Bangladesh RMG Industry: SWOT Analysis

S

Strengths

- 1. Cost Competitive Labor** cost advantage compared competing RMG Manufacturing Export Countries.
- 2. Industry Experience:** The country has a well-established and experienced workforce in the garment industry.
- 3. Trade Agreements:** Bangladesh benefits from various trade agreements facilitating exports to different countries e.g. GSP Subsidy to EU and UK, duty free benefit to Canada, ASEAN collective market advantage in RMG.
- 5. Adaptability & Versatility :** The industry has demonstrated adaptability to changing fashion trends and market demands & matured to become a multi product textile and apparel source.
- 6. Middle Age Population** with average worker age of 25.9 in RMG, which is vital for growth in Industry.

W

Weaknesses

- 1. Environmental :** The environmental impact regarding water and energy consumption may impact Sector but ongoing progression and improvements in the same may reduce the impact to minimal.
- 2. Dependent on Raw Material Import is high:** Mainly Cotton Yarn and Ready to use Fabrics.

O

Opportunities

- 1. Diversification:** The industry can explore product diversification to meet the evolving demands of the global market.
- 2. Technological Integration:** Adopting advanced technologies can enhance efficiency and productivity.
- 3. E-commerce Growth:** The growing trend of online shopping provides an avenue for increased sales and market reach.
- 4. Sustainability:** Sustainable practices can appeal to environmentally conscious consumers.
- 5. Global Market Expansion:** Exploring new markets and forming strategic alliances can open up avenues for growth.
- 6. ASEAN Trade:** The huge market of ASEAN can give boost to RMG sector

T

Threats

- Global Economic Uncertainty:** Economic downturns in major consumer countries can impact the demand.
- 2. Intense Competition:** The global garment industry is highly competitive, and other low-cost mfg countries pose a threat.
 - 3. Supply Chain Disruptions:** Events like natural disasters or geopolitical tensions can disrupt the supply chain.
 - 4. Trade Barriers:** Changes in trade policies and tariffs in key markets can affect the industry's competitiveness.
 - 5. Labor Issues:** Strikes, unrest, or changes in labor laws can disrupt the workforce and production..

Bangladesh RMG Industry : Outlook

What does this mean for companies operating in the sector?

- Companies investing in the Man-Made Fiber segment are likely to witness faster growth
- Companies expanding their portfolios with higher-margin product categories will perform better
- Companies expanding into nontraditional markets to consolidate market share

- It is expected that Bangladesh apparel export to grow at 5.3% CAGR and reach USD 56 Bn by 2026E
- With dominance in cotton-based apparel, Bangladesh is increasingly focusing on Man made fiber to ride on a stronger global growth outlook
- Migration of global fashion retailers' order flow from China will drive market share expansion for Bangladesh apparel

Mid-Term Outlook

Long-Term Outlook

- Preferential trade deals and strong backward linkage could ensure a smooth transition for the apparel sector
- Export growth picked up from Quarter3 Year 2024
- The total export is likely to be affected after 2026 resulting in a significant increase in tariff rates
- Securing preferential trade agreements, focusing on sustainability, and enhancing competitiveness would help to smoothen the transition path.

What does this mean for companies operating in the sector?

- We expect well-established apparel exporters to consolidate their market share further
- Product portfolio to have a greater share in higher margin products
- Well-established companies to move lower margin manufacturing to countries that still enjoy duty benefits

Vietnam's garment & textile export turnover over the years

(Unit: USD million)

Macro Factors - Vietnam

Opportunities

- The market is showing signs of recovery, and it is expected that the export turnover will increase
- Free trade agreements will support Vietnam to be biggest garment exporters in the world
- Government of Vietnam and Vietnam Textile & Apparel Association are actively working for trade activities and remove obstacles for business

Challenges

- Application of EPR (extended producer responsibility) and CBAM (carbon border adjustment mechanism)
- Continued inflation in key markets, causing reduced purchasing power and orders from buyers
- Input, production and freight costs are high

Macro Factors

- Support from the government of Vietnam:
 - Lower lending interest rates leading to lower loan costs for businesses
 - Government's current support policies available to business may be extended in 2024
 - The strategy for developing Vietnam's textile, garment, and footwear industry to 2030, with a vision to 2035, has been approved, detailing specific activities
- Inflation and interest rates are decreasing, exchange rates are stable, bad debt risks are under control

Way Ahead

- Investment in sustainable development. Search and apply new eco-friendly technologies, recycled materials and raw materials
- Diversify source of raw material supply
- Apply technology in production for efficiency

Our Unique Proposition

Multinational Presence

- 24 manufacturing facilities spread across 5 countries

Strategic Pathway To Growth

Guidance vs Achievement

To grow at 12-15% CAGR and cross the Rs 3,000 crore revenue mark

Plan to expand and be present in one more supply chain

EBITDA till FY21 was low on account of continuous expansion plan taken by the Company. In the coming years, the leverage will play out which will lead to improvement in EBITDA margins

ROCE to improve from 12% in FY22 and remain healthy at 18-20%

Doubled our revenue from Rs 1,490.9 crore in FY21 to Rs 3,158.4 crore in FY23, thereby **surpassing our growth guidance**

With the acquisition of Guatemala unit in 2023 the company is now **present in 3 out of 4 big supply chains**

Improved EBITDA margins from 4.1% in FY21 to 8.1% in FY23. Margins for 9MFY24 stood at 9.1%. Margin improvement is attributable to better product mix and operating leverage

ROCE of **26.3% in 9MFY24**
