^{**}Indicator:

1. Regulatory Compliance

Risk:

To ensure timely and effective compliance is the foundation to build the reputation of the Company. It is important to continue to ensure regulatory compliance to build trust among stakeholder groups while also ensuring that operations are

in line with relevant and applicable laws to avoid legal violations. Changes in the regulatory environment could potentially impede the ease of doing business, Non-adherence to regulations and principles might affect reputation and enhance compliance costs.

Mitigation Measures:

The Company has in house professionally managed team to enable comprehensive compliance management framework. Effective control and efficient oversight of the senior management is ensured by cascading the responsibility matrix till the last performer of the activity. The Company's Code of Conduct, training as well as focus on ensuring 100% compliance and continuous monitoring have enabled a mature and digitally-enabled compliance framework.

2. Health and Safety

Risk:

The Company is engaged in construction of buildings. Owing to the nature of the operations, health and safety is identified as a potential risk for business. As productivity can be adversely affected or significantly improved based on Occupational Health and Safety (OHS) performance, ensuring the safety of its employees, workers / employees of contractors and the local communities surrounding project sites is its top-most priority.

Mitigation Measures:

Health and safety is one of the key priorities for the Company. The Company has initiated various steps to strengthen health and safety systems and processes for preventing any safety incidents.

Few of the measures undertaken are:

- Safety, Health and well-being programmes and trainings organized for entire workforce,
- To ensure the accuracy for the same, the Company has appointed EHS Manager
- The Company has a target to ensure zero harm each year, i.e. zero fatalities resulting from its operations; and
- Targeted action plans are implemented to continually improve the performance of EHS management system

3. Data Privacy and Cybersecurity

Risk:

To protect its business, customers, infrastructure and internal users from security threats, it is critical for the Company to focus on data privacy and cybersecurity by implementing measures and strengthening its systems and processes. Cyber-attack incidents may impact reputation and lead to negative financial impact.

Mitigation Measures:

The Company conducts Privacy Impact analysis for its business on a regular basis. It ensures all its business processes follow the Privacy-by-design and privacy-by- default approach. Measures taken by the Company include access to GHCL networks, and certain external services to support functioning of day to day operations. The Company has restricted the usage of Portable media such as USB and portable hard drives for storing or sharing information rated as Confidential or Highly Confidential, unless Information Security has approved the use and other more secure means are not available.

8. Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.

As part of our commitment to reducing GHG emissions, we have undertaken various sustainability initiatives. We have installed solar panels at our project site to harness clean energy. Additionally, to promote water conservation, we have implemented percolation/recharge wells to replenish subsurface groundwater. Also, in support of electric mobility, we have facilitated EV chargers at our project site. Furthermore, we have planted trees along the central verge of NH 8C (32km to 33km & amp; 33.4km to 36.2km) and Hebatpur road, Ahmedabad, covering a total distance of 3.8 km and 2.5 km, respectively. These efforts align with our dedication to environmental responsibility and sustainable practices.
