Toll free number - 1800-309-4001, Email Id: einward.ris@kfintech.com.
- 11. BOOK CLOSURE:** The Register of Members and Transfer Books of the Company will be closed from Saturday, 13th July, 2024 to Wednesday, 24th July, 2024 (both days inclusive) for the purpose of Dividend.
- 12. DIVIDEND:** The dividend, as recommended by the Board of Directors, if approved at the AGM, would be paid, subject to deduction of tax at source, as may be applicable, after Wednesday, 24th July, 2024 to those persons or their mandates: (a) whose names appear as Beneficial Owners as at the end of the business hours on Friday, 12th July, 2024 in the list of Beneficial Owners to be furnished by National Securities Depository Limited and Central Depository Services (India) Limited in respect of the shares held in electronic form; and (b) whose names appear as Members in the Register of

Members of the Company as at the end of the business hours on Friday, 12th July, 2024 in respect of the shares held in physical form.

- 13. ELECTRONIC CREDIT OF DIVIDEND:** SEBI has made it mandatory for all companies to use the bank account details furnished by the Depositories and the bank account details maintained by the Registrar and Transfer Agent for payment of dividend to Members electronically. The Company has extended the facility of electronic credit of dividend directly to the respective bank accounts of the Member(s) through the Electronic Clearing Service (ECS)/ National Electronic Clearing Service (NECS)/ National Electronic Fund Transfer (NEFT)/Real Time Gross Settlement (RTGS)/Direct Credit, etc. As directed by SEBI, the Members holding shares in physical form are requested to submit particulars of their bank account in Form ISR 1 & ISR 2 available on the website of the Company at https://www.mahindralifespaces.com/investor-center/?category=shareholder_information along with the original cancelled cheque bearing the name of the Member to KFin / Company to update their bank account details. Members holding shares in demat form are requested to update their bank account details with their respective Depository Participant ("DP"). The Company or KFin cannot act on any request received directly from the Members holding shares in demat form for any change of bank particulars. Such changes are to be intimated only to the Depository Participants of the Members. Further, instructions, if any, already given by them in respect of shares held in physical form will not be automatically applicable to shares held in the electronic mode. Shareholders are requested to ensure that their bank account details in their respective demat accounts are updated, to enable the Company to provide timely credit of dividend in their bank accounts.

SEBI vide its Master Circular No. SEBI/HO/MIRSD/POD-1/CIR/2024/37 dated 7th May, 2024 ('SEBI Circular') and Circular SEBI/HO/MIRSD/POD1/P/CIR/2024/81 dated 10th June 2024, has mandated that, with effect from 1st April, 2024, dividend to security holders who are holding securities in physical form shall be paid only through electronic mode. Such payment shall be made only after the shareholders furnish their PAN, contact details (postal address with PIN and mobile number), bank account details and specimen signatures (KYC). As per the aforesaid SEBI Circulars, members holding securities in physical form may note that any future dividend payable against their shareholding would be withheld if their KYC is not updated with KFin. To avoid delay in receiving dividend, members are requested to update their bank details with their

Depository Participants, in case the shares are held in dematerialised mode and with KFin Technologies Limited, in case the shares are held in physical mode. As per the SEBI Circular, effective from April 1, 2024, RTA i.e. KFinTech will attend to all service requests of the shareholders with respect to transmission, dividend, etc., only after updating the above details in the records.

For the purpose of updation of KYC, members are requested to send the necessary forms (ISR-1 and ISR-2) along with the necessary attachments mentioned in the said Forms to KFinTech, Selenium Tower B, Plot Nos. 31 & 32, Gachibowli, Financial District, Nanakramguda, Serilingampally, Hyderabad - 500 032.

Alternatively, members may send the documents by email to KFinTech at einward.ris@kfintech.com or upload on their webportal <https://ris.kfintech.com/clientservices/isc/isrforms.aspx>, provided in both cases the documents furnished shall have digital signature of the holders.

- 14. TDS ON DIVIDEND:** Pursuant to the Income Tax Act, 1961, as amended, by the Finance Act, 2020, dividend income will be taxable in the hands of Members w.e.f. April 1, 2020 and the Company is required to deduct tax at source from dividend paid to Members at the prescribed rates. For the prescribed rates for various categories, please refer to the Finance Act, 2020 and the amendments thereof. A resident individual member with PAN and who is not liable to pay income tax can submit a yearly declaration in Form No. 15G/15H, to avail the benefit of non-deduction of tax at source by submitting the details online at <https://ris.kfintech.com/form15/forms.aspx?q=0> on or before Wednesday, 10th July, 2024. Members are requested to note that in case their PAN is not registered or having invalid PAN or they are Specified Person as defined under section 206AB of the Income Tax Act ("the Act"), the tax will be deducted at a higher rate prescribed under section 206AA or 206AB of the Act, as applicable.

ITEM NO. 5:

Ms. Amrita Chowdhury was appointed as a Non-Executive Independent Director on the Board of your Company, pursuant to the provisions of section 149 of the Companies Act, 2013 ("the Act") read with the Companies (Appointment and Qualifications of Directors) Rules, 2014, by the Shareholders at the 21st Annual General Meeting ("AGM") of the Company held on 31st July, 2020 to hold office for a period for 5 years with effect from 13th August, 2019 upto 12th August, 2024 (both days inclusive) ("first term").

Profile:

Ms. Amrita Chowdhury has completed 53 years of age. Ms. Amrita Chowdhury holds degrees in B.Tech. from IIT Kanpur, Master of Science (MS) from UC Berkeley, and MBA from Carnegie Mellon - Tepper Business School. She is a business strategist, engineer and innovator. She brings a unique understanding of business growth, technology, digital spaces and branding. She is the Co-Founder & CEO of Gaia, an information and analytics company providing deep learning SaaS solutions and digital transformation advisory for cities, government, and enterprises. She has led city-scale technology design and program management for multiple smart cities and asset management companies across India. She has been instrumental in building national scale digital platforms for various government departments and missions in India, as well as SaaS products serving clients across India, USA, and Japan. She has won multiple awards as an entrepreneur and is a tech achiever. Previously, she has served as the President of DY Works (Future Group), where she expanded the business with special focus on market research and brand led strategy for government, townships, realty, and digital platforms segments. Prior to that, she was Country Head South Asia for Harlequin (Torstar), where she significantly grew the India portfolio; and Associate Director, Education for South Asia for Harvard Business School.

Prior to moving to India, Ms. Amrita Chowdhury provided Board advisory and strategy consulting for Fortune 100 clients with AT Kearney in USA and Oppeus in Australia serving clients across diverse industries including mining, manufacturing, engineering, legal and professional services, insurance, technology, government, education, auto ancillaries, waste management, and more to provide strategic planning for

new business and business growth, Board evaluations, and Board level strategy workshops. She started her journey in product development with Applied Materials in California, where her work led to innovations that enabled next-gen chip manufacturing.

She holds seven US patents for semi-conductor manufacturing. She is the author of two books. She has written multiple white papers and contributed to policy documents on Smart Cities, Design Thinking, Systems Thinking, and Future of Jobs for various Ministries and industry bodies.

Ms. Amrita Chowdhury is one of the founding team members of Gaia and designated as CEO, is not in full time employment of the private limited company. Ms. Amrita Chowdhury's limited role is monitoring the strategic function of Gaia and does not need full time engagement due to the nature of business. Ms. Amrita Chowdhury has been the Independent Director on the Board of the Company since 2019 and as such during that time as well she was the Founder and CEO of Gaia. However, her attendance and her contribution in the last five years is impeccable which fortifies the fact that she devoted sufficient time as an Independent Director of the Company. Keeping in view her current role and limited responsibilities in the private limited company and other companies where she is a Director, Ms. Amrita Chowdhury would be able to devote sufficient time for her professional obligations as an Independent Director for the second term. Ms. Amrita Chowdhury has 100% attendance at all Board, Audit Committee (member) and Nomination & Remuneration Committee (Chairperson) meetings held during her first term.

The Nomination and Remuneration Committee ("NRC") and the Board of Directors at their respective meetings held on 26th April 2024, on the basis of the outcome of performance evaluation of Ms. Amrita Chowdhury, acknowledged her valuable contribution to the Board and Committees deliberations, business knowledge, acumen, integrity and experience. The performance evaluation of Independent Director was based on various criteria, including attendance at Board and Committee Meetings, skill, experience, ability to challenge views of others in a constructive manner, knowledge acquired with regard to the Company's business, understanding of industry and global trends, etc.

Considering the above attributes, NRC and Board are of the view that continued association of Ms. Amrita Chowdhury as an Independent Director of the Company would be beneficial to the Company. Ms. Amrita Chowdhury's experience and qualification is highly rewarding for any company, considering her expertise in technology, innovations, best practices pertaining to transparency, accountability and corporate governance, international experience in managing businesses, strategic planning and digital transformations for businesses. The skills/expertise possessed by Ms. Amrita Chowdhury are essential for effective functioning of the Company's business. Based on her attendance record, expertise, knowledge, experience, the NRC and Board recommended re-appointment of Ms. Amrita Chowdhury (DIN: 02178520), as a Non-Executive Independent Director of the Company, not liable to retire by rotation, to hold office for a second term of 5 (five) consecutive years on the Board of the Company commencing from 13th August 2024 up to 12th August 2029 (both days inclusive).

The Company has received declaration, including declaration of compliance as per Rule 6(3) of the Companies (Appointment and Qualification of Directors) Rules, 2014 from Ms. Amrita Chowdhury stating that she meets the criteria of independence as prescribed under sub-section (6) of section 149 of the Act and Regulation 16(1)(b) of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations"). Ms. Amrita Chowdhury is not debarred from holding the office of Director pursuant to any Order issued by the Securities and Exchange Board of India (SEBI) or any other authority.

In the opinion of the Board, Ms. Amrita Chowdhury fulfils the conditions for appointment as an Independent Director as specified in the Act and the Listing Regulations. Ms. Amrita Chowdhury is independent of the management.

The Board is of the view that Ms. Amrita Chowdhury's knowledge and experience will continue to be of immense benefit and value to the Company and pursuant to the recommendation of the NRC, recommends her re-appointment as a Non-Executive Independent Director to the Members.

The Company has received notice in writing from a Member under section 160 of the Act, proposing the candidature of Ms. Amrita Chowdhury, for the office of Director of the Company.

In terms of Sections 149 (10) of the Act read with Regulation 25 (2A) of the Listing Regulations, re-appointment of an independent director is subject to the approval of shareholders by way of a special resolution.

The Board recommends the Special Resolution set out at Item No. 5 of the Notice for approval of the Members.

Save and except Ms. Amrita Chowdhury, and her relatives to the extent of their shareholding interest, if any, in the Company, none of the other Directors, Key Managerial Personnel (KMP) of the Company and their relatives are, in any way, concerned or interested, financially or otherwise, in the Resolution set out at Item No. 5 of the Notice.

ITEM NO. 6

At the 16th Annual General Meeting ("AGM") held on 31st July 2015, the Members of the Company had approved, under the provisions of Section 197 of the Companies Act, 2013 ("Act") and other applicable provisions thereunder, payment of commission on net profit to the Non-Executive Directors ("NEDs") of the Company, the aggregate of which shall not exceed 1% of the net profit of the Company from April 1, 2015 onwards and such net profit referred under Section 197 of the Act shall be computed in accordance with the provisions of Section 198 of the Act and Rules framed thereunder.

In terms of Section 198 read with Schedule V to the Act, in the event of no/ inadequate profit in any financial year, the Company would be entitled to pay remuneration to its NEDs / Independent Directors ("IDs") up to the specified limit prescribed under Schedule V to the Act based on the 'Effective Capital' as defined under the Act. Basis the effective capital of the Company as per the financial statements for the year ended March 31, 2023 and March 31, 2024, the limit applicable is ₹ 24 Lakhs plus 0.01% of the effective capital in excess of ₹ 250 crores. However, the Company intends to pay beyond the same by seeking approval of the members by way of special resolution.

In terms of the provisions of Section 197(3) of the Act read with Section II of Part II of Schedule V to the Act, in case of no / inadequate profit calculated under Section 198 of the Act in any financial year, the Company may pay remuneration to its NEDs / IDs, in excess of the prescribed limits in accordance with the provisions of Schedule V to the Act, provided that the Resolution passed by the Members is a Special Resolution.

Subject to the approval of the members, payment of Remuneration, is proposed, including profit related commission, in addition to sitting fees and reimbursement of expenses incurred for attending meetings of the Board of Directors and the Committees thereof, to the Non- Executive Independent Directors of the Company appointed from time to time, of such amount upto a limit of ₹ 1,50,00,000 (Rupees One Crore Fifty Lakhs only) in aggregate to all the Non-Executive Independent Directors, per annum, which may exceed 1% of the net profits of the Company, computed in accordance with the provisions of Section 198 of the Act,

be paid to and distributed amongst the Non-Executive Independent Directors of the Company in such amounts or proportions and in such manner as may be directed by the Board of Directors of the Company (hereinafter referred to as the 'Board', which term shall deem to include any Committee(s) constituted/to be constituted by the Board to exercise its powers conferred by this resolution) at the end of each financial year for a period of 3 years commencing from the financial year ended on 31st March, 2024.

For the financial year ended on 31st March, 2024, the proposed remuneration, subject to shareholders approval, will be exceeding the limits prescribed under Schedule V to the Act. and merge with above paragraph.

The role of Directors, particularly Non- Executive Independent Directors, is pivotal in ensuring the governance, performance, and sustainable growth of the Company. Their diverse expertise, independent perspective, and strategic insights contribute significantly to the decision-making process of the Board. Given the evolving corporate governance landscape and increased regulatory requirements, the Directors, especially IDs, face heightened responsibilities and duties. Their diligent oversight and collective wisdom are instrumental in guiding the Company's strategic direction and navigating critical decisions. The Company has paid sitting fees to the Non-Executive Independent Directors. No commission has been paid to Non-Executive Independent Directors from financial Year 2019-20 till financial year 2022-23. During the FY 2023-24, the Company has not paid commission to its Non-Executive Independent Directors and is currently seeking approval of the members for payment of commission at the end of each financial year for a period of 3 years commencing from the financial year ended on 31st March, 2024 for three years including for the financial year ended on 31st March, 2024 upto FY 2025-26.

2. Past remuneration:

The Non- Executive Independent Directors are eligible for payment of sitting fees for attending the meetings of the Board of Directors / Committee(s). The details of sitting fees and remuneration, if any, paid by the Company is disclosed under 'Remuneration to Directors' in the Report on Corporate Governance which forms part of the Annual Report for the FY 2023-24.

3. Remuneration proposed:

As mentioned in the resolution above and explanatory statement herein.

4. Comparative remuneration profile with respect to industry, size of the Company, profile of the position and person (in case of expatriates the relevant details would be with respect to the country of his origin):

The proposed remuneration has been considered by the Nomination & Remuneration Committee as well as the Board of Directors of the Company, to be in line with the remuneration being drawn by similar positions in the real estate industry, considering the size of the Company and time devoted by the Independent Directors along with shouldering responsibilities endowed by the regulations applicable to the Company.

5. Pecuniary relationship directly or indirectly with the Company, or relationship with the managerial personnel, or other director, if any:

The Non- Executive Independent Directors do not have any pecuniary relationship with the Company, except to the extent of sitting fees, commission / remuneration as applicable and reimbursement of out-of-pocket expenses received by them for attending company meetings.

C. OTHER INFORMATION:

1. Reasons of loss or inadequate profits:

In FY 2023-24, the Company recorded net loss after tax of ₹ 3,881.96 lakh and as per Section 198 of the Act, the Company reported net loss of ₹ 16,620.71 lakh. Effective 1st April, 2018, as per Indian Accounting Standards ('Ind AS'), the Company is required to follow the Completion Contract Method as opposed to the Percentage of Completion Method and as a result, the revenues and direct project costs arising out of the residential projects are recognized only once a phase or entire project of residential development is completed, thereby delaying reporting of revenue and profitability. The phase or project is construed to be completed on receipt of occupation / completion certificate for the residential projects. During the year, there has been reduction in the number of completed

projects. Given the Ind AS methodology, which is unique to the real estate sector, and reasons as stated herein, the financial performance of the Company was impacted.

2. Steps taken or proposed to be taken for improvement.

The Company has taken the following operational steps to improve performance:

- i. Accelerate acquisition of land parcels;
- ii. Assess favourable opportunities in the redevelopment of residential projects;
- iii. Adherence to project completion timelines;
- iv. Optimising the product pricing opportunities;
- v. Concerted efforts on optimisation and reduction of direct and indirect cost;
- vi. Deploying technology and innovative construction techniques to drive efficiencies; and
- vii. Focus on sustainability for creating differentiated offerings.

3. Expected increase in productivity and profits in measurable terms:

The Company is strategically positioned to capitalize on the positive demand outlook for the real estate sector in India. With launches undertaken during the Financial Year 2023-24, the Company has generated momentum that is expected to carry forward into Financial Year 2025 and beyond. Additionally, the Company boasts a robust pipeline of launches resulting from past acquisitions. Furthermore, progress is underway on redevelopment projects. It also has a strong balance sheet and the ability to raise capital at competitive terms to fund its growth aspirations. Besides, the Company continues to leverage IT and digital technologies to improve its efficiencies and gain competitive advantage which sets it apart among its peers. These initiatives underscore the Company's proactive approach to leveraging opportunities and sustaining growth in the dynamic real estate market.

The special resolution would be valid for a period of three years, commencing from the financial year ended 31st March, 2024. The proposed remuneration shall be in addition to fees payable to the Non- Executive Independent Directors for attending meetings of the Board / Committees and reimbursement of expenses for participation in the Board and other meetings. The aforesaid remuneration shall be in accordance with the Policy for Remuneration of the Directors, which is available on the website of the Company at <https://mldlifespacebucket01.s3.amazonaws.com/2019/06/policy-for-remuneration-of-the-directors.pdf>. The Company has not defaulted in payment of dues to any bank or public financial institution or non-convertible debenture holders or other secured creditor.

The Board recommends the Special Resolution set out at Item No. 6 of the Notice for approval by the Members.

None of the Directors, Key Managerial Personnel, or their respective relatives, is concerned or interested, financially or otherwise either directly or indirectly in the Resolution mentioned at Item No. 6 of the Notice, except the Non-Executive Independent Directors, and their relatives, may be deemed to be concerned or interested in this resolution to the extent of remuneration that may be received by them.

ITEM NO. 7

The Board of Directors, at its Meeting held on 26th July, 2023, upon the recommendation of the Audit Committee, approved the appointment of CMA Vaibhav Prabhakar Joshi, Practicing Cost Accountant having Firm Registration No. 101329, as Cost Auditors of the Company for conducting the audit of the cost records of the Company, for the Financial Year ended 31st March 2024, at a remuneration of ₹1,43,000/- (Rupees One Lakh Forty Three Thousand Only) (plus statutory levies, reimbursement of out of pocket expenses and other actual expenses incurred during the course of audit).

Pursuant to section 148(3) of the Companies Act, 2013 read with the Companies (Audit and Auditors) Rules, 2014, Members of the Company are required to ratify the remuneration to be paid to the cost auditors of the Company. Accordingly, consent of the Members is sought for passing an Ordinary Resolution as set out at Item No. 7 of the Notice for ratification of the remuneration payable to the Cost Auditors for conducting the audit of the cost records of the Company for the Financial Year ended on 31st March 2024.

None of the Directors, Key Managerial Personnel of the Company and their relatives are, in any way, concerned or interested, financially or otherwise, in the Resolution set out at Item No. 7 of the Notice.

The Board recommends the Ordinary Resolution set out at Item No. 7 of the Notice for approval of the Members.

ITEM NOS. 8 TO 14:

As per Regulation 2(1)(zb) of SEBI (Listing Obligations and Disclosure Requirements) 2015 ("Listing Regulations"), related party means and includes related parties as defined under Section 2(76) of the Companies Act, 2013 ("the Act") and applicable accounting standards and, *inter alia*, includes any person or entity forming part of the promoter or promoter group of a company and any person or entity holding 10% or more equity shares of the Company either directly or on a beneficial interest basis, at any time, during the immediate preceding financial year. Accordingly, all subsidiaries / associate companies / joint venture companies / the holding company of the Company, fellow subsidiaries and other companies forming part of Mahindra Group are related parties to the Company (collectively referred to as 'Related Parties').

Further, Regulation 2(1)(zc) of the Listing Regulations, as amended, *inter alia*, provides that a transaction involving transfer of resources, services or obligations between:

- (i) a listed entity or any of its subsidiaries on one hand and a related party of the listed entity or any of its subsidiaries on the other hand;
- (ii) a listed entity or any of its subsidiaries on one hand, and any other person or entity on the other hand, the purpose and effect of which is to benefit a related party of the listed entity or any of its subsidiaries is a "Related Party Transaction" (RPT). The RPT shall be construed to include a single transaction or a group of transactions in a contract.

As per the proviso to Regulation 23(1) of the Listing Regulations, as amended, a transaction with a related party shall be considered material, if the transaction(s) to be entered into individually or taken together with previous transactions during a financial year, exceeds ₹ 1000 crore or 10% of the annual consolidated turnover of the listed entity as per the last audited financial statements of the listed entity, whichever is lower. The consolidated turnover of the Company as per

the audited financial statements for financial year 2023-24 stood at ₹ 212.09 crore. Accordingly, the limit of material RPT for the Company, based on the consolidated audited financial statements of the Company as on 31st March 2024, is ₹ 21.21 crore ("Materiality Threshold"). Regulation 23(4) of the Listing Regulations provides for obtaining prior approval of the Members of the Company for all RPTs which exceeds Materiality Threshold and subsequent material modifications thereof.

Regulation 23(2) provides that the prior approval of the Audit Committee is required for all RPTs where a listed entity is a party. An RPT to which a subsidiary of a listed entity is a party but the listed entity is not a party, shall require prior approval of the Audit Committee of the listed entity, if the value of such transaction, whether entered into individually or taken together with previous transactions during a financial year, exceeds ten percent of the annual standalone turnover as per the last audited financial statements of the subsidiary. However, as per Regulation 23(3) of Listing Regulations and Rule 6A of Companies (Meetings of Board and its Powers) Rules, 2014 (Rules), for transaction which are repetitive in nature, the Audit Committee may grant omnibus approval for such RPTs.

Accordingly, Audit Committee of the Company considers and grants omnibus approval to the RPTs which are repetitive in nature in accordance with Regulation 23(3) of Listing Regulations, the Act and the Rules made thereunder. The transactions entered into pursuant to the omnibus approval are placed before the Audit Committee on quarterly basis for review. In line with the same, the Audit Committee, at its meeting held on 15th March 2024, has granted its omnibus approval for transactions proposed to be entered into during FY2024-25 with the Related Parties.

The transactions, which are not part of omnibus approval, are executed after seeking approval of the Audit Committee and Members, if applicable. These transactions are usually in the nature of land purchase, funding requirements, investment etc. to meet business objectives of the Company. Accordingly, the Company has, from time to time, sought approvals for transactions relating to land purchase, funding / investment in subsidiaries etc.

The Company had also taken approval of the Members of the Company at its 19th Annual General Meeting held on 30th July, 2018 for material RPT which, *inter alia*, included, providing or availing loans, providing or availing guarantees or security for loans borrowed by the Company or the Related Parties. Pursuant to the said approval, the Company has, based on

the business requirements, from time to time, entered into transactions with its Related Parties. In accordance with the Listing Regulations, the RPTs have been approved by only those members of the Audit Committee who are Independent Directors.

Further, in terms of SEBI Circular No. SEBI/HO/CFD/CMD1/ CIR/P/2022/47 dated 8th April, 2022, the members' approval on omnibus material RPTs accorded in Annual General Meeting shall be valid upto the date of the next Annual General Meeting for a period not exceeding fifteen months. The Company is also seeking approval for a specific material RPT (in addition to omnibus material RPT) based on definitive agreements executed as mentioned in Item No. 12 of this Notice.

The Audit Committee and the Board of Directors at their respective meetings held on 26th April 2024 have considered, approved and recommended the material RPTs for approval of the members.

Considering the quantum of transactions, approval of the Members is sought as per the requirements of Regulation 23 of the Listing Regulations, for the below mentioned Material RPTs, details of which are mentioned herein in accordance with SEBI Circular No. SEBI/HO/CFD/CMD1/ CIR/P/2021/662 dated 22nd November 2021:

Corporate actions including payment of dividend/ bonus/ right issue / buyback etc. by the Company which are uniformly applicable / offered to all shareholders in proportion to their shareholding, are not considered as a RPT as per Regulation 2(1)(zc) of the Listing Regulations.

c. The extent of shareholding interest in Related Party(ies) of Mahindra and Mahindra Limited [M&M] (promoter of the Company), director, manager, if any, and of every other key managerial personnel of the Company

M&M is the promoter and holding company of the Company and holds 7,93,19,550 equity shares representing 51.17% of the paid up share capital of the Company as on the date of this Notice.

d. Any advance paid or received for the contract or arrangement, if any:

Based on the nature of transaction, advance for part or full amount of the transaction / arrangement could be paid / received in the ordinary course of business.

e. Tenure of the proposed transaction

The approval is being sought for existing and new contracts / arrangements / agreements / transactions entered / to be entered into during the period commencing from this Annual General Meeting upto the next Annual General Meeting for a period not exceeding fifteen months.

f. Justification for why the proposed transaction is in the interest of the Company

The Company is a leading real estate developer and a subsidiary of Mahindra & Mahindra Limited (M&M). The Company has a healthy pipeline of land deals and continues to evaluate further opportunities in this space through asset light models including joint-development, JVs and development management routes with landowners. It also sees considerable opportunities for redevelopment projects and acquisition of stressed assets. The Company's strategy is to capitalise on these opportunities and build a stronger presence in its key markets and also look forward to expanding its presence in additional geographies based on specific opportunities, if any. In the industrial business, its focus is on accelerating the leasing activity and explore other business models. Towards this, the Company adopts all reasonable measures for cost optimization, wherever feasible, by leveraging synergies within the group companies by entering into range of Related Party Transactions with the Related Parties, from time to time, in the ordinary course of business and at arm's length. The Company evaluates various options for development of land parcels including acquisition of land / TDRs from its holding company as per the business requirements of the Company and as may be mutually agreed between the Company and M&M in ordinary course of business and on arm's length basis.

The Company is part of the larger Mahindra group, it benefits from availing high-quality services from group resources and infrastructure instead of investing on its own. These transactions ensure consistent flow of desired services without interruptions, thus creating operational synergies, cost optimisation, optimal utilisation of resources and business efficiencies.

The proposed approval is an enabling provision for undertaking Related Party Transactions with the holding company, as may be required, based on the business needs and requirements of the Company.

g. Details of the transaction relating to loans, intercorporate deposits, advances or investments made or given by the Company or its subsidiary:

Note:

MHDL had availed ICDs from the Company aggregating to ₹ 25 crores from FY 2023 to FY 2024 for the period 6 months, at average interest rate of 8.38%, as per prevailing market rates.

MHPL had availed ICDs from the Company aggregating to ₹ 32 crores from FY 2023 to FY 2024 for the period 3 months, at average interest rate of 8.25%, as per prevailing market rates.

MWUL had availed ICDs from the Company aggregating to ₹ 6 crores from FY 2023 to FY 2024 for the period 6 months, at average interest rate of 8.50%, as per prevailing market rates.

Additionally, during FY24, in accordance with the provisions of the Act and approvals as required for the said corporate actions specified under the applicable laws, MHPL has bought back 5,480 equity shares of Series B and C from each of its shareholders viz. Actis Mahi (Singapore) Private Limited and the Company, respectively at a price of ₹ 49,902/- aggregating to cash outflow of ₹ 27,34,62,960/- to each shareholder. The corporate action of buyback of shares has been uniformly offered / applicable to all shareholders in proportion to their shareholding.

Additionally, during FY23, pursuant to Order pronounced by Hon'ble National Company Law Tribunal, MHPL reduced its share capital (capital reduction) by 17,000 equity shares of Series B and C held by each of its shareholders viz. Actis Mahi (Singapore) Private Limited and the Company, respectively at

a price of ₹ 41,722/- per share aggregating to cash outflow of ₹ 70,92,74,000/- to each shareholder.

The value of corporate actions from MHPL to the Company that are uniformly offered / applicable to all shareholders in proportion to their shareholding, are in accordance with the approval of the Board of Directors / Shareholders of MHPL and are therefore not included in the above-mentioned table and also not included in the proposed limits as mentioned in this notice.

MHDL, MHPL, and MWUL may require further support from the Company to meet their increased working capital needs. Therefore, it is necessary to have an enabling approval in place to provide fund-based support to these subsidiaries based on their business requirements. This would enable the subsidiaries to seamlessly source funds as needed in the normal course of their business activities. In light of this, the Company is seeking the approval of the shareholders for transactions between the Company and MHDL, MHPL, and MWUL, respectively.

ITEM NO. 12: APPROVAL FOR MATERIAL RELATED PARTY TRANSACTION(S) BETWEEN THE COMPANY AND ITS ASSOCIATE COMPANIES.

The Company had, on 5th October 2022, executed definitive documents to establish joint ventures with Actis / its Affiliates ("Actis"), a leading global investor in sustainable infrastructure, for developing industrial and logistics real estate facilities across India. Subject to requisite approvals and finalisation of other definitive documents, the Company or its Affiliates and Actis or its Affiliates will jointly invest in Asset Owning SPVs and in an entity that will provide business services to the Asset Owning SPVs. Up to 100 acres of land with ready infrastructure in the two Mahindra World Cities, offering a built-up potential of over two million square feet, has been earmarked as seed sites to be acquired and developed by the Joint Venture Platform over time, subject to requisite approvals. The Joint Venture will also simultaneously acquire and develop other greenfield and brownfield sites in key markets across India, aiming to become a leading real estate solutions provider to global and local corporations. The total investment in the business over the initial years, including debt, is estimated to be ₹ 2,200 crore. Actis will own a majority stake, and the Company will have a significant minority. Industrial and warehousing have emerged as a high-growth real estate asset class buoyed by rising consumer demand and accelerating manufacturing investment. The Company or its Affiliates may own stakes in the range of 26% to 40% in these entities, and the balance will be owned by Actis or its Affiliates.

Subject to requisite approval and finalisation of other definitive documents, the Company and Actis, for the above purpose, will form Asset Owning SPVs from time to time and an Operating Company which will provide services to these Asset Owning SPVs. Ample Parks and Logistics Private Limited (formerly known as AMIP Industrial Parks Private Ltd.), a company for the purpose of providing services to the Asset Owning SPVs. Pursuant to the Shareholders Agreement executed dated 9th November 2022 (SHA), the Company, subject to the business requirement, may invest upto ₹ 49.40 crore i.e. 26% of the overall investment commitment and the balance will be invested by Actis / its Affiliates. The SHA and /or other definitive agreement(s) may be amended from time to time as per the business requirements and as may be mutually agreed between the Parties including, but not limited to, revision in terms and conditions, subject to requisite approvals, as may be required from time to time. However, the overall investment of the Company for the said platform will not exceed ₹ 182 crores as mentioned in the resolution for Item No. 12 of this Notice.

In accordance with the Securities Purchase Agreement (SPA) and Shareholders Agreement (SHA) executed on 4th September 2023, the Company, subject to fulfilment of certain conditions as mentioned in the SHA and business requirement, has agreed for a total investment commitment of ₹ 48.9 crore over a period of five years in Ample Parks Project 1 Private Limited (formerly known as Interlayer Two Warehousing Private Limited). The SHA / SPA / other definitive agreement(s) may be amended from time to time as per the business requirements and as may be mutually agreed between the Parties including, but not limited to, revision in terms and conditions, subject to requisite approvals, as may be required from time to time. However, the overall investment of the Company for the said platform will not exceed ₹ 182 crores as mentioned in the resolution for Item No. 12 of this Notice.

In accordance with the Securities Purchase Agreement (SPA) and Shareholders Agreement (SHA) executed on 4th September 2023, the Company, subject to fulfilment of certain conditions as mentioned in the SHA and business requirement, has agreed for a total investment commitment of ₹ 47.9 crore over a period of five years in Ample Parks Project 2 Private Limited (formerly known as Interlayer Three Warehousing Private Limited). The SHA / SPA / other definitive agreements may be amended from time to time as per the business requirements and as may be mutually agreed between the Parties including, but not limited to, revision in

terms and conditions, subject to requisite approvals, as may be required from time to time. However, the overall investment of the Company for the said platform will not exceed ₹ 182 crores as mentioned in the resolution for Item No. 12 of this Notice.

As on date, the Company holds 26% of the total share capital of Ample Parks and Logistics Private Limited and 33% of total share capital of Ample Parks Project 1 Private Limited and Ample Parks Project 2 Private Limited. Resulting in these companies becoming associates of the Company. Subject to requisite approvals, the shareholding ratio between the Company and Actis in the aforementioned associate company(ies)/associate company(ies) for the said platform may undergo change based on the definitive agreements (including amendments thereof) and as may be mutually agreed between the Parties to the relevant agreement(s) from time to time.

Further, investment in form of equity and/or other securities including preference, debt, convertible, non-convertible, in all the abovementioned entities and future entities will be undertaken in accordance with the terms of the SHA by the Company and balance will be held by Actis / Affiliates.

In pursuant to the aforementioned definitive agreements, the Company has undertaken a commitment of ₹ 182 crores for the platform with Actis, wherein the investment will be made in the form of equity and / or other securities including preference, debt, convertible, non-convertible in the Operating Company i.e. Ample Parks and Logistics Private Limited and Asset Owning SPVs, existing and / or will be formed or acquired based on the terms and conditions as may be mutually agreed between the Company and Actis or its Affiliates, from time to time in order to meet its business objective of developing industrial and logistics real estate facilities across India. The investment by the Company will result in the Asset Owning SPVs becoming associate of the Company from time to time based on the business needs and requirements.

The Audit Committee (only Independent Directors) have approved and recommended, and the Board of Directors have also considered and approved the platform with Actis at its meeting held on 4th February 2022. Further, the Audit Committee and Board of Directors at their respective meetings held on 26th April 2024 approved and recommended to the shareholders for approval of material RPTs as mentioned in the explanatory statement with overall investment limit of ₹ 182 crores for a period of five years from FY 2024-25 upto FY 2028-29.

MIPCL has set up an industrial cluster in North Chennai (the NH-16 corridor) on approximately 307 acres with a leasable potential 229 acres under the brand 'Origins by Mahindra World City'. As on 31st March 2024 MIPCL has leased 157 acres (on cumulative basis) of Industrial land and is actively pursuing leasing activity under the pipeline. MIPCL is also planning the second phase of the project for which land acquisition is in progress. MIPCL is under discussion for purchasing land parcels on outright basis from MWCDL for developing industrial park, which is abutting to its current project. The value of the land parcels is approximately ₹ 220 crores. Based on internal assessment and appropriate Related Party(ies) will undertake independent valuation prior to the acquisition of the land parcels.

Further, MIPCL in order to meet its funds requirement will be undertaking issuance of securities in the form of equity, preference, convertible / non-convertible or any other instrument or loan(s) as may be agreed from time to time for meeting the business objective, subject to requisite approvals and in accordance with the Act and rules made thereunder for an aggregate amount of approximately ₹ 250 crores. The said investment or loan(s) is proposed to be obtained by MIPCL from MWCDL and Sumitomo Corporation, existing shareholders of MIPCL, by investing around ₹ 150 crores and ₹ 100 crores, respectively, based on the mutually agreed terms, conditions and requisite approvals.

The above transactions being Related Party Transactions, wherein the Company is not a party, but the Related Parties of the Company / subsidiary are parties, exceeding materiality threshold will require approval of the shareholders by way of Ordinary Resolution.

RISE

TOGETHER

with Purpose

RISE TOGETHER WITH PURPOSE

This Integrated Annual Report captures the initiatives that our Company has undertaken to build on last year's theme of "Rise Together" with a holistic approach to create value. The year saw enhanced imbibing of Environmental, Social and Governance (ESG) principles into our strategy and operations. We aim not only to foster sustainable growth but also to make a positive impact on environment and society together with our stakeholders, recognizing that this is essential for our long-term success and sustainability.

The report delves into the key initiatives undertaken with our stakeholders and their resulting impacts, which enabled us to create sustainable, resilient, and liveable communities. Our efforts continue to mitigate negative environmental impacts associated with urbanization and infrastructure development through focussed innovation. We are shaping a sustainable future in more ways than imagined. A key step in this direction is our endeavor to set a new benchmark in decarbonization of the real estate sector as we pledge to build only Net-Zero developments from 2030 onwards. Pursuing our mission to excel through innovation, we aspire to grow fivefold in next 5 years.

We present here the inspiring artwork of Mr. Milind Kurane, a conscientious member of our MLDL family, who is a shining example of Rising to create value. His ability to create stunning art from waste not only minimizes landfill waste but also fosters a culture of creativity and environmental responsibility within our company. We take immense pride in Milind's achievements, seeing his work as a testament to our commitment to sustainability and a greener future. His work echoes our ethos that "every small individual contribution can act as a crucial building block, collectively paving the way towards achieving larger sustainability goals."

It is our firm belief that, together, we can rise to empower positive change and shape a holistic future, which balances the needs of people, the planet, and profits.

MESSAGE FROM CHAIRMAN

Dear Stakeholders,

I am pleased to present to you our Integrated Annual Report for FY 2023-24.

Our reporting theme "Rise Together with Purpose" builds on last year's theme of "Rise Together" with a comprehensive approach to create value by imbibing Environmental, Social and Governance (ESG) in our business philosophy. I am delighted to share that we delivered robust operational and financial performance, staying committed to our short term and longer-term goals.

India's strong economic progression and real estate resurgence have created a favourable environment for global investment opportunities. Reserve Bank of India has projected India's real GDP to grow at 7%+ in FY 2024-25, cementing India's position as the world's fastest growing large economy

OUR GOALS

Our focus on our customers is the key to our success. In this industry, we are not just making a product, but are giving an experience. An experience which should be as satisfying to our customers, as it is financially significant to them. Our commitment to sustainability remains at the core of everything we do. We continue to integrate sustainable practices into our operations, from design to construction, ensuring that our developments contribute positively to the environment and society, reinforcing our position as a leader in sustainable urban development. With a 100% Green portfolio since 2014, we are working towards carbon neutrality by 2040 and actively support research on green buildings tailored to climatic conditions in India. We aim to set a new benchmark towards decarbonization of the industry by committing that 100% of our projects shall be net-zero from 2030 onwards.

Our pursuit of excellence in sustainability has been recognized through more than 90 accolades and awards over a decade.

THE YEAR IN RETROSPECT

Throughout the year, the management has navigated the evolving dynamics of the real estate industry with agility and innovation. Our consolidated sales for the year were ₹ 2,69,779 lakh, a 19% growth over FY 2022-23. The project launches during the year were for projects totalling 4.42 million sq. feet, a 39% increase over last year. The projected GDV of the acquisitions during the year is ₹ 4,40,000 lakh, a 38% growth over last year. Our integrated cities and industrial clusters also performed well. We ended the year with ₹ 19,306 Lakh in our consolidated cash balances

THE YEARS AHEAD

We are well poised for growth in the next year, based on current estimates.

We currently have more than 37 million sq.ft of completed, ongoing, and upcoming residential projects spread across six Indian cities in our portfolio. Additionally, at our Integrated Cities and Industrial Clusters spread across four current locations,

more than 1,500 net acres of land can be made available for development.

The Indian real estate market offers a bright future marked by resilience and encouraging signs. In addition, the RBI's decision to refrain from raising interest rates gives confidence to both buyers and investors, which boosts the real estate market and creates an environment that is conducive to opportunity, growth, and stability. This bodes well for the company.¹

Consumer demand for guaranteed sustainable homes will favour reputable developers with a solid track record. I am glad our company is a part of this select group.

The company has the flexibility to pursue expansion possibilities and keep providing value to our stakeholders thanks to its good financial position and high cash flow. Your company is dedicated to upholding a disciplined approach to capital allocation. Our company's stated goal is to achieve significant growth in 5 years. Sustainable growth and robust performance will be ensured by the company's consistent endeavour in implementing a strategy of establishing a sizeable presence in its identified micro markets, coupled with its presence in important industrial corridors with plug-and-play infrastructure.

While the economy is buoyant, and the industry is doing well, it is also the Group's endeavour to look beyond the curve and see what lies ahead in the longer term. We have to ensure that not only do we propel our company towards significant growth in the next 5 years, but devise a strategy make it replicable in the longer term too. I would like to extend my sincere gratitude to our shareholders, customers, employees, and partners for their unwavering support and trust in us.

In particular, thanks to our government and platform partners for their help and support. Thank you for your continued confidence.

Warm regards,
Ameet Hariani
Chairman

MESSAGE FROM THE MANAGING DIRECTOR & CEO

Dear Stakeholders,

I am delighted to introduce our third Integrated Annual Report. This report outlines the important achievements and notable events from the previous fiscal year and our business strategies. We have delivered robust business and operational performance, while also creating significant positive impact on both the society and the environment. I am energized by the dedication and passion shown by our team members, who are constantly striving to improve efficiency across the board.

This year we celebrate 30 glorious years marked by our dedication to lead as a responsible real estate company. Our focus is to create a diversified portfolio of modern sustainable homes, inclusive communities, integrated cities and industrial clusters (IC&IC).

According to the National Statistical Office (NSO), India's Gross Domestic Product (GDP) accelerated by 7.6% in FY 2023-24, compared to 7.0% in FY 2022-23. Construction sector accounts for about 30% of the share of all industries, registering an impressive growth of 10.7% in FY 2023-24. India's strong macroeconomic performance and stability in the financial sector have benefitted the real estate industry as well. Despite relatively high interest rates, consumer demand and sales remained buoyant in the residential sector. Additionally, there was significant demand in the industrial segment, driven by both domestic and international businesses.

Our business strategy is geared towards creating long term value for its customers, shareholders, and society at large, while maintaining a strong focus on technology, sustainability, innovation, and governance. In the residential segment, we have sharpened our focus on:

- Key markets – Mumbai, Pune and Bengaluru;
- Customer segment: premium and mid-premium;
- Transaction type: Outright acquisition of land purchase, Joint Development Agreements and society redevelopment projects;
- Product segment: high-rise apartments, plots, villa and row-houses, and supporting retail/ commercial.

We have successfully executed eight launches in FY 2023-24 leading to **₹2,32,819 lakh** of pre-sales, which is the highest ever recorded in the history of our Company. On the land acquisition front, we added **₹4,40,000 lakh** worth of gross development value (GDV), which is 38% over FY 2022-23.

The IC & IC business, is propelled by:

Strong domestic economy and increase in consumption-led demand

Government's infrastructure push and a supportive policy environment

Attractive alternative for global corporations looking to diversify operations

These factors have contributed to strong continued traction in our Mahindra World Cities in Jaipur and Chennai and in Origins by Mahindra, Chennai. These projects have a combined gross area of about 4,800 acres and a leasable potential of about 3,300 acres. Our strategy is to maximize the value from existing and upcoming projects in the segment.

Moreover, in alignment with our core values and business philosophy, our approach embraces value creation through a strong focus on Environment, Social, Governance (ESG). Our robust policies and procedures integrated across our operations, promote transparency and adaptability. Our approach to ESG value creation includes identifying opportunities, risks and measuring impact. Protecting direct interests of our stakeholders is the fulcrum of our approach. The company has cultivated strong capabilities in its services, emphasizing scalability, punctual delivery, responsible living, all aligned through the guiding principles of a robust ESG framework.

We have a laser sharp focus on operational eco-efficiency of our projects, which lead to a direct benefit to our customers and contribute to fostering a more responsible community. Cascading our three-tiered (quality, safety and environment) sustainability philosophy down to our supply chain is critical to our operations.

YEAR IN BRIEF

We have experienced robust expansion this year, with positive performance in both Residential and Industrial sectors. The Residential segment particularly saw significant activity across essential operational aspects including land procurement, construction, sales, and collections.

Our residential portfolio includes 37.33 million sq. ft. of total development footprint (21.14 million sq. ft. of completed and 16.19 million sq. ft. of ongoing and new projects). We have registered sales of ₹2,32,819 lakhs in FY 2023-24 in this segment (increase of 28.5% from the previous year). Construction activity saw considerable momentum, growing from 0.65 million sq. ft. in FY 2022-23 to 1.26 million sq. ft. in FY 2023-24. For IC&IC, the total lease premium generated was **₹36,959** lakh in FY 2023-24.

We have exceeded the previous year's performance on various fronts. Highlighting our financial growth, we had total sales of **₹2,69,779** lakh resulting in 19% growth from the previous year.

WAY AHEAD

Our ambition is to redefine real estate in India, setting unprecedented benchmarks for excellence and delivering unparalleled value to our clientele. Embracing a "first-time-right" ethos in construction, with a relentless focus on customer satisfaction.

We, at Mahindra Lifespaces are currently developing projects with footprint of 9.78 million square feet. Another 6.41 million square feet will be made available from our future projects (including new phases in on-going projects and forthcoming projects). We have a healthy pipeline of land deals and will continue to evaluate further opportunities in the residential business. In parallel, we also see considerable opportunities for redevelopment projects and acquisition of stressed assets.

Together this strategy will drive us towards our aspiration of growing 5 times over the next five years. Our goal is to pursue profitable growth while leaving a meaningful and enduring impact.

Regards,

Amit Kumar Sinha
Managing Director & CEO

CONTINUED PROGRESS

We are committed to building sustainable urban spaces that enrich lives, foster innovation, and uphold the highest standards of environmental, social, and governance (ESG) responsibility. Our long-term ESG goals serve as guiding beacons, representing not only our annual sustainability targets but also the core values ingrained in our organization.

Aligned with the United Nations Sustainable Development Goals (SDGs), these goals outline the operating strengths we aim to cultivate, reflecting our commitment to creating enduring value for all stakeholders. Significant strides have been made toward achieving our ESG goals, with ongoing efforts to ensure their successful completion.

BUSINESS STRATEGY

Our business strategy is geared towards creating value for our customers, shareholders, and society at large, while maintaining a focus on sustainability, innovation, and financial prudence. Our business strategy typically revolves around following key pillars:

Well-engineered portfolio

Mahindra Lifespaces diversifies its portfolio by developing a mix of residential, commercial, and integrated urban developments. This helps mitigate risks associated with market fluctuations and provides opportunities for revenue growth across different sectors of the real estate market. The company has clearly articulated “where to play” choices capturing -geography, customer segments, products, project size, deal types.

Customer-centric approach

The company focuses on understanding the evolving needs and preferences of its customers by conducting market research and gathering customer feedback. Mahindra Lifespaces aims to deliver projects that meet or exceed customer expectations in terms of quality, design, and amenities.

Robust acquisition engine

To systematically scale up Gross Development Value pipeline and blockbuster launches. We have built a strong business development and approvals engine to ensure value lock-in at design and launch phase.

Partnerships and collaborations

The company collaborates with leading architects, consultants, and other stakeholders to leverage their expertise and deliver innovative and high-quality projects. Strategic partnerships with local governments, landowners, and other stakeholders also facilitate project development and approvals.

IC & IC value maximization

We aim to enhance our momentum by capitalizing on the IC&IC growth drivers; strong domestic economy, increase in consumption led demand, Government's infrastructure push and a supportive policy environment

Excellence in delivery and cost

The company maintains a disciplined approach to project management, focusing on timely delivery, cost optimization, efficient resource allocation, and risk management. The “First-time-right” approach to construction through credible contractors is adopted.

SECTORAL TRENDS

There was a notable increase in the purchase of high-end residential properties and planned developments in FY 2022-23, leading to total sales surpassing 2,30,000 units in key markets. Projections indicate that in FY 2023-24, this number will rise to 3,00,000 units. According to a report by Bloomberg, nearly 70 million Indian households are expected to become eligible for home ownership over the next decade. Home builders in India may need to construct as many as 100 million new residential units this decade².

The buildings and construction sector contributes significantly to global climate change, accounting for 34% global energy demand and 37% of energy and process-related CO₂ emissions.³ The growing demand for housing and adequate living standards impacts energy consumption and emissions. This impact is caused by the material requirements for construction of new buildings, contributing to the embodied effects; and ongoing operational aspects of buildings usage.⁴ Embodied energy represents the energy consumed during the construction and manufacturing of building materials before the operational phase. It accounts for 10-25% of a typical building's total lifecycle energy use but can be over 50% for low-energy buildings. India's growing building stock means embodied energy will be a major contributor to emissions. Nearly 25% of India's total primary energy demand and 30% of GHG emissions are attributed to manufacturing building materials. Low embodied energy alternative materials like timber, rammed earth, hempcrete etc. can reduce embodied energy significantly compared to conventional materials like cement, steel, aluminum etc.⁵

Innovative building materials with superior thermal performance, climate resilience, cost-effectiveness, scalability, durability, and fire resistance are needed for sustainable construction⁶. India's buildings sector must adopt an integrated whole-system

approach to cost-effectively address embodied and operational emissions across the demand side and supply sides collectively — first by reducing the building-energy needs, followed by need service serving the needs as efficiently as possible, and finally optimizing the demand and providing a clean energy supply.⁷

STAKEHOLDER ENGAGEMENT AND MATERIALITY

GRI 2-29, 2

Our stakeholders are crucial for accomplishing our mission and meeting our business goals in both the short and long term. We have identified nine main stakeholder categories based on their ability to impact our business and our mutual influence.

We identified our stakeholders based on three key dimensions – importance and influence, physical proximity, and dependency factor. Identified stakeholder groups are then prioritized based on their ability to influence and be influenced by Mahindra Lifespaces. For stakeholder prioritization, we used the Analytic Hierarchy Process (AHP) with our internal senior management employees from across business functions aligned to each of the stakeholder group to determine their decision priority through a workshop. AHP provides a structured approach to complex decision-making by hierarchically organizing choices into goals, criteria, subcriteria, and alternatives through pairwise comparisons using a defined scale. AHP helped determine the priority factor which was used to find the sample size of each stakeholder group to be engaged with to determine the material issues. Basis AHP, top 3 priority stakeholders were customers, employees, and investors in same order of priority.

MATERIALITY AMELIORATED WITH DOUBLE MATERIALITY

GRI 3-1 , 3

This report is undergirded by the principles of materiality for non-financial disclosures and Double Materiality for financial and impact materiality to impart information on the areas that could impact our stakeholders, society, and business in short, medium and long term.

DOUBLE MATERIALITY ASSESSMENT

GRI 3-1 , 3

The term “material” originates from the financial sector, referring to issues that affect an organization’s finances. The concept of double materiality emphasizes both the organization’s impact on environmental, social, and governance (ESG) factors, and the influence of these ESG factors on the organization. In FY 2023-24, we adopted the approach of Double Materiality in line with GRI Standards’ 2021 guiding principle, which builds on our last materiality assessment which focused on the impact of material issues on business and the importance to stakeholders. The outcomes have helped shape our 2030 sustainability or planet positive roadmap.

RISK MANAGEMENT

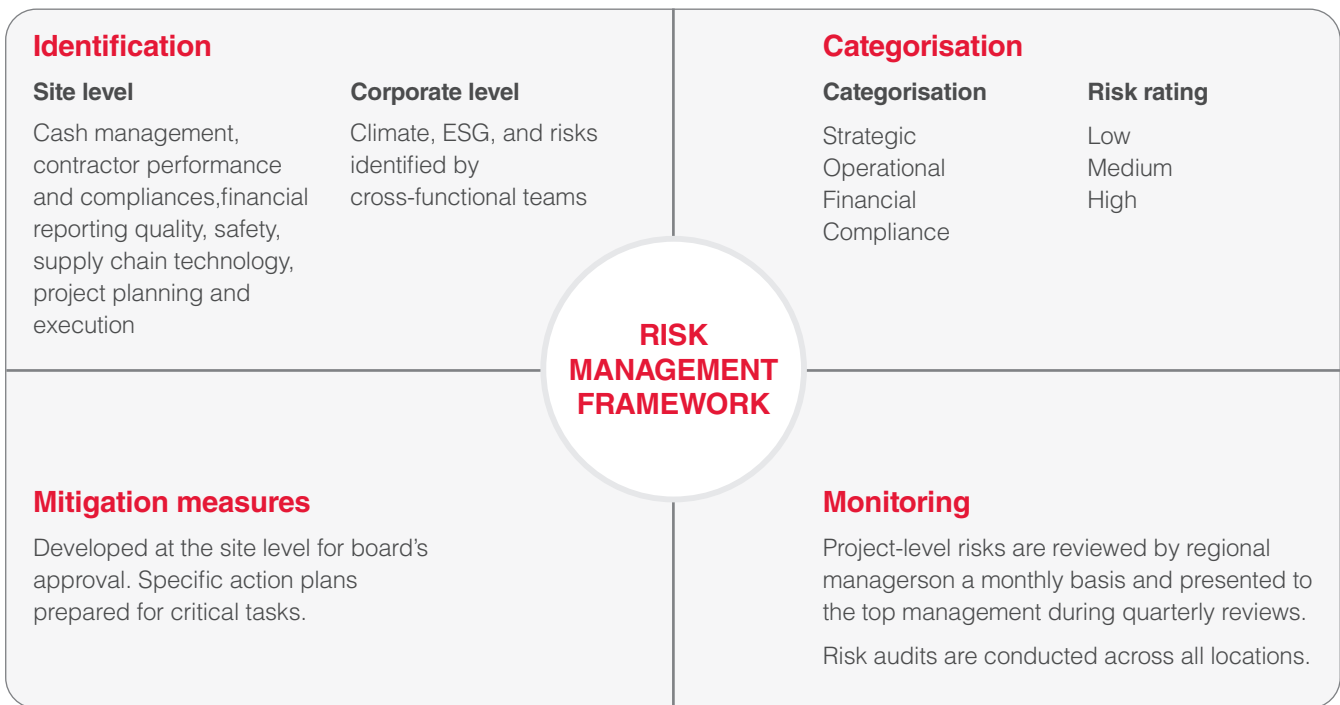

GRI 201-2,201

Mahindra Lifespaces has an Enterprise-wide risk management framework (ERM) to identify, monitor, and mitigate risks across operations, including operations, compliance, strategy, financials, governance, reputation, and processes. The framework is dynamic and integrates climate and other ESG risks, leveraging globally recognized reporting frameworks

like CDP, and TCFD. The company defines risks as events that could impact sustained value creation for stakeholders and adopts an agile approach to respond to both opportunities and risks. The risk management process is structured, systematic, and aligned with the COSO Framework, ensuring comprehensive management of all material risks.

OUR ERM FRAMEWORK

GRI 2-25,2-27

ESG AND CLIMATE CHANGE RISKS

Our ERM framework facilitates the integration of long-term ESG risks identified through materiality assessments with current site-specific risks evaluated internally. We systematically analyze short, medium, and long-term climate and ESG risks across our operations, suppliers, and customer network, guiding financial

planning based on their potential impact on business continuity. Our environmental management system monitors climate and ESG risks in an impact register, aiding in site-level risk evaluation and management.

As a participant in Taskforce on Climate-related Financial Disclosures (TCFD), we adhere to TCFD guidelines to prioritize climate change and its associated financial risks. These risks encompass financial losses due to infrastructural damage

caused by events such as floods (physical risks), and financial losses resulting from the transition towards a low-carbon economy, such as investments in advanced technologies to mitigate exposure to adverse climate scenarios (transition risks).

RISK SCENARIO ANALYSIS

We have undertaken studies on scenario analysis, for both physical and transition risks, which include flood modelling, thermal comfort studies, low-carbon economy scenarios among others. The company has integrated findings from these studies into business operations to reduce the impact of climate change on the performance of the company and our impact on the environment. Pertaining to climate scenarios, the two possible worlds that we are likely to operate under are -

- Paris-aligned scenario (~ 1.5°C by 2100)
- Business-as-usual scenario (~ 4°C by 2100)

Further details and the mitigation plan can be found in our previous year report under risk management section.

SUSTAINABILITY STRATEGY

GRI 2-22, 2

At the core of Mahindra's ethos lies the principle of being **'Planet Positive,'** wherein we strive to give back to the planet more than we take from it, all while empowering our stakeholders to "Rise."

NET ZERO REVOLUTION

We are recognized for leading the Net Zero building movement in India with India's 1st three Net Zero Homes (one is Net Zero Energy, and two of them are Net Zero Energy+Waste Homes).

HISTORICAL PERFORMANCE

FY 2021-22

- India's First Net Zero Energy Residential Homes
- Launched Business Charter for decarbonizing the building and construction sector
- Signed the GRI Charter on Sustainability Imperatives
- Initiated Sustainability Integration cross the value chain
- Standardized Customer Value Proposition
- Concluded Phase 1 and Launched Phase 2 of the Mahindra TERI Centre of Excellence

FY 2022-23

- Launched India's 1st Net Zero Energy Residential Homes at Mahindra Eden, Bengaluru
- Introduced Learning Series "One brick at a time" under the sectoral decarbonization Business Charter
- Developed Net Zero Roadmap to align with Net Zero commitment
- Launched "Mission BOCW (Building and Other Construction Workers)" for facilitating access to government's social welfare benefits for construction workers
- Released Sky Modelling Report and CIE Sky Type Finder Tool as part of Mahindra TERI Centre of Excellence research
- Celebrated 1st Mahindra Volunteering Day, benefiting cover 2,000 people with 550+ hours volunteered by 270+ participants

FY 2023-24

- Launched India's 1st two Net Zero Energy+Waste residential homes - Mahindra Vista, Mumbai; and Mahindra Zen, Bengaluru
- Renewed Zero Waste to Landfill (ZWL) status for MWC Chennai
- MWC Chennai becomes India's 1st Integrated City to be IGBC Stage 2 Platinum certified township
- Launched our first carbon calculator for promoting sustainable lifestyle
- Developed daylight plug-in tool at Mahindra TERI Centre of Excellence to calculate accurate daylight simulations to be as close to the actual illuminance values
- 74 signatories become part of Decarbonization Business Charter

APPROACH TO PLANET POSITIVE

Our approach to planet positive is structured around three core pillars:

Greening ourselves

Decarbonizing our industries

Rejuvenating nature

Greening ourselves

- Net Zero on scope 1+2 emissions (Energy efficiency and green energy)
- Net Zero on water and waste (Reduce - water demand (e.g., use curing compound, rainwater harvesting & use) Reuse - treated wastewater, C&D (Construction and Demolition) waste Recycle - wastewater, C&D waste)
- Material circularity (e.g., GGBS1/fly ash replaces cement in concrete, use of secondary steel, aluminium formwork with multiple reuse)

Decarbonizing our supply chain

- Green portfolio transition (100% Green certified buildings and shift towards Net Zero buildings)
- Net Zero transition - suppliers support (Micro-solutions for suppliers via DBC (Decarbonization Business Charter), & MTCoE; for contractors – energy efficiency e.g., use of electric concrete pumps replacing diesel, etc.)

Rejuvenating nature

- Afforestation (Landscaping & planting for green community)
- Biodiversity Conservation (Site flora and fauna preservation & restoration)

Bold commitments aimed at driving meaningful and lasting change:

Green Ourselves

(Construction Phase)

Net Zero on scope 1+2 emissions

Commitments:

A. Carbon Neutral on Scope 1+2 by 2040

Net Zero on water and waste

Commitments:

A. Water Positive developments by 2030

B. Zero Waste to Landfill by 2030

Decarbonizing Our Industries

(Use Phase)

Green portfolio transition

Commitments:

A. Net Zero Energy by 2030

B. Net Zero Water by 2030

C. Net Zero Waste by 2030

SUSTAINABILITY POLICY

Central to sustainability framework is meticulously crafted Sustainability Policy, guiding our operational endeavors. This policy is in harmony with our organizational ethos, encompassing environment, health and safety, corporate social responsibility, green supply chain management, quality, equal opportunity, and our code of conduct. It follows the Mahindra Rise principles and core values, and is aligned to planet positive, people positive, and trust positive.

Crafting the future with environmentally and socially responsible homes and industrial developments.

Our sustainability policy, founded on four pillars and harmonized with our corporate values, offers directives for achieving the ESG goals that we have established for the business and the entire value chain.

SUSTAINABILITY MANDATE

Aligned with our ambitious aim of emerging as a global ESG leader by 2030, we are spearheading bold initiatives. These include achieving net-zero emissions, enhancing water and waste management, and transitioning from greener to Net Zero portfolio.

MARKET TRENDS AND OPPORTUNITIES:

The real estate market in India is currently valued at around ₹39,80,534 crore, contributing 7.3% of the total economic output. By 2047, it's projected to expand to ₹4,84,01,000 crore, contributing a whopping 15.5% to the total economic output. This growth is fueled by factors like the increasing demand for homes due to rapid urbanization and rising incomes.

Growing demand for housing

The mid and premium housing segment, serving the middle and upper-middle class, is witnessing heightened demand, signaling a shift in preferences of urban dwellers. The growing significance of this segment, particularly in tier-1 cities like Mumbai and the National Capital Region (NCR) of Delhi has led to a surge in demand, surpassing sales in the affordable housing segment. The mid-segment housing market in India, thus, holds promising mid-to-long-term growth prospects, supported by various factors and current data trends, according to industry experts.⁸

As India cements its reputation as an alluring investment destination, the flow of private equity into the real estate sector is anticipated to increase. Historically, private equity investments in the Indian real estate domain have constituted around 0.15% of India's Gross Domestic Product (GDP). Given that India's GDP is expected to reach ₹30,37,56,000 crore by FY 2047, the surge in private equity investments within the Indian real estate sector is projected to amount to ₹45,31,300 crore by FY 2047, signifying a CAGR (Compound Annual Growth Rate) of 9.5% spanning 2023 to 2047.⁹

FINANCIAL STABILITY AND MARKET VALUE

Our financial strategy is anchored on the principles of sustainability, innovation, and value creation. We prioritize long-term value over short-term gains, aligning financial decisions with our commitment to environmental stewardship, social responsibility, and governance best practices.

We have been identified as one of the fastest growing entities of Mahindra group. Our stocks have generated 74% of CAGR over last four years.

Market cap as of 31st March, 2024 – ₹9,08,800 lakh (67%)

Growth drivers:

- Scale-up in business development and pre-sales
- Unique IC&IC business
- Strong capabilities across value chain
- Strong operating cash flows

Mahindra Lifespaces and Axis Bank partner to provide home loans for Green Homes

This partnership, announced on 01st November, 2023, enables the Mahindra Lifespaces customers to avail home loans at a competitive interest rate, which is 0.25% lower than the standard home loan rates. Emphasising on the core values of this collaboration, the loan application and disbursal process is made seamless with reduced paperwork, to minimise paper wastage and ensure efficient document management.

Axis Bank and Mahindra Lifespaces are fostering responsible home ownership and shaping a future where sustainability and financial choices go hand in hand.

Quarterly leadership updates through townhalls

This year, we initiated our quarterly townhalls wherein our leadership not only discussed the quarterly financial performance of the company with all pan India associates, but also laid the strategy for the forthcoming quarters and the way ahead, elaborating the contribution of each associate to this end. This is aligned with our CEO's mantra of work hard, play harder.

RISING TOGETHER: STAKEHOLDER SERIES

In this series we highlight the voices and experiences of various stakeholders, showcasing our commitment to sustainability and collaborative growth at MLDL

Building a vision for sustainable industrial growth in India

Santosh Jha, Head of Asset Management & Strategic Relations, Ample Parks

Ample Park, a joint venture (JV) between Mahindra Lifespace Developers Limited (MLDL) and Actis Advisers Pvt. Ltd, is revolutionizing industrial and logistics real estate in India with a sustainability focus. This collaboration aims to meet the demand for environmentally responsible and energy-efficient real estate solutions.

Ample Park emphasizes sustainability by conducting rigorous environmental and social assessments. The JV has shortlisted three locations for development, incorporating green technologies and targeting EDGE certifications. Key achievements include reducing energy consumption by 30% per facility, planning rooftop solar installations to supply 100% of common area energy needs and ensuring 100% of tenant energy needs in the Chennai project are met through renewable sources.

This partnership exemplifies how collaborative efforts can drive positive change, setting new benchmarks in sustainable real estate development by prioritizing environmental responsibility and economic viability.

MANUFACTURED CAPITAL

We are committed to 100% of our developments being Net Zero by 2030, reiterating our climate-centric design strategy and sustainable construction practices. We aim to employ sustainable materials and incorporate efficient technologies to reduce the environmental footprint of our buildings. Aligned to our green building certification requirements, our products play a crucial role in establishing sustainable living spaces. Since FY 2013- 14, 100% of our portfolio has been green certified.

OPERATIONAL EXCELLENCE

We continuously strive for operational excellence to improve efficiency, reduce costs, and ultimately earn the trust of our customers while building a strong reputation in the market. We

have adopted the approach of conscious planning, sustainable design, and responsible construction with highest standards of quality and employing latest technology.

Approach to greening our products

GREEN PRODUCT PORTFOLIO:

GRI 417-1

With a 100% green certified product portfolio, we have always been one step ahead towards creating sustainable habitats. Mahindra Lifespaces was honoured with the 10th IGBC Green Champion Award at the Green Building Congress in Chennai. The award recognized our leadership in spearheading the Net Zero Building Movement in India, particularly in the realm of residential multifamily buildings. Our commitment is evident through the launch of first three Net Zero developments in India. **Our residents can leverage the benefits of green features of buildings, which is standardized across all our projects.**

RISING TOGETHER WITH PURPOSE: STAKEHOLDER SERIES

This series highlights the voices and experiences of our stakeholders, showcasing our commitment to sustainability and collaborative growth

“Mahindra Lifespaces has been a thought leader for sustainability in the real estate sector, leading the way for peers to follow. Their commitment has enabled us to push boundaries and set standards for the industry.”

Rakesh Bhatia, Senior Vice President, Ecofirst Services Limited

The ground-breaking collaboration of Mahindra Lifespaces and EcoFirst (a Tata Enterprise and a founding member of the Indian Green Building Council (IGBC)) marks a significant stride towards achieving ambitious sustainability goals in the real estate sector. A testament to the success of this partnership is the development of “Mahindra Eden” in Bengaluru, India’s first Net Zero-certified residential project. This landmark achievement demonstrates the collaborative power of Mahindra Lifespaces and EcoFirst in setting a new benchmark for energy efficiency and driving environmental responsibility, laying a foundation to inspire positive change for the industry.

Key areas of achievement enabling the First Net Zero certification for a residential project in India:

- **30%** reduction in energy consumption for each home is expected through a climate-responsive design
- **100%** of the common area energy needs in the township to be met through solar power production on-site

100% energy needs of the township being met by renewable sources, making green power accessible to direct consumers in Bengaluru was another milestone achievement for this collaboration

Green building certifications

Three of our projects have attained the highest levels of green certification according to both the IGBC and GRIHA rating systems.

Green certifications

Net Zero certification

- Vista - India’s 1st Net Zero (Energy + Waste) residential homes
- Zen - India’s 2nd Net Zero (Energy + Waste) residential homes (First in Bengaluru)

Note: IGBC certification done by - team for Net Zero Waste for both Vista and Zen

Pre-certification (GRIHA)

- Happinest Tathawade - GRIHA Pre-Recertified - 4-star

Pre-certification (IGBC)

- Vista - Gold (IGBC Green Homes v3.0)
- Citadel (Phase 1) - Gold (IGBC Green Homes v3.0)
- Zen - Platinum (IGBC Green Homes v3.0)

- Windchimes - Gold (IGBC Green Homes v2.0)
- MWC Chennai - Platinum - Stage II certification (IGBC Green Township)

CONSCIOUS PLANNING AND SUSTAINABLE DESIGN

During the project planning phase, required measures for the protection conservation and preservation of existing ecological system are implemented based on hydrology, hydrogeology, and biodiversity study of the site basis initial site assessment.

Our planning and operations approach to building

SUSTAINABLE DESIGN

Designing for sustainability involves design for energy efficiency, water efficiency, occupant thermal comfort, waste management using sustainable materials. Our first step to develop Net Zero homes is demand reduction through climate responsive design (CRD), passive design measures, use of low flow water saving fixtures, waste segregation, and material optimization. CRD involves early interventions in building orientation, shading, and passive design measures considering building envelope, and window-to-wall ratio. Next step involves integration of efficiency measures such as use of star rated equipments, use of onsite sewage treatment plant (STP) and use treated water for flushing and landscaping, segregation, and treatment of waste as per type, use of GGBS in concrete (replacing cement). The last step in sustainable design involves use of alternate or renewable sources such as onsite renewable energy like solar PV, small wind turbines, rainwater harvesting and reuse, use of organic waste converter for composting organic waste onsite and use as manure in landscape.

'Crafting Life' (Campaign) - Har kone main karigari hain

Launched in June 2023, Mahindra Lifespaces' 'Crafting Life' campaign aiming to forge emotional connections. Led by Viral Oza, Chief marketing officer. The campaign reflects the company's holistic approach to development, focusing on quality, innovative design, and sustainability. Central to the campaign is the concept of 'Karigari', highlighting craftsmanship. Mahindra Lifespaces prioritizes a customer-centric approach, integrating details in design to meet diverse customer needs.

RISING TOGETHER WITH PURPOSE: STAKEHOLDER SERIES

In this series we highlight the voices and experiences of various stakeholders, showcasing our commitment to sustainability and collaborative growth at Mahindra Lifespaces.

“Eco-Alliance: A Collaborative Journey in Climate Responsive Design”

Saswati Chetia, Director, Greentech Knowledge Solutions Pvt. Ltd. (GKSPL)

The partnership between Mahindra Lifespaces (MLDL) and Greentech Knowledge Solutions Pvt. Ltd. (GKSPL) exemplifies a collaborative effort to enhance sustainability in construction. GKSPL, a leading advisory firm on thermal comfort, building energy efficiency, embodied carbon and the likes collaborates with MLDL to reduce operational and embodied carbon in projects. Initially collaborating on energy efficiency of single residential project, the partnership now includes multiple residential projects, following Energy Conservation building code and Eco-Niwas samhita guidelines.

A notable achievement is the Mahindra Eden project, attaining net-zero energy status, showcasing innovative, eco-friendly practices. The essence of this partnership lies in its relentless pursuit of sustainability through rigorous design processes, stakeholder engagement, and a focus on both immediate and long-term environmental impacts. This collaboration not only highlights the technical achievements but also underscores the importance of people and persistent effort in driving meaningful change.

RESPONSIBLE CONSTRUCTION

Our commitment to make all new developments Net Zero by 2030, encompasses energy, water, and waste. Our residential business is a testament to our efforts towards utilizing alternative low-carbon materials.

Substitution of cement with ground granulated blast furnace slag (GGBS)

The replacement of a significant portion (~30%) of cement in concrete with GGBS, a by-product of iron manufacturing previously disposed as waste, is a key contributor to our low-carbon alternative material. The two-pronged benefit of this approach includes reduction in cement content and related carbon emissions as well as promoting material circularity by utilizing waste from the iron and steel industry in our concrete production process.

Compared to fly ash, GGBS demonstrates superior results in the areas of durability, quality, and a reduction in carbon emissions by 40-47%. Additionally, it minimizes the amount of slag waste sent to landfills and results in cost savings ranging from ₹50-350 per cubic meter (₹1.5-3.5 million per project).

Using aluminium formwork (MIVAN)

Replacing conventional wood formwork with aluminum formwork offers speed, quality, cost-effectiveness, and sustainability benefits to construction projects. The technique is highly suited for load-bearing construction (high rise). In FY 2023-24, refurbishment of aluminum formwork helped avoid 343 tCO₂e and save ~583 lakh in the process.

QUALITY AND TECHNOLOGY

Our commitment to quality is evident in technological advancements, continuous innovation, skill development, ensuring timely delivery of quality projects within budget.

Quality product upgrade:

Our product quality is upgraded through various interventions including, improved waterproofing solutions, adopting superior materials like laminated veneer lumber (LVL) door frames, and utilizing power float machines for smoother finishes in basements.

Quality development and assurance:

We invest in upskilling our workforce and maintaining process standards. The Engineer’s Handbook provides comprehensive guidance, while on-site training programs are conducted to enhance skill levels. Integrated Management System (IMS) recertification ensures continuous improvement and adherence to high standards.

Enhanced quality control:

Quality Control initiatives include the provision of quality toolkit for engineers, material testing procedures, ensuring compliance and progress tracking. In addition to these initiatives;

- We introduced field test kits to check fluoride and sulphate levels in water at reinforced mixed concrete plants to prevent substandard construction.
- We implemented a ‘vacuum grinding’ process that captures dust during grinding to reduce air pollution.
- We replaced traditional methods of concrete curing with ‘fogging,’ which customizes moisture levels to prevent surface cracks and ensure early strength gain.

Redefining plotted development with lakefront estates

Our foray into plotted developments began with the launch of 'Lakefront Estates by Mahindra', nestled within Mahindra World City (MWC), Chennai. Spanning an expansive 19 acres, this project met the diverse preferences and aspirations of our clientele, offering plot sizes ranging up to 5,000 sq. ft. Moreover, adjoining the project is a sprawling 80-acre urban forest, enhancing the natural allure of the locale. We have integrated eight uniquely designed gardens, each serving a distinct purpose and equipped with amenities.

Our journey towards sustainability integration in plotted developments

Our plotted developments are designed on the concept of the Panchmahabhutas – Earth, Water, Air, Fire, and Space.

EARTH

- Topsoil preservation
- Usage of grass crete pavers
- Minimizing pavers in organic herb garden

FIRE

- EV charging points
- Solar and LED streetlights

SPACE

- Sustainable kids play area (garden of happiness)
- Organic waste and leaf composters

AIR

- Topsoil preservation
- Usage of grass crete pavers
- Minimizing pavers in organic herb garden

WATER

- Recharge pits (swale)
- Treated grey water for non-potable uses

RISING TOGETHER WITH PURPOSE: STAKEHOLDER SERIES

In this series we highlight the voices and experiences of various stakeholders, showcasing our commitment to sustainability and collaborative growth at MLDL.

Building Bridges of successful partnerships

Mr. Uthaiyakumar, Managing Director, Sakthi Associates

The collaboration between Sakthi Associates, led by Mr. Uthaiyakumar, and Mahindra Lifespaces marks a significant milestone in sustainable infrastructure. The collaboration constructed a bridge over the Putheri canal with advanced construction techniques. The pre-cast, pre-stressed RCC bridge, standing 16.03 meters tall, featuring four lanes, pedestrian pathways, and utility corridors, supported by 42 piers with 17-meter-deep pile foundations and 32 RCC prestressed girders is nothing short of an engineering marvel.

Despite numerous challenges, including local opposition, time constraints due to the monsoon season, and unforeseen site conditions, the project was successfully completed. This engineering marvel showcases not only technical excellence but also the strength of collaboration and determination. It exemplifies MLDL's dedication to working with partners to overcome obstacles and achieve success. The bridge stands as a testament to the power of collaboration, creativity, and resilience in achieving sustainable infrastructure goals.

HUMAN CAPITAL

At Mahindra Lifespaces, human capital is regarded as our foremost asset. Our multi-generational workforce drawn from diverse ethnic and cultural backgrounds, embodies a rich mix of educational and professional experience. We foster a fair, inclusive, performance-driven, and collaborative work culture where learning and development is also an integral part of the people strategy. We are committed to the health, safety, and well-being of our people.

Unleashing the talent at “Spotlight”!

Impact and highlights

For the first time, Mahindra Lifespaces introduced "Spotlight," a talent show that brought together employees from various regions to showcase talent in singing, dancing, magic, comedy, and more. The event included a video round and a live finale at MSPIRE.

MSPIRE 2023: Reinforced commitment to growth and everyday leadership.

Sustainability at MSPIRE: Promoted green practices through the "Pedals of Joy" initiative and eco-friendly event setups.

Spotlight Talent Show: Celebrated employee talents, fostering creativity and teamwork.

MSPIRE 2023

MSPIRE, the spirit of being ‘Unstoppable’!

We hosted MSPIRE, an event designed to reinforce our commitment to 5x growth through a set of Everyday Leadership Behaviors. The guiding principles emphasized inspiring colleagues, acting swiftly, taking ownership, innovating, fostering positivity, streamlining processes, and maintaining a healthy team culture.

Ensuring MSPIRE is a ‘green’ event!

MSPIRE wasn't just about growth; it also highlighted our sustainability commitment. The event featured the "Pedals of Joy" initiative, where teams assembled and donated bicycles to on-site workers, promoting sustainable transportation. Energy-efficient LED lighting and the avoidance of harmful materials underscored our dedication to eco-conscious practices.

Water initiatives

Our commitment to achieving Net Zero water by 2030 (use phase) and water positive developments by 2030 (construction phase) is powered by several educational initiatives to empower our associates.

World Water Week – Urban Water Challenges:

A session with Ms. Shailaja Deshpande, Founder of Jeevitnadi-Living River Foundation brought to the forefront the current state of urban water sources, causes of water challenges, and the pivotal roles of private organizations and individuals in addressing these issues.

World Water Week – Basics of Sewage Treatment Plant

Featuring Dr. Ananth S. Kodavasal, Director of Ecotech Engineering, this session focused on innovative wastewater treatment technologies, equipping associates with essential knowledge to support our goal of achieving Net Zero water consumption by 2030.

Energy and waste literacy

We hosted Prof. Chetan Singh Solanki, the Solar Man of India, for a session on “Understanding Climate Change and Corrective Actions”. Prof. Solanki shared insights on energy conservation through a 3-step approach: Avoid, Minimize, and Generate. Additionally, a session on ‘Effective Waste Management of Construction and Demolition (C&D) Waste’ was conducted by feedback foundation, using MLDL projects as pilots.

RIISING TOGETHER WITH PURPOSE: STAKEHOLDER SERIES

In this series we highlight the voices and experiences of various stakeholders, showcasing our commitment to sustainability and collaborative growth at MLDL.

Securing Futures: Migrant Workers Gain Access to Social Security

Siri Avalur, Associate Director - Industry Partnerships, Jan Sahas

“Through our collaboration with MLDL, we have witnessed a remarkable shift in worker welfare. The proactive steps taken by MLDL demonstrate their genuine commitment to improving the lives of migrant workers.”

Siri, Jan Sahas

Over 200 million migrant workers in India face dire conditions due to lack of livelihood opportunities. Jan Sahas, through the Migrants Resilience Collaborative (MRC), collaborates with industry leaders like MLDL to ensure social security for these workers. At MLDL construction sites, a streamlined process via the Jan Sathi app identifies eligible social security schemes, facilitates documentation, and registers workers. This initiative has successfully enrolled numerous workers, providing health, accident, and maternity coverage. Essential items like safety gear are also distributed, fostering care and security. Looking ahead, this partnership aspires to create a standardized welfare system replicable across sites and states, driving long-term ecosystem change and sustained worker welfare.

Construction worker housing sustainability

Our worker housing initiatives are designed to improve living conditions providing comfortable temperatures with adequate ventilation, maximizing natural light. Implementation of organic waste composting systems, integrating modular sewage treatment plants or biodigesters (Eco-STP), and leveraging renewable energy sources contribute to a greener and more eco-friendly construction ecosystem.

Occupational health and safety

GRI 403

Our leadership takes a hands-on approach and exemplifies an unwavering commitment to safety management.

Occupational health and safety (OHS) management system

We are an Integrated Management System certified organization since FY 2012-13. Transitioning from OHAS 18001 to ISO 45001 standard for HSE in FY 2018-19 aligning with our OHS risk management strategies.

Our structured OHS management system enables early risk identification and mitigation. Risks are documented through Safe Method and Risk Reduction Technique (SMAART) cards, providing essential safety information.

Monitoring tools like Daily Work Management (DWM) ensure regular inspections and incident analysis, fostering a safety-first culture

WORKER WELFARE AT MLDL

At Mahindra Lifespaces, Worker's welfare is considered as priority with some of the initiatives taken in our projects such as -

Health camps

Teaming up with NGOs and government hospitals, we've organized health camps, including general health checkup HIV awareness and screening, eye check ups for our workers.

Occupational health awareness trainings

Workers are covered in third party trainings like safe operation, handling of LPGs through Bharat Gas Agency team.

Awareness trainings on occupational illnesses, heat stroke CPR across our locations, empowering workmen with necessary knowledge for a health aspect through doctors from our common OHC (Occupational Health Center) agencies.

Blood donation camps also organized in few locations as part of social responsibility.

Rewards and recreational activities

Workers are facilitated with rewards for their proactive performance in safety on monthly basis in our projects.

As part of recreational activities some competitive events like Sports events cricket Tug of war etc.), and drawing competitions were organized for workers at our locations.

Mental wellbeing sessions

We've conducted mental health training sessions for our workmen fostering a supportive environment where mental wellness is valued.

QUARTERLY OHS CAMPAIGNS FY 2023-24

Continuing our impactful OHS campaigns from FY 2022-23, 4 OHS campaigns launched across all the project locations and the motto of these campaigns is to address one significant element on quarterly basis uniformly across all MLDL sites and minimizing the risks pertaining to that critical aspect. It has been continued with positive spirit across all projects and locations.

In FY 2023-24, we conducted impactful campaigns on aspects related to Fire prevention, workplace equipment safety, and happier workplace is healthier workplace.

HUMAN RIGHTS

In our pursuit of becoming the employer of choice, we recognize our duty to uphold human rights across all facets of our operations. We strictly refrain from employing individuals below the legal age and ensure the absence of child or forced labor in any of our sites or through our contractors. Human Rights clauses have been incorporated into the supplier code of conduct, forming part of the supplier assessment process.

We maintain a gender-neutral and zero-tolerance policy towards workplace sexual harassment and have established formal procedures in compliance with the Prevention of sexual harassment of women at workplace (Prevention, Prohibition, and Redressal) Act, 2013 (POSH).

Redressal mechanism

GRI 406

Any complaints or incidents reported under the POSH policy are handled with utmost care, sensitivity, and discretion to protect the sensibilities of the affected individual. A robust redressal mechanism, Internal Complaints Committee (ICC), thoroughly investigates complaints, treating valid complaints

as serious misconduct. The ethics helpline (<https://ethics.mahindra.com>), is a secure, third-party enabled confidential platform to report violations including those related to code of conduct and unethical behavior.

People manager training

The 'Rise to Lead' People Manager 101 program hosted the fourth batch. With a focus on self-leadership, team leadership, and business acumen, the 2-day opening lab involves interactive methods such as conversations, case studies, and role plays.

This year personalized 1:1 mentoring session spread over three months were introduced, showcasing our dedication to individual growth.

Diversity, inclusion and equal opportunity

GRI 405

In the traditionally male-dominated construction sector, we are committed to fostering diversity and inclusion, with a focus on gender diversity. In FY 2023-24, women made up 24.2% of our

full-time associates and 11.8% of our part time employees with a total of 186 women employees.

Note:

The new employee hire numbers presented here are for full-time equivalent employees only

Women in construction

Graduate Engineer Trainee (GET) program

Recognizing the need for greater gender inclusivity, we offer development opportunities and career paths for women in traditionally male-dominated roles. Through our Graduate Engineer Trainee (GET) Program, themed "breaking barriers and challenging stereotypes," we welcome talented civil and mechanical engineers, providing a holistic learning journey across various project functions to support women aspiring to excel in engineering.

In FY 2023-24, we welcomed 14 talented women civil engineers into our fold.

Post the one-year comprehensive training, GETs transition into full-time roles across different project functions such as billing, quality, planning, etc.

FOCUS AREAS OF NATURAL CAPITAL

To establish ourselves as an ESG leader in the industry, we have identified six focus areas under natural capital. A strategy is outlined for each focus area, aligned with our material topics and enabling us to achieve our sustainability goals.

Mahindra Lifespaces is the only Indian Real Estate Company recognized with 'A' leadership rating in CDP's (global non-profit organization for environmental disclosures Carbon Disclosure Project) Climate Change and 'A-' leadership score in Water Security

JOURNEY TOWARDS CARBON NEUTRALITY BY 2040

Our approach for net zero emissions is to directly reduce emissions from our operations and supply chain, solving the root cause of our carbon emissions for a complete solution. This marks our conscious effort to steer away from the popular adoption of carbon credit programs and offsetting.

ROADMAP PROGRESS:

Our climate action strategy is based on focus inward and focus outward. Focus inward comprises establishing a baseline greenhouse gas (GHG) inventory, annual updating, and reporting of GHG emissions due to our operations. Focus outward comprises establishing industry partnerships and collaborations.

INITIATIVES FOR CARBON NEUTRALITY

We monitor, measure, and mitigate emissions across all the project stages under relevant scope for both residential and IC&IC business.

MWC Chennai- journey towards carbon neutrality

MWC Chennai has already reduced ~72% of its operational carbon emissions (Scope 1 & 2) from its baseline year FY 2016-17. It has surpassed its 63% reduction in scope 1 & 2 target

from baseline aligned to 1.5°C low carbon pathway – 9 years before the target year of FY 2031-32 and continues to strive more to attain carbon neutrality.

Adopting clean fuel through circularity at MWC Chennai

MWC Chennai explored and innovated to convert existing diesel generator sets (DG sets) into dual fuel generator sets which uses biogas along with diesel as an alternative fuel. Biogas being used within the generator sets is available from the 10-ton Bio-CNG plant which converts the city's food waste into biogas thereby ensuring circularity for the city. This intervention has replaced diesel with 50 Kg of biogas with 50% fuel efficiency, and related reduction in carbon emissions.

MWC Jaipur- progress towards climate positive development

Classified as a stage 2 climate positive Integrated City under C40 Climate Positive Development Program (CPDP), Mahindra World City, Jaipur is a model urban city which is destined to reduce not only operational emissions but carbon emissions, within the community through social interventions.

Embodied carbon analysis

Embodied carbon (carbon footprint across the lifecycle of a material- extracting, processing, transporting, manufacturing and end-of-life) is aligned with our Scope 3 emissions.

Our studies of embodied carbon are focused on identifying opportunities for reduction. The embodied carbon analysis for Mahindra Eden (by GK SPL) in December 2023 helped us templatinze the embodied carbon analysis for use across our projects.

MLDL advocates for demand side decarbonization

World Economic Forum’s First Movers Coalition (FMC) - India In-Country Workshop: Dr Sunita Purushottam, Head of Sustainability at the Cement and Concrete Workshop discussed on challenges and opportunities for demand-side decarbonization.

Demand reduction of cement and concrete is required and can be achieved through thoughtful design and sustainable construction practices. The cement and concrete sector must also look beyond its scope 1 and scope 2 emissions to enable the development of thermally comfortable homes through focus on collaborative research on U-values of concrete walling materials.

ENERGY

To achieve our goal, we work towards operational energy efficiency and implement energy saving measures at all levels of projects to promote optimum use and avoid energy wastage.

Net Zero Energy developments by 2030

Renewable energy integration

According to the Global Status Report for Buildings and Construction 2024, 34% of global energy is consumed by the real estate sector. Recognizing the criticality of energy, we prioritize energy demand reduction through climate responsive design and passive design measures, use of energy efficient equipments and then use of cleaner energy sources implementing renewable alternatives to reduce our dependence on non-renewable energy.

Our Renewable energy (RE) intensity for residential and IC&IC has increased by 93% to 0.0012 GJ/lakh of turnover in FY 2023-24 from 0.00063 GJ/lakh of turnover in FY 2022-23.

Integration of RE in sales gallery

Continued integration of on-site rooftop renewable energy in sales since FY 2022-23 with 29 kWp installation at Mahindra Vista and 30 kWp at Mahindra Citadel taking the cumulative capacity to 125 kWp. This has potential to generate 1.9 lakh

units annually and save ₹28 lakh annually. This will help us avoid ~134 tCO₂e annually from our scope 2 emissions thereby paving the way for carbon neutrality by 2040.

Onsite solar plant at MWC Jaipur

MWC, Jaipur generates its own power from on-site renewable energy accounting for 6% of its total energy consumption. In March 2024, it installed 629 kWp of on-site solar photovoltaic (PV) across utilities and other operational assets, accounting for

a cumulative on-site solar PV installed capacity to ~849 kWp. This reduces ~900+ tonnes of carbon each year paving the way to maintain a climate positive development status.

Building integrated photovoltaics (BIPV) at Mahindra Vista

Apart from rooftop solar installation, we explored integrating photovoltaics within the building design itself in India's first Net Zero Energy+Waste residential homes at Mahindra Vista. Around 20 panels have been integrated in 2 of the towers

entrance canopies generating ~11 MWh annually. BIPV system would offset 0.2% of total energy demand of the project and avoid 8 tCO2e annually.

WATER STEWARDSHIP

GRI 303-2

We have been strengthening our water stewardship practices recognizing the concerns related to availability of fresh water.

Water positive developments by 2030 (construction phase)

Net Zero water developments by 2030 (use phase)

Water is withdrawn from freshwater sources such as rainwater, groundwater sources such as borewells, & third-party sources such as tanker water, municipal water, wastewater from another source, and treated water onsite from sewage treatment plants. Our water sustainability strategy for future-readiness has guided us to develop mitigation measures based on best available practices. Due to our dependence on groundwater, we have classified all our sites into safe, critical, and over-exploited based on groundwater availability. The classification allows us to create

customized mitigations plans which are integrated at every stage of the project lifecycle, from the designing of our building, to measuring, and monitoring consumption during construction and occupancy stages. We also undertake initiatives to recharge groundwater in majority of the sites as per feasibility and detailed hydrogeological study for projects with groundwater recharge potential and flood risk mitigation. Hydrological study helps us develop and incorporate solutions for flood risk mitigation.

Water demand reduction initiatives

01

Water efficient irrigation for horticulture (drip and sprinkler systems)

04

Rainwater harvesting pits and recharge borewells

02

Reuse of storm water

05

Landscaping with recycled water

03

High efficiency water fixtures achieving upto 25% reduction of water flow per minute.

06

Water metering across all buildings

07

Recycle and reuse

We have installed sewage treatment plants to treat wastewater and treated water is supplied back through a dual plumbing system for reuse in toilets for flushing, and for horticulture. We

aim to recycle and reuse 100% of our wastewater and have integrated the measures in all our residential developments.

Completed Net Zero water feasibility study at Origins Chennai

In collaboration with subject matter experts from IIT Madras, we explored feasibility of waterbody developments within the cluster. A potential for 6 waterbody developments was identified with a combined potential of ~40

million liters of rainwater availability for use. We aim to commence implementation starting with one waterbody and gradually expand thereby ensuring water secure developments by 2030.

Kolavai lake water treatment system revamp at MWC Chennai

To ensure the city is water resilient, over 5 lakh kiloliters of wastewater was recycled annually. 100% of the treated water is reused for flushing and in landscape irrigation avoiding freshwater use. In collaboration with subject matter experts from IIT Madras, we have explored solutions to treat the Kolavai lake water and bring it within permissible limits of usability by revamping the existing water treatment system.

This will help reduce >70% of dependence on the borewell water that we use currently within the city.

Our water positive journey includes initiatives like building resilient water infrastructure, implementing drought management plans, and restoring ecosystems to improve water retention.

RISING TOGETHER WITH PURPOSE: STAKEHOLDER SERIES

In this series we highlight the voices and experiences of various stakeholders, showcasing our commitment to sustainability and collaborative growth at MLDL

Building wisely, building with water in mind

Mr. Vinit Phadnis, CTO and Co-Founder, Urdhvam Environmental Technologies Private Limited

MLDL and Urdhvam Environmental Technologies, a specialist in groundwater management, are pioneering sustainable water practices within the construction industry. Leveraging Urdhvam's expertise in hydrogeological assessments, MLDL gains critical insights into the water table at potential construction sites. This vital information aids in creating a comprehensive water budget, ensuring that a project's water usage aligns with the available resources and does not exceed them.

The collaboration between MLDL and Urdhvam extends well beyond mere regulatory compliance. It highlights MLDL's unwavering commitment to sustainable water management. A prime example of this proactive approach is seen in the Pimpri-Chinchwad project. Urdhvam's detailed assessment in this project revealed the presence of a shallow water table, which was unsuitable for the planned high-rise building. Recognizing the significance of these findings, MLDL made substantial changes to their original plans

"They opted for a more water-compatible alternative, showcasing their dedication to responsible construction," said Mr. Vinit Phadnis. This decision underscores MLDL's commitment to integrating environmental considerations into their construction practices.

WASTE MANAGEMENT

We ensure that all activities related to our projects result in no waste, which needs to be landfilled or incinerated, to achieve our goal of Net Zero waste by 2030. This ambitious goal entails implementing sustainable practices throughout the lifecycle of an asset, from demolition, planning and design, construction and operation.

Zero waste to landfill by 2030

Net Zero waste development by 2030

GRI 306-1,2

We have developed strong mechanisms to reduce waste generated during both construction and use phase. We are offering improved and green products with a lower waste footprint. In use phase, we are committed to ensure responsible waste management, from segregation and measurement to waste reuse, and recycling, adhering to due compliance requirements.

We were able to divert more than 94% of Residential and 76% of IC&IC generated waste away from landfill in FY 2023-24.

➤ **Mahindra Vista**

We have successfully achieved material recovery for reuse, recycling of more than 5% of total volume of waste generated during demolition at Mahindra Vista. Through on-site and off-site reuse (89%) and recycling (1%) through authorized recyclers, we plan to divert ~90% of waste away from landfill during demolition and construction phase.

➤ **Mahindra Zen**

We recovered the majority of the resources from the existing structure at Mahindra Zen and reused them in our new sales gallery, and the balance was sent to authorized recyclers.

Entrance - Usage of stones and old signage boulders from demolished structures.

40 tonnes of stone slabs recovered and reused within the new sales gallery structure thereby saving ₹5 lakh, and overall diverted 90% of waste away from landfill during demolition phase.

Recycled steel

We use secondary steel (with recycled content) across all projects except Gurugram project.

Use Phase - 100% wet waste composting

We have been able to divert 100% of wet waste away from landfill by converting it into compost which is then used within the site for landscaping or sent to agricultural fields for use by farmers. We are working towards segregating the dry waste and engaging with authorized recyclers for effective and efficient management of the waste.

Zero Waste to Landfill (ZWL) status renewed for Mahindra World City, Chennai

Demolition to Dialogue: Addressing construction waste through synergistic partnerships

Mr. Dwaipayan Aich, Chief Operating Officer, Feedback Foundation

Feedback Foundation, Mahindra Lifespaces, and Godrej Properties conducted a study addressing India's construction and demolition (C&D) waste problem. In India, there is a massive lack of reliable data on C&D waste hence the gap in understanding the enormity of the problem and the pertinent solutions. This study aimed to quantify waste generation in construction. Key findings revealed 3.64 kg/sq ft of waste in mid-scale residential Mivan projects, with 36,48,900 kg generated per million sq. ft. Notably, 85.61% of this waste is not recycled. The study's insights highlight the environmental and economic challenges of construction waste, urging sustainable practices. MLDL's collaboration with Feedback Foundation is fostering a more responsible construction industry in India, potentially driving industry-wide changes and improved waste management.

JOURNEY TOWARDS A HEALTHIER AND CLEANER WORKPLACE MAINTAINING BETTER AIR QUALITY

We follow **Avoid, Control and Mitigate** strategy to reduce air pollution from our activities across our projects.

Air quality monitoring during construction of projects is crucial to ensure the safety and well-being of workers, local residents, and the environment.

Air quality improvement initiatives

Multiple mitigation measures taken on-site during construction phase.

Real time monitoring through air quality index (AQI) monitors and dashboard

In FY 2023-24, apart from 3rd party accredited lab tested AQI and detection of pollutant levels, we installed real time AQI monitoring across Mumbai and Pune sites and results are displayed on a centralized dashboard for monitoring and quick decision making. This initiative is being emulated in our projects in the south.

Air Emissions

GRI 305-6,7

Ambient Air Quality (µg/m3) - MWC Chennai (FY 24)

Ambient Air Quality (µg/m3) - MWC Jaipur (FY 24)

*NAAQS permissible limits (annual): PM 10 – 100 | PM 2.5 – 60 | SO_x – 80 | NO_x – 80. All units are in µg/m³

In FY 2023-24, PM 10, PM 2.5 levels were within NAAQ standards threshold limits for Integrated City and Industrial Cluster businesses – MWC Chennai, MWC Jaipur, and Origins Chennai. In our residential business, 2 of our residential projects in Mumbai exceeded the NAAQ standards threshold limits in the month of November and December – period when the neighborhood AQI too exceeded their threshold limits. Our sustainable construction practices such as regular water sprinkling, use of wheel washing, covering vehicles at all times, use of real time AQI monitors helped us keep our onsite AQI within limits across our sites going ahead.

In FY 2023-24, our IC & IC businesses especially MWC Jaipur experienced a significant increase in point source emissions due higher dependence on diesel generator set due to power outages from the grid owing to coal shortage in the northern grid. On the other hand, point source emissions in our residential business have reduced owing to less dependence on DG sets and use of grid power and onsite renewable energy. Though we have DG sets being used as backup for operating STPs installed in the integrated cities, and in offices in residential projects, process improvements through conversion from diesel operated sets to biogas operated ones in MWC Chennai would help reduce the related emissions from next financial year.

BIODIVERSITY AND LAND USE

The design of our buildings is centered around protecting preserving or and enhancing biodiversity keeping in mind native ecology . in line with our ten-point nature resolution strategy. Our land assessment process involves environmental impact assessment which aids in developing strategies for biodiversity conservation. Though none of our projects are in sensitive zones, we do undertake biodiversity studies through external partners for projects rich in biodiversity and conserve the natural ecosystem (during construction too through our sustainable construction practices and regular biodiversity assessment for such areas). We strive to preserve existing plantations at sites. We assess the biodiversity of the property, retain the old trees, replant as necessary, and plant 10x times what is in the building footprint. This enables us to ensure cooler temperatures and clean air for the future dwellers. In certain cases, where preservation may not be possible, we transplant trees to a suitable location, where there is no danger of being cut down. We also strive to restore the area around our developments so that our urban areas flourish.

Initiatives for enhanced biodiversity

GRI 304-2

Developed herbal garden at MWC, Chennai

MWC, Chennai shelters an urban forest which is home to 3 lakh trees, and other native species. The creation of an herbal garden is a step towards our, efforts to enhance the bio-diversity, and in the process the health and well-being of all species within the city including humans.

The herbal garden nestles an aesthetic pathway, crafted from existing used pavers. We have planted 5,500 saplings nourished with organic manure comprising 32 botanical varieties of herbs with medicinal properties, in an area of 1,080sq.m.

Capturing nature in it's BEST avatar – International Day of Biological Diversity

On May 22, Mahindra Lifespaces celebrated the International Day for Biological Diversity, by organizing an in-house photography competition on awareness about the diverse biological ecosystems surrounding our projects and the homes of our associates. Three entries were awarded. The criteria

included number of captures and visual appeal, provision of biological/local names.

Winners of bio-diversity competition

RISING TOGETHER WITH PURPOSE: STAKEHOLDER SERIES

In this series we highlight the voices and experiences of various stakeholders, showcasing our commitment to sustainability and collaborative growth at MLDL.

Championing biodiversity: The collaborative success of MLDL and Terracon Ashok Jain, Managing Director, Terracon Ecotech

Terracon, a leading consulting firm specializing in environmental, geotechnical, and materials services, partners with MLDL to champion sustainable practices and biodiversity management. Since 2011, this collaboration has evolved from baseline data collection to comprehensive biodiversity action plans, showcasing a strong commitment to environmental stewardship.

By 2012, the partnership integrated a biodiversity component, leading to sophisticated management plans across over 20 sites. These plans include extensive flora and fauna studies, carbon sequestration analyses, and ecological connectivity maintenance. Notable achievements include retaining and enhancing a water body in the Mahindra Eden development and preserving heritage trees and rare species.

Ashok Jain, Managing Director of Terracon Ecotech, highlights the proactive approach to ecological conservation. MLDL's commitment, supported by Terracon's expertise, has fostered sustainable urban environments, and set a benchmark in biodiversity reporting and ecological planning. This partnership exemplifies how collaborative efforts can significantly advance sustainable practices and environmental preservation.

INTELLECTUAL CAPITAL

This capital primarily focusses on our initiatives on technology, research and development (R&D) and our impact through innovation via collaboration. As a brand, we continually set new standards in construction, design, services, operational efficiency, and deployment of sustainability initiatives.

MATERIAL TOPICS

Key Initiatives in FY 2023-24

- Spectrophotometer installed and launched
- Solar reflective Index (SRI) calculator was integrated into the existing low carbon material database tool
- Sky modelling data monitoring and validation for projects in Gurugram and Chennai continued this year along with lux level measurements and Commissioner International de L'Eclairage (CIE) analysis for Chennai and Delhi locations.
- Daylight Plug-in tool developed (For details pls check, <https://mahindratericoe.com/events.php>)

Our approach to developing intellectual assets within the organization involves implementing:

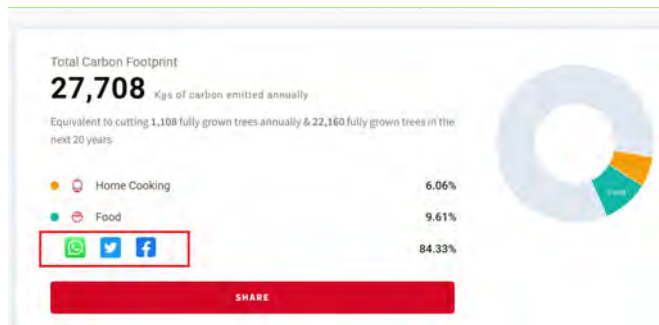

Innovation and technology

To build a resilient and forward-thinking organization, we have embraced significant technological advancements and bolstered our digital capabilities across our operations.

Carbon Calculator

Mahindra Lifespaces launched Carbon Calculator to drive awareness around individual CO₂ footprint

Mahindra Lifespaces introduced its first Carbon Calculator, taking strides towards embedding a sustainable lifestyle ethos in all aligned with Mission LiFE (Lifestyle for Environment) through technological intervention. Designed for user-friendly interaction, it enables individuals to assess their carbon footprint based on factors such as food, transport, and power consumption. With a process taking less than 5 minutes, users receive a clear and accessible graph illustrating their carbon impact.

M-skill activity videos

The implementation of M-Skill Activity Videos represents an innovative approach aimed at enhancing skill development and fostering a culture of continuous improvement and knowledge sharing within our organization. By leveraging modern technology, our initiative aims to establish new benchmarks in construction practices, prioritizing quality and efficiency across all projects.

To address high turnover rate among workers, we have implemented video-based training—a comprehensive solution that revolutionizes traditional training methods by harnessing multimedia to deliver essential knowledge and skills to engineers and construction workers.

Beyond training purposes, our videos serve as powerful marketing tools, enhancing customer trust and reinforcing our commitment to excellence. By showcasing the construction

process and quality standards maintained in our projects, we instil confidence in our customers and strengthen our reputation as a reliable and innovation-driven leader in the industry.

Visual work procedure (VWP)

The VWP initiative addresses a critical challenge faced by the real estate industry—a high turnover rate among workers leading to continuous change in the workforce and a gap in procedural awareness. To tackle this challenge, we have developed site-specific VWPs, comprehensive visual guides presented in both English and Hindi to ensure inclusivity and clarity in project-specific work procedures.

Extensive efforts were put towards designing comprehensive VWPs for 28 critical civil and mechanical, electrical and plumbing (MEP) activities. Unlike standardized training videos, these VWPs are tailored to specific projects and include project-specific content.

Solar decathlon

The Solar Decathlon India is an event organized by the 'Indian Institute for Human Settlements' and the 'Alliance for an Energy Efficient Economy' in collaboration with the 'Indo-US Science and Technology Forum'. It aims to inspire graduate and undergraduate students to create innovations for buildings that achieve net-zero-energy, net-zero-water, net-zero-waste, and climate resilience. Participating student teams collaborate

with mentors to design cost-effective and practical solutions for actual projects. Teams mentored by Mahindra Lifespaces Team Synergy (Sir J.J. College of Architecture (SJJCA), Mumbai) and Team Green Warriors (D Y Patil University School of Architecture Ambi, Pune) were the winner and runner-up under 'Multi-family housing' category in 2023 and 2024 respectively among 154 teams (32 finalists) and 175 teams (37 finalists) respectively across categories.

Building the future with solar decathlon India

Mr. Prasad Vaidya, Director, Solar Decathlon India

Since 2002, Solar Decathlon, a collegiate competition conducted by The U.S. Department of Energy has inspired thousands of students to enter the clean energy workforce. SDI is the vision of Mr. Prasad Vaidya, an architect with extensive experience in energy-efficient and sustainable building practices. Engaging architecture and engineering students, SDI bridges the gap in college level curricula in India with real-world application.

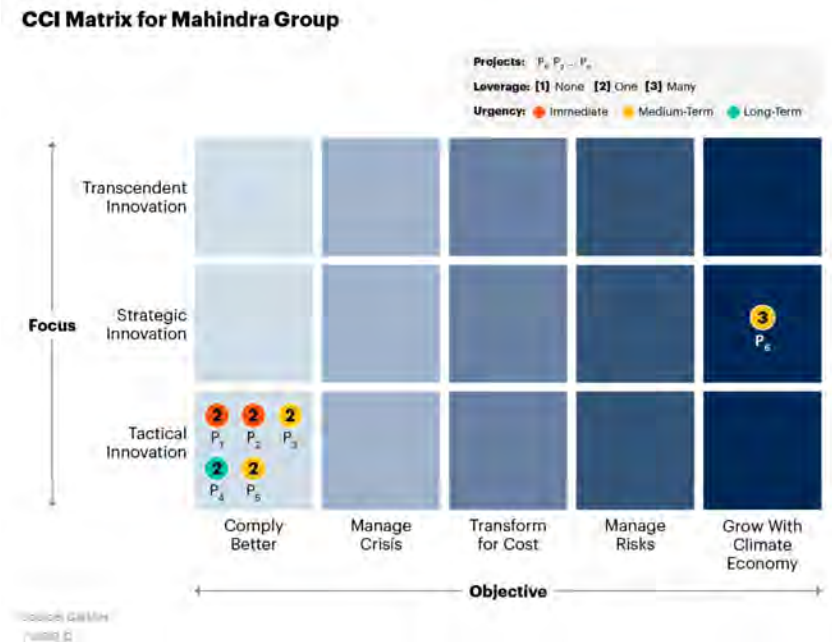

Key to SDI's success is its collaborative approach, with industry partners like Mahindra Lifespaces (MLDL) mentoring students and sharing practical insights. This synergy not only enriches education but also encourages developers to explore innovative concepts. Innovative solutions like Green Jams low-carbon blocks and Ambiator's refrigerant free cooling, have been recognized through SDI's Climate Smart Innovation Award, are being piloted by developers like MLDL and building owners like Infosys.

MLDL has been a steadfast partner, supporting mentorship, internships, and project evaluations since SDI's inception. By gaining hands-on experience and industry exposure, students are empowered to drive sustainable practices and innovation in their careers, fostering a future of sustainable, resilient buildings in India and beyond.

Gartner case – climate responsive design

A case study featuring Mahindra Group, is published in a Gartner paper titled “Apply a Framework Approach to Drive Climate Centered Innovation.” Mahindra Group is amongst 4% of enterprises that have executed or are currently executing more than five innovation projects in the past 12 months. Six projects have been highlighted from various initiatives, with the CRD approach by Mahindra Lifespaces receiving the highest score among those evaluated for Climate Centered Innovation (CCI) projects. The CCI project score serves as a project-level metric that allows for comparison over time and even benchmarking with other projects within the company.

Rising through collaboration

GRI 2-28

We are dedicated to fostering innovation by forging strategic partnerships with industry peers, global and national consortia, think-tanks, startups, and academic institutions. Recognizing that overcoming barriers to growth in our sector necessitates modern, ethical technological solutions, we remain committed to integrating sustainable practices into our business through investments in research and development (R&D) and the adoption of mature digital solutions.

Mahindra TERI Centre of Excellence (MTCoE)

Established on June 12th, 2018, by Mr. Anand Mahindra, our focus is on delivering market-ready, scalable, and economically viable technologies to support and incentivize the real estate industry. In phase 1, our research areas encompass

standardization of building materials, studies on building envelope, thermal and visual comfort, and sustainable water usage in habitats. Phase 2 (commenced November 22nd, 2021) introduces lab augmentation and sky modeling.

Advancing sustainable building practices

Laboratories equipped with state-of-the-art infrastructure play a crucial role in conducting thorough research and analysis, generating data needed to understand building emissions and energy consumption dynamics.

The Sustainable Buildings Division at TERI and Mahindra Lifespace Developers Ltd. jointly hosted a thematic session titled “Advancing Sustainable Building Practices: Leveraging Laboratories and State-of-the-Art Infrastructure to Improve Energy Efficiency and Thermal Comfort.”

RIISING TOGETHER WITH PURPOSE: STAKEHOLDER SERIES

In this series we highlight the voices and experiences of various stakeholders, showcasing our commitment to sustainability and collaborative growth at Mahindra lifespace.

Championing sustainability in real estate through research and innovation

Rana Veer Pratap Singh, Associate Fellow, Sustainable Building Division, Mahindra-TERI Centre of Excellence (MTCOE)

Imagine a future where buildings are naturally cool, energy-efficient, and resource-conserving. This vision is becoming a reality through the Mahindra-TERI Centre of Excellence (MTCOE), a groundbreaking collaboration between a leading real estate developer and a renowned research institute.

Established in 2016, MTCOE addresses sustainable building challenges in India’s fast-growing urban landscape. Their research spans sustainable materials, thermal comfort, natural daylight integration, water conservation, and sky modeling.

Their influence is extensive, benefiting the entire sector. By assessing materials and promoting energy-efficient options, MTCOE helps reduce buildings’ carbon footprints. Their thermal comfort research enables architects to design buildings that stay cool naturally, reducing air conditioning reliance. Similarly, their daylighting work enhances the use of natural light, cutting energy consumption.

MTCOE’s commitment goes beyond research. They share findings through reports, tools, and educational programs, empowering industry professionals to adopt sustainable practices. This collaboration exemplifies how combining industry expertise with research excellence can drive a more sustainable future for the Indian building sector and the world.

Decarbonization business charter (DBC)

Decarbonization business charter outlines essential steps for architects, designers, developers, contractors, property owners, facility managers, material manufacturers, and industry bodies to decarbonize the sector. A consortium led by WRI India, AEEE, EcoCollab, and Mahindra Lifespace Developers identified key actions across the sector’s value chain in stakeholder consultations.

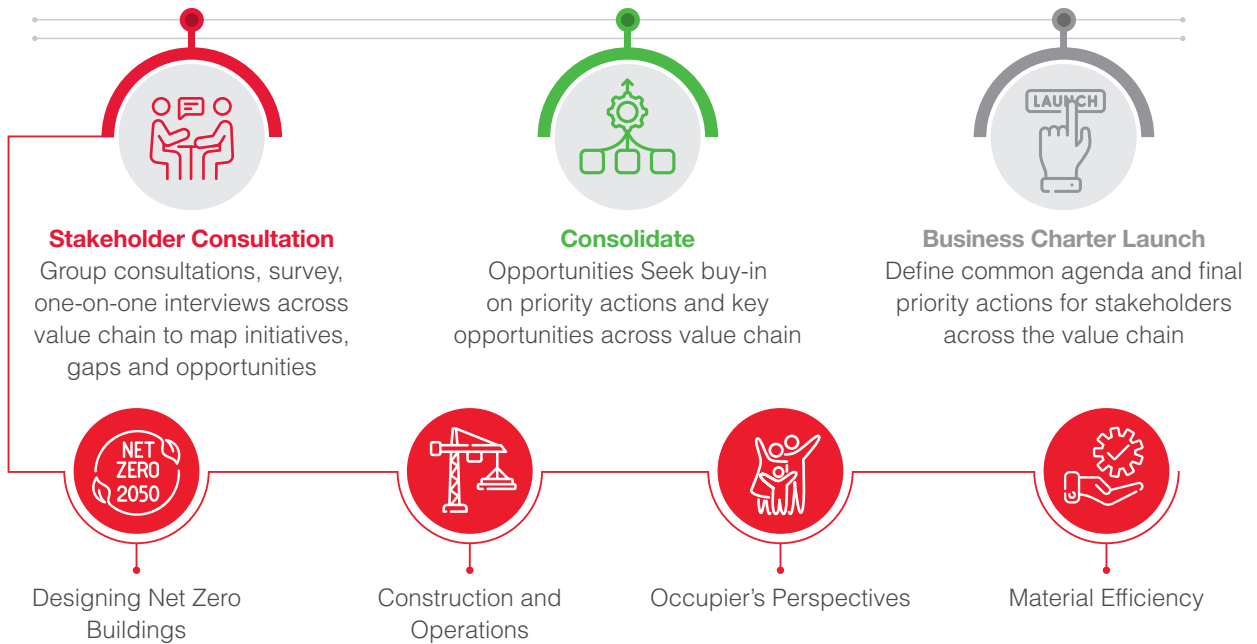

Launched on February 10, 2022, the Charter initially had

15 signatories. After call for action events in Delhi and Bengaluru, DBC family grew to include 74 signatories across the value chain (architectural firms, certification rating body, material manufacturers, waste management firms). This represents a significant 300% surge in partners collaborating to decarbonize the sector. In FY 2023-24, the decarbonization business charter funded by Swiss Agency for Development and Cooperation (SDC) carried our extensive outreach in the form of call for action events including, capacity building workshops (both in-person and virtual).”

Enabling Decarbonization Charter in two Indian metro cities (Delhi, Bengaluru)

Our Approach

Capacity building on sectoral decarbonization

8 virtual capacity building workshops "Decarb December" (331 participants cumulatively) were conducted on topics such as 'an approach towards Net Zero'; 'thermal comfort in affordable housing sector'; 'unravelling life cycle assessment (LCA)', etc. Three (Delhi, Pune, and Bengaluru)3 in-person

workshops were conducted for all value chain partners 206 participants across 108 firms engage with our signatories as part of our monthly meet-ups wherein good practices are shared by signatories with all (involves suppliers and contractors).

Three in person workshops conducted.

Webinar series spawning towards our net-zero commitment

Continuing our commitment to sectoral decarbonization, we are conducting capacity building and training sessions as part of the sectoral decarbonization business charters’ learning series called “One Brick at a Time.” This series of webinars aims to

encourage professionals in the construction industry to actively pursue commitments aligned with Net Zero goals.

Impact of the charter

Potential impact of the charter Priority Action	Potential Outcome	Potential Impact
Design Net Zero buildings	<ul style="list-style-type: none"> • Top 10 developers (based annual constructed area) in each metro city committed to make only Net Zero developments • Architectural firms/consultants are signatories to charter to design all new products as Net Zero. 	15% reduction in GHG emissions (national contribution of emissions) BY 2030

In this series we highlight the voices and experiences of various stakeholders, showcasing our commitment to sustainability and collaborative growth at Mahindra Lifespaces.

A committed partnership for change: The decarbonization business charter (DBC) Dr Bhaskar Natarajan, Director Programs – Alliance for an Energy Efficient Economy, AEEE

India's building sector faces a crucial challenge: reducing emissions while meeting growing demand. The Decarbonization Business Charter (DBC), led by AEEE and its partners, tackles this head-on.

This pioneering initiative unites over 74 industry leaders, driving innovation and setting new standards for sustainable construction. Early DBC achievements are impressive. The 2023 ECBC revision, influenced by the DBC, promotes stricter regulations. Pilot projects educate consumers on the environmental and financial benefits of sustainable buildings.

Challenges remain: raising awareness and scaling up low-carbon materials. The DBC is proactive, focusing on consumer education and promoting R&D in sustainable materials. Streamlining testing and certification processes will accelerate adoption.

Looking ahead, the DBC plans to expand social media outreach and strengthen collaboration with government and international partners. Replicating successful pilot projects holds immense potential. The DBC, is a beacon of hope, paving the way for a greener future for India's buildings.

The DBC, under AEEE and MLDL's leadership, is a beacon of hope, paving the way for a greener future for India's buildings.

Mahindra Lifespaces at COP 28 in Dubai

Dr. Sunita Purushottam represented Mahindra Lifespaces at COP 28, serving as Chair of the Global Buildings Performance Network (GBPN) and Head of Sustainability. She contributed

sectoral insights on decarbonization, building Net Zero and climate-resilient structures, passive cooling solutions, policy advocacy, and more, participating in five panel discussions and one workshop.

Mahindra Lifespaces at buildings and climate global forum, Paris

This was organized by Global ABC, UNEP and Ministry for Ecological Transition, France. The Forum commenced with the unveiling of the 2023 Global Status Report for Buildings and Construction.

The Forum concluded with the issuance of a Ministerial declaration, which delineates a comprehensive strategy aimed at addressing the decarbonization and climate resilience of buildings. Regarded as the cornerstone document for international collaboration, it is expected to facilitate progress towards a swift, equitable, and efficient transition for the sector. Over 70 governments have lent their endorsement to this declaration.

Key areas of focus identified during this session include resilience, just transition, and the importance of addressing whole-life carbon emissions.

Key insights

1. Adoption of passive cooling methods in construction: MLDL's involvement as a working group member by UNEP and GlobalABC underscores the importance of prioritizing "Passive-first for all" to mitigate the effects of climate change.
2. Data, Life Cycle Assessment (LCA), and knowledge: Understanding whole-life carbon emissions, encompassing both embodied and operational emissions, is crucial. Studies conducted by MLDL, such as the Building Passport tool and LCA study for Eden, provide valuable insights for making informed decisions that are sustainable and cost-effective.
3. Decarbonization Business Charter (DBC): On this platform, garnering global attention and is being considered for funding by UNEP to facilitate regional collaboration.

SOCIAL AND RELATIONSHIP CAPITAL

At Mahindra Lifespaces, we place great emphasis on nurturing, enduring and trust-based relationships with our diverse stakeholders, including customers, partners, community members, and beyond.

We strive to cultivate meaningful interactions with stakeholders through specialized programs tailored to address critical areas such as environmental sustainability, education, healthcare, women empowerment, sports, and more. These efforts underscore our commitment to fostering inclusive growth and driving positive change within the societies we serve.

Water conservation and enhancement

Empowered 320 rural residents in Gram Panchayats spread around Jaipur, with sustainable water management practices. Constructed farm ponds and rainwater harvesting tanks, improving water security and agricultural productivity.

1

Input

- Financial budget
- Vendor partner – Tarun Bharat Sangh (TBS)

3

Output

- Conducted awareness, social mobilization, and community motivation for water conservation through 61 Jal Samwads (door to door campaign, village meetings/seminars)
- Handed over five farm ponds and five rainwater harvesting tanks to the village/beneficiary with work completion letter

2

Activity

- Conduct need assessment
- Engage with local community on the plan and approach
- Beneficiary evaluation
- Engage with vendor partner for implementation
- Conduct community meetings to raise awareness
- Design the theme and content for wall paintings to raise awareness
- Conduct awareness seminars at village level

4

Outcome

- Five farms ponds (110 lakh liters) - additional storage for irrigation/farming purpose and five rainwater harvesting tanks (2 lakh liters) - additional storage for domestic purpose constructed for 10 beneficiaries across Nevta, Bhamboriya, and Kalwara panchayats
- Climate resilient and water-secured communities with better livelihoods (multi-cropping possible due to water availability year-round)

5

Impact

- Motivated and participative local communities
- Enhanced water security for domestic and irrigation purposes
- Improved crop yield, increase in number of types of crops and enhanced income
- Climate resilient and water-secured communities

RIISING TOGETHER WITH PURPOSE: STAKEHOLDER SERIES

In this series we highlight the voices and experiences of various stakeholders, showcasing our commitment to sustainability and collaborative growth at MLDL.

Transforming rural lives: A water conservation triumph

Pooja Bhati, Manager, Tarun Bharat Sangh

Tarun Bharat Sangh (TBS), led by Rajendra Singh, and Mahindra Lifespace Developers Limited (MLDL) are partnering to combat water scarcity in rural India. This collaboration empowers communities in Kota, Karoli, and Jaipur by providing sustainable water solutions. Villages struggling with unreliable water sources now benefit from five farm ponds and rooftop rainwater harvesting structures. Farmer awareness campaigns engage about 70 participants per session, fostering a culture of water conservation. Community ownership is emphasized with a 1% farmer contribution towards construction costs, ensuring project success. By promoting sustainable water management practices, TBS and MLDL are creating a ripple effect of positive change, paving the way for a water-secure future in these communities.

EDUCATION

Seva mandir

Launched in FY 2021-22, the Seva Mandir initiative continued to reduce school dropout rates among girls in Kumbhalgarh, Rajasthan. Operating across 12 government schools, it focuses on enhancing literacy and numeracy skills for girls in grades 1 to 5 and improving retention in higher grades (6 to 8).

720 girls
700 community members

63%
of the total enrolments

100/157
irregular girls are attending school

1

Input

- Financial budget
- Permission from schools and parents to conduct the activity

3

Output

- Covered eight villages and 12 government schools in Kumbhalgarh block
- Five residential trainings in areas like activity-based learning, foundational literacy, numeracy skills
- 4,989 home visits and identified issues such as housework, health problems, parental concerns about safety, and irregular school attendance
- 197 community meetings held with 2,907 participants (2,438 women)
- 2-day workshop for 14 teachers on gender and education
- Yuva Manch exposure visit for 2,363 girls (1,950 school-going and 413 community girls)
- Ten schools conducted street plays to raise awareness about early marriage and the impact of "aata saata."

4

Outcome

- 720 girls from 1st to 8th grades benefited from an enabling environment in schools
- Out of 157 irregular girls, 100 (63%) became regular attendees
- Regular home visits identified 73 girls that had dropped-out; 16 re-enrolled in school and 8 joined open schools
- 30 government teachers trained in activity-based learning and gender sensitization
- Over 700 community members increased their awareness of the importance of education for girls and social norms affecting it

2

Activity

- Identification of village and school to implement project
- Conducted baseline survey to assess regularity and retention of girls
- Conducted capacity building of Shiksha Sahayak (SS)
- Engaged with parents and community
- Conducted sensitization session and capacity building for staff and school management committees
- Created Yuva Manch for girls and provided training to the girls on gender and life skills

4 Outcome

- Increase in the attendance regularity of girls and rejoining of school dropouts
- Increased awareness amongst the community on the importance of girls’ education, factors impacting girls’ education, and menstrual health and hygiene.
- Increased assurance from SMC members on their active role in strengthening schools and ensuring the regularity of girls

Empowered learning spaces

5 Impact

- Enhanced educational infrastructure at Kottaikuppam, benefiting 23 school children. Improved health and well-being, expected to increase school enrollment and access to education, fostering an educated and empowered community.

Nanhi kali

- The Nanhi Kali initiative provided comprehensive educational support to 227 underprivileged girl children in India. This support included educational kits with books, shoes, uniforms, and stationery to ensure continuous access to educational facilities. Additionally, the initiative offered social support by counselling parents and the community.

Green army

The Green Army program aims to influence one million caring citizens to adopt sustainable lifestyles by educating children. Since 2014, it has mobilized school children to embrace healthy and sustainable living practices. During the pandemic, the "Green Army Family" online platform extended this to children and their families.

On March 5th, 2024, Mahindra Lifespaces, in collaboration with Pro Earth and Parisar Asha, organized a #IAMGREENARMY event in PCMC schools, focusing on waste management. Green champions engaged with students in 5 government schools, sharing insights on sustainability and distributing steel nets for plastic collection.

RISING TOGETHER WITH PURPOSE: STAKEHOLDER SERIES

In this series we highlight the voices and experiences of various stakeholders, showcasing our commitment to sustainability and collaborative growth at MLDL

Mobilizing a green army of a million caring citizens

Aarati Savur, CEO, Parisar Asha

The collaboration between Mahindra Lifespaces and Parisar Asha began in 2014 to nurture environmentally conscious youth. Parisar Asha, founded in 1982, uses its Environmental Studies Approach to Learning (ESAL) to empower underprivileged children. In the last decade, the partnership has impacted 878K+ students across 529 schools, promoting environmental education and responsibility and creating 3.4 lakh caring citizens. Key achievements include the Green Army Workshop, which reached 10,114 students in 2023-24 through 111 workshops. The initiative has also engaged 30,000 family members, driving significant behavioral changes like starting kitchen gardens and reducing food waste. Aligning with Sustainable Development Goals, the program demonstrates a holistic approach to environmental education, aiming to create a sustainable future through continued collaboration.

WOMEN EMPOWERMENT

Project Hunar:

Impact: Started in 2011, our women and rural youth skill development program has trained 2,496 rural youth and 2,147 women, forming 20 Self-Help Groups (SHGs). It has enhanced employment opportunities, with 35%-40% of trainees securing jobs at MWC Jaipur, promoting entrepreneurship, and improving the economic status of rural women and youth. In FY 2023-24, 275 people including 236 women were trained in 7 different skills.

Entrepreneurship development of women

In FY 2023-24, we expanded our horizon, and supported development of women-led businesses by providing financial and training assistance to 25 rural women. Through mobilization and entrepreneurship development program training, 25 women launched ventures such as tailoring shops, beauty parlors, grocery stores, and more. This support has empowered women to achieve financial independence, generating an annual revenue of ₹ 20+ lakh and a profit of approximately ₹10+ lakh, significantly enhancing their socio-economic status. This is an extension of our skill development program (Hunar) to next stage of putting the skills to use and earn livelihood in the process.

1

Input

- Financial budget
- Vendor partner – PURE India trust

2

Activity

- Conduct need assessment
- Engage with local community on the plan and approach
- Beneficiary evaluation
- Engage with vendor partner for implementation

3

Output

- Target block selected in the district and list of villages that require focus
- Identified financially disadvantaged women/youth who possess fundamental skills necessary for running their own micro enterprises
- Beneficiary evaluations done with the villagers aligned to selection criteria and priority need
- Provided entrepreneurship development program (EDP) trainings and financial support
- Helped with business branding, accounting and business trainings
- Businesses launched

4

Outcome

- Final selection of beneficiaries for entrepreneurship opportunities done basis the evaluation criteria, engagement with beneficiary
- Training and licensing done for the beneficiary
- 25 women-led entrepreneurs (some of whom were skilled through Hunar in previous and current years) awarded financial support to start their own ventures
- Support also included making them market ready to handle the businesses on their own

5

Impact

- Empower women / disable youth to achieve financial independence
- Support women / youth in becoming local change leaders
- Generate Annual revenue of around ₹ 20+ Lakh overall and profit of approx. ₹10+ Lakh

RIISING TOGETHER WITH PURPOSE: STAKEHOLDER SERIES

In this series we highlight the voices and experiences of various stakeholders, showcasing our commitment to sustainability and collaborative growth at MLDL.

Empowering women, transforming lives & building communities

Prashant Pal, Founder and CEO, PURE India Trust

PURE India Trust, headquartered in Jaipur, fosters women entrepreneurship across 14 states, empowering marginalized women to start small businesses. In collaboration with Mahindra Lifespaces, they provide financial support, training, and resources, focusing on economic empowerment and environmental impact.

The Women Entrepreneurship Program identifies women with entrepreneurial aspirations, offering training and funding to launch ventures like tailoring shops and food carts. This initiative has empowered hundreds of women, enhancing their financial independence.

The E-Rickshaw Program addresses environmental concerns by providing electric rickshaws to disabled and impoverished individuals, significantly improving their incomes and promoting clean transportation. E-rickshaw owners earn an average of ₹19,000 monthly, while women entrepreneurs earn an average net profit of ₹3,500 per month.

The partnership has achieved success in economic empowerment, employment generation, environmental impact, community engagement, and skill-building.

GREEN SHOPPING BAZAAR

Financial aid for electric wheeler

To celebrate World Environment Day, Mahindra World City, Jaipur, organized the second edition of the Green Shopping Bazaar on 6th June, 2023. The event aimed to promote sustainability by offering environmentally friendly products to employees of various companies within MWC Jaipur.

Impact: The event saw a 4x increase in footfall and a 3x increase in green product sales compared to last year. Thirteen change enablers engaged with over 600 green enthusiasts, achieving sales exceeding ₹1 lakh.

OTHER FOCUS AREAS

Financial aid for electric wheeler

Impact: Provided sustainable income opportunities for five rural families, including differently-abled individuals, by facilitating E-rickshaw operations. Promoted eco-friendly transportation, reducing carbon emissions in MWC Jaipur

In our ongoing commitment to fostering social and economic empowerment, Mahindra Lifespaces has initiated a Women Entrepreneurship and E-rickshaw financing support program aimed at rural women.

KIDZANIA

KidZania operates interactive indoor theme parks worldwide. The park provides hands-on experiences for children, allowing them to simulate real-life professions such as pilots, dentists, and delivery persons. At KidZania in Mumbai, we have set up a booth with eco-friendly activities for children. The ‘Mahindra Sustainable Design Studio’ enables children to create their own eco-friendly residential projects, exposing them to the design process and its trade-offs. Upon completion, children receive certification as Green Army Architects. Over a period of five months, 42,197 children visited the booth at KidZania, gaining valuable insights into sustainability.

ZONE 1

Sustainable design studio

Here, children can design and create their own sustainable developments, explore various options, understand their environmental impacts, and make choices for an ideal future.

ZONE 2

Green power hub (cycling zone)

This zone educates children about renewable energy through playful competitions.

ZONE 3

Construction site

Younger kids can build their own homes using toy bricks and cement.

SUPPLIERS

GRI 308-1,2

Our supplier relationships are vital for sourcing quality materials and services efficiently and on time. We adhere to all relevant laws and regulations in our procurement practices. Being recognized as a Supplier Engagement Leader by CDP for the fourth consecutive year is a testament to Mahindra Lifespaces’ effective engagement with our suppliers and value chain partners on climate change and other ESG aspects.

We prioritize tracking, monitoring, and measuring our ESG targets and metrics to ensure continuous improvement and alignment with our sustainability goals.

As a 100% green certified real estate company, we prioritize waste management throughout our project lifecycle. Our processes address waste generated during demolition, construction, and product use phases, ensuring responsible disposal and recycling.

Supplier ESG assessment and continuous improvement

We build trusted relationships with our value chain partners based on the key tenets of sustainability – environmental stewardship, social sustainability, and transparency.

During the onboarding process, we screen each supplier on several sustainability parameters. This includes supplier categorization into three levels – minimum, qualifying and

leadership basis their level of sustainability maturity. We have a self-assessment tool for suppliers to evaluate their individual performance on environmental, social and governance factors. Post the self-assessment, we visit our partner premises to understand the on-ground commitments and realization of impact, and then work with them to learn and support as required to imbibe sustainability further.

In FY 2023-24, we engaged with 7 of our suppliers across segments – glass, cables, aluform, CP sanitary, RMC, and fabrication units to understand their sustainability integration and maturity within their production processes, products, and services. GRI 308-1 and 414

The site initiatives focus on sustainability through water conservation, waste management, and energy efficiency. Key actions include reducing water use, implementing rainwater harvesting and groundwater recharge, converting waste to compost and energy, promoting paperless operations, and utilizing solar energy and energy-efficient appliances. Additionally, recycled materials are used for play equipment, and High-density polyethylene(HDPE) plastic waste is sent to authorized recyclers.

Green supply chain management policy

Additionally, our **Green supply chain management policy** promotes procurement from vendors who recycle waste materials, fostering a circular economy. Since 2023, we've partnered with vendors committed to sustainable packaging practices, such as using recyclable materials and reducing single-use plastics. This includes – CP Sanitary goods available with inner filling of hay, and the plastic thread for typing replaced with jute thread and bath fixtures/taps available in cloth bags

which are taken away by the supplier for reuse, tiles available in cardboard packaging with cardboard angles (not plastic) for edge protection and these cardboard packaging material is taken back by the vendor, pipes are now delivered in jute bags rather than plastic, and many more. Our contractors also support sustainability efforts through quarterly assessments and unique initiatives. Our vendors are expected to adopt the sustainable practices throughout their operations, including:

- Products and materials made up of construction & demolition (C&D) waste
- Renewable materials such as bamboo, bagasse, and eucalyptus
- Use of salvaged materials that have lived their life and are about to be sent to landfill
- Materials with more than 25% recycled content or industrial waste
- Alternative construction materials like M sand and engineered wood
- Bio-based materials made from agro or bio-waste
- Priority to products that are rapidly renewable, easily recyclable, and contain recycled content over virgin materials
- Product lifecycle impact

Stakeholders meet FY 2023-24

We recently hosted our annual stakeholders meet for its value chain partners, focusing on the theme **“Materials Matter: Unlocking Concrete Ways to Decarbonize Building Materials.”** The event aimed to reduce embodied carbon in building materials and align with MLDL’s sustainability roadmap, emphasizing Carbon Neutrality and Net Zero commitments.

This was the **13th stakeholders meet**, attended by 120+ change makers and guest speakers. The meet concluded with partner felicitation and discussions on mutual expectations and capacity building. It reiterated the urgency of decarbonization and emphasized collective efforts in the sustainability journey.

CUSTOMERS

We endeavor to create living and working spaces that not only meet but exceed the discerning standards of our customers, fostering lasting satisfaction and fulfilment. While crafting residential homes or integrated cities and industrial clusters, our paramount priority is to tailor our projects to precisely align with the expectations and preferences of our valued clientele.

Sustainability with customers

- Sustainability – We ensure that 100% of our turnover is derived from environmentally and socially responsible offerings. Our residential homes and Integrated Cities and Industrial Clusters feature amenities such as rainwater harvesting, sewage treatment plants, solar PV systems, and resource recovery centers, promoting safe and sustainable living.
- Customer satisfaction - By measuring customer satisfaction levels and identifying areas for improvement, we ensure that our engagement strategies remain effective. We conduct Customer satisfaction surveys (CSS) across all projects at various stages to gauge customer sentiments. This year, our customer satisfaction score for residential projects rose to 49, reflecting a 32% improvement. We maintain a robust grievance mechanism, resolving complaints through platforms like M-Life/SFDC, and ensuring timely and effective responses.

CUSTOMER RELATIONSHIP AND COMMUNICATION

Customer portal: Through our customer portal hosted on our website, we offer a convenient platform for customers to submit their inquiries and communicate with us effortlessly. The M-Life mobile app provides detailed information about our service offerings, while ‘Customer Assist’ offers a single contact number for customer support. Additionally, ‘Back Office’ handles administrative tasks such as invoicing, payments, and document management, ensuring seamless service delivery.

Integrated zero touch product:

We have established a digital sales and customer onboarding platform that facilitates virtual walk through, online site visits, e-KYC, online booking and payments.

Sales and services:

Various functions such as pre-sales, sales, CRM, marketing facilities management (FM), and feedback have been integrated digitally to ensure seamless customer interaction.

'M-Life' mobile app:

Our dedicated mobile app allows customers to contact specific teams administration tasks easily.

'Customer Assist' tool:

We have introduced a single contact number to address customer queries from the post-booking till the post-handover stage, enabling us to log and track all customer inquiries efficiently.

'Back Office' support:

A dedicated team has been established to support customers with critical administrative activities, including invoicing, payments, and document management.

Digital platforms for value-added services:

Customers can avail of traditional value-added services such as interior solutions, electrical fittings, and lighting through our digital channels

HappiEdge:

We have developed a mobile app for our channel partners. This app serves as a centralized repository for project marketing materials and includes modules for learning and development, lead management and transaction processing.

Feedback: We have established multiple channels to receive and respond to consumer complaints and feedback, including M-Life/SFDC, coalesce meetings, emails, websites, social media, telephone, and helpdesk calls. Complaints are resolved through a structured matrix involving cross-functional teams, ensuring customer satisfaction and process improvement.

CYBER SECURITY AND DATA PRIVACY

GRI 418

We have a comprehensive cyber security policy aligned with the Mahindra Group's information and malware security policies. This framework ensures the protection of customer data, with **zero incidents of data breaches** reported in FY 2023-24. The policy details are available on our website, ensuring transparency and trust.

CAPACITY BUILDING PROGRAM

Our sustainability and facility management teams engage in discussions with customers to ensure effective waste management. We emphasize reducing consumption to minimize waste generation and encourage primary waste segregation into wet, dry, and reject waste at the household level.

We then outline the solutions provided by us to manage these waste types effectively, seeking support from our customers.

CUSTOMER HEALTH

GRI 416-1 & 2

Natural lighting, ventilation, improved air quality, reduced noise levels, and the use of materials with minimal impact are key considerations integrated into our products for customer health. We thoroughly assess the health and safety impacts of all our offerings and incorporate measures to manage them effectively. Our designs prioritize:

Before handover, we ensure that our products are in a habitable state by conducting building flush outs to remove construction related pollutants. Additionally, we communicate regulatory requirements concerning fire safety and environmental standards to Resident Welfare Associations post-handover, demonstrating our ongoing commitment to customer well-being beyond the point of sale.

FUTURE OUTLOOK OF CAPITALS

Our vision is anchored in fostering sustainable growth and creating value across all capitals. Our existing and planned initiatives are designed to ensure we meet our commitments to stakeholders and drive long-term success.

ROAD AHEAD

Dr. Sunita Purushottam, Head of Sustainability

In Rising Together with Purpose for a Holistic Future, we are stitching together a journey which is filled with hope, optimism, and power of regeneration. Each passing year humanity feels increasing 'heat' of Climate Change and Accelerated Biodiversity loss. Nature nurtures us, we exist because of nature. Only nature can help us adapt to the changing climate as it regulates it.

Climate change is not binary, it's a continuum and we influence it through our actions or inactions. It's time to rethink how we design our cities and living spaces, and our choices of consumption. Earth (our only home) is at a climate tipping point. A tipping point indicates a critical threshold, which when crossed, can lead to accelerated and irreversible changes in climate system.

We have the capability to make a difference. Each one of us can rise to this great calling, where we take the responsibility to become part of solutions that offer hope. At Mahindra Lifespaces, we are committed to rethinking how we design our cities and living spaces, and the role we can play in influencing consumption choices. In the last financial year, we took up the responsibility to craft proactive solutions that redefined urban living. From decarbonizing our value chain through the Business Charter, to launching India's first of its kind Net Zero Energy and Waste projects - Mahindra Vista and Mahindra Zen in Mumbai and Bengaluru respectively, to India's only 1st IGBC certified platinum rated township (Stage II) - Mahindra World City, Chennai.

Our contributions in the social sector focused on construction worker welfare initiatives focusing on housing and social security and diversity enhancing programs such as graduate engineer trainee, which focuses on hiring women into all construction related roles to encourage women in construction.

We believe in inclusive development and take into our ambit the communities in which we operate. This year we impacted lives of over 6 lakh people across the country through our operations via social initiatives including involvement of our associates.

At Mahindra World City, Jaipur, we created a positive impact on the lives of women farmers and homeowners by provisioning for farm ponds and rainwater harvesting tanks. This initiative touched 40 direct and 280 indirect women beneficiaries. Our community outreach included work with Dalits (untouchable) in 5 villages surrounding Mahindra World City, Jaipur through our partner Tarun Bharat Sangh (founded by Rajendra Singh- "Waterman of India", winner of the Magsaysay Award in 2001 and Stockholm Water Prize in 2015).

Collaborative action can shape our Holistic Future

We have been able to integrate sustainability holistically due to our ecosystem of like-minded partners who also espouse the same ethos “Rise with a purpose”. This year’s report is a tribute to them and the impact we have been able to create which lays the foundation for a holistic future.

Our persistent quest to integrate decarbonization solutions in the built environment led to the birth of a unique “Business Charter” in February 2022. This business charter was the result of a partnership with World Resources Institute India, Alliance for an Energy Efficient Economy and EcoCollab. The charter with seed funding from Bloomberg Philanthropies acts as a platform to explore common challenges and opportunities and identify priority actions for key stakeholders to decarbonize the building and construction sector. This initiative was subsequently funded by the Swiss Agency for Development and Cooperation (SDC). From merely 16 signatories, now have grown to 74 signatories.

Our partnership with Solar Decathlon India, is a game changing initiative for young architectural students, sensitizing them to design energy efficient structures. Students mentored by us through this initiative have aced the competitions (‘multifamily housing category’) for two consecutive years.

Climate Research at Mahindra TERI Centre of Excellence (MTCoE)

We, at Mahindra Lifespaces, renewed our commitment to funding research on Sustainable Habitats at MTCoE in November 2021. This work is critical as the unique centre aims to develop and provide open-source resources for climate-resilient built environment. In phase 2, we augmented the laboratory with 3 pertinent technical equipments namely; 1. Guarded hot box - thermal transmittance, 2. Spectrophotometer - solar reflectance and transmission, 3. Sky scanner - luminance and radiance of local sky (installed in Chennai and Gurugram). In FY 2023 - 24, a daylight plug-in was launched, to use the sky scanner results to compute point-in-time illuminance simulations in a building. Our dissemination of this work reached over 3,462 stakeholders. We also disseminated the MTCoE study results and application areas by conducting 3 training sessions for our internal design team.

Thought Leadership: Amplifying our voice on Global Platforms

We have been forthright in presenting our views and lending our voice from the Global south highlighting our challenges and seeking opportunities to participate in transformation initiatives.

In FY2023 - 24, we participated at several sessions organized multi-lateral and bi-lateral organizations including UNFCCC, UNEP, WBCSD, GBPN amongst others. Policy interventions focussing on decarbonization and climate adaptation of the building sector to deliver future-proof living spaces was a key focus area. Our participation at COP 28 in Dubai, welcomed the announcement of organization of the first Global Forum on “Buildings and Climate”.

We participated in first Building and Climate Global Forum held at Paris, co-organized by the Government of France and the United Nations Environment Programme (UNEP), with the support of the Global Alliance for Buildings and Construction. The forum brought together government ministers (responsible for shaping building regulations) alongside sector leaders from across the value chain. The Forum helped catalyse international collaboration and aggregate momentum across global supply chains and between national governments.

Way Forward

As planetary boundaries are crossed (6/ 9 crossed as per Stockholm Resilience Institute), pressures on human existence are expected to rise. This includes nature loss, increased air, water, land pollution leading to a negative impact on quality of life and increased health risks. As a responsible business we have embedded systems and processes covering both environmental and social performance of our projects that go beyond compliance requirements and facilitate proactive prevention and mitigation and measure impact.

Our Net Zero commitment has accelerated our action within the organization while setting exemplifying pathway for all within the sector. Our 2030 Planet Positive Roadmap, is guided by the double materiality exercise conducted by us this financial year. As we continue on our journey of Crafting the Future with environmentally and socially responsible homes and industrial developments, we will continue to take into our fold stakeholders to join us in our vision for crafting a holistic future: Rise Together with Purpose.

As per the aforesaid SEBI Circulars, members holding securities in physical form may note that any future dividend payable against their shareholding would be withheld if their KYC is not updated with KFin. To avoid delay in receiving dividend, members are requested to update their bank details with their

Depository Participants, in case the shares are held in dematerialised mode and with KFin Technologies Limited, in case the shares are held in physical mode. As per the SEBI Circular, effective from April 1, 2024, RTA i.e. KFinTech will attend to all service requests of the shareholders with respect to transmission, dividend, etc., only after updating the above details in the records.

For the purpose of updation of KYC, members are requested to send the necessary forms (ISR-1 and ISR-2) along with the necessary attachments mentioned in the said Forms to KFinTech, Selenium Tower B, Plot Nos. 31 & 32, Gachibowli, Financial District, Nanakramguda, Serilingampally, Hyderabad - 500 032.

Alternatively, members may send the documents by email to KFinTech at einward.ris@kfintech.com or upload on their webportal <https://ris.kfintech.com/clientservices/isc/isrforms.aspx>, provided in both cases the documents furnished shall have digital signature of the holders.

- 14. TDS ON DIVIDEND:** Pursuant to the Income Tax Act, 1961, as amended, by the Finance Act, 2020, dividend income will be taxable in the hands of Members w.e.f. April 1, 2020 and the Company is required to deduct tax at source from dividend paid to Members at the prescribed rates. For the prescribed rates for various categories, please refer to the Finance Act, 2020 and the amendments thereof. A resident individual member with PAN and who is not liable to pay income tax can submit a yearly declaration in Form No. 15G/15H, to avail the benefit of non-deduction of tax at source by submitting the details online at <https://ris.kfintech.com/form15/forms.aspx?q=0> on or before Wednesday, 10th July, 2024. Members are requested to note that in case their PAN is not registered or having invalid PAN or they are Specified Person as defined under section 206AB of the Income Tax Act ("the Act"), the tax will be deducted at a higher rate prescribed under section 206AA or 206AB of the Act, as applicable.

Non-resident Members [including Foreign Institutional Investors (FIIs)/Foreign Portfolio Investors (FPIs)] can avail beneficial rates under tax treaty between India and their country of tax residence, subject to providing necessary documents i.e. No Permanent Establishment and Beneficial Ownership Declaration, Tax Residency Certificate, Form 10F, any other document which may be required to avail the tax treaty benefits. For this purpose, the Members may submit the above documents at <https://ris.kfintech.com/form15/forms.aspx?q=0>. The aforesaid declarations and documents

need to be submitted by the Members on or before Wednesday, 10th July, 2024. For further details please refer to FAQs on Taxation of Dividend Distribution at <https://www.mahindralifespaces.com/investor-center/?category=dividend>.

An email communication informing the Members regarding TDS on dividend under the Income Tax Act, 1961 as well as the relevant procedure to be adopted by them to avail the applicable tax rate is being sent by the Company at the registered email IDs of the Members and is also uploaded on the website of the Company at www.mahindralifespaces.com and on the websites of the stock exchanges i.e. BSE Ltd. at www.bseindia.com and National Stock Exchange of India Ltd. at www.nseindia.com.

As mentioned above, the Members are requested to submit the aforementioned documents at <https://ris.kfintech.com/form15/forms.aspx?q=0> on or before Wednesday, 10th July, 2024 in order to enable the Company to determine and deduct appropriate tax. No communication on the tax determination/ deduction shall be entertained post Wednesday, 10th July, 2024. It may be further noted that in case the tax on said dividend is deducted at a higher rate in absence of receipt of the aforementioned details/ documents from the Shareholders, there would still be an option available with the Shareholders to file the return of income and claim an appropriate refund, if eligible.

In the event of any income tax demand (including interest, penalty, etc.) arising from any misrepresentation, inaccuracy or omission of information provided by the shareholder, such shareholder will be responsible to indemnify the Company and also, provide the Company with all information/ documents and co-operation in any appellate proceedings. The Company shall arrange to email the soft copy of TDS certificate to the Shareholders at the registered email ID in due course, post payment of the said Dividend.

ITEM NO. 5:

Ms. Amrita Chowdhury was appointed as a Non-Executive Independent Director on the Board of your Company, pursuant to the provisions of section 149 of the Companies Act, 2013 ("the Act") read with the Companies (Appointment and Qualifications of Directors) Rules, 2014, by the Shareholders at the 21st Annual General Meeting ("AGM") of the Company held on 31st July, 2020 to hold office for a period for 5 years with effect from 13th August, 2019 upto 12th August, 2024 (both days inclusive) ("first term").

Profile:

Ms. Amrita Chowdhury has completed 53 years of age. Ms. Amrita Chowdhury holds degrees in B.Tech. from IIT Kanpur, Master of Science (MS) from UC Berkeley, and MBA from Carnegie Mellon - Tepper Business School. She is a business strategist, engineer and innovator. She brings a unique understanding of business growth, technology, digital spaces and branding. She is the Co-Founder & CEO of Gaia, an information and analytics company providing deep learning SaaS solutions and digital transformation advisory for cities, government, and enterprises. She has led city-scale technology design and program management for multiple smart cities and asset management companies across India. She has been instrumental in building national scale digital platforms for various government departments and missions in India, as well as SaaS products serving clients across India, USA, and Japan. She has won multiple awards as an entrepreneur and is a tech achiever. Previously, she has served as the President of DY Works (Future Group), where she expanded the business with special focus on market research and brand led strategy for government, townships, realty, and digital platforms segments. Prior to that, she was Country Head South Asia for Harlequin (Torstar), where she significantly grew the India portfolio; and Associate Director, Education for South Asia for Harvard Business School.

Prior to moving to India, Ms. Amrita Chowdhury provided Board advisory and strategy consulting for Fortune 100 clients with AT Kearney in USA and Oppeus in Australia serving clients across diverse industries including mining, manufacturing, engineering, legal and professional services, insurance, technology, government, education, auto ancillaries, waste management, and more to provide strategic planning for

new business and business growth, Board evaluations, and Board level strategy workshops. She started her journey in product development with Applied Materials in California, where her work led to innovations that enabled next-gen chip manufacturing.

She holds seven US patents for semi-conductor manufacturing. She is the author of two books. She has written multiple white papers and contributed to policy documents on Smart Cities, Design Thinking, Systems Thinking, and Future of Jobs for various Ministries and industry bodies.

Ms. Amrita Chowdhury is one of the founding team members of Gaia and designated as CEO, is not in full time employment of the private limited company. Ms. Amrita Chowdhury's limited role is monitoring the strategic function of Gaia and does not need full time engagement due to the nature of business. Ms. Amrita Chowdhury has been the Independent Director on the Board of the Company since 2019 and as such during that time as well she was the Founder and CEO of Gaia. However, her attendance and her contribution in the last five years is impeccable which fortifies the fact that she devoted sufficient time as an Independent Director of the Company. Keeping in view her current role and limited responsibilities in the private limited company and other companies where she is a Director, Ms. Amrita Chowdhury would be able to devote sufficient time for her professional obligations as an Independent Director for the second term. Ms. Amrita Chowdhury has 100% attendance at all Board, Audit Committee (member) and Nomination & Remuneration Committee (Chairperson) meetings held during her first term.

The Nomination and Remuneration Committee ("NRC") and the Board of Directors at their respective meetings held on 26th April 2024, on the basis of the outcome of performance evaluation of Ms. Amrita Chowdhury, acknowledged her valuable contribution to the Board and Committees deliberations, business knowledge, acumen, integrity and experience. The performance evaluation of Independent Director was based on various criteria, including attendance at Board and Committee Meetings, skill, experience, ability to challenge views of others in a constructive manner, knowledge acquired with regard to the Company's business, understanding of industry and global trends, etc.

Considering the above attributes, NRC and Board are of the view that continued association of Ms. Amrita Chowdhury as an Independent Director of the Company would be beneficial to the Company. Ms. Amrita Chowdhury's experience and qualification is highly rewarding for any company, considering her expertise in technology, innovations, best practices pertaining to transparency, accountability and corporate governance, international experience in managing businesses, strategic planning and digital transformations for businesses. The skills/expertise possessed by Ms. Amrita Chowdhury are essential for effective functioning of the Company's business. Based on her attendance record, expertise, knowledge, experience, the NRC and Board recommended re-appointment of Ms. Amrita Chowdhury (DIN: 02178520), as a Non-Executive Independent Director of the Company, not liable to retire by rotation, to hold office for a second term of 5 (five) consecutive years on the Board of the Company commencing from 13th August 2024 up to 12th August 2029 (both days inclusive).

Copy of the draft letter of re-appointment of Ms. Amrita Chowdhury setting out terms and conditions of re-appointment are available for inspection by the Members in electronic form as per the instructions provided in the notes of this Notice.

Ms. Amrita Chowdhury is not disqualified from being appointed as Director in terms of section 164 of the Act and has given her consent to act as Director.

The Company has received declaration, including declaration of compliance as per Rule 6(3) of the Companies (Appointment and Qualification of Directors) Rules, 2014 from Ms. Amrita Chowdhury stating that she meets the criteria of independence as prescribed under sub-section (6) of section 149 of the Act and Regulation 16(1)(b) of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations"). Ms. Amrita Chowdhury is not debarred from holding the office of Director pursuant to any Order issued by the Securities and Exchange Board of India (SEBI) or any other authority.

In the opinion of the Board, Ms. Amrita Chowdhury fulfils the conditions for appointment as an Independent Director as specified in the Act and the Listing Regulations. Ms. Amrita Chowdhury is independent of the management.

The Board is of the view that Ms. Amrita Chowdhury's knowledge and experience will continue to be of immense benefit and value to the Company and pursuant to the recommendation of the NRC, recommends her re-appointment as a Non-Executive Independent Director to the Members.

The Company has received notice in writing from a Member under section 160 of the Act, proposing the candidature of Ms. Amrita Chowdhury, for the office of Director of the Company.

In terms of Sections 149 (10) of the Act read with Regulation 25 (2A) of the Listing Regulations, re-appointment of an independent director is subject to the approval of shareholders by way of a special resolution.

The Board recommends the Special Resolution set out at Item No. 5 of the Notice for approval of the Members.

Save and except Ms. Amrita Chowdhury, and her relatives to the extent of their shareholding interest, if any, in the Company, none of the other Directors, Key Managerial Personnel (KMP) of the Company and their relatives are, in any way, concerned or interested, financially or otherwise, in the Resolution set out at Item No. 5 of the Notice.

ITEM NO. 6

At the 16th Annual General Meeting ("AGM") held on 31st July 2015, the Members of the Company had approved, under the provisions of Section 197 of the Companies Act, 2013 ("Act") and other applicable provisions thereunder, payment of commission on net profit to the Non-Executive Directors ("NEDs") of the Company, the aggregate of which shall not exceed 1% of the net profit of the Company from April 1, 2015 onwards and such net profit referred under Section 197 of the Act shall be computed in accordance with the provisions of Section 198 of the Act and Rules framed thereunder.

In terms of Section 198 read with Schedule V to the Act, in the event of no/ inadequate profit in any financial year, the Company would be entitled to pay remuneration to its NEDs / Independent Directors ("IDs") up to the specified limit prescribed under Schedule V to the Act based on the 'Effective Capital' as defined under the Act. Basis the effective capital of the Company as per the financial statements for the year ended March 31, 2023 and March 31, 2024, the limit applicable is ₹ 24 Lakhs plus 0.01% of the effective capital in excess of ₹ 250 crores. However, the Company intends to pay beyond the same by seeking approval of the members by way of special resolution.

In terms of the provisions of Section 197(3) of the Act read with Section II of Part II of Schedule V to the Act, in case of no / inadequate profit calculated under Section 198 of the Act in any financial year, the Company may pay remuneration to its NEDs / IDs, in excess of the prescribed limits in accordance with the provisions of Schedule V to the Act, provided that the Resolution passed by the Members is a Special Resolution.

Subject to the approval of the members, payment of Remuneration, is proposed, including profit related commission, in addition to sitting fees and reimbursement of expenses incurred for attending meetings of the Board of Directors and the Committees thereof, to the Non- Executive Independent Directors of the Company appointed from time to time, of such amount upto a limit of ₹ 1,50,00,000 (Rupees One Crore Fifty Lakhs only) in aggregate to all the Non-Executive Independent Directors, per annum, which may exceed 1% of the net profits of the Company, computed in accordance with the provisions of Section 198 of the Act,

be paid to and distributed amongst the Non-Executive Independent Directors of the Company in such amounts or proportions and in such manner as may be directed by the Board of Directors of the Company (hereinafter referred to as the 'Board', which term shall deem to include any Committee(s) constituted/to be constituted by the Board to exercise its powers conferred by this resolution) at the end of each financial year for a period of 3 years commencing from the financial year ended on 31st March, 2024.

For the financial year ended on 31st March, 2024, the proposed remuneration, subject to shareholders approval, will be exceeding the limits prescribed under Schedule V to the Act. and merge with above paragraph.

The role of Directors, particularly Non- Executive Independent Directors, is pivotal in ensuring the governance, performance, and sustainable growth of the Company. Their diverse expertise, independent perspective, and strategic insights contribute significantly to the decision-making process of the Board. Given the evolving corporate governance landscape and increased regulatory requirements, the Directors, especially IDs, face heightened responsibilities and duties. Their diligent oversight and collective wisdom are instrumental in guiding the Company's strategic direction and navigating critical decisions. The Company has paid sitting fees to the Non-Executive Independent Directors. No commission has been paid to Non-Executive Independent Directors from financial Year 2019-20 till financial year 2022-23. During the FY 2023-24, the Company has not paid commission to its Non-Executive Independent Directors and is currently seeking approval of the members for payment of commission at the end of each financial year for a period of 3 years commencing from the financial year ended on 31st March, 2024 for three years including for the financial year ended on 31st March, 2024 upto FY 2025-26.

2. Past remuneration:

The Non- Executive Independent Directors are eligible for payment of sitting fees for attending the meetings of the Board of Directors / Committee(s). The details of sitting fees and remuneration, if any, paid by the Company is disclosed under 'Remuneration to Directors' in the Report on Corporate Governance which forms part of the Annual Report for the FY 2023-24.

3. Remuneration proposed:

As mentioned in the resolution above and explanatory statement herein.

4. Comparative remuneration profile with respect to industry, size of the Company, profile of the position and person (in case of expatriates the relevant details would be with respect to the country of his origin):

The proposed remuneration has been considered by the Nomination & Remuneration Committee as well as the Board of Directors of the Company, to be in line with the remuneration being drawn by similar positions in the real estate industry, considering the size of the Company and time devoted by the Independent Directors along with shouldering responsibilities endowed by the regulations applicable to the Company.

5. Pecuniary relationship directly or indirectly with the Company, or relationship with the managerial personnel, or other director, if any:

The Non- Executive Independent Directors do not have any pecuniary relationship with the Company, except to the extent of sitting fees, commission / remuneration as applicable and reimbursement of out-of-pocket expenses received by them for attending company meetings.

C. OTHER INFORMATION:

1. Reasons of loss or inadequate profits:

In FY 2023-24, the Company recorded net loss after tax of ₹ 3,881.96 lakh and as per Section 198 of the Act, the Company reported net loss of ₹ 16,620.71 lakh. Effective 1st April, 2018, as per Indian Accounting Standards ('Ind AS'), the Company is required to follow the Completion Contract Method as opposed to the Percentage of Completion Method and as a result, the revenues and direct project costs arising out of the residential projects are recognized only once a phase or entire project of residential development is completed, thereby delaying reporting of revenue and profitability. The phase or project is construed to be completed on receipt of occupation / completion certificate for the residential projects. During the year, there has been reduction in the number of completed

projects. Given the Ind AS methodology, which is unique to the real estate sector, and reasons as stated herein, the financial performance of the Company was impacted.

2. Steps taken or proposed to be taken for improvement.

The Company has taken the following operational steps to improve performance:

- i. Accelerate acquisition of land parcels;
- ii. Assess favourable opportunities in the redevelopment of residential projects;
- iii. Adherence to project completion timelines;
- iv. Optimising the product pricing opportunities;
- v. Concerted efforts on optimisation and reduction of direct and indirect cost;
- vi. Deploying technology and innovative construction techniques to drives efficiencies; and
- vii. Focus on sustainability for creating differentiated offerings.

3. Expected increase in productivity and profits in measurable terms:

The Company is strategically positioned to capitalize on the positive demand outlook for the real estate sector in India. With launches undertaken during the Financial Year 2023-24, the Company has generated momentum that is expected to carry forward into Financial Year 2025 and beyond. Additionally, the Company boasts a robust pipeline of launches resulting from past acquisitions. Furthermore, progress is underway on redevelopment projects. It also has a strong balance sheet and the ability to raise capital at competitive terms to fund its growth aspirations. Besides, the Company continues to leverage IT and digital technologies to improve its efficiencies and gain competitive advantage which sets it apart among its peers. These initiatives underscore the Company's proactive approach to leveraging opportunities and sustaining growth in the dynamic real estate market.

The special resolution would be valid for a period of three years, commencing from the financial year ended 31st March, 2024. The proposed remuneration shall be in addition to fees payable to the Non- Executive Independent Directors for attending meetings of the Board / Committees and reimbursement of expenses for participation in the Board and other meetings. The aforesaid remuneration shall be in accordance with the Policy for Remuneration of the Directors, which is available on the website of the Company at <https://mldlifespacebucket01.s3.amazonaws.com/2019/06/policy-for-remuneration-of-the-directors.pdf>. The Company has not defaulted in payment of dues to any bank or public financial institution or non-convertible debenture holders or other secured creditor.

The Board recommends the Special Resolution set out at Item No. 6 of the Notice for approval by the Members.

None of the Directors, Key Managerial Personnel, or their respective relatives, is concerned or interested, financially or otherwise either directly or indirectly in the Resolution mentioned at Item No. 6 of the Notice, except the Non-Executive Independent Directors, and their relatives, may be deemed to be concerned or interested in this resolution to the extent of remuneration that may be received by them.

ITEM NO. 7

The Board of Directors, at its Meeting held on 26th July, 2023, upon the recommendation of the Audit Committee, approved the appointment of CMA Vaibhav Prabhakar Joshi, Practicing Cost Accountant having Firm Registration No. 101329, as Cost Auditors of the Company for conducting the audit of the cost records of the Company, for the Financial Year ended 31st March 2024, at a remuneration of ₹1,43,000/- (Rupees One Lakh Forty Three Thousand Only) (plus statutory levies, reimbursement of out of pocket expenses and other actual expenses incurred during the course of audit).

Pursuant to section 148(3) of the Companies Act, 2013 read with the Companies (Audit and Auditors) Rules, 2014, Members of the Company are required to ratify the remuneration to be paid to the cost auditors of the Company. Accordingly, consent of the Members is sought for passing an Ordinary Resolution as set out at Item No. 7 of the Notice for ratification of the remuneration payable to the Cost Auditors for conducting the audit of the cost records of the Company for the Financial Year ended on 31st March 2024.

None of the Directors, Key Managerial Personnel of the Company and their relatives are, in any way, concerned or interested, financially or otherwise, in the Resolution set out at Item No. 7 of the Notice.

The Board recommends the Ordinary Resolution set out at Item No. 7 of the Notice for approval of the Members.

ITEM NOS. 8 TO 14:

As per Regulation 2(1)(zb) of SEBI (Listing Obligations and Disclosure Requirements) 2015 ("Listing Regulations"), related party means and includes related parties as defined under Section 2(76) of the Companies Act, 2013 ("the Act") and applicable accounting standards and, *inter alia*, includes any person or entity forming part of the promoter or promoter group of a company and any person or entity holding 10% or more equity shares of the Company either directly or on a beneficial interest basis, at any time, during the immediate preceding financial year. Accordingly, all subsidiaries / associate companies / joint venture companies / the holding company of the Company, fellow subsidiaries and other companies forming part of Mahindra Group are related parties to the Company (collectively referred to as 'Related Parties').

Further, Regulation 2(1)(zc) of the Listing Regulations, as amended, *inter alia*, provides that a transaction involving transfer of resources, services or obligations between:

- (i) a listed entity or any of its subsidiaries on one hand and a related party of the listed entity or any of its subsidiaries on the other hand;
- (ii) a listed entity or any of its subsidiaries on one hand, and any other person or entity on the other hand, the purpose and effect of which is to benefit a related party of the listed entity or any of its subsidiaries is a "Related Party Transaction" (RPT). The RPT shall be construed to include a single transaction or a group of transactions in a contract.

As per the proviso to Regulation 23(1) of the Listing Regulations, as amended, a transaction with a related party shall be considered material, if the transaction(s) to be entered into individually or taken together with previous transactions during a financial year, exceeds ₹ 1000 crore or 10% of the annual consolidated turnover of the listed entity as per the last audited financial statements of the listed entity, whichever is lower. The consolidated turnover of the Company as per

the audited financial statements for financial year 2023-24 stood at ₹ 212.09 crore. Accordingly, the limit of material RPT for the Company, based on the consolidated audited financial statements of the Company as on 31st March 2024, is ₹ 21.21 crore ("Materiality Threshold"). Regulation 23(4) of the Listing Regulations provides for obtaining prior approval of the Members of the Company for all RPTs which exceeds Materiality Threshold and subsequent material modifications thereof.

Regulation 23(2) provides that the prior approval of the Audit Committee is required for all RPTs where a listed entity is a party. An RPT to which a subsidiary of a listed entity is a party but the listed entity is not a party, shall require prior approval of the Audit Committee of the listed entity, if the value of such transaction, whether entered into individually or taken together with previous transactions during a financial year, exceeds ten percent of the annual standalone turnover as per the last audited financial statements of the subsidiary. However, as per Regulation 23(3) of Listing Regulations and Rule 6A of Companies (Meetings of Board and its Powers) Rules, 2014 (Rules), for transaction which are repetitive in nature, the Audit Committee may grant omnibus approval for such RPTs.

Accordingly, Audit Committee of the Company considers and grants omnibus approval to the RPTs which are repetitive in nature in accordance with Regulation 23(3) of Listing Regulations, the Act and the Rules made thereunder. The transactions entered into pursuant to the omnibus approval are placed before the Audit Committee on quarterly basis for review. In line with the same, the Audit Committee, at its meeting held on 15th March 2024, has granted its omnibus approval for transactions proposed to be entered into during FY2024-25 with the Related Parties.

The transactions, which are not part of omnibus approval, are executed after seeking approval of the Audit Committee and Members, if applicable. These transactions are usually in the nature of land purchase, funding requirements, investment etc. to meet business objectives of the Company. Accordingly, the Company has, from time to time, sought approvals for transactions relating to land purchase, funding / investment in subsidiaries etc.

The Company had also taken approval of the Members of the Company at its 19th Annual General Meeting held on 30th July, 2018 for material RPT which, *inter alia*, included, providing or availing loans, providing or availing guarantees or security for loans borrowed by the Company or the Related Parties. Pursuant to the said approval, the Company has, based on

the business requirements, from time to time, entered into transactions with its Related Parties. In accordance with the Listing Regulations, the RPTs have been approved by only those members of the Audit Committee who are Independent Directors.

Further, in terms of SEBI Circular No. SEBI/HO/CFD/CMD1/ CIR/P/2022/47 dated 8th April, 2022, the members' approval on omnibus material RPTs accorded in Annual General Meeting shall be valid upto the date of the next Annual General Meeting for a period not exceeding fifteen months. The Company is also seeking approval for a specific material RPT (in addition to omnibus material RPT) based on definitive agreements executed as mentioned in Item No. 12 of this Notice.

The Audit Committee and the Board of Directors at their respective meetings held on 26th April 2024 have considered, approved and recommended the material RPTs for approval of the members.

Considering the quantum of transactions, approval of the Members is sought as per the requirements of Regulation 23 of the Listing Regulations, for the below mentioned Material RPTs, details of which are mentioned herein in accordance with SEBI Circular No. SEBI/HO/CFD/CMD1/ CIR/P/2021/662 dated 22nd November 2021:

f. Justification for why the proposed transaction is in the interest of the Company

The Company is a leading real estate developer and a subsidiary of Mahindra & Mahindra Limited (M&M). The Company has a healthy pipeline of land deals and continues to evaluate further opportunities in this space through asset light models including joint-development, JVs and development management routes with landowners. It also sees considerable opportunities for redevelopment projects and acquisition of stressed assets. The Company's strategy is to capitalise on these opportunities and build a stronger presence in its key markets and also look forward to expanding its presence in additional geographies based on specific opportunities, if any. In the industrial business, its focus is on accelerating the leasing activity and explore other business models. Towards this, the Company adopts all reasonable measures for cost optimization, wherever feasible, by leveraging synergies within the group companies by entering into range of Related Party Transactions with the Related Parties, from time to time, in the ordinary course of business and at arm's length. The Company evaluates various options for development of land parcels including acquisition of land / TDRs from its holding company as per the business requirements of the Company and as may be mutually agreed between the Company and M&M in ordinary course of business and on arm's length basis.

The Company is part of the larger Mahindra group, it benefits from availing high-quality services from group resources and infrastructure instead of investing on its own. These transactions ensure consistent flow of desired services without interruptions, thus creating operational synergies, cost optimisation, optimal utilisation of resources and business efficiencies.

The proposed approval is an enabling provision for undertaking Related Party Transactions with the holding company, as may be required, based on the business needs and requirements of the Company.

Note:

MHDL had availed ICDs from the Company aggregating to ₹ 25 crores from FY 2023 to FY 2024 for the period 6 months, at average interest rate of 8.38%, as per prevailing market rates.

MHPL had availed ICDs from the Company aggregating to ₹ 32 crores from FY 2023 to FY 2024 for the period 3 months, at average interest rate of 8.25%, as per prevailing market rates.

MWUL had availed ICDs from the Company aggregating to ₹ 6 crores from FY 2023 to FY 2024 for the period 6 months, at average interest rate of 8.50%, as per prevailing market rates.

Additionally, during FY24, in accordance with the provisions of the Act and approvals as required for the said corporate actions specified under the applicable laws, MHPL has bought back 5,480 equity shares of Series B and C from each of its shareholders viz. Actis Mahi (Singapore) Private Limited and the Company, respectively at a price of ₹ 49,902/- aggregating to cash outflow of ₹ 27,34,62,960/- to each shareholder. The corporate action of buyback of shares has been uniformly offered / applicable to all shareholders in proportion to their shareholding.

Additionally, during FY23, pursuant to Order pronounced by Hon'ble National Company Law Tribunal, MHPL reduced its share capital (capital reduction) by 17,000 equity shares of Series B and C held by each of its shareholders viz. Actis Mahi (Singapore) Private Limited and the Company, respectively at

a price of ₹ 41,722/- per share aggregating to cash outflow of ₹ 70,92,74,000/- to each shareholder.

The value of corporate actions from MHPL to the Company that are uniformly offered / applicable to all shareholders in proportion to their shareholding, are in accordance with the approval of the Board of Directors / Shareholders of MHPL and are therefore not included in the above-mentioned table and also not included in the proposed limits as mentioned in this notice.

MHDL, MHPL, and MWUL may require further support from the Company to meet their increased working capital needs. Therefore, it is necessary to have an enabling approval in place to provide fund-based support to these subsidiaries based on their business requirements. This would enable the subsidiaries to seamlessly source funds as needed in the normal course of their business activities. In light of this, the Company is seeking the approval of the shareholders for transactions between the Company and MHDL, MHPL, and MWUL, respectively.

ITEM NO. 12: APPROVAL FOR MATERIAL RELATED PARTY TRANSACTION(S) BETWEEN THE COMPANY AND ITS ASSOCIATE COMPANIES.

The Company had, on 5th October 2022, executed definitive documents to establish joint ventures with Actis / its Affiliates ("Actis"), a leading global investor in sustainable infrastructure, for developing industrial and logistics real estate facilities across India. Subject to requisite approvals and finalisation of other definitive documents, the Company or its Affiliates and Actis or its Affiliates will jointly invest in Asset Owning SPVs and in an entity that will provide business services to the Asset Owning SPVs. Up to 100 acres of land with ready infrastructure in the two Mahindra World Cities, offering a built-up potential of over two million square feet, has been earmarked as seed sites to be acquired and developed by the Joint Venture Platform over time, subject to requisite approvals. The Joint Venture will also simultaneously acquire and develop other greenfield and brownfield sites in key markets across India, aiming to become a leading real estate solutions provider to global and local corporations. The total investment in the business over the initial years, including debt, is estimated to be ₹ 2,200 crore. Actis will own a majority stake, and the Company will have a significant minority. Industrial and warehousing have emerged as a high-growth real estate asset class buoyed by rising consumer demand and accelerating manufacturing investment. The Company or its Affiliates may own stakes in the range of 26% to 40% in these entities, and the balance will be owned by Actis or its Affiliates.

Subject to requisite approval and finalisation of other definitive documents, the Company and Actis, for the above purpose, will form Asset Owning SPVs from time to time and an Operating Company which will provide services to these Asset Owning SPVs. Ample Parks and Logistics Private Limited (formerly known as AMIP Industrial Parks Private Ltd.), a company for the purpose of providing services to the Asset Owning SPVs. Pursuant to the Shareholders Agreement executed dated 9th November 2022 (SHA), the Company, subject to the business requirement, may invest upto ₹ 49.40 crore i.e. 26% of the overall investment commitment and the balance will be invested by Actis / its Affiliates. The SHA and /or other definitive agreement(s) may be amended from time to time as per the business requirements and as may be mutually agreed between the Parties including, but not limited to, revision in terms and conditions, subject to requisite approvals, as may be required from time to time. However, the overall investment of the Company for the said platform will not exceed ₹ 182 crores as mentioned in the resolution for Item No. 12 of this Notice.

In accordance with the Securities Purchase Agreement (SPA) and Shareholders Agreement (SHA) executed on 4th September 2023, the Company, subject to fulfilment of certain conditions as mentioned in the SHA and business requirement, has agreed for a total investment commitment of ₹ 48.9 crore over a period of five years in Ample Parks Project 1 Private Limited (formerly known as Interlayer Two Warehousing Private Limited). The SHA / SPA / other definitive agreement(s) may be amended from time to time as per the business requirements and as may be mutually agreed between the Parties including, but not limited to, revision in terms and conditions, subject to requisite approvals, as may be required from time to time. However, the overall investment of the Company for the said platform will not exceed ₹ 182 crores as mentioned in the resolution for Item No. 12 of this Notice.

In accordance with the Securities Purchase Agreement (SPA) and Shareholders Agreement (SHA) executed on 4th September 2023, the Company, subject to fulfilment of certain conditions as mentioned in the SHA and business requirement, has agreed for a total investment commitment of ₹ 47.9 crore over a period of five years in Ample Parks Project 2 Private Limited (formerly known as Interlayer Three Warehousing Private Limited). The SHA / SPA / other definitive agreements may be amended from time to time as per the business requirements and as may be mutually agreed between the Parties including, but not limited to, revision in

terms and conditions, subject to requisite approvals, as may be required from time to time. However, the overall investment of the Company for the said platform will not exceed ₹ 182 crores as mentioned in the resolution for Item No. 12 of this Notice.

As on date, the Company holds 26% of the total share capital of Ample Parks and Logistics Private Limited and 33% of total share capital of Ample Parks Project 1 Private Limited and Ample Parks Project 2 Private Limited. Resulting in these companies becoming associates of the Company. Subject to requisite approvals, the shareholding ratio between the Company and Actis in the aforementioned associate company(ies)/associate company(ies) for the said platform may undergo change based on the definitive agreements (including amendments thereof) and as may be mutually agreed between the Parties to the relevant agreement(s) from time to time.

Further, investment in form of equity and/or other securities including preference, debt, convertible, non-convertible, in all the abovementioned entities and future entities will be undertaken in accordance with the terms of the SHA by the Company and balance will be held by Actis / Affiliates.

In pursuant to the aforementioned definitive agreements, the Company has undertaken a commitment of ₹ 182 crores for the platform with Actis, wherein the investment will be made in the form of equity and / or other securities including preference, debt, convertible, non-convertible in the Operating Company i.e. Ample Parks and Logistics Private Limited and Asset Owning SPVs, existing and / or will be formed or acquired based on the terms and conditions as may be mutually agreed between the Company and Actis or its Affiliates, from time to time in order to meet its business objective of developing industrial and logistics real estate facilities across India. The investment by the Company will result in the Asset Owning SPVs becoming associate of the Company from time to time based on the business needs and requirements.

The Audit Committee (only Independent Directors) have approved and recommended, and the Board of Directors have also considered and approved the platform with Actis at its meeting held on 4th February 2022. Further, the Audit Committee and Board of Directors at their respective meetings held on 26th April 2024 approved and recommended to the shareholders for approval of material RPTs as mentioned in the explanatory statement with overall investment limit of ₹ 182 crores for a period of five years from FY 2024-25 upto FY 2028-29.

ANNEXURE 1

DIVIDEND DISTRIBUTION POLICY

The Dividend Distribution Policy (“the policy”) establishes the principles to ascertain amounts that can be distributed to equity shareholders as dividend by the Company as well as to enable the Company strike a balance between pay-out and retained earnings, in order to address future needs of the Company. The policy shall come into force for accounting periods beginning from 1st April, 2016.

Dividend would continue to be declared on per share basis on the Ordinary Equity Shares of the Company having face value of ₹ 10 each. The Company currently has not issued any other class of shares. Therefore, dividend declared will be distributed amongst all shareholders, based on their shareholding on the record date.

Dividends will generally be recommended by the Board once a year, after the announcement of the full year results and before the Annual General Meeting (AGM) of the shareholders, out of the profits of the Company for current year or out of profits of the Company for any previous financial years or out of both, as may be permitted under the Companies Act, 2013 (“the Act”).

In the event of inadequacy or absence of profits in any year, the Board may recommend to declare dividend out of the accumulated profits earned by the Company in any previous financial years and transferred to free reserves, provided such declaration of dividend shall be in accordance with the provisions of the Act and Rules framed thereunder.

The Board may also declare interim dividend as may be permitted by the Act.

The Company has a consistent dividend policy that balances the objectives of appropriately rewarding shareholders through dividends and to support the future growth.

As in the past, subject to the provisions of the applicable law, the Company’s dividend payout will be determined based on available financial resources, investment requirements and taking into account optimal shareholder return. Within these parameters, the Company would endeavor to maintain a total dividend pay-out (including dividend distribution tax) ratio in the range of 20% to 35% of the annual standalone Profits after Tax (PAT) of the Company.

While determining the nature and quantum of the dividend payout, including amending the suggested payout range as above, the Board would take into account the following factors:

- **Internal Factors:**

1. Profitable growth of the Company and specifically, profits earned during the financial year as compared with:
 - a. Previous years and
 - b. Internal budgets,
2. Cash flow position of the Company,
3. Accumulated reserves
4. Earnings stability
5. Future cash requirements for organic growth/ expansion and/or for inorganic growth,
6. Brand acquisitions,
7. Current and future leverage and, under exceptional circumstances, the amount of contingent liabilities,
8. Deployment of funds in short term marketable investments,
9. Long term investments,
10. Capital expenditure(s), and
11. The ratio of debt to equity (at net debt and gross debt level).

- **External Factors:**

1. Business cycles,
2. Economic environment,
3. Cost of external financing,
4. Applicable taxes including tax on dividend,
5. Industry outlook for the future years,
6. Inflation rate, and
7. Changes in the Government policies, industry specific rulings & regulatory provisions.

Apart from the above, the Board also considers past dividend history and sense of shareholders' expectations while determining the rate of dividend. The Board may additionally recommend special dividend in special circumstances.

The Board may consider not declaring dividend or may recommend a lower payout for a given financial year, after analyzing the prospective opportunities and threats or in the event of challenging circumstances such as regulatory and financial environment. In such an event, the Board will provide rationale in the Annual Report.

The retained earnings of the Company may be used in any of the following ways:

1. Capital expenditure for working capital,
2. Organic and/ or inorganic growth,
3. Investment in new business(es) and/or additional investment in existing business(es),
4. Declaration of dividend,
5. Capitalisation of shares,
6. Buy back of shares,
7. General corporate purposes, including contingencies,
8. Correcting the capital structure,
9. Any other permitted usage as per the Companies Act, 2013.

Information on dividends paid in the last 10 years is provided in the Annual Report.

This policy may be reviewed periodically by the Board. Any changes or revisions to the policy will be communicated to shareholders in a timely manner.

The policy will be available on the Company's website at <https://mldlprodstorage.blob.core.windows.net/live/2022/02/2-Dividend-Distribution-Policy.pdf>

The policy will also be disclosed in the Company's annual report.

CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS AND OUTGO

A. CONSERVATION OF ENERGY:

- (i) The steps taken or impact on conservation of energy : Aligned to Company's sustainability commitments and roadmap, adequate measures were taken to reduce energy consumption and improve efficiency of its products and services. To meet our sustainability commitments on science-based targets, carbon neutrality, and make all its new developments Net Zero by 2030, Climate Responsive Design (CRD) is adopted as a first step to build energy efficient residential homes. CRD involves provision of passive design interventions such as right building orientation, efficient walling and roofing assembly, appropriate insulation material, window to wall ratio, low SHGC glass, etc. that help reduce the energy requirement of residential products and maintenance expenditure. The Company continue to maintain 100 percent green portfolio of products. All products are IGBC/GRIHA certified. In FY 2024, two of the projects- Mahindra Vista (Mumbai) and Mahindra Zen (Bengaluru)- were India's 1st and 2nd Net Zero Energy + waste certified residential projects and IGBC Gold and Platinum pre-certified Green Homes respectively.

Mahindra Citadel (Pune) - received Gold pre-certification rating under IGBC Green Homes. Mahindra Roots (Mumbai) , Windchimes (Bengaluru) - and Bloomdale (Nagpur) - received IGBC Gold final certification rating under IGBC Green Homes. The Company has first 3 projects Net Zero Energy and 1st 2 Net Zero Waste (Design) certified projects in India. In addition to energy efficiency measures through active and passive design, the projects are also designed to reduce freshwater demand, preserve and enhance biodiversity, and divert waste away from landfill.

The Company as part of its efforts to reduce energy consumption constantly adopts and deploy in its projects various energy conservation measures across all three stages of development – design, construction, and occupancy stage. Some of the energy efficient measures includes solar reflective paints on roof, efficient glass, energy efficient lighting, use of star rated equipments, use of solar PV, BIPV (Building Integrated Photovoltaic), small wind turbines, etc.

- (ii) The steps taken by the company for utilising alternate sources of energy : Integration of renewable energy is one of the steps to meet our Net Zero commitments. In all the Net Zero Energy Residential projects – 100% of the energy demand is being met using solar onsite and remaining energy is being met using power from the grid generated using renewable sources. The dependence on clean sources of energy has increased and been standardized for new developments based on its feasibility. Our energy conservation measures also include encouraging our customers to adopt star rated appliances post occupation.

Apart from integration of renewable energy in common area operations in IC&IC business, the Company continue to encourage industrial customers at MWC Jaipur to install rooftop solar through capacity building and engagement workshops thereby continuing C40 Climate positive development journey. The total installed solar capacity at MWC Jaipur - is approximately 12 MWp (including the customers), and 849 KWp installed onsite across utility and operational asset (eVolve).

In FY 2024, MWC Chennai - utilized renewable energy obtained from third party constituting 48% of the total energy requirement in common areas.

The Company's share of renewable energy across businesses has increased significantly which helps meet our sustainability commitments.

-
- (iii) The capital investment on energy conservation equipments : Investments required to meet all the requirements for the green building & Net Zero features in the products are integrated into the development costs or cost of construction. During the feasibility study for achieving green building certification, the costs associated with energy conservation equipment are factored into the project budget. These expenses generally represent about 1-3 percent of the total construction costs. Despite this relatively small investment, the resulting benefits for both the environment and our customers are significant and long-lasting.” Total green spendings in FY 2023-24 was ₹ 10.16 crore.
-

B. TECHNOLOGY ABSORPTION:

- (i) The efforts made towards technology absorption : By leveraging cutting-edge technologies in materials, construction methods, and automation, the Company has elevated product quality and accelerated project timelines. Embracing these advancements is key to closing the innovation gap in real estate development and continually raising our quality benchmarks. Incorporating digital tools and techniques throughout our processes enables quicker project completion, adds significant value for our customers, and enhances transparency and collaboration among all stakeholders.

A few of the initiatives include:

1. **The Mahindra Certified Finishing Engineer’s Program (MCFEP)** is a pioneering initiative in the real estate industry, meticulously designed to enhance skill development and expertise among engineers and supervisors. Conducted across Mumbai, Pune, Bangalore, and Chennai for a batch of 71 participants, the program integrates classroom sessions by subject matter experts (SMEs), factory visits, and practical onsite applications. These sessions, enriched by the insights of SMEs and the in-house Quality team, aim to equip participants with in-depth knowledge, best practices, and industry standards. A unique structure with 15-day intervals between sessions allows for hands-on training under the supervision of quality managers, ensuring that participants can effectively apply their learning in real construction settings. This approach not only fosters a comprehensive understanding of finishing activities but also cultivates a culture of “First Time Right” by minimizing defects and post-construction corrections.

The impact of MCFEP has been transformative, setting new standards for quality, efficiency, and customer satisfaction in the industry. The program’s success is evident in its impressive Net Promoter Score (NPS) of 92 and an overall rating of 4.64 out of 5, alongside a significant improvement in exam scores from previous assessments. By addressing educational gaps and optimizing post-construction processes, the program promotes the delivery of high-quality finished products with minimal need for rework, thereby reducing costs and enhancing customer satisfaction. The achievements of MCFEP underscore the Company’s commitment to continuous learning and quality excellence, ultimately contributing to the organization’s goal of delivering zero snag projects and creating substantial value for employees and customers alike.

2. The introduction of **M-Skill Activity Videos** addresses a significant challenge in the construction industry: high workmen turnover and the resulting gap in methodological awareness. Traditional training methods often fall short, struggling to effectively convey complex processes, safety protocols, and practical skills. Outdated training materials such as manuals, presentations, and in-person demonstrations are time-consuming, costly, and less engaging, leading to knowledge gaps, inconsistent skill levels, and heightened safety risks on construction sites
-

The solution is video-based training, an innovative approach that enhances skill development and fosters continuous improvement and knowledge sharing. By harnessing multimedia, the Company provide an engaging, accessible, and effective way to deliver essential knowledge and skills. The in-house team produced 35 videos covering critical civil and MEP construction activities, saving approximately 2.5 crores. These videos are adaptable, evolving with industry advancements, ensuring training remains relevant and cost-effective. Additionally, they serve as marketing tools, enhancing customer trust by visually demonstrating the quality standards maintained during construction.

The M-Skill Activity Videos program standardizes training sessions across the organization, ensuring engineers, supervisors, contractors, and workmen are well-versed in Company standards. This alignment with the "First Time Right" principle enhances product quality and efficiency. The program's in-house production allows for swift adaptation to technological advancements, maintaining the relevance of training materials. Overall, this initiative contributes to financial savings, employee development, and customer satisfaction, setting a new standard for training excellence in the construction industry. Use of power float machines for the basement flooring for a smooth, dense and level surface finish. They also eliminate the need for a finishing screed, helping save on time, material and labour significantly.

3. The Company identified a key challenge in the real estate industry: high workmen turnover resulting in methodological gaps. In response, they developed **Visual Work Procedures (VWP)**, comprehensive visual guides presented bilingually to ensure inclusivity and clarity in project-specific work procedures. These VWPs, totalling 28, detail specific steps for Civil & MEP activities, incorporating photographs and instructions for clear guidance.

Implemented project-specifically, VWPs are strategically displayed on-site for easy access, promoting awareness and understanding among the workforce. They cover pre-activity, during activity, and post-activity stages, proving effective during Toolbox Talks (TBT) & Training sessions. Additionally, QR codes enable instant access to documents on mobile devices, fostering continuous learning and adherence to quality standards.

The introduction of VWPs has significantly enhanced operational efficiency and effectiveness at the Company, resulting in improved project execution, product quality, and ultimately, customer satisfaction. By addressing workforce challenges through innovative technology absorption, the Company has taken a notable step towards their goal of delivering units with 'Zero Snag,' demonstrating a commitment to excellence and customer-centricity.

4. Introduced usage of **Field test kits to check Fluoride and Sulphate levels** in water used at reinforced mixed concrete plants to prevent substandard construction.
5. Implemented a **'vacuum grinding'** process that captures dust during grinding to reduce air pollution.
6. Replaced traditional methods of concrete curing with **'fogging'**, which customizes moisture levels to prevent surface cracks and ensure early strength gain.

(ii) The benefits derived like product improvement, cost reduction, product development or import substitution : As stated above, each of these initiatives positively impacts the ESG aspects by improving the product quality, reducing environmental impact, and benefiting the customers. Benefits or each of the initiatives and actions implemented have been listed above.

-
- (iii) In case of imported technology (imported during the last three years reckoned from the beginning of the financial year) : NA
-
- (iv) The expenditure incurred on Research and Development : NA
-

C. FOREIGN EXCHANGE EARNINGS AND OUTGO:

During the year, the Foreign Exchange earning was nil and the Foreign Exchange outgo in terms of actual outflows was ₹ 248.11 lakh.

MANAGEMENT DISCUSSION AND ANALYSIS

Mahindra Lifespace Developers Limited ('Mahindra Lifespaces', 'MLDL' or 'the Company') is one of the leading real estate development companies in India. Along with its subsidiary companies and joint ventures (JVs), Mahindra Lifespaces is engaged in developing residential projects as well as industrial developments — integrated cities and industrial clusters.

Over the years, the Company has delivered an array of successful projects and established industry benchmarks in environmentally responsible homes and industrial developments. This chapter presents an overview of the Company's performance in the Financial Year ('FY') 2023-24 and its strategy for growth.

MACROECONOMIC OVERVIEW

Global growth was weak in the year 2023 due to tight monetary policy, restrictive credit conditions and anaemic global trade and investment. Although faster than expected decline in inflation in most regions have raised hopes of monetary easing, risks to global growth continue to hang in balance with the geopolitical situation in the Middle East. According to the IMF¹, world output growth decelerated to 3.2% in 2023, from 3.5% in 2022. Growth is expected to remain flat in 2024 at 3.2%, which is below the historical (2000–19) average of 3.8%

In contrast, the situation in India was much better. According to the second advance estimates released by the National Statistical Office (NSO)² on 29 February 2024, India's Gross Domestic Product (GDP) accelerated to 7.6% in 2023-24, compared to 7.0% in 2022-23. This was driven by strong performance in the Industry. Construction — which accounts for about 30% of the share of Industry — registered an impressive growth of 10.7% in 2023-24, on top of an equally good 9.4% in the previous year. Chart A provides the details.

Chart A: Growth Rate (%) – GDP and Key Sectors

¹World Economic Outlook, International Monetary Fund, April 2024

²Press Note on Second Advance Estimates of National Income 2023-24, Quarterly Estimates of Gross Domestic Product for the Third Quarter (October-December) of 2023-24 and First Revised Estimates of National Income, Consumption Expenditure, Saving and Capital Formation for 2022-23 released by National Statistical Office, Ministry of Statistics & Programme Implementation, Government of India on 29 February 2024.

³Monetary Policy Report, Reserve Bank of India, April 2024.

The Reserve Bank of India (RBI) expects macroeconomic conditions to stay strong in the FY 2024-25, with positive contribution from key sectors as well as domestic consumption. At the same time, it notes headwinds from geopolitical tensions, volatility in international financial markets, geoeconomic fragmentation, rising Red Sea disruptions and extreme weather events as key risks. Taking these into account, the **RBI has projected India's GDP to grow at 7.0% in 2024-25³. This means that India will continue to be the world's fastest growing large economy.**

OPPORTUNITIES

India's strong macroeconomic performance and financial sector stability has augured well for the real estate sector in India. In the residential segment, consumer demand and offtake remained robust even in the face of firm interest rates. The industrial segment, too, saw strong demand coming from both domestic and international businesses. Buoyed by the opportunities that the Indian real estate market presents, **Mahindra Lifespaces aspires to achieve strong growth over the next five years. It has set a goal of increasing its pre-sales to ₹ 8,000-₹ 10,000 crore in the next five years, which is about 5X of its 2022-23 pre-sales levels.**

RESIDENTIAL DEVELOPMENTS

The Company's strategy for the residential business is to expand in Mumbai and Pune — where it already has multiple successful projects, as well as Bengaluru where it has been gradually building its presence. Projects in other geographies will be based on specific opportunities that emerge from time to time.

As for product segments, the Company will expand its offerings under mid-premium and premium housing segments. In doing so, focus will be on sustainable developments and delivering differentiated products with innovations that enhance the living experience. As a part of its product strategy, Mahindra Lifespaces will continue to evaluate opportunities in the society redevelopment and stressed assets space.

INTEGRATED CITIES AND INDUSTRIAL CLUSTERS (IC&IC)

India continues to be an attractive destination for investments in manufacturing facilities and related ecosystem. Key factors behind this opportunity include: (i) a strong domestic economy and high growth in consumption-led demand, (ii) Government's infrastructure push and a supportive policy environment, and (iii) attractive alternative for global corporations looking to diversify operations outside China.

Mahindra Lifespaces is a pioneer in the Integrated Cities and Industrial Clusters (IC&IC) segment, marketing its products under two formats: large integrated cities under the brand 'Mahindra World City' and smaller industrial clusters under the brand 'Origins'. These projects offer well-built plug-and-play infrastructure making them an ideal destination for domestic and international businesses looking to set-up facilities. The Company's strategy is to maximise the value from its existing and upcoming projects in the segment. At the same time, it is also looking to augment its footprint in the build-to-suit space through investment partnerships.

BUSINESS PERFORMANCE

Residential Developments

In the FY 2023-24, Mahindra Lifespaces launched five new projects: Zen in Bengaluru, Vista in Mumbai, Codename Crown in Pune as well as two plotted developments—Lakefront Estates and Green Estates—in Mahindra World City Chennai (MWC Chennai)¹. The Company also launched fresh inventory in three of its existing projects. **These launches cumulatively accounted for around 4.42 million square feet (msft) of saleable area.**

Chart B: Residential – Sales Performance

Chart B provides data on MLDL's sales performance in the last five years. **Mahindra Lifespaces Residential Segment registered a sales of ₹ 2,328 crore in FY 2023-24, which represents a 28.5% growth over ₹1,812 crore recorded in the previous year. This is best ever sales performance of the Company. Similarly, area sold also increased from 2.23 msft to 2.47 msft.** This superior performance is also reflected in the strong collections, which stood at their all-time best of ₹1,385 crore in FY 2023-24, compared to ₹1,165 crore in FY 2022-23. Construction activity saw considerable momentum, growing from 0.65 msft⁴ in 2022-23 to 1.26 msft in FY 2023-24.

During the year, the Company stepped-up its land acquisition activity in line with its strategy for growth of the business. It

⁴Completed area includes only the projects/phases where construction is complete and occupancy certificate has been received.

⁵Completed developments includes only projects/phases where construction is complete and occupancy certificate has been received. Includes commercial development inside residential complexes.

bought four land parcels — one each in Mumbai and Pune, and two in Bengaluru — which should cumulatively contribute about ₹4,400 crore in terms of Gross Development Value of the projects. Further, the first phase of the Pune project was launched in March 2024, within six months of the acquisition of land, highlighting the Company's focus on achieving fast turnaround times for its projects.

INTEGRATED CITIES AND INDUSTRIAL CLUSTERS (IC&IC)

The Integrated Cities and Industrial Clusters business also reflected strong performance in FY 2023-24 (See Chart C). Land leased by the business stood at 119 acres in FY 2023-24, whereas the total lease premium generated was ₹370 crore in FY 2023-24.

INTEGRATED CITIES AND INDUSTRIAL CLUSTERS (IC&IC)

The Company's presence in this segment spans three operational projects — two Mahindra World Cities (MWCs) at Chennai and Jaipur and its industrial cluster project called Origins, Chennai. These projects have a combined gross area of about 4,800 acres and a leasable potential of about 3,300 acres. **In FY 2023-24, it leased 119 acres of land, taking the total land leased in these three projects to 2,364 acres. As on 31st March 2024, the projects had over 200 companies from over 22 countries, making these truly global developments. Combined direct employment provided by these projects stood at around 79,000 persons at the end of the year.**

Development work is currently in progress in its second Origins project in Ahmedabad. The Company's offerings in the business will be bolstered further with its third industrial cluster project being planned in Maharashtra.

MWC Chennai is the Company's first integrated city project with gross area of 1,524 acres and a leasable potential of 1,145 acres across its Special Economic Zone (SEZ), Domestic Tariff Area (DTA) and Residential & Social Zone (R&S). **MWC Chennai has leased 100% of its existing land inventory in the SEZ and DTA but continues to offer lease options in the Residential & Social Zone. At the end of FY 2023-24, the total number of industrial customers in MWC Chennai was 45 in the SEZ and 25 in the DTA. Of these, 64 companies are currently operational and the remaining 6 are expected to start operations soon.** In January 2024, it signed an MoU with the Tamil Nadu government during TN Government Investor Meet to facilitate and support investment in MWC Chennai.

During the year, two residential plotted developments — Lakefront Estates and Green Estates — were launched in MWC Chennai. Construction is also in progress in the two ongoing projects — Happinest MWCC and Lakewoods. Project-wise details have already been provided in the section on residential developments.

MWC Chennai has a healthy occupancy in its completed residential projects. It has all key infrastructure and amenities for its residents such as retail and commercial centre, health, education and hospitality. As a mature project, the focus is on community building and other initiatives that enhances the liveability quotient of the city and promote it as a destination of choice.

As a part of the Mahindra Group, MWC Chennai has been at the forefront of adopting sustainable and environmentally friendly practices. It is India's first integrated city to have achieved 'Zero Waste to Landfill' certification.

MWC Jaipur is the Company's largest integrated city project with gross area of 2,946 acres and a leasable potential of 1,917 acres across its SEZ, DTA and the Residential & Social Zone. **In FY 2023-24, it leased around 76 acres — taking the cumulative net leased area to 1,106 acres. MWC Jaipur ended the year with 138 customers — 63 in the SEZ, 74 in the DTA and 1 in Social Zone. Of these, 81 companies are operational and another 27 are expected to start operations in FY 2024-25.**

MWC Jaipur has institutionalised a customer engagement platform called 'Coalesce' to discuss operational matters and collaborate on new initiatives. Multiple customer engagement events were organised during the year to enable community building.

MWC Jaipur is committed to sustainable development. It is Asia's first and world's largest project to reach C40 Climate Positive Development Program (CPDP) Stage 2. It regularly carries out several initiatives that contribute to the sustainability and enhances well-being of the communities in which it operates.

Origins Chennai is the Company's first industrial cluster project, which is being developed through its step-down subsidiary Mahindra Industrial Park Chennai Limited (MIPCL), a JV with Sumitomo Corporation. Launched in April 2019, this project in North Chennai currently has a gross area of 307 acre with a leasable potential of 229 acres. Origins Chennai is also Tamil Nadu's first IGBC Platinum Certified industrial park, reflecting the strong focus on principles of sustainability employed in its design and development. During the year, 30 acres of land was leased, taking the cumulative land leased under the project to 157 acres. The enquiry pipeline remained strong and the Company is planning the second stage of the project for which land acquisition is in progress.

Origins Ahmedabad is the Company's second industrial cluster project, which is located near Ahmedabad, Gujarat. The project has gross area of around 340 acres and a leasable potential of 255 acres. It is being developed through its subsidiary, Mahindra Industrial Park Private Limited (MIPPL), in strategic partnership with International Finance Corporation.

OPERATIONS

Customer Acquisition

MLDL's activities in this area encompass three broad themes: (a) product design, (b) marketing and brand building efforts, and (c) driving sales.

The product design process begins with assessment of needs and preferences of target customers as well as current trends. Over the years, sustainability has been at the core

of MLDL's approach towards developments — where it continues to set industry benchmarks (See Box 1). Use of technology in product design is another area where Mahindra Lifespaces has taken a lead. In FY 2023-24, the Company started use of Building Information Modelling tools to enhance utility of common areas as well as optimising construction and maintenance costs.

Box 1: Driving Sustainability in the Real Estate Industry and Beyond

Mahindra Lifespaces has been at the forefront of environment-friendly and sustainable developments in the Indian real estate sector. It has maintained a 100% Green portfolio of residential projects since 2014 and is committed to Net Zero (Energy, Water & Waste) Developments by 2030. 2023-24 saw significant movement towards this goal as well as efforts to promote sustainable practices in the real estate industry.

- In Feb 2024, MLDL launched **Mahindra Vistas, India's first net zero energy (NZE) and net zero waste (NZW) residential project**, in Kandivali, Mumbai. Its energy demand will be met from renewable sources including both on-site renewable energy generation as well as purchase of green energy. Apart from being NZE and NZW project, it will have water conservation measures that will save 53% of water requirement from external sources. This was followed-up with the **launch of its second NZE and NZW project Mahindra Zen, Bengaluru**, in March 2024. After the launch of India's first NZE project Mahindra Eden in 2022-23, these projects mark major milestones in Mahindra Lifespaces' sustainability journey as it works towards its goal of Net Zero developments by 2030.
- Mahindra Lifespaces contributes to **Mahindra-TERI Centre of Excellence** (<https://mahindratericoe.com>), its joint research facility with The Energy and Resources Institute (TERI) to create innovative energy efficient solutions for the Indian construction industry. In 2023-24, about 100 building materials were tested for their thermal properties and added to the online database for the benefit of the construction community. During the year, it also launched an abridged manual for Sky Modelling for Gurugram, India — as a part of its initiative to understand local sky conditions for more energy efficient and sustainable building designs.
- Mahindra Lifespaces came together with WRI India, Alliance for an Energy Efficient Economy and EcoCollab to put together a **Decarbonisation Business Charter** in 2022 to promote transformative changes and adoption of low-carbon practices in the

construction and building industry in India. This charter is a call to action to put the sector on a net-zero pathway and demonstrate that climate action and profit go hand in hand.

- MLDL launched a **Carbon Calculator** to inform and shape individual commitment in the battle against climate change. Through a user-friendly interactive process that takes 5 minutes, the Carbon Calculator allows people to assess their carbon footprint based on factors like food, transport and power consumption, so as to drive positive change towards a greener and more sustainable future.

Second, focus continued to be on digital content to generate pull for the brand and improve the quality of leads. The Company's campaigns for new project launches generated tremendous reach and visibility among prospective buyers, resulting in considerable increase in organic leads. Superlative sales performance in the Company's newly launched projects is a testament to the Company's success in this area. In an industry-first initiative, **Mahindra Lifespaces showcased India's first home-buying experience on Metaverse for its project Citadel (Phase 2) — where potential buyers could walk-through and have an immersive experience of the project. The launch event also included a drone show where 600 drones lit-up the sky eventually forming a scannable QR Code with link to the project.**

Third, the Company continues to benefit from a strong channel partner network. This network is supported by 'HappiEdge' mobile App that contains project marketing material as well as tools for lead management and transaction processing. This App was upgraded during the year to provide real-time brokerage calculation and digital invoicing capabilities. While majority of the sales are generated through its channel partner network, the Company has also invested in digital assets for direct sales as well as building corporate partnerships and referral network. Contribution of these alternative channels to sales grew in FY 2023-24.

Customer Relations

Customer centricity is at the core of MLDL's approach towards all activities and processes related to the entire home buying journey — right from booking to post-handover support. Some of the key initiatives and achievements during the year include:

- **M-Life Customer App:** Mahindra Lifespaces relaunched its single-stop platform for customers with a comprehensive feature list that includes regular construction updates, making online payments, raising service requests, access important documents like

allotment letter, agreement and payment receipts. 44% of the Company's active customer base has already downloaded the App in the first month of its launch.

- **Tech-enabled Initiatives:** Initiatives for better customer experience include a range of cutting-edge technologies like artificial intelligence (AI), data analytics and robotic process automation. The impact of these initiatives is reflected in the fact that 92% of service requests are closed within defined turnaround times.
- **Customer Engagement:** Mahindra Lifespaces has curated exclusive events that allow the customers to experience their flats during construction. It has also entered into multiple alliances for value added services to augment the living experience by nurturing community engagement. During the year, it organised five such customer engagement events across different locations.

MLDL's customers have appreciated these efforts. The consistent improvement in the customer net promoter scores is a testimony to its success in building a customer centric organisation.

Project Execution

Mahindra Lifespaces' unwavering commitment to high-quality and timely project execution stands as a cornerstone of its strategic and operational priorities. These are guided by the principles of total quality management (See Box 2) and a 'First Time Right' approach. Adherence to robust processes and standard operating procedures (SOPs) in line with these principles have resulted in a culture of continuous improvement in the organisation.

Box 2: Total Quality Management at Mahindra Lifespaces

- The Company has adopted the principles of Total Quality Management (TQM) under the banner of 'The Mahindra Way' (TMW) — the Mahindra Group's integrated approach to promote excellence in all spheres of its operations. Both residential and IC&IC businesses are at Stage 4 in the Service category of this assessment in 2023-24.
- The organisation is 'Integrated Management System' certified since 2013 complying to standards of ISO 9001 - Quality Management System; ISO 45001 - Occupational Health and Safety Management System; and ISO 14001 - Environmental Management System.

- The Company has an established 'Quality Policy'. The primary focus is on delivering high-quality products and services while consistently exceeding customer expectations, all within stipulated timelines. Central to our quality management approach is the Plan-Do-Check-Act (PDCA) methodology, which has played a pivotal role in enhancing the quality of our products. It also fosters a culture of continuous improvements through Kaizens projects — 59 of which were implemented in 2023-24.

The Company took several measures in FY 2023-24 to further improve project execution and related processes:

- MLDL introduced **Mahindra Certified Finishing Engineers' Programme** — an intensive 4-month training to enhance the capabilities of our engineers in finishing work. By providing advanced knowledge and skills, the idea is to nurture the 'First Time Right' and 'zero-snag' culture and ensure consistent and standardised delivery across all our projects.
- To upgrade the effectiveness of training, the Company developed in-house **Hand-skill Training Videos** that provide comprehensive guidance on various construction activities, facilitating better skill development and consistency in execution. It also designed **Visual Work Procedures**, which are meticulously designed documents with photographs that provide step-by-step guidance for activities, covering all their critical aspects.
- A second edition of the **Engineer's Handbook** with three volumes (Shell & Core, MEP Works, and Finishing Works) was launched during the year. This manual covers technical know-how on every activity done on project sites from conceptualisation to handover and enables greater standardisation as well as effective troubleshooting.
- An **Inspection Test Plan** covering 64 materials for civil works and 42 materials for MEP works was implemented during the year. As a part of this, each material undergoes thorough checks of physical and chemical parameters in accordance with code requirements, ensuring compliance with the highest quality standards.
- MLDL also introduced **Dynamic Quality Audit** — a rating system is based on CONQUAS, Singapore, which is globally recognized and accepted as a benchmarking tool for quality in the construction industry. This will further aid in rigorous monitoring and ensuring delivery of defect-free products through adoption of best practices.

Mahindra Lifespaces has an 'inclusive safety culture' which involves perceiving risks and rectifying them systematically. Its projects have reached a maturity level in use of personal protective equipment, housekeeping, adherence to systems and aims to eliminate unsafe acts by proactive reporting of incidents. In FY 2023-24, there was significant increase in capturing of proactive observations, near-miss cases as well as training hours on occupational health and safety (OHS). These efforts have paved the way for a good safety culture in the organisation. Initiatives like 'Safety Observation Tour' and 'Quarterly Safety Campaign' launched in FY 2022-23 were institutionalised during the year with recognition of achievements in OHS. The Company also institutionalised a pan-India rating system for its projects based on reporting of safety-related risks and incidents. Box 3 provides further details.

Box 3: Occupational Health and Safety (OHS) Initiatives and Achievements

- **Key Initiatives: Safety Observation Tour** involves project leadership and dedicates time to addressing daily site safety concerns and their resolutions. **Quarterly Safety Campaigns** were institutionalised in areas such as Fire Prevention & Life Safety, Workplace Electrical Safety, Workplace Equipment Safety and Happier workforce is Healthier Workplace. Programmes have been implemented to enhance the safety culture by recognising projects that prioritise safety as well as outstanding achievers in OHS by providing leadership and demonstrating a proactive approach.
- **Process Improvements:** Aligning employee KRAs with Occupational Health and Safety; incorporation of OHS Budget in the project planning stage; comprehensive inspection of critical equipment every six months to ensure that these comply with OEM requirements; and, setting up of common infrastructure to facilitate basic medical help is always provided.
- **Achievements:** Won 12 awards in OHS from different facilitators in 2023-24.

Land and Capital

Mahindra Lifespaces aspires to grow its sales to ₹10,000 crore by 2028. The Company has put in place a strategy for growth of its key businesses, including availability of land and capital to drive this growth. The Company has a strong balance sheet and has access to debt for its growth at extremely competitive rates. **As on 31st March 2023, debt at IND-AS consolidated level stood at ₹873 crore and the average cost of debt during 2023-24 was 8.6%. Consolidated cash balances stood at ₹107 crore at the end of the year.**

The Company also has access to capital through partnerships spanning all its business segments. It has a track record of successful partnerships with: (i) Actis and HDFC Capital for residential developments and (ii) Sumitomo Corporation, Japan, and International Finance Corporation (IFC) for IC&IC projects. It also has a Joint Venture (JV) with Actis for developing Built-to-Suit (BTS) facilities in the industrial and warehousing space in India.

In the residential business, the Company made four land acquisitions during the year which should amount to a combined gross development value of around ₹4,400 crore:

1. **Malad West, Mumbai:** Selected as the preferred partner to redevelop a residential society in Malad West in April 2023. This is one of the prominent residential and commercial localities in the western Mumbai and the project will offer a revenue potential of around ₹ 950 crore.
2. **Wagholi, Pune:** Acquired land parcel of 5.38 acres in October 2023 for a residential project with a development potential of over 1.5 million square feet (msft) and a Gross Development Value of ₹1,400 crore, primarily comprising mid-premium residential apartments. The first phase of the project, comprising 0.86 msft was launched in March 2024, within six months of the acquisition of land.
3. **Whitefield, Bengaluru:** Acquired land parcel of 9.4 acres in March 2024 for a residential project with a development potential of 1.2 million square feet and a gross development value of ₹1,800 crore, primarily comprising mid-premium residential apartments.
4. **Whitefield, Bengaluru:** Acquired a second land parcel of about 2.0 acres of land in March 2024 for a residential project with a development potential of 0.2 million square feet of saleable area and a gross development value of ₹ 250 crore, primarily comprising mid-premium residential apartments.

Mahindra Lifespaces has a healthy pipeline of land deals and will continue to evaluate further opportunities in the residential business. As noted earlier, it also sees considerable opportunities for redevelopment projects and acquisition of stressed assets. The Company has dedicated teams in place to evaluate opportunities in this respect.

In the industrial business, its focus is on accelerating the leasing activity and increasing deal sizes across its existing projects and at the same time unlock value from existing land

bank. It is also working on expansion of Origins Chennai and establishing a new industrial cluster project in Pune, Maharashtra. Both these projects are in the land aggregation and planning stage.

INFORMATION TECHNOLOGY (IT)

Mahindra Lifespaces' approach towards use of technology has been to improve efficiencies, provide a competitive advantage and enable scale. Accordingly, it has deployed appropriate IT infrastructure and solutions across all its key business, administrative functions as well as project sites.

MLDL's IT applications includes SAP ERP for its core and peripheral business functions, which is fully integrated with SFDC — the Company's integrated sales, servicing and communications platform. It also includes primary and disaster recovery data centres, audio-visual communication tools and access to specialised industry specific software for project management. During the year, it successfully implemented role redesign project to improve end-user experience as well as achieve risk mitigation and compliance goals.

Its efforts to institutionalise use of digital and technology-based solutions in key activities such as sales, project management and customer servicing has already been discussed in the respective sections of this report. Following the onboarding of the IC&C Business on the SFDC platform in the previous year, all key functions such as sales, CRM and now utilise the system for all customer related transactions. In the area of analytics and dashboarding, business-critical dashboards and insights were developed for various functions — Sales, CE, Marketing and Finance — which have resulted in considerable increase in efficiencies.

Going forward, the Company has prepared a 3-year plan to implement best-in-class IT systems and stay ahead of the curve in the Indian real estate industry.

HUMAN RESOURCES

Mahindra Lifespaces recognises that success is directly linked to the quality of talent. People are heart and soul of the organisation, and their skills, knowledge, and commitment contribute significantly to its growth. The Company's commitment to nurturing talent and creating a positive work environment has helped in achieving its organisational goals.

In talent acquisition, its rigorous recruitment practices continued to attract candidates who are qualified and at the same time aligned with its values and culture. Focus was not just on skills and experience necessary to drive the company forward, but also on ensuring talent development and promoting diversity and inclusivity, resulting in a more vibrant and dynamic workforce. **In FY 2023-24, a second**

batch of 14 women civil engineers were hired as Graduate Engineer Trainees in line with its special focus is on gender diversity. The percentage of women working as full-time associates stood at 24% at the end of the year, compared to 22% a year ago.

Learning and development (L&D) has always been a top priority at Mahindra Lifespaces. This covers programs aimed at enhancing skills, fostering innovation, and promoting personal and professional growth. These are delivered through a blend of in-house training, external workshops and the Company's online learning platform called M-Academy. An important initiatives in FY 2023-24 was promoting learning from peers through "Learning Fridays – Knowledge sharing by M-Life Unstoppable Stars". Other notable efforts include launch of Mahindra School of Finishing for the projects team and Theatre Workshop on Inclusion.

Employee engagement continues to be a key focus area and was driven by the *mantra* of "Work Hard, Play Harder" during the year. The Company regularly undertakes initiatives to promote a positive work environment and transparent communication to strengthen the bond between employees and the organisation. These include building effective communication channels, promoting employee well-being and attractive employee recognition programmes. In FY 2023-24, it launched 'M-Life Premier League' to promote fitness and fun at work.

As on 31st March 2024, Mahindra Lifespaces together with its subsidiaries had 697 associates on its rolls.

CORPORATE SOCIAL RESPONSIBILITY (CSR)

As a part of its CSR activities, Mahindra Litespace and its subsidiaries contribute to local communities by focusing on the following areas: girl child education, women empowerment and environment. Besides working with partners, **the Company also encourage volunteering by employee for CSR activities. Volunteering work amounting to over 2,400 person-hours was recorded during the year. Some of the key initiatives carried out in FY 2023-24 are given below.**

- **Girl Child Education:** As a part of '**Nanhi Kali**', Mahindra Group's flagship programme for girl child education, it sponsored education of 61 girls in FY 2023-24. Through 'Enabling Education for Girls in Schools of Rajasthan' implemented by Mahindra World City, Jaipur, it provided support to girls to overcome challenges that impede them from attending school regularly. Over 800 girls benefited from this programme in FY 2023-24.
- **Women Empowerment and Skill Development:** MWC Jaipur's '**Hunar**' programme provides skill development

and vocational training to the youth and women, as well as formation of self-help groups (SHGs). About 275 rural women benefited from the programme in FY 2023-24, taking the total beneficiaries under the project to 2,457 rural youth and 2,186 women, since the inception of this programme. Besides, 20 SHGs have also been formed till date. Financial assistance was also provided to 25 *Hunar* beneficiaries during the year to promote entrepreneurial activities.

- Environment & Sustainability:** Around 3,000 trees were planted under the Mahindra Group's tree plantation initiative called '**Mahindra Hariyali**'. In another initiative, over 15,000 saplings of native trees were planted by Mahindra Water Utilities Limited in Tirupur. As a part of the '**Green Army**' programme which involves sensitising school-going children on healthy and sustainable living, 8917 children across 97 schools were reached during the year. Under its '**Green Guardians**' initiative, 75 LED streetlights and 5 high mast lights were successfully installed in 35 locations thereby impacting the lives of 35,000 people.
- Health and Social Security:** This included donation of 5 e-rickshaws, medical equipment and assistance for primary health care units in 2 villages, development of open gym and a digital library for local communities. It also provided safe drinking water to 200+ school children. In another important initiative, it worked to ensure sustainable water security for rural communities through rainwater harvesting by improving awareness as well as development of 5 rooftop water harvesting structures and 5 farm ponds.

Standalone Financial Highlights

Total income of the standalone entity stood at ₹123.4 crore in FY 2023-24, compared to ₹628.1 crore in FY 2022-23. This decrease in operating revenues is primarily due to a reduction in the number of completed projects. The project and other operating costs followed a similar trajectory, declining to ₹25.2 crore in FY 2023-24, down from ₹415.2 crore in FY 2022-23. In contrast, employee and other costs, which are largely fixed in nature, remained stable at ₹171.7 crore in FY 2023-24. Even as total expenses came down by 64% from ₹601.9 crore in FY 2022-23 to ₹216.4 crore in FY 2023-24, the Company reported losses during the year. Operating loss (PBDIT) for the year stood at ₹73.5 crore, whereas net loss after taxes (PAT) stood at ₹38.8 crore.

Consolidated Financial Highlights

The decline in operating revenues in the standalone books of the Company also affected the consolidated performance. Consolidated total income stood at ₹279.1 crore in FY 2023-24, compared to ₹659.6 crore in FY 2022-23. Operating loss at the consolidated level stood at ₹104.1 crore in FY 2023-24, compared to a loss of ₹57.2 crore in FY 2022-23. However, after accounting for the share of profits from JVs and associates amounting to ₹179.5 crore in FY 2023-24, the Company reported profits at the consolidated level. Profit before taxes (PBT) improved considerably to ₹54.3 crore in FY 2023-24, up from ₹37.9 crore in FY 2022-23. Consolidated PAT stood at ₹98.3 crore in FY 2023-24.

Table 4 presents key financial ratios for MLDL as a standalone entity.

Net Profit Margin (%) [^]	-207.7%	32.1%
Return on Net Worth [^]	-2.5%	9.7%

[^] Ratios where change is significant (over 25% compared to previous year)

As noted above, there was a significant decline in standalone operating revenues of MLDL, which came down from ₹628.1 crore in FY 2022-23 to ₹123.4 crore in FY 2023-24. This led to the decline in Debtor and Inventory Turnover ratios. The decline revenues also resulted in losses, which affected the Interest Coverage Ratio, the two profitability margin ratios as well as Return on Net Worth.

The increase in Debt Equity Ratio during the year was due to increase in utilisation of working capital facility. The Company's ability to generate cash and service its debt obligation continues to be robust and the liquidity situation remained comfortable during the year. Surplus funds available from time to time have been invested in creditworthy investments, including deposits with banks.

INTERNAL CONTROLS

The Company has adequate internal control systems, commensurate with the size and nature of its business. Well documented policies, guidelines and procedures to monitor business and operational performance are supported by IT systems, all of which are aimed at ensuring business integrity and promoting operational efficiency.

An independent internal audit and assurance firm appointed by the Company conducts periodic audits to ensure adequacy of internal control systems, adherence to management policies and compliance with laws and regulations. The scope of work of this firm includes internal controls on accounting, efficiency and economy of operations. The internal auditors also report on the implementation of their recommendations.

Reports of the internal auditors are regularly reviewed at the Audit Committee meetings. The Audit Committee of the Board also reviews the adequacy and effectiveness of the internal

control systems and suggests improvements, as required.

THREATS, RISKS AND CONCERNS

Mahindra Lifespaces has appropriate risk management systems in place for identification and assessment of risks, measures to mitigate them, and mechanisms for their proper and timely monitoring and reporting.

The Company has a Risk Management Committee consisting of four members — one Non-Executive Director, one Independent Director, the MD & CEO and the Chief Financial Officer — to review the risk management plan and oversee the complete process. The role of the Committee *inter alia*, includes, formulation, overseeing and implementation of risk management policy, business continuity plan, and to ensure that appropriate methodology, processes and systems are in place to monitor and evaluate risks associated with the business of the Company. The Board also regularly reviews risks.

Economic Risks

Global growth is expected to remain stable in 2024, in part due to the anticipated easing of monetary measures, given the success in combating inflation so far. But there are risks of new commodity price spikes from geopolitical situation in the Middle East and Red Sea disruptions that could prolong tight monetary conditions. Although India has done better, this situation coupled with slower recovery in external demand can impact growth. An extended high interest rate cycle can especially impact the real estate sector in India and hence, the Company.

Mahindra Lifespaces is cognizant of these risks and is taking steps to mitigate them. Regarding inflation, it has taken a multi-pronged approach: (i) value engineering and design efficiency to bring down costs (ii) long-term and forward contracts, and (iii) upward revision of prices to reflect market realities. It has a strong balance sheet and the ability to raise capital at a very attractive cost, which enhances its ability to stay competitive. Besides, its presence in both residential and industrial segments, coupled with prudent financial management, has been a significant source of strength in dealing with a difficult market environment.

Operational Risks

Key operational risks include: (i) inability to sell the project as per plan, (ii) inability to complete and deliver projects according to the schedule leading to additional cost of construction and maintenance, (iii) erosion of brand value, (iv) difficulties in the appointment and retention of quality contractors and manpower, (v) inability to attract and retain talent, (vi) poor customer satisfaction, (vii) fraud and unethical

practices, (viii) failure to comply with laws and regulations leading to fines, penalties, and lengthy litigations.

Mahindra Lifespaces addresses these risks through a well-structured framework which identifies desired controls and assigns ownership to monitor and mitigate the risks. It has invested significant resources in transparent customer friendly processes and an enabling IT infrastructure, which are expected to effectively mitigate some of these risks.

The Company's corporate governance policies ensure transparency in operations, timely disclosures and adherence to regulatory compliances. It also has a Code of Conduct for all its associates. It believes that its employee-friendly policies and processes enhance engagement and welfare, effectively mitigating risks associated with attracting and retaining talent.

Policy and Regulatory Risks

The real estate industry is often affected by changes in government policies and regulations. There are considerable procedural delays with respect to approvals related to acquisition and use of land. Unfavourable changes in the government policies and the regulatory environment may adversely impact the performance of the Company.

The Company attempts to mitigate these risks through its approach towards acquisition of land based on thorough due diligence and its transparent processes in developing the projects. Besides, its focus on environment friendly and sustainable practices helps in mitigating risks associated with environmental regulations.

OUTLOOK

FY 2023-24 was yet another good year for the Indian economy. Not only did India reflect remarkable stability of its banking and financial systems amidst strong global headwinds, its growth accelerated from 7% in FY 2022-23 to 7.6% FY 2023-24. It continues to be a global bright spot. According to the RBI, GDP growth is expected to remain strong at 7.0% in FY 2024-25, despite downside risks emanating from geopolitical shocks in Middle East, risk of fresh inflation spikes due to Red Sea disruptions and poor external sector demand if the global recovery remains weak.

India's real estate sector is currently on an up-cycle, with strong demand and offtake in the residential segment despite firm interest rates. The industry has been able to pass on

increase in costs through suitable price hikes. The industrial segment is also seeing robust demand coming from both domestic and international businesses.

Mahindra Lifespace reported strong operating numbers in FY 2023-24. The residential business, with eight launches (including new phases of existing projects), grew at 28.5% to deliver a record sales of ₹2,328 crore in FY 2023-24, whereas the industrial business generated an impressive lease premium of ₹370 crore. Buoyed by this high growth performance, which also underscores its success in building a high-performance organisation capable of delivering scale, Mahindra Lifespaces has set a target to grow its sales to ₹10,000 crore by 2028.

6. CODES OF CONDUCT AND POLICIES

The Board of Directors of the Company has laid down two separate Codes of Conduct — one for the Board members and another for Senior Management and Employees of the Company. The Company has also adopted a Code for Independent Directors which is a guide to professional conduct for the Independent Directors of the Company in compliance with Section 149(8) and Schedule IV of the Act.

These codes are posted on the Company's website at www.mahindralifespaces.com.

All Board Members including Independent Directors and Senior Management Personnel have affirmed compliance with the respective Codes of Conduct for the year under review. A declaration signed by MD & CEO to this effect is annexed to this report.

7. CEO AND CFO CERTIFICATION

As required under Regulation 17(8) of the Listing Regulations, the MD & CEO and the CFO of the Company have certified to the Board confirming that the Financial Statements for the year ended on 31st March, 2024 do not contain any materially untrue statement or omit any material fact or contain statements that might be misleading and the Financial Statements present a true and fair view of the Company's affairs and are in compliance with existing accounting standards, applicable laws and regulations.

8. REMUNERATION TO DIRECTORS

Remuneration Policy

The Company has adopted two separate policies – (i) Policy for Remuneration of the Directors, and (ii) Policy for Remuneration of Key Managerial Personnel and Employees ("Remuneration Policy"). The objective of the Remuneration Policy of the Company for Directors

and Senior Management is to focus on enhancing the value of the Company by attracting and retaining Directors and Senior Management for achieving objectives of the Company and to place the Company in leading position. The Policy is guided by a reward framework and set of principles and objectives as more fully and particularly envisaged under Section 178 of the Act and principles pertaining to qualifications, positive attributes, integrity and independence of directors, etc.

While reviewing the Company's remuneration policy and deciding on the remuneration of the Directors, NRC and the Board considers the performance of the Company, the current trends in the industry, the qualifications of the appointee(s), their experience, past performance, responsibilities shouldered by them, the statutory provisions and other relevant factors.

The MD & CEO is an executive of the Company and draws remuneration from the Company. The Independent Directors receive sitting fees for attending the meetings of the Board, the Committees (except Corporate Social Responsibility Committee) and meetings of Independent Directors and are also entitled to commission under the Act, as may be approved by the Board.

The Independent Directors who are on the Boards of subsidiary companies of the Company are entitled to sitting fees and commission as may be approved by the Boards of respective subsidiary companies. Dr. Anish Shah, Ms. Asha Kharga and Ms. Rucha Nanavati, the Non-Executive Non-Independent Directors of the Company, are not on the Board of any subsidiary companies of the Company. Dr. Anish Shah is the MD & CEO of M&M, Ms. Asha Kharga is the Chief Customer & Brand Officer at M&M and Ms. Rucha Nanavati is the Chief Information Officer at M&M. Dr. Anish Shah, Ms. Asha Kharga and Ms. Rucha Nanavati receive remuneration from M&M.

Apart from the above, the reimbursement of expenses incurred in discharge of their duties, and the remuneration that a Non-Executive Directors may receive for professional services rendered to the Company through a firm in which they are partner, none of the Non-Executive Directors have any pecuniary relationship or transaction with the Company, its Holding company, Subsidiaries and Associate companies, their Promoters or Directors or its Senior Management, which in their judgment would affect their independence.

During the year under review, the Company has made payments towards brokerage / consultancy fees to HVS Anarock Hotel Advisory Services Private Limited, Anarock Capital Advisors Private Limited and Anarock Property Consultants Private Limited, in which Mr. Anuj Puri, Non-Executive Independent Director is a Director, amounting to ₹11.80 lakhs, ₹125.08 lakhs and ₹ 32.22 lakhs, respectively.

At the 16th AGM of the Company held on 31st July, 2015, the shareholders had approved the payment of commission at a rate not exceeding one percent (1%) per annum or such percentage as may be specified by the Act, from time to time, of annual net profit of the Company computed in accordance with the provisions of the Act and the Rules framed thereunder, from time to time, to such Directors of the Company (other than the Managing Director and / or Whole-time Director, Executive Directors and such of the remainder as may not desire to participate) but subject to such ceiling, if any, per annum, as the Board of Directors may, from time to time, fix in this behalf and the same to be divided amongst them in such manner as the Board may, from time to time, determine for each of the financial years commencing from 1st April, 2015.

The Company has sought approval of the Shareholders at the ensuing AGM, by way of special resolution, for payment of remuneration (including profit related commission) [in addition to sitting fees and reimbursement of expenses incurred for attending meetings of the Board of Directors of the Company and the Committees thereof] to the Non-Executive Directors of the Company (current and future), appointed from time to time, upto an aggregate amount not exceeding ₹1,50,00,000/- (Rupees One Crore Fifty Lakhs only) per annum, for a period of three years commencing from Financial Year 2023-24 to Financial Year 2025-26, which may exceed 1% of the net profits of the Company, as the case may be, computed as per Section 198 of the Act, payable in such form and manner as the Board of Directors of the Company or the Committee may determine from time to time.

Accordingly, the Board of Directors at its meeting held on 26th April, 2024 has, subject to shareholders' approval and any other requisite approval as may be required, approved payment of commission to the Non-Executive Independent Directors for the financial year ended on 31st March, 2024.

Criteria for making payments to Non-Executive Directors

The Non-Executive Directors shall be entitled to receive remuneration by way of sitting fees, reimbursement of expenses for participation in the Board / Committee meetings and commission as detailed hereunder:

INDEPENDENT AUDITOR'S REPORT

To The Members of Mahindra Lifespace Developers Limited

Report on the Audit of the Standalone Financial Statements

OPINION

We have audited the accompanying standalone financial statements of Mahindra Lifespace Developers Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2024, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Cash Flows and the Statement of Changes in Equity for the year ended on that date, and notes to the financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, and its loss, total comprehensive loss, its cash flows and the changes in equity for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No.	Key Audit Matter	Auditor's Response
1	<p>Carrying values of Inventories (Construction work in Progress and Stock in Trade)</p> <p>There is a risk that the valuation of inventory may be misstated as it involves the determination of net realizable value (NRV) and estimated total construction cost of completion of each of the projects which is an area of judgement.</p> <p>Refer Notes 2.17 and 11 to the Standalone Financial Statements</p>	<p>Principal audit procedures performed:</p> <p>Our audit approach consisted testing of the design and operating effectiveness of the internal controls and substantive testing as follows:</p> <ul style="list-style-type: none"> We assessed the Company's process for the valuation of inventories. Evaluated the design, implementation and tested the operating effectiveness of the internal controls relating to the valuation of inventories, including the management process for the review and approval of the estimated costs to complete the projects including construction cost incurred, construction budgets and net realizable value. We carried out a combination of procedures involving enquiry and observation, and inspection of evidence in respect of operation of these controls.

Sr. Key Audit Matter No.	Auditor's Response
	<p>Selected a sample of inventories and performed procedures around:</p> <ul style="list-style-type: none"> Construction costs incurred for the inventories by testing the supporting documents and wherever available, corroborated the same with the reports from external supervising engineers. Estimated total construction cost to be incurred for completing the construction of the project and wherever available, corroborated the same with the reports from external supervising engineers. Examined the detailed project reviews by senior operational and financial management to determine the total budgeted costs for the project. Assessed the significant judgements/ estimates adopted by the Company for the estimated total construction costs to be incurred for completing the construction of the project. Additionally, we carried out site visits for a number of projects during the year. The Company's methodology and key assumptions for determining NRV of the inventories. Assessed the estimates used by the Company for the expected net amounts to be realized from the sale of inventories in the ordinary course of business. We examined the total projected budgeted cost to the total budgeted sale value from the project. We examined the NRV to recent sales in the project or to the estimated selling price applied in assessing the NRV. We assessed the NRV to the carrying value in books.

INFORMATION OTHER THAN THE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

- The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report, Management Discussion and Analysis Report, Corporate Governance Report and Business Responsibility Report, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.
- Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the standalone financial statements, our responsibility is to read the other

information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial

performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management and Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors are also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence

that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including

any significant deficiencies in internal financial controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by Section 143(3) of the Act, based on our audit we report, that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books, except for matters stated in paragraph (i) (vi) below.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Statement of Cash Flows and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid standalone financial statements comply with the Ind AS specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on March 31, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2024 from being appointed as a director in terms of Section 164(2) of the Act.
- f) The modification relating to maintenance of accounts and other matters connected therewith, is as stated in paragraph (b) above.
- g) With respect to the adequacy of the internal financial controls with reference to standalone financial statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to standalone financial statements.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- i) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its standalone financial statements - Refer Note 37 to the standalone financial statements;
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company.
 - iv. (a) The Management has represented that, to the best of its knowledge and belief, as disclosed in the note 41 (d) to the financial statements no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other

- person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (b) The Management has represented, that, to the best of its knowledge and belief, as disclosed in the note 41 (d) to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. The final dividend proposed in the previous year, declared and paid by the Company during the year is in accordance with section 123 of the Act, as applicable.
- vi. Based on our examination, which included test checks, the Company has used accounting software for maintaining its books of account for the year ended March 31, 2024 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software except that:
- in respect of an accounting software, audit trail was not enabled at the database level to log any direct changes, and
 - in respect of another software, since the audit trail log for direct data changes at database level in the software is being maintained at any given point in time only for a period of six months, we are unable to comment whether the audit trail feature was enabled and operating for the period the audit trail log is not available.
- Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with, in respect of accounting software for the period for which the audit trail feature was operating and the log was maintained (refer note 41 (h) – to the standalone financial statements).
- As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from April 1, 2023, reporting under Rule 11 (g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended March 31, 2024.
2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1(g) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Report on the Internal Financial Controls with reference to standalone financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls with reference to standalone financial statements of Mahindra Lifespace Developers Limited (“the Company”) as at March 31, 2024 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

MANAGEMENT’S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The Company’s management is responsible for establishing and maintaining internal financial controls with reference to standalone financial statements based on the internal control with reference to standalone financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITOR’S RESPONSIBILITY

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to standalone financial statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to standalone financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about

whether adequate internal financial controls with reference to standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to standalone financial statements and their operating effectiveness. Our audit of internal financial controls with reference to standalone financial statements included obtaining an understanding of internal financial controls with reference to standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls with reference to standalone financial statements.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO STANDALONE FINANCIAL STATEMENTS

A company’s internal financial control with reference to standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control with reference to standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO STANDALONE FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to standalone financial statements to future periods are subject to the risk that the internal financial control with reference to standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

- The Company has not made any investments in and granted any loans or advances in the nature of loans, secured or unsecured, to firms, Limited Liability Partnerships or any other parties during the year. The Company has not provided any guarantee or security to any other entity during the year.
- (b) The investments made and the terms and conditions of the grant of all the above-mentioned unsecured advances in the nature of loans provided during the year are, in our opinion, *prima facie*, not prejudicial to the Company's interest.
- (c) In respect of advances in the nature of loans granted by the Company, the schedule of repayment of principal and payment of interest has been stipulated and repayments or receipts of principal amounts and interest have been regular as per stipulations.
- (d) According to information and explanations given to us and based on the audit procedures performed, in respect of unsecured advances in the nature of loans granted by the Company, there is no overdue amount remaining outstanding as at the balance sheet date.
- (e) No unsecured advances in the nature of loans granted by the Company which have fallen due during the year, has been renewed or extended or fresh loans granted to settle the overdues of existing advances in the nature of loans given to the same parties.
- (f) The Company has granted unsecured advances in the nature of loans which are repayable on demand details of which are given below:
- (iv) In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of Section 185 and 186 of the Companies Act, 2013 in respect of loans granted, investments made and guarantees and securities provided, as applicable.
- (v) According to the information and explanations given to us, the Company has not accepted any deposits or amounts which are deemed to be deposits. Hence reporting under clause (v) of the Order is not applicable.
- (vi) The maintenance of cost records has been specified by the Central Government under section 148(1) of the Companies Act, 2013. We have broadly reviewed the books of account maintained by the Company pursuant to the Companies (Cost Records and Audit) Rules, 2014, as amended, prescribed by the Central Government for maintenance of cost records under Section 148(1) of the Companies Act, 2013, and are of the opinion that, *prima facie*, the prescribed cost records have been made and maintained by the Company. We have, however, not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.
- (vii) According to the information and explanations given to us, in respect of statutory dues:
- (a) Undisputed statutory dues, including Goods and Service Tax, Provident Fund, Employees' State Insurance Fund, Income-tax, Sales Tax, Service Tax, duty of Customs, Value Added Tax, cess and other material statutory dues as applicable to the Company have generally been regularly deposited by it with the appropriate authorities.

(viii) There were no transactions relating to previously unrecorded income that were surrendered or disclosed as income in the tax assessments under the Income Tax Act, 1961 (43 of 1961) during the year.

(ix) (a) In our opinion, the Company has not defaulted in the repayment of loans or other borrowings or in the payment of interest thereon to any lender during the year.

(b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.

(c) To the best of our knowledge and belief, in our opinion, term loans availed by the Company were, applied by the Company during the year for the purposes for which the loans were obtained.

(d) On an overall examination of the standalone financial statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.

(e) On an overall examination of the standalone financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries, associates or joint ventures.

(f) The Company has not raised loans during the year on the pledge of securities held in its subsidiaries or joint ventures or associate companies.

(x) (a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.

(b) During the year the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause (x)(b) of Order is not applicable to the Company.

(xi) (a) To the best of our knowledge, no fraud by the Company and no material fraud on the Company has been noticed or reported during the year.

(b) To the best of our knowledge, no report under sub-section (12) of section 143 of the Companies Act, 2013 has been filed in Form ADT-4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up-to the date of this report.

- (c) We have taken into consideration the whistle blower complaints received by the Company during the year and provided to us, when performing our audit.
- (xii) The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.
- (xiii) In our opinion, the Company is in compliance with Section 177 and 188 of the Companies Act, 2013, where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the standalone financial statements etc. as required by the applicable accounting standards.
- (xiv) (a) In our opinion the Company has an adequate internal audit system commensurate with the size and the nature of its business.
- (b) We have considered the internal audit reports issued to the Company (during the year), covering the period upto September 2023 for the period under audit.
- (xv) In our opinion and according to the information and explanations given to us, during the year the Company has not entered into any non-cash transactions with its directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
- (xvi) (a) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause (xvi) (a), (b) and (c) of the Order is not applicable.
- (b) The Group has more than one Core Investment Company (CIC) as part of the group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016). There are four CIC forming part of the group.
- (xvii) The Company has incurred cash losses amounting to ₹ 9,000.89 lakhs in the financial year covered by our audit but had not incurred cash losses in the immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors of the Company during the year.
- (xix) On the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the standalone financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- (xx) In our opinion and according to the information and explanations given to us, the provision of sub-section (5) and sub-section (6) of section 135 of the Companies Act, 2013 are not applicable to the Company for the year. Accordingly, reporting under clause (xx) of the Order is not applicable.

NOTES TO THE STANDALONE FINANCIAL STATEMENTS

AS AT AND FOR THE YEAR ENDED 31ST MARCH, 2024

1. GENERAL INFORMATION

Mahindra Lifespace Developers Limited ('the Company') is a limited company incorporated in India. Its Corporate Identification Number is (CIN) L45200MH1999PLC118949. The equity shares of the Company are listed on the Bombay Stock Exchange (BSE) and National Stock Exchange (NSE). Its parent and ultimate holding company is Mahindra & Mahindra Limited.

The addresses of its registered office is disclosed in the introduction to the annual report. The Company along with its subsidiary, associates and joint venture companies is engaged in the development of residential projects and large formats developments such as integrated cities and industrial clusters.

2. MATERIAL ACCOUNTING POLICIES

2.1 Statement of compliance and basis of preparation and presentation

The Standalone Financial Statements of the Company have been prepared in accordance with the Indian Accounting Standards ('Ind AS') as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under section 133 of the Companies Act, 2013 (the 'Act') and other relevant provision of the act. The aforesaid financial statements have been approved by the Company's Board of Directors and authorised for issue in the meeting held on 26th April, 2024.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use

2.2 Basis of measurement

These financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical Cost: Assets are recorded at the amount of cash or cash equivalents paid or the fair value of the other consideration given to acquire them at the time of their acquisition. Liabilities are recorded at the amount of proceeds received in exchange for the obligation, or in some circumstances (for example, income taxes), at the amounts of cash or cash equivalents expected to

be paid to satisfy the liability in the normal course of business.

2.3 Measurement of Fair Values

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In measuring the fair value of an asset or a liability, the Company takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these standalone financial statements is determined on such basis, except for share-based payment transactions that are within the scope of Ind AS 102 – "Share based Payments", leasing transactions within the scope of Ind AS 116, "Leases" and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 – "Inventories" or value in use in Ind AS 36 – "Impairment of Assets".

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 : Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Company can access at the measurement date;
- Level 2 : Inputs other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 : Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

2.4 Revenue from Contracts with Customers

2.4.1 Revenue from Projects

- i. The Company develops and sells residential and commercial properties. Revenue from contracts is recognised when control over the property has been transferred to the customer. An enforceable right to payment

does not arise until the development of the property is completed. Therefore, revenue is recognised at a point in time as per IND AS 115 when (a) the seller has transferred to the buyer all significant risks and rewards of ownership and the seller retains no effective control of the real estate unit to a degree usually associated with ownership, (b) The seller has effectively handed over possession of the real estate unit to the buyer forming part of the transaction; (c) No significant uncertainty exists regarding the amount of consideration that will be derived from real estate unit sales; and (d) It is not unreasonable to expect ultimate collection of revenue from buyers. The revenue is measured at the transaction price agreed under the contract.

- ii. The Company invoices the customers for construction contracts based on achieving performance-related milestones.
- iii. For certain contracts involving the sale of property under development, the Company offers deferred payment schemes to its customers. The Company adjusts the transaction price for the effects of the significant financing component.
- iv. Costs to obtain contracts ("Contract costs") relate to fees paid for obtaining property sales contracts. Such costs are recognised as assets when incurred and amortised upon recognition of revenue from the related property sale contract.
- v. Contract assets is the Company's right to consideration in exchange for goods or services that the Company has transferred to a customer when that right is conditioned on something other than the passage of time.
- vi. The Company recognizes revenue at a point in time in each reporting period considering the estimates like reasonableness of collections from customers, disputes with the customer which may result in the cancellation of the contract, which are re assessed periodically by the management. The effect of these changes to estimates is recognised in the period when changes are determined. Accordingly any revenues

attributable to such changes and the corresponding Cost of Goods Sold ("COGS") previously recognised are reversed and reduced from the current year's Revenue and COGS respectively.

2.4.2 Revenue from Sale of land and other rights

Revenue from Sale of land and other rights is generally a single performance obligation and the Company has determined that this is satisfied at the point in time when control transfers as per the terms of the contract entered into with the buyers, which generally are with the firmity of the sale contracts / agreements.

2.4.3 Revenue from Project Management fees and Rental Income

Revenue from Project Management Fees and Rental Income are recognized on accrual basis as per the terms and conditions of relevant agreements.

2.4.4 Dividend and interest income

Dividend income from investments in shares is recognized when right to receive is established, which is generally when shareholders approve the dividend.

Dividend income from investment in mutual funds is recognised when the unit holder's right to receive payment has been established.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2.5 Current versus non-current classification

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.

Based on the nature of activity carried out by the Company and the period between the procurement and realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 3 to 5 years for the purpose of Current – Non Current classification of

assets & liabilities.

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is classified as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

The Company classifies all other assets as non-current.

A liability is classified as current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Borrowings are classified as current if they are due to be settled within 12 months after the reporting period.

2.6 Leasing

2.6.1 The Company as a Lessor

Leases for which the Company is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Rental income from operating leases is generally recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised as expense on a straight-line basis over the lease term. The respective leased assets are presented in the balance sheet based on their nature. The Company did not need to make any adjustments to the accounting for assets held as a lessor.

2.6.2 The Company as a Lessee

The Company recognises right-of-use asset representing its right to use the underlying asset for the lease term and a corresponding lease liability at the lease commencement date i.e. the date at which the leased asset is available for use by the Company. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of right-of-use asset or the end of the lease term. The estimated useful lives of right-of use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Company measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Company uses incremental borrowing rate. For leases with reasonably similar characteristics, the Company, on a lease by lease basis, may adopt either the incremental

borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Company is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in statement of profit and loss.

The Company has elected not to apply the requirements of Ind AS 116 Leases to short-term leases of all assets that, at the commencement date, have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

2.7 Foreign exchange transactions and translation

Transactions in foreign currencies i.e. other than the Company's functional currency are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated using the closing rate prevailing at that date. Non-monetary items measured at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was measured. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements shall be recognised in profit or loss in the period in which they arise except for:

- Exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings; and
- Exchange differences on transactions entered to hedge certain foreign currency risks.

2.8 Employee Benefits

2.8.1 Defined contribution plans

The Company's contribution to provident fund and superannuation fund is considered as defined contribution plan and is charged as an expense in profit and loss based on the amount of contribution required to be made. The Company has no further payment obligations once the contributions have been paid.

2.8.2 Defined benefit plan

Defined benefit gratuity plan is wholly or partly funded by contributions by the Company. The liability or assets recognised in the Balance Sheet in respect of defined benefit gratuity plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of the plan assets. The defined benefit obligation is calculated by actuaries using an actuarial technique, the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows with reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

Net interest on the net defined benefit liability (asset) is the change during the period in the net defined benefit liability (asset) that arises from the passage of time.

The net interest cost is calculated applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in the employee benefit expenses in the Statement of Profit and Loss.

2.8.3 Remeasurement gains/losses

Remeasurement of defined benefit plans, comprising of actuarial gains or losses, return on plan assets excluding interest income are

recognised immediately in balance sheet with corresponding debit or credit to other comprehensive income. They are included in Retained Earnings in the Statement of Changes in Equity and in the Balance Sheet. Remeasurements of the net defined benefit liability (asset) recognised in other comprehensive income shall not be reclassified to profit or loss in subsequent period.

Remeasurement gains or losses on long term compensated absences that are classified as other long term benefits are recognised in profit or loss.

2.8.4 Short-term and other long-term employee benefits:

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

The cost of short-term compensated absences is accounted as under:

- (a) in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- (b) in case of non-accumulating compensated absences, when the absences occur.

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognised as a liability at the present value of expected future payments to be made in respect of services provided by employees upto the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in Statement of Profit and Loss.

2.8.5 Employee Stock Option Scheme

Equity-settled share-based payments to employees are measured at the fair value of the equity instruments at the grant date. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity.

At the end of each reporting period the Company revises its estimate of the No. of equity instruments expected to vest. The impact of revision of the original estimate, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate with the corresponding adjustments to the equity settled.

2.9 Cash and Cash Equivalents

Cash and cash equivalent in the Balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of changes in value.

2.10 Earnings per share

The Company reports basic and diluted earnings per share in accordance with Ind AS - 33 on 'Earnings per Share'. Basic earnings per share is computed by dividing the profit or loss attributable to ordinary equity holders of the Company for the year by the weighted average number of Equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit or loss attributable to ordinary equity holders of the Company for the year by the weighted average number of equity shares outstanding during the year as adjusted for the effects of all diluted potential equity shares except where the results are anti-dilutive.

2.11 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until substantially all the activities necessary to prepare the qualifying assets for its intended use or sale are complete.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2.12 Income Taxes

Income Tax expense represents the sum of tax currently payable and deferred tax

2.12.1 Current tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in Equity.

2.12.2 Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally

enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

2.12.3 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

2.13 Property, plant and equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Company's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Furniture & Fixtures and Office equipment's are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Depreciation on tangible fixed assets has been provided on pro-rata basis, on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013 except for certain assets as indicated below:

Lease hold improvements are amortised over the period of lease/estimated period of lease.

Vehicles used by employees are depreciated over the period of 48 months considering this period as the useful life of the vehicle for the Company.

Sales office and the sample flat/ show unit cost at site is amortised over 5 years or the duration of the project (as estimated by management) whichever is lower.

Computers, computer equipment's and furniture and fixtures are depreciated over the period of 1 year to 10 years.

Plant and equipment's are depreciated over the period of 1 year to 7 years.

Fixed Assets held for disposal are valued at estimated net realizable value.

2.14 Intangible Assets

2.14.1 Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

2.14.2 Derecognition of Intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in profit or loss when the asset is derecognised.

2.14.3 Useful lives of Intangible assets

Estimated useful lives of the intangible assets are as follows:

Computer Software	5 years
-------------------	---------

2.15 Investment Property

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured in accordance with Ind AS 16's requirements for cost model.

Investment property includes freehold/leasehold land and building. Depreciation on investment property has been provided on pro-rata basis, on the straight-line method as per the useful life of such property. Buildings are depreciated over the period of 60 years considering this period as the useful life for the Company.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

2.16 Impairment of tangible and intangible asset

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount, which is the higher of the value in use or fair value less cost to sell, of the asset or cash generating unit, as the case may be, is estimated and the impairment loss (if any) is recognised and the carrying amount is reduced to its recoverable amount. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable

amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

2.17 Inventories

Raw materials are valued at lower of cost and net realisable value. Cost is determined based on a weighted average basis.

Stock of units in completed projects and construction work-in-progress are valued at lower of cost and net realisable value. Cost includes land cost, materials, contract works, direct expenses and allocated interest & manpower costs and expenses incidental to the projects undertaken by the Company.

2.18 Assets held for sale

Assets or disposal groups are classified as held for sale if its carrying amount will be recovered principally through a sale transaction rather than through continuing use. To classify as held for sale, the asset must be available for immediate sale in its present condition, its sale must be highly probable and is marketed for sale at a price that is reasonable in relation to its current fair value. The Company must also be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification. Assets and disposal groups classified as held for sale are measured at the lower of their carrying value and fair value less costs to sell.

2.19 Cost of Construction/Development

Cost of Construction/Development (including cost of land) incurred is charged to the statement of profit and loss proportionate to project area sold. Costs incurred for projects which have not received Occupancy/Completion Certificate is carried over as construction work-in-progress. Costs incurred for projects which have received Occupancy/Completion Certificate is carried over as Completed Properties.

2.20 Dividend Distribution

Dividends paid (including income tax thereon) is recognized in the period in which the interim dividends are approved by the Board of Directors, or in respect of the final dividend when approved by shareholders.

2.21 Provisions and contingent liabilities

2.21.1 Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Provisions and contingent liabilities are reviewed at each Balance Sheet date.

2.21.2 Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Company has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

2.21.3 Contingent liabilities

Contingent liability is disclosed in case of:

- a) a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation; and
- b) a present obligation arising from past events, when no reliable estimate is possible.

2.22 Financial instruments

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss. However, trade receivables that do not contain a significant financing component are measured at transaction price.

2.22.1 Classification and subsequent measurement

2.22.1.1 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are subsequently measured at either amortised cost or fair value depending on their respective classification.

On initial recognition, a financial asset is classified as - measured at:

- Amortised cost; or
- Fair Value through Other Comprehensive Income (FVTOCI) - debt investment; or
- Fair Value through Other Comprehensive Income (FVTOCI) - equity investment; or
- Fair Value Through Profit or Loss (FVTPL)

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

All financial assets not classified as measured at amortised cost or FVTOCI are measured at FVTPL.

Financial assets at amortised cost are subsequently measured at amortised cost using effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain and loss on derecognition is recognised in profit or loss.

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Debt investment at FVTOCI are subsequently measured at fair value. Interest income under effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in Other Comprehensive Income (OCI). On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

For equity investments, the Company makes an election on an instrument-by-instrument basis to designate equity investments as measured at FVTOCI. These elected investments are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the reserves. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments. These investments in equity are not held for trading. Instead, they are held for medium or long term strategic purpose.

Equity investments that are not designated as measured at FVTOCI are designated as measured at FVTPL and subsequent changes in fair value are recognised in profit or loss.

Financial assets at FVTPL are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

2.22.1.2 Financial liabilities and equity instruments

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities. Equity instruments issued by the Company is recognised at the proceeds received, net of directly attributable transaction costs.

Financial liabilities

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading or it is a derivative (that does not meet hedge accounting requirements) or it is designated as such on initial recognition. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

2.22.2 Derecognition of financial assets

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Company enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

2.22.3 Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

2.22.4 Impairment of financial assets

The Company applies the expected credit loss (ECL) model for recognising impairment loss on financial assets. With respect to trade receivables, the Company measures the loss allowance at an amount equal to lifetime expected credit losses.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets. For debt securities at FVTOCI, the loss allowance is recognised in OCI and is not reduced from the carrying amount of the financial asset in the balance sheet.

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Company determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities under the Company's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

Investment in Subsidiaries and Joint Ventures:

The entire carrying amount of the investment in subsidiaries, associates and joint ventures is tested for impairment in accordance with Ind AS 36 Impairment of Assets as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised forms part of the carrying amount of the investment.

2.22.5 Derecognition of financial liabilities

The Company derecognizes financial liabilities when, and only when, the Company's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and/or payable is recognised in profit or loss.

2.23 Recent Indian Accounting Standards (Ind AS)

Ministry of Corporate Affairs("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been from April 01, 2024.

3. USE OF ESTIMATES AND JUDGEMENTS

In the application of the Company's accounting policies, which are described in note 2, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only the period of the revision and future periods if the revision affects both current and future periods.

Key sources of estimation uncertainty

In the process of applying the Company's accounting policies, management has made the following judgements based on estimates and assumptions, which have the significant effect on the amounts recognised in the financial statements:

A. Useful lives of property, plant and equipment, Investment Property and Intangible Asset

The Company reviews the useful life of property, plant and equipment, Investment Property and Intangible Asset at the end of each reporting period. This re-assessment may result in change in depreciation expense in future periods.

B. Fair value measurements and valuation processes

Some of the Company's assets and liabilities are measured at fair value for financial reporting purposes. In estimating the fair value of an asset or a liability, the Company uses market-observable data to the extent it is available. Where Level 1 inputs are not available, the Company engages third party valuers, where required, to perform the valuation. Information about the valuation techniques and inputs used in determining the fair value of various assets, liabilities and share based payments are disclosed in the notes to the financial statements.

C. Actuarial Valuation

The determination of Company's liability towards defined benefit obligation to employees is made through independent actuarial valuation including determination of amounts to be recognised in the Statement of Profit and Loss and in other comprehensive income. Such valuation depends upon assumptions determined after taking into account inflation, seniority, promotion and other relevant factors such as supply and demand factors in the employment market. Information about such valuation is provided in notes to the financial statements.

D. Taxes

Deferred tax assets are recognised for temporary differences to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

E. Determination of the timing of revenue recognition on the sale of completed and under development property

The Company has evaluated and generally concluded that the recognition of revenue over the period of time criteria are not met owing to non-enforceable right to payment for performance completed to date and, therefore, recognises revenue at a point in time. The Company has further evaluated and concluded that based on the analysis of the rights and obligations under the terms of the contracts relating to the sale of property, the revenue is to be recognised at a point in time when control transfers which coincides with receipt of Occupation Certificate.

F. Determination of performance obligations

With respect to the sale of property, the Company has evaluated and concluded that the goods and services transferred in each contract constitute a single performance obligation. In particular, the promised goods and services in contracts for the sale of property is to undertake development of property and obtaining the Occupation Certificate. Generally, the Company is responsible for all these goods and services and the overall management of the project. Although these goods and services are capable of being distinct, the Company accounts for them as a single performance obligation because they are not distinct in the context of the contract.

G. Impairment of investments

The Company assesses impairment of investments in subsidiaries, associates and joint ventures

which are recorded at cost. At the time when there are any indications that such investments have suffered a loss, if any, is recognised in the statement of Profit and Loss. The recoverable amount requires estimates of operating margin, discount rate, future growth rate, terminal values, etc. based on management's best estimate

H. Leases

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of IND AS 116. Identification of a lease requires significant judgement. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate.

The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonable certain to exercise that option and period covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. The Company revises the lease term if there is a change in the non-cancellable period of the lease.

The discount rate is generally based on increment borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

Financial Risk Management Framework

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk. In order to manage the aforementioned risks, the Company operates a risk management policy and a program that performs close monitoring of and responding to each risk factor.

CREDIT RISK

(i) Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Company. Credit risk arises from trade receivables, cash and cash equivalents & other financial assets.

Trade Receivables:

The Company's trade receivables include receivables on sale of residential flats and rent receivable. As per the Company's flat handover policy, a flat is handed over to a customer only upon payment of entire amount of consideration. The rent receivables are secured by security deposits obtained under the lease agreement. Thus, the Company is not exposed to any credit risk on receivables from sale of residential flats and rent receivables.

The concentration of credit risk is limited due to the fact that the customer base is large. The Company determines the allowance for expected credit losses based on historical loss experience adjusted to reflect current and estimated future economic conditions. Basis this assessment, the allowance for doubtful trade receivables as at March 31, 2024 is considered adequate.

Cash and Cash Equivalents & Other Financial Assets

For banks and financial institutions, only high rated banks/institutions are accepted. The Company holds cash and cash equivalents with bank and financial institution counterparties, which are having highest safety ratings based on ratings published by various credit rating agencies. The Company considers that its cash and cash equivalents have low credit risk based on external credit ratings of the counterparties.

For Other Financial Assets, the Company assesses and manages credit risk based on reasonable and supportive forward looking information. Other Financial Assets are considered to be low credit risk exposure assets.

LIQUIDITY RISK

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Company's short-term, medium-term and long-term funding and liquidity management requirements. The Company manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables detail the Company's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay. The tables include both interest and principal cash flows.

MARKET RISK

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk such as equity price risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. All such transactions are carried out within the guidelines set by the Board of Directors.

Future specific market movements cannot be normally predicted with reasonable accuracy.

Currency Risk

Foreign currency risk is the risk that the fair value or the future cash flows of an exposure will fluctuate because of changes in the foreign exchange rate. The Company undertakes few transactions denominated in foreign currencies only for availing certain services. Hence Foreign currency risk is not significant in comparison to company's operations.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates. The Company manages its interest rate risk by having a balanced portfolio of fixed and floating rate loans and borrowings.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Company's profit before tax is affected through the impact on floating rate borrowings, as follows:

Increase / decrease in basis points	Currency	As at 31 st March, 2024 Effect on Profit / (loss) before tax (₹ In Lakhs)	As at 31 st March, 2023 Effect on Profit / (loss) before tax (₹ In Lakhs)

34. SEGMENT INFORMATION

The reportable segments of the Company are 'Projects, Project Management and Development' and 'Operating of Commercial Complexes'.

The segments are largely organised and managed separately according to the organisation structure that is designed based on the nature of business. Operating segments are reported in a manner consistent with the internal reporting provided to the Managing Director regarded as the Chief Operating Decision Maker ("CODM").

Description of each of the reportable segments for all periods presented, is as under:

- i) **Projects, Project Management & Development:** This Segment of the business includes income from sale of residential units across projects, project management and development in India.
- ii) **Operating of Commercial Complexes:** This Segment of the business includes rental income from commercial properties at New Delhi

The CODM evaluates the Company's performance and allocates resources based on an analysis of various performance indicators by operating segments. The CODM reviews revenue and gross profit as the performance indicator for all of the operating segments. The measurement of each segment's revenues, expenses and assets is consistent with the accounting policies that are used in preparation of the financial statements. Segment profit represents the profit before interest and tax.

Information regarding the Company's reportable segments is presented below:

Information about major customers

Revenues from transactions with a single external customer did not amount to 10 percent or more of the Company's revenues from external customers.

Segment revenue reported above represents revenue generated from external customers. There were no inter-segment sales in the current year as well as previous year.

35. EMPLOYEE BENEFITS

(a) Defined Contribution Plan

The Company's contribution to Provident Fund and Superannuation Fund aggregating ₹ 423.08 lakhs (31st March, 2023 : ₹ 341.58 lakhs) has been recognised in the Statement of Profit or Loss under the head Employee Benefits Expense.

(b) Defined Benefit Plans:

Gratuity

The Company operates a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act, 1972 or the Company scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting. The Company makes contribution to the group gratuity scheme administered by the Life Insurance Corporation of India through its Gratuity Trust Fund.

Through its defined benefit plans the Company is exposed to a number of risks, the most significant of which are detailed below:

Investment risk

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds.

Interest risk

A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments.

Longevity risk

The present value of defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

The significant actuarial assumptions used for the purposes of the actuarial valuations were as follows:

	As at	
	31-Mar-24	31-Mar-23
Discount rate(s)	7.18%	7.31%
Expected rate(s) of salary increase	10.00%	10.00%

Pandit, Fellow of the Institute of Actuaries of India. The present value of the defined benefit obligation, and the related current service cost and past service cost, were measured using the projected unit credit method.

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

Principal Assumptions	Year	Changes in assumption (%)	Impact on defined benefit obligation	
			Increase in assumption	Decrease in assumption
			₹ In lakhs	
Discount rate	2024	1.00%	(19.30)	21.00
	2023	1.00%	(16.11)	17.54
Salary growth rate	2024	1.00%	20.25	(18.99)
	2023	1.00%	16.94	(15.88)

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to previous year.

The Company expects to contribute ₹ NIL lakhs (March 31, 2023 ₹ NIL Lakhs) to the gratuity trusts during the next financial year.

Maturity profile of defined benefit obligation:

	₹ In lakhs	
	31 st March, 2024	31 st March, 2023
Within 1 year	94.06	62.60
1 - 2 year	67.86	64.24
2 - 3 year	70.90	58.94
3 - 4 year	69.97	56.58
4 - 5 year	79.82	52.89
5 - 10 years	342.71	300.73

Major Category of plan assets for Gratuity Fund is as follows:

Asset category:	₹ In lakhs	
	31 st March, 2024	31 st March, 2023
Deposits with Insurance companies	100%	100%
	100%	100%

The weighted average age considered for defined benefit obligation as at March 31, 2024 is 34.44 years (March 31, 2023: 34.38 years)

The average expected future service considered for defined benefit obligation as at March 31, 2024 is 4 years (March 31, 2023 - 4 years)

The company operates in real estate business and is governed by IND AS 115 for recording the revenue as per completion contract method. Accordingly, abovementioned ratios may not be strictly comparable

Formula used for calculation of Ratios and Financial Indicators are as below :

- 1) Debt = Borrowing + Lease Liabilities
- 2) Earning for Debt Service = Net Profit before taxes + Non-cash operating expenses like depreciation and other amortizations + Interest + other adjustments like loss on sale of Fixed assets etc.
- 3) Debt Service = Borrowing + Interest Payment + Lease Liability Payment
- 4) Working Capital = Current Asset - Current Liabilities
- 5) Earning before interest & taxes = Profit/(loss) before Tax (incl Exceptional Item) + Finance Cost
- 6) Capital Employed = Equity + Borrowing - Intangible Assets
- 7) Income generated from Investment = Dividend Income + Interest Income + Net Gain/(loss) arising on Financial Assets measured at Fair Value through Profit and Loss

41. OTHER STATUTORY INFORMATION

INDEPENDENT AUDITOR'S REPORT

To The Members of Mahindra Lifespace Developers Limited

Report on the Audit of the Consolidated Financial Statements

OPINION

We have audited the accompanying consolidated financial statements of Mahindra Lifespace Developers Limited ("the Parent") and its subsidiaries, (the Parent and its subsidiaries together referred to as "the Group") which includes the Group's share of profit in its associates and joint ventures, which comprise the Consolidated Balance Sheet as at March 31, 2024, and the Consolidated Statement of Profit and Loss (including Other Comprehensive Income), the Consolidated Statement of Cash Flows and the Consolidated Statement of Changes in Equity for the year ended on that date, and notes to the financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, and based on the consideration of reports of the other auditors on separate financial statements / financial information of the subsidiaries, associates and joint ventures referred to in the Other Matters section below, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act, ("Ind AS") and other accounting principles generally accepted in India, of the consolidated state of affairs of the Group as at March 31,

2024, and their consolidated profit, their consolidated total comprehensive income, their consolidated cash flows and their consolidated changes in equity for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing ("SAs") specified under section 143 (10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group, its associates and joint ventures in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

1	<p>Carrying values of Inventories (Construction work in Progress and Stock in Trade)</p> <p>There is a risk that the valuation of inventory may be misstated as it involves the determination of net realizable value (NRV) and estimated total construction cost of completion of each of the projects which is an area of judgement.</p> <p>Refer Notes 2.19 and 13 to the Consolidated Financial Statements</p>	<p>Principal audit procedure performed:</p> <p>Our audit approach consisted testing of the design and operating effectiveness of the internal controls and substantive testing as follows:</p> <ul style="list-style-type: none"> We assessed the Group's process for the valuation of inventories. Evaluated the design, implementation and tested the operating effectiveness of the internal controls relating to the valuation of inventories, including Parent Company's management process for the review and approval of the estimated costs to complete the projects including construction cost incurred, construction budgets and net realizable value. We carried out a combination of procedures involving enquiry with Parent Company's management and observation, and inspection of evidence in respect of operation of these controls.

Sr. No.	Key Audit Matter	Auditor's Response
		<p>Selected a sample of inventories and performed procedures around:</p> <ul style="list-style-type: none"> Construction costs incurred for the inventories by testing the supporting documents and wherever available, corroborated the same with the reports from external supervising engineers. Estimated total construction cost to be incurred for completing the construction of the project and wherever available, corroborated the same with the reports from external supervising engineers. Examined the detailed project reviews by senior operational and financial management to determine the total budgeted costs for the project. Assessed the significant judgements/estimates adopted by the Group for the estimated total construction costs to be incurred for completing the construction of the project. Additionally, we carried out site visits for a number of projects in the year. The Group's methodology and key assumptions for determining NRV of the inventories. Assessed the estimates used by the Group for the expected net amounts to be realized from the sale of inventories in the ordinary course of business. We examined the total projected budgeted cost to the total budgeted sale value from the project. We examined the NRV to recent sales in the project or to the estimated selling price applied in assessing the NRV. We assessed the NRV to the carrying value in books.

INFORMATION OTHER THAN THE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

- The Parent's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's Report, Management Discussion and Analysis Report, Corporate Governance Report and Business Responsibility Report, but does not include the consolidated financial statements, standalone financial statements and our auditor's report thereon.
- Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the consolidated financial statements, our responsibility is to read the other information, compare with the financial statements of the subsidiaries, joint ventures and associates audited by the other auditors, to the extent it relates to these entities and, in doing so, place reliance on the work of the other auditors and consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise

appears to be materially misstated. Other information so far as it relates to the subsidiaries, joint ventures and associates, is traced from their financial statements audited by the other auditors.

- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF MANAGEMENT AND THOSE CHARGED WITH GOVERNANCE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Parent's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated cash flows and consolidated changes in equity of the Group including its Associates and joint ventures in accordance with the accounting principles generally accepted in India, including Ind AS specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group and of its associates and joint ventures are responsible for maintenance of adequate accounting records in accordance

with the provisions of the Act for safeguarding the assets of the Group and its associates and its joint ventures and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Parent, as aforesaid.

In preparing the consolidated financial statements, the respective Management and Board of Directors of the companies included in the Group and of its associates and joint ventures are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intend to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group and of its associates and joint ventures are also responsible for overseeing the financial reporting process of the Group and of its associates and joint ventures.

AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures

responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Parent has adequate internal financial controls with reference to consolidated financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associates and joint ventures to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and its associates and joint ventures to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associates and joint ventures to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities or business activities included in the consolidated financial statements of which we are the independent auditors. For the other entities or business activities included in the consolidated financial statements, which have

been audited by the other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatements in the consolidated financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the consolidated financial statements.

We communicate with those charged with governance of the Parent and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal financial controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

OTHER MATTERS

(a) We did not audit the financial statements / financial information of 9 subsidiaries, whose financial statements / financial information reflect total assets of ₹ 33,382.24 lakhs as at March 31, 2024, total revenues of ₹ 17,089.27 lakhs and net cash outflows amounting to ₹ 210.76 lakhs for the year ended on that date, as considered in the consolidated financial statements. ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1(g) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

Report on the Internal Financial Controls with reference to consolidated financial statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of the consolidated Ind AS financial statements of the Company as at and for the year ended March 31, 2024, we have audited the internal financial controls with reference to consolidated financial statements of Mahindra Lifespace Developers Limited (hereinafter referred to as “Parent”) and its subsidiary companies, which includes internal financial controls with reference to consolidated financial statements of the Company’s subsidiaries, its associate companies and joint ventures, which are companies incorporated in India, as of that date.

MANAGEMENT’S RESPONSIBILITY FOR INTERNAL FINANCIAL CONTROLS

The respective Board of Directors of the Parent, its subsidiary companies, its associate companies and joint ventures, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls with reference to consolidated financial statements based on the internal control with reference to consolidated financial statements criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITOR’S RESPONSIBILITY

Our responsibility is to express an opinion on the internal financial controls with reference to consolidated financial statements of the Parent, its subsidiary companies, its associate companies and its joint ventures, which are companies incorporated in India, based on our audit. We

conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to consolidated financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to consolidated financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to consolidated financial statements and their operating effectiveness. Our audit of internal financial controls with reference to consolidated financial statements included obtaining an understanding of internal financial controls with reference to consolidated financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors of the subsidiary companies, associate companies and joint ventures, which are companies incorporated in India, in terms of their reports referred to in the Other Matters paragraph below, is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to consolidated financial statements of the Parent, its subsidiary companies, its associate companies and its joint ventures, which are companies incorporated in India.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED FINANCIAL STATEMENTS

A company’s internal financial control with reference to consolidated financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial

control with reference to consolidated financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to consolidated financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to consolidated financial statements to future periods are subject to the risk that the internal financial control with reference to consolidated financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion to the best of our information and according to the explanations given to us and based on the consideration of the reports of the other auditors referred to in the Other Matters paragraph below, the Parent, its subsidiary

companies, its associate companies and joint ventures, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls with reference to consolidated financial statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at March 31, 2024, based on the criteria for internal financial control with reference to consolidated financial statements established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

OTHER MATTERS

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to consolidated financial statements insofar as it relates to 9 subsidiary companies, 5 associate companies and 4 joint ventures, which are companies incorporated in India, is based solely on the corresponding reports of the auditors of such companies incorporated in India.

Our opinion is not modified in respect of the above matters.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31ST MARCH, 2024

1. GENERAL INFORMATION

Mahindra Lifespace Developers Limited ('the Parent Company') is a limited Group incorporated in India. Its Corporate Identification Number is (CIN) L45200MH1999PLC118949. The equity shares of the Parent Company are listed on the Bombay Stock Exchange (BSE) and National Stock Exchange (NSE). Its parent and ultimate holding Company is Mahindra & Mahindra Limited.

The addresses of its registered office is disclosed in the introduction to the annual report. The Parent Company along with its subsidiary (together referred to as "the Group") and its associate and joint venture companies are engaged in the development of residential projects and large formats developments such as integrated cities and industrial clusters.

2. MATERIAL ACCOUNTING POLICIES

2.1 Statement of compliance & basis of preparation and presentation

The Consolidated Financial Statements have been prepared in accordance with the Indian Accounting Standards ('Ind AS') as per the Companies (Indian Accounting Standards) Rules, 2015 as amended and notified under section 133 of the Companies Act, 2013 (the 'Act') and other relevant provisions of the Act. The aforesaid financial statements have been approved by the Group's Board of Directors and authorised for issue in the meeting held on 26th April, 2024.

Basis of measurement

These Consolidated financial statements have been prepared on the historical cost basis except for certain financial instruments that are measured at fair values at the end of each reporting period, as explained in the accounting policies below:

Historical Cost: Assets are recorded at the amount of cash or cash equivalents paid or the fair value of the other consideration given to acquire them at the time of their acquisition. Liabilities are recorded at the amount of proceeds received in exchange for the obligation, or in some circumstances (for example, income taxes), at the amounts of cash or cash equivalents expected to be paid to satisfy the liability in the normal course of business.

Accounting policies have been consistently applied except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

2.2 Basis of Consolidation

The consolidated financial statements incorporate the financial statements of the Group and entities (including structured entities) controlled by the Group and its subsidiaries.

Subsidiaries

Subsidiaries are entities (including structured entities) over which the Group has control. Subsidiaries are consolidated on a line-by-line basis from the date the control is transferred to the Group. They are deconsolidated from the date that control ceases. The acquisition method of accounting is used to account for business combinations by the Group. Changes in the Group's interest in subsidiaries that do not result in a loss of control are accounted as equity transactions. The carrying amount of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Group.

Inter-Group transactions, balances and unrealised gains on transactions between Group are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. These financial statements are prepared by applying uniform accounting policies in use at the group.

Associates

Associates are the entities over which the Group has significant influence. Investment in associates are accounted for using the equity method of accounting, after initially being recognised at cost.

Joint Arrangements

A joint venture is a joint arrangement whereby the Group has the rights to the net assets of the arrangement. The results, assets and liabilities of a joint venture are accounted using the equity method of accounting. Where the Group's activities are conducted through joint operations (i.e. the parties have rights to the assets and obligation for liabilities relating to the arrangement), the Group recognises its share of assets, liabilities, income and expenses of such joint operations incurred jointly along with its share of income from the sale of output and any liability and expenses incurred in relation to the joint operations.

2.3 Measurement of Fair Values

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. In measuring the fair value of an asset or a liability, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these consolidated financial statements is determined on such basis, except for share-based payment transactions that are within the scope of Ind AS 102 – “Share based Payments”, leasing transactions within the scope of Ind AS 116, “Leases” and measurements that have some similarities to fair value but are not fair value, such as net realisable value in Ind AS 2 - Inventories or value in use in Ind AS 36 – “Impairment of Assets”.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2, or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the Group can access at the measurement date;
- Level 2: Inputs other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

2.4 Revenue from Contracts with Customers

Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

2.4.1 Revenue from Projects

- i. The Group develops and sells residential and commercial properties. Revenue from contracts is recognised when control over the property has been transferred to the customer. An enforceable right to payment does not arise until the development of the property is completed. Therefore, revenue

is recognised at a point in time as per IND AS 115 when (a) the seller has transferred to the buyer all significant risks and rewards of ownership and the seller retains no effective control of the real estate unit to a degree usually associated with ownership, (b) The seller has effectively handed over possession of the real estate unit to the buyer forming part of the transaction; (c) No significant uncertainty exists regarding the amount of consideration that will be derived from real estate unit sales; and (d) It is not unreasonable to expect ultimate collection of revenue from buyers. The revenue is measured at the transaction price agreed under the contract.

- ii. The Group invoices the customers for construction contracts based on achieving performance-related milestones.
- iii. For certain contracts involving the sale of property under development, the Group offers deferred payment schemes to its customers. The Group adjusts the transaction price for the effects of the significant financing component.
- iv. Costs to obtain contracts (“Contract costs”) relate to fees paid for obtaining property sales contracts. Such costs are recognised as assets when incurred and amortised upon recognition of revenue from the related property sale contract.
- v. Contract assets is the Group’s right to consideration in exchange for goods or services that the Group has transferred to a customer when that right is conditioned on something other than the passage of time.
- vi. The Group recognizes revenue at a point in time in each reporting period considering the estimates like reasonableness of collections from customers, disputes with the customer which may result in the cancellation of the contract, which are reassessed periodically by the management. The effect of these changes to estimates is recognised in the period when changes are determined. Accordingly any revenues attributable to such changes and the corresponding Cost of Goods Sold (“COGS”) previously recognised are

reversed and reduced from the current year's Revenue and COGS respectively.

2.4.2 Revenue from Sale of land and other rights

Revenue from Sale of land and other rights is generally a single performance obligation and the Group has determined that this is satisfied at the point in time when control transfers as per the terms of the contract entered into with the buyers, which generally are with the firmity of the sale contracts / agreements. The determination of transfer of control did not change upon the adoption of Ind AS 115 – Revenue from Contracts with Customers.

2.4.3 Revenue from Project Management fees

Revenue from Project Management Fees and Rental Income are recognized on accrual basis as per the terms and conditions of relevant agreements.

2.4.4 Land Lease Premium

Land lease premium is recognized as income upon creation of leasehold rights in favour of the lessee or upon an agreement to create leasehold rights with handing over of possession.

Property lease rentals, income from operation & maintenance charges and water charges are recognized on an accrual basis as per terms of the agreement with the lessees.

2.4.5 Dividend and interest income

Dividend income from investments in shares is recognized when right to receive is established, which is generally when shareholders approve the dividend.

Dividend income from investment in mutual funds is recognised when the unit holder's right to receive payment has been established.

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

2.5 Current versus non-current classification

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents.

Based on the nature of activity carried out by the Group and the period between the procurement and realisation in cash and cash equivalents, the Group has ascertained its operating cycle as 3 to 5 years for Current – Non-Current classification of assets & liabilities.

The Group presents assets and liabilities in the balance sheet based on current/ non-current classification.

An asset is classified as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

The Group classifies all other assets as non-current.

A liability is classified as current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

Borrowings are classified as current if they are due to be settled within 12 months after the reporting period.

2.6 Leasing

2.6.1 The Group as a Lessor

Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards incidental to ownership of an underlying asset to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

Rental income from operating leases is generally recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised as expense on a straight-line basis over the lease term. The respective leased assets are presented in the balance sheet based on their nature. The Group did not need to make any adjustments to the accounting for assets held as a lessor.

2.6.2 The Group as a Lessee

The Group recognises right-of-use asset representing its right to use the underlying asset for the lease term and a corresponding lease liability at the lease commencement date i.e. the date at which the leased asset is available for use by the Group. The cost of the right-of-use asset measured at inception shall comprise of the amount of the initial measurement of the lease liability adjusted for any lease payments made at or before the commencement date less any lease incentives received, plus any initial direct costs incurred and an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the underlying asset or site on which it is located. The right-of-use assets is subsequently measured at cost less any accumulated depreciation, accumulated impairment losses, if any and adjusted for any remeasurement of the lease liability. The right-of-use assets is depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of right-of-use asset or the end of the lease term. The estimated useful lives of right-of use assets are determined on the same basis as those of property, plant and equipment. Right-of-use assets are tested for impairment whenever there is any indication that

their carrying amounts may not be recoverable. Impairment loss, if any, is recognised in the statement of profit and loss.

The Group measures the lease liability at the present value of the lease payments that are not paid at the commencement date of the lease. The lease payments are discounted using the interest rate implicit in the lease, if that rate can be readily determined. If that rate cannot be readily determined, the Group uses incremental borrowing rate. For leases with reasonably similar characteristics, the Group, on a lease by lease basis, may adopt either the incremental borrowing rate specific to the lease or the incremental borrowing rate for the portfolio as a whole. The lease payments shall include fixed payments, variable lease payments, residual value guarantees, exercise price of a purchase option where the Group is reasonably certain to exercise that option and payments of penalties for terminating the lease, if the lease term reflects the lessee exercising an option to terminate the lease. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any reassessment or lease modifications or to reflect revised in-substance fixed lease payments. Where the carrying amount of the right-of-use asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Group recognises any remaining amount of the re-measurement in statement of profit and loss.

The Group has elected not to apply the requirements of Ind AS 116 Leases to short-term leases of all assets that, at the commencement date, have a lease term of 12 months or less and leases for which the underlying asset is of low value. The lease payments associated with these leases are recognized as an expense on a straight-line basis over the lease term.

2.7 Foreign exchange transactions and translation

Transactions in foreign currencies i.e. other than the Group's functional currency are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated using the closing rate prevailing at that date. Non-monetary items measured at fair value that

are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was measured. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous financial statements shall be recognised in profit or loss in the period in which they arise except for:

- Exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those assets when they are regarded as an adjustment to interest costs on those foreign currency borrowings; and
- Exchange differences on transactions entered to hedge certain foreign currency risks.

2.8 Employee Benefits

2.8.1 Defined contribution plans

The Group's contribution to provident fund and superannuation fund is considered as defined contribution plan and is charged as an expense in profit and loss based on the amount of contribution required to be made. The Group has no further payment obligations once the contributions have been paid.

2.8.2 Defined benefit plan

Defined benefit gratuity plan is wholly or partly funded by contributions by the Group. The liability or assets recognised in the Balance Sheet in respect of defined benefit gratuity plan is the present value of the defined benefit obligation at the end of the reporting period less the fair value of the plan assets. The defined benefit obligation is calculated by actuaries using an actuarial technique, the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows with reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

Net interest on the net defined benefit liability (asset) is the change during the period in the net defined benefit liability (asset) that arises

from the passage of time. The net interest cost is calculated applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in the employee benefit expenses in the Statement of Profit and Loss.

2.8.3 Remeasurement gains/losses

Remeasurement of defined benefit plans, comprising of actuarial gains or losses, return on plan assets excluding interest income are recognised immediately in balance sheet with corresponding debit or credit to other comprehensive income. They are included in Retained Earnings in the Statement of Changes in Equity and in the Balance Sheet.

Remeasurement of the net defined benefit liability (asset) recognised in other comprehensive income shall not be reclassified to profit or loss in a subsequent period.

Remeasurement gains or losses on long term compensated absences that are classified as other long term benefits are recognised in profit or loss.

2.8.4 Short-term and other long-term employee benefits:

The undiscounted amount of short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. These benefits include performance incentive and compensated absences which are expected to occur within twelve months after the end of the period in which the employee renders the related service.

The cost of short-term compensated absences is accounted as under:

- (a) in case of accumulated compensated absences, when employees render the services that increase their entitlement of future compensated absences; and
- (b) in case of non-accumulating compensated absences, when the absences occur.

Compensated absences which are not expected to occur within twelve months after the end of the period in which the employee renders the related service are recognised as a liability at the present

value of expected future payments to be made in respect of services provided by employees upto the end of the reporting period using the projected unit credit method. The benefits are discounted using the market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are recognised in Statement of Profit and Loss.

2.8.5 Employee Stock Option Scheme

Equity-settled share-based payments to employees are measured at the fair value of the equity instruments at the grant date. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity.

2.9 Cash and Cash Equivalents

Cash and cash equivalent in the Balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to insignificant risk of changes in value.

2.10 Earnings per share

The Group reports basic and diluted earnings per share in accordance with Ind AS - 33 on 'Earnings per Share'. Basic earnings per share is computed by dividing the profit or loss attributable to ordinary equity holders of the Parent Company for the year by the weighted average number of Equity shares outstanding during the year. Diluted earnings per share is computed by dividing the profit or loss attributable to ordinary equity holders of the Parent Company for the year by the weighted average number of equity shares outstanding during the year as adjusted for the effects of all diluted potential equity shares except where the results are anti-dilutive.

2.11 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until substantially all the activities necessary to prepare the qualifying assets for its intended use or sale are complete.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

2.12 Share based payment transaction of the Group

1. Equity-settled share-based payment to employees are measured at the fair value of the equity instruments at the grant date. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity.
2. At the end of each reporting period the Group revises its estimate of the No. of equity instruments expected to vest. The impact of revision of the original estimate, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate with the corresponding adjustments to the equity settled.

2.13 Income Taxes

Income Tax expense represents the sum of tax currently payable and deferred tax.

2.13.1 Current tax

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date. Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in Equity.

2.13.2 Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which

those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

2.13.3 Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

2.14 Property, plant and equipment

Land and buildings held for use in the production or supply of goods or services, or for administrative purposes, are stated in the balance sheet at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated.

Properties in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Cost includes professional fees and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Such properties are classified to the appropriate categories of property, plant and equipment when completed and ready for intended

use. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Fixtures and equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

Assets held under finance leases are depreciated over their expected useful lives on the same basis as owned assets. However, when there is no reasonable certainty that ownership will be obtained by the end of the lease term, assets are depreciated over the shorter of the lease term and their useful lives.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Depreciation on tangible fixed assets has been provided on pro-rata basis, on the straight-line method as per the useful life prescribed in Schedule II to the Companies Act, 2013 except for certain assets as indicated below:

Lease hold improvements are amortised over the period of lease/estimated period of lease.

Vehicles used by employees are depreciated over the period of 48 months considering this period as the useful life of the vehicle for the Group.

Sales office and the sample flat/ show unit cost at site is amortised over 5 years or the duration of the project (as estimated by management) whichever is lower.

Computers, computer equipment's and furniture and fixtures are depreciated over the period of 1 year to 10 years.

Plant and equipment's are depreciated over the period of 1 year to 7 years.

Fixed Assets held for disposal are valued at estimated net realizable value.

2.15 Intangible Assets other than goodwill

2.15.1 Intangible assets acquired separately

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment losses. Amortisation is recognised on a straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

2.15.2 Derecognition of Intangible assets

An intangible asset is derecognised on disposal, or when no future economic benefits are expected from use or disposal. Gains or losses arising from derecognition of an intangible asset, measured as the difference between the net disposal proceeds and the carrying amount of the asset are recognised in profit or loss when the asset is derecognised.

2.15.3 Useful lives of Intangible assets

Estimated useful lives of the intangible assets are as follows:

Computer Software	5 years
-------------------	---------

2.16 Goodwill

Goodwill is initially recognised as the excess of the acquirer's interest in the net fair value of the identifiable net assets of the acquired business. Subsequent to initial measurement, goodwill is measured at cost less accumulated impairment, if any. Goodwill is allocated to cash generating unit which is expected to benefit from the business combination.

2.17 Investment Property

Investment properties are properties held to earn rentals and/or for capital appreciation (including property under construction for such purposes). Investment properties are measured initially at cost, including transaction costs. Subsequent to initial recognition, investment properties are measured in accordance with Ind AS 16's requirements for cost model.

Investment property includes freehold/leasehold land and building. Depreciation on investment property has been provided on pro-rata basis, on the straight-line method as per the useful life of such property. Buildings are depreciated over the period of 60 years considering this period as the useful life for the Group.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on derecognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the period in which the property is derecognised.

2.18 Impairment of tangible and intangible assets other than Goodwill

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount, which is the higher of the value in use or fair value less cost to sell, of the asset or cash generating unit, as the case may be, is estimated and the impairment loss (if any) is recognised and the carrying amount is reduced to its recoverable amount. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. When a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

When an impairment loss subsequently reverses, the carrying amount of the asset (or a cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

2.19 Inventories

Raw materials are valued at lower of cost and net realisable value. Cost is determined based on a weighted average basis.

Stock of units in completed projects and construction work-in-progress are valued at lower of cost and net realisable value. Cost includes land cost, materials, contract works, direct expenses and allocated interest & manpower costs and expenses incidental to the projects undertaken by the Group.

2.20 Non Current assets held for sale

Non-current assets or disposal groups are classified as held for sale if its carrying amount will be recovered principally through a sale transaction rather than through continuing use. To classify as held for sale, the asset must be available for immediate sale in its present condition, its sale must be highly probable and is marketed for sale at a price that is reasonable in relation to its current fair value. The Group must also be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification. Non-current assets and disposal groups classified as held for sale are measured at the lower of their carrying value and fair value less costs to sell.

2.21 Cost of Construction/Development

Cost of Construction/Development (including cost of land) incurred is charged to the statement of profit and loss proportionate to project area sold. Costs incurred for projects which have not received Occupancy/Completion Certificate is carried over as construction work-in-progress. Costs incurred for projects which have received Occupancy/Completion Certificate is carried over as Completed Properties.

2.22 Dividend Distribution

Dividends paid (including income tax thereon) is recognized in the period in which the interim dividends are approved by the Board of Directors, or in respect of the final dividend when approved by shareholders.

2.23 Provisions and contingent liabilities

2.23.1 Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (when the effect of the time value of money is material).

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, a receivable is

recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Provisions and contingent liabilities are reviewed at each Balance Sheet date.

2.23.2 Onerous contracts

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract.

2.23.3 Contingent liabilities

Contingent liability is disclosed in case of:

- a) a present obligation arising from past events, when it is not probable that an outflow of resources will be required to settle the obligation; and
- b) a present obligation arising from past events, when no reliable estimate is possible.

2.24 Financial instruments

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instruments.

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss. However, trade receivables that do not contain a significant financing component are measured at transaction price.

2.24.1 Classification and subsequent measurement

2.24.1.1 Financial assets

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases

or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace. All recognised financial assets are subsequently measured at either amortised cost or fair value depending on their respective classification.

On initial recognition, a financial asset is classified as - measured at:

- Amortised cost; or
- Fair Value through Other Comprehensive Income (FVTOCI) - debt investment; or
- Fair Value through Other Comprehensive Income (FVTOCI) - equity investment; or
- Fair Value Through Profit or Loss (FVTPL)

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Group changes its business model for managing financial assets.

All financial assets not classified as measured at amortised cost or FVTOCI are measured at FVTPL.

Financial assets at amortised cost are subsequently measured at amortised cost using effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss. Any gain and loss on derecognition is recognised in profit or loss.

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the debt instrument, or, where appropriate, a shorter period, to the net carrying amount on initial recognition.

Debt investment at FVTOCI are subsequently measured at fair value. Interest income under effective interest method, foreign exchange gains and losses and impairment are recognised in profit or loss. Other net gains and losses are recognised in Other Comprehensive Income (OCI). On derecognition, gains and losses accumulated in OCI are reclassified to profit or loss.

For equity investments, the Group makes an election on an instrument-by-instrument basis to designate equity investments as measured at FVTOCI. These elected investments are measured at fair value with gains and losses arising from changes in fair value recognised in other comprehensive income and accumulated in the reserves. The cumulative gain or loss is not reclassified to profit or loss on disposal of the investments. These investments in equity are not held for trading. Instead, they are held for medium or long-term strategic purpose.

Equity investments that are not designated as measured at FVTOCI are designated as measured at FVTPL and subsequent changes in fair value are recognised in profit or loss.

Financial assets at FVTPL are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognised in profit or loss.

2.24.1.2 Financial liabilities and equity instruments

Debt and equity instruments issued by the Group are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Group is recognised at the proceeds received, net of directly attributable transaction costs.

Financial liabilities

Financial liabilities are classified as measured at amortised cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading or it is a derivative (that does not meet hedge accounting requirements) or it is designated as such on initial recognition. Other financial liabilities are subsequently measured at amortised cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognised in profit or loss. Any gain or loss on derecognition is also recognised in profit or loss.

2.24.2 Derecognition of financial assets

The Group derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and does not retain control of the financial asset.

If the Group enters into transactions whereby it transfers assets recognised on its balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets, the transferred assets are not derecognised.

2.24.3 Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the balance sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

2.24.4 Impairment of financial assets

The Group applies the expected credit loss (ECL) model for recognising impairment loss on financial assets. With respect to trade receivables, the Group measures the loss allowance at an amount equal to lifetime expected credit losses.

Loss allowances for financial assets measured at amortised cost are deducted from the gross carrying amount of the assets. For debt securities

at FVTOCI, the loss allowance is recognised in OCI and is not reduced from the carrying amount of the financial asset in the balance sheet.

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group determines that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

2.24.5 Derecognition of financial liabilities

The Group derecognizes financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. An exchange between with a lender of debt instruments with substantially different terms is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability (whether or not attributable to the financial difficulty of the debtor) is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and/or payable is recognised in profit or loss.

2.25 Business combinations

The Group accounts for its business combinations under acquisition method of accounting. The acquirer's identifiable assets, liabilities and contingent liabilities that meet the condition for recognition are recognised at their fair values at the acquisition date. The difference between the fair value of the purchase consideration paid together with non-controlling interest on acquisition date and the fair value of net assets acquired is recognised as goodwill or capital reserve on acquisition. The excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed is recognized as goodwill. Any shortfall is recognised as capital reserve on consolidation.

In case of a bargain purchase, before recognising gain in respect thereof, the Group determines whether there exists clear evidence of underlying reasons for classifying the business combination as a bargain purchase. Thereafter, the Group reassesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and recognises any additional asset or liabilities that are identified in that reassessment. The Group then reviews the procedures used to measure the amounts that Ind AS requires for the purposes of calculating the bargain purchase. If the gain remains after this reassessment and review, the Group recognises it in other comprehensive income and accumulates the same in equity as capital reserve. This gain is attributed to the acquirer. If there does not exist clear evidence of the underlying reasons for classifying the business combination as a bargain purchase, the Group recognises the gain, after reassessing and reviewing (as described above), directly in equity as capital reserve.

The interest in non-controlling interest is initially measured at fair value or at the proportionate share of the acquiree's identifiable net assets. The choice of measurement basis is made on an acquisition by acquisition basis. Subsequent to initial acquisition, the carrying amount of non-controlling interest is the amount of those interest in initial recognition plus the non-controlling interest's share of subsequent changes in equity of subsidiaries.

When the consideration transferred by the Group in business combination includes assets or liabilities resulting in a contingent consideration arrangement, the contingent consideration is measured at its acquisition date fair value and included as a part of the consideration transferred in a business combination. Changes in the fair value of the contingent consideration that qualify as measurement period adjustments, are adjusted retrospectively, with corresponding adjustments against goodwill or capital reserve as the case may be.

Measurement period adjustments are adjustments that arise from additional information during the 'measurement period' (which cannot exceed one year from the acquisition date) about facts and circumstances that existed at the acquisition date.

The subsequent accounting for changes in the fair value of the contingent consideration that do not qualify as the measurement period adjustments depends on how the contingent consideration is classified. Contingent consideration that is classified as equity is not remeasured at subsequent reporting dates and its subsequent settlement is accounted for within equity. Contingent consideration that is classified as an asset

or a liability is remeasured at fair value at subsequent reporting dates with the corresponding gain or loss being recognised in profit or loss.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to its acquisition-date fair value and the resulting gain or loss, if any, is recognised in profit or loss. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income are reclassified to profit or loss where such treatment would be appropriate if that interest were disposed of.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amount for the items for which the accounting is incomplete. Those provisional amount are adjusted during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amount recognised at that date.

2.25.1 Business Combination under common control

Business Combination under common control are accounted as per Appendix C in Ind AS 103 - Business combinations, at carrying amount of assets and liabilities acquired and any excess of consideration issued over the net assets acquired is recognised as capital reserve on common control business combination.

2.25.2 Acquisition of interest in associate and joint venture

Acquisition of interest in an associate or a joint venture, is initially recognised at cost. Any excess of the cost of the investment over the Group's share of the fair value of the identifiable assets and liabilities of the investee is regarded as goodwill, which is included in the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised in equity as capital reserve in the period in which the investment is acquired.

2.26. Recent Indian Accounting Standards (Ind AS)

Ministry of Corporate Affairs("MCA") notifies new standard or amendments to the existing standards. There is no such notification which would have been applicable from April 01, 2024.

3. USE OF ESTIMATES AND JUDGEMENTS

In the application of the Group's accounting policies, which are described in note 2, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only the period of the revision and future periods if the revision affects both current and future periods.

Key sources of estimation uncertainty

In the process of applying the Group's accounting policies, management has made the following judgements based on estimates and assumptions, which have the significant effect on the amounts recognised in the financial statements:

A. Useful lives of property, plant and equipment, Investment Property and Intangible Asset

The Group reviews the useful life of Property, Plant and Equipment, Investment Property and Intangible Asset at the end of each reporting period. This re-assessment may result in change in depreciation expense in future periods.

B. Fair value measurements and valuation processes

Some of the Group's assets and liabilities are measured at fair value for financial reporting purposes. In estimating the fair value of an asset or a liability, the Group uses market-observable data to the extent it is available. Where Level 1 inputs are not available, the Group engages third party valuers, where required, to perform the valuation. Information about the valuation techniques and inputs used in determining the fair value of various assets, liabilities and share based payments are disclosed in the notes to the financial statements.

C. Actuarial Valuation

The determination of Group's liability towards defined benefit obligation to employees is made through independent actuarial valuation including determination of amounts to be recognised in the Statement of Profit and Loss and in other comprehensive income. Such valuation depends upon assumptions determined after taking into account inflation, seniority, promotion and other relevant factors such as supply and demand

factors in the employment market. Information about such valuation is provided in notes to the financial statements.

D. Taxes

Deferred tax assets are recognised for temporary differences to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

E. Determination of the timing of revenue recognition on the sale of completed and under development property

The Group has evaluated and generally concluded that the recognition of revenue over the period of time criteria are not met owing to non-enforceable right to payment for performance completed to date and, therefore, recognises revenue at a point in time. The Group has further evaluated and concluded that based on the analysis of the rights and obligations under the terms of the contracts relating to the sale of property, the revenue is to be recognised at a point in time when control transfers which coincides with receipt of Occupation Certificate.

F. Determination of performance obligations

With respect to the sale of property, the Group has evaluated and concluded that the goods and services transferred in each contract constitute a single performance obligation. In particular, the promised goods and services in contracts for the sale of property is to undertake development of property and obtaining the Occupation Certificate. Generally, the Group is responsible for all these goods and services and the overall management of the project. Although these goods and services are capable of being distinct, the Group accounts for them as a single performance obligation because they are not distinct in the context of the contract.

Financial Risk Management Framework

The Group's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk. In order to manage the aforementioned risks, the Group operates a risk management policy and a program that performs close monitoring of and responding to each risk factor.

CREDIT RISK

(i) Credit risk management

Credit risk refers to the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. Credit risk arises from trade receivables, cash and cash equivalents, mutual Funds & other financial assets.

Trade Receivables:

The Group's trade receivables include receivables on sale of residential flats and rent receivable. As per the Group's flat handover policy, a flat is handed over to a customer only upon payment of entire amount of consideration. The rent receivables are secured by security deposits obtained under the lease agreement. Thus, the Group is not exposed to any credit risk on receivables from sale of residential flats and rent receivables.

The concentration of credit risk is limited due to the fact that the customer base is large. The Group determines the allowance for expected credit losses based on historical loss experience adjusted to reflect current and estimated future economic conditions. Basis this assessment, the allowance for doubtful trade receivables as at 31st March, 2024 is considered adequate.

Cash and Cash Equivalents, Mutual Funds & Other Financial Assets

For banks and financial institutions, only high rated banks/institutions are accepted. The Group holds cash and cash equivalents with bank and financial institution counterparties, which are having highest safety ratings based on ratings published by various credit rating agencies. The Group considers that its cash and cash equivalents have low credit risk based on external credit ratings of the counterparties.

The Group's determines the allowance for expected credit losses based on historical loss experience adjusted to reflect current and estimated future economic conditions. Basis this assessment, the allowance for doubtful trade receivables as at 31st March, 2024 is considered adequate.

The Group holds mutual funds with financial institution counterparties, which are having highest safety ratings based on ratings published by various credit rating agencies. The Group considers that its mutual funds have low credit risk based on external credit ratings of the counterparties.

For Other Financial Assets, the Group assesses and manages credit risk based on reasonable and supportive forward looking information. Other financial assets are considered to be low credit risk exposure assets.

LIQUIDITY RISK

(i) Liquidity risk management

Ultimate responsibility for liquidity risk management rests with the board of directors, which has established an appropriate liquidity risk management framework for the management of the Group's short-term, medium-term and long-term funding and liquidity management requirements. The Group manages liquidity risk by maintaining adequate reserves, banking facilities and reserve borrowing facilities, by continuously monitoring forecast and actual cash flows, and by matching the maturity profiles of financial assets and liabilities.

(ii) Maturities of financial liabilities

The following tables detail the Group's remaining contractual maturity for its non-derivative financial liabilities with agreed repayment periods. The amount disclosed in the tables have been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay. The tables include both interest and principal cash flows.

MARKET RISK

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: currency risk, interest rate risk and other price risk such as equity price risk. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return. All such transactions are carried out within the guidelines set by the Board of Directors.

Future specific market movements cannot be normally predicted with reasonable accuracy.

Currency Risk

Foreign currency risk is the risk that the fair value or the future cash flows of an exposure will fluctuate because of changes in the foreign exchange rate. The Group undertakes few transactions denominated in foreign currencies only for availing certain services. Hence Foreign currency risk is not significant in comparison to company's operations.

Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Group's exposure to the risk of changes in market interest rates relates primarily to the Group's debt obligations with floating interest rates. The Group manages its interest rate risk by having a balanced portfolio of fixed and floating rate loans and borrowings.

Interest rate sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Group's loss before tax is affected through the impact on floating rate borrowings, as follows:

Increase / decrease in basis points	Currency	As at 31 st March, 2024 Effect on Profit / (loss) before tax (₹ In Lakhs)	As at 31 st March, 2023 Effect on Profit / (loss) before tax (₹ In Lakhs)

38. SEGMENT INFORMATION

The reportable segments of the Group are 'Projects, Project Management and Development' and 'Operating of Commercial Complexes'.

The segments are largely organised and managed separately according to the organisation structure that is designed based on the nature of business. Operating segments are reported in a manner consistent with the internal reporting provided to the Managing Director regarded as the Chief Operating Decision Maker ("CODM").

Description of each of the reportable segments for all periods presented, is as under:

- i) Projects, Project Management & Development: This Segment of the business includes income from sale of residential units across projects, project management and development in India.
- ii) Operating of Commercial Complexes: This Segment of the business includes rental income from commercial properties at Delhi.

The CODM evaluates the Group's performance and allocates resources based on an analysis of various performance indicators by operating segments. The CODM reviews revenue and gross profit as the performance indicator for all of the operating segments. The measurement of each segment's revenues, expenses and assets is consistent with the accounting policies that are used in preparation of the financial statements. Segment profit represents the profit before interest and tax.

Information regarding the Group's reportable segments is presented below:

Revenue from type of products and services

The operating segments are primarily based on nature of products and services and hence the Revenue from external customers of each segment is representative of revenue based on products and services.

Geographical Information

The Group operates in one reportable geographical segment i.e. "Within India". Hence, no separate geographical segment wise disclosure is applicable as per the requirements of Ind AS 108 Operating Segments.

Information about major customers

Revenues from transactions with a single external customer did not amount to 10 percent or more of the Company's revenues from external customers.

Segment revenue reported above represents revenue generated from external customers. There were no inter-segment sales in the current year as well as previous year.

39. EMPLOYEE BENEFITS

(a) Defined Contribution Plan

The Group's contribution to Provident Fund and Superannuation Fund aggregating ₹ 451.46 lakhs (2023 : ₹ 443.61 lakhs) has been recognised in the Statement of Profit or Loss under the head Employee Benefits Expense.

(b) Defined Benefit Plans:

Gratuity

The Group operates a gratuity plan covering qualifying employees. The benefit payable is the greater of the amount calculated as per the Payment of Gratuity Act, 1972 or the Group scheme applicable to the employee. The benefit vests upon completion of five years of continuous service and once vested it is payable to employees on retirement or on termination of employment. In case of death while in service, the gratuity is payable irrespective of vesting. The Group makes annual contribution to the group gratuity scheme administered by the Life Insurance Corporation of India through its Gratuity Trust Fund.

Through its defined benefit plans the Group is exposed to a number of risks, the most significant of which are detailed below:

Investment risk

The present value of the defined benefit plan liability is calculated using a discount rate which is determined by reference to market yields at the end of the reporting period on government bonds.

Interest risk

A decrease in the bond interest rate will increase the plan liability; however, this will be partially offset by an increase in the return on the plan's debt investments.

Longevity risk

The present value of defined benefit plan liability is calculated by reference to the best estimate of the mortality of plan participants both during and after their employment. An increase in the life expectancy of the plan participants will increase the plan's liability.

Salary risk

The present value of the defined benefit plan liability is calculated by reference to the future salaries of plan participants. As such, an increase in the salary of the plan participants will increase the plan's liability.

The significant actuarial assumptions used for the purposes of the actuarial valuations were as follows:

	Valuation as at	
	31-Mar-24	31-Mar-23
Discount rate(s)	7.18%	7.31%
Expected rate(s) of salary increase	10.00%	10%

IV. The Major categories of plan assets		
- Insurer managed funds (Non Quoted Value)	458.25	411.22

The sensitivity of the defined benefit obligation to changes in the weighted principal assumptions is:

Principal Assumptions		Changes in assumption (%)	(₹ In lakhs)	
			Impact on defined benefit obligation	
			Increase in assumption	Decrease in assumption
Discount rate	2024	1.00%	(22.87)	24.33
	2023	1.00%	(19.64)	20.86
Salary growth rate	2024	1.00%	23.76	(22.32)
	2023	1.00%	20.38	(19.12)

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance sheet.

The methods and types of assumptions used in preparing the sensitivity analyses did not change compared to previous year.

The Company expects to contribute ₹ NIL lakhs (31st March, 2023 ₹ NIL lakhs) to the gratuity trusts during the next financial year.

Deposits with Insurance companies	100%	100%
	100%	100%

The average expected future service considered for defined benefit obligation as at 31st March, 2024 is 4 years (31st March, 2023 - 4 years).

The Group's policy is driven by considerations of maximizing returns while ensuring credit quality of the debt instruments. The asset allocation for plan assets is determined based on investment criteria prescribed under the Indian Income Tax Act, 1961, and is also subject to other exposure limitations. The Group evaluates the risks, transaction costs and liquidity for potential investments. To measure plan asset performance, the Group compares actual returns for each asset category with published benchmarks.

The weighted average age considered for defined benefit obligation as at 31st March 2024 is in the range of 34.44 years- 39 years (31st March, 2023: 34.38 years- 40.75 years)

d) Undisclosed income

There is no income surrendered or disclosed as income during the current or previous year in the tax assessments under the Income Tax Act, 1961, that has not been recorded in the books of account.

e) Details of crypto currency or virtual currency

The Group has not traded or invested in crypto currency or virtual currency during the current or previous year.

f) Registration of Charges or satisfaction with Registrar of Companies (ROC)

There are no charges or satisfaction which are yet to be registered with the Registrar of Companies beyond the statutory period.

g) Audit Trail

As per the requirements of rule 3(1) of the Companies (Accounts) Rules 2014 the Company uses only such accounting softwares for maintaining its books of account that have a feature of recording audit trail of each and every transaction creating an edit log of each change made in the books of account along with the date when such changes were made and who made those changes within such accounting software. This feature of recording audit trail has operated throughout the year and was not tampered with during the year. However, in respect of an accounting software, audit trail was not enabled at the database level and in respect of another software the audit trail log for direct data changes at database level in the software is being maintained at any given point in time only for a period of six months. The company has established and maintained an adequate internal control framework over its financial reporting and based on its assessment, has concluded that the internal controls for the year ended March 31, 2024 were effective.

45. The Board of Directors of the Parent Company has recommended a dividend of ₹ 2.65 per share on Equity Share of ₹ 10 each (26.5 %) (31st March, 2023: ₹ 2.30 per share - 23%) subject to approval of members of the company at the forthcoming Annual General Meeting.

46. A Scheme of Merger by absorption was filed under section 230-232 of the Companies Act, 2013 with National Company Law Tribunal, Chennai bench (NCLT) in December 2021 by the subsidiaries of the Company, viz. Mahindra Integrated Township Ltd (MITL) and Mahindra Residential Developers Ltd (MRDL) for amalgamating with a joint venture Company,

Mahindra World City Developers Ltd. (MWCDL). The appointed date for the Scheme of Merger is April 01, 2022. NCLT has approved the said Scheme of Merger vide its Order dated December 09, 2022. The order is effective on December 30, 2022 i.e. the date of filing of certified copy of the order with the Registrar of Companies by MITL, MRDL. Pursuant to this, both MITL and MRDL stand dissolved without winding up.

The Parent has been legally advised that the MCA General circular No. 09/2019 dated 21st August, 2019 on Clarification under Section 232(6) of the Companies Act, 2013 is not applicable to the Parent as a shareholder and therefore has not been considered while accounting for the above scheme.

Consequently, the Parent has de-recognised the assets and liabilities of the subsidiaries at their carrying amounts at the effective date of the order i.e. December 30, 2022; and de-recognised the carrying amount of non-controlling interests in the former subsidiaries at the effective date of the order and recognised the fair value of the consideration received as per the Scheme of merger i.e Non Convertible Redeemable Preference Shares which has resulted an exceptional gain of ₹ 3,397.96 lakhs for the year ended 31st March, 2023. Pursuant to allotment of Non Convertible Redeemable Preference Shares, the Parent Company has accrued a premium amount of ₹ 116.63 lakhs as on 31st March, 2023.

BUSINESS RESPONSIBILITY AND SUSTAINABILITY REPORT

The world is facing the severe risk and impacts of 'extreme weather events, biodiversity loss and ecosystem collapse, natural resource shortages, critical change to earth systems, involuntary migration, pollution, cyber insecurity, and many others as highlighted in the Global Risk report 2024 by World Economic Forum. In such challenging times, it becomes more important for businesses to play a key role in addressing these risks faced by the community. As an early proponent of responsible business, Mahindra Lifespace Developers Limited has always placed sustainability at the heart of its business strategy, working for the well-being of the planet and all the stakeholders by 'Crafting a future with environmentally and socially responsible homes and industrial development'. In FY 2021-22, we were among the first few companies to voluntarily publish the Business Responsibility and Sustainability Report.

With its 100% green certified portfolio and commitment to make all new developments as Net Zero by 2030, Mahindra Lifespaces has India's 1st three Net Zero Energy and 1st two Net Zero Waste residential developments and continues its effort to develop green, innovative, and customer-focused solutions that are rooted in a legacy of trust and transparency and aligned with the organizational sustainability commitments.

Continuing its efforts in responsible governance practices and meeting sustainability commitments, Mahindra Lifespaces is publishing its 3rd Business Responsibility and Sustainability Report (BRSR), developed in accordance with SEBI's guidelines and the nine principles under 'National Guidelines on Responsible Business Conduct'. The BRSR follows the NGRBC principles on the environmental, social, and governance related responsibilities of business.

Principle 2: Businesses should provide goods and services in a manner that is sustainable and safe

ESSENTIAL INDICATORS

1. Percentage of R&D and capital expenditure (capex) investments in specific technologies to improve the environmental and social impacts of product and processes to total R&D and capex investments made by the entity, respectively.

	FY 2023-24	FY 2022-23	Details of improvements in Environmental and social impacts
Capex		-	
R & D	74 lakhs	101 Lakhs	Augmentation of research facility for advanced testing of energy efficient building materials on varied parameters Sky modelling - Increased accuracy of daylight data for optimizing WWR and VLT of the glazing. Daylight plugin tool developed - helps increase accuracy of daylight simulations to actual illuminance values

Apart from capital expenses, we also invest in R&D through Mahindra TERI Centre of Excellence (MTCoE) whose research outcomes are open to access for all stakeholders in the building and construction sector. Also, 1-3% of the total cost of construction in every project is invested in specific technologies or measures to improve the environmental and social impacts of our residential homes.

2. a. Does the entity have procedures in place for sustainable sourcing? (Yes/No)

Yes, Mahindra Lifespaces' integrates sustainability into sourcing and is driven by Green Supply Chain Management Policy (GSCM).

2. b. If yes, what percentage of inputs were sourced sustainably?

Over 80% of material by volume and cost

3. Describe the processes in place to safely reclaim your products for reusing, recycling, and disposing at the end of life, for (a) Plastics (including packaging), (b) E-waste, (c) Hazardous waste, and (d) other waste.

Since the lifecycle of our products is long-term (>50 years), the company is not involved in reusing, recycling of the developed products. We do handle construction & demotion and other waste generated during construction and demolition activity through partnership with authorized recyclers/waste handlers and reuse most of our construction waste material either onsite or offsite for land levelling in municipality authorized locations as applicable, aligned to our sustainability policy and Net Zero Waste commitment.

4. Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

No. With a 100% green certified portfolio and a Net Zero by 2030 commitment, we have processes in place to handle the waste generated during demolition, construction, and use phase of products (i.e., residential homes, and integrated cities and industrial clusters that we operate and maintain). Also, our Green Supply chain management policy encourages procurement of goods and services from vendors who recycle waste or scrap materials and recycle them to manufacture building materials. More details can be found in the integrated annual report section on 'Social and Relationship Capital' under 'Supply Chain Management' (Page no. 120).

LEADERSHIP INDICATORS

1. Has the entity conducted Life Cycle Perspective/Assessments (LCA) for any of its products (for manufacturing industry) or for its services (for service industry)? If yes, provide details in the following format?

NIC Code	Name of Product/ Service	% of total Turnover contributed	Boundary for which the Life Cycle Perspective/ Assessment was conducted	Whether conducted by independent external agency (Yes/No)	Results communicated in public domain (Yes/ No) If yes, provide the web-link
4100	Residential Building	0.5% of total product portfolio turnover	"Construction phase", "Use phase" (incl. Refurbishment) and "End of life"	Yes	No

2. If there are any significant social or environmental concerns and/or risks arising from production or disposal of your products / services, as identified in the Life Cycle Perspective/Assessments (LCA) or through any other means, briefly describe the same along with action taken to mitigate the same.

Name of Product / Service	Description of the risk / concern	Action Taken
-	-	-

The upfront embodied carbon from the LCA study was conducted in FY 24 for one of our projects as a pilot, and later extended to all our existing projects. There were no risks identified, except that upfront embodied carbon of the project was around 320 kgCO₂/m² which will be brought down drastically to 265 with use of alternative low carbon and recyclable materials.

3. Percentage of recycled or reused input material to total material (by value) used in production (for manufacturing industry) or providing services (for service industry).

Indicate Input Material	Recycled or reused input material to total material

Career development reviews and performance appraisals are done for all employees annually through the performance management system (PMS). Quarterly performance check-ins (PCIs) help employees and appraisers review the performance alignment with the set goals and Key Result Areas (KRAs), and deviations if any could be improved right upfront. 100% employees are covered in the performance appraisal.

10. Health and safety management system:

a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/No). If yes, the coverage of such a system?

Yes. Our Environment, Occupational Health, & Safety (EOHS) system covers all construction (residential) and operations and maintenance (Integrated Cities and Industrial Clusters) projects.

Weblink for EOHS policy

EOHS policy

b. What are the processes used to identify work-related hazards and assess risks on a routine and non-routine basis by the entity?

Our structured OHS management enables us to identify and mitigate risk at a preliminary stage, while deploying early warning systems to ensure a safe workplace. We have revised HIRA format by including the personnel involved in HIRA activity, legal & statutory references to ensure that legal & other statutory requirements are captured in HIRA process. The identified risks are represented through SMARRT (Safe Method and Risk Reduction Technique) card, which contains safety related information for the anticipated risk at the site. Every HIRA is prepared by teams who are well qualified and competent for ongoing activities on ground. The HIRA is updated based on learnings from Good Practices, Incidents & Accidents.

c. Whether you have processes for workers to report the work-related hazards and to remove themselves from such risks. (Y/N)

Yes

d. Do the employees/workers of the entity have access to non-occupational medical and healthcare services (Yes/No)?

Yes

11. Details of safety-related incidents, in the following format

Safety Incident/Number	Category	FY 2023-24	FY 2022-23
Lost Time Injury Frequency Rate (LTIFR) (per one-million-person hours worked)	Employees	0	0
	Workers	0	0

12. Describe the measures taken by the entity to ensure a safe and healthy workplace

Starting from a reactive organisation, we matured into a proactive one, perceiving risks and rectifying them systematically. Various initiatives have been implemented in FY 24. An Initiative of “MLDL Monthly OH&S” performance update was circulated to all projects and locations in identifying the OHS focus areas on monthly basis. Another initiative involved integration of safety aspects as part of functional induction to all new employees. Other initiatives which we continue to implement include - ‘Monsoon preparedness and action plan’ across projects to ensure that all precautions during monsoon like availability of equipment such as dewatering pumps, material enclosures to avoid wastage, proper drainage, and water channels check, etc. and monsoon action team is deployed at respective projects. Guidelines and escalation matrix is in place and monitored daily with daily meetings, trainings for all relevant stakeholders. Medical treatment and allied facilities were made available to all the stakeholders – workers, employees, management, and other stakeholders. We continued our collaboration with Jan Sahas, an NGO under its flagship program Migrants Resilience Collaborative (MRC) on their “Mission BOCW” project in FY 24. For more details, please refer ‘Social and Relationship’ capital of our annual integrated report (Page No. 105). Also, we are expanding the horizon to include human rights assessment and facilitation mechanism as a pilot across 3 sites in FY 25.

13. Number of complaints on the following made by employees:

	FY 2023-24			FY 2022-23		
	Filed during the year	Pending resolution at the end of year	Remarks	Filed during the year	Pending resolution at the end of year	Remarks

14. Assessments for the year

	% of your offices that were assessed (By entity or statutory authorities or third parties)
Health & Safety practices	100% (Mahindra Group Central Safety team, and internal safety team and project heads) and 50% (DNV - Sustainability Assurance)
Working Conditions	100% (Mahindra Group Central Safety team, and internal safety team and project heads)

15. Provide details of any corrective action taken or underway to address safety-related incidents (if any) and on significant risks / concerns arising from assessments of health and safety practices and working conditions.

Our 3rd party annual assurance on sustainability aspects (including safety) helps us streamline the data monitoring, recording process, and make the required changes in our SOP and policy. We continue to leverage and expand the scope of initiatives identified based on our past 3rd party assessments. One of them was use of DWM (Daily Work Management). DWM is a tool; leveraged to the maximum across the last 2 years to ensure focused inspection covering the safety and working condition within the project that is monitored, findings captured in the standard observation format, and status of compliance is reviewed in monthly safety meeting with all projects. Another corrective action incorporated across projects was mandatory

usage of 'rope grab fall arresters' to ensure fall protection for critical works in shafts, Rope Suspended platforms (RSPs), external works etc. Also, safety catch nets are provided for external works (window fixing, plumbing works, etc.), as a measure for fall protections. Quarterly OHS campaign is continued to address the significant risk pertaining to varied critical areas such as fall protection, fire & life safety, workplace equipment safety, happier workplace is healthier workplace, and many more.

LEADERSHIP INDICATORS

1. Does the entity extend any life insurance or any compensatory package in the event of death of (A) Employees (Y/N) (B) Workers (Y/N)?

Yes, Life insurance is extended to 100% of our employees, and compensatory package is extended in the event of death of employees as per the prevailing situation and management decision.

2. Provide the measures undertaken by the entity to ensure that statutory dues have been deducted and deposited by the value chain partners.

We have third-party consultants to ensure compliance to all the requirements. Compliances like ESI and PF for workers are deposited by the value chain partners on state government portal online. These compliances are assured and validated by the appointed third-party consultants.

3. Provide the number of employees having suffered high consequence work-related injury / ill-health / fatalities (as reported in Q11 of Essential Indicators above), who have been rehabilitated and placed in suitable employment or whose family members have been placed in suitable employment:

	Total no. of affected Employees		No. of employees that are rehabilitated and placed in suitable employment or whose family members have been placed in suitable employment	
	FY 2023-24	FY 2022-23	FY 2023-24	FY 2022-23
Employees	0	0	0	0
Workers	0	0	0	0

4. Does the entity provide transition assistance programmes to facilitate continued employability and the management of career endings resulting from retirement or termination of employment? (Yes/No)

Yes, the entity provides skill upgradation trainings throughout the year on diverse areas across different management/employee levels. Currently, there are no transition assistance programs to facilitate continued employability from retirement or termination of employment, but the skill upgradation trainings do help in smooth transition to new roles and organizations.

5. Details on assessment of value chain partners

	% of value chain partners (by value of business done with such partners) that were assessed
Health and safety practices	100% contract workers - through sustainability scorecard and safety scorecard
Working conditions	100% workers (100% projects)

6. Provide details of any correction action taken or underway to address significant risks/concerns arising from assessments of health and safety practices and working conditions of value chain partners.

Assessment of Health, Safety, and working conditions resulted in number of improvement and creative opportunities to implement unique initiatives across projects. Some of the corrective actions continued basis past assessments along with initiatives are as mentioned below,

1. **DWM (Daily Work Management)** - A tool introduced to ensure focused inspection covering all safety, health and working condition aspects.
2. **Work Permit revision** - Revised existing work permit systems to improve its effectiveness.
3. **Project OHS Evaluation** parameters revised to improve effectiveness of outcome and impact.
4. **BOCW forms** are introduced in confirmation with legal compliances.
5. **Monthly OHS Performance report** is evaluated, and actions are taken against improvement areas.
6. **Quarterly OHS campaigns** – to address one significant element on quarterly basis uniformly across all MLDL sites and minimizing the risks pertaining to that critical aspect.

Principle 4: Businesses should respect the interests of and be responsive to all its stakeholders

ESSENTIAL INDICATORS

1. Describe the processes for identifying key stakeholder groups of the entity.

We embrace a people-centric and stakeholder inclusive approach to creating value. This means that stakeholder engagement is integrated into every step of our value creation process. We are committed to understanding each stakeholder's concerns and then applying all relevant inputs to our decision-making to ensure value creation. We identify our stakeholders based on three key dimensions – importance and influence, physical proximity, and dependency factor. Identified stakeholder groups are then prioritised based on their ability to influence and be influenced by Mahindra Lifespaces.

2. List stakeholder groups identified as key for your entity and the frequency of engagement with each stakeholder group.

Refer section on 'Stakeholder Engagement and Materiality' in annual integrated report (Page no. 27)

LEADERSHIP INDICATORS

1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.

Feedback, concerns, solutions, initiatives around ESG or activities implemented to resolve any stakeholder concerns or problems is presented to the board through quarterly board notes, and monthly updates are given to senior leadership. The Risk Committee is updated with ESG risks identified over each quarter across project locations. Feedback, opinions, and suggestions from employees gathered annually through M-CARES survey and quarterly through pulse surveys is communicated to the Board accordingly. Customers are communicated on the E & S aspects of the product through Resident Assist - a user manual. Capacity building workshops on waste management conducted for customers, and feedback from these workshops is communicated to the board through board notes too, and risk identified through customer complaints is monitored and mitigated through customer query resolution, and same is communicated to the board and senior leadership through monthly and quarterly updates.

2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

Yes. Our formulated Decarbonization Business Charter (first of its kind for decarbonization of Indian building and construction

sector) was the resultant outcome of consultations with 150+ stakeholders in the building and construction value chain along with the support of other leading businesses. The learning series as part of the charter - "One Brick at a Time" is a series of webinars aimed to nudge the professionals associated with construction industry to actively pursue Net Zero Building Planning, Design, and construction practices in India. 15 capacity building workshops (in-person + virtual) were held for 600+ value chain partners from across 180+ firms in FY 24 as funded by SDC. Regular consultation with contractors and suppliers helped us understand the need to support each other in integrating ESG aspects across the value chain. This led to creation of Code of Conduct for our Suppliers and Contractors which is a continuous improvement process with 3 levels, and we assist our partners reach leadership level. As part of annual stakeholders meet, we consult our suppliers and contractors too. In FY 24, our annual stakeholders meet on "Materials Matter: Unlocking Concrete Ways to Decarbonize Building Materials" – Cement/Steel were the culprit as well as the ray of hope (through low carbon innovations) – 120+ change makers (in-person and online) covered 11 guest speakers and internal and external stakeholders learnt with us on ways to decarbonize materials. Our 'Mahindra TERI Centre of Excellence' a research project aimed towards building energy efficient solutions tailored for Indian climates, and the research findings from the project are available in the public domain for use to all the stakeholders. We also consult with our community partners as part of CSR and other social initiatives to understand the need, and deploy various projects under environment, women empowerment, and girl child education. We consult with our customers too across businesses, and consultation with industrial customers has helped us in our climate positive development journey at MWC Jaipur through installation of rooftop solar by our customers with current capacity of 12+ MWp.

3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/marginalised stakeholder groups.

Construction activities involves various environmental and social impacts such as impact on air, noise, and water quality, and related health impacts. The population in the vicinity of our projects such as onsite workers, neighbouring residents, our onsite customers (in case of occupied residential towers) are most vulnerable to the impacts of the same.

Being 100% green certified and ISO certified company, Mahindra Lifespaces adopts sustainable construction practices and processes in form of Standard Operating Procedures (SOPs) to mitigate or resolve any impacts. There have been instances of concerns from these vulnerable groups at project locations, and our continuous engagement and support has helped resolve them without any adverse impact. For Example, extreme weather events such as flooding due to heavy rainfall or extreme high temperatures poses health risk to our workers on-site. Provision of support in the form of worker welfare programs such as health drinks during extreme high temperatures, working indoors, helped reduce the social impact. We also work with our NGO partner in facilitating the government social welfare schemes for our construction workers as part of Mission BoCW. Construction noise due to heavy equipment impacted our customers (in handed over buildings) posed a challenge due to work stoppage and was resolved through value engineering such as use of insulation and padding. Pollution, being a major problem in FY 24, we deployed real-time Air Quality Index (AQI) monitors to understand pan India site AQI levels on a centralized dashboard and take decisions and actions accordingly.

LEADERSHIP INDICATORS

1. Details of a business process being modified / introduced as a result of addressing human rights grievances/ complaints.

For complete details, please refer 'Essential Indicators - Q6 under 'PRINCIPLE 3 - Businesses should respect and promote the well-being of all employees, including those in their value chains'

2. Details of the scope and coverage of any human rights due diligence conducted.

MLDL covers all the human rights aspects which include the right to life and liberty, freedom from slavery, freedom of opinion and expression, the right to work and education, equal opportunity and prevention of sexual harassment.

3. Is the premise/office of the entity accessible to differently abled visitors, as per the requirements of the Rights of Persons with Disabilities Act, 2016?

For complete details, please refer 'Essential Indicators – Q3 under 'PRINCIPLE 3 - Businesses should respect and promote the well-being of all employees, including those in their value chains'

4. Details on assessment of value chain partners

	% of value chain partners (by value of business done with such partners) that were assessed

5. Provide details of any corrective actions taken or underway to address significant risks / concerns arising from the assessments at Question 4 above.

In FY 24, ~64% of all our suppliers who completed the self-assessment on ESG parameters in FY 24 were analysed on ESG aspects. More than 66% of these suppliers had water, and waste reduction measures and has integrated use of renewable energy in their operations; more than 90% of these suppliers has measures in place to avoid worker discrimination, ensure parity pay, avoid harassment, and more than 85% has policies and procedures in place to ensure ethical business practices. In FY 24, we extended the ESG assessment through physical audit of supplier premises and completed 7 factory audits on ESG. - 15 capacity building workshops (in-person + virtual) for 600+ value chain partners (both on onboarded partners and external) from across 180+ firms as part of the sectoral decarbonization business charter was conducted for all stakeholders in the building and construction sector which included our internal suppliers and contractors too. Code of Conduct is now part of the general contractual conditions for all suppliers and contractors and need to be adhered for a long-term relationship with Mahindra Lifespaces. The code of conduct also provides an opportunity to our value chain partners to improve on the areas on environment, labour and business ethics with support and complete assistance from Mahindra Lifespaces aided through capacity building and training sessions.

Principle 6: Businesses should respect and make efforts to protect and restore the environment

ESSENTIAL INDICATORS

1. Details of total energy consumption (in Joules or multiples) and energy intensity.

Refer our ESG Data book available on the company website - [Final Data Book - IR 2024.xlsx](#)

2. Does the entity have any sites/facilities identified as designated consumers (DCs) under the Performance, Achieve and Trade (PAT) Scheme of the Government of India? (Y/N) If yes, disclose whether targets set under the PAT scheme have been achieved. In case targets have not been achieved, provide the remedial action taken, if any.

Though PAT is still not applicable to us, we ensure that legislations related to energy efficiency as applicable to the sectors are adhered and leveraged to maximize energy and related cost savings. We undertake activities and implement initiatives to increase the energy efficiency, as aligned with our sustainability commitments on Carbon Neutrality and Science Based Targets.

3. Provide details of the following disclosures related to water

Refer our ESG Data book available on the company website - [Final Data Book - IR 2024.xlsx](#)

4. Has the entity implemented a mechanism for Zero Liquid Discharge? If yes, provide details of its coverage and implementation.

Mahindra Lifespaces has committed to make all its new developments as Net Zero by 2030, which includes Net Zero Water and ensure water secure developments by 2030 in case of its Integrated City and Industrial cluster businesses. Aligned with its Net Zero Water strategy, demand for freshwater is reduced through provision of low flow fixtures, an onsite Sewage treatment plant that treats sewage water for reuse in flushing and gardening, and a rainwater harvesting system to store and reuse or recharge the groundwater aquifers through recharge pits (as per feasibility), thereby making our projects Zero Liquid Discharge (ZLD) sites. In our IC&IC business, wastewater from industrial customers and self-use is treated at our onsite STPs, as mandated by the Central Pollution Control Board, and reused for flushing and gardening within the city and industrial clusters, thus ensuring zero liquid discharge.

5. Please provide details of air emissions (other than GHG emissions) by the entity.

Refer our ESG Data book available on the company website - [Final Data Book - IR 2024.xlsx](#)

6. Provide details of greenhouse gas emissions (Scope 1 and Scope 2 emissions) & its intensity.

Refer our ESG Data book available on the company website - [Final Data Book - IR 2024.xlsx](#)

7. Does the entity have any project related to reducing Green House Gas emission? If yes, then provide details.

Yes, our sustainability commitments aligned to emission reduction include - Carbon Neutrality by 2040 with Science based targets (SBT) as an enabler along with use of carbon offsets. In FY 22, we committed to make all our new developments Net Zero by 2030. To aid the achievement of these commitments, we have a detailed carbon neutrality or emission reduction action plan approved by our MD&CEO, and our 5-year sustainability roadmap 2025-2030 for both residential and IC&IC businesses aligned to the material issues and sustainability commitments. The roadmap helps track and monitor the progress against the set targets and formulate the action plan and devise initiatives accordingly. We monitor, measure, and mitigate the GHG emissions across all the project stages under relevant scope for both residential and IC & IC business through the mitigation strategies - Demand Reduction, Enhance Energy Efficiency, Integrate Renewables, Sequester Carbon as outlined in carbon action plan.

For detailed GHG emissions reduction initiatives refer Natural Capital chapter in our Annual Integrated report (Page no. 70)

8. Provide details related to waste management by the entity, in the following format:

Refer our ESG Data book available on the company website - [Final Data Book - IR 2024.xlsx](#)

9. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

We, at Mahindra Lifespaces, employ innovative techniques to minimize waste generated during three stages of a project namely: design, construction, and occupancy. We minimize waste production by value engineering design interventions, reusing, recycling, and safe disposal at designated sites during construction and zero waste to landfill approach during use phase. To minimize the impact of these waste materials, we have incorporated principles of circularity in our operations and aligned our material procurement strategy with [Green Supply Chain Management \(GSCM\) policy](#). Also, we use low VOC (volatile organic compound) paints and tile adhesives, and green chemicals for housekeeping. For detailed waste management initiatives refer Natural Capital chapter in our Annual Integrated report (Page no. 85)

10. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals/clearances are required, please specify details in the following format:

S. No.	Location of operations/offices	Type of the conditions of	Whether the conditions of environmental approval / clearance are being complied with? (Y/N) If no, the reasons thereof and corrective action taken, if any
NA	NA	NA	NA

None of the projects are in ecologically sensitive areas. Our land selection process ensures screening out areas near to ecologically sensitive zones. We do undertake environmental clearances for our projects aligned with the regulatory requirements.

11. Details of environmental impact assessments of projects undertaken by the entity based on applicable laws, in the current financial year:

Name and brief details of project	EIA Notification No	Date	Whether conducted by independent external agency (Yes / No)	Results communicated in public domain (Yes / No)	Relevant Web Link
NA	NA	NA	NA	NA	NA

Environmental and Social impact assessment (ESIA) is conducted for our Integrated Cities and Industrial Clusters (IC & IC). We do conduct hydrology and hydrogeological studies, soil testing, and other environmental tests for selective projects based on preliminary due-diligence, and make necessary interventions aligned with our sustainability commitments (on Net Zero Water, Net Zero Energy, etc.). As 4 of our IC & IC locations are either developed or currently under development, EIA or ESIA assessments were conducted before the commencement of development. In FY 24, investor backed Environmental and Social assessment was conducted for 1 residential project (social aspects involve worker related impact assessment) and due diligence for 2 of our IC & IC business.

12. Is the entity compliant with the applicable environmental law/regulations/guidelines in India, such as the Water (Prevention and Control of Pollution) Act, Air (Prevention and Control of Pollution) Act, and Environment Protection Act and Rules thereunder (Y/N). If not, provide details of all such non-compliances.

S. No.	Specify the law /regulation / guidelines	Provide details of the non-compliance	Any fines / penalties / action taken by regulatory agencies such as pollution control	Corrective action taken, if any
NA	NA	NA	NA	NA

Construction or development of any project does not commence without the Environmental Clearance followed with Consent to Establish and Operate (towards the operational phase). All the compliance conditions are monitored and measured throughout the project tenure with 6-monthly compliance reports sent to state pollution control board and measured monthly/quarterly across our projects through our internal sustainability maturity assessment model for all project throughout the project tenure. Non-compliances are tracked through the ESG risk assessment done quarterly and actions taken accordingly. There have been no non-compliances so far with respect to environmental regulations. Also, third party annual sustainability assurance helps us verify the non-compliances if any and undertake necessary actions.

- 7. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web-link**
As part of the Environmental clearance, we provide a detailed Environment Management Plan (EMP) containing the list of construction activities, their impact and associated mitigation measures across construction and operation phase. This is also in line with our ISO 14001 – EMS requirements too. Also, every project site requires a Disaster Management Plan as per EC requirements. The Disaster Management Plan includes Emergency Preparedness Plan, Emergency Response Team, Emergency Communication, Emergency Responsibilities, Emergency Facilities, and Emergency Actions.
- 8. Disclose any significant adverse impact to the environment, arising from the value chain of the entity. What mitigation or adaptation measures have been taken by the entity in this regard?**
In FY 24, there have been no adverse impacts to the environment from any our projects across India. Any probable environmental risk and impact is captured regularly at project locations and in our ESG risk register with financial quantification and mitigation measures are undertaken accordingly.
- 9. Percentage of value chain partners (by value of business done with such partners) that were assessed for**

environmental impacts.

NA	NA	NA	NA	NA	NA	NA

Rehabilitation and Resettlement (R&R) is applicable to Integrated Cities and Industrial Clusters (IC & IC) business of Mahindra Lifespaces, as we aggregate land through government and the community is included in the development process. For Example, MWC Chennai is an inclusive development. As 4 of our IC & IC locations are either developed or currently under development, Rehabilitation and Resettlement (R&R) was undertaken before commencement of development and not applicable for FY 24 as no new developments were undertaken.

3. Describe the mechanisms to receive and redress grievances of the community.

For complete details, please refer 'Essential Indicators - Q6 under *PRINCIPLE 3 – Businesses should respect and promote the well-being of all employees, including those in their value chains*'

For more details, please refer – Q11 of Essential Indicators under Principle 6: Businesses should respect and make efforts to protect and restore the environment.

2. Provide the following information on CSR projects undertaken by your entity in designated aspirational districts as identified by government bodies:

S. No.	State	Aspirational District	Amount Spent (In INR)
NA	NA	NA	NA

As our CSR projects and activities are conducted within the vicinity of the projects that we operate, we do not undertake

activities in designated aspirational districts as identified by government bodies unless it coincides with vicinity of our operations. Since MWC Chennai & Jaipur are PPP models with respective governments, few of our CSR projects are conducted in alignment with government recommendations too.

3. (a) Do you have a preferential procurement policy where you give preference to purchase from suppliers comprising marginalised / vulnerable groups? (Yes/No)

We do not have any restrictions yet on the type of material suppliers but ensure to influence reduction in environmental and health impact due to the purchased materials.

(b) From which marginalised / vulnerable groups do you procure?

As stated, Mahindra Lifespaces procurement strategy is governed by the Green Supply Chain Management Policy (GSCM) which gives preference to environmental and health impacts of the procured materials and yet to include screening criteria based on the type of suppliers.

(c) What percentage of total procurement (by value) does it constitute?

NA

4. Details of the benefits derived and shared from the intellectual properties owned or acquired by your entity (in the current financial year), based on traditional knowledge.

Principle 9: Businesses should engage with and provide value to their consumers in a responsible manner.

ESSENTIAL INDICATORS

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

We have a strong grievance mechanism to address customer complaints and concerns. We hear our customers by following ways:

- **Media systems:** through various mediums such as M-Life/SFDC, coalesce (meets with our industrial customers), emails, websites, social media, telephone, helpdesk, calls, and the likes.
- **Customer interaction:** happens either on a fortnightly or monthly basis wherein the customers share their experiences and grievances, and discussions are held on the resolution and improvisation measures.
- **Service requests:** consumer requests for a service or a complaint where a desired work is unfulfilled within the stipulated timeframe. Service Requests are raised and resolved using platforms such as M-Life/SFDC or calls, and emails.

Complaints/Requests are resolved through a structured complaints matrix involving the complaints manager and others. Customer complaints or queries involving inputs required from cross-functional teams are communicated accordingly to the customer along with relevant resolution time.

6. Provide details of any corrective actions taken or underway on issues relating to advertising, and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty / action taken by regulatory authorities on safety of products / services.

In a bid to service our customers satisfactorily, we have deployed best-in-class IT solutions like a zero-touch product launch with an end-to-end online booking process. We have in place a Privacy Policy to guide us on data security and customer privacy. Individual identifiable information is not disclosed to any third party without permission. We engage with customers periodically to gauge through customer satisfaction surveys and understand their experience and satisfaction. At Mahindra Lifespaces, our business functions collaborate to enhance the customer experience using the latest available technologies. Our senior management is involved in reviewing our strategy, initiatives, and decisions periodically. We encourage cross-functional engagement exercises to improve service quality and identify areas of improvement. For more details, please refer 'Social and Relationship Capital' section of our annual integrated report under 'Customer relationship and Communication' section (Page no. 121).

LEADERSHIP INDICATORS

1. Channels/platforms where information on products and services of the entity can be accessed (provide a web link, if available).

All the information about products and services of the entity is available in the public domain on the website. Also, for our business partners on the sales side, we have a dedicated mobile application “HappiEdge” which keeps them up to date with all our project information, latest schemes, communication, incentive plans and many others.

Link to access the website <https://www.mahindralifespaces.com/>

2. Steps taken to inform and educate consumers about safe and responsible usage of products and/or services.

Customer is educated about the sustainability features and usage of the same through the ‘resident assist’, a consumer guide on the common area amenities and their way of working and usage. Safe and Responsible use of the services is also communicated through signages in the facility. We also conduct customer workshops on various sustainability aspects such as waste management, energy management, etc. to bring about behavioural changes to enjoy greater savings in cost and resources. Also, we have created sustainability dashboards (available on our website) to educate and quantify for customers, the benefits of buying a sustainable home – for example this includes - how much onsite solar can reduce their maintenance bills, how much freshwater dependency is reduced through various water saving measures provided in the product, and the likes.

3. Mechanisms in place to inform consumers of any risk of disruption/discontinuation of essential services.

From the time the customers/residents occupy the property, Mahindra Lifespaces manages the complete maintenance of the project including all day-to-day grievances of the occupants. During the initial two years of DLP (Defect liability period), the company handholds the occupants till the time the resident welfare committee is constituted, which may then choose to handover the maintenance management to a third party or choose to be with the company as an external maintenance management party on completion of 2 years.

4. Does the entity display product information on the product over and above what is mandated as per local laws? (Yes/No/Not Applicable) If yes, provide details in brief. Did your entity carry out any survey with regard to consumer satisfaction relating to the major products/services of the entity, significant locations of operation of the entity or the entity as a whole? (Yes/No)

Yes, the entity displays the information about the product and its various sustainability & other features within the product (residential homes and IC & IC) and also on its website. As part of our agreement draft, we take customer’s consent on parameters specific to environmental attributes provided in the product. Customers are educated on sustainability features at the time of sales (brochures) and final possession (verbal discussion). The product brochures also inform the customer about the sustainability features, IGBC rating and the related customer benefits. Provision of signages within the product also guides the customers to identify the features and its usage. Customer satisfaction is ensured by having continuous engagement right from the day of possession till society handover, timely response to their grievances and prompt service support. We do take feedback from our customers through customer surveys. This customer relationship assessment conducted on annual basis helps track the needs, requirements, and expectations from customers of Mahindra Lifespaces. These feedbacks provide an opportunity to us to understand the customer pain points and liking of the sustainability and other features and thereby improve on the offerings and processes. In FY 24 our CaPS score increased by 12 basis points as compared to FY 23, and there is much more to work on to improve further.

5. Provide the following information relating to data breaches:

a. Number of instances of data breaches along-with impact

b. Percentage of data breaches involving personally identifiable information of customers

There have been zero incidents of any kind of data breaches in FY 24 and has been possible due to cyber security policy and processes in place to deal with such scenarios.

INDEPENDENT ASSURANCE STATEMENT

To,

**The Board of Directors,
Mahindra Lifespace Developers Limited.
Mumbai, India**

Introduction

DNV Business Assurance India Private Limited ('DNV'), has been commissioned by Mahindra Lifespace Developers Limited (Corporate Identity Number L45200MH1999PLC118949, hereafter referred to as 'MLDL' or 'the Company') to undertake an independent assurance of the Company's non-financial disclosures in its Integrated Report for the FY 23-24.

The disclosures have been prepared by MLDL.

- "in accordance" to requirements of Global Reporting Initiative (GRI) sustainability reporting standards 2021
- Integrated Reporting (<IR>) framework of the International Integrated Reporting Council (IIRC)- with the KPIs aligned to GRI standards 2021.
- United Nations Sustainable Development Goals (SDGs)
- Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standard.

DNV has carried out the assurance engagement in accordance with DNV's VeriSustain™ protocol, V6.0, which is based on our professional experience and international assurance practice, and AccountAbility's AA1000 Assurance Standard (AA1000AS v3). DNV's Verisustain™ Protocol has been developed in accordance with the most widely accepted reporting and assurance standards. DNV team has also followed the ISO 14064-3 - *Specification with guidance for the verification and validation of greenhouse gas statements*; ISO 14046 - *Environmental management - Water footprint - Principles, requirements, and guidelines* to evaluate indicators with respect to Greenhouse gases and water disclosures respectively in the assessment process.

The intended user of this assurance statement is the Management of MLDL ('the Management').

DNV carried our Type 2 Moderate level of assurance of non-financial sustainability related disclosures in sustainability report section and BRSR section of IR FY 23-24. Details of Scope are mentioned in the section 'Scope, Boundary and Limitations'. We have not performed any work, and do not express any conclusion, on any other information that may be published outside of the Report and/or on Company's website for the current reporting period.

Responsibilities of the Management of MLDL and of the Assurance Provider

The Management of MLDL has the sole responsibility for the preparation of the Report and is responsible for all information disclosed in the Report. The company is responsible for maintaining processes and procedures for collecting, analyzing and reporting the information and also, ensuring the quality and consistency of the information presented in the Report. MLDL is also responsible for ensuring the maintenance and integrity of its website and any referenced disclosures on their website. In performing this assurance work, DNV's responsibility is to the Management of the Company; however, this statement represents our independent opinion and is intended to inform the outcome of the assurance to the stakeholders of the Company.

Scope, Boundary and Limitations

The agreed scope of work included information on non- financial performance which were disclosed in the Report prepared by MLDL based on GRI Topic-specific Standards for the identified material topics for the activities undertaken by the Company during the reporting period 01/04/2023 to 31/03/2024. The reported topic boundaries of non-financial performance are based on the internal and external materiality assessment covering Company's operations as brought out in the section 'Reporting boundary and period' of the report.

The scope of work as agreed is a Limited level of assurance of the GRI disclosures indicators in the IR report, assurance was carried out for the indicators disclosures as mentioned in Annexure I.

Boundary covers the performance of MLDL operations that fall under the direct operational control of the Company's Legal structure. Based on the agreed scope with the Company, the boundary covers the operations of MLDL across all locations.

Inherent Limitation(s):

DNV's assurance engagements are based on the assumption that the data and information provided by the Company to us as part of our review have been provided in good faith, are true, and is free from material misstatements.

The assurance scope has the following limitations:

- The assurance engagement considers an uncertainty of $\pm 5\%$ based on materiality threshold for estimation/measurement errors and omissions.
- DNV has not been involved in evaluation or assessment of any financial data/performance of the company. DNV opinion on financial disclosures relies on the third party audited financial reports of the Company. DNV does not take any responsibility of the financial data reported in the audited financial reports of the Company.
- The assessment is limited to data and information within the defined Reporting Period. Any data outside this period is not considered within the scope of assurance.
- Data outside the operations specified in the assurance boundary is excluded from the assurance, unless explicitly mentioned otherwise in this statement.
- The assurance does not cover the Company's statements that express opinions, claims, beliefs, aspirations, expectations, aims, or future intentions. Additionally, assertions related to Intellectual Property Rights and other competitive issues are beyond the scope of this assurance.
- The assessment does not include a review of the Company's strategy, or other related linkages expressed in the Report. These aspects are not within the scope of the assurance engagement.
- The assurance does not extend to mapping the Report with reporting frameworks other than those specifically mentioned. Any assessments or comparisons with frameworks beyond the specified ones are not considered in this engagement.
- Aspects of the Report that fall outside the mentioned scope and boundary are not subject to assurance. The assessment is limited to the defined parameters.
- The assurance engagement does not include a review of legal compliances. Compliance with legal requirements is not within the scope of this assurance, and the Company is responsible for ensuring adherence to relevant laws.

DNV expressly disclaims any liability or co-responsibility for any decision a person or an entity may make based on this Independent Assurance Statement.

Assurance process

As part of the assurance process, a multi-disciplinary team of assurance specialists performed assurance work for selected sites of MLDL. We adopted a risk-based approach, that is, we concentrated our assurance efforts on the issues of high material relevance to the Company's business and its key stakeholders. We carried out the following activities:

1. Reviewed the disclosures in the report. Our focus included general disclosures, management processes, principle wise performance (essential indicators, and leadership indicators) and any other key metrics specified under the reporting framework.
2. Understanding the key systems, processes and controls for collecting, managing and reporting the non-financial disclosures in report.
3. Walk-through of key data sets. Understand and test, on a sample basis, the processes used to adhere to and evaluate adherence to the reporting principles.
4. Collect and evaluate documentary evidence and management representations supporting adherence to the reporting principles.
5. Interviews with the senior managers responsible for management of disclosures. We were free to choose interviewees and interviewed those with overall responsibility of monitoring, data collation and reporting the selected GRI disclosures.
6. DNV audit team conducted on-site audits for corporate offices and sites (mentioned in Annexure II). Sample based assessment of site-specific data disclosures was carried out. We were free to choose sites for conducting our assessment.

7. Reviewed the process of reporting as defined in the assessment criteria.

Conclusion

Principles of AA1000 Accountability Principles Standard (AA1000APS (2018)

1. Inclusivity

The participation of stakeholders in developing and achieving an accountable and strategic response to Sustainability.

The Report brings out the stakeholders who have been identified as significant to MLDL, as well as the modes of engagement established by the Company to interact with these stakeholder groups. The key topics of concern and needs of each stakeholder group which have been identified through these channels of engagement are further brought out in the Report.

Nothing has come to our attention to suggest that the Report does not meet the requirements related to the Principle of Stakeholder Inclusiveness.

2. Materiality

The process of determining the issues that are most relevant to an organization and its stakeholders.

The Report explains out the materiality assessment process carried out by the Company which has considered concerns of internal and external stakeholders, and inputs from peers and the industry, as well as issues of relevance in terms of impact for MLDL's business. The list of topics has been prioritized, reviewed and validated, and the Company has indicated that there is no significant change in material topics from the previous reporting period.

Nothing has come to our attention to suggest that the Report does not meet the requirements related to the Principle of Materiality.

3. Responsiveness

The extent to which an organization responds to stakeholder issues.

The Report adequately brings out the Company's policies, strategies, management systems and governance mechanisms in place to respond to topics identified as material and significant concerns of key stakeholder groups.

Nothing has come to our attention to believe that the Report does not meet the requirements related to the Principle of Responsiveness.

4. Impact

The level to which an organisation monitors, measures and is accountable for how its actions affect its broader ecosystems.

The Report brings out the key performance metrics, surveys and management processes used by MLDL to monitor, measure and evaluate its significant direct and indirect impacts linked to identified material topics across the Company, its significant value chain entities and key stakeholder groups.

Nothing has come to our attention to suggest that the Report does not meet the requirements related to the Principle of Impact.

5. Reliability/Accuracy

The accuracy and comparability of information presented in the report, as well as the quality of underlying data management systems.

The Report brings out the systems and processes that the Company has set in place to capture and report its performance related to identified material topics across its reporting boundary. The majority of information mapped with data verified through our assessments with MLDL's management teams and process owners at the Head Office and sampled sites within the boundary of the Report were found to be fairly accurate and reliable. Some of the data inaccuracies identified in the report during the verification process were found to be attributable to transcription, interpretation, and aggregation errors. These data inaccuracies have been communicated for correction and the related disclosures were reviewed post correction.

Nothing has come to our attention to believe that the Report does not meet the principle of Reliability and Accuracy.

Additional principles as per DNV VeriSustain

6. Completeness

How much of all the information that has been identified as material to the organization and its stakeholders is reported?

Page 4 of 6

The Report brings out the Company's performance, strategies and approaches related to the environmental, social and governance issues that it has identified as material for its operational locations coming under the boundary of the report, for the chosen reporting period while applying and considering the requirements of Principle of Completeness.

Nothing has come to our attention to suggest that the Report does not meet the Principle of Completeness with respect to scope, boundary and time.

7. Neutrality/Balance

The extent to which a report provides a balanced account of an organization's performance, delivered in a neutral tone.

The Report brings out the disclosures related to MLDL's performance during the reporting period in a neutral tone in terms of content and presentation, while considering the overall macroeconomic and industry environment.

Nothing has come to our attention to suggest that the Report does not meet the requirements related to the Principle of Neutrality.

Statement of Competence and Independence

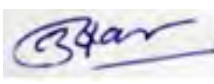

DNV applies its own management standards and compliance policies for quality control, which are based on the principles enclosed within ISO IEC 17029:2019 - *Conformity assessment - General principles are requirements for validation and verification bodies*, and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards, and applicable legal and regulatory requirements.

We have complied with the DNV Code of Conduct¹ during the assurance engagement. DNV's established policies and procedures are designed to ensure that DNV, its personnel and, where applicable, others are subject to independence requirements (including personnel of other entities of DNV) and maintain independence where required by relevant ethical requirements. This engagement work was carried out by an independent team of sustainability assurance professionals. DNV was not involved in the preparation of any statements or data included in the Report except for this Assurance Statement for internal use of MLDL.

Purpose and Restriction on Distribution and Use

This assurance statement, including our conclusion has been prepared solely for the Company in accordance with the agreement between us. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Management of the Company for our work or this report.

Mahindra Group Sustainability Mandate MLDL's Focus Areas

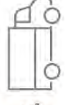

Ambition: Global ESG Leader

Vision: Together we Rise for Planet Positive

Greening Ourselves

- Net Zero on scope 1+2 emissions**
(Energy efficiency and green energy)

- Net Zero on water and waste**
(Reduce - water demand (e.g., use curing compound, rainwater harvesting & use)
Reuse - treated wastewater, C&D waste
Recycle - wastewater, C&D waste)

- Material circularity**
(e.g., GGBS¹/fly ash replaces cement in concrete, use of secondary steel, aluminium formwork with multiple reuse)

Decarbonizing Our Industries (addressing Scope 3)

- Green portfolio transition**
(100% Green certified buildings → shift towards Net Zero buildings)

- Net Zero transition - suppliers support**
(Micro-solutions for suppliers via DBC², & MTCoE³; for contractors – energy efficiency e.g., use of electric concrete pumps replacing diesel, etc.)

Industry circularity
(e.g. - auto recycling)

Rejuvenating Nature

- Promoting regenerative agriculture**
(via improved farming techniques)

- Afforestation**
(Landscaping & planting for green community)

- Biodiversity Conservation**
(Site flora and fauna preservation & restoration)
