Dear Sir/Madam,

Pursuant to Regulation 30 of the SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015 ("LODR Regulations"), it is informed that AZAD Engineering has recently secured a prestigious nation pride contract from GTRE (Gas Turbine Research Establishment), one of the pioneering Research and Development Organizations under DRDO (Defence Research and Development Organisation) and the Ministry of Defence, Government of India, for the end-to-end manufacturing, assembly, and integration of a complete assembled **Advanced Turbo Gas Generator Engine**. This engine is a critical development for India and will be utilized in various defence applications. This milestone marks AZAD's entry into propulsion systems, showcasing its growing presence and capabilities in the field.

AZAD engineering will play a vital role as a single source Industry Partner (IP) to GTRE for the success of this mission. AZAD will start delivering first batch of fully integrated Turbo Engines by early 2026.

AZAD Engineering has expanded its manufacturing capabilities by vertically integrating a new, highly specialized portfolio of manufacturing and assembly for the Power Generation, Aerospace & Defence and Oil & Gas sectors. This vertical integration and enhancement in capability enables AZAD to offer end-to-end manufacturing for a complete, assembled **Advanced Turbo Engine**, creating massive opportunity to build capability for a complete propulsion systems solution for the Nation & Global defense requirements.

Representing a significant milestone for the company.

By entering the production of complete gas turbines, AZAD is set to play a more integral role in India's defence sector manufacturing capabilities, enhancing self-reliance and contributing to our Prime Minister Shri Narendra Modi Ji's vision of "Atmanirbhar Bharat".
