be strain on the cashflows.

### **D. Market Risk:**

Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & vice versa. This assumption depends on the yields on the corporate/government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.

### **E. Legislative Risk:**

Legislative risk is the risk of increase in the plan liabilities or reduction in the plan assets due to change in the legislation/regulation. The government may amend the Payment of Gratuity Act thus requiring the companies to pay higher benefits to the employees. This will directly affect the present value of the Defined Benefit Obligation and the same will have to be recognised immediately in the year when any such amendment is effective.

## **56. Employees Stock Options Plan ('ESOP')**

The Company has established an Employee Stock Options Plan 2016 ('WANBURY ESOP – 2016') which was approved by the shareholders vide their resolution dated 29 September 2016. The options issued under the above scheme vest in phased manner. Each option entitles an employee to subscribe to one equity share of the Company at an exercise price of ₹ 10 per share.

The options will be vested over a period of five years subject to continuous employment with the Company and the fulfillment of performance parameters.

**NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**

During the year, Company raised ₹ 9,500 Lakhs by allotment of unlisted secured redeemable non convertible debentures("NCDs"). The fund is utilised towards full repayment of existing dues.

During the year, with the approval of members by the Special resolution in the Extra Ordinary General meeting held on 18 November 2023, the Day to Day affairs committee of the Board of Directors of the Company, in its meeting held on 21 March 2024, approved the allotment of 20,00,000 convertible share warrants to promoter group company on preferential basis at issue price of ₹ 120 per warrant. Each warrant is convertible into 1 fully paid equity share of ₹ 10 each. 25% of warrant issue price has been received upfront against each warrant. 75% of issue price to be received on the exercise of conversion option attached with Warrants. All of the above 20,00,000 warrants are still outstanding for conversion into equity shares of the company.

For the purpose of the Company's capital management, the Company monitors Net Debts and Equity.

Equity includes all components of equity i.e. paid up equity capital, share premium and all other equity reserves attributable to the equity holders of the Company.

Net Debt includes all liabilities i.e. interest bearing loans and borrowings, trade payables, provisions and other liabilities less cash and cash equivalents.

Details of the Equity and Net Debts are as under:

**B. Fair Value Measurements****Fair Value Hierarchy**

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the Indian Accounting Standard. An explanation of each level is as follows:

**Level 1:** Level 1 hierarchy includes financial instruments measured using quoted prices in active markets or identical assets and liabilities.

**Level 2:** The fair value of financial instruments that are not traded in an active market (like forward contracts) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value as instrument are observable, the instrument is included in level 2.

**Level 3:** If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities etc. included in level 3.

**Valuation techniques used to determine fair value**

The fair value of the quoted investment is determined using traded quoted bid prices in an active market. The fair value of unquoted investments is determined using inputs other than quoted prices included in level 1 that are observable for assets and liabilities.

**NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**
**C. Financial Risk Management**

The Company has exposure to following risks arising from financial instruments:

- Credit Risk
  - Trade Receivables
  - Other Financial Instruments
- Liquidity Risk
- Market Risk
  - Currency Risk
  - Interest Rate Risk
  - Price Risk

**i. Risk Management Framework**

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. Management is responsible for developing and monitoring the Company's risk management policies, under the guidance of Audit Committee.

The Company's risk management policies are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligation.

The Company's Audit committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit committee.

**ii. Credit Risk**

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments.

**(a) Trade Receivables**

Customer credit risk is managed by the Company subject to Company's established policy, procedures and control relating to customer credit risk management. Trade receivables are mainly from manufacturers, non-interest bearing and are generally on 7 days to 120 days credit term. Credit limits are established for all customers based on internal rating criteria and any deviation in credit limit require approval of Directors. Outstanding customer receivables are regularly monitored. The Company has no concentration of credit risk as the customer base is widely distributed both economically and geographically.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Company does not hold collateral as security. The Company evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and operate in largely independent markets. Trade receivables do not contain any significant financing component and hence, the Company recognises life time expected credit loss based on simplified approach.

**NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024****(b) Other Financial Instruments**

The credit risk on liquid funds and derivative financial instruments is limited because the counterparties are banks or financial institutions with high credit rating assigned by credit rating agencies. For other financial assets, the Company assesses and manages the credit risk internally. The Company considers the probability of default upon initial recognition and assess whether there has been a significant increase in credit risk subsequently based in the historical losses and forward looking supportable information. Based on general approach, if there is a significant increase in credit risk of a financial asset since its initial recognition the Company recognises life time expected credit loss otherwise 12 months expected credit loss is recognised.

<b>Balance as at the end of the year</b>	<b>104.28</b>	<b>3,443.71</b>

**iii. Liquidity Risk**

Liquidity risk is the risk that the Company may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Company's objective is to maintain optimum level of liquidity at all times, to meet its cash and collateral requirements. The Company closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing including bilateral loans, debt etc. at an optimised cost. Working capital requirements are adequately addressed by internally generated and borrowed funds.

The following tables detail the Company's remaining contractual maturity for its financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows. To the extent that interest flows are at floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period.

**NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**
**iv. Market risk**

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. Financial instruments affected by market risk include loans and borrowings, deposits, investments, and derivative financial instruments.

The Company's activities expose it to a variety of financial risks, including the effects of changes in foreign currency exchange rates and interest rates. The Company uses derivative financial instruments such as foreign exchange contracts to manage its exposures to foreign exchange fluctuations. All such transactions are carried out within the guidelines set by the risk management committee.

The analysis excludes the impact of movements in market variables on the carrying value of post-employment benefit obligations, provisions and on the non financial assets and liabilities.

**(a) Currency Risk**

The Company is exposed to currency risk to the extent that there is a mismatch between the currencies in which sales, purchases and borrowings are denominated and the functional currency of the Company.

The currencies in which these transactions are primarily denominated are US dollars (US \$), Pound (GBP) and Euro.

As the share of exports to total sales made by the Company is considerable, same is partly hedge through natural hedging via raw material imports. Further management exercise close monitoring of currency fluctuations.

During the year, the Company has entered into forward exchange contract, being derivative instrument to mitigate foreign currency risk, to establish the amount of currency in India Rupees required or available at the settlement date of certain payables and receivables

Details of the forward contract outstanding at the year end are as under

Currency	Buy or Sell	Cross Currency	Amount in US \$	
US \$	Sell	INR	31 March 2024	31 March 2023
			-	10 Lakhs

**Foreign Currency Risk Exposures:**

The foreign currency exposures that have not been mitigated by a derivative instrument or otherwise are as below:

Particulars	Foreign Currency Amount in Lakhs			₹ in Lakhs	
	Currency	31 March 2024	31 March 2023	31 March 2024	31 March 2023

	US \$	23.87	32.47	1,990.85	2,668.14

**Sensitivity:**

The sensitivity of profit or loss to changes in the exchange rates arises mainly from foreign currency denominated financial instruments.

The following table details the Company's sensitivity to 1% increase and decrease in the exchange rate between the Indian Rupee and respective currencies. A positive number below indicates an increase in profit/ decrease in losses and negative number indicates decrease in profit/ increase in losses:

Particulars	1% strengthening in INR (₹ in Lakhs)		1% weakening in INR (₹ in Lakhs)

US \$	(34.12)	(18.65)	34.12	18.65

**NOTES TO THE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**
**(b) Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Majority of borrowings of the Company are at fixed interest rate and are carried at amortised cost. They are therefore not subject to interest rate risks, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

**(c) Price risk**

The Company is exposed to equity price risks arising from equity investments. However, there is no material impact of the sensitivity.

**63. Revenue (Ind AS 115)**

The operations of the Company are limited to only one segment viz. pharmaceuticals and related products. Revenue from contract with customers is from sale of manufactured/traded goods. Sale of goods are made at a point in time and revenue is recognised upon satisfaction of the performance obligations which is typically upon dispatch / delivery. The Company has a credit evaluation policy based on which the credit limits for the trade receivables are established. The credit period provided by the Company is not significant, hence there is no significant financing component.

**INDEPENDENT AUDITOR'S REPORT****TO THE MEMBERS OF WANBURY LIMITED****Report on the Audit of Consolidated Financial Statements****Opinion**

We have audited the accompanying consolidated financial statements of **WANBURY LIMITED** ("the Holding Company" or "the Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group") comprising of the Consolidated Balance Sheet as at 31 March 2024, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, the Consolidated Statement of Changes in Equity, the Consolidated Cash Flow Statement for the year then ended, and the Notes to the Consolidated financial statements, including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of other auditors on separate financial statements of such subsidiaries as were audited by other auditors, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at 31 March 2024, of the consolidated profit, other comprehensive income, consolidated changes in equity and its consolidated cash flows for the year then ended.

**Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those SAs are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report.

We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India, and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence obtained by us along with the consideration of audit reports of the other auditors referred to in sub paragraph (a) of the "Other Matters" paragraph below, is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statement.

**Material Uncertainty Related to Going Concern:**

We draw attention to the Note No. 62 of the consolidated financial statements, regarding preparation of consolidated financial statements on going concern basis. During the year the Group has earned profit and its net worth has become positive. However, the Group's current liabilities far exceeds its current assets resulting in delayed payments and overdue amounts to creditors. These conditions indicate that a material uncertainty exists that may cast significant doubt on the Group's ability to continue as a going concern. The appropriateness of the assumption of the going concern is dependent on the Group's ability to raise finance, negotiate with creditors, generate cash flows in future to meet its obligation, to restructure its borrowings and business. Hence, the consolidated financial statements have been prepared on "going concern" basis for the reasons stated in aforesaid note.

Our opinion is not modified in respect of this matter.

**Emphasis of Matters**

We draw attention to the Note No. 50(a) of the consolidated financial statements regarding undoing of merger of erstwhile PPIL and the accounting treatment given during the year.

Our opinion is not modified in respect of these matters.

## Key Audit Matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

In addition to the matter described in the Material Uncertainty Related to Going Concern section, we have determined the matters described below to be the key audit matters to be communicated in our report.

Key audit matter	How the matter was addressed in our audit
<p><b>Assessment of Provisions and Contingent liabilities</b></p> <p>The Holding Company undergoes assessment proceedings from time to time with direct and indirect tax authorities and with certain other parties. There is a high level of judgement required in estimating the level of provisioning and/ or the disclosures required. The management's assessment is supported by advice from internal / external tax consultants and legal consultants, where considered necessary by the management. **Information Other than the Financial Statements and Auditor's Report Thereon ("Other information")**

The Holding Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Holding Company's Annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed and based on the work done/audit reports of other auditors, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**Management's and Board of Directors' Responsibility for the Consolidated Financial Statements**

The Holding Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Act with respect to the preparation and presentation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income/(loss), consolidated statement of changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including the Ind AS specified under Section 133 of the Act read with relevant rules issued thereunder.

The respective Management and Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of each company and for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgements and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group are responsible for assessing the ability of each company to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group is responsible for overseeing the financial reporting process of each company.

**Auditor's Responsibilities for Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management and Board of Directors.
- Conclude on the appropriateness of management and Board of directors use of the going concern basis of accounting in preparation of consolidated financial statements and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of such entities or business activities within the Group to express an opinion on the consolidated financial statements, of which we are the independent auditors. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion. Our responsibilities in this regard are further described in sub-paragraph (a) of the "Other Matters" paragraph below.

We believe that the audit evidence obtained by us along with the consideration of audit reports of the other auditors referred to in sub-paragraph (a) of the "Other Matters" paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### **Other Matters**

We did not audit the financial statements of three subsidiaries whose financial statements reflect total assets (before consolidation adjustments) of Rs. Nil as at 31 March 2024, total revenues (before consolidation adjustments) of Rs Nil, net profit after tax (before consolidation adjustments) of Rs. 2,555.68 Lakhs and net cash outflows amounting to Rs. 3.87 Lakhs for the year ended on that date, as considered in the consolidated financial statements. These financial statements have been audited by other auditors whose reports have been furnished to us by the management and our opinion on the consolidated financial statements in so far as it relates to the amounts and disclosures included in respect of these subsidiaries, and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid subsidiary is based solely on the audit reports of the other auditors.

Our opinion is not modified in respect of these matters.

### Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the order") issued by the Central Government of India in terms of section 143 (11) of the Act, we give in the "Annexure A" a statement of the matters specified in paragraph 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143 (3) of the Act, based on our audit and on the consideration of reports of the other auditors on separate financial statements of such subsidiary as was audited by other auditors, as noted in the "Other Matters" paragraph, we report, to the extent applicable, that:
  - a. We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
  - b. In our opinion, proper books of account as required by law relating to preparation of the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books and the reports of the other auditors.
  - c. The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, the Consolidated Statement of Changes in Equity and the Consolidated Cash Flow Statement dealt with by this report are in agreement with the relevant books of account maintained for the purpose of preparation of the consolidated financial statements.
  - d. In our opinion, the aforesaid consolidated financial statements comply with the Ind AS prescribed under Section 133 of the Act read with relevant rules issued thereunder.
  - e. On the basis of the written representations received from the directors of the Holding Company as on 31 March 2024 taken on record by the Board of Directors of the Holding Company, none of the directors of the Holding company are disqualified as on 31 March 2024 from being appointed as a director in terms of Section 164 (2) of the Act.
  - f. With respect to the adequacy of the internal financial controls with reference to Consolidated financial statements of the Holding Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".
  - g. With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of Section 197(16) of the Act, as amended:
 

In our opinion and according to the information and explanation given to us, no managerial remuneration has been paid or provided during the year. Hence, requirement of Section 197(16) of the Act are not applicable to the Group.
3. with respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors on separate financial statements of the subsidiaries as noted in the "Other Matters" paragraph:
  - i. The consolidated financial statements disclose the impact of pending litigations as at 31 March 2024 on the consolidated financial position of the Group - Refer Note 44 to the consolidated financial statements;
  - ii. The Group has not entered into any long-term contracts including derivative contracts for which there were any material foreseeable losses; and
  - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Holding Company.
  - iv.
    - a. The Management has represented that, to the best of its knowledge and belief, as disclosed in the note 72 of the consolidated financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

- b. The Management has represented, that, to the best of its knowledge and belief, as disclosed in the note 72 of the consolidated financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
- c. Based on such audit procedures that we have considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material mis-statement.
- v. There were no amounts which were declared or paid during the year as dividend by the Holding Company.
- vi. Based on our examination which included test checks, performed by us on the Holding Company and its subsidiaries, have used accounting software for maintaining their respective books of account for the financial year ended March 31, 2024 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of audit, we have not come across any instance of the audit trail feature being tampered with.

As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from April 1, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended March 31, 2024.

## **ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT**

(The Annexure referred to in para 1 (f) under the heading "Report on Other Legal and Regulatory Requirements" of our report of even date to the Members of **WANBURY LIMITED** on the consolidated financial statements for the year ended 31 March 2024.)

### **Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

In conjunction with our audit of the consolidated financial statements of the Group as of and for the year ended 31 March 2024, we have audited the internal financial controls with reference to financial statements of the Holding Company as of that date.

#### **Management's Responsibility for Internal Financial Controls**

Board of Directors of the Holding Company is responsible for establishing and maintaining internal financial controls based on the internal control with reference to financial statements criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls with reference to financial statements that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation and presentation of reliable financial information, as required under the Companies Act, 2013.

#### **Auditor's Responsibility**

Our responsibility is to express an opinion on the Holding Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI and the Standards on Auditing, prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the above mentioned Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company's internal financial controls system with reference to financial statements.

#### **Meaning of Internal Financial Controls with reference to Financial Statements**

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

#### **Inherent Limitations of Internal Financial Controls with reference to Financial Statements**

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future

periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

**Opinion**

In our opinion and to the best of our information and according to the explanations given to us, the Holding Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31 March 2024, based on the internal control with reference to financial statements criteria established by the Holding Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the ICAI.

**Other Matters**

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements is restricted to the Holding Company since all the subsidiaries of the Group are foreign subsidiaries, which are not subject to the report on the Internal Financial Controls.

## **NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**

### **1. CORPORATE INFORMATION:**

Wanbury Limited ("The Holding Company" or "the Company") is a public limited company incorporated and domiciled in India.

Its shares are listed on Bombay Stock Exchange and National Stock Exchange. The Registered office of the Company is located at BSEL Tech Park, B-Wing, 10th Floor, Sector 30-A, Opp. Vashi Railway Station, Vashi, Navi Mumbai – 400 703.

The Consolidated Financial Statement ("CFS") comprises the Holding Company and its Subsidiaries (referred to collectively as "The Group").

The Holding Company is engaged in the business of pharmaceutical and related activities, including research. The Consolidated Financial Statements of the Group for the year ended 31 March 2024 are approved for issue by Holding Company's Board of Directors on 16 May 2024.

### **2. BASIS OF PREPARATION:**

These Financial Statements are prepared in accordance with Indian Accounting Standards ('Ind AS'), under the historical cost convention on the accrual basis except for certain financial instruments which are measured at fair values, the provisions of the Companies Act, 2013 ('the Act') (to the extent notified) and guidelines issued by the Securities and Exchange Board of India ('SEBI'). The Ind AS are prescribed under section 133 of the Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and relevant amendment rules issued thereafter.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use. The material accounting policy information used in preparation of the audited financial statements have been disclosed.

### **3. PRINCIPLES OF CONSOLIDATION**

The Consolidated Financial Statements comprises the financial statement of the Holding Company and its Subsidiaries. The Financial Statements of the Holding Company and its Subsidiaries have been consolidated on line by line basis by adding together the book value of like items of assets, liabilities, income and expenses, after fully eliminating intra-group transactions, intra-group balances and unrealized losses resulting there from and are presented to the extent possible, in the same manner as the Group's independent financial statements. The statement of profit and loss and each component of other comprehensive income are attributed to the equity holders of the Holding Company of the Group.

The Financial Statement of the Holding Company and its Subsidiaries have been consolidated using uniform accounting policies for like transactions and other events in similar circumstances. When necessary, adjustments are made to the financials statements of Subsidiaries to bring their accounting policies into line with the Groups accounting policies.

The financial statements of the Subsidiaries used in consolidation are drawn up to the same reporting date as that of the Holding Company's i.e., year ended 31 March 2024.

### **4. FUNCTIONAL AND PRESENTATION CURRENCY:**

Functional currencies of Subsidiary companies are the respective local currencies. The financial statements are presented in Indian Rupees ('INR' or 'Rupees' or 'Rs.' or '₹') which is the functional currency of the Holding Company.

### **5. ROUNDING OFF OF AMOUNTS**

All amounts disclosed in the financial statements and notes have been rounded off to the nearest lakh.

### **6. CURRENT VERSUS NON-CURRENT CLASSIFICATION**

The assets and liabilities in the balance sheet are presented based on current/non-current classification.

#### **An asset is a current asset when it is:**

- Expected to be realized or intended to be sold or consumed in normal operating cycle, or
- Held primarily for the purpose of trading, or
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current assets.

#### **A liability is a current liability when it is:**

- Expected to be settled in normal operating cycle, or
- Held primarily for the purpose of trading, or
- Due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

## **NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**

All other liabilities are treated as non-current liabilities.

Deferred tax assets and liabilities are classified as non-current assets and liabilities respectively.

### **Operating Cycle:**

Based on the nature of products / activities of the Group and the normal time between acquisition of the assets and their realisation in cash or cash equivalents, the Group has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non-current.

## **7. SIGNIFICANT ACCOUNTING POLICIES:**

### **a. Property, plant and equipment :**

All items of Property, plant and equipment other than freehold land are carried at cost less accumulated depreciation and accumulated impairment loss, if any. Freehold Land is stated at revalued amount.

Revaluation of Land is made with sufficient regularity to ensure that the carrying amount does not differ materially from that which would be determined using fair value at the balance sheet date. When the fair value differs materially from its carrying amount, the carrying amount is adjusted to the revalued amount. The fair value is determined based on appraisal undertaken by a professionally qualified valuer.

Cost includes cost of acquisition, installation or construction, other direct expenses incurred to bring the assets to its working condition and finance costs incurred up to the date the asset is ready for its intended use and excludes GST eligible for credit/setoff, wherever applicable.

When significant parts of plant and equipment are required to be replaced at intervals, the Group depreciates them separately based on their specific useful lives. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the statement of profit or loss as incurred.

Capital work-in-progress in respect of assets which are not ready for their intended use are carried at cost, comprising of direct costs, related incidental expenses and attributable interest.

All identifiable Revenue expenses including interest incurred in respect of various projects/expansion, net of income earned during the project development stage prior to its intended use, are considered pre-operative expenses and disclosed under Capital Work-in-Progress.

Capital expenditure on tangible assets for research and development is classified under property, plant and equipment and is depreciated on the same basis as other property, plant and equipment.

Property, plant and equipment are derecognised either on disposal or when retired from active use. Losses arising in the case of the retirement of property, plant and equipment and gains or losses arising from disposal of property, plant and equipment are recognised in the statement of profit and loss in the year of occurrence.

### **Depreciation & Amortisation**

Depreciable amount for assets is the cost of an asset, or other amount substituted for cost, less its estimated residual value. Depreciation on the property, plant and equipment is provided based on straight line method, over the useful life of the assets as specified in Schedule II to the Companies Act, 2013. Property, plant and equipment which are added / disposed off during the year, depreciation is provided on pro-rata basis. Right-of-use assets are depreciated from the commencement date / Revaluation date on a straight-line basis over the shorter of the lease term and balance useful life of the underlying asset. Buildings constructed on leasehold land are depreciated based on the useful life specified in Schedule II to the Companies Act, 2013, where the lease period of the land is beyond the life of the building. In other cases, building constructed on leasehold lands are amortised over the primary lease period of the lands.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Advances given towards acquisition of Property, plant and equipment outstanding at Balance sheet date are disclosed as Capital Advances under "Non Current Assets - Others".

### **b. Intangible Assets :**

Intangible assets are recognised when it is probable that the future economic benefits that are attributable to the assets will flow to the Group and the cost of the assets can be measured reliably.

Intangible assets are stated at cost of acquisition less accumulated amortisation and impairment loss, if any.

## **NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**

Internally generated intangibles, excluding development costs as defined in IndAS, are not capitalised and the related expenditure is reflected in statement of profit or loss in the period in which the expenditure is incurred.

Software is amortised over their estimated useful life on straight line basis from the date they are available for intended use or the period of the license as applicable, subject to impairment test.

The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates.

Gains or losses arising from derecognition of an intangible assets are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit and loss when the assets is derecognised.

### **Research and Development**

Revenue expenditure pertaining to research is charged to the Consolidated Statement of Profit and Loss. Development costs of products are also charged to the Consolidated Statement of Profit and Loss in the year it is incurred, unless a product's technological feasibility has been established, in which case such expenditure is capitalized. These costs are charged to the respective heads in the Consolidated Statement of Profit and Loss in the year it is incurred. The amount capitalized comprises of expenditure that can be directly attributed or allocated on a reasonable and consistent basis for creating, producing and making the asset ready for its intended use. Property, plant and equipment and Other Intangible Assets utilized for research and development are capitalized and depreciated / amortised in accordance with the policies stated for Property, plant and equipment and Other Intangible Assets.

#### **c. Non-Current assets held for sale :**

The Group classifies non-current assets as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use and a sale is considered highly probable. Non-current assets as held for sale are measured at the lower of their carrying amount and the fair value less costs to sell. These assets are presented separately in balance sheet. Property, plant and equipment are not depreciated once classified as held for sale.

#### **d. Impairment of non-financial assets :**

The carrying amount of Non-Financial Assets (other than inventories and deferred tax assets)/ Cash Generating Units ('CGU') are reviewed at each Balance Sheet date if there is any indication of impairment based on internal / external factors. An impairment loss is recognized in the Consolidated Statement of Profit and Loss wherever the carrying amount of a Non-Financial Assets / CGU exceeds its recoverable amount. The recoverable amount is greater of the asset's net selling price and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the assets. A previously recognised impairment loss is increased or reversed depending on the changes in circumstances. However, the carrying value after reversal is not increased beyond the carrying value that would have prevailed by charging usual depreciation / amortisation if there was no impairment.

#### **e. Financial Instruments :**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

### **Financial Assets:**

#### **Classification:**

The Group classifies financial assets as subsequently measured at amortised cost, fair value through other comprehensive income ('FVTOCI') or fair value through profit or loss ('FVTPL'), on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

#### **Initial recognition and measurement:**

All financial assets (not measured subsequently at fair value through profit or loss) are recognised initially at fair value plus transaction costs that are attributable to the acquisition of the financial asset.

#### **Subsequent measurement:**

For the purpose of subsequent measurement, financial assets are classified in two broad categories:

- Financial assets at fair value (FVTPL/FVTOCI)
- Financial assets at amortised cost

## **NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**

When assets are measured at fair value, gains and losses are either recognised in the consolidated statement of profit and loss (i.e. fair value through profit or loss- FVTPL), or recognised in other comprehensive income (i.e. fair value through other comprehensive income -FVTOCI).

### **Financial Assets measured at amortised cost (net of write down for impairment, if any):**

Financial assets are measured at amortised cost when asset is held within a business model, whose objective is to hold assets for collecting contractual cash flows and contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest. Such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method less impairment, if any. The losses arising from impairment are recognised in the Consolidated statement of profit and loss.

### **Financial assets measured at Fair value through other comprehensive income ('FVTOCI'):**

Financial assets under this category are measured initially as well as at each reporting date at fair value, when asset is held within a business model, whose objective is to hold assets for both collecting contractual cash flows and selling financial assets. Fair value movements are recognized in the other comprehensive income.

### **Financial assets measured at fair value through profit or loss ('FVTPL'):**

Financial assets under this category are measured initially as well as at each reporting date at fair value with all changes recognised in profit or loss. Financial assets that do not meet the amortised cost criteria or FVTOCI criteria are measured at FVTPL.

### **Derecognition of Financial Assets:**

A financial asset is primarily derecognised when the rights to receive cash flows from the asset have expired or the Group has transferred its rights to receive cash flows from the asset.

### **Impairment of Financial Assets (Other than at Fair Value):**

In accordance with Ind AS 109, the Group applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the financial assets measured at amortised cost and FVTOCI debt instrument.

The Group follows 'simplified approach' for recognition of impairment loss allowance on trade receivables which do not contain a significant financing component.

The application of simplified approach does not require the Group to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

### **Financial Liabilities:**

#### **Classification:**

The Group classifies all financial liabilities as subsequently measured at amortised cost or FVTPL.

#### **Initial recognition and measurement:**

All financial liabilities are recognised initially at fair value and, in the case of loans, borrowings and payables, net of directly attributable transaction costs.

Financial liabilities include trade and other payables, loans and borrowings including bank overdrafts and derivative financial instruments.

#### **Subsequent measurement:**

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Interest bearing Loans and borrowings are subsequently measured at amortised cost using the Effective Interest Rate ('EIR') method. Gains and Losses are recognized in profit or loss when the liabilities are derecognized as well as through EIR amortization process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Consolidated statement of Profit & Loss.

#### **Derecognition of Financial Liabilities:**

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the Consolidated Statement of Profit and Loss.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**
**Derivative Financial Instrument:**

The Group uses derivative financial instruments, such as forward currency contracts to mitigate its foreign currency risks. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value. Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative. Any changes therein are generally recognised in the consolidated statement of profit and loss.

**f. Inventories:**

Raw materials and packing materials are valued at lower of cost and net realizable value, cost of which includes duties and taxes - net of set offable GST/Custom Duty wherever applicable. Finished products including traded goods and work-in-progress are valued at lower of cost and net realizable value. Cost is arrived on moving average basis.

The cost of inventories have been computed to include all cost of purchases, cost of conversion, standard overheads and other related cost incurred in bringing the inventories to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses necessary to make the sale.

Slow and non-moving material, product nearing expiry obsolesces defective inventory are fully provided for and valued at net realizable value.

Goods and materials in transit are valued at actual cost incurred up to the reporting date.

Materials and other items held for use in production of inventories are not written down, if the finished products in which they will be used are expected to be sold at or above cost.

**g. Trade Receivables :**

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognised at fair value. The Group holds the trade receivables with the objective to collect the contractual cash flows and therefore measures them subsequently at amortised cost, less loss allowance.

**h. Cash and Cash Equivalents :**

Cash and Cash Equivalents comprise of cash on hand and cash at bank including fixed deposit/highly liquid investments with original maturity period of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalent consists of cash and short-term deposits, as defined above, as they are considered an integral part of the Group's cash management

**i. Cash Flow Statements :**

Cash flows are reported using the indirect method, whereby net profit/(loss) before tax is adjusted for the effects of transactions of a non-cash in nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flow from operating, investing and financing activities of the Group is segregated.

**j. Foreign Currency Transactions :**

Transactions denominated in foreign currencies are normally recorded at the exchange rate prevailing on the date of the transaction.

Monetary items, denominated in foreign currencies at the reporting date are re-measured at the exchange rate prevailing on the reporting date. Non-monetary foreign currency items denominated in foreign currency are carried at cost and not re-measured at the exchange rate prevailing as at reporting date.

Any income or expense on account of exchange difference either on settlement or on re-measurement is recognised in the Consolidated statement of profit and loss.

In case of foreign operations whose functional currency is different from the Holding Company's functional currency, the assets and liabilities of such foreign operations, including goodwill and fair value adjustments arising upon acquisition, are translated to the reporting currency at exchange rates at the reporting date. The income and expenses of such foreign operations are translated to the reporting currency at the average exchange rates prevailing during the year. Resulting foreign currency differences are recognized in other comprehensive income/ (loss) and presented within equity as part of FCTR. When a foreign operation is disposed of, in part or in full, the relevant amount in the FCTR is reclassified to the Consolidated Statement of Profit and Loss as a part of gain or loss on disposal.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**
**k. Revenue Recognition :**

The Group derives revenue primarily from sale of manufactured goods and traded goods.

The Group applied Indian Accounting Standard 115 (Ind AS 115) – ‘Revenue from contracts with customers’ and Revenue from the sale of goods is recognised – net of returns, discounts and rebates and taxes collected from customers – if the following conditions are met:

- The significant risks and rewards of ownership of the goods have been transferred to the buyer.
- The Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold.
- The amount of revenue can be measured reliably.
- It is probable that the economic benefits associated with the transaction will flow to the Group.
- The costs incurred or to be incurred in respect of the transaction can be measured reliably.

Revenue is recognised on satisfaction of performance obligation upon transfer of control of promised products to customers in an amount that reflects the consideration the Group expects to receive in exchange for those products.

The transaction price is documented on the sales invoice and payment is generally due as per agreed credit terms with the customer.

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, it does not adjust any of the transaction prices for the time value of money.

A receivable is recognised when the goods are delivered as this is the point in the time that the consideration is unconditional because only the passage of time is required before the payment is done.

Dividend income is recognised when right to receive dividend is established. Interest income is recognised on time proportion basis. Insurance and other claims are recognised as revenue on certainty of receipt on prudent basis.

Export benefits available under prevalent schemes are accrued in the year in which the goods are exported and there is no uncertainty in receiving the same. Export benefit receivables are carried at net realisable value.

**l. Employee Benefits of The Holding Company:**
**(i) Short term employee benefits**

All employee benefits payable wholly within twelve months from reporting date are classified as short term employee benefits. Benefits such as salaries, wages, short-term compensated absences, performance incentives and the expected cost of bonus ex-gratia etc are recognised during the period in which the employee renders related service.

**(ii) Defined benefit plans**
**Gratuity plan**

The Holding Company provides for gratuity, a defined benefit retirement plan (‘the Gratuity Plan’) covering eligible employees. The Gratuity Plan provides a lump-sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee’s salary and the tenure of employment with the Holding Company.

Liabilities with regard to Gratuity Plan are determined by actuarial valuation, Performed by an independent actuary, at each balance sheet date using the Projected Unit Credit Method.

The Holding Company contributes all ascertained liabilities to the Group gratuity scheme with Life Insurance Corporation of India as permitted by laws of India.

The retirement benefit obligations recognised in the balance sheet represents the present value of the defined benefit obligations reduced by the fair value of scheme assets. Any assets resulting from this calculation is limited to the present value of available refunds and reductions in future contributions to the scheme. The Group recognises the net obligations of a defined benefit plan in its balance sheet as an asset or liability. Actuarial gains and losses are recognised in full in the other comprehensive income for the period in which they occur. The effect of any plan amendments are recognised in the statement of profit and loss.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**
**Compensated absences**

The Holding Company has a policy on compensated absences which are both accumulating and non-accumulating in nature. The expected cost of accumulating compensated absences is determined by actuarial valuation performed by an independent actuary at each balance sheet date using projected unit credit method.

Liabilities in respect of Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related services are recognised at the present value of the defined benefit obligation at the balance sheet date.

Expense on non-accumulating compensated absences is recognized in the period in which the absences occur.

**(iii) Defined contribution plans**

Contributions to defined contribution plans are recognised as expense when employees have rendered services entitling them to such benefits. The Holding Company pays provident fund contributions to publicly administered provident funds as per local regulations. The Holding Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognized as employee benefit expense when they are due. Prepaid contributions are recognized as an asset to the extent that a cash refund or a reduction in the future payments is available.

**m. Employees Stock Options Plans (“ESOPs”) of The Holding Company:**

Equity-settled share-based payments to employees are measured at the fair value of the equity instruments at the grant date. The fair value determined at the grant date of the equity-settled share-based payments is expensed over the vesting period, based on the Holding Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. The increase in equity recognized in connection with share based payment transaction is presented as a separate component in Equity under “Employee Stock Options Outstanding Reserve”. At the end of each reporting period, the Holding Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in the statement of profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the Employee Stock Options Outstanding Reserve. The Holding Company recognises compensation expense relating to share-based payments in net profit using fair-value in accordance with Ind AS 102, Share-Based Payment.

**n. Trade and Other Payables:**

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid as per the terms agreed. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period. They are recognised initially at their fair value and subsequently measured at amortised cost.

**o. Borrowings**

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other gains/(losses).

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lenders agree, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

**p. Borrowing Costs :**

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**
**q. Lease :**

The Group lease assets primarily consists of office premises which are generally cancellable and leasehold land. The Group assesses whether a contract is or contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, The Group assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the Group has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Group has the right to direct the use of the asset.

At the date of commencement of the lease, the Group recognises a right-of-use asset (“ROU”) and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short term leases) and leases of low value assets. For these short term and leases of low value assets, the Group recognises the lease payments as an operating expense on a straight line basis over the term of the lease.

The right-of-use assets other than leasehold land are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Leasehold land are stated at revalued amount. Right-of-use assets are depreciated from the commencement / Revaluation date on a straight-line basis over the shorter of the lease term and balance useful life of the underlying asset. Right-of-use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable.

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made.

A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments. The re-measurement normally also adjusts the leased assets.

Lease liability and ROU asset have been separately presented in the Balance Sheet and the lease payments have been classified as financing cash flows.

**r. Government Grant:**

Grants from the Government are recognised at their fair value where there is reasonable assurance that the grant will be received and the Group will comply with all the attached condition.

Export benefits available under prevalent schemes are accrued in the year in which the goods are exported and there is no uncertainty in receiving the same.

**s. Earnings Per Share:**

Basic earnings per equity share is computed by dividing the net profit/(loss) attributable to the equity holders of the Company by the weighted average number of equity shares outstanding during the period [including instruments which are mandatorily convertible into equity shares (if any)]. Diluted earnings per equity share is computed by dividing the net profit/(loss) attributable to the equity holders of the Company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value. Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

**t. Income Taxes :**

Income tax expense comprises current and deferred income tax.

**Current Tax**

Current tax comprises the expected tax payable or receivable on the taxable income or loss for the year and any adjustment to the tax payable of receivable in respect of prior periods. It is measured using tax rates and tax laws that have been enacted by the balance sheet date.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**

Current tax assets and liabilities are offset only if, the Group;

- Has a legally enforceable right to set off the recognized amounts; and
- Intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

**Deferred Tax**

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purpose.

Deferred tax assets are recognized for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized; such reductions are reversed when the probability of future taxable profits improves.

Deferred tax assets are reassessed at each reporting date and recognized to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

The measurement of deferred tax reflects the tax consequences that would follow from the manner in which the Group expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

The Group offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognised amounts and where it intends either to settle on a net basis, or to realise the assets and settle the liability simultaneously.

Minimum Alternate Tax ('MAT') credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the Group will pay normal income tax during the period for which the MAT credit can be carried forward for set-off against the normal tax liability. MAT credit recognised as an asset is reviewed at each Balance Sheet date and written down to the extent the aforesaid convincing evidence no longer exists.

**u. Provisions, contingent Liabilities, contingent assets and commitments:**

Provision (legal and constructive) are recognized when the Group has a present obligation (legal and constructive) as a result of past event and it is probable that an outflow of resources will be required to settle the obligation in respect of which a reliable estimate can be made. If effect of the time value of money is material, provisions are discounted using an appropriate discount rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

Provisions (excluding retirement benefits and compensated absences) are not discounted to its present value and are determined based on best estimate required to settle the obligation at the balance sheet date. These are reviewed at each balance sheet date and adjusted to reflect the current best estimate.

Contingent liabilities are disclosed in the Notes to the Consolidated Financial Statements. Contingent liabilities are disclosed for;

- A present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- Present obligations arising from past events, when no reliable estimate is possible;
- A possible obligation arising from past events, unless the probability of outflow of resources is remote.

Contingent liabilities are not recognised but disclosed in the consolidated financial statements. Contingent assets are neither recognised not disclosed in the financial statements.

Commitments includes the amount of purchase order(net of advances) issued to parties for completion of assets and Non-cancellable operating lease.

Provisions, contingent liabilities, contingent assets and commitments are reviewed at each balance sheet date.

**v. Fair value measurement :**

The Group measures financial instruments, such as, derivatives at fair value at each balance sheet date in accordance with IND AS 113. Financial Statements have been prepared on the historical cost basis except for the following material items in the statement of financial position;

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**

- Derivative financial instruments, if any, are measured at fair value received from Bank.
- Employee Stock Option Plan (ESOP) at fair value as per Actuarial Valuation Report.

Fair value is the price that would be received to sell an asset or settle a liability in an ordinary transaction between market participants at the measurement date.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by reassessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

w. **Exceptional Items**

Exceptional items are disclosed separately in the financial statements where it is necessary to do so to provide further understanding of the financial performance of the Group. These are material items of income or expense that have to be shown separately due to the significance of their nature or amount.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**
**8. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS:**

The preparation of Group's consolidated financial statements in conformity with Ind AS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses and the disclosure of contingent liabilities on the date of the financial statements. Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Any revision to accounting estimates is recognised prospectively in current and future periods.

**a. Property, plant and equipment :**

Determination of the estimated useful life of tangible assets and the assessment as to which components of the cost may be capitalized. Useful life of tangible assets is based on the life prescribed in Schedule II of the Companies Act, 2013. Assumptions also need to be made, when the Group assesses, whether an asset may be capitalised and which components of the cost of the asset may be capitalised.

**b. Allowance for Inventories:**

Management reviews the inventory age listing on a periodic basis. The review involves comparison of the carrying value of the aged inventory items with the respective net realizable value. The purpose is to ascertain whether an allowance is required to be made in the financial statement for any obsolete and slow-moving items. Management is satisfied that adequate allowance for obsolete and slow-moving inventories has been made in the Group's financial statements.

Management also reviews net realisable value for all its inventory and is satisfied that adequate allowance has been made in the financial statements.

**c. Intangible Assets :**

Internal technical or user team assesses the remaining useful lives of Intangible assets. Management believes that assigned useful lives are reasonable.

**d. Recognition and measurement of defined benefit obligations :**

The obligation arising from the defined benefit plan is determined on the basis of actuarial assumptions. Key actuarial assumptions include discount rate, trends in salary escalation and vested future benefits and life expectancy. The discount rate is determined with reference to market yields at the end of the reporting period on the government bonds. The period to maturity of the underlying bonds correspond to the probable maturity of the post-employment benefit obligations.

**e. Recognition of deferred tax assets and income tax :**

Deferred tax asset is recognised for all the deductible temporary differences to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised. The management assumes that taxable profits will be available while recognising deferred tax assets.

Management judgment is required for the calculation of provision for income taxes and deferred tax assets and liabilities. The Group reviews at each balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome which could lead to significant adjustment to the amounts reported in the financial statements.

**f. Recognition and measurement of other provisions :**

The recognition and measurement of other provisions are based on the assessment of the probability of an outflow of resources, and on past experience and circumstances known at the balance sheet date. The actual outflow of resources at a future date may, therefore, vary from the figure included in other provisions.

**g. Contingencies :**

Management judgement is required for estimating the possible outflow of resources, if any, in respect of contingencies/claim/litigations against group as it is not possible to predict the outcome of pending matters with accuracy.

**h. Allowance for uncollected accounts receivable and advances :**

Trade receivables do not carry any interest and are stated at values as reduced by appropriate allowances for estimated irrecoverable amounts. Individual trade receivables are written off when management considers them not collectible. Impairment is made on the expected credit losses, which are the present value of the cash shortfall over the expected life of the financial assets.

---

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**

The impairment provisions for financial assets are based on assumption about risk of default and expected loss rates. Judgement in making these assumptions and selecting the inputs to the impairment calculation are based on past history, existing market condition as well as forward looking estimates at the end of each reporting period.

**i. Insurance Claims :**

Insurance claims are recognised when the Group has reasonable certainty of recovery.

**j. Impairment Reviews :**

Impairment exists when the carrying value of a non-financial asset or cash generating unit ('CGU') exceeds its recoverable amount. Recoverable amount is the higher of its fair value less costs to sell and its value in use. The value in use calculation is based on a discounted cash flow model. In calculating the value in use, certain assumptions are required to be made in respect of highly uncertain matters, including management's expectations of growth in EBITDA, long term growth rates; and the selection of discount rates to reflect the risks involved.

The carrying amounts of the trade receivables include receivables which are subject to factoring arrangement. Under this arrangement, the Company has transferred the relevant receivables to the “Factor” in exchange for cash and is prevented from selling or pledging the receivables. However, the Company has retained late payment and credit risk. The Company therefore continues to recognise the transferred assets in their entirety in its balance sheet. The amount repayable under the factoring agreement is presented as secured borrowing. The Company considers the held to collect business model to remain appropriate for these receivables and hence continues measuring them at amortised cost.

**The relevant carrying amounts are as follows:**

Total transferred receivables	733.57	782.22
Associated secured borrowing (Note 26)	662.37	671.48

BIFR had directed IDBI Bank, which is an Operating Agency, to prepare the Draft Rehabilitation Scheme. However, the Government of India had, vide Notification No. S.O. 3568(E) dated 25 November 2016, notified the SICA Repeal Act, 2003, w.e.f. 1 December 2016 and as a consequence thereof, BIFR and AAIFR stood dissolved w.e.f. 1 December 2016. Simultaneously, in terms of Section 252 of Insolvency & Bankruptcy Code, 2016 ("IBC 2016"), the government amended Section 4(b) of the said repeal Act in the manner specified in the Eighth Schedule of IBC 2016, resulting in the abatement of all pending proceedings including pending merger scheme before BIFR.

Based on the legal opinion obtained, the Scheme has been undone during the year. Consequently, the assets and liabilities identified, except equity share capital, pertaining to erstwhile PPIL has been transferred from the closing hours of business on 31 March 2024 and appropriate treatment has been given in the financial statement.

**b. Assets held for sale:**

As per the scheme of rehabilitation and merger approved by BIFR, erstwhile PPIL is required to sell office premises at Saki Naka, Mumbai in settlement of part dues of secured and unsecured payables mentioned in the aforesaid scheme. Consequently, the said assets are classified as held for sale and measured at lower of carrying cost and fair value less cost to sell. The Holding Company has not charged any depreciation on assets held for sale.

**Sensitivity Analysis**

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation.

Following is the amount of defined benefit obligation that would have been if there is a certain change in assumption as indicated below:

(₹ in Lakhs)

Particulars	31 March 2024		31 March 2023	
	Increase	Decrease	Increase	Decrease
Discount rate (1% movement)	1,214.96	1,415.27	964.04	1,133.58
Salary growth rate (1% movement)	1,395.18	1,228.50	1,117.90	972.54
Withdrawal rate (10% movement)	1,309.50	1,307.47	1,044.24	1,041.90

The sensitivity analysis presented above may not be representative of the actual change in the defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated.

Although the analysis does not take into account full distribution of cash flows expected under the plan, it does provide an approximation of sensitivity of assumptions. The estimate of future increase in compensation levels, considered in the actuarial valuation, have been taken on account of inflation, seniority, promotion and other relevant factors such as supply and demand in the employment market.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024

The expected contribution for Defined Benefit Plan for the next financial year will be in line with current financial year.

The Average outstanding terms of obligations (years) as at valuation date is 7.96 years (Pr.Yr. 8.86 years).

### **Death Benefit:**

The Holding Company provides for death benefit, a defined benefit plan, (the death benefit plan) to certain categories of employees. The death benefit plan provides a lump sum payment to vested employees on death, being compensation received from the insurance company and restricted to limits set forth in the said plan. The death benefit plan is non – funded.

### **Leave Encashment:**

The Holding Company's employees are entitled for compensated absences which are allowed to be accumulated and encashed as per the Holding Company's rule. The liability of compensated absences, which is non-funded, has been provided based on report of independent actuary using the "Projected Unit Credit Method".

Accordingly aggregate of ₹ 498.78 Lakhs (Pr. Yr. ₹ 516.52 Lakhs) being liability as at the year end for compensated absences as per actuarial valuation has been provided in the accounts.

### **The Actuary has outlined the following risks associated with the plans:**

#### **A. Actuarial Risk:**

It is the risk that benefits will cost more than expected. This can arise due to one of the following reasons:

**Adverse Salary Growth Experience:** Salary hikes that are higher than the assumed salary escalation will result into an increase in Obligation at a rate that is higher than expected.

#### **Variability in mortality rates:**

If actual mortality rates are higher than assumed mortality rate assumption than the Gratuity Benefits will be paid earlier than expected. Since there is no condition of vesting on the death benefit, the acceleration of cashflow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate.

If actual mortality rates are higher than assumed mortality rate assumption than the leave benefit will be paid earlier than expected. The acceleration of cashflow will lead to an actuarial loss or gain depending on the relative values of the assumed salary growth and discount rate.

#### **Variability in withdrawal rates:**

If actual withdrawal rates are higher than assumed withdrawal rate assumption than the Gratuity Benefits will be paid earlier than expected. The impact of this will depend on whether the benefits are vested as at the resignation date.

If actual withdrawal rates are higher than assumed withdrawal rate assumption than the leave benefit will be paid earlier than expected. The impact of this will depend on the relative values of the assumed salary growth and discount rate.

**Variability in availment rates:** If actual availment rates are higher than assumed availment rate assumption then leave balances will be utilised earlier than expected. This will result in reduction in leave balances and Obligation.

#### **B. Investment Risk:**

For funded plans that rely on insurers for managing the assets, the value of assets certified by the insurer may not be the fair value of instruments backing the liability. In such cases, the present value of the assets is independent of the future discount rate. This can result in wide fluctuations in the net liability or the funded status if there are significant changes in the discount rate during the inter-valuation period.

#### **C. Liquidity Risk:**

Employees with high salaries and long durations or those higher in hierarchy, accumulate significant level of benefits. If some of such employees resign/retire from the Holding Company there can be strain on the cashflows.

#### **D. Market Risk:**

Market risk is a collective term for risks that are related to the changes and fluctuations of the financial markets. One actuarial assumption that has a material effect is the discount rate. The discount rate reflects the time value of money. An increase in discount rate leads to decrease in Defined Benefit Obligation of the plan benefits & vice versa. This assumption depends on the yields on the corporate/government bonds and hence the valuation of liability is exposed to fluctuations in the yields as at the valuation date.

#### **E. Legislative Risk:**

Legislative risk is the risk of increase in the plan liabilities or reduction in the plan assets due to change in the legislation/regulation. The government may amend the Payment of Gratuity Act thus requiring the companies to pay higher benefits to the employees. This will directly affect the present value of the Defined Benefit Obligation and the same will have to be recognised immediately in the year when any such amendment is effective

62. During the year, the Group has earned profit and Group's net-worth has turned positive. However its current liabilities exceeds its current assets and one of the lender has filed application with Mumbai Debt Recovery Tribunal for the recovery of dues. The Holding Company has infused funds in the past and initiated various measures, including restructuring and realigning of debts/business. As part of overall debt resolution plan, during the year, the Holding Company raised funds from an Alternative Investment Fund through issue of unlisted secured redeemable non convertible debentures and the proceeds have been utilised towards repayment of existing dues (Refer note 45) and lender has withdrawn the recovery application filed with Mumbai Debt Recovery Tribunal. During the year, Holding company has received an in-principlee sanction towards long term working capital requirement including capital expenditure. Consequently, in the opinion of the management, operations of the Group will continue without interruption. Hence, financial statements are prepared on a "going concern" basis.

**63. Capital Management**

The primary objective of the Group's capital management is to maximise shareholder value.

The capital structure of the Group is based on the management's judgement of its strategic and day-to-day needs with a focus on total equity so as to maintain investor, creditors and market confidence.

The Group has initiated various measures, including restructuring of debts and infusion of funds etc.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**

During the year ended 31 March 2022, the Board of Directors of Holding company at their meeting held on 22 April 2021 allotted 76,15,381 Equity Shares of face value ₹ 10/- each at an issue price of ₹ 65/- per equity share (including premium of ₹ 55/- per equity share) aggregating to ₹ 4,950 Lakhs. Further, during the year ended 31 March 2022, the Holding Company sold some of its Land & Building aggregating to ₹ 1069.57 lakhs. Proceeds from the same had been utilised in repayment/settlement of existing debts.

During the year, Holding Company raised ₹ 9,500 Lakhs by allotment of unlisted secured redeemable non convertible debentures("NCD's"). The fund is utilized towards full repayment of existinf dues.

For the purpose of the Group's capital management, the Group monitors Net Debts and Equity.

Equity includes all components of equity i.e. paid up equity capital, share premium and all other equity reserves attributable to the equity holders. Net Debt includes all liabilities i.e. interest bearing loans and borrowings, trade payables, provisions and other liabilities less cash and cash equivalents.

**B. Fair Value Measurements**
**Fair Value Hierarchy**

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are (a) recognised and measured at fair value and (b) measured at amortised cost and for which fair values are disclosed in the financial statements. To provide an indication about the reliability of the inputs used in determining fair value the Group has classified its financial instruments into the three levels prescribed under the Indian Accounting Standard. An explanation of each level is as follows -

**Level 1:** Level 1 hierarchy includes financial instruments measured using quoted prices in active markets or identical assets and liabilities.

**Level 2:** The fair value of financial instruments that are not traded in an active market (like forward contracts) is determined using valuation techniques which maximise the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value as instrument are observable, the instrument is included in level 2.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**

**Level 3:** If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities etc. included in level 3.

**Valuation techniques used to determine fair value**

The fair value of the quoted investment is determined using traded quoted bid prices in an active market. The fair value of unquoted investments is determined using inputs other than quoted prices included in level 1 that are observable for assets and liabilities.

**C. Financial Risk Management**

The Group has exposure to following risks arising from financial instruments:

- Credit Risk
  - Trade Receivables
  - Other Financial Instruments
- Liquidity Risk
- Market Risk
  - Currency Risk
  - Interest Rate Risk
  - Price Risk

**i. Risk Management Framework**

The Group's board of directors has overall responsibility for the establishment and oversight of the Group's risk management framework. Management is responsible for developing and monitoring the Group's risk management policies, under the guidance of Audit Committee.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Group's Audit committee oversees how management monitors compliance with the Group's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Audit committee.

**ii. Credit Risk**

Credit risk is the risk that a counter party will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Group is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks, foreign exchange transactions and other financial instruments.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024**
**(a) Trade Receivables**

Customer credit risk is managed by the Group subject to established policy, procedures and control relating to customer credit risk management. Trade receivables are mainly from wholesalers, non-interest bearing and are generally on 7 days to 120 days credit term. Credit limits are established for all customers based on internal rating criteria and any deviation in credit limit require approval of Directors. Outstanding customer receivables are regularly monitored. The Group has no concentration of credit risk as the customer base is widely distributed both economically and geographically.

An impairment analysis is performed at each reporting date on an individual basis for major clients. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The calculation is based on historical data. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Group does not hold collateral as security. The Group evaluates the concentration of risk with respect to trade receivables as low, as its customers are located in several jurisdictions and operate in largely independent markets. Trade receivables do not contain any significant financing component and hence, the Group recognises life time expected credit loss based on simplified approach.

**Expected Credit Loss on Trade Receivable under simplified approach**

Utilised during the year	34.13	(9.46)
<b>Balance as at the end of the year</b>	<b>245.33</b>	<b>211.20</b>

**(b) Other Financial Instruments**

The credit risk on liquid funds and derivative financial instruments is limited because the counterparties are banks or financial institutions with high credit rating assigned by credit rating agencies. For other financial assets, The Group assesses and manages the credit risk internally. The Group considers the probability of default upon initial recognition and assess whether there has been a significant increase in credit risk subsequently based in the historical losses and forward looking supportable information. Based on general approach, if there is a significant increase in credit risk of a financial asset since its initial recognition The Group recognises life time expected credit loss otherwise 12 months expected credit loss is recognised.

**Expected Credit Loss on Corporate Guarantee Contracts and Financial Assets other than Trade Receivables (based on general approach)**

Utilised/Reversal during the year	(3,413.49)	(106.47)
<b>Balance as at the end of the year</b>	<b>17.24</b>	<b>3,322.19</b>

**iii. Liquidity Risk**

Liquidity risk is the risk that the Group may not be able to meet its present and future cash and collateral obligations without incurring unacceptable losses. The Group's objective is to maintain optimum level of liquidity at all times, to meet its cash and collateral requirements. The Group closely monitors its liquidity position and deploys a robust cash management system. It maintains adequate sources of financing including bilateral loans, debt etc. at an optimised cost. Working capital requirements are adequately addressed by internally generated and borrowed funds.

The following tables detail the Group's remaining contractual maturity for its financial liabilities with agreed repayment periods. The tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The tables include both interest and principal cash flows. To the extent that interest flows are at floating rate, the undiscounted amount is derived from interest rate curves at the end of the reporting period.

**iv. Market risk**

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. Financial instruments affected by market risk include loans and borrowings, deposits, investments, and derivative financial instruments.

The Group's activities expose it to a variety of financial risks, including the effects of changes in foreign currency exchange rates and interest rates. The Holding Company uses derivative financial instruments such as foreign exchange contracts to manage its exposures to foreign exchange fluctuations. All such transactions are carried out within the guidelines set by the risk management committee.

The analysis excludes the impact of movements in market variables on the carrying value of post-employment benefit obligations, provisions and on the non financial assets and liabilities.

**a. Currency Risk**

The Group is exposed to currency risk to the extent that there is a mismatch between the currencies in which sales, purchases and borrowings are denominated and the functional currency of the Group.

The currencies in which these transactions are primarily denominated are US dollars (US \$), Pound (GBP) and Euro.

As the share of exports to total sales made by the Holding Company is considerable, same is partly hedge through natural hedging via raw material imports. Further management exercise close monitoring of currency fluctuations.

During the year, the Group has entered into forward exchange contract, being derivative instrument to mitigate foreign currency risk, to establish the amount of currency in India Rupees required or available at the settlement date of certain payables and receivables

Details of the forward contract outstanding at the year end are as under

Currency	Buy or Sell	Cross Currency	Amount in US \$	
			31 March 2024	31 March 2023
US \$	Sell	INR	-	10 Lakhs

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2024****Foreign Currency Risk Exposures:**

The foreign currency exposures that have not been mitigated by a derivative instrument or otherwise are as below:

₹ in Lakhs

Particulars	Foreign Currency Amount in Lakhs				
	Currency	31 March 2024	31 March 2023	31 March 2024	31 March 2023

	US \$	23.87	32.47	1,990.85	2,668.14

**Sensitivity:**

The sensitivity of profit or loss to changes in the exchange rates arises mainly from foreign currency denominated financial instruments

The following table details the Group's sensitivity to 1% increase and decrease in the exchange rate between the Indian Rupee and respective currencies. A positive number below indicates an increase in profit/ decrease in losses and negative number indicates decrease in profit/ increase in losses:

Particulars	1% strengthening in INR ₹ in Lakhs		1% weakening in INR ₹ in Lakhs	
	31 March 2024	31 March 2023	31 March 2024	31 March 2023
EURO	18.42	23.82	(18.42)	(23.82)
US \$	(34.12)	(18.65)	34.12	18.65

**(b) Interest rate risk**

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

Majority of borrowings of the Group are at fixed interest rate and are carried at amortised cost. They are therefore not subject to interest rate risks, since neither the carrying amount nor the future cash flows will fluctuate because off a change in market interest rates.

**(c) Price risk**

The Group is exposed to equity price risks arising from equity investments. However, there is no material impact of the sensitivity.

**65. Revenue (Ind AS 115)**

The operations of the Group are limited to only one segment viz. pharmaceuticals and related products. Revenue from contract with customers is from sale of manufactured/traded goods. Sale of goods are made at a point in time and revenue is recognised upon satisfaction of the performance obligations which is typically upon dispatch / delivery. The Group has a credit evaluation policy based on which the credit limits for the trade receivables are established. The credit period provided by The Group is not significant, hence there is no significant financing component.

**Explanation where variance in ratios is more than 25%****Current ratio:**

Current year ratio is higher due to decrease in current liabilities, mainly bank borrowings

**Debt-Service Coverage ratio:**

Current period ratio is higher due to higher EBITDA mainly due to profit and Exceptional items (refer note 48).

**Net profit ratio:**

Current period ratio is higher due to increased sales and profitability.

**Return on Capital employed:**

Current year ratio is higher due to profit. As against, previous year ratio was lower due to loss.
