MAKEBOT

STEAMing THE NATION

MAKEBOT

STEAMing THE NATION

'Everyone should learn to code, it teaches you how to think'
- Steve Jobs

STEAM Education - Makebot

- The Company has introduced concept of STEAM education learning through robotics and has branded the same as “**Makebot**”
- STEAM is an educational approach to learning that uses **Science, Technology, Engineering, the Arts and Mathematics** as access points for guiding student inquiry, dialogue, critical thinking and work through the creative process. The programs constitutes STEAM kits in form of **robotics, artificial intelligence (AI) and internet of things (IOT)**.
- Makebot offers comprehensive STEAM programs with a **360 degree solution** including STEAM Lab setup, competition kits, in-school curriculum, digital academy, on-demand learning app and mentorship programs for teachers.
- **one stop**, unified STEAM education platform using **robotics and artificial intelligence**.

Why STEAM Education?

By 2022, STEAM jobs will grow by 45% Out of the 20 fastest growing occupations, 15 require significant mathematics or science preparation

People inn STEAM fields can expect to earn **26% more money** on average and be less likely to experience job loss.

If we don't engage students by the 5th grade in STEAM, **92% of boys** and **97% of girls** will lose interest. (Source: Dr. Kenneth Wesson)

Business Update

Launch of 'Codingbee' – World's Largest Coding Competition by Makebot, in association with Times of India

- Makebot (A subsidiary of Globalspace Technologies Limited) in association with Times of India has launched – 'Codingbee' world's largest online coding platform competition for students across grade 3rd to 12th
- The launch of 'Codingbee' happened over a virtual event organized by Makebot was graced by the inspiring stars and stalwarts of the educating field motivating the aspiring students.
- Many prominent educationists from the industry were present during the launch event like Mrs. Revathi Srinivasan, Director & Principal, Smt. Sulochanadevi Singhania School, Thane,, Dr. Mrs. Vandana Lulla., Principal - Podar International School - IB/ Cambridge, Mr. K. V. Vincent, Member of the Governing Body of the Council for the Indian School Certificate Examinations, New Delhi, Mr. Brijesh Karia, COO - Singhania Education, Mr. Vinayak Sudhakar - International Baccalaureate Organization (IB), Mrs. Jyothi Nair - Aarth Universal School, Surat, Mr. Chintan Gandhi, Chief Manager - Brand Capital, Times of India Group as esteemed panelists.
- Company has commenced registration for 'Codingbee' - over 1 lac students from 12,000 schools are estimated to participate and learn coding through 'Codingbee'.
- Finals of competition will be held in May-June '21.

"The rise of startups and concept of thought in India, built in India and scaled globally should be the mantra for all" said Mr. Krishna Singh, CMD of Globalspace Technologies bringing in an industry perspective.

Business Update

Launch of ‘Codingbee’ – World’s Largest Coding Competition by Makebot, in association with Times of India

- ‘Codingbee’ will enable children learn coding and create an app on the platform. Students who don’t know coding will also be able to learn through free material, interactive workshops by industry experts. These ideas in form of working app prototype will be shared with global tech companies who may choose to take them forward in the real world.
- ‘Codingbee’ will also bring schools together to fuel innovation and do a culmination in form of ‘Top 100 Innovative Schools’ in India.”
- Speaking at Codingbee, Mrs. Revathi Srinivasan, Director & Principal, Smt. Sulochanadevi Singhania School, Thane said that “learning Coding with a fun element makes learning effective. The way children are exposed to different languages and skill sets at an early age like music, arts, sports, drama etc., coding should also be seen as a language with the purpose of communication, in all – verbal & non-verbal forms”.
- Mr. K.V. Vincent, Member - Governing Body of the Council for ICSE, New Delhi mentioned that "Learning technology at an early age in the society has been beneficial to all of us as it is like moving with time and embracing the futuristic vision".
- Dr. Mrs. Vandana Lulla, Director – Podar International School, IB & CIE – Mumbai said that "The students have embraced the current situation with positive learnings even though they have been moved out of the cradle and put to technology". The transdisciplinary approach with coding in learning pedagogy gives an opportunity to develop skills which is the most important learning of life. – she added.
