### Camlin Fine Sciences Limited Investor Presentation – August 2024

## Safe Harbour

This presentation and the accompanying slides (the "Presentation"), which have been prepared by **Camlin Fine Sciences Limited** (the "Company"), have been prepared solely for information purposes and do not constitute any offer, recommendation or invitation to purchase or subscribe for any securities, and shall not form the basis or be relied on in connection with any contract or binding commitment whatsoever. No offering of securities of the Company will be made except by means of a statutory offering document containing detailed information about the Company.

This Presentation has been prepared by the Company based on information and data which the Company considers reliable, but the Company makes no representation or warranty, express or implied, whatsoever, and no reliance shall be placed on, the truth, accuracy, completeness, fairness and reasonableness of the contents of this Presentation. This Presentation may not be all inclusive and may not contain all of the information that you may consider material. Any liability in respect of the contents of, or any omission from, this Presentation is expressly excluded.

This presentation contains certain forward looking statements concerning the Company's future business prospects and business profitability, which are subject to a number of risks and uncertainties and the actual results could materially differ from those in such forward looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in earnings, our ability to manage growth, competition (both domestic and international), economic growth in India and abroad, ability to attract and retain highly skilled professionals, time and cost over runs on contracts, our ability to manage our international operations, government policies and actions regulations, interest and other fiscal costs generally prevailing in the economy. The Company does not undertake to make any announcement in case any of these forward looking statements become materially incorrect in future or update any forward looking statements made from time to time by or on behalf of the Company.

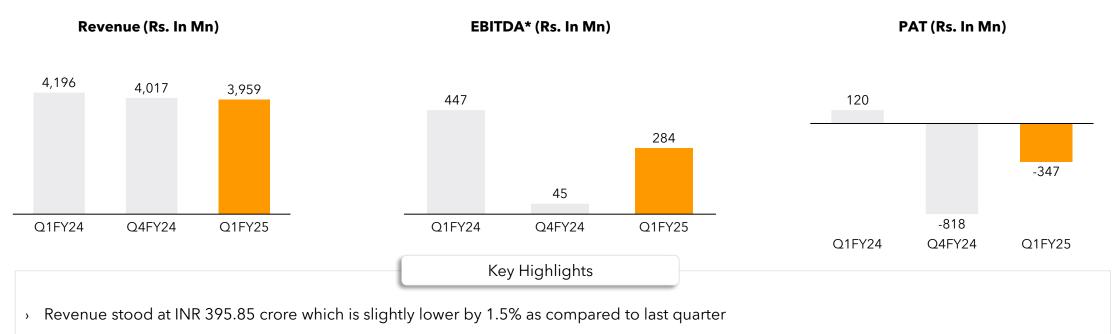

# **Performance Highlights - Q1 FY 25**

# **Q1FY25** Performance Highlights

- > The gross margins are at 44.9% as compared to 34.9% in last quarter
- > Margins are facing pricing headwinds, sluggish global demand and increasing raw material prices
- > Sustained dominance in Blends business with a growth of 13.4% quarter on quarter which is expected to continue
- > EBITDA margins improved by 606 bps but will remain under pressure
- > Profitability was further impacted by foreign exchange volatility in South American subsidiaries
- > Vanillin Plant commenced campaign for Vanillin at the end of May 2024 and we expect ramp of sales from the later part of Q2 FY 25
- Inorganic growth in Blends expected in future with successful acquisition of Vitafor Invest NV Belgium with its product portfolio and presence in North African & East European markets

### **Innovation at Work**

# **F**S

- Vanillin Production Optimization: Continuous improvement at our new Dahej plant, refining processes and setting a future oriented strategic direction
- HQ Derivatives Process: Developed a novel, process with improved selectivity for producing HQ derivatives from alternate routes. This initiative is presently being evaluated and is a promising step to enhance our capabilities
- **Dyes & Pigments:** R&D efforts have paved way for new processes tailored for dyes and pigment industry, including a pioneering zero liquid discharge process that effectively addresses critical impurity challenges
- Animal Nutrition: Dedicated to the continuous improvement and development of products using technical expertise of CS Dresen and customizing products to suit the market needs, anticipated for the upcoming year
- **Quality Enhancements:** Focused on Analytical and Quality Enhancements through Instrumental Analysis and Method Development, which play critical roles in ensuring the integrity and efficacy of our products

#### **Product Development:**

- **High-Quality Hydroquinone**: Developing a high-quality specialized grade for Hydroquinone, leading to the crucial phase of conducting plant trials
- Antioxidant Innovations: Successfully developed and implemented enhanced quality of antioxidants, tailored specifically for discerning customers. These products have smoothly transitioned from R&D to full scale production and have already made market debut
- Naturals & Emulsifiers: Newest offerings include emulsifier-based ingredients designed to enhance texture, consistency, mouthfeel, appearance, process efficiency and yield for diverse range of food industry applications
- **Upcoming Products:** FY2024-25 will see the commercialization of many new products, which includes products in Dyes & Pigments and Agrochemicals.

### **Powered by Vertical Integration**

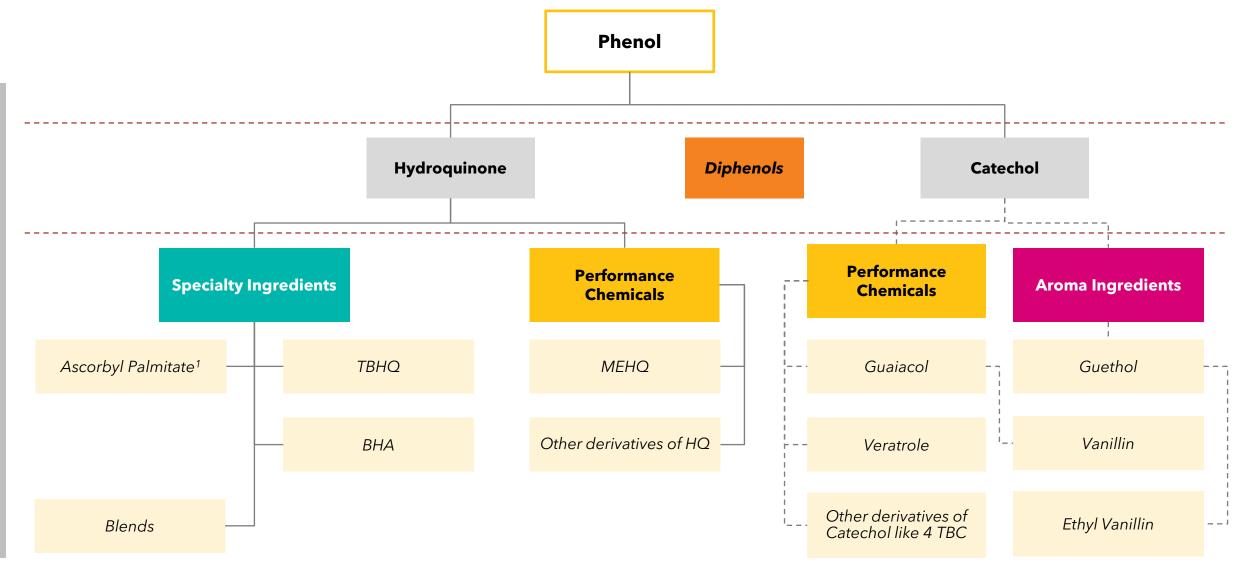

- Efforts in both organic and inorganic expansions, showcases company's commitment to fortifying position in the market
- Strategic focus on captive consumption ensures utilization of raw materials for downstream products
- Strategic forward integration into Blends and Vanillin swings company's business model to high-value additives / solutions

## Way Forward

### **Specialty Ingredients**

- Maintaining market leadership for Antioxidants
- Increasing focus on high margin blends and additives. These formulations are specifically tailored to meet the diverse needs of the industry
- Widen portfolio to provide a comprehensive solution for the food, pet food, biodiesel, livestock and aquaculture industries

### **Performance Chemicals**

- Aim to expand Diphenol chain, specifically focusing on expanding downstream products
- Introduction of new products like CME, Chloranil, Napthol etc.
- Increasing manufacturing capacity of existing products through debottlenecking (MEHQ)
- Aim to give a major impetus to the 'Make in India' initiative by launching exciting products

### **Aroma Ingredients**

- Introduce specialized and customized products within the vanillin range, catering to diverse application needs
- Actively pursuing an expansion in the aroma industry
- The production of Ethyl Vanillin and vanillin ex-clove (natural vanillin) completes comprehensive range of Vanillin offerings for the market
- Aim to achieve optimum capacity utilization in coming years
