NOTES:

- A statement setting out the material facts as required under Section 102 of the Companies Act, 2013 (“Act”) is annexed hereto.
- DISPATCH OF ANNUAL REPORT: Pursuant to Section 101 and 136 of the Act read with relevant Rules made thereunder and Regulation 36(1)(a) of LODR Regulations, soft copy of the Annual Report and other communications shall be served to members through electronic mode to those members who have registered their e-mail address either with the MCS Shares Transfer Agent Limited (RTA) or with any Depositories. As per provisions of Section 20 of the Act read with Rules made thereunder, a document may be served on any member by sending it to him by post or by registered post or by speed post or by courier or by delivering at his office or address, or by such electronic or other mode as may be prescribed including by facsimile telecommunication or to electronic mail address, which the member has provided to his / her Depository Participant / the Company’s Registrar & Share Transfer Agent from time to time for sending communications, provided that a member may request for delivery of any document through a particular mode, for which he shall pay such fees as may be determined by the Company in its Annual General Meeting. In cases, where any member has not registered his / her e-mail address with the Company or with any Depository, the service of documents, etc. will be effected by other modes of service as provided in Section 20 of the Act read with the relevant Rules thereunder. Those members, who desire to receive notice / financial statement / other documents through e-mail, are requested to communicate their e-mail ID and changes thereto, from time to time, to his / her Depository Participant (in case of

Shares held in dematerialised form) / MCS Shares Transfer Agent Limited in Form ISR 1 (in case of Shares held in physical form).

Accordingly, soft copy of the Annual Report including the notice of the Fifty-Third Annual General Meeting of the Company in electronic form, inter-alia, indicating the process and manner of e-voting along with Attendance Slip and Proxy Form would be sent to all members whose email IDs are registered with the MCS Shares Transfer Agent Limited/ Depository Participant(s). For Members who have not registered their e-mail addresses or have requested for a physical copy, physical copy of the Annual Report including the notice of the Fifty- Third Annual General Meeting, inter-alia, indicating the process and manner of e-voting along with Attendance Slip and Proxy Form would be sent by permitted mode. Members may also note that the Notice of the Fifty-Third Annual General Meeting and the Annual Report for the financial year 2023-24 will also be available on the Company’s website <https://www.Himteknoforge.com> for download. Even after registering for e-communication, members are entitled to receive such communication in printed form, upon making a request for the same to the Company’s email id: cs@gagl.net.

- This Annual General meeting Notice along with Annual report will also be available on the Company’s website at www.Himteknoforge.com, website of the Stock Exchanges, i.e. BSE Limited at www.bseindia.com respectively, and on the website of CDSL at <https://www.evotingindia.com/>.
- A member entitled to attend and vote at the meeting is entitled to appoint one or more proxies to attend and vote instead of himself / herself and a proxy need not be a member. A person can act as a proxy on behalf of members not exceeding fifty and holding in the aggregate not more than ten percent of the total share capital of the company carrying voting rights. However, a member holding more than ten percent of the total share capital of the company carrying voting rights may appoint a single person as a proxy and such person shall not act as a proxy for any other person or shareholder.
- PROXY: A form of proxy is enclosed to this Notice. No instrument of proxy shall be valid unless:
 - it is signed by the member or by his / her attorney duly authorised in writing or, in the case of joint holders, the signature of any one holder on proxy form will be sufficient, but names of all the joint holders should be stated or, in the case of body corporate, it is executed under its common seal, if any, or signed by its attorney duly authorised in writing; provided that an instrument of proxy shall be sufficiently signed by any member, who for any reason is unable to write his/her name, if his / her thumb impression is affixed thereto, and attested by a judge, magistrate, registrar or sub-registrar of assurances or other government Gazetted officers or any officer of a Nationalized Bank;
 - it is duly stamped and deposited at the Registered Office of the Company not less than 48 hours before the time fixed for the meeting i.e. by 4:00 p.m. on Saturday, 28th September, 2024, together with the power of attorney or other authority (if any), under which it is signed or a copy of that power of attorney certified by a notary public or a magistrate unless such a power of attorney or the other authority is previously deposited and registered with the Company / Registrar & Share Transfer Agent;
- Members / proxies are requested to bring duly filled attendance slips, sent herewith, to attend the Meeting and proxy holder shall prove his identity at the time of attending the meeting;
- BOOK CLOSURE: The Register of Members and Transfer Books of the Company will be closed from **Tuesday, September 24, 2024, to Monday, September 30, 2024** (both days inclusive) for the

purpose of Dividend.

8. DIVIDEND: The dividend, as recommended by the Board of Directors, if approved at the AGM, would be paid subject to deduction of tax at source, as may be applicable, after 30th September, 2024, to those persons or their mandates:
 - a) whose names appear as Beneficial Owners as at the end of the business hours on Monday, 23rd September, 2024 in the list of Beneficial Owners to be furnished by National Securities Depository Limited and Central Depository Services (India) Limited in respect of the shares held in electronic form; and
 - b) whose names appear as Members in the Register of Members of the Company as at the end of the business hours on Monday, 23rd September, 2024 after giving effect to valid request(s) received for transmission/ transposition of shares.
9. DIVIDEND THROUGH ELECTRONIC MODE: SEBI has made it mandatory for listed companies to make all payments to investors including dividend to Members, by using any RBI approved electronic mode of payment viz. Electronic Clearing Service / Direct Credit / Real Time Gross Settlement / National Electronic Fund Transfer etc. Members are, therefore, requested to add / update their bank account details as under:
 - a) In case of holding of shares in demat form, update your bank account details with your Depository Participant(s) (DP) immediately.
 - b) In case of physical shareholding, submit bank details such as name of the bank, branch details, bank account number, MICR code, IFSC code etc to the MCS Shares Transfer Agent Limited, Registrar & Transfer Agent in prescribed Form ISR-1 and other forms pursuant to SEBI Circular No. SEBI/HO/MIRSD/MIRSD_RTAMB/P/ CIR/2021/655 dated 3rd November, 2021 (SEBI Circular). This will facilitate the remittance of the dividend amount, as and when declared by the Company, in the Bank Account electronically. In case, the Company is unable to pay the dividend to any Member by electronic mode, due to non-availability of the details of the bank account, the Company shall dispatch the dividend warrant / demand draft / cheque to such members by post / speed post/registered post/ courier.
10. TDS ON DIVIDEND: Pursuant to the Income-tax Act, 1961, as amended by the Finance Act, 2020, dividend income will be taxable in the hands of Members w.e.f. April 1, 2020 and the Company is required to deduct tax at source from dividend paid to Members at the prescribed rates. For the prescribed rates for various categories, please refer to the Finance Act, 2020 and the amendments thereof.
11. TRANSFER OF SHARES PERMITTED IN DEMAT FORM ONLY: In terms of Regulation 40 of LODR Regulations, except in case of transmission or transposition of securities, requests for effecting transfer of securities shall not be processed unless the securities are held in the dematerialized form with a depository. In view of this and to eliminate all risks associated with physical shares and for ease of portfolio management, all Members holding shares in physical form are requested to demat their shares at the earliest.
12. Every member entitled to vote at the Annual General Meeting of the Company can inspect the proxies lodged with the Company at any time during the business hours of the Company during the period beginning twenty-four (24) hours before the time fixed for the commencement of the Annual General Meeting and ending on the conclusion of the meeting. However, a prior notice of not less than three (3) days in writing of the intention to inspect the proxies lodged shall be required to be provided to the Company;
13. CORPORATE MEMBERS: Institutional / Corporate Members (i.e. other than individuals / HUF, NRI, etc.) are required to send a scanned copy (PDF/JPG Format) of its Board or governing body Resolution/Authorization etc., together with attested specimen signature(s) of the duly authorised representative(s), to attend the AGM on its email id: cs@gagl.net with a copy marked to mcslttdbaroda@gmail.com
14. Members holding shares in physical form, in identical order of names, in more than one folio are requested to send to the Company or Company RTA, the details of such folios together with the share certificates along with the requisite KYC Documents for consolidating their holdings in one folio. Requests for consolidation of share certificates shall be processed in dematerialized form.
15. In view of the 'Green Initiatives in Corporate Governance' introduced by MCA and in terms of the provisions of the Companies Act, 2013, members who are holding shares of the Company in physical mode, are required to register their email addresses, so as to enable the Company to send all notices/ reports/ documents/ intimations and other correspondences, etc., through emails in the electronic mode instead of receiving physical copies of the same.

Members holding shares in dematerialized form, who have not registered their email addresses with Depository Participant(s), are requested to register / update their email addresses with their Depository Participant(s).
16. VOTING THROUGH ELECTRONIC MEANS I.E. E-VOTING:
 - a. 19. In terms of SEBI Circular dated 09/12/2020, the depository shall send SMS/email alerts regarding the details of the upcoming AGM to the demat holders at least 2 days prior to the date of commencement of e-voting. Hence members are requested to update the mobile no./email ID with their respective depository participants.
20. The Scrutinizer shall, after the conclusion of the electronic voting during the AGM, assess the votes cast during the meeting through physical ballot paper, thereafter unblock the votes cast through remote e-voting and make a consolidated Scrutinizer's Report and submit the same to the Chairman of the Meeting.
21. The Board of Directors has appointed Shri Sachin Jain, a Practicing Chartered Accountant (Membership No.:535354), as Scrutinizer, to scrutinize the Remote e-voting process and ballot voting during the meeting in a fair and transparent manner and he has communicated his willingness to be appointed and will be available for the said purpose.
22. The results of the voting indicating the number of votes cast in favour or against each of the Resolution(s), invalid votes and whether the Resolution(s) have been carried out or not, together with the Scrutinizer's Report, will be uploaded on the website of the Company (www.HimTeknoforge.com) and will also be submitted to BSE Limited within the prescribed time. Further, the resolution(s), if passed by requisite majority, shall be deemed to be passed on the date of AGM.
23. IEPF and Dividend paid: Under the Act, dividends that are unclaimed/ unpaid for a period of seven years are required to be transferred to the Investor Education and Protection Fund ("IEPF") administered by the Central Government. An amount of `Rs. 66,546/- being unclaimed/unpaid dividend of the Company for the financial year ended 31st March, 2015 was transferred in November, 2023, to IEPF.

Members are requested to note that, pursuant to the provisions of section 124 of the Act read with Investor Education and Protection Fund Authority (Accounting, Audit, Transfer and Refund) Rules, 2016 ("IEPF Rules"), all shares on which dividend has not been paid or claimed for seven consecutive years or more shall be transferred to IEPF Authority as notified by the MCA.

Members whose unclaimed dividends/shares are/will be transferred to the IEPF Authority can claim the same by making an online application to the IEPF Authority in the prescribed Form No. IEPF-5 by following the refund procedure as detailed on the website of IEPF Authority <http://www.iepf.gov.in/IEPF/refund.html>

24. **REMOTE E-VOTING:** The manner of remote e-voting by (1) individual Members holding shares of the Company in demat mode, (2) Members (other than individuals holding shares of

the Company in demat mode) and Members holding shares of the Company in physical mode, and (3) Members who have not registered their e-mail address are provided hereinbelow:

GENERAL INFORMATION AND INSTRUCTIONS RELATING TO E-VOTING:

- (i) The voting period begins on **27th September, 2024 at 09:00 AM and ends on 29th September, 2024 at 05:00PM** During this period shareholders of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of **23rd September, 2024** may cast their vote electronically. The e-voting module shall be disabled by CDSL for voting thereafter.
- (ii) Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote e-voting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.
- (iii) Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.
- (iv) In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

The Company commands excellent business relationship with the buyers. In case of major fluctuation either upwards or downwards, the matter is mutually discussed and compensated both ways. Also development of New value added products helps in lowering the impact of price fluctuations in all the inputs.
Uncertain global economic environment - slow growth in global economy	Risk of decreasing export revenue due to a slow global economy	Company maintains strong relations with its global customers. Also, Company is constantly developing new products to cater to the export market which helps in reducing this risk.

Foreign Exchange Risk	Any volatility in the currency market can impact the overall profitability.	The Company has a strong customer base in domestic market. Also, the Company takes forward cover for its exports which minimizes the risk. In case of major fluctuation either upwards or downwards, the effect will be minimal.
Human Resources Risk	Your Company's ability to deliver value is dependent on its ability to attract, retain and nurture talent. Attrition and non-availability of the required talent resource can affect the overall performance of the Company	By continuously benchmarking of the best HR practices and carrying out necessary improvements to attract and retain the best talent. Company does not anticipate any major issue for the coming years.
Competition Risk	Every company is always exposed to competition risk. The increase in competition can create pressure on margins, market share etc.	By continuous efforts to enhance the brand image of the Company by focusing on quality, cost, timely delivery and customer service. By introducing new product range commensurate with demands, your company plans to mitigate the risks so involved.
Compliance Risk - Increasing regulatory Requirements.	Any default can attract penal provisions.	By regularly monitoring and review of changes in regulatory framework, and keeping itself fully updated with any changes in the law, the company is able to mitigate the same.
Industrial Safety, Employee Health and Safety Risk.	The engineering industry is exposed to accidents and injury risk due to human negligence.	By development and implementation of critical safety standards across the various departments of the factory, establishing training need identification at each level of employee. Proper training at regular intervals for the shopfloor employees is carried out at all the facilities.

Global Economy

The landscape of the global automobile sector is undergoing a transformation. Intelligent mobility and ACES (trends in Autonomous, Connected, Electric and Shared vehicles) have disrupted business models of automotive companies.

The global automotive industry in previous 2-3 years has witnessed a slowdown amidst these and other disruptions.

Automobile Industry - Structure & Development

India is considered to be the world's 4th largest automobile industry, ahead of Germany. It is on its way to becoming the 3rd largest, riding on rapid economic development, rising urbanization, burgeoning middle class, supportive regulations and the Government's strong push for growth in the form of the Aatma Nirbhar Bharat and other initiatives.

The Government aims to develop India as a global manufacturing as well as a research and development (R&D) hub. It has set up National Automotive Testing and R&D Infrastructure Project (NATRIP) centres, as well as a National Automotive Board to act as facilitator between the government and the industry.

The domestic automotive industry has been adopting new technology and capabilities in order to keep pace with the changing global landscape. The diversified nature of the domestic automotive industry not only provides scale, but also the risk-hedging ability to face market vagaries.

Opportunity and Threats

Opportunity

The industry is supported by factors such as the availability of low-cost skilled labour and low-cost steel production. India's automobile industry has the potential to generate up to USD 300 billion in revenue by FY 2026, generating 65 million additional jobs and contributing over 12% to India's GDP.

The Government's push to develop India as a global manufacturing and R&D hub is also lending heavy support to the automobile sector.

India is fast being recognised as a hub for high-quality managerial talent too. Domestic players have been leveraging local talent for driving innovation through R&D centres, driving growth in the medium to long-term. In the next few years, the automobile sector is expected to record robust growth, given the infrastructure push from the Government and schemes like PMGSY.

The opportunities generated by the disruptions are changing the competitive game for players willing to step beyond their traditional roles and engage with customers in a new and digital environment.

Threats

The presence of a large number of players, domestic as well as multinational, in the automobile industry, results in intense competition. Moreover, the Government of India's aim to propel the Indian Automotive Industry to be the engine of the "Make in India" programme will intensify competition as existing entities will have to compete with established as well as new entrants into the market, which enjoy some privileges under the "Make in India" initiative.

Segment-wise or products-wise performance

INDEPENDENT AUDITOR'S REPORT

To The Members of HIM TEKNOFORGE LIMITED

Report on the audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone Ind AS financial statements of HIM TEKNOFORGE LIMITED ("the Company"), which comprise the Balance Sheet as at March 31, 2024, the Statement of Profit and Loss (including other comprehensive income), the Cash Flow Statement, the Statement of Changes in Equity for the year ended on that date and a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "standalone financial statements")

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone Ind AS financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015 as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, its profit and total comprehensive income, changes in equity and its cash flow for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone Ind AS financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the audit of the standalone financial statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone Ind AS financial statements under the provisions of the Companies Act, 2013 and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone Ind AS financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Information Other than the Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprise the information included in the Management Discussion and Analysis, Board's Report including Annexures to the Board's Report, Business Responsibility Report, Corporate Governance and Shareholders' information, but does not include the standalone financial statements and our auditors' report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with standalone Ind AS financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Standalone Ind AS Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of Companies Act, 2013 ("the Act") with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, cash flows and changes in equity of the Company in accordance with Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Company's reporting process.

Auditors' Responsibilities for the audit of the Standalone Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Standalone Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is high level of assurance, but is not a guarantee that an audit conducted in accordance with the SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decision of users taken on the basis of these standalone Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify

our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone Ind AS financial statements, including the disclosures, and whether the standalone Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that individually or in aggregate, makes it probable that economic decision of a reasonably knowledgeable user of the standalone financial statement may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our works and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone Ind AS financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on other Legal and Regulatory Requirements

1. As required by the Companies (Auditors' Report) Order, 2020 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the 'Annexure A', a statement on the matters specified in paragraphs 3 and 4 of the Order.

**ANNEXURE B' TO THE INDEPENDENT AUDITORS' REPORT
Report on the Internal Financial Controls under Clause (i) of
Section 3 of Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls with reference to standalone financial statements of **HIM TEKNOFORGE LIMITED** ("the Company") as of March 31, 2024 in conjunction with our audit of the Standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the

Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, with reference to standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the Standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to standalone financial statements.

Meaning of Internal Financial Controls over with reference to standalone financial statements

A Company's internal financial control with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with reference to standalone financial statements

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial

control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system with reference to standalone financial statements and such internal financial controls with reference to standalone financial statements were operating effectively as at March 31, 2024, based on the internal control with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

1(A) Company Overview

The Company ("Him Teknoforge Limited - formerly known as Gujarat Automotive Gears Limited, "HTL") is an existing public limited company incorporated on 27/03/1971 under the provisions of the Indian Companies Act, 1956 and deemed to exist within the purview of the Companies Act, 2013, having its registered office at Village Billanwali, Baddi, Dist. Solan (HP) - 173205. Pursuant to the Order dated 9th January, 2018 of Hon'ble National Company Law Tribunal, Chandigarh Bench, M/s Him Teknoforge Limited is merged with M/s Gujarat Automotive Gears Limited with appointed dated 1st April, 2016 and the name of Gujarat Automotive Gears Limited is changed to Him Teknoforge Limited as per the Scheme of Amalgamation. The Company offers a diverse range of products and services including manufacturing, sales, distribution and marketing of automotive, non-automotive and engineering components like Alloy Steel Forgings, Gears, Shafts, Axles, Assemblies & sub-assemblies, etc.. The equity shares of the Company are listed on BSE Limited ("BSE"). The financial statements are presented in Indian Rupee (₹).

1(B) Statement of Compliance & basis of preparation of financial statements:

i) Compliance with Ind AS

The financial statements Complies in all material aspects with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under Section 133 of the Companies Act, 2013 (the "Act") and other relevant provisions of the Act and other accounting principles generally accepted in India.

The financial statements were authorized for issue by the Company's Board of Directors on 30th May 2023.

These financial statements are presented in Indian Rupees (INR), which is also the functional currency. All the amounts have been rounded off to the nearest lakhs, unless otherwise mentioned.

ii) Historical cost convention

The Company follows the mercantile system of accounting and recognizes income and expenditure on an accrual basis. The financial statements are prepared under the historical cost convention, except in case of significant uncertainties and except for the following:

- Certain financial assets and liabilities (Including Derivative Instruments) that are measured at fair value;
- Defined benefit plans where plan assets are measured at fair value.
- Investments are measured at fair value.

iii) Current and Non Current Classification.

All assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of products and the time between the acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current - non-current classification of assets and liabilities.

2 (Significant Accounting Policies)

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

(A) Use of estimates and judgements

The preparation of financial statements requires management to make judgments, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Continuous evaluation is done on the estimation and judgments based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised prospectively.

(B) Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(I) Financial Assets

(i) Classification

The Company classifies its financial assets in the following measurement categories:

- Those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss); and
- Those measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

- For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income.
- For investments in debt instruments, this will depend on the business model in which the investment is held.
- For investments in equity instruments, this will depend on whether the Company has made an irrevocable election at the time of initial recognition to account for the equity investment at fair value through other comprehensive income.

The Company reclassifies debt investments when and only when its business model for managing those assets changes.

(ii) Measurement

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not measured at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

(a) Debt instruments

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortised cost. A gain or loss on a debt investment that is subsequently measured at amortised cost and is not part of a hedging relationship is recognised in profit or loss when the asset is derecognised or impaired. Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other income or other expenses (as applicable). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit or loss (FVTPL): Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other income or other expenses (as applicable) in the period in which it arises. Interest income from these financial assets is included in other income or other expenses, as applicable.

(b) Equity instruments

The Company subsequently measures all equity investments at fair value. Where the Company's management has selected to present fair value gains and losses on equity investments in other comprehensive income and there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments are recognised in profit or loss as other income when the Company's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in other income or other expenses, as applicable in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

(iii) Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For Trade receivables company provides when there is a significant uncertainty arise for recovery.

(iv) Derecognition of financial assets

A financial asset is derecognised only when -

- (a) The Company has transferred the rights to receive cash flows from the financial asset or
- (b) Retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Company evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Company has not retained control of the financial asset. Where the Company retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

(II) Financial Liabilities**(i) Measurement**

Financial liabilities are initially recognised at fair value, reduced by transaction costs (in case of financial liability not at fair value through profit or loss), that are directly attributable to the issue of financial liability. After initial recognition, financial liabilities are measured at amortised cost using effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash outflow (including all fees paid, transaction cost, and other premiums or discounts) through the expected life of the financial liability, or, where appropriate, a shorter period, to the net carrying amount on initial recognition. At the time of initial recognition, there is no financial liability irrevocably designated as measured at fair value through profit or loss.

(ii) Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

(C) Financial guarantee contracts

Financial guarantee contracts are recognised as a financial liability at the time the guarantee is issued. The liability is initially measured

at fair value and subsequently at the higher of the amount determined in accordance with Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets and the amount initially recognised less cumulative amortization, where appropriate.

(D) Segment Report

The Company operates in single segment only. The company identifies & monitors Auto Parts as the primary business Segment

(E) Inventories Valuation

(i) Raw materials, components, stores & spares, packing material, semi-finished goods & finished goods are valued at lower of cost and net realisable value.

(ii) Cost of Raw Materials, components, stores & spares and packing material is arrived at FIFO and Cost of semi-finished good and finished good comprises, raw materials, direct labour, other direct costs and related production overheads.

(iii) Scrap is valued at net realisable value.

(F) Cash and cash equivalents

Cash and cash equivalents includes cash in hand, deposits with banks, other short term highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes outstanding bank overdraft shown within current liabilities in statement of financial balance sheet and which are considered as integral part of company's cash management policy.

(G) Income tax, deferred tax and dividend distribution tax

The Income tax expense or credit for the year is the tax payable on the current year's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

Current and deferred tax is recognised in the profit and loss except to the extent it relates to items recognised directly in equity or other comprehensive income, in which case it is recognised in equity or other comprehensive income respectively.

(i) Current income tax

Current tax charge is based on taxable profit for the year. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date where the Company operates and generates taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Current tax assets and tax liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and Company intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

(ii) Deferred tax

Deferred tax is provided using the liability method on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements at the reporting date. Deferred tax assets are recognised to the extent that it is probable that future taxable income will be available against which the deductible temporary differences, unused tax losses, depreciation carry-forwards and unused tax credits could be utilised.

Deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss).

Deferred tax assets and liabilities are measured based on the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date.

The carrying amount of deferred tax assets is reviewed at each reporting date and adjusted to reflect changes in probability that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred income tax assets and liabilities are off-set against each other and the resultant net amount is presented in the Balance Sheet, if and only when, (a) the Company has a legally enforceable right to set-off the current income tax assets and liabilities, and (b) the deferred income tax assets and liabilities relate to income tax levied by the same taxation authority.

Minimum Alternate Tax credit is recognised as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

(iii) Tax on Dividend

Company is required to pay/distribute dividend after deducting the applicable withholding income tax as per the extant Income Tax Laws.

(H) Property, plant and equipment

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as at 1 April 2016 measured as per the previous GAAP and used those carrying value as the deemed cost of the property, plant and equipment.

- (i) Freehold land is carried at historical cost including expenditure that is directly attributable to the acquisition of the land.
- (ii) All other items of property, plant and equipment are stated at cost less accumulated depreciation. Cost includes expenditure that is directly attributable to the acquisition of the items.
- (iii) Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.
- (iv) Cost of Capital Work in Progress ('CWIP') comprises amount paid towards acquisition of property, plant and equipment outstanding as of each balance sheet date and construction expenditure, other expenditures necessary for the purpose of preparing the CWIP for its intended use and borrowing cost incurred before the qualifying asset is ready for intended use. CWIP is not depreciated until such time as the relevant asset is completed and ready for its intended use.
- (v) Depreciation methods, estimated useful lives and residual value
 - (a) Fixed assets are stated at cost less accumulated depreciation.
 - (b) Depreciation is provided on a pro-rata basis on the straight-line method over the estimated useful lives of the assets which is as prescribed under Schedule II to the Companies Act, 2013. In respect of Plant and Machinery the management has estimated the useful life as forty years for the Plant & Machinery installed at its Forging Units and thirty years for the Plant & Machinery installed at its Machining Units and for Electrical installation the useful life is taken as twenty five years based on internal assessment and independent technical evaluation carried out by the Chartered Engineer. Management believes that the useful lives considered as mentioned herein, best represent the period over which it expects to use these assets. The depreciation charge for each period is recognised in the Statement of Profit and Loss, unless it is included in the carrying amount of any other asset. The useful life, residual value and the depreciation method are reviewed at least at each financial year end. If the expectations differ from previous estimates, the

changes are accounted for prospectively as a change in accounting estimate.

- (vi) Tangible assets which are not ready for their intended use on reporting date are carried as capital work-in-progress.
- (vii) The residual values are not more than 5% of the original cost of the asset. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. Estimated useful lives, residual values and depreciation methods are reviewed annually, taking into account commercial and technological obsolescence as well as normal wear and tear and adjusted prospectively, if appropriate. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other expenses or other income as applicable.

(I) Intangible assets

On transition to Ind AS, The Company has elected to continue with the carrying value of all of its intangible assets recognised as at 1 April 2016 measured as per the previous GAAP and used those carrying value as the deemed cost of the intangible assets.

- (i) An intangible asset shall be recognised if, and only if: (a) it is probable that the expected future economic benefits that are attributable to the asset will flow to the Company and (b) the cost of the asset can be measured reliably.
- (ii) Cost of technical know-how and the expenditure incurred on Product Design and Development has been amortized over a period of ten years.
- (iii) Computer software is capitalised where it is expected to provide future enduring economic benefits. Capitalisation costs include licence fees and costs of implementation / system integration services. The costs are capitalised in the year in which the relevant software is implemented for use. The same is amortised over a period of 3 years on straight-line method for the Units at Vadodra and in respect of other units as per the estimated useful life as per Schedule III to the Companies Act, 2013.

(J) Leases

(i) As a lessee

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the company as lessee are classified as operating leases. The Company's lease asset classes consist primarily of land and buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset. At the date of commencement of the lease, the Company recognizes a right-of-use (ROU) asset and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of 12 months or less (short-term leases) and low value leases.

For these short-term and low-value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The ROU assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses. ROU assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset. ROU assets are evaluated for recoverability whenever events or changes in circumstances indicate that

their carrying amounts may not be recoverable.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases.

Lease liabilities are remeasured with a corresponding adjustment to the related ROU asset if the Company changes its assessment of whether it will exercise an extension or a termination option. Lease liability and ROU assets have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

(ii) As a lessor

Lease income from operating leases where the Company is a lessor is recognised in income on a straight-line basis over the lease term unless the receipts are structured to increase in line with expected general inflation to compensate for the expected inflationary cost increases. The respective leased assets are included in the balance sheet based on their nature.

(K) Revenue Recognition

(I) Ind As 115 "Revenue from contracts with customers" provides a control -based revenue recognition model and provides a five step application approach to be followed for revenue recognition.

1. Identify the contract(s) with a customer;
2. Identify the performance obligations;
3. Determine the transaction price;
4. Allocate the transaction price to the performance obligations;
5. Recognise revenue when an entity satisfies performance obligation.

Revenue from contracts with customers is recognised when control of goods or services are transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services.

a) Sale of Goods

For sale of goods, revenue is recognised when control of the goods has transferred at a point in time i.e when the goods have been delivered to the specific location (delivery). Following delivery, the customer has full discretion over the responsibility, manner of distribution, price to sell the goods and bears the risks of obsolescence and loss in relation to the goods. A receivable is recognised by the Company when the goods are delivered to the customer as this represents the point in time at which the right to consideration becomes unconditional, as only the passage of time is required before the payment is due.

b) Contract Balances

Trade receivables:

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e only the passage of time is required before payment of the consideration is due).

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due from the customer. If the company transfers goods or services to the customer, a contract liability is recognised when payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company delivers goods.

c) Cost to obtain a contract

The Company pays sales commission to its selling agents for each contract that they obtain for the Company, The Company has elected to apply the optional practical expedient for costs to obtain a contract which allows the Company to immediate expense sales commission (included in sales promotion expense under other expenses) because the amortisation

period of the asset that the Company otherwise would have used is one year or less.

(II) Sales of Services

Revenue from rendering of services is recognized when the performance of agreed contractual task has been completed.

(III) Other Income

(i) Interest Income

Interest income from debt instruments is recognised using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of a financial asset. When calculating the effective interest rate, the group estimates the expected cash flows by considering all the contractual terms of the financial instrument (for example, prepayment, extension, call and similar options) but does not consider the expected credit losses.

(ii) Dividends

Dividends are recognised in profit or loss only when the right to receive payment is established, it is probable that the economic benefits associated with the dividend will flow to the group, and the amount of the dividend can be measured reliably.

(iii) Export Benefits

In case of sale made by the Company as manufacturer, export benefits arising from Duty Drawback scheme, Rebate of state levies (LOSL), and Rebate of State and Central Taxes and Levies (ROSC TL), are recognised on sale of such goods in accordance with the agreed terms and conditions with customers.

Revenue from exports benefits measured at the fair value of consideration received or receivable net of returns and allowances, cash discount, trade discount and volume rebates.

(L) Employee Benefit

(i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Other long-term employee benefit obligations

The liabilities for earned leave are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. They are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the appropriate market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

(iii) Post-employment obligations

The group operates the following post-employment schemes:

(a) Defined benefit plan:

Defined benefit obligation plans and other long term benefits - The present value of the obligation under such plans is determined based on an actuarial valuation, using the projected Unit Credit Method. Actuarial gains and losses arising on such valuation are recognized immediately in the statement of profit & loss . In case of

gratuity, which is combination of funded plan with the Life Insurance Corporation Of India and unfunded plan, the fair value of the plan assets is reduced from the gross obligation under defined benefit plans to recognize the obligation on net basis. The liability for Earned Leave has been provided as per the Actuarial valuation as at the end of the accounting year.

(b) Defined Contribution plan:

Employees benefits in the form of contribution to Provident Fund managed by Government Authorities, Employees State Insurance Corporation and Labour Welfare Fund are considered as defined contribution plan and the same are recognized as expenses as and when it accrues and is charged in statement of Profit & Loss of the year. Post employment benefits (e.g. gratuity) is recognized as expense based on actuarial valuation at the year end or elsewhere cash accumulation policy of Life Insurance Corporation of India has been obtained, the premium paid to the Life Insurance Corporation during the year has been treated as an expense.

(M) Foreign currency translation

(i) Functional and presentation currency

Items included in the financial statements of the Company are measured using the currency of the primary economic environment in which the Company operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is Company's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are generally recognised in profit or loss. All the foreign exchange gains and losses are presented in the statement of Profit and Loss on a net basis within other expenses or other income as applicable.

(N) Borrowing Cost

(i) Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

(ii) Borrowings are classified as current financial liabilities unless the entity has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long-term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

(O) Earnings per share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company; and

- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year.

ii) Diluted earnings per share

Diluted earnings per share adjust the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares; and

- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

(P) Impairment of Assets

Intangible assets that have an indefinite useful life are not subject to amortization and are tested annually for impairment or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets that suffered impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

(Q) Provisions, contingent liabilities and contingent assets

(i) Provisions:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to a provision is presented in the statement of profit and loss.

(ii) Contingent liabilities:

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognised because it cannot be measured reliably. The Company does not recognise a contingent liability but discloses its existence in the financial statements.

(iii) Contingent Assets: Contingent Assets are disclosed, where an inflow of economic benefits is probable.

(R) Investments

On transition to Ind AS, equity investments are measured at fair value, with value changes recognised in Other Comprehensive Income, except for those mutual fund for which the Company has elected to present the fair value changes in the Statement of Profit and Loss.

(S) Trade receivables

Trade receivables are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

(T) Trade and other payables

These amounts represent liabilities for goods and services provided to the Company prior to the end of financial year which are unpaid. Trade and other payables are recognised, initially at fair value, and subsequently measured at amortised cost using effective interest rate method.

(U) Operating Cycle

Based on the nature of products/activities of the Company and the normal time between acquisition of assets and their realisation in cash or cash equivalents, the Company has determined its operating cycle as 12 months for the purpose of classification of its assets and liabilities as current and non current.

(V) Foreign Exchange Risk Management Policy

Foreign exchange risk refers to the losses that an international financial transaction may incur due to currency fluctuations. Exchange rate volatility is unpredictable since there are many factors that affect the movement of the exchange rates i.e. economic fundamentals, monetary policy, fiscal policy, global economy, speculation, domestic and foreign political issues, market psychology, being some of them. The exchange rate volatility poses a risk, called foreign exchange risk or currency risk, to business sector, in particular, the importers and exporters or those ones who associate with international businesses. Although businesses cannot control the fluctuation of the exchange rates but they can manage the risk by using proper hedging tools e.g. Forward, Futures, and Options, in order to manage their revenues and costs, assets and liabilities, more efficiently.

The company exports Automotive Components to known customers in the overseas market and take forward booking keeping in view the forward markets. In certain position exports are kept in open position, however, the position is reviewed at regular intervals and decision with regard to the hedge is taken based on situation and factors prevalent at the time. For long term commitments, e.g., forex commitments in the nature of term loans, the company has a policy to completely hedge the total exposure.

(W) Government Grants/Subsidy:

Government Grants are recognised only when there is reasonable assurance that the entity will comply with the conditions attaching to them and grant will be received.

Subsidy/Grants related to assets are presented in the Balance Sheet as Deferred income which is recognised in the Statement of profit & loss under the head " other income' on systematic basis over the useful life of the assets.

Subsidy/Grants related to the expenses are treated in the Statement of Profit & Loss under the head for which the grants are intended to compensate.

(X) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest rupees lakhs , unless otherwise stated as per the requirement of Schedule III (Division II).

Notes forming Integral part of financial statements for the year ended 31st March, 2024 (All amounts are in Rs. lakhs, unless otherwise stated)

(A) Credit Risk

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. Credit risk encompasses the direct risk of default, risk of deterioration of creditworthiness as well as concentration risks. The Company is exposed to credit risk from its operating activities (primarily trade receivables), deposits with banks and loans given.

Credit Risk Management

For financial assets the Company has an investment policy which allows the Company to invest only with counterparties having credit rating equal to or above AAA and AA. The Company reviews the creditworthiness of these counterparties on an ongoing basis. Another source of credit risk at the reporting date is from trade receivables as these are typically unsecured. This credit risk has always been managed through credit approvals, establishing credit limits and continuous monitoring the creditworthiness of customers to whom credit is extended in the normal course of business. The Company estimates the expected credit loss based on past data, available information on public domain and experience. Expected credit losses of financial assets receivable are estimated based on historical data of the Company. The company has provisioning policy for expected credit losses. There is no credit risk in bank deposits which are demand deposits. The creditors risk is minimum in case of entity to whom loan has been given.

(B) Liquidity Risk

The Company's principal sources of liquidity are "cash and cash equivalents" and cash flows that are generated from operations. The Company has outstanding term borrowings. The Company believes that its working capital is sufficient to meet its current as well as long term borrowing repayment requirements. The company has significant high receivables & liquid inventory compared to payable, hence significantly low liquidity risk.

(C) Market risk

Foreign currency risk

The Company significantly operates in domestic market. Though part of the sales is from Exports, however foreign currency risk towards export is insignificant considering the timely realisation thereof.

The Company also imports certain materials the value of which is also not material as compared to value of total raw materials. Currently, Company does not hedge this exposure. Nevertheless, Company may wish to hedge such exposures.
