Chairman's Message

Dear Stakeholders,

I am honoured to present the Annual Report for Talbros Automotive Components Limited for 2023-24. This report reflects the resilience and innovation that have guided our journey over the past year. It highlights the strategic initiatives, key achievements, and milestones that have fuelled our growth, strengthened our market position, and prepared us for the future.

Macroeconomic Landscape

The fiscal year 2024 was marked by a dynamic and evolving macroeconomic environment. Global economic activities saw a gradual recovery, with notable growth in various sectors, particularly in the automotive industry. The resurgence of consumer demand, coupled with significant technological advancements, fuelled the expansion of the automotive market globally. The increasing inclination towards electric vehicles (EVs) and sustainable solutions has also been a key driver, positioning the industry for substantial long-term growth.

Industrial Overview

The automotive industry witnessed significant momentum during 2023-24, with a significant increase in vehicle sales across all segments. The Indian automotive sector, in particular, showed remarkable resilience, with a total of 23.8 Mn vehicles sold, representing a 12.5% growth over the previous year. The passenger vehicle (PV) segment saw an 8.4% increase, while two-wheelers grew by 13.3%. The commercial vehicle segment remained stable, indicating a balanced growth trajectory. The rapid adoption of electric vehicles was a standout trend, with EV sales rising by 41%, surpassing 1.6 Mn units, and increasing their penetration rate to 6.8%.

https://www.business-standard.com/industry/auto/electric-vehicle-penetration-touches-6-8-mark-in-fy24-shows-data-124040200970_1.html)*

EV sector

India has experienced a remarkable shift in EV perception, from 'green premiums' to 'green discounts,' driven by government initiatives, consumer acceptance, and technological advancements, significantly impacting the country's climate strategy. With projections indicating EVs could comprise over 40% of India's automotive market by 2030, this growth promises substantial revenue and job creation. The year 2023-24 saw EV sales surpassing 1.7 Mn units, led by electric two-wheelers at 55% and passenger electric three-wheelers at 32%, with Uttar Pradesh, Maharashtra, Karnataka, Tamil Nadu, and Rajasthan emerging as top-selling states, and collectively accounting for over 50% of the market share, showcasing widespread adoption. This transformative journey signifies a shift towards sustainable mobility, offering opportunities for

growth, innovation, and environmental stewardship, with immense potential for collaboration and advancement towards a greener future.

Operational Highlights

Talbros Automotive Components Limited demonstrated robust operational performance during the period, driven by its diversified product portfolio and strategic collaborations. The Company continued to optimise its manufacturing processes, ensuring high-quality output while maintaining operational efficiency. Talbros successfully expanded its customer base, catering to both domestic and international markets, and sustained strong relationships with OEMs.

Our focus on expanding our EV portfolio has been fruitful, contributing to a growing share of our revenue. Our heat shields and gasket divisions showed strong performance, supported by key orders from leading OEMs such as Maruti, Kia, and Hyundai. Additionally, the Company focused on innovation and technology upgrades, reinforcing its position as a leading supplier in the automotive components industry. Continuous improvements in supply chain management and strategic cost control measures also contributed to the Company's operational resilience during the year.

Business Review

Our Gasket and Heat Shield business continues to demonstrate robust performance, reaffirming its leadership position in the market. For 2023-24, we

achieved a remarkable total income of ₹ 515 Crores, up from ₹ 434 Crores in the previous year. This impressive growth underscores the strength of our product portfolio and our deep commitment to innovation. With a 50% market share, it remains a significant contributor to the Company's consolidated revenue, delivering consistent financial results. Looking ahead, we aim to sustain this momentum, targeting a 13% CAGR in revenue growth through 2026-27 by expanding our gasket and heat shield business, increasing exports, and diversifying our portfolio.

Our Forging Business has remained a cornerstone of our growth, demonstrating remarkable performance throughout the year. For 2023-24, it achieved a noteworthy revenue increase, reaching ₹ 277 Crores, up from ₹ 219 Crores the previous year, and representing 28% of our total revenue. The division's success in securing new international orders has significantly bolstered our financial strength. Looking ahead, we are poised to drive revenue growth with a targeted 23% CAGR through 2026-27, focusing on expanding our presence in the electric vehicle sector, enhancing our export capabilities, and strengthening our Agri and Off-Highway portfolios.

The Company took a strategic decision to divest its complete 40% ownership interest in its joint venture entity, Nippon Leakless Talbros, constituting 48,00,000 fully paid-up equity shares of ₹ 10/- each for ₹ 81.80 Crores. The stake sale was successfully completed on January 25, 2024. TACL plans to allocate the proceeds from the sale towards expansion initiatives aiming to further strengthen and grow its business.

Marelli Talbros Chassis Systems has consistently demonstrated strong performance, highlighting its pivotal role in our diverse business portfolio. For 2023-24, the division recorded a total income of ₹ 260 Crores, showing a solid year-on-year growth compared to ₹ 210 Crores in the previous year. This joint venture continues to enhance our capabilities in the chassis systems sector, delivering advanced

solutions that address the evolving needs of the automotive industry. Moving forward, we are committed to further advancing the operational efficiencies and market reach of Marelli Talbros Chassis Systems, ensuring continued growth and value creation for our stakeholders.

Talbros Marugo Rubber Private Limited (TMR) has exhibited impressive growth and resilience throughout 2023-24, solidifying its role as a vital component of our business ecosystem. The division reported a total income of ₹ 123 Crores, a significant increase from ₹ 85 Crores in the previous year, reflecting a steady upward trajectory. As we continue to drive innovation and technological advancements, TMR is strategically positioned to seize emerging opportunities within the automotive sector, contributing to our overarching goal of pioneering growth and enhancing value.

Consolidated Financial Performance

Our financial performance in 2023-24 has been an exceptionally strong, underscoring Talbros Automotive's continued growth and financial robustness. At the group level, including all joint ventures and fully consolidated entities, we achieved a notable revenue of ₹ 1,258 Crores, reflecting a solid 21% year-on-year increase. This growth highlights our successful strategies and the expanding reach of our operations.

Our EBITDA for 2023-24 soared to ₹ 127 Crores, representing a remarkable 36% improvement from ₹ 94 Crores the previous year. This significant rise underscores our operational efficiency and the effectiveness of our cost management strategies.

In terms of profitability, our PAT before exceptional items reached ₹ 83 Crores, marking a striking 49% increase from ₹ 56 Crores in 2022-23. This exceptional growth in net profit demonstrates our ability to enhance shareholder value and sustain robust financial health.

Moreover, our Return on Capital Employed (ROCE) for 2023-24 rose to 20.4%, compared to 16.6% in 2022-23, highlighting improved efficiency in utilising our capital. Similarly, our Return on Equity (ROE) increased to 20.2% from 16.5%, reflecting our strong financial performance and effective management.

Maintaining a prudent financial structure, our debt-to-equity ratio for 2023-24 stands at a conservative 0.17x, reinforcing our commitment to a balanced and sustainable growth trajectory. Overall, 2023-24 has been a testament to Talbros Automotive's strategic execution and operational excellence, positioning us well for continued success.

Outlook

Looking ahead, we remain optimistic about the future of the automotive industry. The ongoing shift towards electric vehicles, coupled with the increasing demand for sustainable automotive solutions, presents numerous opportunities for growth. Talbros is well-positioned to capitalise on these trends, with a strong order book, strategic partnerships, and a diversified product portfolio. We aim to increase our export share from 25% to 35% over the next three years, focusing on expanding our presence in international markets. Our commitment to innovation, quality, and customer satisfaction will continue to drive our success in the coming years.

In conclusion, I would like to extend my gratitude to our stakeholders, including our customers, partners, employees, and shareholders, for their continued support. Together, we will continue to build on our successes and pursue new opportunities to drive sustainable growth and value creation.

Sincerely,

Naresh Talwar

Forging Business

The forging industry plays a crucial role in the automotive and off-highway sectors. Forging is traditionally considered the backbone of the manufacturing industry, providing essential components to sectors that drive the nation's economic growth, such as automotive, industrial machinery, power, construction and mining equipment, railways, and general engineering. The Indian forging industry is globally recognised for its technical capabilities. With an installed capacity of around 3.85 Mn metric tons, the Indian forging industry can forge a variety of raw materials, including carbon steel, alloy steel, stainless steel, superalloy, titanium, and more, based on the needs of the user industry.

Our forging plant at Bawal is equipped with state-of-the-art tooling design, manufacturing, forging, heat treatment, and machining capabilities. With a forging capacity of 21,000 metric tons, we can produce parts ranging from 150 grams to 30 kilograms, with increased manufacturing depth. This integrated approach gives us a competitive edge, allowing us to attract new customers and serve them better with agility, as we have everything in-house under one roof. Over the years, Talbros

has grown into a well-known manufacturer and exporter of high-precision machined components with an in-house forging facility. We offer forged and machined components for a wide range of customers in the automotive, agriculture, and off-highway vehicle industries.

We are increasing our focus on exports and expanding into new geographies. Since 2018, we have increased our export share from 47% to 55%. The supply chain gaps created during COVID-19 provided an opportunity to expand our export business. With current and upcoming orders, our outlook is to further increase export sales. In response to global demand and coupled with infrastructure growth, we are strategically focusing more on the CV and off-highway business. We are also working on enhancing our capabilities to produce heavier parts.

With strong confirmed orders and a robust pipeline of business, we are taking steps to grow our forging division. To this end, we have added ring rolling and material gathering forging processes, for which we already have orders from customers.

Nippon Leakless Talbro Private Limited (LTL)

Nippon Leakless Talbro Private Limited was incorporated in 2005 as a joint venture between Talbro Automotive Components Limited (TACL), India and Nippon Leakless Corporation (NLK), Japan with TACL holding 40% stake in it. NLK is a well-known supplier of gaskets and packaging to top OEMs and two wheeler manufacturers. LTL supplies exclusively to OEMs such as Honda and Hero MotoCorp Ltd. catering to their specific requirements as a dedicated supplier.

Changes in Ownership Interest

Divestment of TACL's entire 40% stake in LTL

On December 22, 2023, the Board of Directors of Talbro Automotive Components Limited approved the divestment of its entire 40% stake in LTL constituting 48,00,000 fully paid-up equity shares of ₹ 10/- each by selling the same to Nippon Leakless Corporation and Leakless Gaskets India Private Limited for ₹ 81.80 Crores. The stake sale was successfully completed on January 25, 2024.

TACL plans to allocate the proceeds from the sale towards expansion initiatives aiming to further strengthen and grow its business.

Marelli Talbros Chassis Systems Private Limited (MTCS)

Talbros Automotive Components Limited strategically partnered with Marelli Suspension Systems S.P.A., Italy, to establish the joint venture Marelli Talbros Chassis Systems Private Limited (MTCS) in 2012. This collaboration has enabled MTCS to develop and manufacture a wide range of chassis components for automotive applications, including control arms, suspension links, front cross members, rear twist-beam axles, cradles, wheel groups, and semi-corner module assemblies. The JV has emerged as the preferred source for chassis and body-in-white components for leading OEMs in India and abroad. The Company has expanded its product portfolio and secured several orders for EV components to be supplied to European vehicles. Additionally, JV is developing Chassis components for another large European OEM for supplying to its EMEA & NAFTA markets. To meet the demands of these new business opportunities, MTCS is expanding its capacity at its Pune plant.

The JV is committed to achieving its ESG objectives, aiming to become carbon neutral (Scope 1 & 2) by 2030. To support this goal, it has increased its solar power capacity to 455 KWP and has been undertaking afforestation drives to reduce its carbon footprint. MTCS is taking a focused approach to achieving its ESG goals by incorporating best practices from the automotive industry.

MTCS achieved an all-time high revenue of ₹260.21 Crores in FY 2023-24, recording a 24% growth over the previous year, and improved its bottom line by 65% through enhanced operational efficiencies and a strong focus on fixed cost control. With a focus on exports and expansion in the EV segment, MTCS aims to achieve substantial revenue growth, a more diversified customer base, supply to new markets, and improve its EBITDA margin profile by 2026-27.

MTCS plans a capex investment of approximately ₹ 65 Crores in 2024-25 funded by a combination of internal accruals and debt.

Talbros Marugo Rubber Private Limited (TMR)

Talbros Marugo began in 2013, specialising in the manufacturing of anti-vibration rubber molded products for passenger cars. The goal of this joint venture was to achieve market differentiation by developing innovative, high-quality anti-vibration products. The primary objective of the JV was to localise mounting mufflers for Maruti Suzuki India Limited, which were previously supplied by Marugo Rubber Industries to Maruti. Within just one year, we successfully localised 100% of all KD parts and earned recognition for superior performance in focused model cost reduction in 2014-15. Subsequently, we received the Best Supplier Award for overall performance from Maruti Suzuki India Limited for two consecutive years in 2017-18 and 2018-19. In 2023-24, we achieved the Platinum Award from Ashok Leyland and the Zero-Defect Award from SMG, as well as the Part Design & Development and Yield Improvement awards from MSIL.

Currently, our market share for mounting mufflers and hangers with Maruti Suzuki exceeds 90%. In 2015, we diversified our product line by setting up an additional plant for extruded hoses, expanding our service to Maruti Suzuki. The Company has complete in-house value chain capabilities, including

mixing, compound mixing, metal preparation, molding, and extrusion. Backed by our strength in operational excellence, TMR is aggressively securing various orders from domestic OEMs, leading to an improved presence in the automotive market.

Our revenue growth has been steady, with a significant jump in 2023-24, reaching close to ₹ 123 Crores per annum. A major contributor to this growth has been the development of E20-compatible fuel hoses in FKM and ECO polymers, along with diversification into silicone hangers. We expect our revenue to exceed ₹ 260 Crores by 2027-28. To accommodate this growth, our plant was relocated from Manesar to Bawal, with a covered area of nearly 80,000 square feet in 2023-24.

As an Indo-Japanese joint venture, we are now planning to expand our customer base beyond Japanese OEMs to include Tata Motors, Mahindra, Honda India Power Products, and other OEMs. We also plan to export to an European car manufacturer, leveraging our strong relationship with the Talbros JV company, which will help us expand our reach and drive growth.

So that the folios can be KYC updated before the "Book Closure date from September 19, 2024 to September 25, 2024. ISR Forms can be accessed from our website at <https://www.talbros.com/investor-services>.
14. In terms of the provisions of the Income Tax Act, 1961 ("the Act") as amended by the Finance Act, 2020, dividend paid or distributed by a Company on or after April 01, 2020 is taxable in the hands of the Members. The Company is, therefore, required to deduct tax at source at the time of payment of dividend to the Members.
For resident members: Tax will be deducted at source ("TDS") under Section 194 of the Act (read with Press Release dated May 13, 2020) @ 10% on the amount of dividend payable unless exempt under any of the provisions of the Act. However, in case of individuals, TDS would not apply if the aggregate of total dividend distributed to them by the Company during financial year does not exceed ₹ 5,000/-.

Notice (Contd.)

Tax at source will **NOT** be deducted where a member provides Form 15G (applicable to Individual in case of dividend) / Form 15H (applicable to an individual above the age of 60 years), provided that the eligibility conditions are being met. Blank Form 15G and 15H can also be downloaded from the website of the RTA viz. [Form15H.pdf \(kfintech.com\)](#)

The Permanent Account Number (PAN) will be mandatorily required. If PAN is not submitted, Tax at source will be deducted @ 20% as per Section 206AA of the Act.

In order to provide exemption from withholding of tax, the following organisations must provide a self-declaration as listed below:

- **Insurance companies:** A declaration that they are beneficial owners of shares held.
- **Mutual Funds:** A declaration that they are governed by the provisions of Section 10(23D) of the Act along with copy of registration documents (self-attested).
- **Alternative Investment Fund (AIF) established in India:** A declaration that its income is exempt under Section 10(23FBA) of the Act and they are established as Category I or Category II AIF under the SEBI Regulations. Copy of registration documents (self-attested) should be provided.
- **New Pension System Trust:** A declaration that they are governed by the provisions of Section 10(44) [subsection 1E to Section 197A] of the Act along with copy of registration documents (self-attested).
- **Corporation established by or under a Central Act** which is, under any law for the time being in force, exempt from income tax on its income - Documentary evidence that the person is covered under Section 196 of the Act.
- **For non-resident members:** Tax is required to be withheld in accordance with the provisions of Section 195 of the Act at applicable rates in force. As per the relevant provisions of the Act, the tax shall be withheld @ 20% (plus applicable surcharge and cess) on the amount of dividend payable. However, as per Section 90 of the Act, a non-resident member has the option to be governed

by the provisions of the Double Tax Avoidance Agreement (“DTAA”) between India and the country of tax residence of the member, if they are more beneficial to the member. For this purpose, i.e. to avail tax treaty benefits, the non-resident member will have to provide the following:

- i) Self-attested copy of Permanent Account Number (PAN Card), if any, allotted by the Indian income tax authorities;
- ii) Self-attested copy of Tax Residency Certificate (TRC) obtained from the tax authorities of the country of which the member is resident;
- iii) Self-declaration in Form 10F, if all the details required in this form are not mentioned in the TRC;
- iv) Self-declaration by the non-resident member of having no permanent establishment in India in accordance with the applicable Tax Treaty;
- v) Self-declaration of beneficial ownership by the non-resident member.

The documents referred to in point nos. (iii) to (v) can be downloaded from the website of the RTA viz. [Tax Exemption Forms Registration \(kfintech.com\)](#)

The Resident Non-Individual Members i.e. Insurance companies, Mutual Funds and Alternative Investment Fund (AIF) established in India and Non-Resident Non-Individual Members i.e. Foreign Institutional Investors and Foreign Portfolio Investors may alternatively submit the relevant forms / declarations / documents through their respective custodian who is registered on NSDL platform, on or before the aforesaid timelines.

The Company is not obligated to apply the beneficial DTAA rates at the time of tax deduction / withholding on dividend amounts. Application of beneficial DTAA rate shall depend upon the completeness and satisfactory review by the Company, of the documents submitted by non- resident member.

Notwithstanding the above, tax shall be deducted at source @ 20% (plus applicable surcharge and cess) on dividend paid to Foreign Institutional Investors and Foreign Portfolio Investors under section 196D of the Act. Such rate shall not be reduced on account

Notice (Contd.)

of the application of the lower DTAA rate, if any.

To enable us to determine the appropriate TDS / withholding tax rate applicable, we request you to provide the above details and documents not later than Monday, September 09, 2024.

To summarise, dividend will be paid after deducting the tax at source as under:

- NIL for resident members receiving dividend up to ₹ 5,000/- or in case Form 15G / Form 15H (as applicable) along with self-attested copy of the PAN is submitted.
- 10% for resident members in case PAN is provided / available.
- 20% for resident members, if PAN is not provided / not available.
- Tax will be assessed on the basis of documents submitted by the non-resident members.
- 20% plus applicable surcharge and cess for non-resident members in case the aforementioned documents are not submitted.
- Lower / NIL TDS on submission of self-attested copy of the certificate issued under Section 197 of the Act.

Kindly note that the aforementioned documents should be sent through e-mail to einward.ris@kfintech.com and rajeev.kr@kfintech.com.

No communication on the tax determination / deduction shall be entertained after September 09, 2024.

In case tax on dividend is deducted at a higher rate in the absence of receipt of the aforementioned details / documents, you would still have the option of claiming refund of the excess tax paid at the time of filing your income tax return. No claim shall lie against the Company for such tax deducted.

In the event the Company is unable to pay the dividend to any member directly in their bank accounts, the Company will dispatch the dividend warrant/ Bankers' cheque/ demand draft/etc. to such member, as the case may be at the earliest once the normalcy is restored.

All dividend remaining unclaimed/unpaid for a period of seven years from the date it became due for payment, will be transferred to the Investor Education and Protection Fund established by the Central Government. Members who have not yet encashed their dividend warrant(s) are requested to make their claims without any delay.

15. Updation of mandate for receiving dividend directly in bank account through Electronic Clearing System or any other means in a timely manner:

In terms of Regulation 17(1D) of SEBI Listing Regulations with effect from April 01, 2024, the continuation of a Director serving on the Board of Directors of a listed Company shall be subject to the approval by the shareholders in a general meeting at least once in every five years from the date of their appointment or reappointment, as the case may be.

In order to comply with the requirement of Regulation 17 of SEBI Listing Regulations approval of members of the Company is sought by way of a Special Resolution for continuation of Directorship of Mr. Naresh Talwar as Chairman and Non-Executive Non-Independent Director of the Company, not liable to retire by rotation, for a further period of five years with effect from April 01, 2024.

Mr. Naresh Talwar is one of the Promoters of the Company and has been associated with the Company since 1976. In his career span, he has worked with several companies of the Talwar Group and has extensive knowledge, profound acumen, specialised expertise, rich and varied experience in the automotive component industry. His involvement in the operations of the Company over a long period of time and his pioneering role in guiding the Company for its

diversification and growth and has immensely benefitted the Company to emerge as a leader in Gasket business. Under his Chairmanship, the Company has grown and is sustaining its position as leading auto components manufacturer. In view of his continued good health and sound and active state of mind to perform his duties in an able and competent manner and in accordance with the recommendation of the Nomination and Remuneration Committee the Directors are of the opinion that his continuation as Chairman shall be in the best interests of the Company.

The details as stipulated under Regulation 36(3) of Listing Regulations and Secretarial Standards-2 along with brief profile of Mr. Naresh Talwar are mentioned in Annexure I to this Explanatory Statement.

Mr. Naresh Talwar holds 14,06,320 equity shares in the Company.

None of the Directors/Key Managerial Personnel of the Company/their relatives, except Mr. Umesh Talwar, being brother of Mr. Naresh Talwar, Mr. Varun Talwar and Mr. Vidur Talwar, being sons of Mr. Naresh Talwar are concerned or interested, financially or otherwise, in the Special Resolution set out at Item No. 5.

The Board recommends the Special Resolution set out at Item no. 5 of the accompanying Notice for the approval by members of the Company.

Item No.6

Mr. Ajay Kumar Vij was appointed as an Independent Director at the 62nd AGM of the Company for a term of five years and holds office up to September 24, 2024.

The Board, based on the satisfactory performance evaluation considers that given his background, rich experience and contributions, the continued association of Mr. Ajay Kumar Vij would help the Company to achieve its objective of maximising shareholder worth and would be of immense benefit to the Company and it is desirable to continue to avail his services as an Independent Director on the Board of the Company.

Based on the recommendation of Nomination and Remuneration Committee, the Board of Directors proposes the re-appointment of Mr. Ajay Kumar Vij (DIN: 00164984) as an Independent Director, not liable to retire by rotation, for a second term of five consecutive years with effect from September 25, 2024 up to September 24, 2029.

Notice (Contd.)

The Company has received a declaration from him to the effect that he meets the criteria of independence as provided in Section 149(6) of the Companies Act, 2013 and Rules framed thereunder and Regulation 16(1)(b) of the Listing Regulations. Mr. Ajay Kumar Vij is not debarred from holding the office of Director pursuant to any SEBI Order.

The terms and conditions of his appointment shall be available, electronically, for inspection by the members and also at the Registered Office of the Company during normal business hours on any working day till the conclusion of the AGM. Electronic copy of the draft Letter of Appointment of Mr. Ajay Kumar Vij setting out terms and conditions shall be available in the heading - Board of Directors and its Committees under Investors section of the website of the Company at www.talbros.com.

Mr. Ajay Kumar Vij will not be entitled to receive remuneration except Sitting Fee as approved by the Board of Directors in addition to reimbursement of expenses incurred for participation in Board and Committee Meetings, if any.

The Explanatory Statement may also be regarded as a disclosure under SEBI (Listing obligations and Disclosures Requirements) Regulations, 2015.

The details as stipulated under Regulation 36(3) of Listing Regulations and Secretarial Standards-2 along with brief profile of Mr. Ajay Kumar Vij are mentioned in Annexure I to this Explanatory Statement.

BUSINESS REVIEW

Despite ongoing challenges, economic activity thrived with extensive government spending, robust household consumption the stable employment landscape and a significant expansion on the supply side. Looking ahead, global growth is expected at momentum of 3.2% from 2023 extending into both 2024 and 2025.

Global headline inflation, on the other hand, showed a downward trajectory, with forecasts indicating a decrease from 6.8% in 2023 to 5.9% in 2024, followed by a further decline to 4.5% in 2025. This reduction in the inflation rates of fuel and food prices, in turn, lead to a decrease in the overall inflation rates.

Domestic demand conditions in India persisted with strong performance. Moreover, the Indian Government continued with substantial investments in public infrastructure, while simultaneously ramping up the financial sector. These investments played pivotal role in stabilising the economy amidst various external uncertainties.

ECONOMY REVIEW

Global Economy

The Global Economy maintained its stability, with the growth momentum of 3.2% from 2023 extending into both 2024 and 2025. This sustained progress is predominantly fuelled by significant traction observed across Advanced Economies worldwide. Projections indicate a gradual increase in the growth rate, rising from 1.6% in 2023 to 1.7% in 2024, and further elevating to 1.8% by 2025 within these economies.

Despite ongoing challenges, economic activity thrived, bolstered by various factors, including greater-than-expected government spending, robust household consumption, and a significant expansion on the supply side. The stable employment landscape persisted, reflecting supportive demand dynamics and an unexpected boost to labour force participation.

Global headline inflation, on the other hand, is currently experiencing a downward trajectory, with forecasts indicating a decrease from 6.8% in 2023 to 5.9% in 2024, followed by a further decline to 4.5% in 2025. This deceleration primarily stems from a widespread reduction in core inflation, with advanced economies experiencing a more significant drop. Moreover, core inflation is projected to decrease by 1.2 percentage points in 2024, compared to a modest contraction in 2023. This trend indicates that there is a reduction in the inflation rates of fuel and food prices, which in turn, leads to a decrease in the overall inflation rates.

The ability of households in major advanced economies, to tap into substantial savings accumulated during the Covid-19 pandemic, is one of the significant contributors to this economic resilience, allowing for sustenance of consumption levels. Moreover, positive trends in employment and incomes, alongside the diminishing impact of earlier energy price shocks and robust immigration flows in advanced economies, further bolstered the global economic landscape.

Global Economic Growth (in %)

Indian Economy

The Indian economy soared to greater heights, demonstrating remarkable resilience with a growth rate of 7.6% in FY 2023-24. A multitude of factors, including an uptick in private consumption and a resurgence in rural spending, coupled with improvements in the balance sheets of banks and corporates drove this achievement. A thorough analysis reveals sustained double-digit growth in gross fixed capital formation, further bolstering the nation's positive economic outlook.

Notwithstanding the challenges in the global market, domestic demand conditions in India persisted with strong performance. Moreover, the Indian Government continued with substantial investments in public infrastructure, while simultaneously ramping up the financial sector. These investments played pivotal role in stabilising the economy amidst various external uncertainties.

Annexure-I

Outlook

India remains firm in its pursuit of achieving a US\$7 trillion economy by 2030, positioning itself as the world’s third-largest economy within next three years. Additionally, the Government is focussed on transforming the country into a developed nation by 2047, thereby potentially creating a huge surge in growth momentum. Driving this ambitious agenda are robust domestic demand, burgeoning private consumption and investments, and continuous structural reforms. Capital is set to play a crucial role in this landscape, expected to yield productivity gains through the synergy between physical and digital connectivity, alongside economic and procedural reforms. India Envisioning excellence in both manufacturing and services, India is poised for a solid and sustainable growth path.

INDUSTRY OVERVIEW

Global Automotive Industry

The automotive sector, a resilient driver of Indian economy, is witnessing an unprecedented wave of innovation in 2024,

tempered by a cautious atmosphere. Both passenger and commercial vehicle segments experienced phenomenal double-digit growth, surpassing 90 Mn units. This surge is driven by the burgeoning electric vehicle (EV) market, which continues to expand rapidly.

However, there is a noticeable slowdown in the sales of EVs in major markets. For instance, in the U.S., EV sales are expected to rise by only 16% year-on-year in 2024, a sharp drop from the 64% growth seen in 2023. Similarly, in China, the projected growth for 2024 is 11.1%, as opposed to 36.5% recorded in the previous year. This slowdown is linked to several factors, including reduced incentives, a lack of sufficient charging infrastructure, and market saturation among early adopters. In response to this trend, industry leaders are implementing a host of strategies, including price de-escalation aimed at attracting wider market segments. Despite concerted efforts, the slowdown persisted, prompting major automakers to revisit their strategies. This has led to adjustments in production and the postponement of new model launches. Interestingly, within the EV segment itself, diverging trends are observed. While the market for battery electric vehicles (BEVs) faces challenges, plug-in hybrid electric vehicles (PHEVs) are gaining popularity due to their lower initial costs and greater flexibility, addressing concerns over range anxiety.

Indian Automobile Industry

The Indian automobile industry, for a considerable duration, served as a dependable barometer of its economic vitality, reflecting its growth and technological progress. India commands a strong position in the international heavy vehicles market, having the compelling distinctions of being the largest tractor producer, the second-largest bus manufacturer, and the third-largest heavy truck producer globally. According to the data from the Society of Indian Automobile Manufacturers (SIAM), the total unit sales for the industry reached 2,83,53,955 in FY 2023-24, marking significant increase from FY 2022-23.

The automobile industry is poised for further growth, driven by key trends like vehicle electrification, particularly in three-wheelers and small passenger cars. A significant factor set to influence its trajectory is the transition towards EVs. With the Government aiming for a 30% EV penetration by 2030, a surge in demand is highly anticipated.

Domestic Sales Trend for Automobiles

Domestic sales of Passenger Vehicles in FY 2023-24 surged from 38,90,114 to 42,18,746 units. Additionally, sales of Commercial Vehicles, including medium, light, and heavy variants, increased from 9,62,468 units in FY 2022-23 to 9,67,878 units in FY 2023-24.

Furthermore, a substantial rise from 4,88,768 units to 6,91,749 were recorded in the sales of three-wheelers during the same period. Additionally, there was a surge two-wheeler sales, escalating from 1,58,62,771 units in FY 2022-23 to 1,79,74,365 in FY 2023-24.

Category	FY 2021-22	FY 2022-23	FY 2023-24
Passenger Vehicles	30,69,523	38,90,114	42,18,746
Commercial Vehicles	7,16,566	9,62,468	9,67,878
Three-Wheelers	2,61,385	4,88,768	6,91,749
Two-Wheelers	1,35,70,008	1,58,62,771	1,79,74,365
Quadricycle	124	725	725
Total	1,76,17,482	2,12,04,846	2,38,53,463

Indian Automotive Component Industry

The Indian automotive component industry witnessed a significant surge in investment in FY 2023-24, primarily directed towards capacity expansion and technological innovation - trends that are anticipated to persist. Substantial

capital injections are set to take place in 2024-25, aimed at introducing fresh products, refining existing product lines tailored to specific platforms, and propelling technological advancements. The notable shift in consumer preference towards larger and more powerful premium vehicles is gaining momentum across all segments. This trend is creating fresh avenues for value-added opportunities for auto component manufacturers. Furthermore, the share of electric vehicles is gradually rising in the overall automotive sales pie in India, constituting approximately 5% of the market share in FY 2022-23 and accounting for approximately 3% of total auto component consumption.

The auto-component manufacturers are expected to experience a consistent increase in annual revenue for 2024-25, both in domestic and international markets. This growth stems from the escalating demand for vehicle sales across all segments, reaching levels comparable to those observed before the onset of the Covid-19 pandemic.

Auto Component Industry Size (in US\$ Bn)

Particulars	FY 2021-22	FY 2022-23	FY 2023-24
Turnover	45.9	56.5	69.7
Sales to OEMs	37.7	45.8	59.3
After Market	8.7	10	10.6
Exports	13.3	19	20.1
Imports	13.8	18.3	20.3

Looking ahead, the Indian auto component suppliers are poised to benefit from a host of factors in the medium to long term. These include heightened participation in new platforms, greater value addition, and potential gains in the overseas aftermarket sector. Additionally, the shift towards electric vehicles, growing premiumisation of vehicles, ongoing localisation efforts, and evolving regulatory requirements are expected to be the growth enablers, characterised by an increase in content per vehicle.

Government Initiative

The Automotive Mission Plan: The Automotive Mission Plan 2016-26 (AMP 2026) outlines India's vision for the growth of automotive industry over the next decade. It sets a target for the industry to expand and achieve 3.5-4 times its current value, reaching approximately ₹ 16,160 – 18,885 Bn by 2026.

Annexure-I

This plan takes into account various GDP growth scenarios, with focus on areas such as size, contribution to development, global footprint, technology, competitiveness, and institutional capabilities.

PLI Scheme:

- **Automobile and Auto Components:** The Production Linked Incentive (PLI) Scheme for Automobile and Auto components boats a budget of ₹ 25,938 Crore spanning five years from FY 2022-23 to 2026-27. It aims to enhance the manufacturing of Advanced Automotive Technology (AAT) products, while encouraging their extensive localisation and fostering the development of both domestic and global supply chains. The scheme primarily targets Zero Emission Vehicles (ZEVs), including battery electric vehicles and hydrogen fuel cell vehicles to promote the thrust towards AAT.
- **EV Adoption:** The Government announced a host of policy measures to boost EV adoption in India, including the extension of the FAME-II scheme, the Production Linked Incentive (PLI) Scheme for Advanced Chemistry Cell (ACC) batteries, and new initiatives on battery swapping and energy. These policies are set to create a new paradigm of technological advancements within India's automotive supply chain, enhancing its global competitiveness.

Weakness

- Talbro's faces a limited presence in supplying components to the electric vehicle industry. However, to overcome this issue, it is actively expanding its product categories to diversify its presence across the automobile industry

Opportunities

- Talbro's is well-positioned to capitalise on the expanding global shift towards the adoption of electric vehicles, harnessing its robust product portfolio, including supplying parts for plug-in hybrid electric vehicles to OEMs worldwide
- The Company maintains a strong momentum in securing orders from leading domestic OEMs for electric vehicles, highlighting its substantial growth potential in the rapidly expanding EV market
- The Company persists with its ongoing diversification into non-automotive segments, offering new revenue streams and reducing reliance on a single sector

- The Company pursues export opportunities to expand the customer base beyond the domestic market, tapping into the growing global demand for automotive components
- The Company continues to prioritise R&D and innovation, with continuous efforts to enhance and adopt newer technologies, complementing in-house capabilities for developing embedded systems, application software, and integration capabilities
- The Company benefits from a multitude of Government initiatives, including PLI, Make in India campaign, and FAME-II (Faster Adoption and Manufacturing of Hybrid and Electric Vehicles), aimed at supporting the growth of Indian manufacturing units, and fostering a favourable business environment
- The Company thrives on the business ecosystem, marked by the influx of market players into the automotive development and manufacturing space, that is transforming India into a Global Automotive R&D hub
- The Company seeks to tap into the opportunity offered by the Indian Government's target of achieving 20% ethanol blending in petrol by 2025, building on the order worth approximately ₹ 150 Crores it has already received from multiple passenger vehicle OEMs in India to facilitate the E20 fuel mechanism

Threats

- Talbro's acknowledges the potential of commodity price volatility and supply chain disruptions to significantly impact manufacturing costs. Given this context, it is imperative for the Company to establish mechanisms to monitor and manage market risks, including volatilities in commodity prices. This may involve implementing hedging or offsetting strategies to maintain overall business profitability
- The Company faces the ripple effect of global crises, including future pandemics, economic downturns, or geopolitical tensions, disrupting vehicle demand and global supply chains. To mitigate such risks, it is essential for the Company to formulate contingency plans and pursue diversification strategies including localisation to safeguard its operations and finances

For the Financial Year ended March 31, 2024

*[Pursuant to section 204(1) of the Companies Act, 2013 and rule No.9 of the Companies
(Appointment and Remuneration Personnel) Rules, 2014]*

To,
The Members,
Talbro's Automotive Components Limited
14/1, Delhi Mathura Road,
P.O. Amar Nagar,
Faridabad, Haryana- 121003

I have conducted the secretarial audit of the compliance of applicable statutory provisions and the adherence to good corporate practices by **Talbro's Automotive Components Limited** (hereinafter called the Company). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts/ statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minute books, forms and returns filed and other records maintained by the company and also the information provided by the Company, its officers, agents and authorised representatives during the conduct of secretarial audit, I hereby report that in my opinion, the Company has, during the audit period covering the financial year ended on March 31, 2024 complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

I have examined the books, papers, minute books, forms and returns filed and other records maintained by **Talbro's Automotive Components Limited** for the financial year ended on March 31, 2024 according to the provisions of:

CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS AND OUTGO

[Section 134(3) (m) of Companies Act, 2013 read with Rule 8(3) of the Companies (Accounts) Rules, 2014]

A) Conservation of energy

i) The steps taken or impact on conservation of energy & utilising alternate sources of energy

- Vacuum pump running continually for 6mins process cycle for IWH rubber machine, high power consumption Vacuum pump power consumption of 7.5KW motor for 6mins x 8 cycles =6KWH

After installing timer, Vacuum pump power consumption of 7.5KW motor for 1mins x 8 cycles =1KWH.

Pump power saving hourly = 6KWH-1KWH = 5 KWH

Power saving = 24hrs x 5KWH = 120KWH for a day

Saving in price = 120x8 = ₹ 960 for a day

Saving in price = 960x24 = ₹ 23040 for a month

Total saving for a year = ₹ 23040 x 12 = ₹ 276480 p.a.

₹ 2,76,480 / Year

- Chiller running countinually, 3 Nos of pumps running for Desma machine Chiller, high power consumption Cooling tower pump power consumption of 7.5HP motor =5.5KWH

3Nos of pumps always active on load for maintaining the chiller water feeding

While using the individual pressure pump 3hp for chiller cooling tower line

Chiller on load reduces from 24hrs to 20hrs & 2Nos of pumps now active on load for maintaining the chiller water feeding

So, energy saving for chiller is = 24-22 hrs = 2 hrs

Pump power saving hourly = 5.5KWH-2.3KWH = 3.2 KWH = 24hrs*3.2KWH = 76KWH

If chiller consume 20Kwh x 24hrs = 480 KWH power consumption, then for 22 hrs will be = 440KWH

Power saving = 480-440KWH = 40KWH & 76KWH = 116KWH for a day

Saving in price = 928x24 = ₹ 22272 for a month

Total saving for a year = ₹ 22272 x 12 = ₹ 267264 p.a.

₹ 2,67,264 / Year

ii) The capital investment on energy conservation equipment = 1.6 lac Approx.

B) Technology absorption

i) The efforts made towards technology absorption

- Renewed TAA with Sanwa Packing Industry of Japan for Light Weight Nimbus Heat Shield with NVH feature to meet Indian Automotive OEMs requirement of new generation engines. Initiated development of such heat shields for Maruti Suzuki and Hyundai.
- Introduced gasket design with integrated electrical control features - required for functioning of Injectors and Brake.

Annexure VI (Contd.)

- MLS Cyl. Head gasket with Post Coating Technology through Technical Assistance Agreement with Sanwa Packing Industry of Japan.
- Developing high performance sealing technologies and materials to meet the requirement of new generation BS VI engines.
- Localisation of FKM Compound for partial coating on cylinder head gaskets with support from Sanwa Packing.
- Developed cyl. Head gasket samples for Hydrogen IC engine. These are under validation stage at customer end.
- Initiated development of leakage testing machine for optimising gasket design, material selection. This will get implemented in this financial year.

ii) The benefits derived like product improvement, cost reduction, product development or import substitution

- Indigenized new Sealing products for new platform engines (BS-IV emission complaints).
- Introduced Heat Shields for OEM customers for their new engines/vehicles.
- Reduction in cost of Multi-Layer Steel gaskets through Post Coating.
- Localisation of gasket fiber material with Interface Performance Material.
- Localisation of Rubber Compounds for sealing application.

iii) In case of imported technology (imported during the last three years reckoned from the beginning of the financial year)-

- (i) The details of technology imported - Technology for Manufacture of Heat-Shield and Post Coating
- (ii) The year of import – 2011
- (iii) Whether the technology been fully absorbed – As our Heat Shield and Post Coating project has been set up, the technology absorption is happening.
- (iv) If not fully absorbed areas where absorption is taking place and the reasons thereof, and - NA
- (v) the expenditure incurred on Research and Development - NIL.

(C) Foreign exchange earnings and Outgo:

REPORT ON CORPORATE GOVERNANCE

1. COMPANY'S PHILOSOPHY ON CODE OF CORPORATE GOVERNANCE

Corporate Governance is an ethically-driven business process that is committed to values aimed at enhancing an organisation's capacity to create wealth. This is ensured by taking ethical business decisions and conducting business with a firm commitment to values, while meeting stakeholders' expectations.

At Talbros, the Company's affairs are managed in a fair and transparent manner and it is ensured that we gain and retain the trust of our stakeholders at all times.

The Management and Employees of the Company are committed to value transparency, integrity, honesty and accountability which are fundamental core values of Corporate Governance.

The Company is in compliance with the requirements stipulated under Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (hereinafter referred as "SEBI Listing Regulations") with respect to corporate governance and a report on Corporate Governance in accordance with Part C of Schedule V to the SEBI Listing Regulations is outlined below:

2. BOARD OF DIRECTORS

Composition of the Board

As on March 31, 2024, the Board of Directors comprised of Twelve (12) Directors – Two (2) Executive Directors and Ten (10) Non-Executive Directors out of which Six (6) Directors are Independent Directors including one Woman Director.

The composition of the Board of Directors of the Company is in conformity with the stipulated requirements of Regulation 17(1) of the SEBI Listing Regulations and Section 149 of the Companies Act, 2013 (hereinafter referred as "Act").

The Chairman of the Board is a Non-Executive Promoter Director and the number of Independent Directors is not less than half of the total number of Directors of the Company.

The Directors hold qualifications and possess requisite experience/ skills/ expertise and competencies in General Corporate Management, Finance, Legal, Banking, Economics and other allied fields as identified

by the Board in context of Company's business to function effectively. These skills enable Directors to contribute effectively in making decisions for the Company and these skills for each Director are mentioned in a separate matrix later in this report. Detailed profile of each of the Directors is available on the Company's website viz. www.talbro.com.

The necessary disclosures regarding other directorships and committee positions have been made by the Directors confirming that none of the Directors on the Board is a member of more than Ten (10) Committees and Chairman of more than Five (5) Committees across all the companies in which he is a Director (as specified in Regulation 26 of SEBI Listing Regulations).

During the year 2023-24, no changes took place in the composition of Board of Directors.

Independent Directors are Non-Executive Directors as defined under Regulation 16(1)(b) of the SEBI Listing Regulations read with Section 149(6) of the Act along with rules framed thereunder. Based on the declarations received from the Independent Directors, the Board of Directors have confirmed that they meet the criteria of independence as mentioned under Regulation 16(1) (b) of the SEBI Listing Regulations and that they are independent of the management.

None of the Directors serve as an Independent Director in more than Seven (7) listed companies as per the requirement of Regulation 17A of SEBI Listing Regulations. It is also confirmed that in the opinion of the Board, all the Independent Directors fulfill the conditions specified in these regulations and are independent of the management.

Familiarisation Programme

The Independent Directors are familiarized with the Company's business model and the regular Industry updates through presentations in the Board Meetings. Interactive sessions with senior leadership team and functional heads in Board Meetings also enables better understanding of business strategy, operational performance, product offerings and market initiatives etc. The roles, rights and responsibilities of Independent Directors are also updated through discussion in Board Meetings and are also included in their Appointment letters as posted on Company's website i.e., <https://www.talbro.com/>

**STANDALONE
FINANCIAL STATEMENTS**

INDEPENDENT AUDITORS' REPORT

To the Members of

Talbro Automotive Components Limited

REPORT ON THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Opinion

We have audited the accompanying Standalone financial statements of **Talbro Automotive Components Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2024, the Statement of Profit and Loss (including other comprehensive income), the Statement of Changes in Equity and the Statement for Cash Flows for the year ended on that date, and notes to the financial statement including a summary of material accounting policies and other explanatory information (hereinafter referred to as the "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of the affairs of the Company as at March 31, 2024, its profit and total comprehensive income, changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of standalone financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be the key audit matter to be communicated in our report.

Sr. No.	Key Audit Matter	Auditor's Response
1	<p>Valuation Of complex instruments involving high estimation uncertainty</p> <p>The Company has material long-term investments in group companies which are un-quoted.</p>	<p>Principal Audit Procedures</p> <p>We have verified the company's shareholding in the investment in equity instruments which are fair valued by the company.</p> <p>We have verified the reasonableness of the assumptions used and the valuation technique used to determine the fair value.</p>

Information other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Corporate Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and in doing so, consider whether the other information is materially inconsistent with the standalone financial statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement in this other information, we

Independent Auditors' Report (Contd.)

are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, cash flows and changes in equity of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Board of Directors and management are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of Standalone Financial Statements

Our Objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic

decision of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and to obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the company has an adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If we conclude that material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, Structure, and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Independent Auditors' Report (Contd.)

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by Section 143 (3) of the Act, based on our audit we report that:
 - (a) We have sought and obtained all the information and explanations, which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - (b) In our opinion, proper books of account as required by the law have been kept by the Company so far as it appears from our examination of those books.
 - (c) The Balance Sheet, the Statement of Profit and Loss including other comprehensive income, the Statement of Cash Flows and the Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account.
 - (d) In our opinion, the aforesaid standalone financial statements comply with Ind AS specified under Section 133 of the Act, read with relevant rules issued there under.
 - (e) On the basis of the written representations received as on March 31, 2024, taken on record by the Board

of Directors, none of the directors are disqualified as on March 31, 2024, from being appointed as a director in terms of Section 164 (2) of the Act.

- (f) With respect to the adequacy of the internal financial controls over the financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" which is based on the auditor's report of the company. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls over financial reporting.
- (g) With respect to the other matters to be included in the Auditor's report in accordance with the requirements of section 197(16) of the Act, as amended:

In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.

- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - (i) The company has disclosed the impact of pending litigations on its financial position in its standalone financial statements. Refer to Note 39 to the standalone financial statements.
 - (ii) The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - (iii) There has been no delay in transferring amounts, required to be transferred to Investor Education and Protection Fund by the Company.
 - (iv) (a) The management has represented that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have

Independent Auditors' Report (Contd.)

- been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (b) The Management has represented, that, to the best of its knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- (v) As stated in Note 37(B) to the standalone financial statements:
- (a) The final dividend proposed in the previous year, declared, and paid by the Company during the year is in accordance with Section 123 of the Act, as applicable;
- (b) The interim dividend declared and paid by the Company during the year complies with Section 123;
- (c) The Board of Directors of the Company have proposed a final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable.
- (vi) Based on our examination, which included test checks, the Company has used two different accounting software namely Oracle Platform-based ERP Software and Integral Infogen Technology Private Limited (ERP 10 G) for maintaining its books of account at different locations for the financial year ended March 31, 2024.
- a. Oracle Platform-based ERP software has a feature of recording audit trail (edit log) facility implemented from April 01, 2023 and the same has operated throughout the year for all relevant transactions recorded in the software.
- b. Integral Infogen Technology Private Limited (ERP 10 G) software has a feature of recording audit trail (edit log) facility implemented from May 01, 2023 and the same has subsequently operated throughout the year for all relevant transactions recorded in the Finance module of the software.
- Further, during our audit, we did not come across any instance of the audit trail feature being tampered with.
- As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from April 1, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on the preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended March 31, 2024.

Independent Auditors' Report (Contd.)

2. As required by the Companies (Auditor's Report) Order, 2020 (the "Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of Talbro's Automotive Components Limited of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 (the “Act”)

We have audited the internal financial controls over the financial reporting of Talbro's Automotive Components Limited (“the Company”) as of March 31, 2024, in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by The Institute of Chartered Accountants of India.

These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by The Institute of Chartered Accountants of India and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal

financial controls over financial reporting were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness.

Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that:

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company.
- (2) provide reasonable assurance that transactions are recorded as necessary to permit the preparation of financial statements in accordance with generally accepted accounting principles, and those receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) provide reasonable assurance regarding the prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Annexure 'A' To The Independent Auditor's Report (Contd.)**Inherent Limitations of Internal Financial Controls Over Financial Reporting**

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024

based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

ANNEXURE 'B' TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 2 under 'Report on Other Legal and Regulatory Requirements' section of our report to the Members of Talbros Automotive Components Limited of even date)

- i. (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment, investment property, capital work-in-progress and relevant details of right-of-use assets.
 - (B) The Company has maintained proper records showing full particulars of intangible assets.
- (b) The Company has a program of physical verification of Property, Plant and Equipment, Right-of-use Assets, Investment Property and Capital Work-in-Progress so as to cover all the assets once every three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain Property, Plant and Equipment, Right of use Assets, Investment Property and Capital Work-in-Progress were due for verification during the year and were physically verified by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed in such verification
- (c) Based on our examination of the property tax receipts and lease agreements for the land on which the building is constructed and confirmation from the lenders with whom title deeds have been deposited as security for availing the banking facilities, we report that the title in respect of self-constructed buildings and title deeds of all other immovable properties (other than properties where the company is the lessee and the lease agreements are duly executed in favour of the lessee), disclosed in the financial statements included under Property, Plant and Equipment and Investment Property are held in the name of the company as at the balance sheet date.
- (d) The Company has not revalued any of its Property, Plant and Equipment (including right-of-use assets) and intangible assets during the year.
- (e) No proceedings have been initiated during the year or are pending against the Company as at March 31, 2024, for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.
- ii. (a) According to the information and explanations given to us, inventories have been physically verified by the management at reasonable intervals during the year, except for inventories lying with third parties for which certificates confirming inventories held by them have been obtained in most of the cases. The discrepancies noticed on physical verification of inventories as compared to book records were less than 10% in aggregate for each class of inventory and the same has been properly dealt within books of account.
 - (b) The Company has been sanctioned working capital limits in excess of ₹ 5 crores, in the aggregate, from banks on the basis of security of current assets during the year and the quarterly returns or statements filed by the company with such banks or financial institutions are in agreement with the books of account of the company. Items of reconciliation have been duly identified between the quarterly returns and books of account of the company.
- iii. The Company has not made investments in, provided any guarantee or security, or granted any loans or advances in the nature of loans, secured or unsecured, to companies, firms, Limited Liability Partnerships or any other parties during the year, and hence reporting under clause 3(iii)(a), (b), (c), (d), (e) and (f) of the Order are not applicable.
- iv. In our opinion and according to the information and explanations given to us, the Company has not entered any transaction covered under section 185 of the Act. However, the company has complied with the provisions of Section 186 of the Act in respect of grant of loans, making investments and providing guarantees and securities, as applicable.
- v. In our opinion and according to the information and explanations given to us, the Company has complied with the directives issued by the Reserve Bank of India, the provisions of Sections 73 to 76 and other relevant

Annexure 'B' To The Independent Auditor's Report (Contd.)

provisions of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended) as applicable, regarding the deposits accepted. According to the information and explanations given to us, no order has been passed by the Company Law Board or National Company Law Tribunal or Reserve Bank of India or any Court or any other Tribunal, in this regard. The Company has not accepted any amounts which are deemed to be deposits, and hence reporting under clause 3 (v) of the order is not applicable.

- vi. We have broadly reviewed the books of account maintained by the Company pursuant to the Rules made by the Central Government for the maintenance of cost records under sub-section (1) of Section 148 of the Act in respect of the Company's products and are of the opinion that prima facie, the prescribed accounts and records have been made and maintained. However, we have not made a detailed examination of the cost records with a view to determine whether they are accurate or complete.

- vii. In respect of statutory dues:

- (a) In our opinion, the Company has generally been regular in depositing undisputed statutory dues, including Goods and Services Tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, Cess, and other material statutory dues applicable to it with the appropriate authorities.

There were no undisputed amounts payable in respect of Goods and Service Tax, Provident Fund, Employees' State Insurance, Income Tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, Cess, and other material statutory dues in arrears as at March 31, 2024, for a period of more than six months from the date they became payable.

- (b) Details of statutory dues referred to in sub-clause (a) above which have not been deposited as on March 31, 2024, on account of disputes are given below:

Name of the statute	Nature of dues	Amount (Rs. In Lakhs)	Amount paid under protest (Rs. In Lakhs)	Period to which the amounts relate	Forum where the dispute is pending
Finance Act, 1994	Cenvat-Credit disallowed	8.85	-	2007-08 to 2010-11	Assistant Commissioner Faridabad
Custom Act, 1962	Demand of Custom Duty	28.12	4.13	FY 2012-13, 2014-15, 2015-16	The Customs, Excise and Service Tax Appellate Tribunal
Custom Act, 1962	Demand of Custom Duty	7.97	-	2013-14	Deputy Commissioner of Customs, Delhi
Uttarakhand VAT Act, 2005	Value Added tax	38.67	-	FY 2016-17	Deputy Commissioner

- viii. There were no transactions relating to previously unrecorded income that have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).

- ix. (a) In our opinion and according to the information and explanations given to us, the Company has not defaulted in repayment of loans or other borrowings or in the payment of interest to any lender.
- (b) The Company has not been declared a willful defaulter by any bank or financial institution or government or any government authority.

- (c) On an overall examination of the financial statements of the Company and according to the information and explanations given to us, the term loans were applied for the purpose for which the loans were obtained.

- (d) On an overall examination of the financial statements of the Company, funds raised on short- term basis have, prima facie, not been used during the year for long-term purposes by the Company.

- (e) On an overall examination of the financial statements of the Company, the Company has not taken any

Annexure 'B' To The Independent Auditor's Report (Contd.)

- funds from any entity or person on account of or to meet the obligations of its joint ventures.
- (f) The Company has not raised loans during the year on the pledge of securities held in its joint ventures.
- x. (a) The Company has not raised moneys by way of an initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause 3(x)(a) of the Order is not applicable.
- (b) During the year, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause 3(x)(b) of the Order is not applicable.
- xi. (a) No fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
- (b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and up to the date of this report.
- (c) As represented to us by the management, there are no whistleblower complaints received by the Company during the year.
- xii. The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable.
- xiii. In our opinion, the Company is in compliance with Sections 177 and 188 of the Companies Act, 2013 with respect to applicable transactions with the related parties and the details of related party transactions have been disclosed in the standalone financial statements as required by the applicable accounting standards.
- xiv. (a) In our opinion, the Company has an adequate internal audit system commensurate with the size and the nature of its business.
- (b) We have considered, the internal audit reports for the year under audit, issued to the Company during the year and till date, in determining the nature, timing and extent of our audit procedures.
- xv. In our opinion during the year, the Company has not entered into any non-cash transactions with its directors or persons connected with its directors. and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
- xvi. (a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause 3(xvi)(a), (b) and (c) of the Order is not applicable.
- (b) In our opinion, there is no core investment company within the Group (as defined in the Core Investment Companies (Reserve Bank) Directions, 2016) and accordingly reporting under clause 3(xvi)(d) of the Order is not applicable.
- xvii. The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
- xviii. There has been no resignation of the statutory auditors of the Company during the year.
- xix. On the basis of the financial ratios disclosed in note 43F to the Financial Statements, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of the balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- xx. (a) There are no unspent amounts towards Corporate Social Responsibility (CSR) on other than ongoing projects requiring a transfer to a Fund specified in

Annexure 'B' To The Independent Auditor's Report (Contd.)

Schedule VII to the Companies Act in compliance with the second proviso to sub-section (5) of Section 135 of the said Act. Accordingly, reporting under clause 3(xx)(a) of the Order is not applicable for the year.

- (b) In our opinion, there are no ongoing projects and accordingly reporting under clause 3(xx)(b) of the Order is not applicable.

NOTES TO THE FINANCIAL STATEMENTS

for the year ended March 31, 2024

1. CORPORATE INFORMATION

Talbro's Automotive Components Limited ("the Company") is a public company incorporated and domiciled in India. The Company's shares are listed with Bombay Stock Exchange and National Stock Exchange. The Company is in the business of manufacturing Gaskets and forging. The Company has its registered place of business at 14/1, Mathura Road, P.O Amar Nagar, Faridabad 121003, Haryana, India.

These financial statements are standalone financial statements of the Company. The Company has also prepared consolidated financial statements for the year ended March 31, 2024 in accordance with Ind AS 110 and the same were also approved for issue by the Board of Directors on May 22, 2024.

1.1 Material Accounting policies

a) Basis of preparation

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules, 2015 amended from time to time.

The financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value or revalued amount:

- Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments); and
- Defined benefit plans – plan assets measured using actuarial valuation.

The significant accounting policies that are used in the preparation of these financial statements are summarised below. These accounting policies are consistently used throughout the periods presented in the financial statements.

b) Significant accounting judgements, estimates and assumptions

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions.

These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed below. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Significant management judgments

Recognition of deferred tax assets - The extent to which deferred tax assets can be recognised is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilised.

Provisions, contingent liabilities and contingent assets

The Company is the subject of legal proceedings and tax issues covering a range of matters, which are pending in various jurisdictions. Due to the uncertainty inherent in such matters, it is difficult to predict the final outcome of such matters. The cases and claims against the Company often raise difficult and complex factual and legal issues, which are subject to many uncertainties, including but not limited to the facts and circumstances of each particular case and claim, the jurisdiction and the differences in applicable law. In the normal course of business, management consults with legal counsel and certain other experts on matters related to litigation and taxes. The Company accrues a liability when it is determined that an adverse outcome is probable and the amount of the loss can be reasonably estimated.

Notes to the Financial Statements for the year ended March 31, 2024 (Contd.)

Impairment of financial assets – At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit loss on outstanding financial assets.

Evaluation of indicators for impairment of assets – The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

Leases – The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Company uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Company to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Company revises the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

Significant estimates

Useful lives of depreciable/amortisable assets – Management reviews its estimate of the useful lives of depreciable/amortisable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of certain software, IT equipment and other plant and equipment.

Defined benefit obligation – Management's estimate of the DBO is based on a number of critical underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Fair value measurements

Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument.

c) **Current versus non-current classification**

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle*
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle*
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Notes to the Financial Statements for the year ended March 31, 2024 (Contd.)

Deferred tax assets and liabilities are classified as non-current assets and liabilities respectively.

*Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

d) Inventory

Inventories are valued as follows:

Raw material, stores and spares

Raw materials, stores and spares are valued at lower of cost and net realisable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost of raw materials, components and stores and spares is determined on a first in first out (FIFO) basis. Stores and spares having useful life of more than twelve months are capitalised as "Property, plant and equipment" and are depreciated prospectively over their remaining useful lives in accordance with In AS 16.

Work in progress and finished goods

Work in progress and finished goods are valued at lower of cost and net realisable value. Cost includes raw material cost and a proportion of direct and indirect overheads up to estimated stage of completion. Cost is determined on a weighted average basis.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

e) Property, plant and equipment

Recognition and initial measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses. The cost comprises purchase price, borrowing cost if capitalisation criteria are met and directly attributable cost of bringing the asset to its working

condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits attributable to such subsequent cost associated with the item will flow to the Company and the benefit shall be availed over a period of more than 1 year. All other repair and maintenance costs are recognised in statement of profit or loss as incurred.

Subsequent measurement (depreciation and useful lives)

Depreciation on Plant & Machinery and Computers is provided on straight-line basis and for all other categories of Property, Plant and Equipment, depreciation is provided on written down value method.

Depreciation is provided on the useful life of the assets as prescribed in Schedule II of the Companies Act, 2013 except in respect of the following assets, where useful life is different than those prescribed in Schedule II:

Particulars	Useful life
Plant and Machinery	22 years
Buildings	30 years
Computers*	6 years
Furniture & fixtures	5 years
Vehicles	10 years
Office Equipment	5 years
Electrical installations	15 years
Mould and dies*	6 years
Tube wells	10 years
Air-conditioning plant	10 years

*Computers and Mould and dies are classified under Plant and Machinery in Note 2 to the financial statements.

The residual values, useful lives and method of depreciation of are reviewed at each financial year end and adjusted prospectively, if appropriate.

In case during any financial year, any addition has been made to any asset, or where any asset has been sold, discarded, demolished or destroyed,

Notes to the Financial Statements for the year ended March 31, 2024 (Contd.)

or significant components replaced; depreciation on such assets is calculated on a pro rata basis on individual assets with specific useful life from the date of such addition or, as the case may be, up to the date on which such asset has been sold, discarded, demolished or destroyed or replaced.

De-recognition

An item of property, plant and equipment and any significant part initially recognised is de-recognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognised.

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all its property, plant and equipment recognised as at April 01, 2016 measured as per the provisions of previous GAAP and use that carrying value as the deemed cost of property, plant and equipment.

f) Intangible assets***Recognition and initial measurement***

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any. Internally generated intangible assets, excluding product development costs, are not capitalised and expenditure is reflected in the statement of profit and loss in the year in which the expenditure is incurred.

Subsequent measurement (Amortisation and useful lives)

All finite-lived intangible assets, including internally developed intangible assets, are accounted for using the cost model whereby capitalised costs are amortised on a straight-line basis over their estimated useful lives. Residual values and useful lives are reviewed at each reporting date and any

change in the same is accounted for prospectively. The following useful lives are applied:

Intangible assets	Amortisation period
Computer Software	3-5 years
Technical know how	10 years

De-recognition

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all its intangible assets recognised as at April 01, 2016 measured as per the provisions of previous GAAP and use that carrying value as the deemed cost of intangible assets.

g) Investment property

Investment properties are properties held to earn rentals and/or for capital appreciation. Investment properties are measured initially at cost including transaction costs. Subsequent to initial recognition the investment properties are stated at cost less accumulated depreciation.

Depreciation is recognised on a straight-line basis to write down the cost less estimated residual value of investment properties other than land.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on de-recognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in statement of profit or loss in the period in which the investment property is derecognised.

properties recognised as at April 01, 2016 measured as per the provisions of previous GAAP and use that carrying value as the deemed cost of investment properties.

h) Leases

Company as a lessee

The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognises a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses. Right-of-use assets are depreciated from the commencement date on a straight-line basis over

the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Company as a lessor

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Contingent rents are recognised as revenue in the period in which they are earned.

The Company does not have any finance lease as a lessor.

i) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

Notes to the Financial Statements for the year ended March 31, 2024 (Contd.)

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is Unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period or each case.

j) Revenue recognition

Revenue arises mainly from the sale of manufactured and traded goods. To determine whether to recognise revenue, the Company follows a 5-step process:

1. Identifying the contract with a customer
2. Identifying the performance obligations
3. Determining the transaction price

4. Allocating the transaction price to the performance obligations
5. Recognising revenue when/as performance obligation(s) are satisfied.

Revenue is measured at fair value of the consideration received or receivable, exclusive of any trade discounts, volume rebates and any taxes or duties collected on behalf of the government which are levied on sales such as sales tax, value added tax, etc. Revenue is recognised either at a point in time or over time, when (or as) the Company satisfies performance obligations by transferring the promised goods or services to its customers.

The Company recognises contract liabilities for consideration received in respect of unsatisfied performance obligations and reports these amounts as other liabilities in the balance sheet. Similarly, if the Company satisfies a performance obligation before it receives the consideration, the Company recognises either a contract asset or a receivable in its balance sheet, depending on whether something other than the passage of time is required before the consideration is due.

The Company applies the revenue recognition criteria to each separately identifiable component of the revenue transaction as set out below:

Sale of goods and services

Revenue from sale of goods is recognised when the control of goods is transferred to the buyer as per the terms of the contract, in an amount that reflects the consideration the Company expects to be entitled to in exchange for those goods. Control of goods refers to the ability to direct the use of and obtain substantially all of the remaining benefits from goods. The Company considers whether there are other promises in the contract that are separate performance obligations to which a portion of the transaction price is allocated.

Revenue from services is recognised when Company satisfies the performance obligations by transferring the promised services to its customers.

Notes to the Financial Statements for the year ended March 31, 2024 (Contd.)

k) Financial instruments

Recognition and initial measurement

Financial assets and financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument and are measured initially at fair value adjusted for transaction costs, except for those carried at fair value through profit or loss which are measured initially at fair value.

Subsequent measurement

Financial assets

i. Financial assets carried at amortised cost –

A financial instrument is measured at amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest method.

ii. Financial assets at fair value

- **Investments in equity instruments** – Investments in equity instruments which are held for trading are classified as at fair value through profit and loss (FVTPL). For all other equity instruments, the Company makes irrevocable choice upon initial recognition, on an instrument-to-instrument basis, to classify the same either as at fair value through other comprehensive income (FVOCI) or fair value through profit and loss (FVTPL).
- If the Company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the other comprehensive income (OCI).

There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of investment. However, the Company transfers the cumulative gain or loss within equity. Dividends on such investments are recognised in the statement of profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment.

De-recognition of financial assets

A financial asset is de-recognised when the rights to receive cash flows from the asset have expired or the Company has transferred its rights to receive cash flows from the asset.

Financial liabilities

Subsequent to initial recognition, all non-derivative financial liabilities, other than derivative liabilities, are subsequently measured at amortised cost using the effective interest method.

De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

l) Impairment of financial assets

In accordance with Ind AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss for financial assets.

Notes to the Financial Statements for the year ended March 31, 2024 (Contd.)

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive. When estimating the cash flows, the Company considers the following:

- All contractual terms of the Financial Assessments (including prepayment and extension) over the expected life of the assets.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Trade receivables

As a practical expedient the Company has adopted 'simplified approach' using the provision matrix method for recognition of expected loss on trade receivables. The provision matrix is based on three-years rolling average default rates observed over the expected life of the trade receivables and is adjusted for forward-looking estimates. These average default rates are applied on total credit risk exposure on trade receivables and outstanding for more than one year at the reporting date to determine lifetime Expected Credit Losses.

Other financial assets

For recognition of impairment loss on other financial assets and risk exposure, the Company determines whether there has been a significant increase in the credit risk since initial recognition and if credit risk has increased significantly, impairment loss is provided.

m) Investment in joint ventures

Investments in joint ventures are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of these investments, the difference between net disposal proceeds and the carrying amounts are recognised in the Statement of Profit and Loss.

n) Retirement and other employee benefits**Provident fund**

Retirement benefit in the form of provident fund is a defined contribution scheme. The Company has

no obligation, other than the contribution payable to the provident fund. The Company recognises contribution payable to the provident fund scheme as an expense, when an employee renders the related service. The Company has no obligation other than the contribution payable to the Provided Fund.

Gratuity

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of the gratuity plan, which is a defined benefit plan, is calculated by estimating the ultimate cost to the entity of the benefit that employees have earned in return for their service in the current and prior periods. This requires an entity to determine how much benefit is attributable to the current and prior periods and to make estimates (actuarial assumptions) about demographic variables and financial variables that will affect the cost of the benefit. The cost of providing benefits under the defined benefit plan is determined using actuarial valuation performed annually by a qualified actuary using the projected unit credit method. Actuarial gains/losses resulting from re-measurements of the liability are included in other comprehensive income.

Compensated absence

Compensated absence, which is expected to be utilised within the next 12 months, is treated as short term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats compensated absence expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred.

Notes to the Financial Statements for the year ended March 31, 2024 (Contd.)

Other short-term benefits

Expense in respect of other short-term benefits is recognised on the basis of amount paid or payable for the period during which services are rendered by the employees.

o) Taxes

Tax expense recognised in statement of profit and loss comprises the sum of deferred tax and current tax except the ones recognised in other comprehensive income or directly in equity.

Current tax is determined as the tax payable in respect of taxable income for the year and is computed in accordance with relevant tax regulations. Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity).

Deferred tax is recognised in respect of temporary differences between carrying amount of assets and liabilities for financial reporting purposes and corresponding amount used for taxation purposes. Deferred tax assets on unrealised tax loss are recognised to the extent that it is probable that the underlying tax loss will be utilised against future taxable income. This is assessed based on the Company's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit or loss (either in other comprehensive income or in equity).

p) Provisions, contingent liabilities and contingent assets

A provision is recognised when the Company has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions determined based on the best estimate required to settle the obligation at the reporting date and adjusted to reflect the current best estimates.

Provisions are discounted to their present values, where the time value of money is material.

Contingent liabilities are disclosed on the basis of judgement of management after a careful evaluation of facts and legal aspects of matter involved.

Contingent assets are disclosed when probable and recognised when the realisation of income is virtually certain.

1.2 Other accounting policy information

a) Impairment of non-financial assets

The carrying amounts of the Company's non-financial assets, other than inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the 'cash-generating unit'). The recoverable amount of an asset or cash-generating unit is the greater of its value in use or its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its estimated recoverable amount.

Notes to the Financial Statements for the year ended March 31, 2024 (Contd.)

Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit on a pro-rata basis. Impairment losses are recognised in the statement of profit and loss.

Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

b) Government grant

Grants and subsidies from the government are recognised when there is reasonable assurance that (i) the Company will comply with the conditions attached to them, and (ii) the grant/subsidy will be received.

Grant or subsidy relates to revenue, it is recognised as income on a systematic basis in statement of profit and loss over the periods necessary to match them with the related costs, which they are intended to compensate.

c) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest calculated using the effective interest rate and other costs like finance charges in respect of the leases recognised in accordance with Ind AS 116, that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

d) Foreign currency transactions*Functional and presentation currency*

The financial statements are presented in Indian Rupees (₹), which is also the Company's functional and presentation currency.

*Foreign currencies**Initial recognition*

Transactions in foreign currencies are initially recorded by the Company at exchange rates at the date the transaction first qualifies for recognition.

Subsequent measurement

Monetary assets and liabilities denominated in foreign currencies are translated at the exchange rates at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in the statement of profit or loss in the year in which they arise.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions.

All other exchange differences are charged to the statement of profit and loss.

e) Other income**Dividend income**

Dividend income is recognised at the time when right to receive the payment is established, which is generally when the shareholders approve the dividend.

Interest income

Interest income is recorded on accrual basis using the effective interest rate (EIR) method.

Export incentives

Export incentives are accounted on accrual basis.

f) Earnings per share

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to

Notes to the Financial Statements for the year ended March 31, 2024 (Contd.)

equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

g) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

1.3 Recent accounting pronouncements which are not yet effective

As on date of these standalone financial statements, Ministry of Corporate Affairs ('MCA') has not issued any standards/amendments to accounting standards which are effective from April 01, 2024.

The Company obtains independent valuation for its investment property at least annually and are considered to be a fair representation at which such properties can be sold in an active market. Fair value measurement has been categorised as Level 3. The best evidence of fair value is current prices in an active market for similar property. Where such information is not available, the Company considers the average price of similar property and appropriate depreciation has been accounted for arriving at fair and reasonable value.

NOTE - 35**Fair value disclosures****(i) Fair values hierarchy**

Financial assets and financial liabilities measured at fair value in the balance sheet are categorised into three levels of fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: quoted prices (unadjusted) in active markets for financial instruments.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: unobservable inputs for the asset or liability

(ii) Financial assets and liabilities measured at fair value - recurring fair value measurements

March 31, 2024	Level 1	Level 2	Level 3	Total

Total financial liabilities	-	37.30	-	37.30

(iii) Valuation technique used to determine fair value

Specific valuation techniques used to value financial instruments include:

- the use of adjusted net asset value method for certain equity investment and discounted cash flow method (income approach) for remaining equity instruments.

(iv) The following table summarises the quantitative information about the significant unobservable inputs used in level 3 fair value measurements. See (iii) above for the valuation techniques adopted.

Particulars	Fair value as at		Significant unobservable inputs	Data inputs		Sensitivity*

Total financial liabilities		786.93	786.33	1,256.43	1,255.89

The management assessed that cash and cash equivalents, other bank balances, trade receivables, other financial asset, trade payables, other financial liabilities and short-term borrowings approximate their carrying amounts largely due to the short-term maturities of these instruments. The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

- (i) Long-term fixed-rate and variable-rate receivables are evaluated by the Company based on parameters such as interest rates, individual creditworthiness of the customer and other market risk factors. Based on this evaluation, allowances are taken into account for the expected credit losses of these receivables.
- (ii) The fair values of the Company's interest-bearing borrowings, loans and receivables are determined by applying discounted cash flows ('DCF') method, using discount rate that reflects the issuer's borrowing rate as at the end of the reporting period. The own non-performance risk as at March 31, 2024 was assessed to be insignificant.

(ii) Risk management framework

The Company's activities expose it to market risk, liquidity risk and credit risk. Following are the sources of risk which the Company is exposed to and how the Company manages the risk and the related impact in the financial statements.

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables, financial assets measured at amortised cost	Aging analysis	Bank deposits, diversification of asset base, credit limits and collateral.
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities
Market risk - foreign exchange	Recognised financial assets and liabilities not denominated in Indian rupee (₹)	Cash flow forecasting	Forward contract/hedging, if required
Market risk - interest rate	Long-term borrowings at variable rates	Sensitivity analysis	Negotiation of terms that reflect the market factors
Market risk - security price	Investments in equity securities	Sensitivity analysis	Company has investments in equity shares, except for entities where it exercises control or joint control or significant influence.

The Company's risk management is carried out by a central treasury department (of the Company) under policies approved by the board of directors. The board of directors provides written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk and investment of excess liquidity.

Notes to the Financial Statements for the year ended March 31, 2024 (Contd.)

NOTE - 36 FINANCIAL RISK MANAGEMENT (CONTD.)

(A) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investments in debt securities. The carrying amount of financial assets represents the maximum credit exposure.

- cash and cash equivalents,
- trade receivables,
- loans & receivables carried at amortised cost, and
- deposits with banks and financial institutions

a) Credit risk management

The Company assesses and manages credit risk based on internal credit rating system, continuously monitoring defaults of customers and other counterparties, identified either individually or by the Company, and incorporates this information into its credit risk controls. Internal credit rating is performed for each class of financial instruments with different characteristics. The Company assigns the following credit ratings to each class of financial assets based on the assumptions, inputs and factors specific to the class of financial assets.

A: Low

B: Medium

C: High

Assets under credit risk –

Credit rating	Particulars	March 31, 2024	March 31, 2023
A: Low	Loans	270.43	388.20
	Other financial assets	7,182.15	420.18
	Cash and cash equivalents	236.05	528.41
	Other bank balances	283.48	281.95
B: Medium	Trade receivables	21,601.74	17,241.60

Cash & cash equivalents and bank deposits

Credit risk related to cash and cash equivalents and bank deposits is managed by only accepting highly rated banks and diversifying bank deposits and accounts in different banks.

Trade receivables

Credit risk related to trade receivables are mitigated by taking bank guarantees from customers where credit risk is high. The Company closely monitors the credit-worthiness of the debtors through internal systems that are configured to define credit limits of customers, thereby, limiting the credit risk to pre-calculated amounts. The Company assesses increase in credit risk on an ongoing basis for amounts receivable that become past due and default is considered to have occurred when amounts receivable become past due.

Other financial assets measured at amortised cost

Other financial assets measured at amortised cost includes loans and advances to employees, security deposits and others. Credit risk related to these other financial assets is managed by monitoring the recoverability of such amounts continuously, while at the same time internal control system in place ensure the amounts are within defined limits.

(All amounts in ₹ Lacs, unless otherwise stated)

NOTE - 36 FINANCIAL RISK MANAGEMENT (CONTD.)

b) Expected credit losses

Trade receivables

- (i) The Company recognises lifetime expected credit losses on trade receivables using a simplified approach, wherein Company has defined percentage of provision by 'analysing historical trend of default relevant based on the criteria defined above. And such provision percentage determined have been 'considered to recognise life time expected credit losses on trade receivables (other than those where default criteria are met).

Particulars	March 31, 2024		March 31, 2023	
	Less than 1 year	More than 1 year	Less than 1 year	More than 1 year
Gross debtors where no specific default has occurred	20,827.31	774.43	16,540.11	701.49
Expected loss rate	2.60%	3.50%	2.23%	2.80%
Expected credit loss (loss allowance provision)	541.87	27.12	368.72	19.67

- (ii) Reconciliation of loss allowance provision from beginning to end of reporting period:

Reconciliation of loss allowance	Trade receivables
Loss allowance on March 31, 2022	402.59
Less: Changes in loss allowances	(14.20)
Loss allowance on March 31, 2023	388.39
Less: Changes in loss allowances	180.60
Loss allowance on March 31, 2024	568.99

Other financial assets measured at amortised cost

Company provides for expected credit losses on other financial assets by assessing individual financial instruments for expectation of any credit losses. Since this category includes loans and receivables of varied natures and purpose, there is no trend that the Company can draw to apply consistently to entire population. For such financial assets, the Company's policy is to provide for 12 month expected credit losses upon initial recognition and provide for lifetime expected credit losses upon significant increase in credit risk. The Company does not have any expected loss based impairment recognised on such assets considering their low credit risk nature, though incurred loss provisions are disclosed under each sub-category of such financial assets.

(B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Due to the nature of the business, the Company maintains flexibility in funding by maintaining availability under committed facilities.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Company takes into account the liquidity of the market in which the entity operates."

Financing arrangements

The Company has access to the following undrawn borrowing facilities at the end of reporting period:

Particulars	As at March 31, 2024	As at March 31, 2023
Expiring within one year (cash credit and other facilities)	664.00	794.00
Expiring beyond one year (bank loans - floating rate)	-	-

(C) Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

(i) Foreign exchange risk

The Company is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the US Dollar, Yen and Euro. Foreign exchange risk arises from recognised assets and liabilities denominated in a currency that is not the functional currency of any of the Company entities. Considering the low volume of foreign currency transactions, the Company's exposure to foreign currency risk is limited.

Exposure to currency risk:

The Company does not enter into any derivative instruments for trading or speculative purposes. The forward exchange contracts outstanding as at year end are as under:

Particulars	March 31, 2024	March 31, 2023
Foreign exchange forward contracts to sell foreign currency		
EURO (in Lacs)	21.00	18.50
₹ (₹)	1,890.00	1,655.94
US\$ (in Lacs)	4.50	17.75
₹ (₹)	375.98	1,459.76

All the above contracts are maturing within one year.

Sensitivity

A reasonably possible strengthening (weakening) of the ₹ against all other currencies at March 31 would have affected the measurement of financial instruments denominated in a foreign currency and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

Particulars	Currency	Strengthening		Weakening	
		March 31, 2024	March 31, 2023	March 31, 2024	March 31, 2023
Financial assets					
5% movement (previous year 1%)	EURO	(74.14)	(53.44)	74.14	53.44
4% movement (previous year 4%)	US\$	48.85	76.17	(48.85)	(76.17)
5% movement (previous year 1%)	YEN	9.93	6.20	(9.93)	(6.20)

(ii) Interest rate risk

The Company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

The Company's variable rate borrowing is subject to interest rate. Below is the overall exposure of the borrowing:

Particulars	March 31, 2024	March 31, 2023
Variable rate borrowing	8,608.17	8,593.55
Fixed rate borrowing	11.80	90.06
Total borrowings	8,619.97	8,683.61

Notes to the Financial Statements for the year ended March 31, 2024 (Contd.)

(All amounts in ₹ Lacs, unless otherwise stated)

NOTE - 36 FINANCIAL RISK MANAGEMENT (CONTD.)

Sensitivity

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates.

Particulars	March 31, 2024	March 31, 2023
Interest rates – increase by 50 basis points	(32.21)	(32.15)
Interest rates – decrease by 50 basis points	32.21	32.15

iii) Assets

The Company's fixed deposits are carried at amortised cost and are fixed rate deposits. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

iv) Price risk

Exposure

The Company's exposure price risk arises from investments held and classified in the balance sheet either as fair value through other comprehensive income or at fair value through profit or loss. To manage the price risk arising from investments, the Company diversifies its portfolio of assets.

Particulars	March 31, 2024	March 31, 2023
Investments carried at fair value through other comprehensive income	13,838.00	5,527.32

A Capital management

The Company's capital management objectives are

- to ensure the Company's ability to continue as a going concern
- to provide an adequate return to shareholders

The Company monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of balance sheet.

Management assesses the Company's capital requirements in order to maintain an efficient overall financing structure while avoiding excessive leverage. This takes into account the subordination levels of the Company's various classes of debt. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt.

The Company's adjusted net debt to equity ratio at March 31, 2024 was as follows.

Particulars	March 31, 2024	March 31, 2023

**CONSOLIDATED
FINANCIAL STATEMENTS**

INDEPENDENT AUDITORS' REPORT

To the Members of

Talbro Automotive Components Limited

REPORT ON THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Opinion

We have audited the accompanying Consolidated financial statements of **Talbro Automotive Components Limited** ("the Company") and its jointly controlled entities, which comprise the consolidated Balance Sheet as at March 31, 2024, the consolidated Statement of Profit and Loss (including other comprehensive income), the consolidated Statement of Changes in Equity and the consolidated Statement for Cash Flow for the year ended on that date, and notes to the financial statement including summary of material accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of the affairs of the company and its jointly controlled entities as at March 31, 2024, its consolidated profit and total comprehensive income, its consolidated statement of changes in equity and its consolidated cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act (SAs). Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the company and its jointly controlled entities in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the independence requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the

ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matter described below to be the key audit matter to be communicated in our report.

Sr. No.	Key Audit Matter	Auditor's Response
1	<p>Valuation Of complex instruments involving high estimation uncertainty</p> <p>The Company has material long-term investments in group companies which are un-quoted.</p>	<p>Principal Audit Procedures</p> <p>We have verified the company's shareholding in the investment in equity instruments which are fair valued by the company.</p> <p>We have verified the reasonableness of the assumptions used and the valuation technique used to determine the fair value.</p>

Information other than the Consolidated Financial Statements and Auditor's Report thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Corporate Governance and Corporate Information, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and in doing so, consider whether the other information

Independent Auditors' Report (Contd.)

is materially inconsistent with the consolidated financial statements, or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these Consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance, consolidated total comprehensive income, consolidated cash flows and consolidated changes in equity of the company and its jointly controlled entities in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the company and its jointly controlled entities and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Company, as aforesaid.

In preparing the consolidated financial statements, the respective Board of Directors and management of the Company and its jointly controlled entities are responsible for assessing the company and its jointly controlled entities' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the company and its jointly controlled entities or to cease operations or has no realistic alternative but to do so.

The respective Board of Directors of the company and its jointly controlled entities are also responsible for overseeing the financial reporting process.

Auditor's Responsibilities for the Audit of Consolidated Financial Statements

Our Objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decision of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and to obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the company and its jointly controlled entities which is a company incorporated in India have adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the company and its jointly controlled entities to continue as a going concern. If we conclude that material uncertainty exists,

Independent Auditors' Report (Contd.)

we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusion is based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company and its jointly controlled entities to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient and appropriate audit evidence regarding the financial information of the entities or business activities within the company and its jointly controlled entities to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of financial information of such entities included in the Statement of which we are the independent auditors. For the other entities included in the Statement, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

We communicate with those charged with governance of the company of which we are the independent auditor and such other entities included in the statement regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances,

we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

The consolidated financial statements include the company's share of net profit (including other comprehensive income) of Rs. 1,613.28 lakhs for the year ended March 31, 2024, in respect of jointly controlled entities, whose financial statements have not been audited by us. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of these jointly controlled entities, is based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the report of the other auditors.

Report on Other Legal and Regulatory Requirements

- 1) As required by Section 143 (3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid consolidated financial statements.
 - (b) In our opinion, proper books of account as required by the law relating to the aforesaid consolidated financial statements have been kept so far as it appears from our examination of those books.
 - (c) The consolidated Balance Sheet, the Consolidated Statement of Profit and Loss (including other comprehensive Income), the Consolidated Statement of Cash Flows and the Consolidated Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of the consolidated financial statements.
 - (d) In our opinion, the aforesaid consolidated financial statements comply with Ind AS specified under Section 133 of the Act, read with relevant rules issued there under.

Independent Auditors' Report (Contd.)

- (e) On the basis of written representations received as on March 31, 2024, taken on record by the Board of Directors of the company and its jointly controlled entities incorporated in India, none of the directors is disqualified as on March 31, 2024, from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls with reference to consolidated financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" which is based on the auditors' reports of the Company and its Jointly controlled companies incorporated in India. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls with reference to the consolidated financial statements of those companies.
- (g) With respect to the other matters to be included in the Auditor's report in accordance with the requirements of section 197(16) of the Act, as amended:
- In our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act. However, the provisions of section 197 of the Act are not applicable to jointly controlled entities.
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- (i) The consolidated Ind AS financial statements disclose the impact of pending litigations on the consolidated financial position of the Company and its jointly controlled entities. (Refer Note 40(i) & 41 to the consolidated financial statements).
- (ii) The Company and its jointly controlled entity did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
- (iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company and its jointly controlled entities during the year ended March 31, 2024.
- (iv) (a) The respective Managements of the Company and its jointly controlled entities which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company or any of such jointly controlled entities to or in any other person or entity, including foreign entity ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company or any of such jointly controlled entities ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (b) The respective Managements of the Company and its jointly controlled entities which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us that, to the best of their knowledge and belief, no funds (which are material either individually or in the aggregate) have been received by the Company or any of such jointly controlled entities from any person or entity, including foreign entity ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company or any of such jointly controlled entities shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever

Independent Auditors' Report (Contd.)

- by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (c) Based on the audit procedures that have been considered reasonable and appropriate in the circumstances performed by us on the Company and its jointly controlled entities which are companies incorporated in India whose financial statements have been audited under the Act, nothing has come to the notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- (v) As stated in Note 37(B) to the consolidated financial statements:
- a. The final dividend proposed in the previous year, declared and paid by the Company during the year, is in accordance with Section 123 of the Act, as applicable.
- b. The interim dividend declared and paid by the Company during the year complies with Section 123.
- c. The Board of Directors of the Company have proposed a final dividend for the year which is subject to the approval of the members at the ensuing Annual General Meeting. The amount of dividend proposed is in accordance with section 123 of the Act, as applicable.
- (vi) The Company used two different accounting software namely Oracle Platform-based ERP Software and Integral Infogen Technology Private Limited (ERP 10 G) for maintaining its books of account for the financial year ended March 31, 2024.
- a. Oracle Platform-based ERP software has feature of recording audit trail (edit log) facility implemented from April 01, 2023 and the same has operated throughout the year for all relevant transactions recorded in the software.
- b. Integral Infogen Technology Private Limited (ERP 10 G) software has a feature of recording audit trail (edit log) facility implemented from May 01, 2023 and the same has subsequently operated throughout the year for all relevant transactions recorded in the Finance module of the software.
- Further, its joint ventures incorporated in India have used accounting software for maintaining their respective books of account for the financial year ended March 31, 2024, which has a feature of recording audit trail (edit log) facility and has operated throughout the year for all relevant transactions recorded in the software.
- As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from April 1, 2023, reporting under Rule 11(g) of the Companies (Audit and Auditors) Rules, 2014 on the preservation of audit trail as per the statutory requirements for record retention is not applicable for the financial year ended March 31, 2024.
- 2) With respect to the matters specified in paragraphs 3(xxii) and 4 of the Companies (Auditor's Report) Order, 2020 issued by the Central Government in terms of Section 143(11) of the Act, to be included in Auditor's report, according to the information and explanations given to us, and based on the CARO reports issued by us for the Company and its jointly controlled entities included in the consolidated financial statements of the Company, to which reporting under CARO is applicable, we report that there are no qualifications or adverse remarks in these CARO reports.

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirement’s section of our report to the Members of Talbro's Automotive Components Limited of even date)

Report on the Internal Financial Controls with reference to Consolidated Financial Statements under Clause (i) of sub-section 3 of Section 143 of the Companies Act, 2013 (the “Act”)

In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2024, we have audited the internal financial controls with reference to Consolidated Financial Statements of Talbro's Automotive Components Limited (hereinafter referred to as “the Company”) and its jointly controlled entities, which are companies incorporated in India, as of that date.

Management’s Responsibility for Internal Financial Controls

The respective board of Directors of the Company and its jointly controlled entities which are companies incorporated in India are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the respective Companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (“The ICAI”).

These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over the financial reporting of the company and its jointly controlled entities, which are companies incorporated in India, based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under section 143(10) of the Companies Act, 2013, to the

extent applicable to an audit of internal financial controls with reference to Consolidated Financial Statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Consolidated Financial Statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to the Consolidated Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Consolidated Financial Statements included obtaining an understanding of internal financial controls with reference to Consolidated Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to the Consolidated Financial Statements of the company and its jointly controlled entities, which are companies incorporated in India.

Meaning of Internal Financial Controls Over Financial Reporting

A company’s internal financial control with reference to Consolidated Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit the preparation of financial statements in accordance with generally accepted accounting principles and that receipts and

Annexure 'A' To The Independent Auditor's Report (Contd.)

expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and

- (3) provide reasonable assurance regarding the prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls with reference to Consolidated Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Consolidated Financial Statements in future periods are subject to the risk that the internal financial control with reference to Consolidated Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Company and its jointly controlled entities, which are companies incorporated in India, have, in all material respects, adequate internal financial controls with reference to Consolidated Financial Statements

and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the criteria for internal financial control with reference to Consolidated Financial Statements established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid report under section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting in so far as it relates to audited financial statements of jointly controlled entities, incorporated in India, is based on the corresponding reports of the auditor of such jointly controlled entities incorporated in India.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

for the year ended March 31, 2024

1. CORPORATE INFORMATION

Talbro's Automotive Components Limited (the 'Holding Company') is a public limited company with its joint ventures (collectively referred to as the 'Group'). The Holding Company is incorporated and domiciled in India. The Holding Company's shares are listed with Bombay Stock Exchange and National Stock Exchange. The Group is in the business of manufacturing gaskets, forging, suspension systems, anti-vibration components and hoses. The Holding Company has its registered place of business at 14/1, Mathura Road, P.O Amar Nagar, Faridabad 121003, Haryana, India.

The consolidated financial statements for the year ended March 31, 2024 were authorised and approved by the Board of Directors on May 22, 2024.

1.1 Material Accounting policies

a) Basis of preparation

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to section 133 of the Companies Act, 2013 read with Companies (Indian Accounting Standards) Rules, 2015 amended from time to time.

The consolidated financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the consolidated financial statements.

The consolidated financial statements have been prepared on a historical cost basis, except for the following assets and liabilities which have been measured at fair value or revalued amount:

- Certain financial assets and liabilities measured at fair value (refer accounting policy regarding financial instruments); and
- Defined benefit plans – plan assets measured at fair value.

b) Basis of consolidation

Joint ventures

Interest in joint venture are accounted for using the equity method, after initially being recognised at cost. The carrying amount of the investment

is adjusted thereafter for the post acquisition change in the share of net assets of the investee, adjusted where necessary to ensure consistency with the accounting policies of the Group. The consolidated statement of profit and loss (including the other comprehensive income) includes the Group's share of the results of the operations of the investee. Dividends received or receivable from joint ventures are recognised as a reduction in the carrying amount of the investment.

c) Significant accounting judgements, estimates and assumptions

The preparation of the consolidated financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the consolidated financial statements and reported amounts of revenues and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed in note 1.5. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the consolidated financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the consolidated financial statements.

Significant management judgments

Recognition of deferred tax assets - The extent to which deferred tax assets can be recognised is based on an assessment of the probability of the future taxable income against which the deferred tax assets can be utilised.

Provisions, contingent liabilities and contingent assets

- The Group is the subject of legal proceedings and tax issues covering a range of matters, which are pending in various jurisdictions. Due to the uncertainty inherent in such matters, it is

Notes to the Consolidated Financial Statements for the year ended March 31, 2024 (Contd.)

difficult to predict the final outcome of such matters. The cases and claims against the Group often raise difficult and complex factual and legal issues, which are subject to many uncertainties, including but not limited to the facts and circumstances of each particular case and claim, the jurisdiction and the differences in applicable law. In the normal course of business, management consults with legal counsel and certain other experts on matters related to litigation and taxes. The Group accrues a liability when it is determined that an adverse outcome is probable and the amount of the loss can be reasonably estimated.

Impairment of financial assets – At each balance sheet date, based on historical default rates observed over expected life, the management assesses the expected credit loss on outstanding financial assets.

Evaluation of indicators for impairment of assets

– The evaluation of applicability of indicators of impairment of assets requires assessment of several external and internal factors which could result in deterioration of recoverable amount of the assets.

Leases – The Group evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgment. The Group uses significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Group determines the lease term as the non-cancellable period of a lease, together with both periods covered by an option to extend the lease if the Group is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Group is reasonably certain not to exercise that option. In assessing whether the Group is reasonably certain to exercise an option to extend a lease, or not to exercise an option to terminate a lease, it considers all relevant facts and circumstances that create an economic incentive for the Group to exercise the option to extend the lease, or not to exercise the option to terminate the lease. The Group revises the lease

term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

*Significant estimates***Useful lives of depreciable/amortisable assets** –

Management reviews its estimate of the useful lives of depreciable/amortisable assets at each reporting date, based on the expected utility of the assets. Uncertainties in these estimates relate to technical and economic obsolescence that may change the utility of certain software, IT equipment and other plant and equipment.

Defined benefit obligation –

Management's estimate of the DBO is based on a number of critical underlying assumptions such as standard rates of inflation, mortality, discount rate and anticipation of future salary increases. Variation in these assumptions may significantly impact the DBO amount and the annual defined benefit expenses.

Fair value measurements

Management applies valuation techniques to determine the fair value of financial instruments (where active market quotes are not available). This involves developing estimates and assumptions consistent with how market participants would price the instrument.

d) Current versus non-current classification

The Group presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realised or intended to be sold or consumed in normal operating cycle*
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

Notes to the Consolidated Financial Statements for the year ended March 31, 2024 (Contd.)

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle*
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Group classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities respectively.

*Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

e) Inventory

Inventories are valued as follows:

Raw material, stores and spares

Raw materials, stores and spares are valued at lower of cost and net realisable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost of raw materials, components and stores and spares is determined on a first in first out (FIFO) basis. Stores and spares having useful life of more than twelve months are capitalised as "Property, plant and equipment" and are depreciated prospectively over their remaining useful lives in accordance with Ind AS 16.

Work in progress and finished goods

Work in progress and finished goods are valued at lower of cost and net realisable value. Cost includes raw material cost and a proportion of

direct and indirect overheads up to estimated stage of completion. Cost is determined on a weighted average basis.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

f) Property, plant and equipment

Recognition and initial measurement

Items of property, plant and equipment are measured at cost less accumulated depreciation and accumulated impairment losses. The cost comprises purchase price, borrowing cost if capitalisation criteria are met and directly attributable cost of bringing the asset to its working condition for the intended use. Any trade discount and rebates are deducted in arriving at the purchase price. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits attributable to such subsequent cost associated with the item will flow to the Group. All other repair and maintenance costs are recognised in statement of profit or loss as incurred.

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The costs of repairs and maintenance are recognised in the statement of profit and loss as incurred.

Subsequent measurement (depreciation and useful lives)

Depreciation on Plant & Machinery and Computers is provided on straight-line basis and for all other categories of Property, Plant and Equipment, depreciation is provided on written down value method.

Depreciation is provided on the useful life of the assets as prescribed in Schedule II of the Companies Act, 2013 except in

Notes to the Consolidated Financial Statements for the year ended March 31, 2024 (Contd.)

respect of the following assets, where useful life is different than those prescribed in Schedule II:

Particulars	Useful life
Plant and Machinery	22 years
Buildings	30 years
Computers*	6 years
Furniture & fixtures	5 years
Vehicles	10 years
Office Equipment	5 years
Electrical installations	15 years
Mould and dies*	6 years
Tube wells	10 years
Air-conditioning plant	10 years

*Computers and Mould and dies are classified under Plant and Machinery in Note 2 to the financial statements.

The residual values, useful lives and method of depreciation of are reviewed at each financial year end and adjusted prospectively, if appropriate.

Where, during any financial year, any addition has been made to any asset, or where any asset has been sold, discarded, demolished or destroyed, or significant components replaced; depreciation on such assets is calculated on a pro rata basis as individual assets with specific useful life from the date of such addition or, as the case may be, up to the date on which such asset has been sold, discarded, demolished or destroyed or replaced.

De-recognition

An item of property, plant and equipment and any significant part initially recognised is de-recognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

Transition to Ind AS

On transition to Ind AS, the Group has elected to continue with the carrying value of all its property, plant and equipment recognised as at April 01, 2016 measured as per the provisions of previous GAAP

and use that carrying value as the deemed cost of property, plant and equipment.

g) Intangible assets***Recognition and initial measurement***

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and accumulated impairment losses, if any. Internally generated intangible assets, excluding product development costs, are not capitalised and expenditure is reflected in the statement of profit and loss in the year in which the expenditure is incurred.

Subsequent measurement (Amortisation and useful lives)

All finite-lived intangible assets, including internally developed intangible assets, are accounted for using the cost model whereby capitalised costs are amortised on a straight-line basis over their estimated useful lives. Residual values and useful lives are reviewed at each reporting date and any change in the same is accounted for prospectively. The following useful lives are applied:

Intangible assets	Amortisation period
Computer Software	3-5 years
Technical know how	10 years

De-recognition

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the statement of profit or loss when the asset is derecognised.

Transition to Ind AS

On transition to Ind AS, the Group has elected to continue with the carrying value of all its intangible assets recognised as at April 01, 2016 measured as per the provisions of previous GAAP and use that carrying value as the deemed cost of intangible assets.

h) Investment property

Investment properties are properties held to earn rentals and/or for capital appreciation. Investment

Notes to the Consolidated Financial Statements for the year ended March 31, 2024 (Contd.)

properties are measured initially at cost including transaction costs. Subsequent to initial recognition the investment properties are stated at cost less accumulated depreciation.

Depreciation is recognised on a straight-line basis to write down the cost less estimated residual value of investment properties other than land.

An investment property is derecognised upon disposal or when the investment property is permanently withdrawn from use and no future economic benefits are expected from the disposal. Any gain or loss arising on de-recognition of the property (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in statement of profit or loss in the period in which the investment property is derecognised.

Transition to Ind AS

On transition to Ind AS, the Group has elected to continue with the carrying value of all its investment properties recognised as at April 01, 2016 measured as per the provisions of previous GAAP and use that carrying value as the deemed cost of investment properties.

i) Leases

Group as a lessee

The Group assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

- (i) the contract involves the use of an identified asset
- (ii) the Group has substantially all of the economic benefits from use of the asset through the period of the lease and
- (iii) the Group has the right to direct the use of the asset.

At the date of commencement of the lease, the Group recognises a right-of-use asset ("ROU")

and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease.

Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognised at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives. They are subsequently measured at cost less accumulated depreciation and impairment losses. Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the lease term and useful life of the underlying asset.

The lease liability is initially measured at amortised cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates in the country of domicile of these leases. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if the Group changes its assessment if whether it will exercise an extension or a termination option.

Group as a lessor

Leases in which the Group does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating lease is recognised on a straight-line basis over the term of the relevant lease. Contingent rents are recognised as revenue in the period in which they are earned.

The Group does not have any finance lease as a lessor.

Notes to the Consolidated Financial Statements for the year ended March 31, 2024 (Contd.)**j) Fair value measurement**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is Unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period or each case.

k) Revenue recognition

Revenue arises mainly from the sale of manufactured and traded goods. To determine whether to recognise revenue, the Group follows a 5-step process:

1. Identifying the contract with a customer
2. Identifying the performance obligations
3. Determining the transaction price
4. Allocating the transaction price to the performance obligations
5. Recognising revenue when/as performance obligation(s) are satisfied.

Revenue is measured at fair value of the consideration received or receivable, exclusive of any trade discounts, volume rebates and any taxes or duties collected on behalf of the government which are levied on sales such as sales tax, value added tax, etc. Revenue is recognised either at a point in time or over time, when (or as) the Group satisfies performance obligations by transferring the promised goods or services to its customers.

The Group recognises contract liabilities for consideration received in respect of unsatisfied performance obligations and reports these amounts as other liabilities in the balance sheet. Similarly, if the Group satisfies a performance obligation before it receives the consideration, the Group recognises either a contract asset or a receivable in its balance sheet, depending on whether something other than the passage of time is required before the consideration is due.

Notes to the Consolidated Financial Statements for the year ended March 31, 2024 (Contd.)

The Group applies the revenue recognition criteria to each separately identifiable component of the revenue transaction as set out below:

Sale of goods and services

Revenue from sale of goods is recognised when the control of goods is transferred to the buyer as per the terms of the contract, in an amount that reflects the consideration the Group expects to be entitled to in exchange for those goods. Control of goods refers to the ability to direct the use of and obtain substantially all of the remaining benefits from goods.

Revenue from services is recognised when Group satisfies the performance obligations by transferring the promised services to its customers.

l) Financial instruments

Recognition and initial measurement

Financial assets and financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument and are measured initially at fair value adjusted for transaction costs, except for those carried at fair value through profit or loss which are measured initially at fair value.

Subsequent measurement

Financial assets

i. Financial assets carried at amortised cost –

A financial instrument is measured at amortised cost if both the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest method.

ii. Financial assets at fair value

• Investments in equity instruments

other than above – Investments in equity instruments which are held for trading are generally classified as at fair value through profit and loss (FVTPL). For all other equity instruments, the Group makes irrevocable choice upon initial recognition, on an instrument to instrument basis, to classify the same either as at fair value through other comprehensive income (FVOCI) or fair value through profit and loss (FVTPL).

If the Group decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognised in the other comprehensive income (OCI). There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of investment. However, the Group transfers the cumulative gain or loss within equity. Dividends on such investments are recognised in the statement of profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment.

De-recognition of financial assets

A financial asset is primarily de-recognised when the rights to receive cash flows from the asset have expired or the Group has transferred its rights to receive cash flows from the asset.

Financial liabilities

Subsequent to initial recognition, all non-derivative financial liabilities, other than derivative liabilities, are subsequently measured at amortised cost using the effective interest method.

De-recognition of financial liabilities

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same

Notes to the Consolidated Financial Statements for the year ended March 31, 2024 (Contd.)

lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

m) Impairment of financial assets

In accordance with Ind AS 109, the Group applies Expected Credit Loss (ECL) model for measurement and recognition of Impairment loss for financial Assets.

ECL is the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive. When estimating the cash flows, the Group considers the following:

- All contractual terms of the Financial Assessments (including prepayment and extension) over the expected life of the assets.
- Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Trade receivables

As a practical expedient the Group has adopted 'simplified approach' using the provision matrix method for recognition of expected loss on trade receivables. The provision matrix is based on three-years rolling average default rates observed over the expected life of the trade receivables and is adjusted for forward-looking estimates. These average default rates are applied on total credit risk exposure on trade receivables and outstanding for more than one year at the reporting date to determine lifetime Expected Credit Losses.

Other financial assets

For recognition of impairment loss on other financial assets and risk exposure, the Group determines whether there has been a significant increase in the credit risk since initial recognition and if credit risk has increased significantly, impairment loss is provided.

n) Retirement and other employee benefits**Provident fund**

Retirement benefit in the form of provident fund is a defined contribution scheme. The Group has no obligation, other than the contribution payable to the provident fund. The Group recognises contribution payable to the provident fund scheme as an expense, when an employee renders the related service. The Group has no obligation other than the contribution payable to the Provided Fund.

Gratuity

A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Group's net obligation in respect of the gratuity plan, which is a defined benefit plan, is calculated by estimating the ultimate cost to the entity of the benefit that employees have earned in return for their service in the current and prior periods. This requires an entity to determine how much benefit is attributable to the current and prior periods and to make estimates (actuarial assumptions) about demographic variables and financial variables that will affect the cost of the benefit. The cost of providing benefits under the defined benefit plan is determined using actuarial valuation performed annually by a qualified actuary using the projected unit credit method. Actuarial gains/losses resulting from re-measurements of the liability are included in other comprehensive income.

Compensated absence

Compensated absence, which is expected to be utilised within the next 12 months, is treated as short term employee benefit. The Group measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

Notes to the Consolidated Financial Statements for the year ended March 31, 2024 (Contd.)

The Group treats compensated absence expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred.

Other short-term benefits

Expense in respect of other short-term benefits is recognised on the basis of amount paid or payable for the period during which services are rendered by the employees.

o) Taxes

Tax expense recognised in statement of profit and loss comprises the sum of deferred tax and current tax except the ones recognised in other comprehensive income or directly in equity.

Current tax is determined as the tax payable in respect of taxable income for the year and is computed in accordance with relevant tax regulations. Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity).

Deferred tax is recognised in respect of temporary differences between carrying amount of assets and liabilities for financial reporting purposes and corresponding amount used for taxation purposes. Deferred tax assets on unrealised tax loss are recognised to the extent that it is probable that the underlying tax loss will be utilised against future taxable income. This is assessed based on the Group's forecast of future operating results, adjusted for significant non-taxable income and expenses and specific limits on the use of any unused tax loss. Unrecognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year

when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date. Deferred tax relating to items recognised outside statement of profit and loss is recognised outside statement of profit or loss (either in other comprehensive income or in equity).

p) Provisions, contingent liabilities and contingent assets

A provision is recognised when the Group has a present obligation as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions determined based on the best estimate required to settle the obligation at the reporting date and adjusted to reflect the current best estimates.

Provisions are discounted to their present values, where the time value of money is material.

Contingent liabilities are disclosed on the basis of judgement of management after a careful evaluation of facts and legal aspects of matter involved.

Contingent assets are disclosed when probable and recognised when the realisation of income is virtually certain.

1.2 Other accounting policy information

a) Impairment of non-financial assets

The carrying amounts of the Group's non-financial assets, other than inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. Goodwill and intangible assets that have indefinite lives or that are not yet available for use are tested for impairment annually; their recoverable amount is estimated annually each year at the reporting date.

For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups

Notes to the Consolidated Financial Statements for the year ended March 31, 2024 (Contd.)

of assets (the 'cash-generating unit'). The recoverable amount of an asset or cash-generating unit is the greater of its value in use or its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. The goodwill acquired in a business combination is, for the purpose of impairment testing, allocated to cash-generating units that are expected to benefit from the synergies of the combination. Intangibles with indefinite useful lives are tested for impairment individually.

An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its estimated recoverable amount. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit on a pro-rata basis. Impairment losses are recognised in the statement of profit and loss.

Impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

b) Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest calculated

using the effective interest rate and other costs like finance charges in respect of the leases recognised in accordance with Ind AS 116, that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

c) Government grant

Grants and subsidies from the government are recognised when there is reasonable assurance that (i) the Group will comply with the conditions attached to them, and (ii) the grant/subsidy will be received.

Grant or subsidy relates to revenue, it is recognised as income on a systematic basis in statement of profit and loss over the periods necessary to match them with the related costs, which they are intended to compensate.

d) Foreign currency transactions***Functional and presentation currency***

The financial statements are presented in Indian Rupees (₹), which is also the Holding Company's functional and presentation currency.

Foreign currencies***Initial recognition***

Transactions in foreign currencies are initially recorded by the Group at exchange rates at the date the transaction first qualifies for recognition.

Subsequent measurement

Monetary assets and liabilities denominated in foreign currencies are translated at the exchange rates at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognised in the statement of profit or loss in the year in which they arise.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at

Notes to the Consolidated Financial Statements for the year ended March 31, 2024 (Contd.)

the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e. translation differences on items whose fair value gain or loss is recognised in Other comprehensive income or profit or loss are also recognised in Other comprehensive income or profit or loss, respectively).

All other exchange differences are charged to the statement of profit and loss.

e) **Other income**

Dividend income

Dividend income is recognised at the time when right to receive the payment is established, which is generally when the shareholders approve the dividend.

Interest income

Interest income is recorded on accrual basis using the effective interest rate (EIR) method.

Export incentives

Export incentives are accounted on accrual basis.

f) **Earnings per share**

Basic earnings per share is calculated by dividing the net profit or loss for the period attributable to equity shareholders (after deducting attributable taxes) by the weighted average number of equity shares outstanding during the period. The weighted average number of equity shares outstanding during the period is adjusted for events.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

g) **Cash and cash equivalents**

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

1.3 Recent accounting pronouncements which are not yet effective

As on date of these consolidated financial statements, Ministry of Corporate Affairs ('MCA') has not issued any standards/amendments to accounting standards which are effective from April 01, 2024.

(ii) Leasing arrangements

Investment property comprises of a building which is leased to tenant under long-term operating leases with rentals payable monthly. Refer note 42 (ii) for details on future minimum lease rentals.

(iii) Fair value of investment property:

Particulars	March 31, 2024	March 31, 2023
Fair value	837.47	687.65

The Group obtains independent valuation for its investment property at least annually and are considered to be a fair representation at which such properties can be sold in an active market. Fair value measurement has been categorised as Level 3. The best evidence of fair value is current prices in an active market for similar property. Where such information is not available, the Group considers the average price of similar property and appropriate depreciation has been accounted for arriving at fair and reasonable value.

NOTE - 36**Fair value disclosures****(i) Fair values hierarchy**

Financial assets and financial liabilities measured at fair value in the balance sheet are categorised into three levels of fair value hierarchy. The three levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1: quoted prices (unadjusted) in active markets for financial instruments.

Level 2: inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: unobservable inputs for the asset or liability

(ii) Financial assets and liabilities measured at fair value - recurring fair value measurements

Total financial liabilities		786.93	786.33	1,256.43	1,255.89

The management assessed that cash and cash equivalents, other bank balances, trade receivables, other financial asset, trade payables, other financial liabilities and short-term borrowings approximate their carrying amounts largely due to the short-term maturities of these instruments. The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

- (i) Long-term fixed-rate and variable-rate receivables are evaluated by the Group based on parameters such as interest rates, individual creditworthiness of the customer and other market risk factors. Based on this evaluation, allowances are taken into account for the expected credit losses of these receivables.
- (ii) The fair values of the Group's interest-bearing borrowings, loans and receivables are determined by applying discounted cash flows ('DCF') method, using discount rate that reflects the issuer's borrowing rate as at the end of the reporting period. The own non-performance risk as at March 31, 2024 was assessed to be insignificant.

(ii) Risk management framework

The Group's activities expose it to market risk, liquidity risk and credit risk. Following are the sources of risk which the Group is exposed to and how the Group manages the risk and the related impact in the financial statements.

Risk	Exposure arising from	Measurement	Management
Credit risk	Cash and cash equivalents, trade receivables, financial assets measured at amortised cost	Aging analysis	Bank deposits, diversification of asset base, credit limits and collateral.
Liquidity risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of committed credit lines and borrowing facilities
Market risk - foreign exchange	Recognised financial assets and liabilities not denominated in Indian rupee (₹)	Cash flow forecasting	Forward contract/hedging, if required
Market risk - interest rate	Long-term borrowings at variable rates	Sensitivity analysis	Negotiation of terms that reflect the market factors
Market risk - security price	Investments in equity securities	Sensitivity analysis	Holding Company has investments in equity shares, except for entities where it exercises control or joint control or significant influence.

The Group's risk management is carried out by a central treasury department (of the Holding Company) under policies approved by the board of directors. The board of directors provides written principles for overall risk management, as well as policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk and investment of excess liquidity.

NOTE - 37 FINANCIAL RISK MANAGEMENT (CONTD.)

(A) Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and investments in debt securities. The carrying amount of financial assets represents the maximum credit exposure.

- cash and cash equivalents,
- trade receivables,
- loans & receivables carried at amortised cost, and
- deposits with banks and financial institutions

a) Credit risk management

The Group assesses and manages credit risk based on internal credit rating system, continuously monitoring defaults of customers and other counterparties, identified either individually or by the Group, and incorporates this information into its credit risk controls. Internal credit rating is performed for each class of financial instruments with different characteristics. The Group assigns the following credit ratings to each class of financial assets based on the assumptions, inputs and factors specific to the class of financial assets.

A: Low

B: Medium

C: High

Assets under credit risk –

Credit rating	Particulars	March 31, 2024	March 31, 2023
A: Low	Loans	270.43	388.20
	Other financial assets	7,182.15	420.18
	Cash and cash equivalents	236.05	528.41
	Other bank balances	283.48	281.95
B: Medium	Trade receivables	21,601.74	17,241.60

Cash & cash equivalents and bank deposits

Credit risk related to cash and cash equivalents and bank deposits is managed by only accepting highly rated banks and diversifying bank deposits and accounts in different banks.

Trade receivables

Credit risk related to trade receivables are mitigated by taking bank guarantees from customers where credit risk is high. The Group closely monitors the credit-worthiness of the debtors through internal systems that are configured to define credit limits of customers, thereby, limiting the credit risk to pre-calculated amounts. The Group assesses increase in credit risk on an ongoing basis for amounts receivable that become past due and default is considered to have occurred when amounts receivable become past due.

Other financial assets measured at amortised cost

Other financial assets measured at amortised cost includes loans and advances to employees, security deposits and others. Credit risk related to these other financial assets is managed by monitoring the recoverability of such amounts continuously, while at the same time internal control system in place ensure the amounts are within defined limits.

(All amounts in ₹ Lacs, unless otherwise stated)

NOTE - 37 FINANCIAL RISK MANAGEMENT (CONTD.)

b) Expected credit losses

Trade receivables

- (i) The Group recognises lifetime expected credit losses on trade receivables using a simplified approach, wherein Group has defined percentage of provision by 'analysing historical trend of default relevant based on the criteria defined above. And such provision percentage determined have been 'considered to recognise life time expected credit losses on trade receivables (other than those where default criteria are met).

Particulars	March 31, 2024		March 31, 2023	
	Less than 1 year	More than 1 year	Less than 1 year	More than 1 year
Gross debtors where no specific default has occurred	20,827.31	774.43	16,540.11	701.49
Expected loss rate	2.60%	3.50%	2.23%	2.80%
Expected credit loss (loss allowance provision)	541.87	27.12	368.72	19.67

- (ii) Reconciliation of loss allowance provision from beginning to end of reporting period:

Reconciliation of loss allowance	Trade receivables
Loss allowance on April 01, 2022	402.59
Add: Changes in loss allowances	(14.20)
Loss allowance on March 31, 2023	388.39
Less: Changes in loss allowances	180.60
Loss allowance on March 31, 2024	568.99

Other financial assets measured at amortised cost

Group provides for expected credit losses on other financial assets by assessing individual financial instruments for expectation of any credit losses. Since this category includes loans and receivables of varied natures and purpose, there is no trend that the Group can draw to apply consistently to entire population. For such financial assets, the Group's policy is to provide for 12 month expected credit losses upon initial recognition and provide for lifetime expected credit losses upon significant increase in credit risk. The Group does not have any expected loss based impairment recognised on such assets considering their low credit risk nature, though incurred loss provisions are disclosed under each sub-category of such financial assets.

(B) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due. Due to the nature of the business, the Group maintains flexibility in funding by maintaining availability under committed facilities.

Management monitors rolling forecasts of the Group's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Group takes into account the liquidity of the market in which the entity operates.

Financing arrangements

The Group has access to the following undrawn borrowing facilities at the end of reporting period:

Particulars	As at March 31, 2024	As at March 31, 2023
Expiring within one year (cash credit and other facilities)	664.00	794.00
Expiring beyond one year (bank loans - floating rate)	-	-

(C) Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

(i) Foreign exchange risk

The Group is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the US Dollar, Yen and Euro. Foreign exchange risk arises from recognised assets and liabilities denominated in a currency that is not the functional currency of any of the Group entities. Considering the low volume of foreign currency transactions, the Group's exposure to foreign currency risk is limited.

GBP (in Lacs)	0.26	0.64
₹ (₹ in Lacs)	27.08	64.72

The Group does not enter into any derivative instruments for trading or speculative purposes. The forward exchange contracts outstanding as at year end are as under:

Particulars	March 31, 2024	March 31, 2023
Foreign exchange forward contracts to sell foreign currency		
EURO (in Lacs)	21.00	18.50
₹ (₹)	1,890.00	1,655.94
US\$ (in Lacs)	4.50	17.75
₹ (₹)	375.98	1,459.76

All the above contracts are maturing within one year.

Sensitivity

A reasonably possible strengthening (weakening) of the ₹ against all other currencies at March 31 would have affected the measurement of financial instruments denominated in a foreign currency and affected equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

Particulars	Currency	Strengthening		Weakening	
		March 31, 2024	March 31, 2023	March 31, 2024	March 31, 2023
Financial assets					
5% movement (previous year 1%)	EURO	(74.14)	(53.44)	74.14	53.44
4% movement (previous year 4%)	US\$	48.85	76.17	(48.85)	(76.17)
5% movement (previous year 1%)	YEN	9.93	6.20	(9.93)	(6.20)

(ii) Interest rate risk

The Group's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

The Group's variable rate borrowing is subject to interest rate. Below is the overall exposure of the borrowing:

Particulars	March 31, 2024	March 31, 2023
Variable rate borrowing	8,608.17	8,593.55
Fixed rate borrowing	11.80	90.06
Total borrowings	8,619.97	8,683.61

Notes to the Consolidated Financial Statements for the year ended March 31, 2024 (Contd.)

(All amounts in ₹ Lacs, unless otherwise stated)

NOTE - 37 FINANCIAL RISK MANAGEMENT (CONTD.)

Sensitivity

Profit or loss is sensitive to higher/lower interest expense from borrowings as a result of changes in interest rates.

Particulars	March 31, 2024	March 31, 2023
Interest rates – increase by 50 basis points	(32.21)	(32.15)
Interest rates – decrease by 50 basis points	32.21	32.15

iii) Assets

The Group's fixed deposits are carried at amortised cost and are fixed rate deposits. They are therefore not subject to interest rate risk as defined in Ind AS 107, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

iv) Price risk

Exposure

The Group's exposure price risk arises from investments held and classified in the balance sheet either as fair value through other comprehensive income or at fair value through profit or loss. To manage the price risk arising from investments, the Group diversifies its portfolio of assets.

Particulars	March 31, 2024	March 31, 2023
Investments carried at fair value through other comprehensive income	13,838.00	5,527.32
Total investments	13,838.00	5,527.32

Sensitivity

Refer note 36(iv) for sensitivity analysis.

NOTE - 38

A Capital management

The Group's capital management objectives are

- to ensure the Group's ability to continue as a going concern
- to provide an adequate return to shareholders

The Group monitors capital on the basis of the carrying amount of equity less cash and cash equivalents as presented on the face of balance sheet.

Management assesses the Group's capital requirements in order to maintain an efficient overall financing structure while avoiding excessive leverage. This takes into account the subordination levels of the Group's various classes of debt. The Group manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares, or sell assets to reduce debt.

The Group's adjusted net debt to equity ratio at March 31, 2024 was as follows..

Particulars	March 31, 2024	March 31, 2023
Total borrowings	8,686.52	8,747.41
