Chairman’s Statement

Dear Members,

The year began with the Omicron variant of corona virus, impending climate concerns, the global geopolitical developments, such as the Russia-Ukraine war. Like the rest of the world, India was impacted by decadal high commodity prices, monetary policy tightening and a growth slowdown. Despite that India remained steadfast, becoming the fifth largest economy of the world. India’s ability to navigate these headwinds and strike a balance between managing inflation and sustaining growth has been globally acknowledged. The World Bank in its latest India Development Update Report titled **“Navigating the Storm”, stated that India’s economy has demonstrated resilience despite a challenging global external environment.**

2022 was an extraordinary year, where adversities were plethora, yet your Company displayed **‘Consistency in the face of storm’**, combating volatilities, through thoughtful strategies and execution, that kept the growth engine robust. It was a year, where we **grew responsibly together through resonant performance, strong brands, inspired people, empowered communities** and with a strong **commitment to sustainability.**

India is among the fastest growing markets for Nestlé. Innovation continues to be an important element of growth bringing diversified portfolio of strong brands. Your Company delivered highest double-digit growth in a decade led by sustained volume and mix led growth, leading to a strong value growth. This vindicates the consumer’s trust in brands, tenacity of partners and resilience of your Company to ensure that products and product services stay relevant, resonant and accessible to consumers across India.

Premiumization is one of the growth engines that will lead to future acceleration of the business. Your Company acquired PURINA Petcare business, that delivers nutrition to pets and launched globally renowned GERBER cereals catering to the nutrition needs of toddler’s segment. GERBER cereals are ‘Made in India’ and ‘Made for India’.

Your Company launched its first ever ‘direct to consumer’ (D2C) platform – www.mynestle.in, that offers products manufactured by your Company in India. It remained at the forefront of data and analytics led decision-making by scaling digital capabilities, unlocking new insights, anticipating trends and launching new product variants. By sharpening its geographic focus and increasing distribution points, your Company sustained its momentum on the strong RURBAN-focussed strategy and piloted Project Swabhimaan to empower rural women through entrepreneurship.

It was a matter of great privilege to host the Chairman of the Board, Mr. Paul Bulcke, Global CEO, Mark Schneider and the Board of Directors of Nestlé S.A. in September 2022. They commended on the strong sustained business performance and the deep community and societal footprint of your Company. This gave us the opportunity to showcase R&D capabilities in India as well as our

efforts to improve nutrition outcomes using local grains such as millets. The Global Board’s strong support for accelerating investment and business growth in India is a testament to the positive trajectory of our efforts.

Nestlé is fundamentally a science based and technology led Company and its reputation comes from its capability to bring science based nutritional solutions to the forefront. Nestlé S.A. continued to invest in R&D capabilities to make its portfolio more nutritious and sustainable through localization of various ingredients, recipes, spices and collaborative partnerships with start-ups that are good for you and good for the planet.

People are the most valuable asset; they are the heartbeat of your Company. This year, colleagues were welcomed back to office with the hope of engaging with them in the pre-pandemic ways of working, combining individual excellence with team strength, and with a promise of new possibilities.

Sustainability is emblematic of our commitment; your Company aspires to protect and restore the planet’s resources by accelerating its sustainability efforts. Initiatives on climate, packaging, sourcing and water remained resolute. Your Company continued working with coffee farmers as part of the NESCAFÉ Plan, to reduce the amount of water when growing coffee crop. Your Company continued partnering with dairy farmers on environmental sustainability programmes and touching the lives of spice farmers, with a focus on responsible sourcing, traceability and transparency, through the MAGGI Spice Plan. Strengthening the brands’ climate commitment, KITKAT Ecobreaks #Breaksforgood campaign focussed on reducing the use of wasteful plastics by urging the youth to give the planet a break and placing 100 recycled benches, across popular youth hangouts and colleges.

As a testament of its pioneering work, your Company was recognized as ‘MNC in India of the year’ in 2022 by All India Management Association and received the ‘India Sustainability Champion’ Award at the India ESG Sustainability Summit 2022.

Your Company maintained strong ground on societal initiatives, engaging over 10 million beneficiaries through nutrition awareness, rural development, water and sanitation facilities. 2022 marked the seventh year of ‘Project Jagriti’, an important milestone in community service, continuing in its course of creating an enabling environment in health, nutrition and hygiene practices by reaching out to vulnerable communities. Your Company continued being a ‘Force for Good’, supporting more than one and a half million Indians with numerous initiatives of meals, medical supplies and other essentials.

As we look confidently at the year ahead, the storm clouds of food inflation, acceleration of war and indeed the drum beats of recession in parts of the world continue to surround us. At such times, “being boringly consistent” matters more than being “brilliantly erratic”. Your Company’s steadfast focus on building volumes, deepening RURBAN expansion, bringing innovations with the support of Nestlé Group’s Global Research & Development network, astutely managing “value” and simultaneously nudging the premiumization trend that is driving economic recovery in parts will fuel momentum. This combined with a strong commitment to sustainability and the POWER of our people and relationships of TRUST is a prequel to stay anchored through the storm.

I seek the prayers and good wishes from members as we navigate the choppy journey ahead.

Management Analysis

Year 2022 was an interplay of complex disruptions and opportunities as well. The geo-political order was transforming, with an increasingly interconnected world, where the ramification of disruptions caused by war, economics, climate had an impact on consumers, society and businesses. As outlined by the International Monetary Fund, through investing in people, digitalization, green energy, and supply chain diversification, economies can bounce back from adversity and stay resilient.

India's Economic Survey 2021 -2022 stated that the health and economic shocks of the pandemic and the spike in commodity prices in 2022 will wear off creating opportunities for growth. Reforms in digitalization, higher financial inclusion, and more economic opportunities will be the second most important driver of India's economic growth in the medium term. Trends underpinned by India's advanced digital infrastructure, offshoring, investments in manufacturing and energy transition, could create an environment for India to surpass other mature economies.

The 2023 edition of World Economic Forum's Global Risks Report highlights the multiple areas where the world is at a critical inflection point. The global "new normal" is a return to basics – food, energy, security – problems our globalized world was thought to be on a trajectory to solve. Last few years have also exposed multinational firms to an unprecedented risk due to global trade tensions, pandemic-induced supply chain disruptions and the Ukraine-Russia war.

Risks and Opportunities

Risks

Global and Macro-Economics

Global volatility can put business to the risk of unforeseen inflationary pressures and potential moderation of consumer demands and choices. Churn in geopolitics can impact the landscape of operating macroeconomics and in specific supply chains. Evolving business models and the vulnerability of Information Technology (IT) systems could additionally challenge and sometimes disrupt the normal course of operations.

Your Company has a comprehensive process of commodity procurement and business-continuity measures towards meeting exigencies. With a robust framework in place, it ensures a continuous monitoring, identification and redressal to meet unforeseen challenges.

Systemic susceptibility to cyberattacks, loss of sensitive information, breakdown in systems or unavailability of critical IT means and outputs remains a constant risk. Your Company has been sensitive to the prevailing challenges of systemic issues, cyberattacks and cybercrime to its business operations. It has upgraded its safety mechanisms and processes, carries periodic internal assessments and builds the requisite firewalls to mitigate any threats and risks. Multiple training sessions and Standard Operating Procedures (SOPs) have been put in place to align the relevant stakeholders to handle any sort of IT risk eventuality.

Climate Change

Climate change is a staring risk that directly impacts the food and beverage industry. From increased cost of raw materials, lower production to multiple issues related to water shortage, it has direct bearing on your Company's business. Even governmental action to address climate change imperatives could have an impact on our existing business model. Societal and consumer sensitivity to issues like carbon emission, energy consciousness and water management puts additional challenge to continuously improve and adapt.

Your Company has taken the challenge seriously and made bold commitments. Your Company is constantly monitoring the environmental impact of its operations and taking strong steps to meet its sustainability targets.

Opportunities

Sustainability and societal concerns for the planet is paramount and they are demanding tangible action on plastic neutrality, zero emission and sustainable practices that go into the process of sourcing, manufacturing, transportation and handling of waste. The importance of label to bear critical information like nutritional composition of ingredients, sourcing details and proper disposal instruction are becoming a priority. Your Company is constantly upgrading its information dissemination on the labels and via other brand communication mechanisms to provide all relevant details to enhance and enrich the consumer experience.

These engagements are viewed as meaningful investments to convince and retain consumers towards our brand and services and build long-term relationships.

RURBAN Reach

Increasing the reach in rural markets by putting sharper focus on increasing mind share and market share will be important. INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF NESTLÉ INDIA LIMITED

Report on the audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Nestlé India Limited ("the Company"), which comprise the Balance Sheet as at December 31 2022, the Statement of Profit and Loss, including the Statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and Notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at December 31, 2022, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the financial year ended December 31, 2022. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have

fulfilled the responsibilities described in the Auditor’s responsibilities for the audit of the financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

Key audit matters	How our audit addressed the key audit matter
Revenue recognition <i>(as described in Note 26 to the financial statements)</i>	
<p>Revenue from the sale of goods is recognized at the moment when control has been transferred to the customer and is measured net of trade discounts, rebates and pricing allowances to customers (collectively ‘trade spends’). There is a risk that revenue may be overstated because of fraud, resulting from the pressure local management may feel to achieve performance targets. Revenue is also an important element of how the company measures its performance, upon which management is incentivized. The Company focuses on revenue as a key performance measure, which could create an incentive for revenue to be recognized before control has been transferred.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> • We assessed the appropriateness of the revenue recognition accounting policies by comparing with applicable accounting standards. • We evaluated the design, tested the implementation and operating effectiveness of key internal controls including general IT controls and key IT application controls over recognition of revenue. • We performed substantive testing by selecting samples of revenue transactions recorded during the year by testing the underlying documents which included invoices, good dispatch notes, customer acceptances and shipping documents (as applicable). • We carried out analytical procedures on revenue recognised during the year to identify unusual variances. • We tested, on a sample basis, specific revenue transactions recorded before and after the financial year end date to determine whether the revenue had been recognised in the appropriate financial period. • We tested manual journal entries posted to revenue to identify unusual items.
Provision for contingencies <i>(as described in Note 2, 35 and 41 to the financial statements)</i>	
<p>The management is required to make judgements and estimates in relation to the issues and exposures arising from a range of matters relating to direct tax, indirect tax, claims, general legal proceedings and other eventualities arising in the regular course of business. The Company is also subject to complexities arising from uncertain tax positions on deductibility of expenses. The key judgement lies in determining the likelihood and magnitude of an unfavorable outcome and interpretations of the legal aspects, tax legislations and judgements previously made by authorities. By nature, these are complex and include many variables.</p>	<p>Our audit procedures included the following:</p> <ul style="list-style-type: none"> • We tested the design, implementation and operating effectiveness of key internal controls around the recognition and measurement of provisions. • We inquired the status in respect of significant provisions with the Company’s internal tax and legal team. • We involved our subject matter experts, wherever required, to assess the value of provisions in light of the nature of the exposures, applicable regulations and related correspondence with the authorities. • We challenged the assumptions and critical judgements made by the Company which impacted their estimate of provision required, considering judgements previously made by the authorities in the relevant jurisdictions or any relevant opinions given by the Company’s advisors and assessing whether there was an indication of management bias. We verified the computation of provision on a test check basis.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements for the financial year ended December 31, 2022 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

The financial statements of the Company for the year ended December 31, 2021, included in these financial statements, have been audited by the predecessor auditor who expressed an unmodified opinion on those statements on February 17, 2022. However, we audited the adjustments related to acquisition of pet food business, as fully described in Note 5 to the financial statements, which have been made to the comparative financial statements presented for the year ended December 31, 2021.

Annexure '2' to the Independent Auditor's Report of even date on the financial statements of Nestlé India Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of Nestlé India Limited ("the Company") as of December 31, 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to these financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these financial statements.

Meaning of Internal Financial Controls with Reference to these Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at December 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

When there is a possible obligation or a present obligation in respect of which likelihood of outflow of resources is remote, no provision or disclosure is made.

Contingent assets are not recognised in the financial statements since this may result in the recognition of income that may never be accrued/ realised.

Property, Plant and Equipment - Owned

Items of property, plant & equipment are stated at historical cost less accumulated depreciation and accumulated impairment losses, if any. Cost is inclusive of freight, duties, taxes or levies (net of recoverable taxes) and any directly attributable cost of bringing the assets to their working condition for intended use.

Property, plant and equipment which are not ready for intended use as on the date of Balance Sheet are disclosed as "Capital work-in-progress".

Profit or loss on disposal / scrapping / write off / retirement from active use of an item of property, plant and equipment is recognised in the statement of profit and loss.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under "Other Non-Current Assets".

Depreciation / Amortisation

The Company has assessed the useful lives of property, plant and equipment as required by Schedule II to the Companies Act, 2013. Accordingly, depreciation has been computed on useful lives based on technical evaluation of relevant class of assets including components thereof. Useful lives and residual values are reviewed annually. Depreciation is provided as per the straight line method computed basis useful lives of property, plant and equipment as follows:

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2022

Category	Useful Life
Leased Assets	Lower of lease term or useful life
Buildings	25 - 40 years
Plant & Equipments	5 - 25 years
Office Equipments	5 years
Furniture and fixtures	5 years
Vehicles	5 years
Information Technology (IT) equipment	3 - 5 years

Freehold land is not depreciated.

Impairment of Property, Plant and Equipment

At each balance sheet date, the Company reviews whether there is any indication that an item of property, plant and equipment including capital work in progress, right of use assets or intangible assets (asset / cash generating unit) may be impaired. For the purpose of assessing impairment, assets are grouped at the levels for which there are separately identifiable cash flows (cash generating unit). If any impairment indicator exists, estimate of the recoverable amount of the property, plant and equipment /cash generating unit to which the asset belongs is made. An impairment loss is recognised in the statement of Profit and Loss whenever the carrying amount of an asset/ cash generating unit exceeds its recoverable amount. The recoverable amount is the greater of the fair value less cost to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value based on an appropriate discount rate.

Reversal of impairment losses recognised in earlier years is recorded when there is an indication that the impairment losses recognised for the asset/cash generating unit no longer exist or have decreased. However, the increase in carrying amount of an asset due to reversal of an impairment loss is recognised to the extent it does not exceed the carrying amount that would have been determined (net of depreciation) had no impairment loss been recognised for that asset/cash generating unit in earlier years.

Property, Plant and Equipment - Right of Use Assets

The Company's leases mainly comprises of land, buildings, plant & machinery and vehicles. The Company leases land and buildings primarily for offices, manufacturing facilities and warehouses.

The Company assesses whether a contract is or contains a lease, at inception of a contract. A contract is, or contains a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

At the date of commencement of the lease, the Company recognises a Right of Use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee.

The Right of Use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses, if any. Right of Use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term or useful life of the underlying asset.

The lease liability is initially measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made. A lease liability is remeasured upon the occurrence of certain events such as a change in the lease term or a change in an index or rate used to determine lease payments with a corresponding adjustment to the carrying value of Right of Use assets.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2022

Lease liability and Right of use assets are separately presented in the Balance Sheet and lease payments are classified as financing cash flows in the Cash Flow Statement.

The Company recognizes lease payments as other expense on a straight line basis over the period of lease for certain short term leases (less than or equal to two months) or leases of low value assets.

12. INVENTORIES

Inventories are stated at cost or net realisable value, whichever is lower. 33. EMPLOYEE BENEFIT PLANS

- (i) The Company makes contributions to Provident Fund, Employee State Insurance, National Pension System etc. for eligible employees and these contributions are charged to statement of profit and loss on accrual basis. Under these plans, the Company is required to contribute a specified percentage of payroll costs. The Company has recognised ₹ 988.7 million (Previous year ₹ 730.4 million) as expense in the statement of profit and loss during the year towards contribution to these funds.

Out of the total contribution made for Provident Fund, ₹ 310.6 million (Previous year ₹ 300.8 million) is made to the Nestlé India Limited Employees Provident Fund Trust. The members of the Provident Fund Trust are entitled to the rate of interest declared by the Central Government under the Employees Provident Funds and Miscellaneous Provisions Act, 1952. The Company is generally liable for annual contributions and any shortfall in the fund assets based on the government specified minimum rates of return. The Trustees of Nestlé India Limited Employees Provident Fund Trust are responsible for the overall governance of the plan and to act in accordance with the provisions of the trust deed and the relevant provisions prescribed under the law. Pattern of investment followed by the Trust is in accordance with the rules prescribed by the Government of India.

The total plan liabilities under the Nestlé India Limited Employees Provident Fund Trust as at 31 December 2022 as per the unaudited financial statements are ₹ 5,562.5 million (Previous year ₹ 5,029.1 million) as against total plan assets of ₹ 5,490.0 million (Previous year ₹ 4,949.9 million). The funds of the Trust have been invested under various securities in accordance with the rules prescribed by the Government of India. The market value of quoted investments included in plan assets is ₹ 5,352.8 million (Previous year ₹ 4,971.9 million) having a net book value of ₹ 5,147.3 million (Previous year ₹ 4,616.3 million)

- (ii) Other Employee Benefits: Short term employee benefits including performance incentives, are charged to statement of profit and loss on an undiscounted, accrual basis during the period of employment.
- (iii) Pension and Gratuity Plans: The Company provides pension and gratuity to eligible employees under defined benefit plans.

The gratuity plan provides for a lump sum payment to employees upon vesting at retirement, death while in employment or on termination of employment. Gratuity vesting occurs upon completion of five years of service. The Company makes contributions to the Nestlé India Limited Employees' Gratuity Trust Fund. The Trustees of Nestlé India Limited Employees Gratuity Trust Fund are responsible for the overall governance of the plan and to act in accordance with the provisions of the trust deed and the relevant provisions prescribed under the law. Pattern of investment followed by the Gratuity Trust fund is in accordance with the rules prescribed by the Government of India. The Company aims to keep annual contributions to the trust relatively stable at a level such that no significant gap arises between plan assets and liabilities.

Defined benefit pension plans are discretionary and consist of an unfunded defined benefit pension plan and a funded defined benefit pension plan (known as 'Future Ready Plan'). The unfunded defined benefit plan exposes the Company to risks, such as interest rate risk, inflation risk, price risk, longevity risk etc.

Liability for defined benefit plans i.e. gratuity and 'unfunded pension plan' is determined based on the actuarial valuation carried out by an independent actuary as at the year-end. As these liabilities are relatively long term in nature, the actuarial assumptions take into account the requirements of the relevant Ind AS coupled with a long-term view of the underlying variables / trends, wherever required.

For funded defined benefit pension plan, the Company has made investments in appropriate Investment product of an Insurance company to cover the obligations. The amount and timing of the defined benefits payable under the 'Future Ready Plan' match with the amounts recoverable from the Investment product. The accumulated investment balance shall be utilised to purchase pension annuities from the Insurance company for the employees as per the 'Future Ready Plan'. The plan exposes the Company to risks such as credit risk etc. Also, refer Note 4 to the financial statements for description of pension plan amendment and settlement.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2022

Liability for funded defined benefit pension plan ('Future Ready Plan') has been determined in 2021 based on actuarial valuation carried out by an independent actuary for past period of services and frozen. The obligation so determined is invested in an appropriate investment product of an Insurance company and is recognized as having 'reimbursement rights' as per Ind AS 19 Employee Benefits. This investment will earn interest and the corresponding defined benefit liability will be increased with this interest amount. The amount recoverable from the investment product would be utilized for payment of the defined benefits payable under the Future Ready Plan. Also refer to Note 4 of the financial statements.

Service cost and net interest cost on the defined benefit liabilities/assets are recognized in the statement of profit and loss as employee benefit expense and finance costs respectively. Gains and losses on remeasurement of defined benefits liabilities/plan assets arising from changes in actuarial assumptions and experience adjustments are recognised in the other comprehensive income and are included in retained earnings in the balance sheet.

Long term employee benefits such as compensated absences and long service awards are charged to statement of profit and loss on the basis of an actuarial valuation carried out by an independent actuary as at the year-end. Actuarial gains and losses are recognised in full in the statement of profit and loss during the year in which they occur.

38. FINANCIAL INSTRUMENTS

(a) RECOGNITION AND INITIAL MEASUREMENT

The Company recognises financial assets and financial liabilities when it becomes a party to the contractual provisions of the instrument. All financial assets and liabilities are measured at fair value on initial recognition. Transaction costs in relation to financial assets and financial liabilities, other than those carried at fair value through profit or loss (FVTPL), are added to the fair value on initial recognition. Transaction costs in relation to financial assets and financial liabilities which are carried at fair value through profit or loss (FVTPL), are charged to the statement of profit and loss.

(b) CLASSIFICATION AND SUBSEQUENT MEASUREMENT OF FINANCIAL ASSETS

(i) Debt Instruments

For the purpose of subsequent measurement, financial assets in the nature of debt instruments are classified as follows:

Amortised cost - Financial assets that are held within a business model whose objective is to hold the asset in order to collect contractual cash flows that are solely payments of principal and interest are subsequently measured at amortised cost less impairments, if any. Interest income calculated using effective interest rate (EIR) method and impairment loss, if any are recognised in the statement of profit and loss.

Fair value through other comprehensive income (FVOCI) - Financial assets that are held within a business model whose objective is achieved by both holding the asset in order to collect contractual cash flows that are solely payments of principal and interest and by selling the financial assets, are subsequently measured at fair value through other comprehensive income. Changes in fair value are recognized in the other comprehensive income (OCI) and on derecognition, cumulative gain or loss previously recognised in OCI is reclassified to the statement of profit and loss. Interest income calculated using EIR method and impairment loss, if any are recognised in the statement of profit and loss.

Fair value through profit or loss (FVTPL) - A financial asset which is not classified in any of the above categories are subsequently measured at fair valued through profit or loss. Changes in fair value and income on these assets are recognised in the statement of profit and loss.

(ii) Equity Instruments

The Company has made investment in equity instruments that are initially measured at fair value. The company has elected irrevocable option to measure such investments at FVOCI. The Company makes such election on an instrument-by-instrument basis. Pursuant to such irrevocable option, changes in fair value are recognised in the OCI and is subsequently not reclassified to the statement of profit and loss.

(c) CLASSIFICATION AND SUBSEQUENT MEASUREMENT OF FINANCIAL LIABILITIES

For the purpose of subsequent measurement, financial liabilities are classified as follows:

Amortised cost - Financial liabilities are classified as financial liabilities at amortised cost by default. Interest expense calculated using EIR method is recognised in the statement of profit and loss.

Fair value through profit or loss (FVTPL) - Financial liabilities are classified as FVTPL if it is held for trading, or is designated as such on initial recognition. Changes in fair value and interest expense on these liabilities are recognised in the statement of profit and loss.

(d) DERECOGNITION OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows including risks and rewards of ownership.

A financial liability is derecognised when the obligation under the liability is discharged or expires.

NOTES FORMING PART OF THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2022

(e) IMPAIRMENT OF FINANCIAL ASSETS

Financial assets (debt instruments) that are carried at amortised cost and fair value through other comprehensive income (FVOCI) are assessed for possible impairments basis expected credit losses taking into account the past history of recovery, risk of default of the counterparty, existing market conditions etc. The impairment methodology applied depends on whether there has been a significant increase in credit risk since initial recognition.

For Trade receivables, the Company provides for expected credit losses based on a simplified approach as per Ind AS 109 – Financial Instruments. Under this approach, expected credit losses are computed basis the probability of defaults over the lifetime of the asset.

(f) DERIVATIVES AND HEDGE ACCOUNTING

Derivative instruments used by the Company include forward contracts. The Company formally establishes a hedge relationship between such forward contracts ('hedging instrument') and recognized financial asset/liabilities ('hedged item') through a formal documentation at the inception of the hedge. Forward contracts are designated as hedging instruments against changes in fair value of recognised assets and liabilities (fair value hedges) and against highly probable forecast transactions (cash flow hedges). The effectiveness of hedge instruments is assessed at the inception and on an ongoing basis.

Derivatives instruments such as forward contracts are initially measured at fair value. When a forward contract is designated as a cash flow hedge, the effective portion of change in the fair value of the contract is recognised in the other comprehensive income and accumulated in other equity under "effective portion of cash flow hedges". Amount recognised in other equity is subsequently reclassified to the statement of profit and loss upon occurrence of the related forecasted transaction. Any ineffective portion of the change in the fair value of the contract is recognised immediately in the statement of profit and loss.

Changes in fair value of forward contracts designated as fair value hedge are recognised in the statement of profit and loss.

(g) FAIR VALUE MEASUREMENT

Fair value of financial assets and liabilities is normally determined by references to the transaction price or market price. If the fair value is not reliably determinable, the company determines the fair value using valuation techniques that are appropriate in the circumstances and for which sufficient data are available, maximising the use of relevant observable inputs and minimising the use of unobservable inputs

Significant Risk - Man-Machine interface on site – Due to high movement of the vehicles (Trucks, Tankers, Forklifts) and people inside the factory, many shared areas are created. Shared areas are those in which vehicles and pedestrians could both be present at the same location at the same time, thereby creating a collision risk.

Solution: Facility risk assessments are carried out to identify shared areas and identify the controls by following Hierarchy of Safety control as per OSHA e.g., Elimination, Substitution, Engineering, Administrative and PPEs. Furthermore, the defined actions are implemented.

Significant Risk- Management of large capital investment projects.

Solution: In any large project, safety is of paramount importance. Method statements were made for all non-routine high hazard tasks and implemented to mitigate any risks. Dedicated safety professionals were hired to ensure strict implementation of the S&H protocols.

Significant Risk- Driving for business purpose, since the employee must travel for the workplace using their own vehicles / public transports / by company provided vehicles.

Solution: Your Company has ensured all the company provided vehicles are meeting the safety requirements as per the Nestlé safety policies. Employees undergo defensive driving training as a process of their onboarding. Also, all field based employees are trained on “Expect the unexpected” modules to anticipate the risks of public roads.

Significant health risk – Covid-19 management – The onset of pandemic posed a big risk to the health of all stakeholders at site (employees, contractors, third party distribution centres etc.).

Solution: This was mitigated by implementing a robust Business Continuity Plan (BCP) for Covid-19 management which focused on 4 pillars of temperature screening, sanitization, hand and respiratory hygiene and social distancing. Special quarantine leave was created and your Company launched a slew of programs for employee support during Covid, which included medical support (access to International SOS, Isolation centers, vaccination support, oxygen concentrators), financial support (salary advance, staff loan, loss of life benefits, to provide education and medical related support to the employee’s family in case of employee’s demise) and also wellness support (yoga classes, nutritional guidance and employee assistance program with psychologist services).

One of the key initiatives contributing to water savings in 2022 was increasing the utilization of treated effluent after polishing through high technology Reverse Osmosis (RO) plant. Your Company will continue to work to achieve good water resources management throughout operations and agricultural supply chains. Your Company is supporting regenerative farming that aims to improve soil health and soil fertility, as well as protecting water resources and diversity.

Further, your Company continued its projects, which in the long-term result into reduction of pollution and protection of the environment. The reduction continues to be driven at the material usage level and measured in value terms as well. During the year, below were the Key Performance Indicators ('KPI') which reflected reduction in the food loss and wastage, across value chain:

- Zero Loss Material Variance: Excess usage/ wastage of materials in the production beyond the product manufacturing norms reflect the wastage/ in-efficiencies in the production process.
- Obsolescence: The KPI's with regard to material, which could not be used in the production, rendered products unfit for further use or expired before usage, were tracked to ensure minimal food wastage and monetary loss.
- Bad Goods: The KPI's with regard to finished goods, which reach end of life, due to various reasons including mismatch of demand and supply, were tracked to ensure that there is least amount of bad goods.
- Zero Waste to Landfill: All factories are "zero waste to landfill", which implies that all generated waste is either reused, recycled or co-processed and none of the packaging ends up in landfill or as litter in the environment.

(b) Additional Investment:

Your Company has been making investments over last many years on energy conservation equipment and to utilise alternate source of energy. Some of the proposals, which are initiated for implementation during 2023 at different factory locations are as hereunder:

- Use of biomass for steam generation;
- Investments in improving plant efficiencies for generation as well as usage;
- Investments in the solar energy by entering into Solar Power Purchase Agreement (PPA);
- Investment in second stage Reverse Osmosis (RO) plant to increase recovery; and
- Investment in other renewable energy sources.

(c) Impact of the measures at (a) and (b) above for reduction of energy consumption and consequent impact on the cost of production of goods:

During the years, at the factories there have been continuous efforts to improve operational efficiencies, minimizing consumption of natural resources and reducing water, energy and CO2 emissions while maximizing production volumes.

As a result, during the period from 2007 to 2022, for every ton of production, the Company has reduced, the usage of energy by around 36%, water usage by around 51%, generation of waste water by around 38% and specific direct greenhouse gas emissions by around 52%.

(d) Projects planned or initiated for further improvement in energy and water consumption are:

Continuous Energy initiatives at different factory locations:

- Use of biomass for steam generation;
- Plant efficiency improvement for generation as well as usage; and
- Additional Solar Power Purchase Agreement (PPA).

Continuous Water Initiatives at different factory locations:

- Investment in second stage Reverse Osmosis (RO) plant to increase recovery; and
- Increase recycling of Effluent Treatment after polishing through RO plant.

Continuous Initiatives to reduce Green House Gases (GHG) emissions at different factory locations:

The Company plans to reduce around 130,000 Tons of GHG in next two to three years. Some of the key renewable energy projects that contributed to reduction in GHG emissions are:

- Contribution by improving energy generation efficiency; and
- Addition of solar energy capacities and increase in share of green power in purchased electricity.
