10 Health and safety management system:

a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/ No). If yes, the coverage of such system?

Yes, the Entity has integrated an Occupational Health and Safety Management System as a vital aspect of its operations. The primary goal is to foster a work environment that prioritizes the health and safety of employees while adhering to principles of environmental sustainability. To achieve this, the Entity has established comprehensive mechanisms, including the continuous enhancement of environmental occupational health and safety performance, striving for an incident-free work environment, reducing waste to conserve natural resources, ensuring compliance with legal requirements, proper disposal of waste and pollutants, and promoting innovation to prevent pollution, injury, and illness. Furthermore, the Entity is ISO 45001 certified, covering 30% of its plants, underscoring its commitment to maintain the highest standards of occupational health and safety throughout its operations.

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

The processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity are:

- Hazard Identification and Risk Assessment (HIRA):** This process involves a thorough evaluation of the work environment and operational tasks to identify potential hazards that could harm employees, visitors, or the surrounding ecosystem. The risk associated with each identified hazard is carefully assessed to determine the likelihood and potential consequences of an incident. Based on this analysis, appropriate actions are developed and implemented to mitigate the risks.
- Health and Safety Inspections:** This method entails reviewing the organization’s policies, procedures, and practices related to environmental management, health, and safety. HSE inspections and audits identify areas for improvement to reduce incident risks and ensure compliance with regulatory obligations and industry standards. Corrective action plans are developed based on audit findings.

In its hazard assessments, the Entity reviews all routine and non-routine activities to identify significant risks and establish control measures. For routine tasks, the Entity utilizes a Safety Audit checklist encompassing 188 points covering various operational areas. For non-routine tasks, such as working at heights and excavation, the Entity uses a work permit system and other hazard identification techniques to ensure safety.

c. Whether you have processes for workers to report the work related hazards and to remove themselves from such risks. (Y/N)

Yes, the Entity has procedures in place that allow workers to report work-related hazards and safely remove themselves from any associated risks.

d. Do the employees/ worker of the entity have access to non-occupational medical and healthcare services? (Yes/ No)

Ergonomic improvements:

The Entity's team recognized that workers were experiencing difficulties when handling heavy columns on the cockpit line. In response, they modified the trunnion hand bracket, making it easier to access and reducing strain on workers' hands. This proactive measure exemplifies the Entity's commitment to identifying and addressing ergonomic concerns to ensure the safety and comfort of its employees.

Water conservation:

To manage water consumption more efficiently, the Entity has installed water meters across various locations in Nashik. This initiative will allow us to monitor water usage closely and pinpoint areas where conservation efforts can be improved.

Clearer eye bolt identification:

Eye bolts are now clearly marked with identification numbers, making them easier to locate and reducing the risk of confusion.

Enhanced PTW system:

The Permit-To-Work (PTW) system books have been updated to provide better clarity and ensure improved adherence to safety protocols.

Safer walkways:

Anti-skid tape has been applied to stairs to prevent slips and falls.

Improved visual communication:

Visual aids and signage have been upgraded throughout the facility to enhance safety awareness.

Essential Indicators
1 Describe the processes for identifying key stakeholder groups of the entity.

The Entity prioritizes a strong and transparent relationship with investors by maintaining a deep understanding and consistent alignment with their expectations. A commitment to client value is a core aspect of the corporate philosophy, reflecting a dedication to client satisfaction. Employees are recognized as essential contributors to creating value for both clients and the organization, and the Entity is committed to providing them with rewarding career opportunities. Suppliers are considered key stakeholders who play a vital role in enabling the delivery of business value. The Entity's business practices focus on inclusive growth, ensuring that the community remains central to sustainable initiatives.

The stakeholder groups of the entity are identified through discussions in Internal Management Meetings, as per the process flow mentioned below:

- Conducting detailed discussions with the Entity's Legal and Secretarial Department and management to identify key stakeholder groups.
- Identifying stakeholders based on their material influence on the Entity or how they are materially affected by the Entity's corporate decisions and their outcomes.
- Stakeholders include customers, suppliers, employees/workers, partners, the Board of Directors, promoters, regulatory authorities/government entities, institutions/industry bodies (such as Banks, NBFCs, ACMA, SIAM), CSR entities, and investors, among others.

Leadership Indicators

1 Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.

Stakeholder consultations are facilitated by designated personnel, business leaders, and key process heads within the Entity. Feedback and concerns raised by stakeholders are escalated to the Board of Directors through relevant Board Committees, including the Audit Committee, Nomination and Remuneration Committee, CSR Committee, Risk Management Committee, and Share Transfer/Stakeholders Relationship Committee.

The Entity engages in consistent and proactive communication with key stakeholders through conference calls, providing clear explanations of its plans and results. This approach fosters a sense of shared prosperity and advancement for both the Entity and society at large, encouraging ongoing engagement and participation

2 Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No).

Yes

If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

The stakeholder consultations were conducted to aid in identifying and managing environmental and social topics. The process for consulting with the Board on economic, environmental, and social topics includes:

- Compiling a comprehensive list of all potential stakeholders and ESG-related matters relevant to the Entity and the automobile industry, in collaboration with various departments.
- Discussing these topics with different stakeholders and senior management personnel of the Entity to gather feedback.
- Incorporating feedback from such consultations into the Entity's policies and activities.

3 Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalized stakeholder groups.

To address the concerns of vulnerable and marginalized stakeholder groups, the Entity begins the process by identifying target areas and assessing their needs through surveys, visits, and evaluations to determine whether these needs are project-relevant or aspirational. Following this, a thorough Needs Assessment is conducted to identify specific communities that would benefit most from the Entity's Corporate Social Responsibility (CSR) interventions.

The Entity then collaborates with the local community to finalize projects, ensuring alignment with the identified needs and aspirations. On-ground mobilization strategies are implemented to effectively engage stakeholders and the community in CSR initiatives, ensuring that the projects not only address their concerns but also empower them through active participation. This holistic approach ensures that the Entity's actions are inclusive and have a meaningful impact on the most vulnerable groups within the community.

4 Do you have a focal point (Individual/ Committee) responsible for addressing human rights impacts or issues caused or contributed to by the business? (Yes/No)

Yes, the Entity has a well-defined Human Rights Policy in place, ensuring that employees can bring their complaints or grievances to either the Human Resources department or senior management. The Corporate HR Head oversees the management of human rights impacts or issues involving the Entity's employees and workers. Department heads are also responsible for addressing human rights concerns within their respective areas. Additionally, the senior management actively reviews and updates the Human Rights Policy at the organizational level.

5 Describe the internal mechanisms in place to redress grievances related to human rights issues.

The Entity prioritizes upholding and promoting human rights through fair and ethical business practices. It has established robust internal mechanisms, including a POSH Policy, Grievance Redressal Policy, Vigil Mechanism/Whistleblower Policy, and an employee app for grievance registration. Human rights concerns can be submitted to location in-charges or the HR department via in-person visits or email. Upon receipt, each grievance is acknowledged with a unique ID for tracking. This is followed by an initial review, categorization, and assignment to appropriate personnel for thorough investigation and resolution. Throughout the process, complainants receive regular updates on progress. Upon resolution, detailed reports are documented and communicated to the complainants, ensuring transparency and prompt closure. Although no human rights grievances have been received to date, the Entity remains committed to addressing any future concerns effectively.

8 Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.

The Entity has implemented a range of energy-saving projects aimed at enhancing efficiency and reducing greenhouse gas emissions across its operations. These projects include:

- Solar smart streetlights
- Installation of Retrofit Emission Control device for the DG set
- Installation of energy-saving Insulation Jackets for Band Heaters - IMM Machines
- Provision of VFD for Hot plate
- Installation of motion sensors for conference hall AC units/lights for optimization of idle running
- Provision of Passive infrared sensor (PIR) for All Shopfloor toilets
- Installation of additional rooftop solar panel in the Expansion Area
- Replacement of ultrasonic welding process with heat stacking SPM for spoiler
- Vehicle trips alterations for dispatch of FG/WIP Goods
- Group captative solar power
- Pressure switch with energy efficient pump system installation for water distribution pumps
- HVLS fan installation in shopfloor

9 Provide details related to waste management by the entity, in the following format:

10 Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

The Entity recognizes the critical importance of waste management, a key issue affecting the organization, neighboring communities, and the environment. The primary objectives of its waste management strategy are to minimize waste generation, enhance recycling and recovery efforts, and reduce waste disposal. To promote responsible waste management across all facilities, the Entity has implemented practices such as source-separated waste collection, waste reuse and recycling, and the secure disposal of hazardous waste in collaboration with authorized agencies. By adhering to the '3R' strategy of Reduce, Reuse, and Recycle, the Entity remains committed to continuously improving its waste management procedures to align with broader environmental, social, and governance goals.

For each facility / plant located in areas of water stress, provide the following information:

- Name of the area : Gurugram, Bhiwadi, Bengaluru, Kuruli, Manesar
- Nature of operations : Corporate office and automotive plastic parts manufacturing
- Water withdrawal, consumption and discharge in the following format:

Parameter	FY 2023-24** (Current Financial Year)	FY 2022-23* (Previous Financial Year)
Water withdrawal by source (in kilo litres)		
(i) Surface water	-	-
(ii) Groundwater	2,330.70	-
(iii) Third party water	37,893.29	20,846.00
(iv) Seawater / desalinated water	-	-
(v) Others	-	-
Total volume of water withdrawal (in kilolitres) (i + ii + iii + iv + v)	40,223.99	20,846.00
Total volume of water consumption (in kilolitres)	39,944.99	18,029.00
Water intensity per rupee of turnover (Water consumed / turnover)	0.21	0.10

Parameter	FY 2023-24** (Current Financial Year)	FY 2022-23* (Previous Financial Year)
Water intensity in terms of Physical output (kL/Nos) – the relevant metric may be selected by the entity	0.0003	0.00016
Water discharged by destination and level of treatment (in kilo litres)		
(i) Into Surface water	-	-
c. No treatment	-	-
d. With treatment – please specify level of treatment	-	-
(ii) Into Groundwater	-	-
c. No treatment	-	-
d. With treatment – please specify level of treatment	-	-
(iii) Into Seawater	-	-
c. No treatment	-	-

(iv) Sent to third-parties	279.00	2,817.00
c. No treatment	231.00	2,817.00
d. With treatment – Primary & Tertiary	48.00	-
(v) Others	-	-
c. No treatment	-	-
d. With treatment – please specify level of treatment	-	-
Total volume of water discharged (in kilolitres) (i + ii + iii + iv + v)	279.00	2,817.00

Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. No

Note: *FY2022-23 data has been corrected due to change in calculation methodology.

**Data from 5 IAC plants are not included in calculation.

2 Please provide details of total Scope 3 emissions & its intensity, in the following format:

Parameter	Unit	FY 2023-24 (Current Financial Year)	FY 2022-23 (Previous Financial Year)
Total Scope 3 emissions (Break-up of the GHG into CO ₂ , CH ₄ , N ₂ O, HFCs, PFCs, SF ₆ , NF ₃ , if available)	Metric tonnes of CO ₂ equivalent	Scope-3 emissions are not considered by the Entity presently. The Entity is in the process of laying down the roadmap in the near future.	
Total Scope 3 emissions per rupee of turnover			
Total Scope 3 emission intensity (optional) – the relevant metric may be selected by the entity			

Note: Indicate if any independent assessment/ evaluation/assurance has been carried out by an external agency? (Y/N) If yes, name of the external agency. Not Applicable
