# 'Light-touch registration soon for FPIs investing in govt bonds'

**PRECISION BOOST.** Trade settlement errors reduced with the T+1 cycle: SEBI official

**Our Bureau**  
Mumbai

Error rates on the settlement of trades for foreign portfolio investors (FPIs) have reduced under the T+1 settlement cycle from what it was under the T+2 cycle, a top regulatory official said on Tuesday.

Speaking at the CII Finance 3.0 Summit in Mumbai, SEBI Whole-Time Member Ananth Narayan said the regulator was working on easing the FPI registration process.

"We have ensured common operating standards for all custodians that will do away with any regulatory arbitrage that was in play and are creating an online tracker to track new FPI applications. A light-touch re-

gistration process will be introduced for FPIs that only want to invest in government bonds," he said.

## FPI TRANSITION

Narayan said that earlier if an FPI licence expired, the FPI would stay in limbo forever and could not buy or sell anything.

"We have now allowed a one-time exercise for liquidating the portfolio and ensuring a smooth transition out of the country," he said.

Existing FPIs setting up a new FPI do not have to fill a new common application form all over again. Instead, some fields will be automatically repopulated based on available data.

"We have set aggressive timelines to do the registrations," said Narayan.

Ananth Narayan, SEBI Whole-Time Member

FPIs will now be able to access their funds on the day of settlement. Today, FPIs can repatriate funds only on T+2 or T+3 as there are delays in getting tax certificates.

"Such delays were causing a huge amount of opportunity loss to FPIs. Concomitantly, custodians enjoyed the float income for an extra day, resulting in opaque, implicit charges stemming from inefficiencies in the system. The less of implicit charges we have, the better it is for everyone," said Narayan.

## EASED REGULATIONS

The regulator is trying to make life easier for certain categories of FPIs, including insurance or pension funds and sovereign wealth funds.

This could be achieved by allowing them to use the FPI license to invest in assets other than equities, reducing the KYC periodicity for such funds and doing away with wet signatures, Narayan said.

# 'Transition from a nation of savers to investors marks a paradigm shift'

**Our Bureau**  
Mumbai

Transition from a nation of savers to investors signifies a paradigm shift in India's economic and financial landscape, according to Deepak Mohanty, Chairperson, Pension Fund Regulatory and Development Authority.

"The transition underway from a nation of savers to investors marks a paradigm shift in our economic and financial landscape. It reflects our growing confidence in the financial system and its regulatory underpinnings, improving financial literacy levels, and broader investment opportunities", Mohanty said during the session on 'From a nation of savers to a nation of investors-The transition' at the Financing Summit 3.0 of the Confederation of Indian Industry (CII) in Mumbai on Tuesday.

Deepak Mohanty, Chairperson, PFRDA

Mohanty highlighted that the share of cash and bank deposits in household financial assets is declining, while investments in bonds and equities have been rising in recent years, alongside a steady increase in financial literacy for social security, such as insurance, pension, and small savings.

## GROWTH TARGETS

"As we aspire to be a high-income country over the next 25 years, we need to grow at an average rate of around 8.0

per cent per annum. This will require commensurate levels of investment," he said, adding that the importance of efficient conversion of savings to capital formation to meet these growth targets is crucial, underlining that "to achieve an annual GDP growth rate of 8 per cent, we need an investment rate of around 36 per cent of GDP per annum."

Nilesh Shah, Managing Director, Kotak Mahindra Asset Management Company pointed out that many households still believe in keeping money at home rather than in banks, and are driven by greed, highlighting the need for financial literacy.

Vishal Kampani, Non-Executive Vice-Chairman, JM Financial, emphasised that the transition should lead to wealth creation that benefits a broader segment of the population rather than a select few.

# AU SFB seeks RBI nod for transition to universal bank

**Our Bureau**  
Mumbai

AU Small Finance Bank on Tuesday submitted an application to the Reserve Bank of India to seek approval for transition from a Small Finance Bank (SFB) to a universal bank.

This application comes in the backdrop of Fincare Small Finance Bank amalgamating with and into AU SFB with effect from April 1, 2024, marking the first such consolidation in the SFB space.

"This strategic evolution will pave the way for our future growth, enhance our brand presence, reduce regulatory constraints, and improve operational efficiency," said Sanjay Agarwal, Founder, MD & CEO of AU SFB.

In April 2024, the RBI issued a circular allowing the voluntary transition of Small Finance Banks to Universal Banks and AU SFB is the first Bank to seek regulatory approval for the transition.

To qualify, as per the RBI guidelines, SFBs need a five-year track record, strong financials, and a stock exchange listing among various other parameters.

As of June, AU SFB's deposits and advances stood at ₹97,290 crore and ₹99,792 crore, respectively. The net profit at ₹503 crore in Q1FY25 grew 30 per cent y-o-y compared to ₹387 crore in Q1FY24.

# Grievances in the life insurance sector are about the product itself: IRDAI member

**Our Bureau**  
Mumbai

Insurance companies must reduce the number of policyholder complaints and also ensure that the subscriber gets the facilities they expect at the time of buying the policy, said Satyajit Tripathy, Member (Distribution), IRDAI.

Referring to the three parts of insurance — pricing based on the actuarial calculation, the development and design of the product, and finally selling the product, Tripathy said: "Having sold the product, what are the kind of grievances that come to the regulator? Very frankly, the grievances that are raised against life and non-life companies are totally different.

"So when we talk about the next boom, the issue starts from the bottom, in the sense that from the end of the

Satyajit Tripathy, Member (Distribution), IRDAI

product, that is from the grievance. Why are there so many grievances?"

## PRODUCT ISSUES

Speaking at CII's Financing 3.0 Summit, the IRDAI member said the grievances in the life insurance sector are not about the claim amount or the time taken for settlement, but about the product

itself. "In case of death... the claim amount comes. That is not a grouse. The grouse is about the misselling of a product. And I must say that it is at an alarming level. It has caught the attention of the policymakers. The policy makers are very concerned and they want this to be addressed.

## SECTOR CHALLENGES

"And if we talk about the boom (in the insurance sector) in the coming days... that we increase the penetration, we increase the sale of various products, and we make it affordable, then we must address the grievances," Tripathy said.

He noted that the complaint or the grievance in the non-life sector are dynamically different.

"It is not about the misselling of a product. It is particularly about payment of claims, the claims being re-

jected. The amount of claims that are being paid is substantially less than what was expected. And, of course, at that point in time, the exclusions in the contract, though legally binding, are sentimentally very much opposed.

"You have a grievance redressal mechanism within the company. Above that, you

have the Ombudsman to settle the issues. Despite that, even in non-life also, majority of the grievances come from health, very few maybe from other areas," Tripathy said.

## CUSTOMER FOCUS

Aarati Krishnan, Consulting Editor, *businessline*, said,

"The insurance industry cannot move on to the next level of penetration or growth without addressing the poor customer experience... The life industry needs to focus on protection products... To measure insurance penetration, instead of looking at premiums paid by GDP, we should be looking at the sum

assured (benefit customers get) by GDP and the sum assured by population.

"When it comes to health insurance, policy holder needs certainty in settlement of claims... The industry can look at an awareness campaign to make policyholders aware of medical conditions and exclusions," she said.
