'Supplies of milk have improved since March'

In terms of sales turnover, we achieved ₹14,500 crore in the last fiscal. In the last two financial years, we grew 16% (FY23) and 20% (FY22). In the current fiscal also, we are looking at a sales growth of around 14-15% 15%

to the March situation, the situation is reasonable and comfortable in terms of milk supplies.

As milk and milk products constitute a major chunk of your business, any sales target for the current fiscal? In terms of sales turnover, we achieved

₹14,500 crore in the last fiscal. In the last two financial years, we grew by 16% (FY23) and 20% (FY22) on year. In the current fiscal also, we are looking at a sales growth of around 14-15% 15% compared to previous year. Milk and dairy products have a share of more than 70% in the overall business. The rest of our business focuses on Dhara brands of edible oils and Safal stores, which sell fruits, vegetables and other products. We source annually 0.2 million tonne of pulp of fruits and vegetables. We process corn, peas, mango pulp and jerkin. We want to increase investment in food processing.

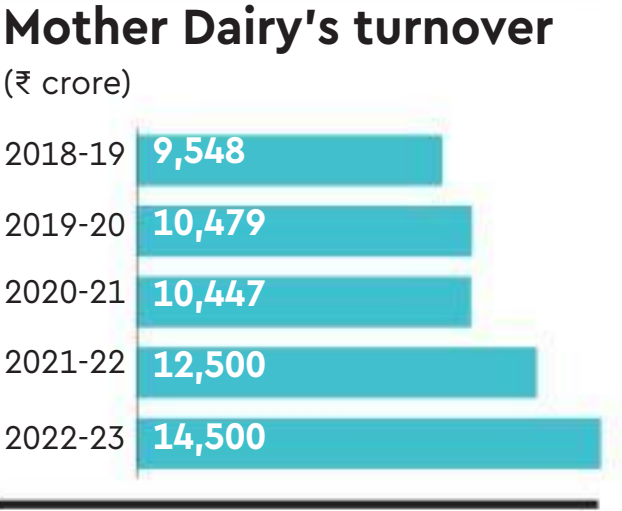

Do you plan to expand the number of Safal outlets? We are not aggressive in terms of expanding Safal outlets. We are upgrading infrastructure in these booths and we are giving a new look into our outlets. We are also looking at initiating home delivery from our fruits and vegetables booths. Out of 300-odd Safal booths, we have upgraded 100 outlets. We are investing in keeping fruits and vegetables fresh. We are also supplying to corporates and other institutional buyers such as Maruti as well as Taj group of hotels.

Are you looking at expansion of the edible oil brand, Dhara, and launching new products? We are looking at the Dhara brand as one of the growth pillars. Our agenda for the Dhara brand of edible oil is to focus on indigenous categories such as groundnut and mustard oil as far as possible. We also sell soybean edible oil, a chunk of it is imported. We want to invest in more value-added products in Delhi and the NCR regions. We have pipelines of new dairy products such as custard, range of breads and related products over the next couple of months as demand increases.

Organised players, including Mother Dairy and Amul, hiked milk prices multiple times in the last one year citing higher fodder cost, robust demand and lower production due to lumpy skin disease. However, rains in recent months have improved green fodder supplies, giving a boost to milk supplies. Manish Bandlish, managing director, Mother Dairy Fruit & Vegetable, tells Sandip Das that sales will grow at 15% in the current financial year, almost at the same pace of the previous year.

Have milk supplies improved because of adequate monsoon rains in key producing regions in west and northern regions? Due to recent rains, the pressure on green fodder supplies has eased compared to last year. It reached around ₹15/kg which now dropped to ₹8-10/kg depending on the region. The pressure on farmers in getting fodder is less now. Since March, the milk supply situation has drastically changed. The situation was grim and most of the dairy companies were struggling on commodities, especially fat (ghee), and there were discussions on the possibility of imports of dairy products. Everybody was facing a crunch of commodities. Since April, because of the weather, the milk availability in some of the regions of the country, especially north and west, has been much better than anticipated. Because of that, compared
