Dear Sirs,

Sub: Update

We write with reference to our earlier update dated 30 April 2021, wherein we informed that in relation to short term, non-exclusive contracts/purchase orders for global engineering services with other companies in the GE Grid Solutions division outside India, the Company was formally notified that with effect from 30 June 2021 no new contracts/purchase orders will be issued to the Company in relation to those services and existing contracts/purchase orders will lapse at their expiry date or be terminated by notice.

The management had requested GE Grid Solutions to reconsider its decision and continue availing engineering services from the Company, as has been done in past and meanwhile extend the date of termination as various options are being explored. On 29 June 2021, GE Grid solutions has extended the date of termination to 31 July 2021.

The management will continue to explore options to minimize the impact on the Company.

This is for information of the exchange and the members.

Thanking You,

Yours faithfully,

for GE T&D India Limited

Manoj Prasad Singh
Company Secretary
