NILANJAN ROY TO STEP DOWN

Sanghrajka to be new Infosys CFO

FE BUREAU Bengaluru, December 11

INFOSYS, THE COUNTRY'S second-largest software services exporter, on Monday appointed Jayesh Sanghrajka, a company veteran of nearly two decades, as its chief financial officer (CFO), with effect from April 1, 2024.

Sanghrajka will succeed Nilanjan Roy, who has decided to step down to pursue personal aspirations.

Roy's resignation comes at a time when Infosys as well as its tier-I IT services peers have been witnessing several top-level exits. Earlier, former presidents Ravi Kumar S and Mohit Joshi had quit the company.

Sanghrajka, who has a work experience of 25 years, has worked at Infosys for 18 years — first from 2000-2007 and currently since December 2012. He was appointed the deputy CFO in October 2015 and is responsible for various ar-

Nilanjan Roy (left) will continue at the company till March 31; Jayesh Sanghrajka was the deputy CFO since October 2015

reas, including investor relations, business finance, corporate finance, treasury and tax. He also oversees the mergers and acquisitions portfolio of the company.

"As the deputy CFO, he has been leading multiple portfolios in the finance function for several years now and his depth of experience and knowledge will serve us well to take the function to greater heights," Infosys CEO and MD Salil Parekh said.

Roy will continue in his position till March 31, the company said in an exchange filing. He was appointed the CFO in 2018. During his time, Infosys shares have jumped about 44% till date from the start of 2018. Before joining Infosys, he served as the global CFO of telecom major Bharti Airtel, managing the financial operations for India and Africa. He has also worked with Unilever for its operations across India, Europe and the US.

Travel sector revenue may jump 12-14% in FY25: Crisil

PRESS TRUST OF INDIA Mumbai, December 11

HIGHER AIRFARES AND volume, which reached the pre-pandemic levels across segments, including long-haul travels, will help the tour and travel sector report healthy revenue growth of 12-14% next fiscal on the back of a record 30% growth this fiscal, says a report.

The double-digit growth seen for the next fiscal comes on the heels of a record high growth in the current fiscal, wherein the sector is poised for a revenue growth of 30%,

which is about 18% above the pre-pandemic peak, Crisil said in the report.

The report also expects higher revenue growth to cushion the increased outgoes by way of the revised tax rates on tax collected at source on overseas travel packages which is in an upswing as the visa-related curbs are easing.

Operating margin, too, is expected to be healthy at above 6.5% this fiscal and the next, despite the higher promotional spends, backed by operating leverage benefits and various cost optimisation/automation initiatives since the pandemic,

says the report which is based on the numbers of four major travel operators (Thomas Cook, Makemytrip, Yatra and Ease-mytrip) accounting for 60% of the revenue.

According to Poonam Upadhyay, a director with the agency, growing overseas travel and the rising demand for short getaways are propelling the growth of tour and travel operators.

The TCS rate hike may have a limited impact on demand as expenditure per individual per trip is usually much less than the ₹7 lakh threshold for over 80% of tour packages.
