**Subject: Disclosure of information under Regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015**

Dear Sir / Madam,

Pursuant to the regulation 30 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, please find attached herewith Investor Presentation – May 2022 of the Company.

The aforesaid presentation is also available on the Company's website [www.fineorganics.com](http://www.fineorganics.com).

We request you to take the above information on your record.

Thanking you,

Sincerely,

For Fine Organic Industries Limited

**Pooja Lohor**  
Company Secretary and Compliance Officer

# Investor PRESENTATION

May - 2022

---

This presentation and the accompanying slides (the “Presentation”), which have been prepared by **Fine Organic Industries Limited** (the “Company”), have been prepared solely for information purposes and do not constitute any offer, recommendation or invitation to purchase or subscribe for any securities, and shall not form the basis or be relied on in connection with any contract or binding commitment whatsoever. No offering of securities of the Company will be made except by means of a statutory offering document containing detailed information about the Company.

This Presentation has been prepared by the Company based on information and data which the Company considers reliable, but the Company makes no representation or warranty, express or implied, whatsoever, and no reliance shall be placed on, the truth, accuracy, completeness, fairness and reasonableness of the contents of this Presentation. This Presentation may not be all inclusive and may not contain all of the information that you may consider material. Any liability in respect of the contents of, or any omission from, this Presentation is expressly excluded.

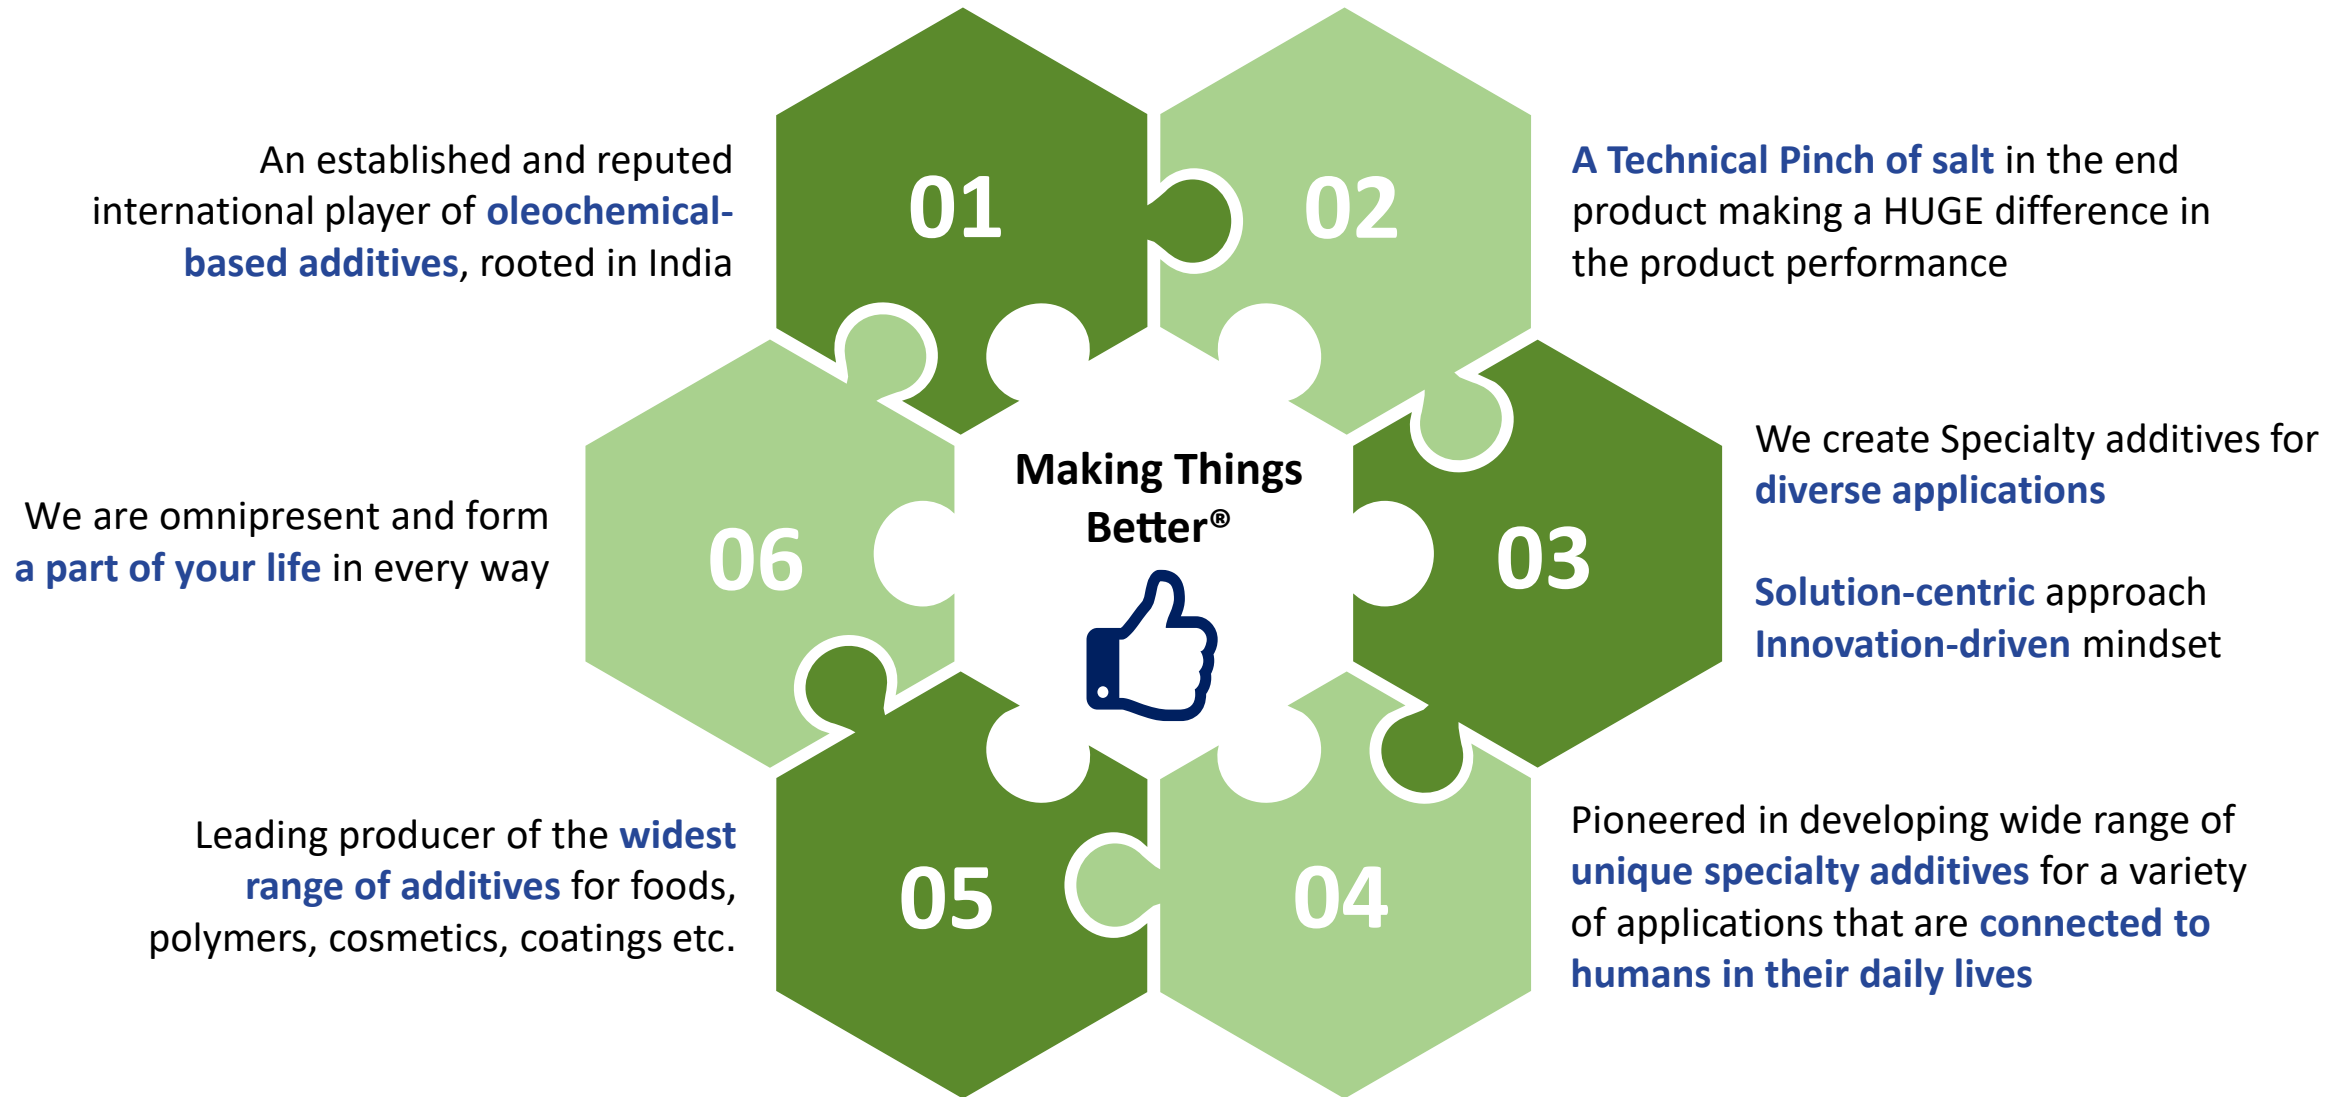

This presentation contains certain forward looking statements concerning the Company’s future business prospects and business profitability, which are subject to a number of risks and uncertainties and the actual results could materially differ from those in such forward looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in earnings, our ability to manage growth, competition (both domestic and international), economic growth in India and abroad, ability to attract and retain highly skilled professionals, time and cost over runs on contracts, our ability to manage our international operations, government policies and actions regulations, interest and other fiscal costs generally prevailing in the economy. The Company does not undertake to make any announcement in case any of these forward looking statements become materially incorrect in future or update any forward looking statements made from time to time by or on behalf of the Company.

**FINE ORGANICS**

The Fine Story  
Of Success

## Demand for oleochemical derived additives is increasing

Increasing consumer awareness for environment has resulted in remarkable preference for 'Green' and 'Sustainable' products

FINE additives are majorly bio-based, safe to use and bio-degradable; therefore, can offer the most effective benefits through 'Sustainability' combined with excellence in functionality and safety

FINE green additives have been effectively replacing potentially hazardous chemicals in wide range of industries such as plastics, packaging, foods, cosmetics, rubbers, coatings etc. without compromising on the performance

Minimized waste generation, effluent management through effective production process and stringent compliance to regulations

**460+**  
Products

**800+**  
Direct Customers

**180+**  
Distributors Globally

**1 Lakh+**

**TPA of In-house Capability**

In-house capability for Product development, Process technology and Engineering R&D

**75+**

**Countries of Export**

Largest producer of oleochemical based additives in India Strong player globally in this industry

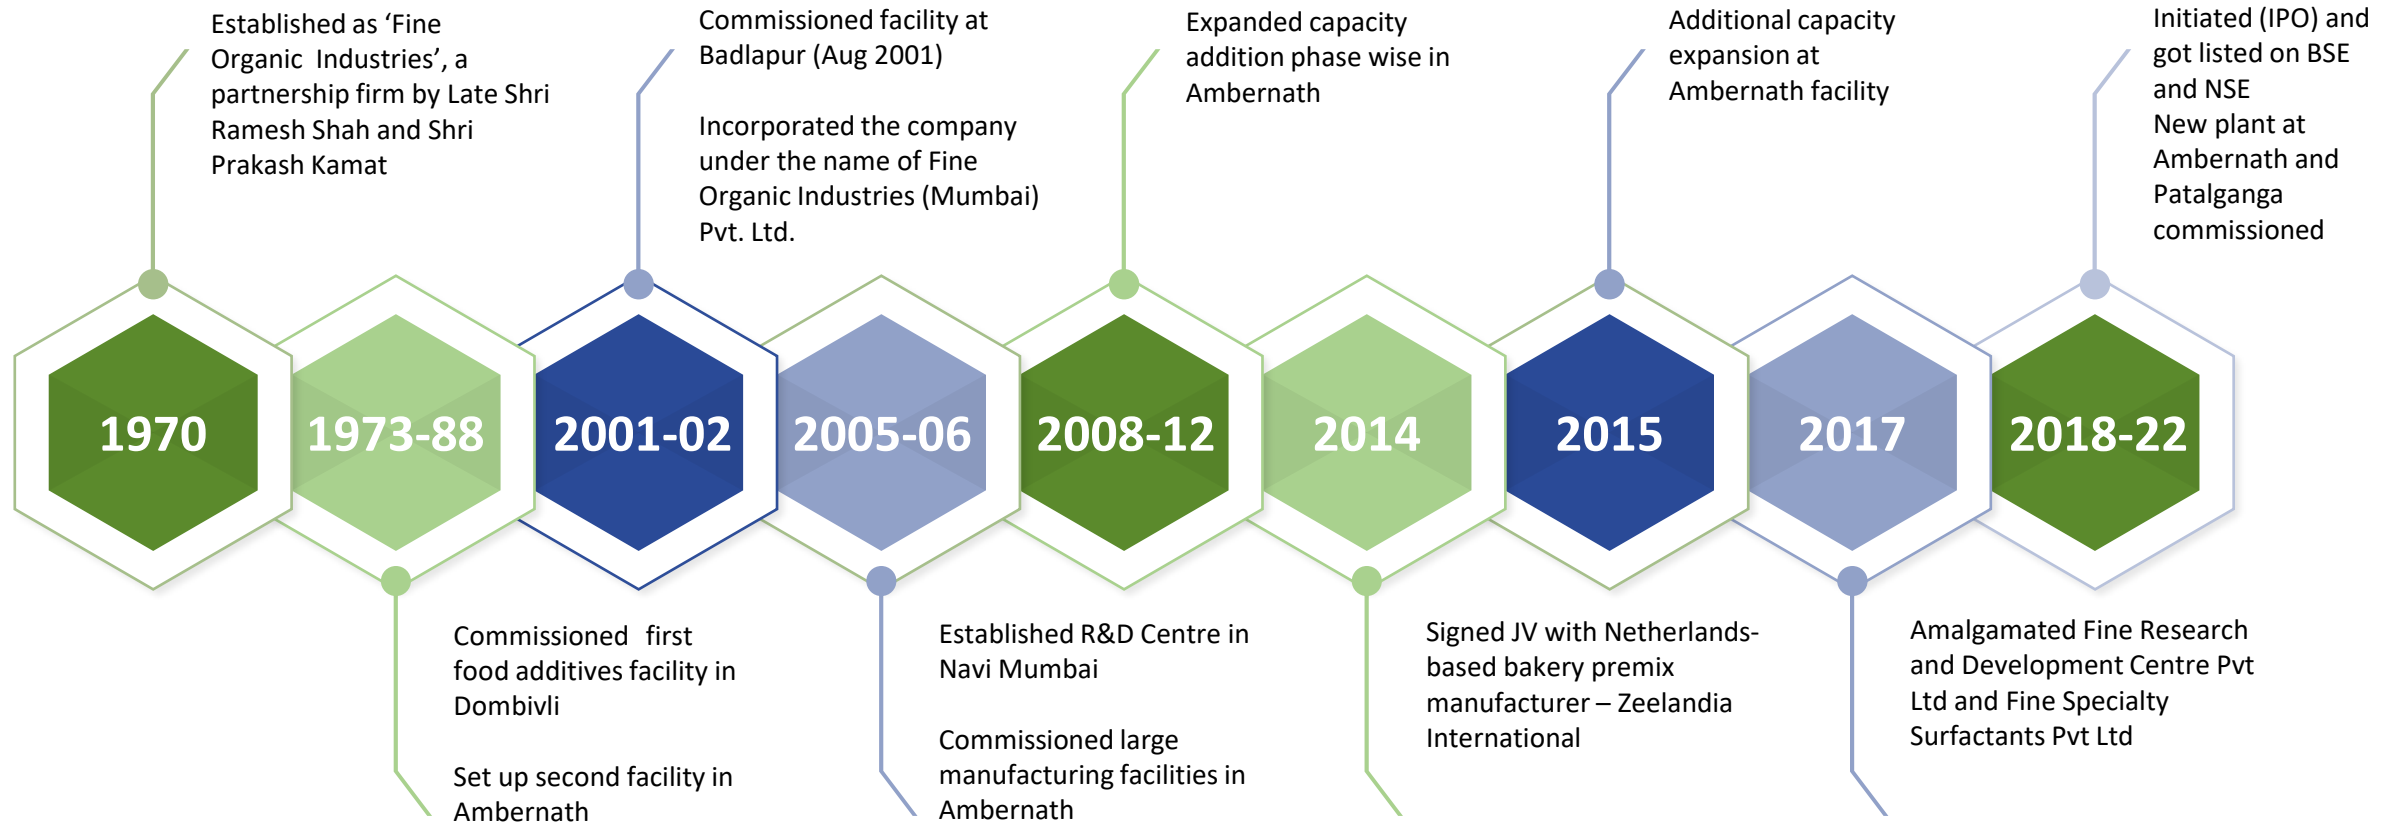

**FINE ORGANICS**

High-Performance Environment  
Friendly Additives

# 50 years of Journey

**750+**

**Employee  
Strength**

**>15%**

**Women  
Employees**

**>12%**

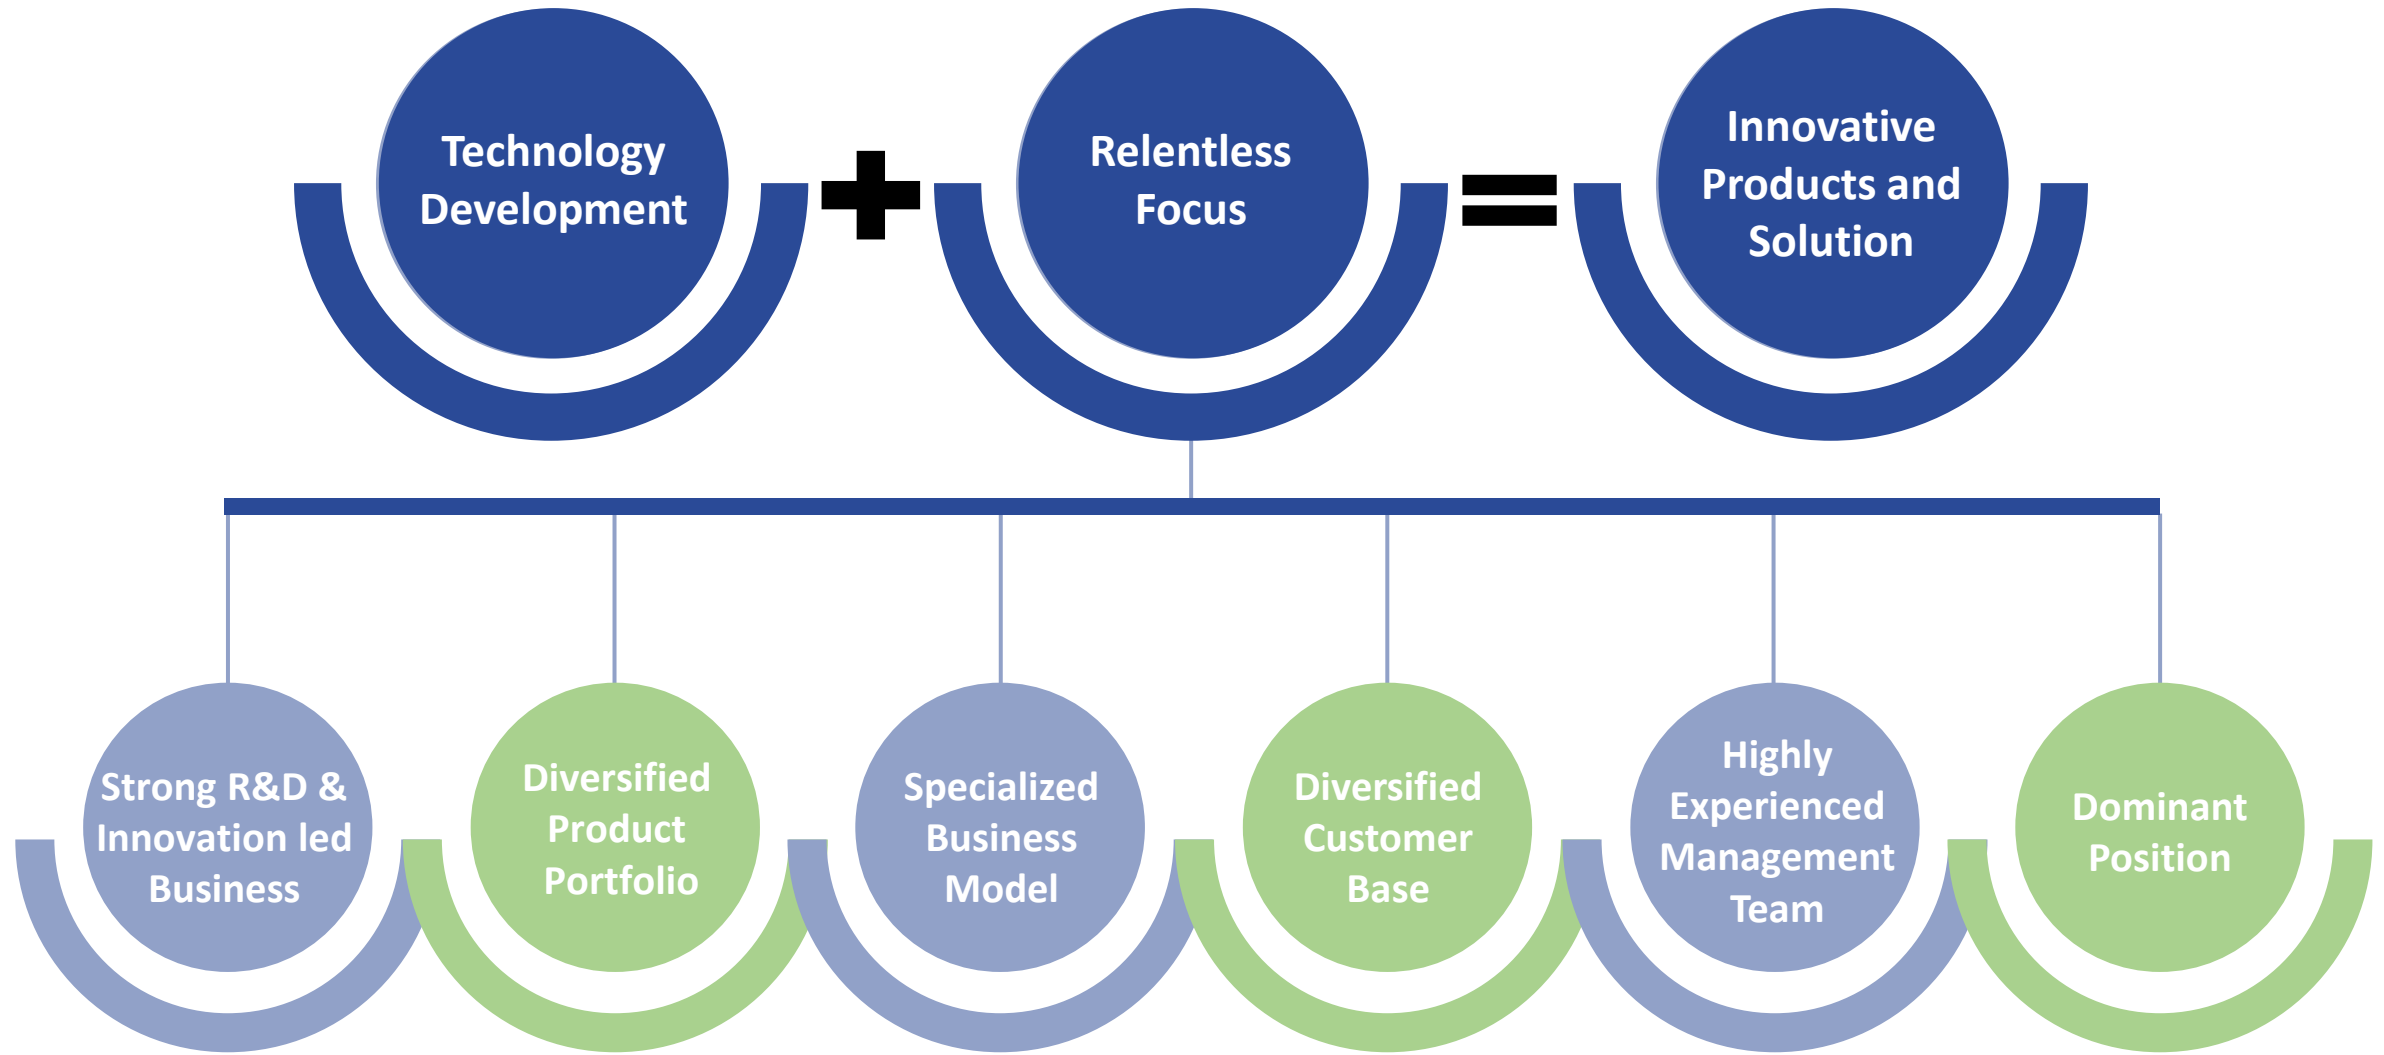

**Employees  
completed 25  
years of journey  
with us**

**>13%**

**Comprise 1st &  
2nd generation  
of employees**

Integrity is both a value as well as a character that is embedded in every Fine Organics employee, manifesting itself in every thought and action, every day with everyone

Creating and encouraging home-grown leadership with the signature Fine Organics character comprising integrity, trust, fairness and strong values

# 1. Strong R&D : Innovative Approach

## Strong R&D Capabilities

- Value Creation; Effective and Efficient technical support to customers
- Dedicated team of **20+ Scientists and Technicians**

## In-House Design and Engineering

- In-house capabilities for plant designing and engineering
- **Minimize capital expenditures** & quicker commissioning

## New Product Developments

Specialty Additives for:

- **Feed nutrition**
- **Coatings**
- **Foods**
- **Polymers**
- **CosPha**
- **Others**

## Focus on

Developing  
New Products

Improving  
Process  
Technology

Exploring  
New Markets

Expanding  
Capacities

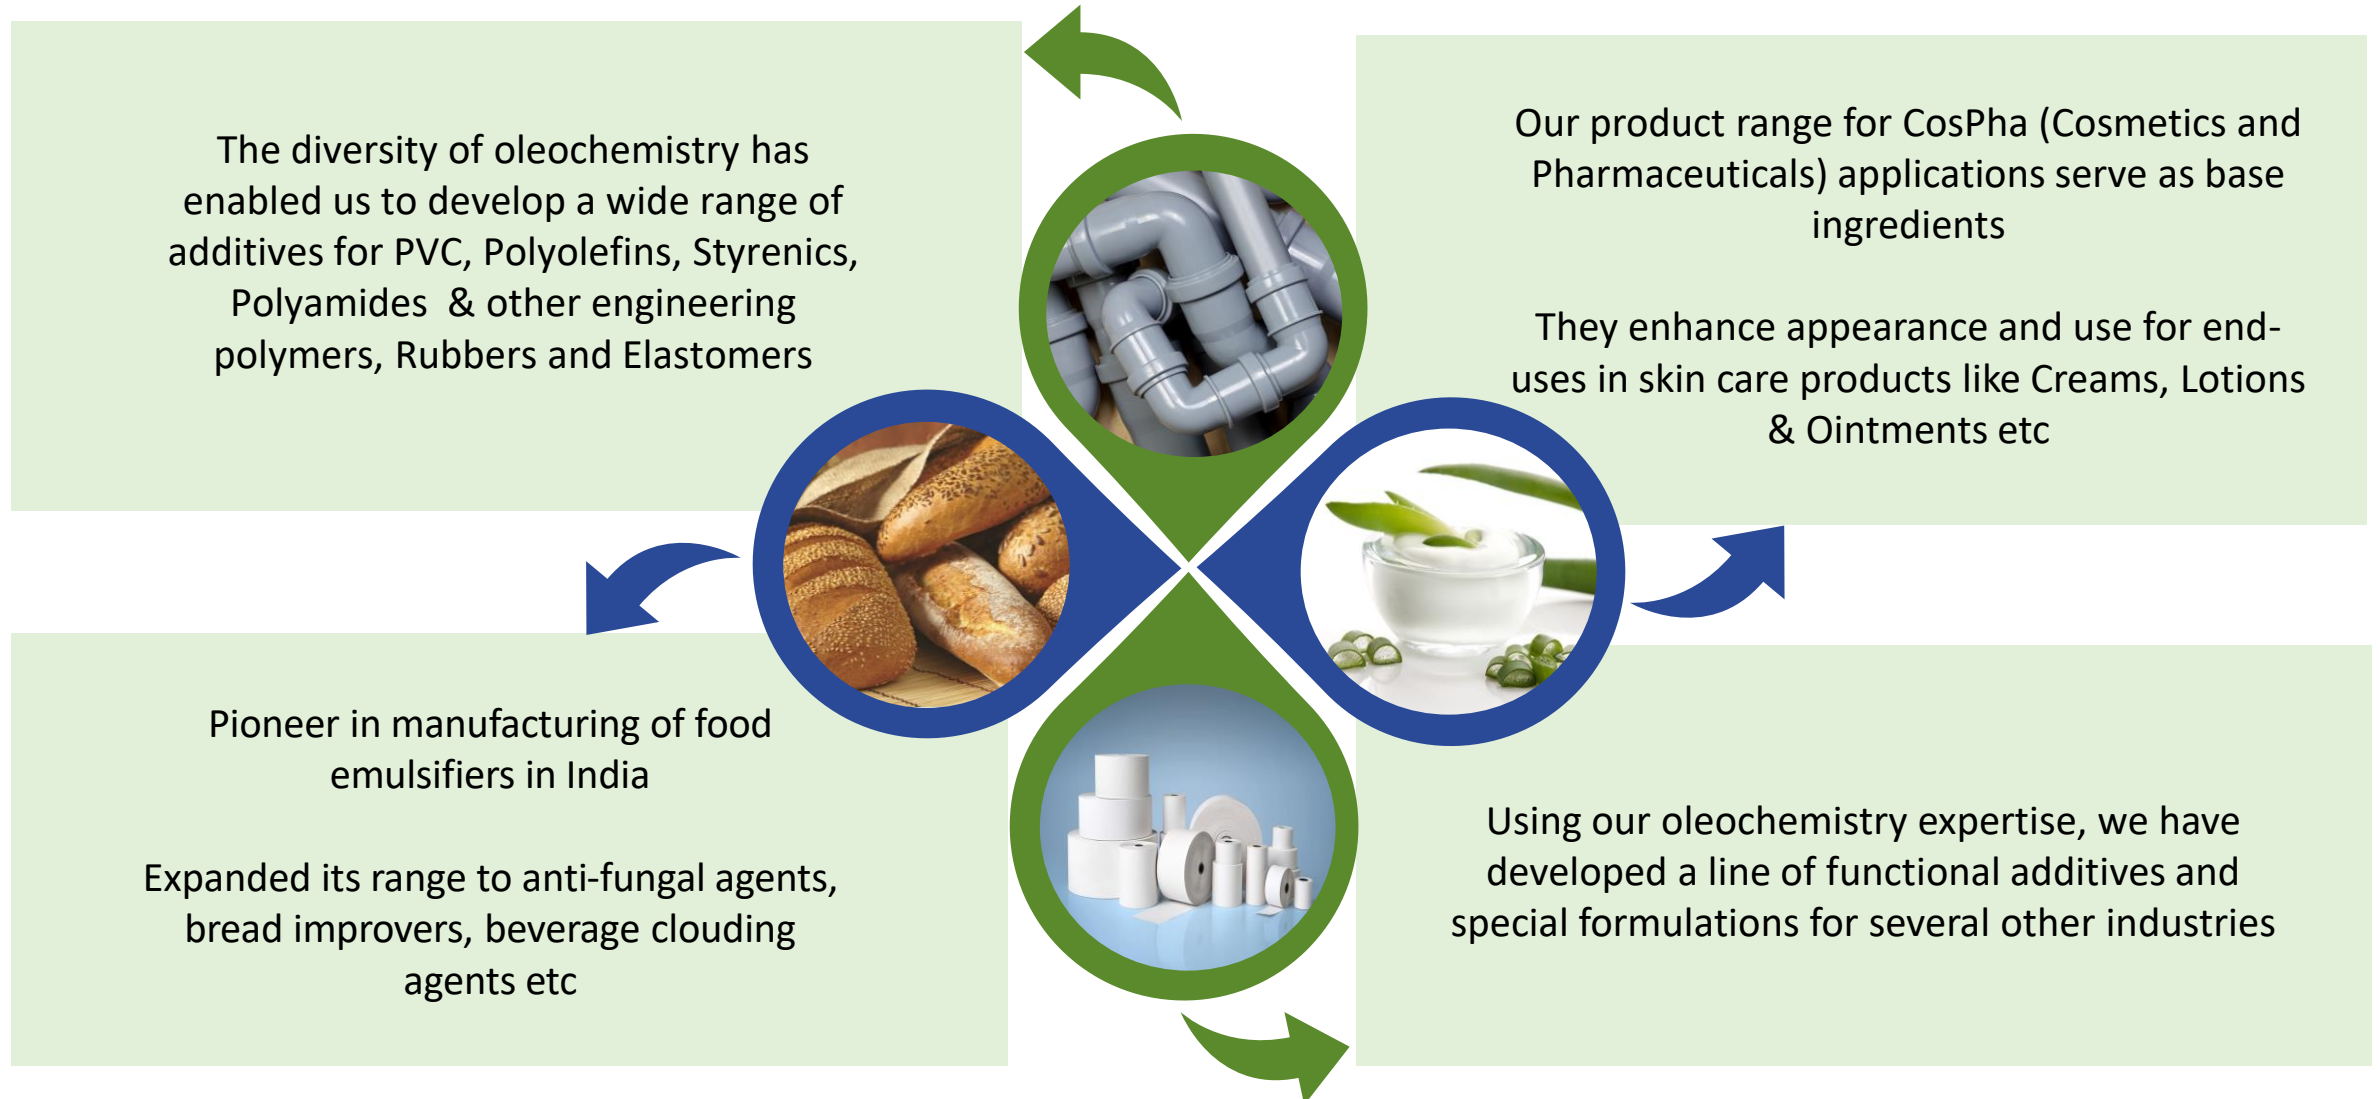

# With Industry Standards and Regulatory Credentials

- ✓ Setting new benchmarks in quality and consistency
- ✓ High safety and productivity standards
- ✓ Products are appreciated by customers worldwide for their consistent quality and packaging standards

Fine's facilities are fully geared towards meeting growing **Global Demands**

## 2. Diversified Product Portfolio : Multiple End-users

## 2. Diversified Product Portfolio : Multiple End-users

### Food Additives

Additives for maintaining the quality and freshness of the food products, impart better product structure integrity and helps in increasing the shelf life of food products

01

### Polymer Additives

Used for various functionalities in wide range of plastic products made from various polymers

02

### Additives for Coatings

Used as anti-settling agents, emulsifiers, thickening/anti-sagging agents, wetting and dispersing agents, defoamers, biocides and anti-mar waxes for use in coating applications. Capable of improving the appearance and durability of a coating

03

### Emollients for Cosmetics

Enables manufacturing of products with different structures like creams, gels, pastes, lotions etc. Aids in achieving long term physical stability for transport and storage. Increases sensory perception and the chemical stability of the sensitive active agents

04

### Feed Nutrition Additives

Replaces harmful antibiotics and improves feed efficiency and imparts several technical advantages to the end products

05

### Specialty Additives

A wide range of specialty performance additives for various industries

06

# 3. Specialised Business Model : Entry Barriers

## Customer Loyalty

Lengthy & expensive product approval processes lead to high switching costs for customers. Due to this, customers rely on established suppliers, as performance ingredients are very critical to their end products

**Fine Organics: Eco-friendly oleo-derived green additives follow stringent quality parameters & regulations, governing the industry**

## Highly Regulated

The additives have a direct impact on human life as well as the environment, thus necessitating stringent regulatory parameters

**Fine Organics: Eco-friendly oleo-derived green additives follow stringent quality parameters & regulations, governing the industry**

## Limited Players

Limited & small players in Indian specialty additives market. Globally Few players which are very large

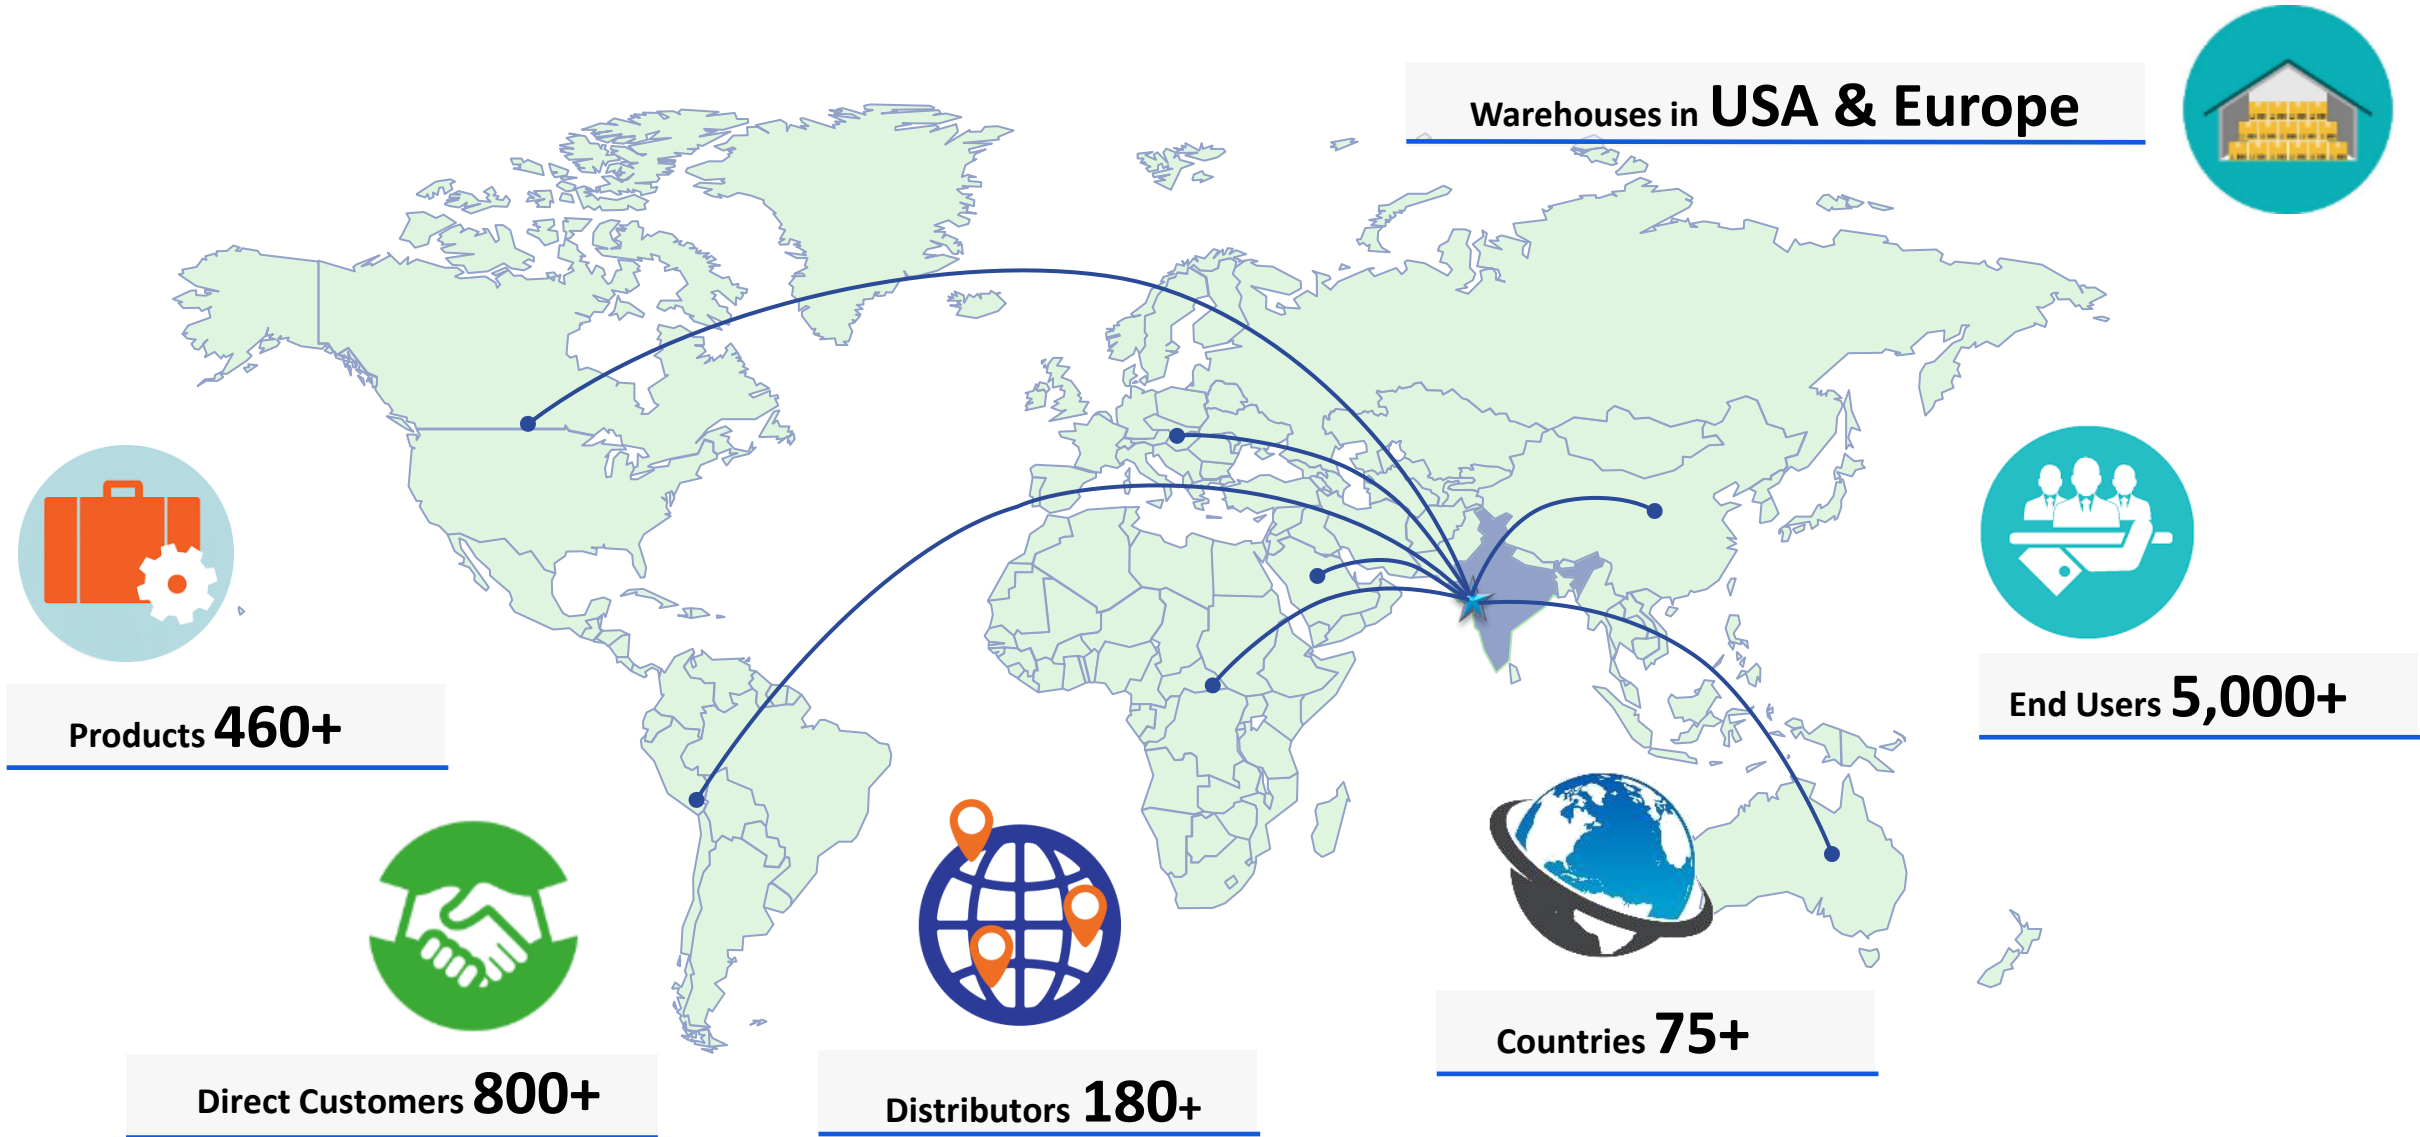

**Fine Organics : Largest organised player in the Indian market & is making its presence across the globe**

## Complex Technology

Complex technology & manufacturing processes create multiple entry barriers into the oleochemical derived green additives industry. Product formulations, innovation & process technology are time & capital intensive

**Fine Organics: Has an early-mover advantage in this industry and has successfully established its in-house manufacturing set up and has been consistently delivering quality products**

# 4. Diversified Customer Base

# 5. Highly Experienced Management Team

**Prakash Kamat**

*Executive Director and Chairman*

- Holds a M.Sc. Tech- Master of Science & Tech (Oils) from Institute of Chemical Technology (formerly UDCT)
- Associated with the group since inception having experience in product development, process technology and R&D

**Mukesh Shah**

*Managing Director*

- Joined in 1973. Holds a Bachelor's degree in Science
- Played a key role in establishing quality control and marketing

**Jayen Shah**

*Executive Director and CEO*

- Joined in 1986. Holds a Master's degree in Science
- Instrumental in creating a strong vendor-partner network

**Tushar Shah**

*Executive Director and CFO*

- Joined in 1989 and led several initiatives like ERP, CRM, etc.
- Key role in the development of the first slip additive facility

**Bimal Shah**

*Executive Director*

- Joined in 2009. Holds a Bachelor's degree in Science from Purdue University and a Master's degree from Boston College
- Led initiatives for new projects and processes

**Prakash Apte**

*Independent Director*

- On the Board since Nov 2017. Holds a Bachelor's degree in Mechanical Engineering
- Previously served as MD of Syngenta India

**Kaushik Shah**

*Independent Director*

- On the Board since Jan 2018. Holds a Bachelor's degree in Commerce and a Qualified Chartered Accountant
- Previously served as MD of Fulford (India)

**Mahesh Sarda**

*Independent Director*

- On the Board since Nov 2017. Qualified Chartered Accountant
- Previously served as a Partner at Deloitte Haskins & Sells

**Parthasarathi Thiruvengadam**

*Independent Director*

- On the Board since Nov 2017. Holds a BTech degree from IIT, Madras and Post Graduate in Industrial Engineering
- Previously served as a Senior Director with Deloitte India

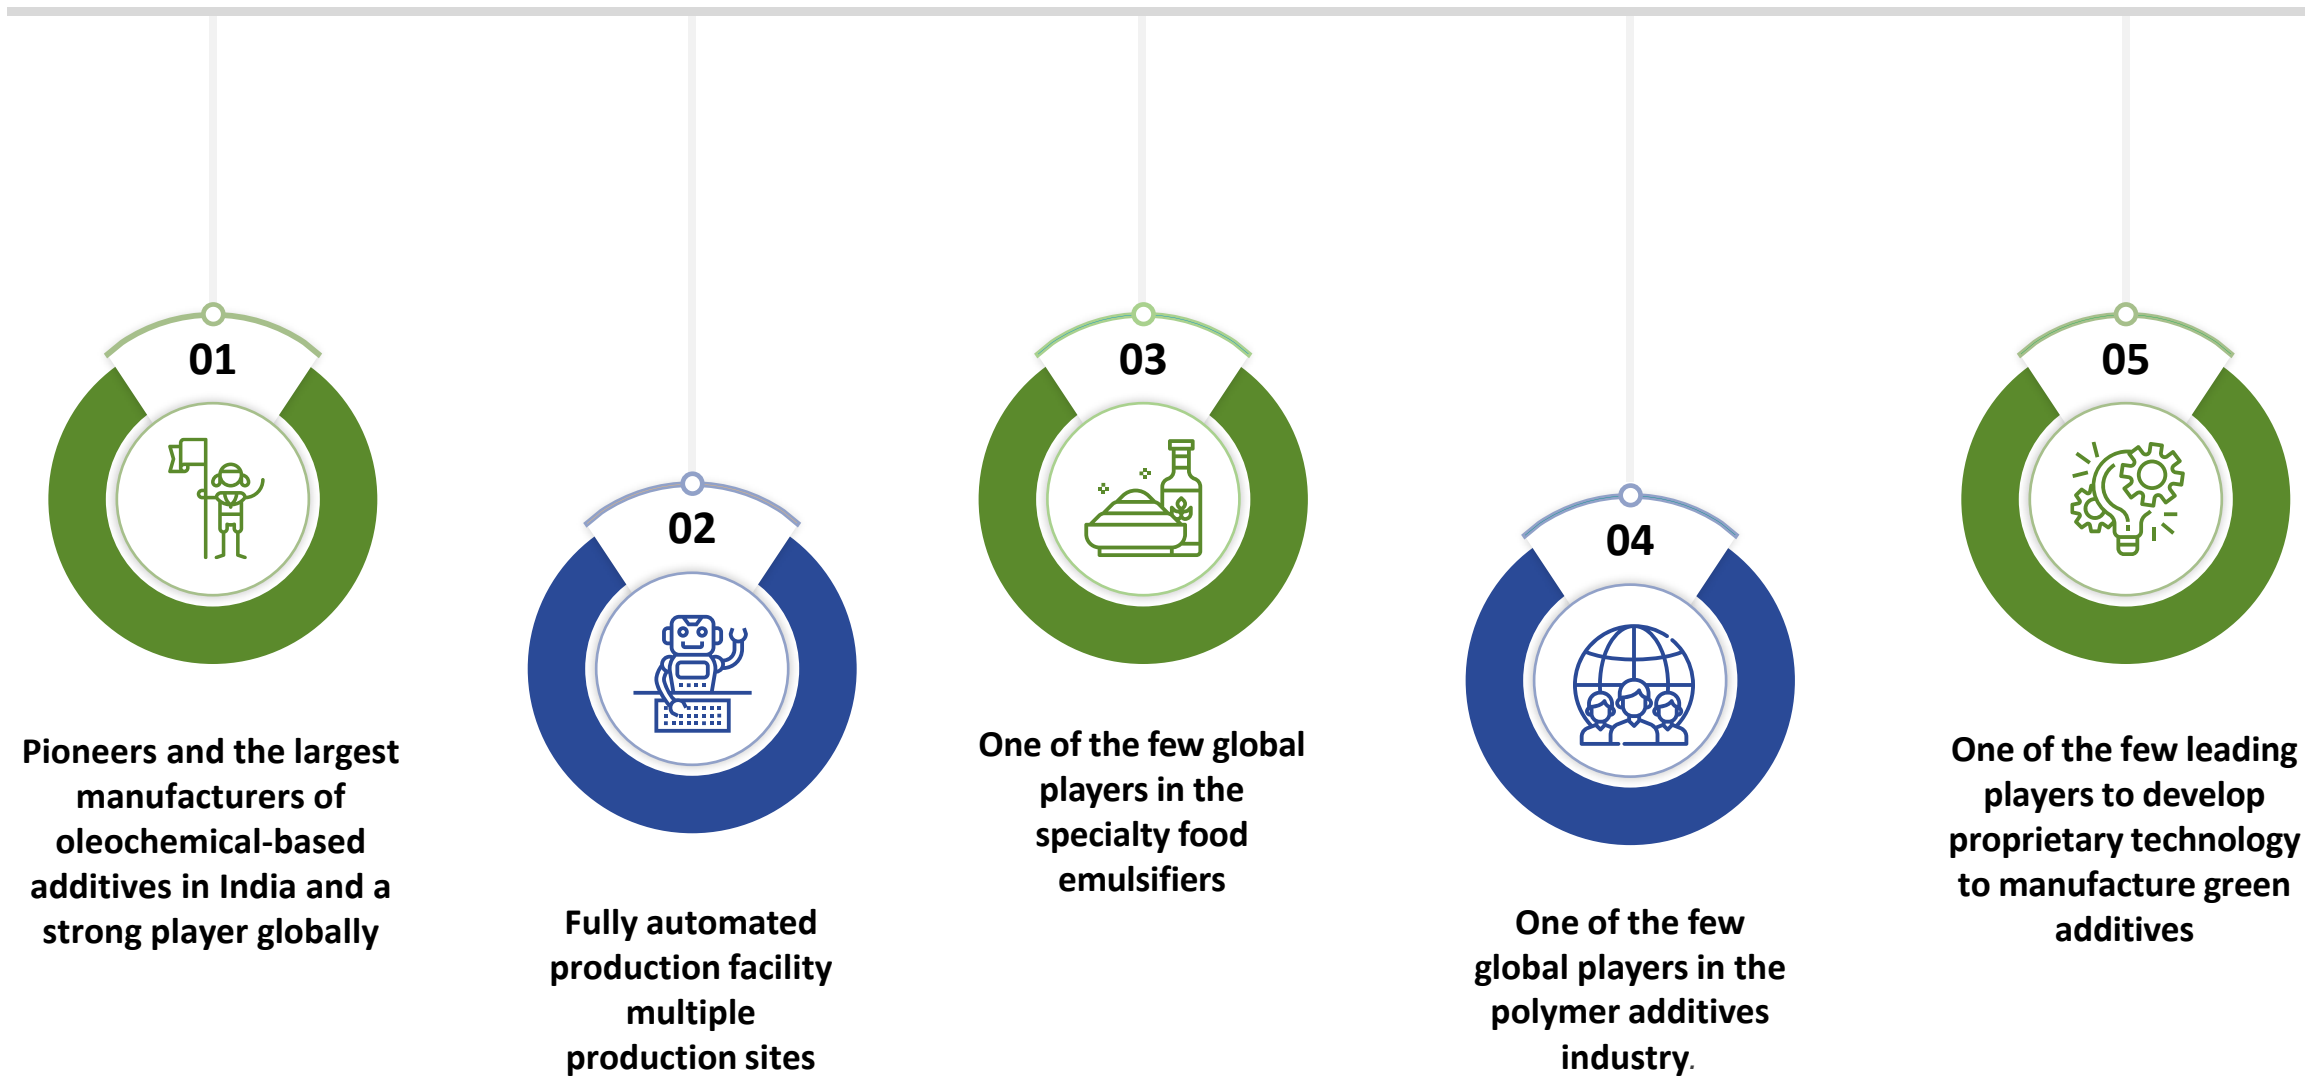

**Pratima Umarji**

*Independent Director*

- On the Board since Nov 2017. Holds a Law degree
- Current panel member of the "Lok Adalat", Bombay High Court

# 6. Dominant Position

**FINE ORGANICS**

# Industry Potential: Multiple Growth Levers

1. Food Additives
2. Polymer Additives
3. Other Specialty Additives

# 1. Food Additives

## Global Food Emulsifiers Market Size\*

### Region-wise Growth (From 2018 – 2023E) In US \$ Mn

Asia Pacific

**6.7%**

High growth Rate

### Growth Drivers

Increase in consumption of convenience foods and premium products

Growing number of end-use applications due to multifunctional attributes of emulsifiers

Rise in health awareness & quality consciousness of consumers in developed nations demanding healthy packed foods

## Indian Food Emulsifiers Market Size\*

### Consumer Food Industry (From 2018 – 2023E) In US \$ Million

### Growth Drivers

Increasing numbers of Food manufacturing Entities

Rising demand for healthier and better-for-you products

Changing consumer preferences for processed and packed convenience foods

# 2. Polymer Additives

Replacement of conventional materials by plastic in several applications

Increasing preference for non-toxic polymer additives

Development of new polymer additives

Increasing demand for plastic due to rapid urbanization and rising purchasing power among consumers

Rising disposable income

### 3. Other Specialty Additives : Key Drivers

Industry	Specialties	Feed Nutrition	Cosmetics & Pharmaceuticals	Additives for Coatings	Rubber
