Annexure A

Brief Proceedings of the 59th Annual General Meeting of the Company held on Friday, September 20, 2024:

The 59th Annual General Meeting (AGM) of the Company was held on Friday, September 20, 2024 at 11:30 a.m. through Video Conferencing (VC) / Other Audio Visual Means (OAVM), in accordance with the relevant circulars issued by the Ministry of Corporate Affairs and the Securities and Exchange Board of India.

Mr. Ashank Desai, Chairman of the Company took the Chair and after ascertaining the quorum, called the meeting to order at 11:30 a.m. Sixty-Six Shareholders were present through video conferencing. The Chairman then commenced the proceedings by welcoming the shareholders and introducing the Directors. The Chairman confirmed the presence of the Chairpersons of the Audit Committee, Nomination and Remuneration Committee, the Stakeholders Relationship Committee and Risk Management Committee. Mr. Raman Malhotra, Chief Financial Officer and Ms. Shruti Joshi, Company Secretary were in attendance. The Chairman then informed that the representatives of the Statutory Auditors and Secretarial Auditors of the Company were also present.

Thereafter, the Chairman with the permission of shareholders, took the Notice of AGM dated May 27, 2024, already sent to the shareholders as read. The Chairman then confirmed that the Statutory Auditors Report did not contain any qualifications, and that the observation contained in the Secretarial Audit Report has been suitably clarified in the Board's Report and hereby could be taken as read.

The Chairman further informed the shareholders that there was no proxy facility available for the meeting, as the facility was dispensed by the Ministry of Corporate Affairs for AGM conducted through VC, while other statutory registers were available for inspection electronically. The Chairman then informed the shareholders that pursuant to Section 108 of the Companies Act, 2013 read with relevant Rules thereon and Regulation 44 of the Listing Regulations, the Company had provided the facility of remote e-voting for voting on the resolutions contained in the Notice calling the AGM and also facility of e-voting was made available at AGM venue to facilitate those shareholders who did not exercise their vote through remote e-voting. He further informed that Mr. Upendra Shukla, Practicing Company Secretary, was appointed as the Scrutinizer to scrutinize the process of remote e-voting and e-voting at the Meeting.

Thereafter the Chairman addressed the meeting, inter-alia, highlighting the industry scenario, financial performance of the Company and future outlook etc.

The Chairman's speech to the shareholders at the AGM is provided below:

Chairman's speech:

Ladies and Gentlemen:

It gives me great pleasure to welcome you to the 59th Annual General Meeting of NRB Bearings Limited.

Economic Environment and Company Performance

The global economy has proved to be surprisingly resilient, with global economic growth at 3 per cent during this year amid tight monetary policy, restrictive financial conditions, and feeble global trade and investment. Downside risks include an escalation of the recent conflict in the Middle East coming on top of Russia's invasion of Ukraine, financial stress, persistent inflation, trade fragmentation, and climate-related disasters.

Due to the restrictive monetary policies adopted by most Central Banks and the easing of supply side pressures, the IMF projected global headline inflation rate is expected to decrease to 5.8% in 2024 and 4.4% in 2025. Being assured of a soft landing, largely due to resilience in the United States and several large emerging markets and developing economies, the IMF is expecting the global economy to grow by 3.2% to 3.5% through 2024 and 2025. The outlook is better than what was anticipated a few months back. Advanced economies are expected to see growth decline slightly in 2024 before rising in 2025, with a recovery in the euro area from low growth in 2023 and a moderation of growth in the United States. Emerging market and developing economies are expected to experience stable growth through 2024 and 2025, with regional differences.

India's economic performance in recent years demonstrates substantial growth; strong domestic demand for consumption and investment, along with Government's continued emphasis on capital expenditure are seen as among the key drivers of the GDP in FY 2023-24. The IMF expects the Indian economy to grow by 6.5% in FY 2024-25 following resilience in domestic demand. India is expected to remain the fastest growing major economy for the next three years, putting it on track to become the world's third-largest economy by 2030, overtaking Japan and Germany.

The government's focus on infrastructural development, digital transformation and policy reforms has created a conducive environment for business expansion. With India's demographic advantages, increasing consumer spending, government's push for energy transition initiatives, manufacturing base expansion and technological advancements, it presents vast growth opportunities.

The automobile sector is one of the key pillars of Indian industry, contributing about 7.5 per cent to our GDP. FY 2023-24 has been an excellent year in terms of car sales and growth, with an 8 per cent increase over the previous year. Through FY 2024-25 and the first half of FY 2025-26, global automobile sales growth is expected to slow to 2.5 per cent from 10 per cent achieved in FY 2023-24, however, India and China are expected to continue to outperform the market.

During FY 2023-24, on a consolidated basis, your Company recorded net revenues of Rs. 1094.03 crores as against Rs. 1057.16 crores for 2022-23, a modest increase of 3.49 per cent. The Company recorded a net profit of Rs. 241.51 crores, an increase of 151.17 per cent over Rs. 96.15 crores for 2022-23 pre-dominantly due to the extraordinary profit from the sale of land. Considering the profits from operations for the year, the interim dividend of 205 per cent, which is Rs. 4.10 per share of face value Rs. 2.00 per share has been considered as the final dividend for FY 2023-24.

Current year Q1

Total Income for Q1 – April to June 2024 at Rs. 253.35 crores was lower by 4.50 per cent as compared to Rs. 265.29 crores the previous quarter. The expected recovery in sales revenues during the July-September 2024 quarter, makes us optimistic of a robust performance in the remaining quarters.

Outlook and business strategies

India's economic growth rate is projected stronger than many peer economies and reflects relatively robust domestic consumption and lesser dependence on global demand. The government's strong infrastructure push, logistics development, and industrial corridor development will contribute significantly to raising industrial competitiveness and boosting future growth. Improving labour market conditions and consumer confidence will drive growth in private consumption. Globalizing has opened

newer avenues for the transportation industry, especially a shift towards electric, electronic and hybrid cars, which are deemed more efficient, safe, and reliable modes of transportation. Over the next decade, this will lead to newer verticals and opportunities for auto-component manufacturers, who are taking to adapt to the changes.

Your Company with its strong engineering capabilities and a global infrastructure with subsidiaries in Thailand, Germany, USA and the UAE has an edge as it is adapting and challenging the status quo via systematic research and development and design engineering. Building competitiveness with agility and innovation, speedy response to the ever changing situation are NRB's strengths. Our strong commitment to growing our global business is resulting in a substantial export order book is another advantage and we expect continuing growth with the re-structuring of our marketing subsidiaries in Europe & USA and the manufacturing facility in Thailand into UAE based NRB Holdings Ltd.

Acknowledgements

I would like to express my deep appreciation for the continued support of our customers and their help in achieving our goal of always delivering value in our journey of growth. To you, our shareholders and our business partners, I extend special thanks for your continuing faith and support in NRB. A special mention and appreciation for Team NRB for their deep level of commitment to the Company, in driving performance to ensure profitable results, and look forward to their continued and valuable support.

The Chairman then invited the shareholders who had registered themselves in advance by sending request from their registered email id to express their views at the AGM. The Vice Chairman & Managing Director addressed the meeting giving the key highlights about Company's performance for FY 2023-24 and addressed the queries raised by shareholders.

The Vice Chairman & Managing Director's address to the shareholders at the AGM is provided below:

It is always a pleasure to interact with you, dear shareholders; virtual meetings seem to be the norm now, and we are happy to host you again today, though in person interactions are always preferred. I would like to take this opportunity to share some key highlights of the past financial year.

Your Company has managed to hold its revenues at Rs. 1023 crores on a standalone basis while there is a growth of 3.5% on consolidated basis, with a revenue of Rs 1094 Crores, in spite of a challenging market situation.

Our financial ratios have always been a differentiator, and I would like to share achievements today-

- *Profit after Tax grew by 3.9% at consolidated level and was at Rs. 99.9 crores for the year.*
- *Consolidated EBITDA Margin is steady at 17.4% for FY24.*
- *ROCE improved to 15.6% in Fiscal 2024*
- *Debt Service Coverage Ratio improved from 3.1 in Fiscal 23 to 4.4 in Fiscal 24 and Debt Equity improved from 0.50 to 0.20*

These profitability numbers do not consider the exceptional gain of Rs.178 Crores arising out of sale of Thane property.

During the financial year 2023-24 in the month of October 2023, there was a fire incident at the Company's plant at Waluj which caused major damage and hampered the revenue of the Company. Though the Company has adequate insurance to cover the losses, we could not fully capitalize on the industry growth in the 2-wheeler segment due to the restoration efforts at the Waluj plant. The repair and restoration is now complete and from the upcoming quarter we will resume production at full capacity.

NRB's competitive advantage is its reputation built on disruptive, transformative asset-light technologies enabling us to partner with the world's most respected mobility customers. Our forte is supporting global OEMs and critical Tier 1 suppliers from Design to Delivery for the latest next generation platforms, while compressing the Launch time frame.

Our R&D Centre spanning over 35000 Sq. Feet; a team of 65 engineers are engaged in new technologies, new product development in new technologies, new products and alternative materials with a focus on sustainability.

We are also a benchmark for implementation of industry 4.0 practices including the use of non-traditional materials through R&D processes, plating technologies, advance manufacturing system including the implementation of robotic technologies on the shop floor.

With a greater focus on the international business, the NRB group supplies to key vehicle manufacturers to 45 countries. We are growing our manufacturing footprint as we are planning to expand our capacity in Thailand and are in the process of setting up a manufacturing footprint in North America for ICE applications, Hybrid and EV applications. We expect all these initiatives to accelerate our growth trajectory.

NRB's core products have been introduced in several new EV applications thanks to our advanced design and manufacturing technology. NRB has been nominated: for the Volvo Electric Trucks FL, FM and FMX series- which is the technology leader in design and manufacturing of premium quality light, medium and heavy commercial vehicles globally; next generation E Drive of Mercedes Benz for EQC and EQA platforms; hybrid electrical axle of Stellantis Jeep Cherokee and Wagoneer; DAF Paccar trucks. NRB has made a breakthrough in new application for supplying parts globally for: steering and steering systems- BMW Hybrid and Electric i3, Stellantis Group, Hyundai and Kia Motors; brake and braking systems- Volvo trucks, Paccar Group; Kind Pin System- Daimler Trucks, Volvo and Foton Trucks; 2 stage Reducer Application – Stellantis Jeep Cherokee, Renault Alpine.

On the domestic front, we are delighted to say that NRB has developed new products for prestigious vehicle manufacturers Maruti Suzuki, Hyundai and Kia through their subsidiaries, Tata Motors, Mahindra and the entire two wheeler industry including Royal Enfield and OLA electric. Our foray into electric and hybrid vehicles continues as India evolves and our global technological prowess in this emerging segment is a huge advantage.

NRB, as an agile and asset light manufacturer, has chosen to invest in fresh capabilities and capacities based on nominations that we have received across different mobility segments.

Most of NRB's recent investments have been in the futuristic products for electric, hybrid and alternative mobility based on requirements from cutting edge global vehicle manufacturers and key Tier 1 suppliers. Many of these applications are E-Agnostic, which essentially means that the application will not be redundant as the transition from ICE to e-mobility plays out.

With that, I would like to thank you all, dear shareholders for the for your unstinting support and the confidence reposed in NRB for which we remain grateful, and assure that the Group is on the right trajectory for growth.

The Company Secretary then invited the shareholders who had registered themselves in advance by sending requests from their registered email ID to express their views at the AGM. Four shareholders i.e. 1. Mr. Yusuf Rangawala, 2) Mr. Aspi Bhesania, 3) Ms. Smita Shah & 4) Mr. Bharat Shah gave their comments on the performance of the Company and appreciated the management. Some queries were raised on the penetration by the Company in the premium vehicle segment & hydrogen fuel segment and the same were responded to by the Vice-Chairman & Managing Director.

The Chairman thanked the Board members and the shareholders for attending the meeting and called the meeting to a close at 12.07 p.m. informing that those shareholders who had not voted through remote e-voting were allowed to cast their votes for 15 minutes and authorised the Company Secretary of the Company to receive the voting results and intimate same to the stock exchanges.

The following resolutions as set out in the Notice convening the AGM were put on vote through remote e-voting and e-voting at the Meeting:
